

We don't need Senator Hall or anybody else to be making them for us and if someone were to come to this Legislature when we're working till midnight some night, and I know Senator Hall drives home and I drive home, and tell me I couldn't drive home that night because I was working late that night and I couldn't get home to see my family or whatever in the morning and tell me to do that every day for the five days that we were here working till midnight, you know I would have some comments for that, I probably can't say on the microphone, but you wouldn't want them to do it to us. You wouldn't want somebody to tell you how many hours you can work in a day so don't try to go out and tell the truckers or any other industry how they should run their business or what decisions they should make and when they should drive and when they shouldn't drive. And if it was up to me to make this decision if I was in a position to make it, I would do away with any of this legislation as far as how many hours and I would do away with log books and all this regulation and nonsense that you're constantly piling on this industry and other industries. And as far as I'm concerned the elections last November said loud and clear, the general public is tired of it, stop it, stop regulating things, stop micromanaging our businesses, stop telling adults in this country how they can spend their 24 hours in their day and this goes in the exact opposite direction of that so I hope people won't support it. Thank you.

SPEAKER WITHEM: Senator Hall.

SENATOR HALL: Thank you, Mr. President and members. Again, this is a motion to return to Select File and, Senator Witek, I appreciated your comments. I look forward to them the next time we're on an abortion bill. The issue before us with regard to the motion to return is one that says, look, there is a choice here that needs to be addressed. I don't know that it was
