

SENATOR CHAMBERS: ...don't know where they intend to put that plant? Do you think they are still puzzling and agonizing over that decision? If down the street and around the corner is where they can have what they want, they are smart to get two dummies like Nebraska and Oklahoma to fight each other to up the ante so that Idaho will say we'll give you more and more and more, then they move down the street and around the corner, and you all are amazed. Not one World-Herald, not one Journal, not one Star can mention that there are people who don't believe Micron is coming because they can't do the whole story. They've got to become a cheerer, a booster for this plant, but then when it does not come, they will be scrambling around to find people who said Micron is not coming, and saying can we get a comment from you, can we get a comment from you. Nonsense! When all aspects of a state's life, including the way the media report, becomes distorted and perverted, something is wrong and it is worthy of much more close scrutiny than we are giving it.

PRESIDENT ROBAK: Time. Thank you, Senator Chambers. Senator Wesely.

SENATOR WESELY: I will yield my time to Senator Chambers.

PRESIDENT ROBAK: Senator Chambers.

SENATOR CHAMBERS: Madam President and members of the Legislature, I am not going to offer any amendments to this bill because it is a foregone conclusion that this one and LB 828 will pass also. I see something in this bill, a couple of things that I would like to offer amendments to if I thought we were serious about legislating and I thought there was an attempt to clean this bill up, but I know that will not happen. In order to do anything, we'd have to return it to Select File and, apparently, that cannot be done because the cattle are being stampeded and maybe I made a mistake. Maybe all those people on the board of Micron do operate at the level of the Nebraska Legislature, and, Senator Engel, maybe they are sitting there sweating and puzzling right now as to shall we go to Omaha or should we not. Then they will get a little daisy; yes, we will, no, we won't, yes, we will, no, we won't. Where is Senator Withem? Senator Withem, I want to ask you a question.

PRESIDENT ROBAK: Senator Withem.

SENATOR CHAMBERS: Senator Withem, this is the first I knew
