

January 23, 1996 LB 592

SENATOR KRISTENSEN: They won't accept their application, they may well keep their money and just save the application is incomplete. I'm not saying they won't do that but...

PRESIDENT ROBAK: One minute.

SENATOR KRISTENSEN: ...they won't act on that application till everything is there.

SENATOR CHAMBERS: Thank you and I don't believe that the Department would even take the money and do the rest of what this is, which is, the Department of Motor Vehicles shall remit the fee to the State Treasurer, then the State Treasurer shall do various things with it. If the person is not in a position to have the license reinstated the department can not take that money. So what Senator Beutler and others have said to try to get out of the fact that this drafting is flawed, and it can easily be corrected, they ought just admit it and we can work our way through it. If the person's license had already been suspended, why is the judge going to suspend it? It is already gone. It is already gone. So, if the person remits the fee and is in compliance and the license should be given back then we should say "shall". The fee is taken. But see this is just one of the small areas, Senator Robinson began to ask...

PRESIDENT ROBAK: Time. Thank you Senator Chambers. Senator Vrtiska, excuse me, Senator Robinson first followed by Senator Vrtiska, Senator Cudaback, Senator Bernard-Stevens, Senator Witek and Senator Robinson.

SENATOR ROBINSON: Madam President and members of the body, this is one of those bills that is thick, you know, and you know about 85 percent of us we don't pay too much attention to it, we will walk out in the lobby, we will go down to our office and we will come back and we will ask someone, well what was that amendment, you know, and we know how the procedure goes. We have all lived through it several times during the year. And then, people like me, of course I was a liberal but I have been trying to work my way out of that closet that has...it is full of liberality so... but I'm really getting...bout...I'm just about out of the closet now, but I read this page 24 and there are no answers on how much it is going to cost. I don't think we can pass this bill until we know exactly how much money it is going to cost. Senator Kristensen, I told you I was going to
