

term, which these self-righteous people are so interested in forcing the woman to do. My amendment on page 1, line 12 of Senator Pirsch's amendment, would strike all of the language following "child", and insert, "from the point when conception is determined medically". This is the way the language would read, "commencing July 1, 1996, through April 30, 1997, in awarding aid to dependent children payments, the term dependent child shall include an unborn child from the point when conception is determined medically." So the language following the second time child is used, which means that from the point of conception assistance would be made available to women who, because of their impoverished position, need assistance, and that is what I intend to push for in this bill. Sometimes I ponder about the things we discuss on the floor of this Legislature and the things that I read written by so-called pro-life people. They send me all kinds of publications in the newspaper. They send me stuff that shows that a woman named Sanger, whoever she is, was against black people and wanted to exterminate all of us, and said, therefore, I should be pro-life. I never saw the connection. But a lot of the arguments given by people who call themselves pro-life are not logical and are not reasonable. But I say again we are past that point. I hear all of this talk about doing everything possible to protect the most defenseless, helpless ones in our society. Isn't that what you pro-lifers say? Isn't that what you harp about? Isn't that what you always preach and chortle about when you're pointing the finger of condemnation, exalting yourself in your judgmental self-righteousness? Shouldn't you be proclaimed what Jesus proclaimed the scribes and hypocrites to be during His day? Woe unto you hypocrites, sons of vipers, who warned you to flee from the wrath to come? That's what Jesus said. Son, sons of vipers. The word viper begins with a V, so I guess Jesus would call them...call them a son-of-a-V, that was Jesus, you sons of V's. I'm quoting the Lord and Savior in whose name pastor preached to us about this morning. I was down in my office and I heard the sermon, and it is a waste of time. Here we are saying that \$213 of assistance to a poor pregnant woman will bust the budget of this state. And yet you've got a bill to give the Governor a \$6 million slush fund. Why how hypocritical can you be? How cynical can this body be? How dishonest can this body be? And you're the ones who have the nerve to insist on a prayer to a Jesus Christ every morning? Well, Jesus Christ almighty, why don't you do the things He told you to do? He told you to take care of the poor. He told you to give water to the thirsty. He told you to bind up the wounds
