them to change structures, allow them to examine themselves, then we begin to look at replacement revenues if it's necessary, not the other way around. So I'd hope that you'd see fit to do as you did on General File, keep these levy limits and tell the small towns and the other communities that are affected by this when they talk to you, look, there are ways around this, there are ways to live within this, but part of the burden is on you, and part of the burden is to examine how we do business and for a lot of these it may be as simple as not making an expenditure or as simple as having...

SENATOR COORDSEN: Senator Kristensen, would you respond to a question, please?

SENATOR KRISTENSEN: Yes, Senator Cudaback.

SENATOR CUDABACK: Either you or Senator Warner. Maybe he knows more about this than you do. I don't know, but...

SENATOR KRISTENSEN: That's right.
