The calculation of this nonrefundable credit shall be included with the employee's tax return and reported as determined by the Department of Revenue. ATTORNEY GENERAL'S OPINION

Opinion No. 96027

DATE: April 1, 1996

SUBJECT: LB 1375; Constitutionality of a Proposed Procedure Whereby the Executive Board of the Legislative Council Would Approve Certain Contracts of State Agencies Which Relate to the Sale of Public Records for a Fee

REQUESTED BY: Senator Jerome Warner
Nebraska State Legislature

WRITTEN BY: Don Stenberg, Attorney General
L. Steven Grasz, Deputy Attorney General

You have requested an opinion from this office regarding the constitutionality of the Bromm-Hillman amendment (AM4153) to LB 1375, which amendment was tentatively approved by the Legislature on March 27, 1996. Your concern with the amendment is two-fold: first, that its provisions violate the separation of powers provision of Article II, Section 1 of the Nebraska Constitution and, second, that the measure improperly delegates powers of the Legislature to the Executive Board of the Legislative Council.

LB 1375 Provisions

Following adoption of the Bromm-Hillman amendment, LB 1375 now provides, in pertinent part:

> Sec. 3. An agency may not enter into a contract, alone or in cooperation with a private entity or nonstate agency, to sell public records for a fee if the public record would otherwise be free under state law or for a fee greater than allowed by state law unless specifically authorized by section 4 of this act. Any such contract in

existence on the effective date of this act shall be terminated on January 31, 1998.

Sec. 4. Subject to the approval of the Executive Board of the Legislative Council of any proposed fee not specified in state law for accessing public records, any agency which is party to a contract (1) terminated by section 3 of this act or (2) not authorized under existing state statutes and which is related to the provision of public records, may contract for the provision of public records for a term not to extend beyond January 31, 1998.

The review by the executive board of a contract in existence on the effective date of this act under section 3 of this act shall be limited to the quality of the services provided, the security of the public records, any proposed increases in fees for services initiated by the parties to the contract, and any expansion or reduction in the level of services provided as of the effective date of this act.

For purposes of these provisions, the term "agency" would mean "all state agencies, departments, boards, commissions, and committees, the executive branch of state government, the judicial branch of state government, and the legislative branch of state government." LB 1375 (as amended by AM4153), § 1(1).

Analysis

Your first question is whether the process set forth in sections 3 and 4 of LB 1375 violates the separation of powers clause of the Nebraska Constitution, which provides:

{t}he powers of the government of this state are divided into three distinct departments, the legislative, executive, and judicial, and no person or collection of persons being one of these departments, shall exercise any power properly belonging to either of the others, except as hereinafter expressly directed or permitted.

Neb. Const. art. II, § 1.

"The purpose of the clause is to establish the permanent framework of our system of government, to assign to the three departments their respective powers and duties, and to establish certain fixed principles upon which our government is to be conducted." **State ex rel. Stenberg v. Murphy,** 247 Neb. 358, 364, 527 N.W.2d 185, 192 (1995). Moreover, "{t}he clause prohibits one department of government from encroaching on the duties and prerogatives of the others or from improperly delegating its own duties and prerogatives. . . . The clause thereby provides a check against the concentration of power. . . ." **Id. (citing State ex rel. Spire v. Conway,** 238 Neb. 766, 472 N.W.2d 403 (1991)); **see also State ex rel. Meyer v. State Board of Equalization & Assessment,** 185 Neb. 490, 176 N.W.2d 920 (1970).

Thus, Article II, Section 1 "contains an absolute prohibition upon the exercise of the executive, legislative and judicial powers by the same person or the same group of persons. It has remained a part of the Constitution unchanged since 1875. It is more certain and positive than the provisions of the federal Constitution and those of some of the states, which merely definitely divided the three powers of

government." **Laverty v. Cochran,** 132 Neb. 118, 120-121, 271 N.W. 354 (1937). **See also State ex rel. Howard v. Marsh,** 146 Neb. 750, 21 N.W.2d 503 (1946); **State ex rel. Sorensen v. State Bank of Minatare,** 123 Neb. 109, 242 N.W. 278 (1932); **Searle v. Yensen,** 118 Neb. 835, 226 N.W. 464 (1929).

We find that the procedure set forth in sections 3 and 4 of LB 1375, which would require the Legislature's **approval** of certain executive or judicial branch contracts, is violative of the state Constitution's separation of powers clause. Our conclusion is based upon the same considerations outlined in four previous opinions in which we considered the propriety of legislative bills which proposed procedures similar to those set out in the Bromm-Hillman amendment.

In 1992, we assessed a proposed amendment which would have vested the Executive Board of the Legislative Council with continued control over the Department of Administrative Services' management of a construction project. Op. Att'y Gen. No. 92-054 (April 1, 1992). This office concluded that the continued control over the construction project would have impermissibly involved the Legislature in functions of the executive branch of government. **Id.** at 3. Similarly, in 1987, we found suspect a proposed procedure for distribution of the Nebraska Energy Settlement Fund whereby the Governor developed a fund disbursement plan and submitted it to the Legislature. Op. Att'y Gen. No. 87-114 (December 9, 1987). No fund assets could be distributed without an appropriation based upon the Legislature's approval. Our concern related to the requirement that the Governor submit a plan for review and approval by the Legislature. **Id.** at 3. We determined that the proposed disbursement procedure violated Article II, Section 1:

> The Legislature is, in essence, requiring legislative approval before expenditure of the funds. The fact that the bill is written in terms of legislative approval for the appropriation does not alter the clear intent of the act requiring legislative approval for the expenditure. The Legislature is in effect attempting to both make the law and administer it, {to} appropriate money, and spend it. This is a violation of the separation of powers article of the Constitution of the State of Nebraska.

Id.

In 1977, we also found constitutionally suspect a proposal requiring legislative approval of an agency's planned expenditures from the Nebraska Outdoor Recreation Development Cash Fund. 1977-78 Rep. Att'y Gen. 77 (Opinion No. 53, dated March 24, 1977). As drafted and presented for our review, the legislative bill would have required the Game and Parks Commission to present its expenditure plan to the Legislature's Appropriations Committee "for its approval." **Id.** (citing LB 109, § 22). We determined that

> {a}n attempt to authorize a legislative veto of executive judgment would violate Article II, § 1. . . . While the Legislature is fully authorized to limit executive choices by appropriate restrictions through enactment of statutes, once a statute is enacted or an appropriation made the Legislature has no further authority.

Id.

Finally, in 1963, we considered the propriety of a bill which would have prohibited the expenditure of funds from the State Institutional Building Fund for construction of state buildings unless prior authorization of the Legislature was obtained. 1963-64 Rep. Att'y Gen. No. 37 (Opinion No. 22, dated February 26, 1993). We stated:

> It is our conclusion that, while the Legislature has exclusive control over appropriations and the granting of the power to take title to real estate, it must exercise this control when it passes the bills in which it limits or restricts, or permits the action of the executive agency involved. **It may not retain control over the expenditure or use of the power by requiring approval of the Legislature or any committee of the Legislature subsequent to the passage of the law in which the appropriation or power is given.** To do so is to invade the executive functions in such a manner as to violate Article II of the Nebraska Constitution requiring the separation of powers of government.

