

decide where this should be built. We want to do best for our people who's going to be incarcerated. I saw a program on Channel 10/11 the other night and I feel like Rodney Dangerfield here, I'm not getting much respect, but whatever. But I saw this show on Channel 10/11. They were interviewing these kids that didn't have any place to go and they asked them why they didn't want to belong to society in the way everybody else belongs to society. And they said, why do you join the gang? Why do you want to be in this particular gang? Why do you want to do these types of bad things to people? Why do you want to do this? And the kid answered one simple thing, I want to be wanted, I want to be liked, I want to be loved. That's why he's there. We have the country clubs to go to. We have our supper clubs, we have our chicken pot pies in here to gnaw at and have conversation with. We have our golf clubs, we have Billy's over here, we have the Cornhusker. We're together. We like to be at it. We like to be liked. We like conversation. If you don't believe me, just listen, just listen to them talk. We like conversation. Some of these kids don't have any place to go. It's too bad. So we lock them up. If we're going to lock them up, let's put it in the right spot, let's mix them and make a proper decision where they are going to be incarcerated. With that I guess I will stop. I'd appreciate your vote.
