

indicate to me why the single motion to override in the first section here included areas of different funding. Again, I'm not criticizing because I understand you can't have all these separate but I was a little concerned about some of the different areas that were included in the one motion to override. Could you explain that?

SENATOR WEHRBEIN: Well...

SPEAKER WITHEM: Senator Wehrbein.

SENATOR WEHRBEIN: ...mainly different people have different areas that they're vitally interested in and in an effort to try to meet the needs of the several that we can without taking undue time, as I said, they are lesser amounts but that doesn't necessarily mean they're of lesser importance. And you know, I'll admit it's a political body, but we've had, all of us have had calls on several issues. Some of that is a reaction to that, some of its reaction to the practicality of the use of these programs. If I went into detail some of those are heavily used, have a large impact on population, so it mostly has to do with the needs as we perceive them at this point.

SENATOR VRTISKA: Okay, I just wanted to allow you to give some rationale for the various because below then you have separated them out and I guess in some instance it would seem easier to deal with had they been separated in different categories but I'm not, again, I want you to understand and all the members of the committee that I'm not criticizing. I'm just asking the question for the purpose of clarification from your standpoint and if you need some more time to finish up on what you were talking about, I'll be glad to give you the rest of my time, Senator Wehrbein.

SENATOR WEHRBEIN: I would like that, Senator Vrtiska, in fact I would be glad...

SPEAKER WITHEM: Three minutes left.

SENATOR WEHRBEIN: Thank you, I neglected to ask you that this morning, he said three minutes. I appreciate it. I was going to ask you for the time. I would like to maybe wrap down a little bit about what I wanted to say. The latest financial status, and I don't know whether that's being passed out, I guess it's not because we haven't had time but I will pass that
