

political heat came, the Governor said, Sonny, you got to go. Malcolm X talked about black men who were more loyal to the white men than the white man was to himself. When the white man got sick these particular Negroes would say, what's the matter, boss, we sick? As though he's sick because the boss is sick. Run into a burning building for the master when the master will not risk himself for what's in the burning building. Then how is that kind of loyalty rewarded because it's based on contempt? The person is out the door, but these other white people are still there. And I'm talking about the woman who heads the Materiel Division, I forget her name, Barbara Lawson, or something like that. They always gloss over these kind of things. Old white judge out there, named Bryce Bartu, was giving problems to these women down through the years and nothing was to be done. The women came to me, Obi Wan Kenobi, as a last resort. And although Bartu got sick, I'm going to bring something before the Legislature, if he doesn't resign, to impeach him for the wrong that he has done. It was my resolution of impeachment that the Legislature voted for that impeached former Attorney General Paul Douglas. But based on what is there now, I saw Paul in the bakery one time, and I told him, if he'd run again not only would I support him, I'd campaign for him, and I would, I would. A lot of times you think you're at the bottom of the barrel and things can't get worse, but hang around a while and live a little longer and you'll see that they, in fact, can get worse. I used to say that about the Legislature, can't get any worse. Good, God almighty, how wrong was I then. But in any case, my main quarrel on...with this bill I've given over and over, but I've got to fight it as long as I can, in every way allowed by the rules. Right now, as Senator Warner pointed out, the motion is to adopt the committee amendments, they will become the bill. Then whatever else people may have thought that was in this, based on what was in the green copy and had been discussed, all of that will be clarified and we'll know exactly what's before us. But I say that what is before us deserves to be skewered through the heart, just as the original green copy did. And I will...this is one of the things I can't forgive my good friend, Senator Hall, for having...

SENATOR CROSBY: One minute.

SENATOR CHAMBEKS: ...done, that's bringing this bill. We did discuss it. And were it a "Repelican" Governor, Senator Hall
