

February 21, 1995 LB 830

savior is going to have to come here from outside to clean up all the blighted and substandard property, and I'd like to ask Senator Lindsay a question. Senator Lindsay,...

PRESIDENT ROBAK: Senator Lindsay.

SENATOR CHAMBERS: ...which company that was drawn here by 775 has cleaned up blighted and substandard property that you know of?

SENATOR LINDSAY: I would think ConAgra, if you look to the east of Jobbers Canyon and to the...there is some question about whether Jobbers Canyon would have been, at least in some people's minds, blighted or substandard; but certainly in the area surrounding that.

SENATOR CHAMBERS: How much additional affordable housing have they brought here, any of these companies?

SENATOR LINDSAY: Well, I don't know. I mean, as far as on housing, I don't know.

SENATOR CHAMBERS: On the 775 jobs, how many of them created jobs that will be available to these people we are trying to get off welfare?

SENATOR LINDSAY: That would depend, I mean, to say who is on welfare would require me to go with the stereotype of who is on welfare, and I think who is on welfare is going to vary as far as education, as far as...

SENATOR CHAMBERS: Next question, do you think that the kind of jobs that Micron is going to bring here, and, by the way, they are not "Yourcron". They are not "Timsron".

SENATOR LINDSAY: Whose "cron" are they?

SENATOR CHAMBERS: Micron. Senator Hall, oh, I mean, Senator Lindsay, do you think that the kind of jobs that Micron says that they are going to provide will be the kind available to these telemarketing indentured servants that you've mentioned who don't have jobs that are really that good?

SENATOR LINDSAY: I believe that there will be...some of those jobs will be those that would attract them, yeah.
