Once a vote or change has occurred on any of the divisible questions, the remaining divided sections may not be withdrawn without a majority of those voting or without unanimous consent. MESSAGE FROM THE GOVERNOR

April 13, 1994

Madam President, Mr. Speaker
and Members of the Legislature
State Capitol Building
Lincoln, NE 68509

Dear Madam President and Senators:

With this letter, I am returning LB 991 with line item reductions. The total LB 991 cash and general fund vetoes over the next three years is $26.4 million. A list of the individual vetoes is attached, representing a total general fund reduction of nearly $3.0 million in FY 1994/95 and more than $5.9 million over the next three years. In addition there are vetoes to the Highway Cash Fund of $6.8 million per year for three years.

The decision to make these reductions was not an easy one; however, it is my constitutional duty to review the planned expenditures to affect the most efficient plan possible. In my opinion, these additional reductions are necessary to keep us on sound fiscal footing going into the 1995-97 biennium.

The increase for teachers salaries has been reduced by $1.5 million. I continue to believe that teachers salaries should be included in the overall LB 1059 funding formula and will continue to work on this until it is accomplished. While the effort of the Legislature to increase funding for the teacher salary program is commendable, our fiscal situation makes it necessary to reduce this increased funding. My veto would still result in a $1.5 million increase in this valuable program, bringing total funding for this program to $8.5 million.

Six hundred thousand dollars was vetoed from the Children's Mental Health Roadmap appropriation. The remaining $400,000 will provide for some development of mid-level mental health services but more within the budget limitations we must face. I will require the DPI to file its plan with the Legislature outlining how these additional funds can best be spent. I will encourage DPI to consider using this additional funding for pilot projects in the regions.

LB 991 includes an appropriation of $600,000 in General Funds to provide salary increases to employees of the State Probation System. These funds were added by adoption of a floor amendment to the budget bill. The appropriation has been vetoed and should be considered as part of the regular budget process next year. In addition, I would remind Senators that probation administration has consistently received appropriations to provide salary increases equal to those provided for other state employees.

LB 991 included the addition of $140,000 for the Nebraska Math/Science Systematic Initiative for FY 1994/95 and is reduced by $40,000. This allows $100,000 of state general funds to remain. This is the same level of appropriation provided in the current year to match available federal funds for this initiative to enhance the math and science curriculum in our K-12 schools.

I am also vetoing $40,000 of the additional $80,000 added to the Postsecondary Education Award Program (PEAP) for FY 1994/95. PEAP is the program for students attending independent four-year institutions. Funding for this program will now be more than $460,000 for next fiscal year. Both the Legislature and I have given generous support to this worthy initiative, but given our budget constraints this veto was necessary.

The $100,000 for the Trail Development Assistance Fund is vetoed for both FY 1993/94 and FY 1994/95. While funding may be desirable in this instance, it was not included in my original recommendation and additional funding is not available during these mid-biennium adjustments. It should be noted that $100,000 from the general fund was appropriated for this program last fiscal year.

The increased funding for the Textbook Loan Program has been vetoed. The proposed increase of $50,000 to provide textbooks to private school students should be considered as part of the regular biennial budget request. This leaves $162,500 in the program.

The amount added for the retirement payout for the Commissioner of Education has been vetoed. While the costs related to this retirement are not minor, the Department budget can be adjusted through vacancy savings and internal reallocations to cover these costs during the next fiscal year.

Finally, the appropriation to the Department of Roads, Program 569, is reduced to $314,526,375. This means that $6,827,270 less in gas taxes will be paid by taxpayers as compared to the Legislature's intent as expressed in LB 991. This will maintain the variable gas tax rate at the current average rate of 23.4 cents per gallon. $314.5 million will remain for continued enhancement of the State's primary roads and development of the State's expressway system. With this veto the

Department of Roads' budget will increase nearly $21 million over the current appropriation as a result of increased motor vehicle sales and variable gas tax revenues over original projections.

