RESOLUTIONS

LEGISLATIVE RESOLUTION 127. Introduced by General Affairs Committee: Schellpeper, 18, Chairperson; Cudaback, 36; Hartnett, 45; Hudkins, 21; Janssen, 15; Robak, 22; Vrtiska, 1; Will, 8.

PURPOSE: Horseracing has historically been an important industry in the State of Nebraska, one whose economic impact in the state may exceed two hundred fifty million dollars. There are a number of economic and legal issues which need to be addressed as horseracing adjusts to new economic and social realities. This study shall include, but not be limited to, examination of the following:

1. Whether expanded simulcasting can provide the revenue needed to support live racing;

2. Whether statutory changes are needed to clarify issues relating to simulcasting in relation to live racing in Nebraska;

3. Whether statutory changes are needed to respond to or encourage the involvement of entities interested in maintaining live horseracing in Nebraska;

4. Whether live racing is conducted on an appropriate schedule in relation to factors of population, weather, and availability of horses;

5. The impact of other forms of gaming, both within and outside the state, on horseracing in Nebraska;

6. Whether expanded gaming opportunities at racetracks would increase revenue for horseracing and attract additional fans to the sport;

7. Whether changes in the Constitution of Nebraska relating to racing or gaming are needed to respond to current economic and social conditions; and

8. Any other issues necessary or appropriate for a full and complete examination of this matter.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the General Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 128. Introduced by General Affairs Committee: Schellpeper, 18, Chairperson; Cudaback, 36; Hartnett, 45; Hudkins, 21; Janssen, 15; Robak, 22; Vrtiska, 1; Will, 8.

PURPOSE: The policy of the State of Nebraska has consistently discouraged consumption of alcoholic liquor by individuals under the age permitted by law. However, there is a body of evidence indicating that a substantial percentage of Nebraska residents under the legal age consume alcoholic liquor. This is a matter of concern for parents, law enforcement, liquor control regulators, health professionals, and educators of the State of Nebraska. This study shall include, but not be limited to, the following:

1. Methods of discouraging underage drinking, including increasing penalties for minors who possess or consume alcohol, such as increased fines and suspending the drivers' licenses of minors;

2. Effectiveness of increased penalties for those who provide alcohol to minors;

3. Effectiveness of law enforcement efforts related to underage drinking;

4. Effectiveness of regulatory efforts to prevent underage drinking; and

5. Any other matters necessary and proper for a complete examination of this issue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the General Affairs Committee of the Legislature shall be

designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 129. Introduced by General Affairs Committee: Schellpeper, 18, Chairperson; Cudaback, 36; Hartnett, 45; Hudkins, 21; Janssen, 15; Robak, 22; Vrtiska, 1; Will, 8.

PURPOSE: Gaming has expanded greatly in the Midwest in the last ten years. Casinos at racetracks, Native American casinos, riverboat casinos, and video lottery terminals have been established in the states which border Nebraska. Many Nebraskans cross the borders to take part in these gaming activities. The State of Nebraska has also experienced considerable expansion in legal gaming opportunities for its residents in the same time period, including the development of keno, the establishment of a state lottery, and growth in sales of pickle cards. In addition, there is evidence which appears to indicate that a substantial amount of illegal gambling takes place in the state, particularly sports wagering and the use of illegal video gaming devices. There also is evidence of increasing numbers of Nebraska residents who are compulsive gamblers or who have had their lives negatively impacted by gambling in recent years. This study shall include, but is not limited to, examination of the following:

1. Determine, to the extent possible, the number of residents of the State of Nebraska who are compulsive gamblers or who have experienced one or more serious negative economic or social impacts from gambling;

2. Determine, to the extent possible, the economic and social impact of problem gambling on individual residents and on the resources of the State of Nebraska;

3. The extent that problem gambling has affected legal gaming activities and other businesses in the State of Nebraska;

4. Appropriate methods of dealing with problem gambling, including the effectiveness of current gambling treatment or outreach programs, effectiveness of programs used by other states, effectiveness of education about problem gambling, and whether it is advisable for the State of Nebraska to expand its current programs;

5. Appropriate sources of revenue for gambling treatment or outreach programs; and

6. Any other matters necessary or appropriate for a full and complete examination of these issues.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the General Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report

of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 132. Introduced by Business and Labor Committee: Abboud, 12, Chairperson; Dierks, 40; Hilgert, 7; Preister, 5; Schimek, 27; Schrock, 38; and Brashear, 4.

PURPOSE: Nebraska is currently experiencing strong economic growth, and unemployment rates continue to be low. Nebraska has over \$200,000,000 in the Unemployment Trust Fund, an amount sufficient to pay all unemployment claims for the next three and one-half years. LB 765, in the Business and Labor Committee, will reduce employer contributions to the fund, thus reducing the total amount on credit. The committee shall study the feasibility of LB 765 and report to the Legislature.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Business and Labor Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

20 C-band satellite dish systems or repair parts.

21 Notwithstanding any law, ordinance, resolution, or
22 regulation of any political subdivision to the contrary, each
23 public power district may receive funds and extend loans pursuant
24 to the Nebraska Investment Finance Authority Act. In addition to
25 the powers authorized by Chapter 70 and specified in its petition
26 for creation, as amended, and without the need for further
27 amendment thereto, a public power district may own and operate,
1 contract to operate, or lease energy equipment and provide billing,
2 meter reading, surveys, or evaluations and other administrative

RESOLUTIONS

LEGISLATIVE RESOLUTION 133. Introduced by Withem, 14.

PURPOSE: To conduct a review of the laws relating to the current procedure of licensing and regulation of passenger carriers by the Public Service Commission. The study should specifically include:

(1) The taxi cab industry and its specialized needs compared to other passenger carriers;

(2) How the current system of licensing may be biased in regards to already existing companies;

(3) How the current system of licensing may be overly burdensome to small transportation companies;

(4) Whether the current system has created a monopoly within Nebraska communities and fosters monopolistic practices by existing companies;

(5) Forming a complete definition of the statements "fit, willing, and able" and "public convenience and necessity," and how they affect the licensing of passenger carriers;

(6) The economic effects that the free market system would have on this industry;

(7) The positive and negative effects that any changes would have in regards to needs of the customers of this industry;

(8) How other states have dealt with the taxi cab industry and how effective the process was in the long run; and

(9) An evaluation of the collected material and development of alternatives that will better meet the needs of this industry and the citizens of the State of Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

LEGISLATIVE RESOLUTION 134. Introduced by Hudkins, 21.

PURPOSE: The Government, Military and Veterans Affairs Committee of the Legislature heard testimony during the public hearing on LB 237 regarding the placement and erection of towers and other structures and their

possible interference with the use of preexisting private airstrips. There have been major investments incurred by citizens of the State of Nebraska to construct private airstrips for business and recreational purposes, and there has been and will continue to be investment by other citizens of this state in the erection of towers for transmission of telephone, television, and radio communications. Both enterprises are beneficial to the State of Nebraska and its citizens, but there is the potential for conflict between these two business enterprises. The Legislature should take steps to mitigate the damages such conflicts may cause, and other states of the United States have undertaken the task of statutorily addressing such conflicts..

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

18 (c) There shall be added interest or dividends received
19 by the owner of obligations of the District of Columbia, other
20 states of the United States, or their political subdivisions,
21 authorities, commissions, or instrumentalities to the extent

23 purposes except that such interest or dividends shall not be added
1 if received by a corporation which is a regulated investment
2 company;

3 (d) There shall be added that portion of the total
4 dividends and other income received from a regulated investment
5 company which is attributable to obligations described in
6 subdivision (c) of this subsection and excluded for federal income
7 tax purposes as reported to the recipient by the regulated
8 investment company; and

9 (e)(i) Any amount subtracted under this subsection shall
10 be reduced by any interest on indebtedness incurred to carry the
11 obligations or securities described in this subsection or the
12 investment in the regulated investment company and by any expenses
13 incurred in the production of interest or dividend income described
14 in this subsection to the extent that such expenses, including
15 amortizable bond premiums, are deductible in determining federal
16 taxable income.

18 reduced by any expenses incurred in the production of such income
19 to the extent disallowed in the computation of federal taxable
20 income.

21 (2) There shall be allowed a net operating loss derived

22 from or connected with Nebraska sources computed under rules and
23 regulations adopted and promulgated by the Tax Commissioner
24 consistent, to the extent possible under the Nebraska Revenue Act
25 of 1967, with the laws of the United States. For a resident
26 individual, estate, or trust, the net operating loss computed on
27 the federal income tax return shall be adjusted by the
1 modifications contained in this section. For a nonresident
2 individual, estate, or trust or for a partial-year resident
3 individual, the net operating loss computed on the federal return
4 shall be adjusted by the modifications contained in this section
5 and any carryovers or carrybacks shall be limited to the portion of
6 the loss derived from or connected with Nebraska sources.

7 (3) There shall be subtracted from federal adjusted gross
8 income for all taxable years beginning on or after January 1, 1987,
9 the amount of any state income tax refund to the extent such refund

20 (5) There shall be subtracted from federal adjusted gross
21 income or, for corporations and fiduciaries, federal taxable income
22 dividends received or deemed to be received from corporations which
23 are not subject to the Internal Revenue Code.

24 (6) There shall be subtracted from federal taxable income
25 a portion of the income earned by a corporation subject to the
26 Internal Revenue Code of 1986 that is actually taxed by a foreign

4 shall be computed in the following manner:

5 (a) The amount of federal taxable income from operations

11 one minus the maximum tax rate for corporations in the Internal
12 Revenue Code; and

13 (c) The result of the calculation in subdivision (b) of
14 this subsection shall be subtracted from the amount of federal
15 taxable income used in subdivision (a) of this subsection. The
16 result of such calculation, if greater than zero, shall be

17 subtracted from federal taxable income.

