

announcements concerning tomorrow's schedule and today's schedule. There was some confusion evidently. Some people thought we were going to full day meetings today. There still, because of the Monday recess days we've had, there's still one of the two day committees that is having hearings today so this will be an adjournment motion. Tomorrow we will be dealing with Select File bills in the morning. We will come back in the afternoon. That will be the first of many full day sessions. What we'll be dealing with tomorrow will be the Conference of the States resolution will be the first thing up in the afternoon, LR 16. Select File in the morning. If we conclude LR 16 early enough in the afternoon we will go back to Select File bills in the afternoon. With that, I would move that the body adjourn until 9:00 a.m., Wednesday, March 22.