Id. at 39 (emphasis added).

The approval process now contained in sections 3 and 4 of LB 1375 is quite similar to each of the proposals discussed in our prior opinions. Section 4 of the bill requires the Executive Board of the Legislative Council to approve certain aspects of any specified contracts executed by executive, judicial, and legislative agencies. We conclude that this continued control would impermissibly involve the Legislature in administrative functions of the judicial and executive branches of government. Assuming the agencies of those branches have been vested with the power to contract, then the terms of any contracts executed pursuant to that authority are not subject to review by the Legislature.

Correcting the LB 1375 Defect

Although we have concluded that LB 1375, as now drafted, violates Article II, § 1 of the state Constitution, we believe that the defect may be remedied by replacing the proposed "approval" process with a "reporting" process whereby state agencies entering into contracts affected by the bill would be required to report such contracts to the Executive Board of the Legislative Council. Such an amendment would still guarantee the Legislature's awareness of the existence of the contracts. Given that the bill proposes to terminate any existing or future contracts on January 31, 1998, a reporting mechanism would provide the Legislature with the requisite information to take further action on this subject matter during the 1997 legislative session.

Improper Delegation Issue

You have also asked us to address whether the LB 1375 provision requiring approval of a contract by the Executive Board of the Legislative Council constitutes an improper delegation of legislative authority to the Council. We have previously concluded that "the Legislative Council and its Executive Board are creatures of the Legislature which are not separate and distinct from it, but merely part of the Legislature itself." Op. Att'y Gen. No. 92-054 at 3; **see also** Op.

Att'y Gen. No. 81-049 (March 6, 1981); Op. Att'y Gen. No. 81-050 (March 13, 1981). Thus, the Executive Board of the Legislative Council may legitimately "perform investigatory and other functions for the Legislature so long as {it does} not perform duties specifically required of the Legislature itself in the Nebraska Constitution." **Id.**

As currently drafted, sections 3 and 4 of LB 1375 are unconstitutional in that those provisions grant power to the Executive Board of the Legislative Council to, on behalf of the Legislature, vest agencies with authority to execute specified contracts. To the extent that the current provisions would allow the Executive Board to approve contracts entered into by agencies which, prior to enactment of LB 1375, did not have statutory authority to execute those contracts, then sections 3 and 4 of the bill impermissibly delegate the Legislature's power to enact laws to the Executive Board. Should LB 1375 be amended to establish a reporting or monitoring -- rather than an "approval" -- mechanism, then we see no constitutional problem with delegating coordination of the reporting or monitoring procedure to the Executive Board of the Legislative Council.

Conclusion

In conclusion, LB 1375, as currently drafted, violates Article II, § 1 of the Nebraska Constitution. The defect in the legislation could be repaired by an amendment which would require state agencies to notify or report to the Legislature when certain contracts are entered into but would not require legislative approval prior to execution of those contracts.

Sincerely,
DON STENBERG

AMENDMENTS - Print in Journal

Mr. Withem filed the following amendment to LB 1368:
AM4383

1. Insert the following new section:

"Sec. 4. Section 77-4927, Revised Statutes Supplement, 1995, is amended to read:

77-4927. (1) If a company has entered into an agreement with the state pursuant to section 77-4928, employees who are employed at the project covered by the agreement, other than base-year employees, shall during each project year receive the wage benefit credit in the manner provided in the Quality Jobs Act.

(2) The wage benefit credit shall be paid or applied by the employee for company training programs, employee benefit programs, educational institution training programs, or company workplace safety programs, or any combination thereof, as designated by the employee or as agreed to by the company and employee.

(3) Except as provided in subsection (4) of this section, the wage benefit credit per employee shall be an amount equal to the Nebraska income tax withholding attributable to the employee's compensation for services rendered in connection with the project for the project year without regard to the credit calculation under subsection (6) of this section.

(4) The wage benefit credit total for the project per year shall not exceed five percent of the total compensation paid by the company in the year to all employees, other than base-year employees, for services rendered in connection with the project. If the total of the wage benefit credit exceeds five percent of the total compensation paid to all employees, other than base-year employees, the withholding in excess of five percent of each

employee's compensation shall be returned to the Department of Revenue in the manner provided in section 77-2756.

(5) The wage benefit credit shall be allowed for each project year.

(6) The wage benefit credit shall be withheld by the company from the employee's compensation in the normal manner provided by section 77-2753, except that the amount shall not be required to be paid over to the state under section 77-2756 and shall not constitute part of the trust fund or be owned by the state as provided in section 77-2757, but instead shall, to the extent of attributable tax liability, represent a credit in the calculation of each such employee's tax liability and shall be paid or applied for the programs in the manner that the company and employee have determined as allowed by the act. For purposes of the withholding reporting provisions of sections 77-2754 and 77-2756, the company shall report the wage benefit credit separately to the state and to the employee as a wage benefit credit. Each employee shall be allowed on his or her Nebraska income tax return a nonrefundable credit against the tax imposed by sections 77-2714 to 77-27,123 equal to the wage benefit credit not to exceed (a) his or her income tax liability minus (b) the amount that Nebraska income tax liability would be if the total compensation paid by the company in the taxable year were excluded from the employee's adjusted gross income. The calculation of this nonrefundable credit shall be included with the employee's tax return and reported as determined by the Department of Revenue. If any amount allowable as a wage benefit credit has been through error or otherwise improperly paid to the state, it shall be refunded to the person who paid it upon application for refund filed within three years after payment. If the wage benefit credit withheld by the company exceeds the nonrefundable credit allowed the employee as calculated in this subsection, the company shall refund the difference to the employee. The company may request verification or substantiation of the amount claimed. A company shall notify employees of the right to claim a refund under this subsection by April 1 of each year, and the claim for the refund from the company shall be made by September 1. The company shall pay the refund to an employee within thirty days after the date a claim is filed.".

"Sec. 4. Section 77-4927, Revised Statutes Supplement, 1995, is amended to read:

77-4927. (1) If a company has entered into an agreement with the state pursuant to section 77-4928, employees who are employed at the project covered by the agreement, other than base-year employees, shall during each project year receive the wage benefit credit in the manner provided in the Quality Jobs Act.

(2) The wage benefit credit shall be paid or applied by the employee for company training programs, employee benefit programs, educational institution training programs, or company workplace safety programs, or any combination thereof, as designated by the employee or as agreed to by the company and employee.

(3) Except as provided in subsection (4) of this section, the wage benefit credit per employee shall be an amount equal to the Nebraska income tax withholding attributable to the employee's compensation for services rendered in connection with the project for the project year without regard to the credit calculation under subsection (6) of this section.

(4) The wage benefit credit total for the project per year shall not exceed five percent of the total compensation paid by the company in the year to all employees, other than base-year employees, for services rendered in connection with the project. If the total of the wage benefit credit exceeds five percent of the total compensation paid to all employees, other than base-year employees, the withholding in excess of five percent of each employee's compensation shall be returned to the Department of Revenue in the manner provided in section 77-2756.

