

lot of money and here is your little social issue here, for the children you are doing this, for the children and these dead-beat dads who are all out there and you know I am with you a hundred percent when you are talking about people who are not living up to their individual responsibilities to their own children and I want to do that and I wanted to do something about that, but I didn't want to hurt the good people who are out there who are living up to their responsibilities for their children, who are working hard, who are doing everything right, right down the line and are still having so many problems making ends meet because you guys keep spending their money. It is their money, remember this is not your money, this is their money that you guys keep spending so that you can go out there and tell everybody, we solved this problem folks. And you know what? SENATOR CHAMBERS: Aye, thank you Senator Witek. Madam President and members of the Legislature, since I only have two and a half minutes I don't want to start on the point that I was