Thank you for your hard work and cooperation during this session. I ask for your support in sustaining these reductions in an effort to attain an orderly approach to all of the State's budget needs in the coming years.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

37-102. Sections 37-101 to 37-726 and 37-1401 to 37-1408 and section 3 of this act shall be known and may be cited as the Game Law.

Sec. 3. A permit issued to a disabled person to hunt and kill deer, antelope, or elk shall not have a limitation regarding the sex of such animal unless, for management purposes, the commission determines that all permits issued, in the management unit in which the application for a permit is made, shall have a limitation regarding the sex of the animal.

Sec. 4. That section 37-215, Revised Statutes Supplement, 1993, be amended to read as follows:

37-215. (1)(a) The commission may issue permits for the hunting and killing of deer and prescribe and establish regulations and limitations for the hunting, killing, transportation, and possession of deer. The commission may specify by regulation the information to be required on applications for such permits. Regulations and limitations for the hunting, killing, transportation, and possession of deer may include, but not be limited to, regulations and limitations as to the type, caliber, and other specifications of firearms and ammunition used and specifications for bows and arrows used. Such regulations and limitations may further specify and limit the method of hunting deer and may provide for dividing the state into management units or areas, and the commission may enact different deer harvest regulations for the different management units as pertains to sex, species, and age of the deer harvested.

(b) The number of such permits may be limited, as

provided by the rules and regulations of the commission, and except as provided in section 3 of this act ~~but~~ the permits shall be disposed of in an impartial manner. Whenever the commission deems it advisable to limit the number of permits issued for any or all management units, the commission shall, by rules and regulations, determine who shall be eligible to apply for such permits. In establishing eligibility, the commission shall give preference to persons who did not receive a permit during the previous year or years.

(c) Such permits may be issued to allow killing of deer in the Nebraska National Forest and other game reserves and such other areas in the State of Nebraska as the commission may designate whenever the commission deems that permitting such killing will not be detrimental to the proper preservation of wildlife in Nebraska in such forest, reserves, or areas.

(d) The commission shall, pursuant to section 81-814.02, establish and charge a fee of not less than twenty dollars and not more than twenty-five dollars for residents and not less than one hundred dollars and not more than one hundred thirty dollars for nonresidents for each permit issued under this subsection.

(e) The commission may issue nonresident permits only after a reasonable period has first been provided solely for issuance of resident permits, and if the commission issues nonresident permits, the issuance of resident permits shall continue until permit quotas have been filled or a reasonable cutoff date reached. No permit shall be issued until after a reasonable period for making application, as established by the commission, has expired. When more valid applications are received for any management unit than there are permits available, such permits shall be allocated on the basis of a public drawing. All valid applications received during the predetermined application period shall be considered equally in any such public drawing without regard to time of receipt of such applications by the commission.

(f) No person shall be issued a permit to kill deer, antelope, or elk unless such person is at least fourteen years of age, except that any person who is fourteen or fifteen years of age shall only hunt deer, antelope, or elk when accompanied by a person twenty-one years of age or over.

(2) The commission may issue permits for the hunting and killing of antelope and may establish separate and, when necessary, different regulations therefor within the limitations prescribed in subsection (1) of this section for the taking of deer. The commission shall, pursuant to section 81-814.02, establish and charge a fee of not less than twenty dollars and not more than twenty-five dollars for residents and not less than one hundred dollars and not more than one

hundred thirty dollars for nonresidents for each permit issued under this subsection. The provisions for the distribution of deer permits and the authority of the commission to determine eligibility of applicants for permits as described in subsection (1) of this section shall also apply to the distribution of antelope permits.

