

rates, and don't tell me these big shots won't come in here and kick the Legislature in the slats and say, give me this. We're going to see Senator Brashear kicking it to the Legislature this afternoon. The UP bill is going to confirm everything that I'm saying right now. Well, for once, this once, a flock of sheep, Senator Schrock, behave like a pride of lions and you were Leo, the king that led the pride. Don't always roll over and play dead because somebody stands on the floor and says, oh-oh, this is going in a direction I don't want, so turn it around and do it the way I want to 'cause if you don't do it the way I want to do it I'm going to take my sand out of the sandbox and go home. Okay, so you turn around and do it the way they want to do it and you say, now, you've got it your way, I'm going to take my sandbox...

SENATOR COORDSEN: One minute.

SENATOR CHAMBERS: ...my sand out of the box and go home. They say, well, you're childish, you're unreasonable, you're juvenile, you're going to take your toys and run home. Isn't that what they want to say? Do it my way and that's the only way it can be done. I think it ought to be as we have done it and Senator Withem's amendment should be voted down, his motion. And Senator Wesely said he was the third W to stand. Right. W stands for whiner, whiner, whiner.

SENATOR COORDSEN: Thank you, Senator Chambers. Senator Schrock.

SENATOR SCHROCK: Mr. President, members of the Legislature, I guess I'm a little surprised at the uproar because Senator Withem referred to special consideration for the agricultural community. Well, what are we, as rural senators, supposed to do when the UP bill comes before us? Are we supposed to say, let's vote for it? I did vote for it and I intend to continue to vote for it, but isn't that special tax consideration? Fifteen percent of the personal property in this state is not being taxed and almost half of that's in Douglas County. Now we're asking you for some special consideration here for all property tax payers of the state of Nebraska, not just for those that own agricultural land. It means that residential property shall not be taxed at 105 percent of market value. It means it shall not be taxed at more than 100 percent of market value. It means that agricultural land shall not be taxed at more than 80
