

have some good points.

PRESIDENT ROBAK: One minute.

SENATOR BROMM: I also have had some good experience with some problems we've asked the PSC to look at. I have respect for the individuals who serve on the commission, without a doubt, that's not the point at all. The point is in looking at this issue in the depth that I think it deserves to be looked at, and Senator Brown is asking us to look at, we need that program evaluation report, we need to keep this alive to Select File. Then we make the decision on whether we want to go further with it, or whether we want to perhaps make some just statutory changes that we can...that will help improve the effectiveness and efficiency of this commission. So I urge you to advance it to Select File, get the report from the Program Evaluation Committee and then make your decision at that time. Thank you, Madam President.

PRESIDENT ROBAK: Thank you, Senator Bromm. Senator Kristensen. Excuse me, Senator, before we get to you there's a motion, excuse me, an amendment.

CLERK: Senator Chambers would move to amend the bill. (Chambers amendment, AM2957, referred to on page 644 of the Legislative Journal.)

PRESIDENT ROBAK: Senator Chambers, to open on his amendment.

SENATOR CHAMBERS: Madam President, members of the Legislature, this is the amendment which I had placed on the desk and withdrawn in order that a vote of some kind could be taken. This amendment has 13 pages. I did not have it copied to be placed on your desk because I can tell you what it would do. It would strike references from the constitution to the Auditor of Public Accounts, the Treasurer, and the Attorney General. Left in would be Governor, Lieutenant Governor, Secretary of State. Now, this is one of those sets of circumstances where we are dealing with a number of entities that perhaps could be left in the constitution or taken out, and perhaps nothing would really change in terms of substance. But in this amendment that I have I believe it also strikes reference to the Board of Regents. Now, if we do that and strike out these types of references, we will leave all of that, when I say that I mean the whole realm of authority and activity engaged in by these named entities