(5) The wage benefit credit shall be allowed for each project year.

(6) The wage benefit credit shall be withheld by the company from the employee's compensation in the normal manner provided by section 77-2753, except that the amount shall not be required to be paid over to the state under section 77-2756 and shall not constitute part of the trust fund or be owned by the state as provided in section 77-2757, but instead shall, to the extent of attributable tax liability, represent a credit in the calculation of each such employee's tax liability and shall be paid or applied for the programs in the manner that the company and employee have determined as allowed by the act. For purposes of

the withholding reporting provisions of sections 77-2754 and 77-2756, the company shall report the wage benefit credit separately to the state and to the employee as a wage benefit credit. Each employee shall be allowed on his or her Nebraska income tax return a nonrefundable credit against the tax imposed by sections 77-2714 to 77-27,123 equal to the wage benefit credit not to exceed (a) his or her income tax liability minus (b) the amount that Nebraska income tax liability would be if the total compensation paid by the company in the taxable year were excluded from the employee's adjusted gross income. The calculation of this nonrefundable credit shall be included with the employee's tax return and reported as determined by the Department of Revenue. If any amount allowable as a wage benefit credit has been through error or otherwise improperly paid to the state, it shall be refunded to the person who paid it upon application for refund filed within three years after payment. If the wage benefit credit withheld by the company exceeds the nonrefundable credit allowed the employee as calculated in this subsection, the company shall refund the difference to the employee. The company may request verification or substantiation of the amount claimed. Such verification or substantiation shall be confidential and used only for the determination of the claim filed by the employee. A company shall notify employees individually in writing at the time the company reports the wage benefit credit to the employee of the right to claim a refund under this subsection by April 1 of each year. The claim for the refund from the company shall be made by September 1 of the year when the employee files his or her tax return or fifteen days after the employee files such tax return, whichever is later. The company shall pay the refund to an employee within thirty days after the date a claim is filed.".

2. On page 4, line 27, strike "and 77-4925" and insert ", 77-4925, and 77-4927".

The estimate shall be forwarded to the Legislative Fiscal Analyst and the Nebraska Economic Forecasting Advisory Board and made a part of the advisory forecast required by section 77-27,158.

Dear Mr. O'Donnell:

Engrossed Legislative Bill 847 was received in my office on April 1, 1996.

This bill was signed by me on April 3, 1996, and delivered to the Secretary of State.

Sincerely,

April 4, 1996

Madam President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Madam President and Senators:

I am returning LB 847A with line item reductions.

My vetoes reduce the appropriations for both FY1996-97 and FY1997-98 by $26,075 including $20,220 in salaries for both fiscal years.

LB 847 stipulates that the Public Employees Retirement Board (PERB) shall hire an attorney to advise the PERB and Nebraska Public

Employees Retirement System (NPERS) staff regarding various retirement matters. I believe the addition of this legal position to be an important improvement to the makeup of the NPERS staff. LB 847A appropriates funds for this position and I approve of that appropriation.

I question however, the appropriation of retirement funds for the Retirement Specialist position envisioned in LB 847A. I recognize that LB 847 increases the workload at NPERS. I suggest however, that the initial effort should be to keep spending down, irrespective of whether the funds are General Fund monies or retirement funds, and to manage these additional responsibilities within current staffing levels.

Sincerely,
(Signed) E. Benjamin Nelson

Enclosure

April 5, 1996

Madam President, Mr. Speaker
Members of the Legislature
State Capitol Bldg.
Lincoln, NE 68509

Dear Madam President and Senators:

The most prominent reason that the Tax Equalization and Educational Opportunity Act was enacted was to provide equalization in Nebraska's school finance formula. The effect of equalization is to send state aid to districts with few resources. This action was taken and has proven effective in avoiding the chaos which other states have experienced in their school finance systems.

After LB 1059 was enacted by the Legislature, the people of the state reaffirmed the principles contained in the newly enacted school finance law by providing input into the process which gave clear direction that the principles of equalization were worthwhile and needed to be pursued. Today that philosophy still holds true.

A number of provisions contained in this legislation are desperately needed within school districts in Nebraska. Most prevalent in my mind is the development of a sparsity factor, which will provide much needed relief to areas of the state adversely affected by earlier actions. LB 1050 will recognize the unique transportation needs of individual school districts. The changes in the factor ensuring a minimum effort of support within each school district will help those districts with very low valuations to receive an appropriate amount of state aid. It will begin to average the membership numbers (regarding student population) over a course of years to provide more stability to districts

with changes in student population. The bill will provide for a more accurate accounting of the option students. Incentives for voluntary reorganization will make difficult decisions less painful for districts and communities. Changes in impact aid will allow for a settlement which has been a long time in coming. The bill will also provide a formula for more state aid to districts which have been determined to have very few resources at their disposal.

Just a few years ago, we were in peril of losing local control and being subject to the whims of the court as many other states have been. By acting to ensure the stability of our finance methodology, we have done a great service to our schools and our students. We continue to have a quality education for all students in the state.

The importance of these substantive changes cannot be overlooked, but I am still concerned with the consequences of Nebraska's school finance system on some school districts. Even with the passage of LB 1050, our work is not done. I am very committed to the sparsity study and addressing the issue in the next legislative session. It is my intention to recognize the unique needs of districts which are necessarily small and have costs unique to the districts with few students and great distances. I pledge my full support to this study and an effective solution which recognizes those unique needs.

There is great difficulty in these decisions when sectional or regional problems are identified. Unfortunately, LB 1050 pits educators against educators. One is tempted to say, "I have friends who support it and friends who oppose it, and I am with my friends." But I must look to the benefit of the whole state even though I feel certain areas may be adversely affected. The overall goal must still be to make the resources available to us work in the best manner possible. I must also take into consideration the strong message of support sent by the Legislature with 36 votes to pass this measure.

LB 1050 provides us with an opportunity. It has fixed some inequities in our school aid formula and has provided focus on issues which still need to be addressed. I believe every taxpayer is willing to pay their fair share of taxes to support their schools. We must continue to work toward ensuring that state support of schools is done in a manner which is in the best interest of Nebraska as a whole--the sake of our children's education.

Sincerely,
(Signed) E. Benjamin Nelson

PRESENTED TO THE GOVERNOR

Presented to the Governor on April 9, 1996, at 9:35 a.m., was the following bill: LB 1189.

(Signed) Rosie Ziems
Clerk of the Legislature's Office

RESOLUTION

LEGISLATIVE RESOLUTION 468. Introduced by Warner, 25, Chairperson of Revenue Committee.

PURPOSE: In 1996 the property tax issue remains important to a majority of Nebraskans. It has become apparent over the last twenty-five years of work in this area, that the traditional approaches, including lids and state aid to political subdivisions, while effective are not sufficient in and of themselves to adequately address the concerns of Nebraskans over the long term. Frustration with the current system has led to proposals to severely limit the availability of property tax for funding public services. Included among these proposals were a number of proposals stemming from LR206 from 1995. These proposals, one or more of which may be enacted this year, may dramatically reduce the number of entities allowed to independently levy property taxes, place absolute dollar and cents limits on the actual tax levy, change the process by which property taxes are levied, change the taxation of motor vehicles, shift responsibilities from local to state tax bases, or otherwise alter the state-local or interlocal relationships. These proposals raise a number of issues which must be addressed to substantially and permanently reduce Nebraska's dependence on property tax. These issues cover a very broad spectrum of the committees organized to carry out the business of the Legislature.

