

March 6, 1996

LB 901

SPEAKER WITHEM: Senator Chambers.

CLERK: This is one...

SENATOR CHAMBERS: Mr. Clerk, is that the one dealing with the penalties?

CLERK: I believe it is, Senator. It's the one we discussed the other day.

SENATOR CHAMBERS: What I'm going to do is just withdraw it at this point. Before I withdraw it, I want to make a comment because maybe I won't. There may be some additional amendments that try to change limits and I want to deal with the penalty section, the fines, after every other amendment has been considered. So, Mr. Clerk, are there additional amendments on the desk?

CLERK: Well, there are, Senator. Actually, I have several people doing similar things...

SENATOR CHAMBERS: The same thing?

CLERK: ..and I do have...and Senator Avery does have the next amendment I believe he does want to offer to the committee amendments, so....

SENATOR CHAMBERS: Then I would like to put mine below whatever's currently below mine.

SPEAKER WITHEM: Senator, for our help up here, there are a number of amendments that were filed as amendments to the committee amendments but introducers have asked that they be to the bill instead. Is your preference on this one to still refer yours as an amendment to the committee amendment or to the bill?

SENATOR CHAMBERS: To the bill, behind those amendments. Whatever they've said they want to do with those amendments, I want mine to follow.

SPEAKER WITHEM: It will be withdrawn as a amendment to the committee amendment and will be filed as an amendment to the bill. Mr. Clerk, any other amendments to the committee amendments?
