

March 4, 1996

LB 1322

three or four years of life because labor is a major problem in Nebraska. But when you start saying that we should do these things...

PRESIDENT ROBAK: One minute.

SENATOR BEUTLER: ...for economic development and do them in advance of the need...or unassociated with a particular project, then, to me, you're getting into field of dreams' stuff. You're building this pristine city out there with nice paved streets and everything's perfect, and if you do that you think somebody will establish a factory there. Well, maybe they will, but most likely they won't unless it makes economic sense for their factory. And if they don't, then you have these huge, huge expenditures. I think we have to get the horse before the cart again, as we always had it in our society, and respond to the changes that economic drive brings and not try to change economic drives by public expenditures on...

PRESIDENT ROBAK: Time.

SENATOR BEUTLER: ...infrastructure and other such items. Thank you.

PRESIDENT ROBAK: Thank you, Senator Beutler. Senator Janssen announces the following guests are visiting the Legislature, there are 50 fifth graders here from Clarkson Elementary School in Fremont, Nebraska, and their teachers. They are in the north balcony. Will you all stand and be recognized please. Welcome to the Legislature. Senator Schimek.

SENATOR SCHIMEK: Call the question.

PRESIDENT ROBAK: The question's been called. Do I see five hands? I see five hands. The question before you is, shall debate cease? All those in favor vote aye; all those opposed vote nay. Have you all voted? Please record.

ASSISTANT CLERK: 25 ayes, 0 nays to cease debate, Madam President.

PRESIDENT ROBAK: Debate ceases. The Chair recognizes Senator Beutler to close.
