

(Amendment found on page 1466 of the Legislative Journal.)

SPEAKER WITHEM: Senator Warner.

SENATOR WARNER: Mr. President, members of the Legislature, this is an amendment that's basically technical in nature. On the committee amendment, there was a series of types of projects that have been created under state law that were identified that are in the nature of incentive programs. And since this cost/benefit model is hoped and intended to be for broad application, those are mentioned. But one of the programs that is included is Nebraska Investment Finance Authority Act and the amendment will narrow down the scope of activities they have to essentially some limited amount of commercial or small business type of incentives, primarily through the loan program. But it excludes the housing and those things which would not be pertinent for...and be very time-consuming, but would be very pertinent to the basic purpose of the resolution or the bill. I'd ask that the amendment be adopted to limit the scope of the review of the Nebraska Investment Authority, those that have...to those activities that they have that would have comparability with the other acts cited.

SPEAKER WITHEM: Thank you, Senator Warner. Is there any discussion on the amendment? There appears to be none. Closing? Closing is waived. The question before the body is the adoption of the Warner amendment. All in favor vote aye, opposed vote nay. Have you all voted? Record.

CLERK: 26 ayes, 0 nays, Mr. President, on the adoption of Senator Warner's amendment.

SPEAKER WITHEM: The amendment is adopted. Anything further?

CLERK: Senator Wesely would move to amend. (See AM4172 on pages 1503-04 of the Legislative Journal.)

SPEAKER WITHEM: Senator Wesely.

SENATOR WESELY: Thank you. Mr. Speaker, members of the body, this amendment was distributed to you this afternoon. It's AM4172. And what it does is attempt to clarify a couple of points in the study. And I talked briefly with Senator Warner about it and so let me try and highlight my concerns. When the