Resolution of the property tax issue involves a serious look at public services in Nebraska and the methods we use to pay for them. Efforts to provide property tax relief must be directed toward achieving the following goals:

1. Restructuring local and state governmental services in Nebraska;
2. Reducing the use of property tax to finance public services; and
3. Restructuring state aid to local government and local revenue authority as is necessary to achieve goals 1 and 2.

Such a project involves a detailed examination of most governmental services and the jurisdiction and expertise of most committees of the Legislature. Coordination and execution of such a research effort is critical to delivering results that will provide property tax relief that is adequate and permanent and that can be implemented in an orderly fashion.

Included among the issues which must be addressed are the proper distribution of the property tax levying authority under the constraints proposed by Legislative Bills 1085 and 1114, Ninety-fourth Legislature, Second Session, 1996; the proper balance of revenue sources to pay for state and local public services; the matching of revenue to services in a way that provides adequate, but not extravagant, public services; and the possible implementation of LR 292CA.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

"Sec. 29. Section 79-3817, Reissue Revised Statutes of Nebraska, as amended by section 31, Legislative Bill 1050, Ninety-fourth Legislature, Second Session, 1996, is amended to read:

79-3817. For fiscal years 1996-97 and 1997-98, the allowable growth percentage shall be equal to the allowable growth rate set forth in section 79-3816. On or before July 1 of each year other than 1996 and 1997, the department shall determine and certify to each district an applicable allowable growth percentage carried out at least eight decimal places for each district as follows:

(1) For school fiscal years before school fiscal year 1996-97, the department shall determine a target budget level for each district by multiplying the average daily membership for the most recently available complete data year of each district in grades kindergarten, one through six, including full-day kindergarten, seven and eight, and nine through twelve by the unadjusted tiered cost per student as determined in section 79-3805 for each grade grouping. The sum of such products shall be each district's target budget level. For school year ~~1996-97~~ 1998-99 and each school year thereafter, the department shall determine a target budget level for each district by multiplying the average daily membership for the most recently available complete data year of each district in grades kindergarten, one through six, including full-day kindergarten, seven and eight, and nine through twelve by the adjusted tiered cost per student as calculated under section 16 of this act for each grade grouping. The sum of such products and the district's transportation allowance shall be each district's target budget level;

(2) The department shall establish a target budget level range of general fund operating expenditure levels for each district which shall begin at twenty percent less than the target budget level and end at the target budget level. The beginning point of the range shall be assigned a number equal to the maximum allowable growth rate established in section 79-3816, and the end point of the range shall be assigned a number equal to the basic allowable growth rate as prescribed in section 79-3816 such that the lower end of the range shall be assigned

the maximum allowable growth rate and the higher end of the range shall be assigned the basic allowable growth rate; and

(3) Each district's actual general fund operating expenditures shall be compared to its target budget level along the range described in subdivision (2) of this section to arrive at an applicable allowable growth rate as follows: If the district's actual general fund operating expenditures fall below the lower end of the range, such applicable allowable growth rate shall be the maximum growth rate identified in section 79-3816. If the district's actual general fund operating expenditures are greater than the higher end of the range, the district's allowable growth rate shall be the basic growth rate identified in section 79-3816. If the district's actual general fund operating expenditures fall between the lower end and the higher end of the range, the department shall use a linear transition calculation between the end points of the range to arrive at the applicable allowable growth rate for the district.

Sec. 30. Section 79-3819, Revised Statutes Supplement, 1995, as amended by section 32, Legislative Bill 1050, Ninety-fourth Legislature, Second Session, 1996, is amended to read:

79-3819. (1) A For fiscal years 1996-97 and 1997-98, a district may exceed its allowable growth rate for (a) budgeted expenditures for capital improvements as defined in section 1 of this act financed by the proceeds from a bond issue, appropriations from a sinking fund, or any other means, (b) expenditures to retire bonded indebtedness, (c) expenditures in support of a service which becomes the subject of an interlocal cooperation agreement or a modification of an existing agreement whether operated by one of the parties to the agreement or an independent joint entity for two fiscal years beginning with the first budget adopted after the agreement or modification is signed, (d) expenditures to pay for repairs to infrastructure damaged by a natural disaster which is declared a disaster emergency pursuant to the Emergency Management Act, (e) expenditures to pay for judgments, except judgments or orders from the Commission of Industrial Relations, obtained against a school district which require or obligate a school district to pay such judgment, to the extent such judgment is not paid by liability insurance coverage of a school district, or (f) expenditures to pay for sums agreed to be paid by a school district to certificated employees in exchange for a voluntary termination of employment.

(2) Except for fiscal years 1996-97 and 1997-98, a district may exceed its applicable allowable growth rate by a specific dollar amount if the district demonstrates to the satisfaction of the state board that a new program is required by state or federal law or an existing program mandated by state or federal law has been expanded as a result of changes in state or federal law. For purposes of this subsection, a final order of a court, the State Board of Equalization and Assessment, the Tax Commissioner, the Tax Equalization and Review Commission, or the Property Tax Administrator from which no appeal is taken which requires reimbursement by a district of property taxes to a taxpayer

shall be considered a new program required by state or federal law but shall not be included as part of the general fund budget of expenditures for purposes of section 79-3814.

~~(2) A~~ (3) Except for fiscal years 1996-97 and 1997-98, a district may exceed its applicable allowable growth rate by a specific dollar amount if the district projects an increase in formula students in the district over the current school year greater than twenty-five students or greater than those listed in the schedule provided in this subsection, whichever is less. Districts shall project increases in formula students on forms prescribed by the department. The state board shall approve, deny, or modify the projected increases.

Average daily membership of district	Projected increase of formula students by percentage
0 - 50	10
50.01 - 250	5
250.01 - 1,000	3
1,000.01 and over	1

The department shall compute the district's estimated allowable budget per pupil using the budgeted general fund expenditures found on the budget statement for the current school year divided by the number of formula students in the current school year and multiplied by the district's applicable allowable growth rate. The resulting allowable budget per pupil shall be multiplied by the projected formula students to arrive at the estimated budget needs for the ensuing year. The department shall allow the district to increase its general fund budget of expenditures for the ensuing school year by the amount necessary to fund the estimated budget needs of the district as computed pursuant to this subsection. On or before July 1 of each year, the department shall make needed revisions in the applicable allowable growth rate of districts which have been allowed additional growth pursuant to this subsection to reflect the actual formula students of such district and shall certify such revisions to each district.