18 (7) Federal adjusted gross income shall be modified to
19 exclude any amount repaid by the taxpayer for which a reduction in
20 federal tax is allowed under section 1341(a)(5) of the Internal
21 Revenue Code.

22 (8)(a) There shall be subtracted from federal adjusted
23 gross income the amount paid by a self-employed individual for
24 insurance which constitutes medical care for the individual, his or

26 has not been claimed as a deduction or adjustment on the
27 individual's federal income tax return.

1 (b) The amount subtracted under this subsection shall not
2 exceed the amount that was not claimed as a deduction or adjustment

21 (a) Whether or not receipts from a local option income
22 tax or local option sales tax for school purposes should be treated
23 as accountable receipts for a school district;

1 (b) If there should be a maximum percentage of the school
2 district budget which may be funded by a local option income tax or
3 local option sales tax for school purposes, and if so, what the
4 limit should be; and

5 (c) If there should be a limit on the length of time a
6 local option income tax or local option sales tax for school
7 purposes can be imposed without another vote of the registered
8 voters of the school district extending the tax, and if so, how
9 long the limit should be.

10 (3) For purposes of its consideration of the issues and
11 to aid in the developing its recommendations, the committee shall
12 assume that a school district may authorize a local option income
13 tax or local option sales tax to fund a portion of the operation of
14 the school district, that the tax may only be imposed after
15 approval by a majority of those voting in a general or special
16 election, and that the tax may only be implemented to provide for a
17 reduction in property tax receipts utilized by the school district.

18 (4) The committee shall also analyze the impact of a
19 county income tax for purposes of property tax relief.
20 Specifically the committee should make recommendations on:

21 (a) Whether it is practical to credit county income taxes
22 paid against property taxes due;

23 (b) Whether any county income tax should be limited in
24 amount or duration and, if so, how; and

25 (c) Whether a county income tax with a credit against
26 property taxes will provide sufficient revenue to provide public
27 services in areas which currently have above-average property
1 taxes.

2 (5) The committee shall also study the possible impact of
3 restricting the availability of property tax exemptions both for

4 government property and property for religious, educational,
 5 cemetery, and charitable use. Specifically, the committee should
 6 make recommendations on:

7 (a) The possibility of levying ad valorem taxes on the
 8 value of a leasehold interest in public property by a commercial
 9 enterprise as if it were owned in fee;

10 (b) The possibility of requiring or allowing local
 11 governments to require in lieu of tax payments on governments
 12 owning tax-exempt property to recover the costs of other local
 13 governments in providing property related services such as law
 14 enforcement, fire protection, and street construction and
 15 maintenance;

16 (c) The possibility of narrowing the eligibility for
 17 property tax exemptions for religious, educational, cemetery, or
 18 charitable use such as by requiring a certain level of charitable
 19 donation of goods or services to individuals worthy of charity; and

20 (d) The possibility of requiring or allowing local
 21 governments to require in lieu of tax payments by entities with
 22 property tax exemptions to recover the costs of providing property
 23 related services such as law enforcement, fire protection, and
 24 street construction and maintenance.

25 (6) The Department of Revenue shall provide necessary
 26 staff and assistance to the committee.

27 (7) The committee shall make a report to the Governor and
 1 Legislature on its findings on or before December 1, 1997."

2 2. Correct the operative date section so that the
 3 section added by this amendment becomes operative on its effective
 4 date with the emergency clause.

5 3. Renumber the remaining sections accordingly.

Mr. Landis filed the following amendment to LB 151:

AM2258

1 1. Insert the following new sections:

2 "Sec. 4. Section 25-2606, Reissue Revised Statutes of
3 Nebraska, is amended to read:

4 25-2606. Unless otherwise provided by the agreement:

5 (a) The arbitrators shall appoint a time and place for
6 the hearing and cause notification to the parties to be served
7 personally or by registered or certified mail not less than ten
8 days before the hearing. Appearance at the hearing waives such
9 notice. The arbitrators may adjourn the hearing from time to time
10 as necessary and, on request of a party and for good cause, or upon
11 their own motion, may postpone the hearing to a time not later than
12 the date fixed by the agreement for making the award unless the
13 parties consent to a later date. The arbitrators may hear and
14 determine the controversy upon the evidence produced
15 notwithstanding the failure of a party duly notified to appear.
16 The court on application may direct the arbitrators to proceed
17 promptly with the hearing and determination of the controversy;

18 (b) The parties are entitled to be heard, to present
19 evidence material to the controversy, and to cross-examine
20 witnesses appearing at the hearing; and

21 (c) The hearing shall be conducted by all the arbitrators
22 but a majority may determine any question and render a final award.
23 If, during the course of the hearing, an arbitrator for any reason
24 ceases to act, the remaining arbitrator or arbitrators appointed to
1 act as neutrals may continue with the hearing and determination of
2 the controversy.

3 Arbitration proceedings shall take place in the county
4 designated in section 25-403.01 unless the parties otherwise agree
5 at a time subsequent to the arising of the controversy.

6 Sec. 5. Any person proposed for nomination by all
7 parties or all party arbitrators to serve as a neutral arbitrator
8 shall disqualify himself or herself, upon demand of any party to
9 the arbitration agreement made before the conclusion of the
10 proceedings, on any of the grounds specified in section 24-739 for
11 disqualification of a judge or on the ground that such person is an
12 employee or independent contractor of an industry, trade, or
13 professional association of which a party is a member.

14 Sec. 6. Section 25-2613, Reissue Revised Statutes of
15 Nebraska, is amended to read:

16 25-2613. (a) Upon application of a party, the court
17 shall vacate an award when:

18 (1) The award was procured by corruption, fraud, or other
19 undue means;

20 (2) There was evident partiality by an arbitrator
21 appointed as a neutral or corruption in any of the arbitrators or
22 misconduct prejudicing the rights of any party;

23 (3) The arbitrators exceeded their powers;

24 (4) The arbitrators refused to postpone the hearing upon
25 sufficient cause being shown therefor, refused to hear evidence
26 material to the controversy, or otherwise so conducted the hearing,
27 contrary to the provisions of section 25-2606, as to prejudice
1 substantially the rights of a party; or

2 (5) There was no arbitration agreement and the issue was
3 not adversely determined in proceedings under section 25-2603, and
4 the party did not participate in the arbitration hearing without
5 raising the objection; or

6 (6) An arbitrator was subject to disqualification
7 pursuant to section 5 of this act and failed, upon receipt of
8 timely demand, to disqualify himself or herself as required by such
9 section.

10 The fact that the relief was such that it could not or
11 would not be granted by a court of law or equity is not ground for
12 vacating or refusing to confirm the award.

13 (b) An application under this section shall be made
14 within ninety days after delivery of a copy of the award to the
15 applicant, except that if predicated upon corruption, fraud, or
16 other undue means, it shall be made within ninety days after such
17 grounds are known or should have been known.

18 (c) In vacating the award on grounds other than stated in
19 subdivision (a)(5) of this section, the court may order a rehearing
20 before the new arbitrators chosen as provided in the agreement or,
21 in the absence thereof, by the court in accordance with section
22 25-2604, or if the award is vacated on grounds set forth in
23 subdivisions (a)(3) and (a)(4) of this section, the court may order
24 a rehearing before the arbitrators who made the award or their
25 successors appointed in accordance with section 25-2604. The time
26 within which the agreement requires the award to be made is
27 applicable to the rehearing and commences from the date of the
1 order.

2 (d) If the application to vacate is denied and no motion
3 to modify or correct the award is pending, the court shall confirm
4 the award.

5 Sec. 7. The following statement shall appear in
6 capitalized, underlined type adjoining the signature block of any
7 standardized agreement in which binding arbitration is the sole
8 remedy for dispute resolution: THIS CONTRACT CONTAINS AN
9 ARBITRATION PROVISION WHICH MAY BE ENFORCED BY THE PARTIES.

10 Sec. 8. (a) Whenever the amount of a controversy subject
11 to the terms of an otherwise valid arbitration agreement is within
12 the jurisdiction of the Small Claims Court under section 25-2802, a
13 party may submit the controversy to the Small Claims Court for
14 ultimate resolution under sections 25-2801 to 25-2807.

15 (b) A controversy submitted to the Small Claims Court
16 under this section shall not be transferred to the regular docket
17 of the county court under section 25-2805.

18 (c) In all appeals involving cases submitted under

19 subsection (a) of this section, the judgment shall be affirmed
 20 unless:

21 (i) The judgment was procured by corruption, fraud, or
 22 other undue means;

23 (ii) There was evident partiality or corruption by the
 24 judge or misconduct prejudicing the rights of any party;

25 (iii) The judge exceeded his or her powers;

26 (iv) The judge refused to postpone the trial upon
 27 sufficient cause being shown therefor, refused to hear evidence
 1 material to the controversy, or otherwise so conducted the hearing,
 2 contrary to the provisions of section 25-2606, as to prejudice
 3 substantially the rights of a party;

4 (v) There was no arbitration agreement and the issue was
 5 not adversely determined in proceedings under section 25-2603, and
 6 the party did not participate in the small claims court hearing
 7 without raising the objection; or

8 (vi) A judge was subject to disqualification and failed,
 9 upon receipt of timely demand, to disqualify himself or herself as
 10 required by law.

11 Sec. 10. Section 25-2805, Reissue Revised Statutes of
 12 Nebraska, is amended to read:

13 25-2805. All matters in the Small Claims Court shall be
 14 tried to the court without a jury. ~~Any~~ Except as provided in
 15 section 8 of this act, any defendant in an action or such
 16 defendant's attorney may transfer the case to the regular docket of
 17 the county court by giving notice to the court at least two days
 18 prior to the time set for the hearing. Upon such notice the case
 19 shall be transferred to the regular docket of the county court. At
 20 the same time as such notice is given to transfer the case, any
 21 defendant or such defendant's attorney may demand trial by jury,
 22 and the Small Claims Court shall forward the demand to the county
 23 court. The party causing the transfer of a case from the Small
 24 Claims Court to the regular docket shall pay as a fee the
 25 difference between the fee for filing a claim in Small Claims Court
 26 and the fee for filing a claim on the regular docket.

