

asked me the question he asked Senator Schrock or Senator Avery or Senator Schimek I would have simply said, I voted for that amendment so the bill would have a better chance of passing due to the statement that Senator Beutler made. That is why I voted for it. I did not read the entire amendment, parts of it yes. Could I explain it? Absolutely not. The people in Nebraska deserve this body to pass something to deal with the problem of back dollars owed to the people deserving the payments to be made to them. Senator Chambers admitted that and I appreciate the fact that he did say that. How do we achieve this? Do we need another bureaucracy? Absolutely not! I don't like another bureaucracy to deal with this. Who deals with it? The judge? I guess I am going to listen here and try to decide what method I like best. But we absolutely need to pass legislation to deal with this devastating problem on all of us. We have deadbeats that are not living up to their responsibilities. And that is where I am going to stop. We have people not living up to their responsibilities. We need to deal with this and I will listen and I will give the rest of my time time Senator Chambers, if he wants it.

PRESIDENT ROBAK: Senator Chambers, there is three minutes remaining.

SENATOR CHAMBERS: Thank you Senator Cudaback, Madam President, members of the Legislature, we now are stating the kind of discussion which would have been good if we could have had all the way along the line but I am saying again the bill as originally brought was a political vehicle. The idea that we all agreed too, all of us agreed that child support should be paid. I pointed out, I don't usually talk about my personal affairs. I had to pay child support. I should have been compelled to pay it if I would have refused. That is not even the issue. I haven't heard one person say, people who should pay child support and are able should not pay it. We are talking about the way to get that person to pay it. I have argued repeatedly this morning in support of Senator Witek's amendment. Even though I don't like the idea of using the drivers license to enforce a child support order. I mentioned how Senator Landis in speaking in behalf of that approach as a cleaner one. Had sugar coated vomit and candy coated manure in such a way that they seem palatable, meaning that if that is what we are confronted with, I would have no intent to fight that to the bitter end. I would express my objection to using