~~(3) A~~ (4) Except for fiscal years 1996-97 and 1997-98, a district may exceed its applicable allowable growth rate by a specific dollar amount if construction, expansion, or alteration of district buildings will cause an increase in building operation and maintenance costs of at least five percent. The department shall document the projected increase in building operation and maintenance costs and may allow a district to exceed its applicable allowable growth percentage by the amount necessary to fund such increased costs. The department shall compute the actual increased costs for the school year and shall, if needed, modify the district's applicable allowable growth rate for the ensuing school year.

~~(4) A~~ (5) Except for fiscal years 1996-97 and 1997-98, a district may exceed its applicable allowable growth rate by a specific dollar amount if the district demonstrates to the satisfaction of the state board that as a result of an order entered into by the Commission of Industrial Relations pursuant to section 48-818 establishing rates of

pay, benefits, and other terms and conditions of employment, the district will exceed its applicable allowable growth rate. The department shall compute the amount by which the increase in employee costs exceeds the district's applicable allowable growth rate and shall allow the district to increase its general fund budget of expenditures by such amount.

~~(5) A~~ (6) Except for fiscal years 1996-97 and 1997-98, a district may exceed its applicable allowable growth rate by a specific dollar amount if the district demonstrates to the satisfaction of the state board that it will exceed its applicable allowable growth rate as a result of a contested, but settled, contract dispute, claim, or breach or uninsured risk or as a result of any final judgment of any court of competent jurisdiction, requiring or obligating the district to pay such judgment. The department shall compute the amount by which the increased cost of the settlement or judgment exceeds the district's applicable allowable growth rate and shall allow the district to increase its general fund budget of expenditures by such amount.

~~(6) A~~ (7) Except for fiscal years 1996-97 and 1997-98, a district may exceed its applicable allowable growth rate by a specific dollar amount if the district demonstrates to the satisfaction of the state board that it will exceed its applicable allowable growth rate as a result of costs pursuant to the Retirement Incentive Plan authorized in section 34 of this act or the Staff Development Assistance authorized in section 35 of this act. The department shall compute the amount by which the increased cost of such program or programs exceeds the district's applicable allowable growth rate and shall allow the district to increase its general fund expenditures by such amount for that fiscal year.";

(5) The Director of Insurance shall adopt and promulgate rules and regulations as are necessary to provide that the language relating to coverages described in the Uninsured and Underinsured Motorist Insurance Coverage Act is not unfair, inequitable, misleading, or deceptive and does not encourage misrepresentation of the coverage.".

AMENDMENTS - Print in Journal

Messrs. Warner, Wickersham, Hartnett, Kristensen, Coordsen, and Mrs. Hillman filed the following amendment to LB 693:
AM4439

(Amendments to Final Reading copy)

1. Strike the original sections and all amendments thereto and insert the following new sections:

"Section 1. Property tax levy limits, constitutional and statutory authorizations for mergers and restructuring of governments, revised local aid programs, and alternative local option revenue sources proposed by the Ninety-fourth Legislature, Second Session, 1996, may require local political subdivisions to examine how they deliver and finance necessary public services.

Innovations in delivery of services, changes in structures of local governments, and consolidations of services require careful deliberation, citizen involvement, and coordinated action. Efforts to deliver public services in the most effective way should be encouraged and fostered by state government. A structure for encouraging a state and local cooperative approach to change is necessary. The need for this approach will be most critical to restructuring efforts over the next four years as Nebraska prepares for delivering public services in the next century.

The Legislature recognizes this need for encouraging innovations in service delivery and government restructuring by creating the Nebraska Commission on Local Government Innovation and Restructuring.

Sec. 2. The Nebraska Commission on Local Government Innovation and Restructuring shall consist of eighteen members appointed by the Governor. The members shall include:

(1) The Property Tax Administrator or his or her designee;

(2) The Director of Administrative Services or his or her designee;

(3) The Director of Economic Development or his or her designee;

(4) Three persons representing school districts;

(5) Three persons representing municipalities;

(6) Three persons representing county government;

(7) Three persons with expertise and experience in public sector finance, analysis, or management; and

(8) Three persons with private sector finance or management experience.

Sec. 3. The Nebraska Commission on Local Government Innovation and Restructuring shall meet and elect a chairperson from among its members. The commission shall have the authority to hire such temporary staff as it deems necessary to carry out its duties. The commission shall conduct public meetings and maintain public records and an office. All meetings of the commission shall be conducted according to sections 84-1408 to 84-1414. Members shall be reimbursed for their actual and necessary expenses as provided in sections 81-1174 to 81-1177.

Sec. 4. The Nebraska Commission on Local Government Innovation and Restructuring shall have the following powers and duties:

(1) To fund outstanding local government projects in government innovation, restructuring, and cooperative services provision. Funds shall be available for planning and evaluating such projects. Funds shall be provided on a matching fund basis;

(2) To conduct research and publish evaluations of efforts to develop public services innovation, restructuring, and cooperation efforts;

(3) To sponsor educational activities which provide information and training for citizens and government officials on the topic of government services innovation;

(4) To identify intergovernmental mandates which affect the ability of federal, state, and local governments to deliver services in an effective manner and to recommend changes to increase effectiveness in accomplishing public purposes and delivering public services;

(5) To identify issues, guidelines, and incentives for collaborative or joint use of facilities and capital equipment by local governments; and

(6) To accept and receive funds or donations from public and private funding sources.

Sec. 5. The Nebraska Local Government Innovation and Restructuring Fund is hereby created. The fund shall be used to carry out the purposes of sections 1 to 6 of this act. The fund shall be administered by the Department of Administrative Services and shall receive funds pursuant to section 77-912. Any money in the fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act.

Sec. 6. The Nebraska Commission on Local Government Innovation and Restructuring shall develop guidelines for a matching grant program to fund local government program and service restructuring innovations in which taxpayer savings or service quality improvements can be identified and quantified to the satisfaction of the commission.

Sec. 7. Sections 1 to 6 of this act terminate on July 1, 2000.

Sec. 8. Section 77-912, Revised Statutes Supplement, 1994, is amended to read:

77-912. The Director of Insurance shall transmit one-half of the taxes paid in conformity with Chapter 44, article 1, and Chapter 77, article 9, to the State Treasurer and one-half of such taxes paid to the General Fund promptly upon completion of his or her audit and examination and in no event later than May 1 of each year, except that:

(1) All fire insurance taxes paid pursuant to sections 44-150 and 81-523 shall be remitted to the State Treasurer for

credit to the Fire Insurance Tax Fund;

(2) All workers' compensation insurance taxes paid pursuant to section 44-150 shall be remitted to the State Treasurer for credit to the Compensation Court Cash Fund; and

(3) On August 1, 1996, and each August 1 thereafter through August 1, 1999, the State Treasurer shall transfer one hundred thousand dollars to the Nebraska Local Government Innovation and Restructuring Fund.

Sec. 9. There is hereby appropriated (1) $100,000 from the Nebraska Local Government Innovation and Restructuring Fund for FY1996-97 and (2) $100,000 from the Nebraska Local Government Innovation and Restructuring Fund for FY1997-98 to the Department of Administrative Services, Program 049, to aid in carrying out the provisions of this legislative bill.

