

January 8, 1996

wants to visit with some members of the Legislature as it relates to a concept he calls the connected community, dealing with how the computer revolution will be changing the way in which all of us are doing business. He will be in the Capitol tomorrow morning at 8:00 a.m., Room 1507. I certainly plan on being there, I hope the rest of you can be there or will at least send some representation. I think it should be a good representation. I apologize for the lateness of this notice. With that, tomorrow we will be back on rules in the morning and then in the afternoon we will be back on continuation of this legislation. Thank you for your attention today.

PRESIDENT ROBAK: Thank you, Senator Withem. The question before the body is the motion to adjourn. All those in favor say aye. All those opposed nay. We are adjourned.