(3) The commission may issue permits for the hunting and killing of elk and may establish separate and, when necessary, different regulations therefor within the limitations prescribed in subsection (1) of this section for the taking of deer. Permits to hunt and kill elk issued pursuant to this subsection shall not be issued to nonresidents. The commission shall, pursuant to section 81-814.02, establish and charge a nonrefundable application fee of not less than five dollars and not more than seven dollars and a fee of not less than one hundred dollars and not more than one hundred thirty dollars for each elk permit issued. A person may obtain only one elk permit in his or her lifetime, except that an applicant for a limited permit to hunt elk pursuant to section 37-215.03 may obtain such limited permit once every five years. The provisions for the distribution of deer permits and the authority of the commission to determine eligibility of applicants for permits as described in subsection (1) of this section shall also apply to elk permits.

(4)(a) Subject to rules and regulations adopted and promulgated by the commission, the secretary of the commission may designate special deer depredation seasons by executive order. The secretary may designate a depredation season whenever he or she determines that deer are causing excessive property damage. The secretary shall specify the number of permits to be issued, shooting hours, the length of the depredation season, and the geographic area in which hunting will be permitted. Each such permit shall give the holder the right to take one deer. Hunting during a special depredation season shall be limited to residents and shall be restricted to firearms which are permissible for use during the regular deer season.

(b) The depredation season may commence not less than five days after the first public announcement that the depredation season has been established. Permits shall be issued beginning not less than three days after the first public announcement of the depredation season and shall be issued in an impartial manner at a location determined by the secretary. The commission shall, pursuant to section 81-814.02, establish and charge a fee of not less than twenty dollars and not more than twenty-five dollars for a special depredation season permit. Fifty percent of the fee shall be paid by the commission to a landowner or operator within the

designated area upon satisfactory proof a deer was killed upon his or her farm or ranch during the special depredation season. Receipt of a depredation season permit shall not in any way affect a person's eligibility for a regular season permit.

LEGISLATIVE RESOLUTION 349. Introduced by Beutler, 28.

WHEREAS, the protection of the public health and welfare is the primary concern of public water supply systems; and

WHEREAS, the ability of public water supply systems to protect the health and welfare of its citizenry has been greatly reduced by unfunded federal mandates contained in the Safe Drinking Water Act; and

WHEREAS, public water supply systems cannot afford to commit limited resources on federal mandates which provide little or no benefit to public health, but must rather be permitted to focus their resources on protections which ensure the highest safety for public health; and

WHEREAS, several proposals currently before Congress would amend the Safe Drinking Water Act to allow public water supply systems greater ability to effectively protect the public health and welfare by ensuring that limited public resources can be sensibly focused on the most serious risks presented by contaminants in drinking water.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-THIRD LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature urges Congress to amend the Safe Drinking Water Act in such a manner as will permit public water supply systems to focus their resources on issues which threaten public health and which will provide flexibility in meeting the real health needs of its citizenry.

2. That the Clerk of the Legislature transmit a copy of this resolution to the Speaker of the United States House of Representatives, the President of the United States Senate, all members

of the congressional delegation from the State of Nebraska, the Administrator of the United States Environmental Protection Agency, and the Regional Administrator, Region VII of the United States Environmental Protection Agency.

ENROLLED RESOLUTION

LEGISLATIVE RESOLUTION 502. Introduced by Wesely, 26.

WHEREAS, all Nebraskans should have a reasonable expectation of quality health care at a cost they or society can afford. Government, health care providers, insurers, businesses, and consumers must work together to accomplish this goal. A partnership between government and the private sector may ultimately provide the most favorable solution to developing quality health care services at a cost that is affordable to all of our citizens; and

WHEREAS, the following principles should guide state policy for health care:

1. All Nebraskans have a right to geographical, cultural, and financial access to a basic package of health care services. Defining basic health care services should be accomplished by society with the assistance of experts in the field.

2. Mechanisms should be developed to assure that all Nebraskans receive quality health care services.

3. The financial, political, and social incentives driving our health care system must be adjusted to assure that they promote cost-effective behavior for both consumers and providers. It is important to develop innovative approaches and incentives to encourage affordable and efficient health care services.

