LB 750

SENATOR HALL: Thank you, Madam President and members, again the bracket motion is offered because the introducers have stated that the issue is not going to be addressed in its full form and fashion this year and that's why. I believe that it makes sense. It is not done, but yet to do anything to provide then the opportunity to work those types of things out and I understand that. Senator Elmer, I just prefer to believe that you're starting to think about things from time to time as opposed just automatically go to your red button. The motion is before us, if we choose not to bracket it, fine, we take up Senator Beutler's amendments and the other amendments that will come because this is a very controversial issue. And Senator Preister is exactly right, much of this needs to be done off the floor and he's begun that process along with Senator Landis. We make...we do nothing to the bill to harm it knowing full well that it's not going to be addressed until next year. All we do is preserve its place in terms of...and it's priority status on General File. I would move the adoption of the bracket motion.

PRESIDENT ROBAK: Thank you, Senator Hall. The question before the body is the motion to bracket LB 750. All those in favor vote aye, all those opposed vote nay.

SENATOR HALL: Madam President, I'd like to call the house.