27 In any action transferred to the regular docket there
 1 shall be no further pleadings, demurrers, motions challenging
 2 pleadings, or discovery unless ordered by the court upon a showing
 3 that any such procedure is necessary to the prompt and just
 4 determination of the action.

5 Sec. 11. Section 25-2807, Reissue Revised Statutes of
 6 Nebraska, is amended to read:

7 25-2807. ~~Any~~ Unless the controversy is subject to the

3 "Sec. 34. (1) For state aid calculated for school fiscal
 4 year 1998-99 and each school fiscal year thereafter, the department
 5 shall calculate the average formula cost per student for local
 6 systems. Each local system with general fund operating
 7 expenditures shall be placed into a tier based on the following
 8 schedule:

| <u>Tier</u> | <u>Tier Midpoint</u> | <u>Adjusted Weighted Formula Students</u> |
|-------------|--|---|
| <u>1</u> | <u>150</u> | <u>.01 - 300</u> |
| <u>2</u> | <u>450</u> | <u>300.01 - 600</u> |
| <u>3</u> | <u>750</u> | <u>600.01 - 900</u> |
| <u>4</u> | <u>Median adjusted weighted formula students</u> | <u>900.01 and over</u> |

17 The average general fund operating expenditures per
 18 student shall be calculated for each tier by adding the total
 19 general fund operating expenditures for all systems in the tier and
 20 dividing such sum by the total adjusted weighted formula students
 21 for all systems in the tier. For a system with adjusted weighted
 22 formula students which are less than the tier midpoint of tier 1,
 23 the average formula cost per student for such system shall equal

 2 1. For a system with adjusted weighted formula students which are
 3 greater than the tier midpoint of tier 4, the average formula cost
 4 per student for such system shall equal the average general fund
 5 operating expenditures per student for tier 4. For a system with
 6 adjusted weighted formula students which fall on or between the

7 tier midpoints of any two tiers, the average formula cost per
 8 student for such system shall be calculated by means of a linear
 9 interpolation between the average general fund operating
 10 expenditures per student of the two tiers between whose tier
 11 midpoints the system's average adjusted weighted formula students
 12 for such system falls. For purposes of this subsection, linear
 13 interpolation means to estimate values of a function between two
 14 known values.

15 (2) Each local system's formula need will be equal to the
 16 local system's transportation allowance plus the local system's
 17 special education allowance plus the product of the local system's
 18 adjusted formula membership multiplied by the average formula cost
 19 per student."

RESOLUTIONS

LEGISLATIVE RESOLUTION 142. Introduced by Suttle, 10; Witek, 31; Jensen, 20; Wesely, 26; C. Peterson, 35; Matzke, 47; Dierks, 40; Brashear, 4.

PURPOSE: The purpose of this resolution is to study the entire juvenile justice system in Nebraska, including, but not limited to, jurisdiction of the system, initial entrance, the adjudication process, and placements, examining every point in and every program and agency involved in the process.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee and the Health and Human Services Committee of the Legislature shall be designated to conduct a joint interim study to carry out the purposes of this resolution.

2. That the committees shall upon the conclusion of the study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 143. Introduced by Bohlke, 33; Wehrbein, 2.

PURPOSE:

During the past number of decades, telecommunications has grown extensively and broadly. Nebraska early on embraced the technology to offer a comprehensive public communications system to its citizens. As the years progressed, the state has devoted its money to optimize the benefits to the people of Nebraska. The citizens of Nebraska have responded with enthusiasm and patronage, both as volunteers and with their monetary support.

On April 6th of this year, the Federal Communications Commission issued its ruling that all television franchises would implement a transition to digital television. This transition is necessary to utilize digital technology necessitated by overcrowded channels. With the advent of more and more devices that use radio waves to transmit video, voice, and data, it is necessary to reallocate spectrum and manage a finite resource. Digitation offers the ability to condense transmissions. However, this is a completely new technology. The conversion to digital television will necessitate the total alteration of facilities of all television stations, both commercial and public. The Federal Communications Commission has placed a deadline that at the

close of this century the largest commercial stations will have the conversion completed. Public stations have been granted an additional four years to complete the replacement of facilities, hardware, and transmission capabilities.

The state has made a commitment to digital. In fact, because of the foresight and commitment of prior legislative action, Nebraska has been a leader in digital conversion. The facilities at Nebraska Educational Telecommunications are now broadcasting with this technology. Because of this switch, we have been able to market excess capacity, realizing a return on the investment made in satellite technology. In order that Nebraska continues its leadership in educational telecommunications, a study to analyze the potential impact to the state and its political subdivisions of conversion to high definition television and its auxiliary capabilities is needed. This study will include, but not be limited to, a study of existing facilities, from determining the structural integrity of existing broadcasting towers, transmitting antennas, television transmitters, equipment buildings, commercial power requirements, and the equipment required for DTV transmissions, to the costs for the infrastructure system upgrade and equipment replacement.

This study will also address the equipment needs for studio and field production program origination and distribution. This study would be used to determine the most appropriate delivery strategy, studying a variety of satellite and terrestrial systems, including future bandwidth requirements and potential funding or revenue-generating opportunities.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Appropriations and Education Committees of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committees shall upon the conclusion of their study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 144. Introduced by Revenue Committee: Coordsen, 32; Hartnett, 45; Kristensen, 37; Landis, 46; Wickersham, 49; Will, 8.

PURPOSE:

(1) Reducing the reliance local governments have on the property tax must include some discussion of the potential of alternative locally-generated revenue as part of the solution. Expansion of the property tax base or granting local governments other tax bases means that many questions and issues must be resolved. It is important to gather information and public input before making any decisions to expand the property tax base or grant other local tax bases. It is important that a legislative committee study this issue over the interim.

(2) The committee shall analyze the impact of permitting school districts

to locally implement and authorize a local income tax to finance a portion of the operating expenses of the school district. The committee shall study the impact of permitting school districts to enact a countywide local option sales tax, the proceeds of which will be distributed to schools on a per student basis or in some other manner. Specifically the committee should make recommendations on:

(a) Whether or not receipts from a local option income tax or local option sales tax for school purposes should be treated as accountable receipts for a school district; (b) If there should be a maximum percentage of the school district budget which may be funded by a local option income tax or local option sales tax for school purposes, and if so, what the limit should be; and

(c) If there should be a limit on the length of time a local option income tax or local option sales tax for school purposes can be imposed without another vote of the registered voters of the school district extending the tax, and if so, how long the limit should be.

(3) For purposes of its consideration of the issues and to aid in the developing its recommendations, the committee shall assume that a school district may authorize a local option income tax or local option sales tax to fund a portion of the operation of the school district, that the tax may only be imposed after approval by a majority of those voting in a general or special election, and that the tax may only be implemented to provide for a reduction in property tax receipts utilized by the school district.

(4) The committee shall also analyze the impact of a county income tax for purposes of property tax relief. Specifically the committee should make recommendations on:

(a) Whether it is practical to credit county income taxes paid against property taxes due;

(b) Whether any county income tax should be limited in amount or duration and, if so, how; and

(c) Whether a county income tax with a credit against property taxes will provide sufficient revenue to provide public services in areas which currently have above-average property taxes. (5) The committee shall also study the possible impact of restricting the availability of property tax exemptions both for government property and property for religious, educational, cemetery, and charitable use. Specifically, the committee should make recommendations on:

(a) The possibility of levying ad valorem taxes on the value of a leasehold interest in public property by a commercial enterprise as if it were owned in fee;

(b) The possibility of requiring or allowing local governments to require in lieu of tax payments on governments owning tax-exempt property to recover the costs of other local governments in providing property related services such as law enforcement, fire protection, and street construction and maintenance;

(c) The possibility of narrowing the eligibility for property tax exemptions for religious, educational, cemetery, or charitable use such as by requiring a certain level of charitable donation of goods or services to individuals worthy of charity. The committee should determine where the proper balance lies between the value of the services provided by the entities with

tax exempt property and the cost of such exemptions to the public at large; and

(d) The possibility of requiring or allowing local governments to require in lieu of tax payments by entities with property tax exemptions to recover the costs of providing property related services such as law enforcement, fire protection, and tree construction and maintenance. The committee shall measure the impact of such in lieu of tax payments on the various tax exempt entities versus the public cost of the exemption.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTION

LEGISLATIVE RESOLUTION 145. Introduced by Robinson, 16.

PURPOSE: The fees currently charged by sheriffs for the serving and returning of summonses, subpoenas, orders, and various other notices are established in statute and have not been changed in a number of years. Legislative Bill 281 was introduced in the 1997 legislative session and would have increased the fees. Several issues were raised during the discussion of LB 281 which were not easily resolved and indicated a need for a study into this matter. The study shall include, but not be limited to:

(1) The policy of having the fees cover the cost of providing service rather than supplementing those costs with property tax revenue;

(2) If it is necessary to raise the fees, to what level should they be raised;

(3) An examination of the potential use of private process servers and the various issues contained in this idea; and

(4) Other relevant issues involved in the serving and returning of summonses, subpoenas, orders, and various other notices.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

RESOLUTIONS

LEGISLATIVE RESOLUTION 146. Introduced by Nebraska Retirement Systems Committee: Wickersham, 49, Chairperson; Crosby, 29; Lynch, 13; C. Peterson, 35; Stuhr, 24; Wehrbein, 2.