"Section 1. Section 54, Legislative Bill 1085, Ninety-fourth Legislature, Second Session, 1996, is amended to read:

Sec. 54. On or before September 10 each year, the county clerk shall ~~set~~ certify a preliminary property tax rate for each political subdivision which levied property taxes in the county the previous year. For school systems with multiple school districts, the county clerk shall certify to each school district the combined valuation of the school system with the multiple school districts and the proportion of valuation in each district by September 10. The county clerk shall also certify the preliminary levy based on the combined valuation and the amount requested for the school system for the prior year. The rate shall be calculated by dividing the amount requested for property taxes in the budget of the previous year by the final valuation in the political subdivision for the current year. For any subdivision levying taxes in more than one county, the county clerks of all the affected counties shall agree on the preliminary levy. Except for school systems with multiple school districts, the ~~The~~ preliminary levy shall be published for each political subdivision in a newspaper of general circulation in the county on or before September 15. The preliminary levy shall be considered as the final levy as set by the county board of equalization in section 77-1601 unless changed by the political subdivision pursuant to section 55 of this act prior to October 15.

Sec. 2. Section 55, Legislative Bill 1085, Ninety-fourth Legislature, Second Session, 1996, is amended to read:

Sec. 55. The preliminary levy ~~set~~ certified in section 54 of this act shall be the final levy unless the governing body of a political subdivision passes by a majority vote a resolution or ordinance setting the levy at a different amount. School systems

with multiple school districts shall hold a hearing to approve or modify the preliminary systemwide levies on or before September 15. For a school system with multiple districts, the school board of the Class VI school district or kindergarten through grade twelve district shall have the authority to set the tax rate for the school system. Such resolution or ordinance shall only be passed after a special public hearing called for such purpose is held and after notice is published in a newspaper of general circulation in the area of the political subdivision at least five days prior to the hearing. Any resolution setting a tax levy under this section shall be forwarded to the county clerk and certified.

Sec. 56. Section 77-1601, Revised Statutes Supplement, 1995, as amended by section 56, Legislative Bill 1085, Ninety-fourth Legislature, Second Session, 1996, is amended to read:

77-1601. (1) The county board of equalization shall each year, on or before October 15, levy the necessary taxes for the current year. The levy shall include all such taxes as ~~set~~ certified by the county clerk or approved by the governing body under sections 54 and 55 of this act. Any such taxes regularly voted and certified to the county assessor, after the county board has made such levy and before the county clerk has completed the tax list, shall be levied by the county board of equalization, if within the limit of the law, and extended upon the tax list.

(2) Within thirty days after a levy has been made pursuant to this section, the county board of equalization upon its own motion may act to correct a clerical error which has resulted in the calculation of an incorrect levy. The county board of equalization shall hold a special hearing to determine what adjustment to the levy is proper, legal, or necessary. Notice of the place and time of such hearing shall be published at least five days prior to the date set for hearing in a newspaper of general circulation within the county. The published notice shall set forth (a) the time and place of the hearing, (b) the dollar amount at issue, and (c) a statement setting forth the nature of the error. Notice shall also be provided to the governing body of each political subdivision affected by the error.

(3) Upon the conclusion of the special hearing, the county board of equalization may issue a corrected levy if it determines the magnitude of the error warrants the action. ENROLLED RESOLUTION

LEGISLATIVE RESOLUTION 343. Introduced by Wickersham, 49; Wehrbein, 2; Lynch, 13; Crosby, 29; Robak, 22.

WHEREAS, section 79-1509.02, Reissue Revised Statutes of Nebraska, allowed noncertificated school employees who previously

elected not to be included in the School Retirement System of the State of Nebraska to file, after January 1, 1978, and prior to July 1, 1978, an election to be included in membership of the system; and

WHEREAS, section 79-1509.03, Reissue Revised Statutes of Nebraska, allowed noncertificated school employees employed after January 1, 1978, and prior to July 1, 1978, to file until June 30, 1978, an election not to be included in membership of the system, thereby waiving all rights within the system except to a refund of accumulated contributions; and

WHEREAS, the Public Employees Retirement Board allowed certain noncertificated school employees access to the School Retirement System of the State of Nebraska after July 1, 1978, when the election for membership had closed pursuant to sections 79-1509.02 and 79-1509.03, Reissue Revised Statutes of Nebraska; and

WHEREAS, the Public Employees Retirement Board and the Nebraska Public Employees Retirement Systems do not have the statutory authority to allow noncertificated school employees who previously elected nonmembership to join the School Retirement System of the State of Nebraska; and

WHEREAS, members of the Public Employees Retirement Board and state officers and employees are charged with the duties and responsibilities of administration of the retirement systems and funds and are required to lawfully execute their duties; and

WHEREAS, certain noncertificated school employees may have relied upon representations, communications, and actions by the Public Employees Retirement Board and the Nebraska Public Employees Retirement Systems that such employees could join the School Retirement System of the State of Nebraska at any time by filing a membership registration with the retirement office; and

WHEREAS, the rights of the affected noncertificated school employees to participate in the School Retirement System of the State of Nebraska remain unclear; and

WHEREAS, it is vital that the retirement systems be administered with certainty and in accordance with the law both statutory and constitutional; and

WHEREAS, legislation creating rights for the affected noncertificated school employees could be challenged under Article III, sections 18 and 19 of the Constitution of the State of Nebraska; and

WHEREAS, the representations, communications, and actions of the Public Employees Retirement Board and the Nebraska Public Employees Retirement Systems and any reliance upon those representations by the noncertificated school employees may have created constitutionally protected contract rights to participate in the School Retirement System of the State of Nebraska; and

WHEREAS, the Attorney General has issued an opinion advising the Public Employees Retirement Board that some constitutionally protected rights to participate in the School Retirement System of the State of Nebraska have been created; and

WHEREAS, the Attorney General has not brought an action to resolve the conflict between his opinion and the applicable statutes; and

WHEREAS, the Legislature may direct the Attorney General to undertake specific actions pursuant to subdivision (9) of section 84-205.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FOURTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Nebraska Legislature request the Attorney General for the State of Nebraska, under the authority vested in him by section 84-205, Reissue Revised Statutes of Nebraska, to initiate an action at the earliest possible date to obtain a ruling favorable to the benefit recipients on the following:

(a) Whether sections 79-1509.02 and 79-1509.03 were constitutionally enacted;

(b) Whether the representations, communications, and actions by the Public Employees Retirement Board and the Nebraska Public Employees Retirement Systems allowing certain noncertificated school employees who elected nonmembership prior to July 1, 1978, access to the School Retirement System of the State of Nebraska after July 1, 1978, created membership rights in the system for them based upon the theory of estoppel;

(c) Whether (i) the representations, communications, and actions by the Public Employees Retirement Board and the Nebraska Public Employees Retirement Systems allowing certain noncertificated school employees who elected nonmembership prior to July 1, 1978, access to the School Retirement System of the State of Nebraska after July 1, 1978, created membership rights for them in the system based upon the theory of contract; (ii) whether implementation of sections 79-1509.02 and 79-1509.03 would unconstitutionally impair such contract rights, if created; and (iii) if so, whether sections 79-1509.02 and 79-1509.03 are constitutional; and

(d) Whether the representations, communications, and actions by the Public Employees Retirement Board and the Nebraska Public Employees Retirement Systems to certain noncertificated school employees who elected nonmembership prior to July 1, 1978, and have not applied for membership since July 1, 1978, have created any rights which allow such employees to join the system.

