

PRESIDENT ROBAK: One minute.

SENATOR CHAMBERS: Not only are different weights and measures abhorred by God; they are abhorred by me, which I guess is saying the same thing. But in reality these bills always favor the company, the biggies. That's why we're working or going to work on the amendment that Senator Withem, Senator Beutler, myself and the other day Senator Wickersham have an interest in. We're trying to bring some equity so when questions of equity and fairness are involved I think we owe something to those who are in a relatively weaker position.

PRESIDENT ROBAK: Thank you, Senator Chambers. Senator Hudkins would like to recognize Dr. Kathy Bliese of Waterloo, Nebraska, who's serving as the family Doctor of the Day today on behalf of the Nebraska Academy of Family Physicians. Dr. Bliese, will you stand and be recognized. Thank you, Dr. Bliese. Senator Brashear. Senator Chambers.

SENATOR CHAMBERS: Madam President, members of the Legislature, our Doctor the Day, I think this might be the first time she's been here, may have some work because when I work at length on a bill I tend to make some of my colleagues ill, so she may be busy. I want to ask Senator Brashear a question, since he has chosen not to comment on this amendment. Senator...oh, there he is.

PRESIDENT ROBAK: Senator Brashear.

SENATOR CHAMBERS: Senator Brashear, I'll make a couple of comments to give you a chance to get to your desk so that you don't have to run. There is such a collegial relationship between Senator Brashear and myself that I really hate to have an issue on which we disagree, but maybe this is one on which we disagree so I will ask him. Senator Brashear, how do you...what is your reaction to this amendment as it is drafted and offered at this point?

PRESIDENT ROBAK: Senator Brashear.

SENATOR BRASHEAR: Madam President, members of the body, Senator Chambers, the amendment as drafted, is a legitimate good faith framing of an issue which we touched on in the course of General File debate, which is an appropriate policy decision for the
