LB 393

SENATOR WEHRBEIN: Well, that I don't know.

SENATOR CHAMBERS: Does anybody know?

SENATOR WEHRBEIN: Seven...well, whatever the figure is, 7.65. I haven't done my own taxes for awhile, but....

SENATOR CHAMBERS: Does anybody know how much in dollars is paid per year to the government for Social Security purposes for each Senator? Nobody knows.

SENATOR WEHRBEIN: Well, if you take 7...7.65 times 1,000 that's, what, \$71?

SENATOR CHAMBERS: Seventy-one dollars?

SENATOR WEHRBEIN: Times 12.

SENATOR CHAMBERS: But I meant you said \$71? We're arriving at \$71.

SENATOR WEHRBEIN: Seven dollars and ten cents, excuse me.

SENATOR CHAMBERS: But if we round it, it will come to \$71, if we round it upward, right? Isn't that right, if we round it up from \$70.10...

SENATOR WEHRBEIN: Well, I...

SENATOR CHAMBERS: ...it would be \$71.00?

SENATOR WEHRBEIN: Seven percent of a thousand, I was going by a monthly figure and going to take it times twelve, Senator Chambers.

SENATOR CHAMBERS: I like your figure, but you did say \$70.10, roughly \$71.00, right?

SENATOR WEHRBEIN: Yes.

SENATOR CHAMBERS: Thank you.

SENATOR WEHRBEIN: Approximately.

SENATOR CHAMBERS: Okay, I think a message is being given to us