PURPOSE: The adequacy, accuracy, and timeliness of retirement benefits in the public retirement systems administered by the Public Employees Retirement Board are grounded on the records kept by public entities as to length of service, salary, and ending dates of employment and the means whereby this information is conveyed to the Public Employees Retirement Board. Certain questions have arisen as to the correct application of the statutes relating to retirement benefits, the basis for which rest partially in the actions and records of the employing public entities and partially in the administering agency and the interaction of the aforementioned entities. The Legislature has not heretofore examined the means by which the accuracy of the information relayed by public entities to the Public Employees Retirement Board can be assured both by the board and the public entities. The Legislature, in addition, has not heretofore examined the statutory provisions and processes whereby the information is relayed from public entities to the Public Employees Retirement Board.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Nebraska Retirement Systems Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of

this resolution.

2. The Nebraska Retirement Systems Committee is directed to conduct a study of the means by which information relevant to the public employees retirement systems is collected, maintained, and reported by public entities for the use of the retirement systems administered by the Public Employees Retirement Board.

3. The Nebraska Retirement Systems Committee is further directed to examine the adequacy of the statutory process and any statutory limitations of procedures by which information is conveyed from the public entities to the Public Employees Retirement Board, paying special attention to the efficiency, timeliness, and accuracy provided in the framework of the process.

4. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, including prospective legislation, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 147. Introduced by Nebraska Retirement Systems Committee: Wickersham, 49, Chairperson; Crosby, 29; Lynch, 13; C. Peterson, 35; Stuhr, 24; Wehrbein, 2.

PURPOSE: The Nebraska Judges Retirement System was established in 1955 and forty-two years have since elapsed. The Legislature has not recently conducted a thorough examination of the demographic and statistical character of the members of Nebraska's Judiciary, and thereby ascertained whether the plan assumptions in the Nebraska Judges Retirement System need to be reexamined or updated.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Nebraska Retirement Systems Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. The Nebraska Retirement Systems Committee is directed to conduct a study of the plan assumptions underlying the Nebraska Judges Retirement System and the demographic and statistical character of the members of Nebraska's Judiciary to ascertain whether the plan assumptions need to be reexamined or updated.

3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, including prospective legislation, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 148. Introduced by Nebraska Retirement Systems Committee: Wickersham, 49, Chairperson; Crosby, 29; Lynch, 13; C. Peterson, 35; Stuhr, 24; Wehrbein, 2.

PURPOSE: The Legislature has the responsibility of developing sound and

adequate public retirement systems for Nebraska's public employees and has bound itself to provide general principles of sound retirement planning for all public retirement systems in the State of Nebraska. Public retirement plans should be designed to provide adequate retirement benefits for public employees who have completed a period of service considered to be a normal career. The determination of benefit adequacy of any public retirement system directly inheres in the criteria chosen to analyze the components of each retirement system, but the Legislature has not heretofore fully expressed the principles on which the criteria should be chosen that are then used to analyze public retirement systems for benefit adequacy. It is desirable that the Legislature should create a uniform set of criteria to be used in the determination of benefit adequacy for the County Employees Retirement System, the Judges Retirement System, the School Employees Retirement System, the Class V School Employees' Retirement System, and the State Patrol Retirement System, and the State Employees Retirement System in the State of Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Nebraska Retirement Systems Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Nebraska Retirement Systems Committee shall be designated to conduct an interim study which shall examine the criteria which should be used to determine benefit adequacy in public retirement systems in the State of Nebraska.

3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 149. Introduced by Stuhr, 24.

PURPOSE: The purpose of this resolution is to study the importance of vocational education at the secondary level. The study shall include, but not be limited to: (1) The role of secondary education in providing vocational and career-preparation opportunities for students; (2) the role of vocational education in meeting the education, training, and economic development needs of business and industry in Nebraska; and (3) the role of the State Board of Vocational Education in providing leadership for vocational education.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 150. Introduced by Stuhr, 24.

PURPOSE: The purpose of this resolution is to study the issues associated with providing for reasonable attorney's fees for persons who prevail in amending, expunging, or removing an inaccurate or inconsistently maintained child abuse report such as is proposed in Legislative Bill 490, Ninety-fifth Legislature, First Session, 1997. State law requires the Department of Health and Human Services to investigate reports of child abuse and neglect and to maintain a central registry of child abuse or neglect cases. Pursuant to statute, the department classifies cases in the central registry as (1) court substantiated, (2) petition to be filed, (3) investigation inconclusive, or (4) unfounded. All information identifying subjects of unfounded reports are expunged from the central registry and the subject of any other report may petition the department for its removal on the grounds that it is inaccurate or is being maintained in a manner inconsistent with the statutes regarding the investigation and documentation of child abuse and neglect cases. Subjects who have been falsely accused of child abuse who hire an attorney incur a financial burden paying attorney's fees.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

7 education by enhancing student exposure to faculty of diverse
8 cultural, racial, and ethnic backgrounds and women faculty should
9 be a goal of the University of Nebraska system. The Board of
10 Regents of the University of Nebraska should encourage the
11 recruitment, development, and retention of outstanding faculty,

13 faced by graduates in a diverse society and global economy, and to

5 should devote one percent of its budget to provide support for

- 9 (iv) By August 1, 2002, the University of Nebraska system

12 For each year beyond August 1, 2002, that the university system is
13 not among the top fifty percent among its peer institutions in the
14 employment of minority and women faculty, three percent of its
15 annual budget should be placed in escrow until the university
16 system meets this peer percentage. Funds in escrow should be
17 released to the university system upon the equaling or surpassing
18 of such peer percentage."

 14 Sec. 3. Section 25-2603, Reissue Revised Statutes of
 15 Nebraska, is amended to read:

16 25-2603. (a) On application of a party showing an
17 agreement described in section ~~25-2602~~ 2 of this act and the

8 therein. Otherwise and subject to section 25-2619, such
9 application may be made in any court of competent jurisdiction.

12 application therefor has been made under this section or, if the
13 issue is severable, the stay may be with respect thereto only.
14 When the application is made in such action or proceeding, the
15 order for arbitration shall include such stay.

16 (e) An order for arbitration shall not be refused on the
17 ground that the claim in issue lacks merit or bona fides or because
18 any fault or grounds for the claim sought to be arbitrated have not
19 been shown.

20 Sec. 4. Section 25-2606, Reissue Revised Statutes of
21 Nebraska, is amended to read:

22 25-2606. Unless otherwise provided by the agreement:

23 (a) The arbitrators shall appoint a time and place for
24 the hearing and cause notification to the parties to be served
25 personally or by registered or certified mail not less than ten
26 days before the hearing. Appearance at the hearing waives such
27 notice. The arbitrators may adjourn the hearing from time to time
1 as necessary and, on request of a party and for good cause, or upon
2 their own motion, may postpone the hearing to a time not later than
3 the date fixed by the agreement for making the award unless the
4 parties consent to a later date. The arbitrators may hear and
5 determine the controversy upon the evidence produced
6 notwithstanding the failure of a party duly notified to appear.
7 The court on application may direct the arbitrators to proceed
8 promptly with the hearing and determination of the controversy;

9 (b) The parties are entitled to be heard, to present
10 evidence material to the controversy, and to cross-examine

11 witnesses appearing at the hearing; and

12 (c) The hearing shall be conducted by all the arbitrators
13 but a majority may determine any question and render a final award.
14 If, during the course of the hearing, an arbitrator for any reason
15 ceases to act, the remaining arbitrator or arbitrators appointed to
16 act as neutrals may continue with the hearing and determination of
17 the controversy.

18 Arbitration proceedings shall take place in the county
19 designated in section 25-403.01 unless the parties otherwise agree
20 at a time subsequent to the arising of the controversy.

21 Sec. 5. Any person proposed for nomination by all
22 parties or all party arbitrators to serve as a neutral arbitrator
23 shall disqualify himself or herself, upon demand of any party to
24 the arbitration agreement made before the conclusion of the
25 proceedings, on any of the grounds specified in section 24-739 for
26 disqualification of a judge or on the ground that such person is an
27 employee or independent contractor of an industry, trade, or
1 professional association of which a party is a member.

2 Sec. 6. Section 25-2613, Reissue Revised Statutes of
3 Nebraska, is amended to read:

16 substantially the rights of a party; or

17 (5) There was no arbitration agreement and the issue was
18 not adversely determined in proceedings under section 25-2603, and
19 the party did not participate in the arbitration hearing without
20 raising the objection; or

21 (6) An arbitrator was subject to disqualification
22 pursuant to section 5 of this act and failed, upon receipt of
23 timely demand, to disqualify himself or herself as required by such
24 section.

25 The fact that the relief was such that it could not or
26 would not be granted by a court of law or equity is not ground for
27 vacating or refusing to confirm the award.

1 (b) An application under this section shall be made
2 within ninety days after delivery of a copy of the award to the
3 applicant, except that if predicated upon corruption, fraud, or
4 other undue means, it shall be made within ninety days after such
5 grounds are known or should have been known.

6 (c) In vacating the award on grounds other than stated in
7 subdivision (a)(5) of this section, the court may order a rehearing
8 before the new arbitrators chosen as provided in the agreement or,
9 in the absence thereof, by the court in accordance with section
10 25-2604, or if the award is vacated on grounds set forth in
11 subdivisions (a)(3) and (a)(4) of this section, the court may order
12 a rehearing before the arbitrators who made the award or their
13 successors appointed in accordance with section 25-2604. The time
14 within which the agreement requires the award to be made is
15 applicable to the rehearing and commences from the date of the
16 order.

17 (d) If the application to vacate is denied and no motion
18 to modify or correct the award is pending, the court shall confirm
19 the award.

20 Sec. 7. The following statement shall appear in
21 capitalized, underlined type adjoining the signature block of any
22 standardized agreement in which binding arbitration is the sole
23 remedy for dispute resolution: THIS CONTRACT CONTAINS AN
24 ARBITRATION PROVISION WHICH MAY BE ENFORCED BY THE PARTIES.