Costs should also be controlled by enhancing administrative efficiency (e.g., reducing paperwork, fraud, abuse, and unnecessary regulations) and preventing the unnecessary duplication of services, equipment, and facilities. Improved planning and data collection are needed to better assess health care needs and costs.

4. Promoting access to basic health is a shared responsibility of individuals, society, providers, payers, and government. Those health promotion activities, clinical preventive services, and community-based preventive programs of proven benefit should be encouraged.

a. Individuals must be responsible for leading healthy lifestyles. To protect individual dignity, everyone who can, should pay for some of the cost of his or her own care.

b. Society should promote improved consumer education so that Nebraskans can become more proactively involved in both prevention and wellness-focused lifestyles, as well as become better-informed health care purchasers. Society should develop mechanisms to understand the ethical, economical, and rationing issues necessary to determine how medical services and procedures will be allocated.

c. Professional and institutional providers, both individually and collectively, must deliver high-quality and humane care to all Nebraskans. They should develop practice guidelines and outcome data that encourage the appropriate use of health care resources. Providers must develop practice guidelines which encourage necessary and preventive services and eliminate unnecessary services. Providers must assume a key role in the development of a comprehensive delivery system which supports access, quality, and cost containment. Charges for services rendered should be fair and reasonable.

d. Payers, working with government, have responsibility for designing systems that provide coverage for a basic package of health care services for all Nebraskans, regardless of condition of health, state of employment, or ability to pay. They should create mechanisms to pay for care with a minimum of administrative cost, uncertainty, confusion, bureaucracy, and paperwork.

e. Working with providers, consumers, and payers, government has a responsibility for developing incentives and creating an affordable system of universal access to basic health care for all Nebraskans. Government also has special responsibilities to provide public health services, educate the public on health matters, and address the social conditions that cause illness and drive up health care costs such as poverty, malnutrition, inadequate housing, and violence.

f. Nebraska institutions of higher education, public and independent, that conduct health professions education programs should strive to meet the needs of our citizens for health care professions. Those institutions that engage in biomedical and health care research are also responsible for contributing to improvements in quality and delivery of health care in Nebraska.

5. Individuals and families should have a basic health plan that is portable and affordable and the freedom to choose additional health insurance based upon their financial capability. A continuity of care concept by linking patients with a specific health care practitioner (physician, physician assistant, or nurse practitioner, as applicable) who assists in the coordination of the patient's care should be promoted.

6. Delivery and financing arrangements must promote development and dissemination for more effective and efficient methods for

treatment and prevention. Methods to deliver health care services must be responsive to Nebraska's diversity and build on the strengths of the current Nebraska health care system. There must be local involvement in the planning, development, and design of the health care delivery system in cooperation with state and federal efforts. This process must include representatives from all major sectors of the community, including both public and private entities.

7. Health care financing must be reorganized to prevent cost shifting. Health care services should be financed through a public and private pluralistic system. The system should provide incentives to consumers to use appropriate health care services and to providers to assure value for the price of services rendered.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-THIRD LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature affirms the principles set forth in this resolution as sound and will use the principles as a guide for health care policy in Nebraska.

2. That the Legislature commends the work of the Blue Ribbon Coalition and the Interagency Health Care Advisory Committee for their work in developing the principles and for their time and efforts helping to address health care issues and the Legislature supports the coalition's and committee's continued work in the development of health care coordination and policy for the future.

MESSAGES FROM THE GOVERNOR

April 15, 1994

Madam President, Mister Speaker
and Members of the Legislature
State Capitol Bldg.
Lincoln, NE 68509

Dear Madam President and Senators:

With this letter I am returning LB 974A with line item reductions. I have been committed to stopping the unnecessary expansion of state government whenever possible. The PSL which is included in LB 974 for the Secretary of State, UCC Division calls for a file clerk to be added due to the increase in workload with the passage of LB 974. It is my desire not to increase the division at this time. Should the workload become so burdensome that the SOS pool at the DAS Personnel division cannot help and the services of the Division are not being provided in a timely manner, the Secretary of State may request the staffing in the budget process.

