LB 455

much appreciate Senator Hall agreeing to the amendment and, Senator Vrtiska, I appreciate your agreeing, and, Senator Chambers, I don't know if you would like anymore...any time that's left. Thank you.

PRESIDENT ROBAK: Senator Chambers, you have five minutes.

SENATOR CHAMBERS: Madam President and members of the Legislature, several times today I've given time back. Several times, several members and I have shared the time. That's what we're doing again here today, at this point, and I'm not going to take it all, but just to say that I agree with what Senator Hall has said, with what Senator Wesely has said. The amendment falls far short of what I would like to have seen happen. I tried to do it. I failed. This is...this is a step up from being as bad as the amendment was originally, so I'm going to support it, and I give Senator Hall back the remainder, if he wants it.

PRESIDENT ROBAK: Senator Vrtiska, there's four minutes left.

SENATOR VRTISKA: Thank you, Madam President. And I think, at this time, I would like to let Senator Janssen ask a question if he...seems to have a troubled mind.

PRESIDENT ROBAK: Senator Janssen.

SENATOR JANSSEN: Madam Speaker and members, Senator Hall, now you're striking out the words "due to his or her own actions or inactions", right?

PRESIDENT ROBAK: Senator Hall.

SENATOR HALL: Madam President and members, Senator Janssen, no. I apologize.

SENATOR JANSSEN: That's all right, eat your sausage, that's all right.

SENATOR HALL: No, I have ice in my mouth and...

SENATOR JANSSEN: Oh.

SENATOR HALL: ...sometimes I wish I had it in there most of the day.