25 Sec. 8. (a) Whenever the amount of a controversy subject
26 to the terms of an otherwise valid arbitration agreement is within
27 the jurisdiction of the Small Claims Court under section 25-2802, a
1 party may submit the controversy to the Small Claims Court for
2 ultimate resolution under sections 25-2801 to 25-2807.

3 (b) A controversy submitted to the Small Claims Court
4 under this section shall not be transferred to the regular docket
5 of the county court under section 25-2805.

6 (c) In all appeals involving cases submitted under
7 subsection (a) of this section, the judgment shall be affirmed
8 unless:

9 (i) The judgment was procured by corruption, fraud, or
10 other undue means;

11 (ii) There was evident partiality or corruption by the
12 judge or misconduct prejudicing the rights of any party;

13 (iii) The judge exceeded his or her powers;

14 (iv) The judge refused to postpone the trial upon
15 sufficient cause being shown therefor, refused to hear evidence
16 material to the controversy, or otherwise so conducted the hearing,

18 substantially the rights of a party;

19 (v) There was no arbitration agreement and the issue was
20 not adversely determined in proceedings under section 25-2603, and
21 the party did not participate in the Small Claims Court hearing
22 without raising the objection; or

23 (vi) The judge was subject to disqualification and
24 failed, upon receipt of timely demand, to disqualify himself or
25 herself as required by law.

27 Nebraska, is amended to read:

1 25-2618. (a) The term court shall mean any district
2 court of this state. The making of an agreement described in
3 section ~~25-2602~~ 2 of this act providing for arbitration in this
4 state confers jurisdiction on the court to enforce the agreement
5 under the Uniform Arbitration Act and to enter judgment on an award
6 thereunder.

7 (b) Nothing in the Uniform Arbitration Act shall be
8 construed to empower the Commission of Industrial Relations to
9 order that any party under its jurisdiction submit to, or contract
10 to submit to, arbitration.

11 Sec. 10. Section 25-2805, Reissue Revised Statutes of
12 Nebraska, is amended to read:

13 25-2805. All matters in the Small Claims Court shall be
14 tried to the court without a jury. Any Except as provided in
15 section 8 of this act, any defendant in an action or such

17 the county court by giving notice to the court at least two days
18 prior to the time set for the hearing. Upon such notice the case
19 shall be transferred to the regular docket of the county court. At
20 the same time as such notice is given to transfer the case, any
21 defendant or such defendant's attorney may demand trial by jury,
22 and the Small Claims Court shall forward the demand to the county
23 court. The party causing the transfer of a case from the Small
24 Claims Court to the regular docket shall pay as a fee the
25 difference between the fee for filing a claim in Small Claims Court
26 and the fee for filing a claim on the regular docket.

27 In any action transferred to the regular docket there
1 shall be no further pleadings, demurrers, motions challenging
2 pleadings, or discovery unless ordered by the court upon a showing
3 that any such procedure is necessary to the prompt and just
4 determination of the action.

5 Sec. 11. Section 25-2807, Reissue Revised Statutes of
6 Nebraska, is amended to read:

7 25-2807. Any Unless the controversy is subject to the

- 3 with an estimated total cost of either five hundred thousand
- 4 dollars or more or equivalent to ten percent or more of the total
- 5 general fund expenditures of the municipality in the most current
- 6 year available, whichever is greater, the governing body of the
- 7 municipality shall act in conformity with the provisions of
- 8 sections 69 to 74 of this act.
- 9 Sec. 70. For purposes of sections 69 to 74 of this act:
- 10 (1) Municipality means any city of any class, village, or
- 11 county;
- 12 (2) Project means the purchase, sale, construction,
- 13 renovation, expansion, or physical improvement or maintenance of a
- 14 facility or capital improvement used primarily in the conduct of a

15 proprietary function:

16 (3) Political subdivision means any city, village,
17 county, metropolitan utilities district, or sanitary and
18 improvement district; and

19 (4) Proprietary function means a water supply or
20 distribution facility, a wastewater collection or treatment
21 facility, a gas supply, transmission, or distribution facility, or
22 an integrated solid waste management collection, disposal, or
23 handling utility.

1 Sec. 71. (1) At such time as a municipality decides to
2 undertake a project, the governing body of the municipality shall
3 formally adopt a resolution indicating its intent and authorizing
4 the conduct of such engineering studies and the development of such
5 plans or alternative proposals as are necessary to proceed with the
6 development of the project. Any consultant that is employed to
7 conduct such a study or develop such plans or proposals shall not
8 enter into any other contract or maintain any other contractual
9 relationship with such municipality other than with regard to that
10 specific project for a period of three years immediately following
11 the date of such employment, except that this prohibition shall not
12 apply to any individual who serves as a direct, full-time employee
13 of the municipality. The consultant shall identify potential
14 alternatives to the proposed project with specific emphasis on
15 whether or not it would be more cost efficient to enter into a
16 cooperative effort with another political subdivision and shall
17 review and report to the governing body on the feasibility and
18 costs associated with the proposed project and all reasonable
19 alternative proposals likely to meet the needs identified by the
20 governing body as requiring the undertaking of the project.

21 (2) The resolution shall specify (a) the particular
22 existing and future needs of the municipality and any surrounding
23 areas which necessitate the proposed project, (b) the location or
24 locations of the proposed project, (c) the physical boundaries of
25 the area to be served by the project, (d) the proposed nature of
26 the project and any possible alternative courses of action other
27 than the proposed project which would meet the needs set forward,

1 (e) the estimated cost of the project and of any other possible
2 alternative courses of action, and (f) a description of how the
3 project will be financed. The resolution shall also authorize the
4 clerk of the municipality to advertise for requests for proposals
5 to consultants to conduct the studies on the project.

6 Sec. 72. (1) The governing body shall receive the report
7 of the consultant at a public meeting and copies of the report
8 shall be filed with the clerk of the municipality and made
9 available for review by the public during normal business hours.
10 At such meeting the governing body shall schedule a public hearing
11 to be held not sooner than twenty-one days following the date of
12 the receipt of the report. The governing body shall cause notice
13 of the public hearing to be published in a newspaper of general

14 circulation in the municipality at least once a week for two
15 consecutive weeks, the time of the hearing to be at least seven
16 days following the last date of publication. The notice shall
17 describe the time, date, place, and purpose of the hearing and
18 shall specifically identify the project and all reasonable
19 alternatives reviewed in the report. All interested parties shall
20 be afforded at the public hearing a reasonable opportunity to
21 express their views respecting the proposed project and the
22 alternatives.

23 (2) The governing body shall cause copies of the original
24 resolution and the consultant's report to be transmitted to the
25 clerk of each political subdivision exercising jurisdiction over
26 territory or persons to be served by the proposed project or whose
27 residents would be responsible in any fashion to bear any portion
1 of the costs associated with the project. Such transmission shall
2 be accomplished within seven days after the date on which the
3 governing body receives the report.

4 Sec. 73. The municipality shall not undertake any
5 project which would be located in whole or in part outside of its
6 corporate boundaries, which would serve any territory or persons
7 outside of its corporate boundaries, or whose costs of
8 construction, operation, or service would be borne by persons
9 residing outside of its corporate boundaries if, within thirty days
10 after the date upon which the governing body of the municipality
11 approves the project, a three-fifths majority of the elected
12 members of the governing body of any political subdivision
13 receiving notice as provided for in subsection (2) of section 72 of
14 this act votes to reject the project.

15 Sec. 74. If any political subdivision votes to reject
16 the project as provided in section 73 of this act, the governing
17 body of the municipality may call for the approval of the project
18 to be placed on the ballot of the next primary or general election
19 or at a special election to be called for that purpose. All
20 registered voters residing within the municipality and within all
21 areas outside of the corporate boundaries of the municipality
22 identified by the governing body as being the area to be served by
23 the project shall be entitled to vote on the matter. If a majority
24 of the voters voting on the matter at the election approve the
25 project, the municipality may proceed to undertake the project,
26 notwithstanding the objections of the political subdivision. If a
27 majority of the voters voting on the matter reject the project, the
1 municipality shall not undertake the project for a period of at
2 least twelve calendar months after the date of the election, and if
3 the governing body at that time decides to pursue the project, it
4 shall only do so following the procedure provided for in sections
5 69 to 74 of this act."

10 The Board of Regents of the University of Nebraska is
 11 hereby authorized to construct an Information Science, Technology,
 12 and Engineering Building on the University of Nebraska at Omaha
 13 Campus or at the AKSARBEN site in a manner consistent with the
 14 recommendations of the President of the University of Nebraska in
 15 "On Engineering Education in Nebraska", December 1994, and the
 16 program statement dated May 1996. The funds appropriated to this
 17 program may be supplemented by other funds. The total cost of the
 18 facility is estimated not to exceed \$37,500,000 which includes
 19 \$500,000 of previously appropriated state funds and \$14,000,000 of
 20 private funds. The project includes 195,000 gross square feet. It

6 the Information Science, Technology, and Engineering Building, it
7 is intended that the design and construction of this facility will
8 include sufficient correctly designed, correctly equipped, and
9 properly electronically integrated space to insure that technical
10 standards established by the NEB*SAT Coordinating Council are met
11 and that currently available and anticipated distance learning and
12 multimedia technologies and systems can be utilized. The
13 utilization should insure that accessibility to information science
14 and technology programs and courses and engineering programs and
15 courses are available not only to citizens and industries in the
16 Omaha area but also to citizens and industries throughout Nebraska
17 with a minimum of duplication and excess cost.

