

about it when I read it in the paper. There was some kind of video put together where Senator Kerrey and others were on this video specifically directed toward the Micron people. Were you approached to make a comment on that video?

SPEAKER WITHEM: I was not aware of the video being made, no.

SENATOR CHAMBERS: Thank you. Do you see how little they think of the Legislature, and we are supposed to be the main link. And I didn't know about it, Senator Withem, until I read about it in the paper. And had that not happened, I would not have been aware of it. They talk about this New Age music that plays, then they have pictures of various things in Omaha to con these savvy people on Micron's board into thinking that Omaha is the best place in the world and Nebraska is the greatest state for the placement of their company. But nobody from the Legislature was talked to. The Governor was on it. He starred. I am sure he had his makeup person. I am sure Governor Kerr... I meant Senator Kerrey had his makeup person. I am sure Senator Exon... I am not sure if he was on there but I think he was, and some guy from Iowa even wrote to Micron and said since you are not going to put it in Iowa, put it in Nebraska. So this gives everybody in Nebraska a life. Everybody can be up until Wednesday, just wishing and hoping and praying and praying, and hope that Micron is going to say to Nebraska thou art the one. I don't believe it. Senator Uhrbein, will you take my 50 dollar bet? I bet they will not come, will you take the bet? Not at this point. Senator Hall, you bet on anything. Will you... I bet you \$50 Micron is not coming to Nebraska. Won't take it. I am not going to put Senator Withem in it because he's objective and the Speaker. Senator Kristensen, you don't gamble as far as... Senator Engel, I will bet you \$50 against \$25 that Micron is not coming. Do you want the bet? Senator, I want that on the mike so it is clear. He will take... you'll take my bet. I will put up 50 against 25.

PRESIDENT ROBAK: Senator Engel.

SENATOR CHAMBERS: Senator Engel, will you accept it?

SENATOR ENGEL: I accept.

SENATOR CHAMBERS: Thank you. Now, if Senator Engel wins the bet, he is the only one who put his money where his mouth was, and he hasn't said much on this bill. Yeah, and here is Senator
