

used to enforce anything other than the laws and rules relative to the use of that drivers license. This discussing and pulling and tugging which is going on now is to try to get a bill for the Governor. The Governor needs something, that's why he put his foot in his mouth in trying to dictate what the Lieutenant Governor's position will be, should she take over as Governor, if he wins. He needs this issue to say that he is making people pay their child support, and he will do and say anything to win that seat in the same way the Attorney General will say and do anything to win that seat. PRESIDENT ROBAK: Thank you, Senator Chambers. Senator Bromm, to speak to the Beutler amendment to the Witek amendment.

SENATOR BROMM: Thank you, Madam President. And, Senator Beutler, I wonder if you would yield to a couple questions to maybe establish some clarification and a little legislative history for some of the intent on the amendment. If you wouldn't mind, please. Would you yield to a question?

SENATOR BEUTLER: Absolutely.

SENATOR BROMM: Okay. On the verification issue that you spoke of, on page 3 of the...of AM2870, we have, for purposes of this section, reasonable efforts to verify means written or oral communication with the clerk of the district court, with the