(3) To investigate potential forms, structures, and relationships between cities and other governmental subdivisions which could result in reduced reliance on property tax revenue and create more efficient and economic ways of providing government services;

(4) To review existing state statutes, rules, and regulations to find unfunded state mandates on cities and villages; and

(5) To determine which state statutes relating to cities, villages, and sanitary and improvement districts need to be conformed or repealed to enable those entities to comply with the duties, responsibilities, and limitations created by the property tax legislation enacted in the 1996 legislative session.

MESSAGES FROM THE GOVERNOR

April 12, 1996

Madam President, Mister Speaker
and Members of the Legislature

State Capitol Bldg.
Lincoln, NE 68509

Dear Madam President and Senators:

Engrossed Legislative Bills 108 and 108A were received in my office on April 11, 1996. I have signed LB 108 and vetoed LB 108A.

LB 108 relies heavily on local control. It places authority in the Natural Resources Districts where it appropriately should be. NRDs currently have the authority to manage groundwater for water quantity and quality reasons, but they have no ability to manage the relationship between groundwater and surface water. LB 108 authorizes districts to manage groundwater in order to protect the quantity or quality of hydrologically connected groundwater and surface water.

An important aspect of LB 108 is that it provides that the State's role in this process is secondary to local control. The Department of Water Resources will serve only as a back-up to the NRDs' authority. Also, until 1999, the State can only serve as the back-up authority in the Republican River Basin. Finally, even if the State were to designate a management area, the applicable natural resources district would still be relied upon to develop the groundwater portion of the action plan.

In developing the appropriate rules relative to LB 108, the Department of Water Resources will be required to utilize negotiated rulemaking. This means that interested individuals and organizations will be given the opportunity to develop appropriate language. I have directed the Department to hold workshops throughout the state in order to gather input on how those rules should be drafted. These workshops will also provide an opportunity for citizens to become more fully informed about LB 108.

The natural resources districts in the Republican River Basin will be required to report to the Legislature with recommendations regarding the implementation of LB 108 prior to December 1, 1998. I will support appropriate recommendations then or even sooner should problems or issues surface prior to that time. Should the need arise, I will revive the Nebraska Water Council in order to make specific legislative recommendations.

I am pleased the Legislature was able to let reason prevail and find a compromise that seeks to protect the natural resources of our great state in the best interests of all concerned. Even LB 108's strongest opponents stated that the bill's latest amendments (AM3613) "greatly improve the bill" and they would, therefore, "not be actively opposing the bill." The passage of this bill would not have been possible without a great deal of effort by a number of individuals and organizations.

I have vetoed LB 108A because it would create three new positions in state government. While LB 108 is an important piece of legislation, I remain committed to keeping government from expanding and am, therefore, unwilling to support the creation of three new positions in the Department of Water Resources.

Sincerely,
(Signed) E. Benjamin Nelson

Dear Madam President and Senators:

I am returning LB 496A with line item reductions.

LB 496A provides funding to implement the Parkinson's Disease Registry Act. The Act will require administrative support from the Department of Health.

A late revision of the Department's fiscal note allows a line-item reduction of the General Fund appropriation for FY1996-97 of $24,140.

April 15, 1996

Madam President, Mr. Speaker
and Members of the Legislature
State Capitol Building
Lincoln, NE 68509

Dear Madam President and Senators:

With this letter, I am returning LB 1189 with line item reductions. The general fund veto amounts in LB 1189 total $15.4 million. A list of the individual vetoes is attached. These line item reductions are in addition to the $0.5 million general funds that have been vetoed in LB's 108A, 256A, 496A and 1085A.

My original recommendations for FY 1996-97 adjustments emphasized increasing the amounts we hold in reserve, returning money to the taxpayers of Nebraska and only adjusting the current budget where it was absolutely necessary. The Legislature has passed general fund spending proposals or revenue loss measures totaling $28.5 million. The problem is that based upon the Legislature's own General Fund Financial Status (see attached), the package of budget items and revenue reductions which you have sent to me falls $3.3 million short of the legally required 3% general fund reserve.

As you know, the Economic Forecasting Board reduced net general fund revenue projections for the current biennium by $25 million at its February 29, 1996, meeting. In addition, actual net general fund receipts for FY 1995-96 are already $12.8 million lower than that revised projection. The Legislature's spending proposals and revenue loss measures combined with actual net general fund receipts that are $12.8 million below projections, put the budget that the Legislature has presented to me $16.2 million in the red. I am required to reduce proposed spending for the remainder of the biennium to ensure a balanced budget and to provide the legally required general fund reserve.

The Legislature has placed $18.2 million in the Cash Reserve Fund for FY 1995-96 and has planned for an additional $3 million to be added in FY 1996-97. You passed LB 1290, the Cash Reserve Stabilization legislation, which provides additional assurance that these monies will remain in the Cash Reserve Fund to protect Nebraska from unforeseen

emergencies. It is prudent planning for State government, as it is for private citizens, to save. I applaud you for recognizing the importance of rebuilding our Cash Reserve Fund.

My vetoes call on state agencies to be frugal and manage anticipated operating expenses within their existing appropriations. Given the circumstances, we simply cannot provide additional funds for many requested increases. These agencies include the Supreme Court, the Department of Education, Department of Aeronautics, and the Historical Society.

I have vetoed the additional $79,685 general funds for automation of the legislative chamber. The Legislative Council is urged to address these costs from the projected ending general fund balance of approximately $750,000 in Program 122.

I have vetoed $500,000 from the budget of the Department of Water Resources for legal costs associated with the water rights lawsuit between Nebraska and Wyoming. Diligence is expected on the part of the Department to contain costs within the $2.2 million that remains in the FY 1996-97 budget after my veto. The adequacy of funding can be addressed again next legislative session if absolutely necessary.

In a number of instances, the Legislature added back to the budget items I vetoed last session. All of these items were in excess of my original budget recommendations. Unfortunately the override actions of the Legislature during the 1995 Legislative Session created obligations without funding to sustain them during FY 1996-97, the second year of the biennium. My line item reductions to LB 1189 minimize the adverse effects on Nebraskans of last year's veto override actions.

A reduction of $3,170,295 General Fund was made in the rate equity funding for providers of services to the developmentally disabled. The Department of Public Institutions will be able to provide a 2% salary adjustment and reimbursement to providers at 75% of rate equity methodology for a second year with the additional $3,170,294 that remains after my veto.

I have reduced $2.0 million of the additional $5.0 million of State General Funds provided to the University of Nebraska. The remaining $3.0 million should be sufficient to allow the University to meet its most pressing financial needs. The University has already received over $37.6 million of additional General Funds for the current FY 1995-97 biennium over its FY 1994-95 appropriation; it should be able to manage its budget through reallocations and by increasing efficiencies rather than with significant tuition and fee increases.