18 Sec. 2. AGENCY NO. 51 -- UNIVERSITY OF NEBRASKA
19 Program No. 781 - University Administration

20 There is hereby appropriated to the Board of Regents of
21 the University of Nebraska for FY1997-98 \$771,000 General Funds and
22 for FY1998-99 \$1,260,000 General Funds for the College of
23 Information Science and Technology.

24 In accordance with actions taken by the Coordinating
25 Commission for Postsecondary Education in its recommendations that
26 initial state tax funding be provided for the College of
27 Information Science and Technology, it is the intent of the
1 Legislature that any state tax funds appropriated in this section
2 and used for these purposes be expended in a manner which helps
3 achieve the following goals: (1) The University of Nebraska should
4 collaborate and cooperate with other postsecondary education
5 institutions in Nebraska to promote efficiencies in engineering and
6 information science and technology programs; (2) the University of
7 Nebraska should utilize the latest distance learning and multimedia
8 technologies reasonably available to further enhance the quality
9 and accessibility of the information science and technology and
10 engineering programs not only to the citizens of the Omaha
11 metropolitan area, but also to meet the needs of place-bound
12 students and businesses throughout the state, and in such a manner
13 as to avoid unnecessary program and course duplications among
14 institutions; such collaboration should extend to high-quality
15 programs offered by other institutions which could benefit
16 University of Nebraska students, particularly through the use of
17 distance learning; (3) the University of Nebraska should work with
18 the community colleges to articulate undergraduate programs offered
19 in the College of Information Science and Technology with
20 appropriate programs offered by the community colleges.
21 Collaboration should be expanded beyond the information science and
22 technology programs in order to meet the information science and
23 technology educational needs in Omaha and throughout the state; and
24 the University of Nebraska should assure that appropriate
25 policies and practices are established and used in order to meet
26 the special needs of students from under-represented populations in

27 the information science and technology and engineering programs.".

RESOLUTIONS

LEGISLATIVE RESOLUTION 153. Introduced by Kristensen, 37.

PURPOSE: The purpose of this study is to review the operations of, and statutory framework for, the Tax Equalization and Review Commission (TERC). The TERC was created by Laws 1995, LB 490 to perform intercounty and intracounty equalization along with other duties. The TERC has been operational since 1996. A study is necessary to examine whether, under its current organizational structure, the TERC can adequately perform its duties and meet the objectives for which it was created. Among other issues, this study should specifically examine and determine:

- (1) Whether the TERC as organized provides sufficient due process to parties;
- (2) Whether the TERC has the time, resources, and statutory support necessary to fully consider and address all of the issues raised before the body;
- (3) Whether the TERC provides an accessible and realistic forum for redressing grievances in matters of taxation;
- (4) Whether the procedure for appealing rulings of the TERC provides a legitimate avenue for review of the TERC's decisions;
- (5) Whether the TERC provides greater fairness, consistency, and efficiency in the process of taxation;
- (6) Whether the TERC is removed from the political process as intended; and
- (7) The appropriate relationship between the TERC and the Property Tax Administrator.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 154. Introduced by Maurstad, 30.

PURPOSE: To review and determine whether health insurance and sickness and accident losses should be included under pooling arrangements authorized under the Intergovernmental Risk Management Act.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 155. Introduced by Maurstad, 30.

PURPOSE: Nebraska law requires proof of financial responsibility for motor vehicle operators and recognizes the importance of such requirement through severe penalties, including suspension of operating privileges of those motor vehicle operators who fail to maintain such proof. However, a motor vehicle operator who is involved in an accident and declares bankruptcy is able to avoid a suspension of his or her operating privileges. The Legislature should review current statutes and determine whether changes should be made to deal with this type of situation.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 156. Introduced by Coordsen, 32.

PURPOSE: The purpose of this resolution is to study the Secretary of State's implementation of the publication of the Nebraska Register and the Nebraska Administrative Code pursuant to the provisions of Legislative Bill 665, Ninety-fifth Legislature, First Session, 1997. The study shall include the following issues:

- (1) Contents of each publication;
- (2) Frequency of each publication;
- (3) Omission of certain information from each publication;
- (4) Availability of each publication to government offices and the general public (a) through written copies and (b) through the Internet;
- (5) Filing requirements for agencies submitting rules and regulations;
- (6) Legal effect of the contents of each publication;
- (7) Resale of publications by the Secretary of State; and
- (8) Adoption of rules and regulations by the Secretary of State for such

publications.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 157. Introduced by Agriculture Committee: Dierks, 40, Chairperson; Chambers, 11; Cudaback, 36; Hilgert, 7; Hudkins, 21; Schellpeper, 18; Schrock, 38; Vrtiska, 1.

PURPOSE: To examine issues addressed by Legislative Bill 661, Ninety-fifth Legislature, First Session, heard by the Agriculture Committee. The study shall examine whether resumption of a state meat and poultry inspection program is feasible or desirable and would provide opportunities for producers working with small-to-medium sized packing plants to develop and market value-added products. The study shall also examine the impact to small and medium sized meat packers with the implementation of Hazard Analysis Critical Control Point (HACCP) meat inspection regulations of the federal Food Safety Inspection Service scheduled to begin in July, 1997.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 158. Introduced by Agriculture Committee: Dierks, 40, Chairperson; Chambers, 11; Cudaback, 36; Hilgert, 7; Hudkins, 21; Schellpeper, 18; Schrock, 38; Vrtiska, 1.

PURPOSE: To study the future viability of the Nebraska Tractor Testing Laboratory if Legislative Bill 192, Ninety-fifth Legislature, First Session, which would strike the provisions of sections 2-2701 to 2-2711 requiring performance testing of tractor models sold in Nebraska, is enacted. Testing fee revenue paid by manufacturers pursuant to existing law are a significant revenue source for the tractor test facility. The study shall examine the potential to expand the functions of the tractor test lab to include proprietary research and cooperative research ventures with the United States Department of Agriculture Research Service or other public or private agricultural research foundations. The study shall also examine whether the existing law could be modified to remove or mitigate competitive barriers

which Nebraska's unique tractor testing law creates for Nebraska equipment dealers.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 159. Introduced by Agriculture Committee: Dierks, 40, Chairperson; Chambers, 11; Cudaback, 36; Hilgert, 7; Hudkins, 21; Schellpeper, 18; Schrock, 38; Vrtiska, 1.

PURPOSE: Recent changes in federal farm programs will have the effect of removing the income safety net that has traditionally existed in the farming sector. Increasingly, the stability and prosperity of production agriculture is tied to the ability and willingness of producers to cooperatively market raw farm commodities and to venture into value-added activities with existing or new commodities. The purpose of this study is to examine methods to both encourage and assist Nebraska producers in capitalizing on such value-added opportunities. The study shall specifically examine relevant programs in other states, as well as existing promotional and economic development programs in Nebraska, which are or can be targeted toward activities which enhance farm income.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 160. Introduced by Agriculture Committee: Dierks, 40, Chairperson; Chambers, 11; Cudaback, 36; Hilgert, 7; Hudkins, 21; Schellpeper, 18; Schrock, 38; Vrtiska, 1.

PURPOSE: To study the interrelationship of the Nebraska Right to Farm Act with proposed air quality standards for total reduced sulphur (TRS), including hydrogen sulfide, which may impact agricultural production facilities. The study shall include a review of TRS emission standards adopted by other states and the federal government in various regulatory settings, the scientific underpinnings for determining TRS emission standards, and the cost and practicality of available technologies to control hydrogen sulfide emissions. In addition, the study shall review means to

manage air quality concerns on a local and regional basis and whether provisions of the Nebraska Right to Farm Act can be strengthened or modified to minimize noncompliance and help meet the purposes of establishing TRS air quality standards.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 161. Introduced by Agriculture Committee: Dierks, 40, Chairperson; Chambers, 11; Cudaback, 36; Hilgert, 7; Hudkins, 21; Schrock, 38; Vrtiska, 1; and Jones, 43.

PURPOSE: The Nebraska livestock brand law, Chapter 54, article 1, Revised Statutes of Nebraska, governs the use, application, registration, and inspection of ownership brands on cattle and other livestock. Although the law is comprehensive and widely understood throughout the livestock industry, the existing language is often archaic and confusing. It is the intent of this study to review the Nebraska livestock brand law with the input of the Nebraska Brand Committee and other interested parties for purposes of updating, simplifying, and clarifying the law where appropriate and desirable.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 162. Introduced by Agriculture Committee: Dierks, 40, Chairperson; Chambers, 11; Cudaback, 36; Hilgert, 7; Hudkins, 21; Schellpeper, 18; Schrock, 38; Vrtiska, 1.

PURPOSE: To study issues addressed by the Nebraska Host Farm and Ranch Act, Legislative Bill 189, Ninety-fifth Legislature, First Session, heard by the Agriculture Committee. Specifically, the study shall attempt to determine what barriers exist to the proliferation of agricultural experience businesses in Nebraska, often referred to as dude ranches or farm stays. Specifically, the study shall examine methods to mitigate liability concerns and prohibitive insurance costs and determine how to utilize the promotional resources of the Department of Agriculture to assist and encourage

tourism-related entrepreneurial activities on Nebraska's farms and ranches.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

9 achieving the minimal goal of being among the top fifty percent
10 among the Board of Regent's peer institutions in the employment of
11 women and minority faculty members by August 1, 2002; and

12 (iv) Beginning with the 1998-1999 budget, and each year

RESOLUTIONS

LEGISLATIVE RESOLUTION 163. Introduced by Will, 8.

PURPOSE: The purpose of this resolution is to examine the methods of structuring debate on legislative bills and amendments, legislative resolutions, and constitutional amendments. This study shall include, but not be limited to, the examination of:

- (1) The number, content, and introduction of amendments; and
- (2) The possible methods of organizing debate such as (a) having the Speaker schedule bills and amendments, (b) having the parameters of debate established by the Rules Committee, (c) having the parameters of debate established by a standing committee, and (d) having the parameters of debate established by the Speaker. Parameters of debate include the length of debate, items considered for debate, and limitations on speaking time for individual senators.