Your help in making sure government does not expand unnecessarily in the future is appreciated.

Sincerely,
(Signed) E. Benjamin Nelson

Dear Madam President and Senators:

With this letter I am returning LB 695A and a line-item reduction. LB 695A added $250,000 of general funds to the permanent budget of the University of Nebraska Forest Service for FY 1994/95 and future years.

The purpose of these funds is for a grant program for the removal and replacement of trees lost to severe weather and diseases on public lands. While this is a laudatory purpose, we simply cannot afford such an ongoing commitment within state budget constraints at this time. In addition, many other financing sources are available for this general purpose. Such sources range from FEMA funding, to Clark-McNeery funds in the Department of Agriculture, to programs administered by several NRDs, to name just a few.

With my line-item reduction, I have reduced the appropriation by $125,000 in FY 1994/95 which allows $125,000 to remain for this purpose on a one-time basis. It is the intent that this remaining $125,000 not become part of the University's budget base on which the FY 1995/97 biennial budget request is built.

Sincerely,
(Signed) E. Benjamin Nelson

Dear Madam President and Senators:

I am returning LB 446A without by signature and with my objection.

LB 446 sets up new procedures for agencies in the promulgation of rules and regulations and dispute resolution. It would be premature to appropriate funds to administer the act until existing resources are reallocated. Should agencies experience additional costs they could be incorporated into their budget requests as we prepare for the next biennium.

Dear Madam President and Senators:

I am returning LB 1035A with line-item reductions. The General Fund appropriation is reduced $157,089 for FY 94/95 and eliminated for FY 95/96. The Personal Service Limitation is also eliminated for both fiscal years.

LB 1035 will have an unknown impact on DSS' Legal Department to handle hearings for those people inappropriately placed on the Child Abuse and Neglect Registry. It would be inappropriate to hire the suggested number of staff until staffing requirements are known. There is $157,089 remaining that will allow the Department of Social Services to contract for administration of nearly 700 cases.

Madam President, Mr. Speaker
and Members of the Legislature

Dear Madam President and Senators:

Today I delivered LB 833A to the Secretary of State with a line item reduction.

LB 833 changes laws governing the Nebraska Retirement System Plans to comply with Section 415 of the Internal Revenue Code for public plans. Under the bill the Public Employees Retirement Board must put provisions into effect to ensure that, beginning in 1996, individual members do not exceed the upper limits imposed by Section 415 on the combined amount of retirement payments and other tax-deferred and tax-exempt benefits.

LB 833A, the companion appropriations bill, appropriates cash funds to support the development of the required monitoring mechanism and to assist in notifying members of the ramifications of the Section 415 limits for their retirement income. The bill also proposed the addition of a permanent state employee, but I have made a line item reduction to eliminate that personal services authorization (PSL). It is my hope the PERB will study the need for an ongoing, full-time position more closely and will make efficient use of existing and outside resources in preparing to implement this new federal mandate. PERB should strive for efficiency as it carries out the Section 415 policy with as little inconvenience as possible to members of the Nebraska Retirement System.

Sincerely,

Madam President, Mister Speaker

Dear Members:

Today I signed LB 902 and LB 902A and delivered it to the Secretary of State. LB 902 has many positive aspects.

LB 902 creates a system of regional boards to help with the assessment and equalization process. It provides appraisers with access to much needed real estate transfer forms. I will be studying closely the impacts

of these proposals to determine the cost of these programs and determine whether they create an undue amount of work and pressure on the budgets of subdivisions. It is important that these proposals do not grow into giants which make unrealistic mandates for local governments without having a positive impact or becoming another layer of bureaucracy.

