

January 17, 1996

have any formal leadership position. Never. But I don't need badges and titles to function effectively. I can...

SENATOR COORDSEN: One minute.

SENATOR CHAMBERS: ...get things done. But even though I can get things done and none of your rules can stop me, I am looking at the slow-witted and the slow-footed. That's why I oppose these kind of rules. There are some of us where the chairman of the Rules Committee can go to that person and say, vote against that amendment by Senator Chambers, and the slow-witted will vote against it. I know this has happened. I know that it has happened. And I can be like Santa Claus, I can whistle and shout and call them by name. But since we're not dealing with reindeer, I won't do that. I am opposed to Senator Withem's amendment because it takes from the introducer of a bill the prerogatives that I think that introducer should have.

SENATOR COORDSEN: Thank you, Senator Chambers. Senator Withem, you wish to be recognized?

SPEAKER WITHEM: I would withdraw the amendment.

SENATOR COORDSEN: The amendment is withdrawn. Next item, Mr. Clerk.

CLERK: Mr. President, the next motion, Senator Chambers. I have another amendment from you, Senator. I think this one you'd offered and withdrew the other day and asked to have it refiled.

SENATOR CHAMBERS: Could you read for me what that one is, please.

CLERK: Yes, sir. It says, substitute the following...well, in paragraph 6, in proposal number 6, excuse me, strike subdivisions (b)(2).

SENATOR CHAMBERS: I'll withdraw that one.

CLERK: Senator, I then have an amendment from you, in paragraph A, in the last sentence after the word "approved", insert "unanimously".