This study should focus not only upon the specific application of the current Rules of the Nebraska Unicameral Legislature, but also upon mechanisms employed by legislative bodies in other states.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 164. Introduced by General Affairs Committee: Schellpeper, 18, Chairperson; Cudaback, 36; Hartnett, 45; Hudkins, 21; Janssen, 15; Robak, 22; Vrtiska, 1; Will, 8.

PURPOSE: The enactment of levy limits on political subdivisions is intended to increase efficiencies in their delivery of services. One method of improving efficiencies is through the reorganization or restructuring of political subdivisions. There is concern that the levy limits may not provide adequate funding for public library service and that there may be other difficulties in providing library service as a result of these reorganization or restructuring efforts. Public libraries may need to change their methods of

governance, organization, or funding in relation to the levy limits and changes in the structure of political subdivisions in order to provide services which are appropriate for their communities and the changing society of this state. This study shall include, but not be limited to, examination of the following:

1. The impact of levy limits on providing public library services;
2. The impact of reorganization or restructuring of political subdivisions on public library services;
3. The impact of new technologies, including use of the Internet, on public library services;
4. Whether methods of library organization or funding need to be changed to respond to the levy limits or reorganization or restructuring of public subdivisions; and
5. Any other matters necessary or proper for a full and complete examination of this issue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the General Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 165. Introduced by General Affairs Committee: Schellpeper, 18, Chairperson; Cudaback, 36; Hartnett, 45; Hudkins, 21; Janssen, 15; Robak, 22; Vrtiska, 1; Will, 8.

PURPOSE: The Internet and other new forms of technology offer many opportunities for information exchange, education, and entertainment. However, use of the Internet for gaming activities creates serious concerns for policymakers. It is difficult to monitor the Internet, and therefore regulation of gaming activities on the Internet is highly problematic, with questionable ability to control the integrity of gaming activities, including, but not limited to, providing appropriate odds, random selection of winners, and payouts to players. Internet gaming activities are often run through offshore entities which are not subject to the jurisdiction of United States courts, making it difficult to enforce laws or regulations relating to these activities. Because of the fact the Internet activities do not respect state and national borders, it may be necessary for the United States Congress to deal with this issue. This study shall include, but not be limited to, examination of the following:

1. The extent and nature of Internet gaming in the State of Nebraska;
2. Whether it is necessary or appropriate for the State of Nebraska to enact legislation which regulates Internet gaming for the protection of its residents, and the likely impact of such legislation;
3. Activities by other states and the federal government concerning

Internet gaming;

4. Whether the State of Nebraska should support federal legislation to regulate Internet gaming; and

5. Any other matters necessary or appropriate for a full and complete examination of this issue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the General Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 166. Introduced by C. Peterson, 35.

PURPOSE: Acupuncture originated in China and is presently used as a primary health care system throughout the world. Acupuncture is a method of balancing and building the body's life force energy. Although part of a system of traditional health care for body and mind which dates back three thousand years, acupuncture today is at the forefront of modern medical research and practice.

Consumers wish to assume responsibility for their own health and have access to a wide variety of health care. The purpose of this study shall include, but not be limited to, the study of acupuncture, a listing of possible treatable conditions from acupuncture, and the legality of acupuncture in Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 167. Introduced by C. Peterson, 35.

PURPOSE: This study shall include, but not be limited to:

(1) Examining issues generally within the effort to provide relief to financially strapped counties and the authorization of counties to sell tax certificates; and

(2) Examining whether the fee per certificate purchased covers the expense the county treasurer incurs in association with handling the certificates.

Since this study involves a detailed examination of governmental services,

all efforts shall be made to gather information from any available source and to include input from interested parties in order to compile accurate information and to provide expertise upon which the Legislature may draw for future legislation.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 168. Introduced by C. Peterson, 35.

PURPOSE: The purpose of this resolution is to study the method in which child care home providers receive reimbursement for nutritious meals served under the Child and Adult Care Food Program (CACFP), which changes are effective on July 1, 1997.

The changes in the reimbursement rates are a direct result of the federal Personal Responsibility and Work Opportunity Reconciliation Act of 1996, also known as the Welfare Reform Act. The restructuring of the child care home payment system is an effort by the federal government to cut \$2.2 billion over five years.

Under the new system, there will be a two-tiered rate structure for payments to child care homes. Under this structure, the level of reimbursement for meals served to enrolled children will be determined by economic need based on the location of the child care home, the income of the child care provider, or the income of individual children's households.

Constituents have requested additional information regarding these new guidelines and it was determined that further study of the issues would be helpful in ensuring that their concerns were being met.

The study shall include, but not be limited to, the following issues:

1. The rationale behind why meals served to children in Tier I homes will be reimbursed at a higher rate than meals served to children in Tier II homes;

2. The different levels available for requesting reimbursement, submission of information to sponsoring organizations, and determination in which tier a provider will be reimbursed based on that criteria;

3. Low-income household guidelines;

4. The options and methods which the child care division could use while handling violations of the regulations governing this program; and

5. Any other issues necessary or appropriate for a full and complete examination of this matter.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report

of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 169. Introduced by Wickersham, 49; Hillman, 48.

PURPOSE: To conduct an actuarial study of the Medicaid Program to assist with planning for future costs. From 1985 through 1995, annual increases in the Medicaid Program ranged from four to twenty-five percent. The study will generate information to assist the Legislature in determining a level of future annual obligations. The study shall include, but not be limited to, the examination of the following components:

1. Acute health care;
2. Long-term care; and
3. Services for the developmentally disabled.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 170. Introduced by Raikes, 25.

PURPOSE: To review existing statutes, sections 10-711 and 10-712, Reissue Revised Statutes of Nebraska, relating to the liability for the payment of preexisting bond debt of territory moving from one school district to another in both the original school district and the new school district into which it has been annexed. The key definitional section, section 10-712, has not been substantially changed in over a century with the result that it may no longer adequately address issues of fairness and equity under modern circumstances. Questions raised by the Supreme Court of the State of Nebraska in 1883 still have not been addressed by the Legislature. The whole matter raises serious constitutional questions.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE

NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

 19 subsection (3), ~~or (4)~~, or (5) of this section shall be eligible
 20 for the credit under such subsection, in addition to the ethanol

9 governing bodies or as otherwise authorized by state law, a
10 proposed budget statement containing the following information,
11 except as provided by state law:

12 (a) For the immediate two prior fiscal years, the revenue
13 from all sources, including motor vehicle taxes, other than revenue
14 received from personal and real property taxation, allocated to
15 each of the several funds and separately stated as to each such
16 source, and for each fund: The unencumbered cash balance of such
17 fund at the beginning and end of the year; the amount received by
18 taxation of personal and real property allocated to each fund; and
19 the amount of actual expenditure for each fund;

20 (b) For the current fiscal year, actual and estimated
21 revenue from all sources, including motor vehicle taxes, allocated

8 each such fund for each fiscal year and shall note whether or not
9 such reserve is encumbered. Such cash reserve projections shall be
10 based upon the actual experience of prior years. The cash reserve
11 shall not exceed fifty percent of the total budget adopted for such
12 fund exclusive of capital outlay items;

13 (c) For the immediately ensuing fiscal year, an estimate
14 of revenue from all sources, including motor vehicle taxes, other

18 estimated unencumbered cash balances, whichever is applicable, to
19 be available at the beginning of the year; the amounts proposed to

21 on actual experience of prior years, which cash reserve shall not
22 exceed fifty percent of the total budget adopted exclusive of
23 capital outlay items;

24 (d) A statement setting out separately the amount sought

25 to be raised from the levy of a tax on the taxable value of real
26 property (i) for the purpose of paying the principal or interest on
27 bonds issued by the governing body and (ii) for all other purposes;

1 (e) A uniform summary of the proposed budget statement
2 which shall include a separate total for each fund, including each
3 proprietary function fund included in a separate proprietary budget
4 statement prepared pursuant to the Municipal Proprietary Function
5 Act, and a grand total of all funds maintained by the governing

13 court, the State Board of Equalization and Assessment, the Tax
14 Commissioner, the Tax Equalization and Review Commission, or the
15 Property Tax Administrator from which no appeal is taken to
16 reimburse property taxes to a taxpayer may certify to the county
17 clerk of the county in which any part of the political subdivision
18 is situated, not later than September 10, an itemized estimate of
19 the amount necessary to be expended to reimburse the property
20 taxes. Such amounts shall be levied by the county board of
21 equalization. The taxes shall be collected by the county treasurer
22 at the same time and in the same manner as county taxes are
23 collected and, when collected, shall be paid to the treasurer of
24 the political subdivision and used to cover the reimbursement of
25 the property taxes.

26 Any governing body which submits an itemized estimate
27 shall establish a property tax reimbursement fund. Taxes collected
1 pursuant to this section shall be credited to such fund to cover
2 the reimbursement of the property taxes.

3 The authority conferred by this section shall apply only
4 to reimbursements made during fiscal years 1993-94 through
5 1999-2000.

6 (3) The actual or estimated unencumbered cash balance of
7 each fund required to be included in the budget statement by this
8 section shall include deposits and investments of the political
9 subdivision as well as any funds held by the county treasurer for
10 the political subdivision and shall be accurately stated on the
11 proposed budget statement.

12 (4) The political subdivision shall correct any material
13 errors in the budget statement detected by the auditor or by other
14 sources.