This bill provides for an increase in funding for the homestead exemption program in the current year and makes substantial changes to the qualification process of the program for next year. It is a positive step to increase the accessibility and improve the valuation and income standards of this program. I am supportive of returning the Homestead Exemption program to a program which meets the needs of the people that qualify for it. The proposal which I had introduced to the Legislature included a study which would have caught and made changes to any proposal in the program before it had a negative impact on the persons which need this program. I am committed to making sure that this program meets the needs of the veterans, spouses and persons over 65 years of age that were intended.

I am committed to the study of this program before changes to income and valuation portions occur in 1995. Unnecessary changes in this program only serve to confuse and alienate individuals who are dependent on this program and its benefits. Although I would have liked to have seen a study such as I proposed inserted into LB 902, I will continue to work with the Legislature to study and make any necessary changes to this program before the implementation of LB 902's provisions in 1995.

Sincerely,
(Signed) E. Benjamin Nelson

Dear Madam President and Senators:

With this letter, I am returning LB 1224A with my signature and with line item reductions.

The total vetoed amount is $43,250 in FY 94/95 and $140,825 in FY 95/96. The reductions affect the Ombudsmans Office in the Legislative Council and public assistance. On Select File an amendment was adopted that allowed for public counsel. This is a current responsibility

of the Ombudsmans Office and to add additional staff at this time appears to be duplicative.

Regarding public assistance, we are confident the intensive case management efforts required by LB 1224 will be effective in moving clients off public assistance and into self sufficiency. Therefore, the appropriation for public assistance can be reduced by $100,000 in FY 95/96.

Madam President, Mr. Speaker
and Members of the Legislature
State Capitol Building
Lincoln, NE 68509

Dear Madam President and Senators:

I am returning LB 903 and LB 903A without my signature and with my objections.

LB 903 is a bill that adds three new judges. The bill adds judges to the Lancaster County District Court, the Douglas County Juvenile Court, and Sarpy County Juvenile Court. The additional judges and court reporters would cost the State General Fund $397,128 by fiscal year 1996-97. Although I am convinced that there is a need for additional judicial resources in certain districts in Nebraska, this is simply a cost the State General Fund cannot afford to sustain at this time. I pledge to work with all interested parties to address the need for additional judicial resources in Nebraska.

The bill also contains a pay increase for judges of 3 percent in the next fiscal year. The salary increase would place an additional burden on the state general fund of $308,784 by fiscal year 1996-1997 and thereafter. My veto of this pay increase should in no way be construed as my objection to a pay increase for judges. Because of tight constraints, the state has been unable to provide salary increases for other servants of the state, including state employees and state probation officers. I pledge to revisit the issue of adequate pay for judges and other public employees in next year's budget deliberations.

The total cost of LB 903 would reach $705,912 by fiscal year 1996-97. Unfortunately, this is not a cost the State General Fund can afford to sustain at this time.

LB 903 was amended on select file to include provisions of LB 51 which is designed to establish a meaningful statute of limitations applicable to claims against trustees. The amendment provides that the annual or periodic statement will qualify as a final accounting in regards to the statute of limitations. My veto of LB 903 is in no way a reflection on the merits of this issue.

LB 903 was also amended on Select File to provide for passage of provisions of LB 1345, a bill that addresses the appointment of guardians or conservators in Nebraska. This amendment was negotiated by interested parties and appears to be an important, warranted change to current guardianship and conservatorship law. My objection to LB 903 is not based on this amendment.

LB 903 was amended on General File to provide for the passage of provisions of LB 1010, a bill introduced to improve our current system of judicial selection. My objection to LB 903 is not based on this amendment as I believe that the changes made by this provision are positive changes.

Sincerely,

Dear Madam President and Senators:

Today I signed LB 1066e and delivered it to the Secretary of State.

