

their health, safety and well being, and those people are the ones who I feel some sensitivity to and who I think need to be heard more than perhaps they have been in this process. And as the discussions have gone on, yes, indeed, they may have gone on with Game and Parks but Game and Parks does not have to live across the road from a controlled shooting area, particularly a private controlled shooting area that is likely to be given a permit to operate. The safety of the children of those people, the safety of the families of those people living there is something that we need to give a little more credence to. I don't think...and this isn't even a case of the NIMBY syndrome. I think it goes beyond that. I think these people have raised some very legitimate concerns.

SENATOR CROSBY: Time.

SENATOR PREISTER: Thank you.

SENATOR CROSBY: Thank you, Senator Preister. Senator Kristensen. The question has been called. Do I see five hands? I do. The question is, shall debate cease on the first half of the amendment, the Preister amendment? All in favor vote aye, opposed no. We're voting on to cease debate. Have you all voted? Please record.

CLERK: 26 ayes, 1 nay to cease debate.

SENATOR CROSBY: Debate ceases. Senator Preister, you may close on the first part of the amendment, lines 1 to 3.

SENATOR PREISTER: Thank you, Honorable President, friends all, I would encourage people to support the amendment. It does not do very much and so it should be relatively easy to support. It simply says that the area will not interfere with the normal activities of migratory birds. So it would allow Game and Parks, in their granting of licenses, to take into account where the location of the controlled shooting area is going to be and whether it's in the flight pattern, the migratory pattern of some of these birds that go through. I would like to see the inclusion, and will deal with some of that in the next half, but the inclusion of some of the other animals that would be in the area. This section only deals with the interference of migratory birds. So the migratory birds would be not just the water fowl, I assume, but would include additional birds. I think that, at least, gives some direction to Game and Parks in