The State Colleges have been reduced similarly, with $31,060 being vetoed and $46,589 remaining for top priorities. The Community

Colleges have been vetoed in the amount of $43,576, with $65,363 remaining.

The Nebraska Educational Telecommunications Commission has likewise been reduced by $14,312, while $21,468 remains for top priorities. For the Scholarship Assistance Program, the State Scholarship Award Program, and the Postsecondary Education Award Program, all student financial aid programs, a total of $82,656 has been reduced, while $123,986 remains for additional financial aid for needy students.

My veto of $300,000 from the appropriation to the Nebraska Resources Development Fund reduces FY 1996-97 funding to the current year level of $2,170,000, maintaining the $200,000 increase over the annual funding from the previous biennium.

Upon reviewing the Legislature's initiative that adds funding for the expansion of juvenile services grants, I am recommending that half of this increase remain in the FY 1996-97 budget in the amount of $636,799. The Office of Juvenile Services is still in the early stages of implementing an array of community-based services. The Legislature's long-term goal of providing statewide services is one that I share, but with only four months of experience I would caution against expanding too rapidly without the proper review and assessment of programs. I remain a strong advocate of a continuum of statewide community-based services for juveniles, but such growth must be orderly and involve the input of our local communities.

I have vetoed $200,000 of the $350,000 included for the Department of Correctional Services to prepare preliminary design documents for a 480-bed medium-minimum secure adult correctional facility. I have asked the Department of Correctional Services to take a much broader approach in the preparation of its program statement to first consider the policy, legal, and program alternatives and then consider construction alternatives to address the increase in the adult prison population. The remaining funds will be more than sufficient to do a program statement.

I have line-item vetoed $15,000 from the Auditor of Public Accounts for FY 1995-96. This veto is made at the suggestion of the State Auditor that Nebraska taxpayers not bear duplicative costs associated with the necessary audit of the distribution of motor fuel tax receipts and other receipts deposited into the Highway Trust Fund.

Finally, I have made some base reductions at the Department of Social Services, the Department of Public Institutions, and the Department of Revenue.

The number of families receiving welfare benefits in Nebraska is declining. Participation rates have dropped significantly in fiscal years 1994, 1995, and the first nine months of 1996. This is good news. It means jobs are available in the Nebraska economy, and families are not having to depend on public assistance to meet their needs. It also means savings of both state and federal money for the taxpayers. We are able to recapture over $2.1 million in General Funds and $3.0 million in Federal Funds from the current year appropriation to the Public Assistance Program at the Department of Social Services.

Because persons on public assistance receive Medicaid services as well, there are also savings in the Medicaid program. Another nearly $2.0 million in General Funds and $2.9 million in Federal Funds are available for savings in Medicaid.

General Funds at the Department of Public Institutions were reduced by $1,075,000 to offset a one-time federal fund windfall from a Medicare rate adjustment. While the Legislature had allowed the Department to use the excess federal funds to continue program increases in the area of outpatient mental health services, I am asking the Department to exercise the discipline of reducing excess capacity for inpatient care in order to fund the growing need for community-based outpatient services. Strategic planning has occurred, and movement in this direction is already underway.

The Department of Revenue has estimated that Homestead Exemption Claims will not reach the level of the current appropriations for that program. While my veto reduces the appropriation for the current program, I am signing LB 1039 and LB 1039A which will allow homestead exemption applicants to deduct medical expenses when applying for this tax relief. LB 1039A appropriates $6.2 million general funds for this purpose.

I appreciate the hard work of the Legislature. You are to be commended for your responsible position on replenishing the Cash Reserve Fund. I urge you to support the vetoes to LB 1189, so that we may provide a responsible level of spending for the remainder of the biennium.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

Dear Madam President and Senators:

I am returning LB 256 and LB 256A with my veto. The bill requires the county and the state to split costs of maintenance and care for those individuals who are judged to be incompetent to stand trial. Currently, the costs for such care are born entirely by the counties.

The bill is intended to provide a decrease in county financial obligations, thus allowing a reduction in the property tax burden. While reducing property tax is certainly a valid intent, it is my opinion that this bill will not accomplish that goal. I believe LB 256 will place an additional burden on state government without the necessary protections in place to allow containment of the incumbent costs. This is not a time when state government can assume expenses over which it has no control.

Senator Hudkins and county representatives have indicated a willingness to work on finding some procedural protections against unreasonable reliance on state facilities. When such protections are ready for implementation, I will be willing to look again at the proposal to provide state assistance for this function.

I would urge you to sustain my veto at this time.

Sincerely,

Dear Madam President and Senators:

With this letter, I am returning LB 1120 without my signature and with my objections. LB 1120 would eliminate the Governor's authority to establish the salary of the Tax Commissioner and would place a fixed amount for that salary in statute. As a director of a code agency, the Department of Revenue, as well as a close advisor to the Governor, it is appropriate for that salary to be established by the Governor.

I urge the members of the Legislature to sustain my veto of this bill.

Dear Madam President and Senators:

With this letter, I am returning LB 1085A without my signature and with my objections. LB 1085 is one of four bills and a proposed

constitutional amendment which comprise the Legislature's 1996 property tax relief package.

Among other provisions, LB 1085 requires that the Natural Resources Commission conduct a study of Nebraska's natural resources districts and make recommendations to the legislature related to several topics including: district boundaries, consolidation possibilities, their revenue base and program delivery. The study findings are to be delivered to the legislature in two parts with the final portion due by September 1 of 1998.

This study is an important part of LB 1085. However, it is my belief that the Natural Resources Commission currently possesses the resources to conduct this study. I am, therefore, returning LB 1085A.

ATTORNEY GENERAL'S OPINION

Opinion No. 96031

DATE: April 12, 1996

SUBJECT: Application of Statutory Amendment to Existing Ethanol Production Credit Agreements

REQUESTED BY: Senator Leland Klein

WRITTEN BY: Don Stenberg, Attorney General
Steve Grasz, Deputy Attorney General

You have requested an Attorney General's Opinion on the validity of AM4268, an amendment to LB 1121. Specifically, you have questioned whether the amendment can constitutionally be applied retroactively to existing ethanol production contracts.

AM4268 to LB 1121 provides that "No credit shall be given on ethanol produced for or sold for use in the production of distilled spirits." Thus, AM4268 places an additional restriction on ethanol producers to qualify for production credits.

This office has addressed nearly identical questions previously. **See** Op. Att'y Gen. No. 95043 (May 30, 1995) and Op. Att'y Gen. No. 80 (April 24, 1981). For the reasons stated in those opinions, we conclude that AM4268 to LB 1121 must be construed to apply only prospectively, and may not be applied retroactively to existing ethanol production credit agreements between ethanol producers and the Nebraska Department of Revenue. The Amendment does not state that it is intended to apply retroactively, and a statute may not operate retroactively where it would impair the obligation of a contract or interfere with a vested right. **State ex rel. Douglas v. Nebraska Mortgage Finance Fund,** 204 Neb. 445, 464, 283 Neb. 2d 12 (1979).

Sincerely yours,
DON STENBERG
