

just a normal thing that they used, had to use a lot of temporaries for a disaster or for some other reason that they don't need it anymore?

SENATOR WEHRBEIN: I can't tell you. It was a modification that we took. I can't explain exactly why they were using...had increased use of temporaries. It did show up in our other charts that the military had used them. I could suspect that it might have had something to do with the 1993 floods, those kinds of things, but I don't know that for a fact.

SENATOR BERNARD-STEVENS: Okay.

SENATOR WEHRBEIN: And, I mean, that tends to be cyclic, what goes on in the Military Department and the things they had, so that is my best guess at this point. We did take it back. It is a reduction.

SENATOR BERNARD-STEVENS: Yes, and it may be, Mike, when he gets a chance, if he could give me a little bit more reason why it was there in the first place and what happened, I would appreciate that. And then, the same agency, Roger, still on the same page, 86, Agency 31, I want to make sure I am clear on the numbers here. I think we are talking about, and I am talking about the Governor's Emergency Fund, okay.

SENATOR WEHRBEIN: Okay.

SENATOR BERNARD-STEVENS: The way I read it, and I want to make sure I read it correctly, that, in essence, you have budgeted 500,000, which is the normal amount we put in in each of the next two fiscal years, but there is a 600...a 600,000 dollar existing deficit?

SENATOR WEHRBEIN: Yes.

SENATOR BERNARD-STEVENS: Okay, and so that's where the million, six comes in. It actually...actually although it reads a million, six, it technically is still only the 500,000 that's...

SENATOR WEHRBEIN: Right, 500 each year.

SENATOR BERNARD-STEVENS: ...that's there, so it is not a million, six above that? Okay.