LB 1066e eliminates prohibitions placed on the Nebraska Investment Council's investments in corporations doing business in South Africa. The Legislature has observed that the environment present at the time of the enactment of the prohibition has changed. This bill will restore the Council's authority to invest in businesses connected to South Africa. There continues to be a requirement to invest prudently and wisely in companies, no matter where they are located.

Additionally, the Nebraska Investment Council will be required to review its current investments in corporations doing business with or in Northern Ireland and determine whether each has taken affirmative action during the previous year to eliminate religious and ethnic discrimination in Northern Ireland. The actions to be reviewed are embodied in the "MacBride principles."

Let it be noted that the bill does not require the Council to divest of the investments, nor is it prohibited from investing in corporations doing business in Northern Ireland. Should investments be made in corporations doing business in Northern Ireland, this bill requires the Council to monitor affirmative action by the corporations.

These policies are consistent with what I believe to be the view of most Nebraskans - that discrimination on the basis of religious or ethnic bias should not be tolerated.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

Dear Madam President and Senators:

Engrossed Legislative Bills 1210 and 1210A were received in my office on April 15, 1994. I have signed the bills with great reluctance. Several meritorious proposals are included in LB 1210.

LB 1210 contains provisions of LB 1137 which would eliminate the current two-tiered system of licensing the profession of psychology and replace it with licensure at a single level. It contains several amendments to update and clean-up the uniform licensing law relating to the medical licensure examination, temporary nursing permits to strip nurse-aide training and competency evaluation programs in conformance with the federal requirements. It authorizes the Department of Health to contract with the federal agency to perform survey and certification functions under the clinical laboratory Improvement Act (CLIA) and delays the implementation date for the state regulatory program to October 1, 1995. It streamlines the statutes governing certification of professional counselors, and allows marriage and family counseling therapists to be licensed as mental health practitioners. It has provisions that offer flexibility for timeframes for emergency medical services personnel to receive CPR certification and clarification of timelines for which certification of first responder service shall be valid. It creates the Alzheimer's Special Care Disclosure Act. It also allows licensed pharmacies to dispense prescriptions of legend drugs into an "emergency box" to be utilized in licensed nursing homes and certain care institutions. It also creates a system for lead abatement in Nebraska to be implemented in 1995 which makes us eligible for federal funding immediately. These parts of the bill are necessary, and in some cases, critical to health services in the state.

Included in which these other proposals was a provision which defines ambulatory surgical centers and exempts these entities from the Certificate of Need process. Although I agree that this provision may allow for certain eye surgeries to be performed at a lower cost and that

the different interpretations of the Certificate of Need have confused and muddied this issue, I have serious concerns about this proposal and exempting any one particular entity from the Certificate of Need requirements. It is truly unfortunate that I am not able to consider this one proposal on its own merits.

Due to the fact that "Christmas tree" bills are becoming more and more common place, it becomes more and more difficult to delineate the proposals which would be good for Nebraska from the ones that are bad for Nebraska. It is appropriate for me to put the Legislature on notice that if any bill contains an "ornament" with which I do not agree, I will veto the bill. It is not fair to the people of the state to have to swallow the bad with the good when it is not necessary. Each proposal must stand on its own or not stand at all. In essence, any "Christmas tree" bills that are passed by the Legislature will be cut down, if one of the ornaments weights it down. This will be my practice in the future.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

Madam President, Mr. Speaker

Dear Madam President and Senators:

Engrossed Legislative Bill 718 was received in my office on April 15, 1994.

I have signed LB 718 on April 20, 1994 with a great deal of concern for its potential unintended consequence of increasing the out-of-pocket prescription costs for consumers especially Nebraska citizens with long-term illnesses who have to depend on maintenance drugs.

I have visited with Senator Ardyce Bohlke who is the primary sponsor of LB 718 about my concerns. She has assured me that the bill is intended to help the rural community pharmacy and if its implementation results in prescription drug cost increases for the

consumer, she will revisit the issue and seek corrective legislation next year, if necessary.
