bringing corn in from a Kansas farmer, then I don't think that
Kansas farmer should be expected to pay the Nebraska checkoff,
or I don't think that Nebraska...that Kansas farmer should say,
well, I am not going to go up there and pay that penny a bushel
on that, I'm going to take it a few miles south and sell it to
another elevator. So this i   an amendment that would make this
whole bill a little less onerous to the constituents in my
district. I didn't think it was going to be controversial, so I
am a little bit surprised. If it doesn't pass, which I think it
should, why I'll try it again on Final Reading. So I really
don't think Senator Coordsen and I are asking for much here
because the truth of the matter is the district I serve doesn't
benefit much from the ethanol industry anyway. So I would just
urge you to support this bill, and I guess I'm a little miffed
that...or this amendment, I'm a little miffed that there is some
opposition to this at this time.

SENATOR SCHROCK: Mr. Chairman, members of the body, this bill
(sic) would say that any money left in the fund when this
