

Corporation, there's a new telemarketing place coming into Blair, there's a Desoto Manufacturing Company, Feck Manufacturing Company in Herman that makes elevators, there's a store fixture company that moved up from Omaha that makes store fixtures, in Tekamah. And I know a lot of you have heard of the Wimmer's sausage company in West Point, Nebraska. There's a manufacturer of painting stalls in Tekamah, Brehmer's, up in Lyons, makes tire-cutting devices, also a company in Lyons that makes hog confinement devices. There's Jones Manufacturing that many of you people visited when we had the Cuming County Industrial Day, then there's the soybean factory in West Point, along with all the cattle feeders in Cuming County where they raise 400,000 head of cattle a year that are on feed every year. So those are some examples where this money will go, and all of you people have those...probably...maybe not as many, but all of you have some of those small businesses that may choose to expand. And these...the ones that I gave you are in that group, they're in that group. And if we don't keep...and I think it's like Senator Hillman said, if you don't keep priming the pump, what are those little...what are those small manufacturing companies going to do? Thank you.

SENATOR HALL: Thank you, Senator Robinson. Senator Chambers, yours is the last light.

SENATOR CHAMBERS: Madam...I mean, Mr. President, I was going to make a comment to Senator Hillman, but I don't think I will. Since I'm the last light and there is a tradition of saving the best for last, I don't want to depart from that tradition. I'll limit my remarks to saying that I support the bracket motion.

SENATOR HALL: Thank you, Senator Chambers. I misspoke, Senator Bromm's light came on, he is now the last.

SENATOR BROMM: Thank you, Mr. Chairperson. And I'm sorry, Senator Chambers, I...maybe I will get the last word this time. I just want to say that this is a difficult decision for many of us that feel that we have a budget that needs to be brought under control yet, and not that it's totally out of control but needs some finetuning, let's put it that way. If we're going to address the spending situation at the state level so that we can, hopefully, set some sort of example for what we're trying to tell people they've got to do in tightening their belts at the local level, we've got to do some of that here. However, at this point on Select File, because I feel that the kind of jobs
