

Senator Lindsay, I'd like to ask him a preliminary question, if I may. Senator Lindsay, I will speak and then he will get here before I get through altogether and I can ask him a question. But here's what I want to make clear. These other sections of statute mentioned on the green copy are knowing, intentional acts that are placed that result in the damage which the law wants to prevent from occurring. Oh, and to help some of you keep track of what it is we are doing, the sheet that gives the division is keyed to the committee amendment, and that committee amendment will be found in your bill book. So when you look at the division sheet, it will refer you to the committee amendment, which is in the book. In some instances, the committee amendment will make a reference to the green sheet because the committee amendment will amend the green sheet, and I say that so you won't think that the reference on the division sheet goes to the green copy. The division sheet goes to the committee amendment, which is in the bill book, and when you find the portion of the committee amendment that is being addressed, that will take you to the place on the green sheet where this discussion is occurring. Now that Senator Lindsay is here, I'd like to ask him a question.

SENATOR LINDSAY: They would primarily (interruption)...

SPEAKER WITHEM: One minute.

SENATOR LINDSAY: ...mentioned, and I did hear your discussion earlier, they would be intentional crimes, basically, what I think most people would consider as the violent crimes, murder, sexual assault, first degree assault, which is assault with serious bodily injury. If you want me...if I take just a