15 Sec. 10. Section 13-505, Revised Statutes Supplement,
16 1996, is amended to read:

25 budget statement and the itemized estimate for reimbursement of
26 property taxes filed pursuant to section 13-504. The amount to be
27 raised from taxation of personal and real property, as determined
1 above, plus the estimated revenue from other sources, including
2 motor vehicle taxes, ~~other than taxation~~ and the unencumbered

20 including reserves, does not exceed ten thousand dollars per year,

2 property taxes, is adopted, or is amended and adopted as amended,

8 taxation shall specify separately (1) the amount to be applied to
9 the payment of principal or interest on bonds issued by the
10 governing body and (2) the amount to be received for all other
11 purposes. If the adopted budget statement, including the amount

13 from that shown in the published proposed budget statement, a
14 summary of such changes shall be published within twenty days after

15 its adoption in the manner provided in this section, but without
 16 provision for hearing, setting forth the items changed and the
 17 reasons for such changes.

RESOLUTIONS

LEGISLATIVE RESOLUTION 172. Introduced by Tyson, 19; Beutler, 28.

PURPOSE: The purpose of this study is to examine the state's natural resources districts. This interim study will complement the study by the Nebraska Natural Resources Commission authorized by LB 1085 in 1996. The study will review the history and the objectives of natural resources districts, examine the process natural resources districts use to prioritize projects and allocate funds, examine methods for resolving disputes over natural resources districts' decisions, review the reports regarding the existence of drainage districts submitted to the Legislature by natural resources districts pursuant to section 31-378, and review the report submitted to the Legislature by the commission pursuant to section 2-1506.01.

The first purpose of the study is to examine the history and objectives of natural resources districts. This will include a discussion of the original purposes of the natural resources districts, how natural resources districts have fulfilled the original purposes, how the purposes of natural resources districts have changed over time, and the effect changes in the purposes of natural resources districts have had on projects completed by the districts.

The second purpose of the study is to examine the process natural resources districts use to prioritize projects and allocate funds.

The third purpose of the study is to examine methods of dispute resolution regarding the decisions by the natural resources districts.

The fourth purpose of the study is to review the reports regarding the existence of drainage districts and consider LB 682 (1997) to determine whether drainage districts should be merged into the natural resources districts.

The fifth purpose of the study is to review the report submitted by the commission prior to September 1, 1997, pursuant to section 2-1506.01.

The study will include how potential projects are identified, what criteria is used to prioritize projects, how requests by entities, including citizens, private businesses, and governmental agencies, for cooperative projects within the districts are addressed, how opportunities for cooperative arrangements and cost share between districts and other entities can be facilitated, the availability of federal funds to districts and how district policies enhance or deter utilization of federal funds, and how disagreements surrounding natural resources district board's decisions can be resolved, including a procedure for appealing board decisions.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report

of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 173. Introduced by Revenue Committee: Coordsen, 32; Hartnett, 45; Schellpeper, 18; Wickersham, 49.

PURPOSE: In 1997, the property tax issue remains important to a majority of Nebraskans. It has become apparent over the last twenty-five years of work in this area, that the traditional approaches, including lids and state aid to political subdivisions, while effective are not sufficient in and of themselves to adequately address the concerns of Nebraskans over the long term. Frustration with the current system has led to proposals to severely limit the availability of property tax for funding public services. As a result, the Legislature commenced a multiyear process designed to permanently reduce local government demands on property tax. Legislative proposals which have been enacted dramatically reduce the number of entities allowed to independently levy property taxes, place absolute dollar and cents limits on the actual tax levy, change the process by which property taxes are levied, shift responsibilities from local to state tax bases, or otherwise alter the state-local or interlocal relationships. Other legislative proposals are being considered and may be enacted by the Ninety-fifth Legislature, First Session, 1997, which change the taxation of motor vehicles, revise aid formulas to provide state assistance to local governments, and create mechanisms for joint or state oversight of local construction projects. These proposals raise a number of issues which must be addressed to substantially and permanently reduce Nebraska's dependence on property tax. These issues cover a very broad spectrum of the committees organized to carry out the business of the Legislature.

Resolution of the property tax issue involves a serious look at public services in Nebraska and the methods we use to pay for them. Efforts to provide property tax relief must be directed toward achieving the following goals:

1. Restructuring local and state governmental services in Nebraska;
2. Reducing the use of property tax to finance public services; and
3. Restructuring state aid to local government and local revenue authority as is necessary to achieve goals 1 and 2.

Such a project involves a detailed examination of most governmental services and the jurisdiction and expertise of most committees of the Legislature. Coordination and execution of such a research effort is critical to delivering results that will provide property tax relief that is adequate and permanent and that can be implemented in an orderly fashion. Included among these issues is the possible need and use of the Property Tax Reduction Incentive Fund as proposed by Legislative Bill 180, Ninety-fifth Legislature, First Session, 1997.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee consisting of the members of the Revenue Committee;

the Chairpersons of the Committees on Judiciary, Transportation, Government, Military and Veterans Affairs, Education, Urban Affairs, Health and Human Services, Appropriations, and Natural Resources; the Chairperson of the Executive Board of the Legislative Council; and the Speaker of the Legislature be designated to coordinate the research undertaken pursuant to this project. The committee may include up to seven representatives of local government in conducting its responsibilities under this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 174. Introduced by Revenue Committee: Coordsen, 32; Hartnett, 45; Schellpeper, 18; Wickersham, 49.

PURPOSE: In 1997, the property tax issue remains important to a majority of Nebraskans. Resolution of the property tax issue involves a serious look at public services in Nebraska and the methods we use to pay for them. Efforts to provide property tax relief must be directed toward achieving the following goals:

1. Restructuring local and state governmental services in Nebraska;

3. Restructuring state aid to local government and local revenue authority as is necessary to achieve goals 1 and 2.

Such a project involves a detailed examination of most governmental services and the jurisdiction and expertise of most committees of the

Legislature. Coordination and execution of such a research effort is critical to delivering results that will provide property tax relief that is adequate and permanent and that can be implemented in an orderly fashion.

Included among the issues which must be addressed are the proper distribution of the property tax levying authority under the constraints proposed by Legislative Bills 1085 and 1114, Ninety-fourth Legislature, Second Session, 1996; the proper balance of revenue sources to pay for state and local public services; the matching of revenue to services in a way that provides adequate, but not extravagant, public services; and the possible need and use of the Property Tax Reduction Incentive Fund as proposed by Legislative Bill 180, Ninety-fifth Legislature, First Session, 1997.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 175. Introduced by Bromm, 23; Robinson, 16; Vrtiska, 1; Dierks, 40.

PURPOSE: The Legislature provided in Laws 1996, LB 1114, that Nebraska's public school districts are to substantially reduce the expenditure of property tax dollars used in general fund expenditures for kindergarten through grade twelve education. School districts expend in excess of one hundred million dollars annually for the purchase of group medical insurance coverage for employees. For the vast majority of public school districts, the group medical insurance coverage is provided as a practical matter under policies offered by only one vendor. This study shall include, but not be limited to, examination of the following:

1. Whether a public school district which purchases group medical insurance coverage for its employees should be required periodically to open such coverage to a public bidding procedure;
2. Whether an insurance company which sells group medical insurance coverage to public school districts for their employees should be required to periodically disclose financial experience data related to such coverage;
3. Whether an insurance company which sells group medical insurance coverage to public school districts for their employees should be required to annually submit to the Department of Insurance a financial summary report for such coverage for the preceding calendar year; and
4. Any other issues necessary or appropriate for a full and complete examination of this matter.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 176. Introduced by Stuhr, 24.

PURPOSE: The purpose of this resolution is to study state statutes related to the relationship between the agricultural and horticultural land valuation boards and the Tax Equalization and Review Commission. The study shall include, but not be limited to, a review and analysis of the consistency of the policy objectives of the boards and the commission.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 178. Introduced by Hudkins, 21.

PURPOSE: The purpose of this resolution is to review the policy of the University of Nebraska system which provides for the use of university facilities, equipment, and staff by tenured faculty for private, personal financial gain. The study shall review whether or not there is an ongoing abuse of this policy and whether or not this policy is in conflict with

statewide policy which prohibits the use of public property, equipment, and funds for private financial gain. The study shall also review whether or not the university should be reimbursed for the use of the facilities, equipment, and staff and whether or not the faculty and the university should share in the financial gain.

Further, the purpose of this study is to review whether or not this policy does, in fact, enhance the reputation of the university, whether the absence of this policy would make it impossible for the university to obtain the services of faculty to provide a quality education to the students of the university system, and whether the taxpayers of the State of Nebraska should subsidize the salaries of tenured faculty by providing them with the wherewithal to engage in a private enterprise without the expenses with which other businesses in the State of Nebraska must contend.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 179. Introduced by Janssen, 15.

PURPOSE: The purpose of this resolution is to study the issues associated with having natural resources districts become involved in settling minor disputes between landowners when one landowner's alleged failure to remove debris or obstructions from a manmade ditch or watercourse is causing damage or imminent damage to a neighboring landowner's property. Currently, the only legal recourse landowners have in these situations is to bring a civil court action. A civil action can be costly and time-consuming for the parties involved. This study shall include, but not be limited to: (1) The cost effectiveness of the natural resources districts' involvement in these situations; (2) what types of situations would trigger the natural resources district action; (3) whether the decision of the natural resources district would be binding or appealable; and (4) the procedural steps which would need to be created.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution. The Nebraska Natural Resources Commission shall assist the committee in conducting the study.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 180. Introduced by Maurstad, 30.

PURPOSE: To study issues related to LR 62CA, Ninety-fifth Legislature, First Session, 1997, dealing with highway trust funds.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 181. Introduced by Maurstad, 30.

PURPOSE: The electronics industry represents some ninety-four companies across Nebraska, employing approximately 12,500 people. Nebraska trails other states in the number of technology-related jobs and would need an additional 6,600 jobs to reach the national average. If design, engineering, pilot production, testing, and training resources could be shared among electronics firms and the post-secondary education sector, the opportunities for investment in job creation among individual companies and opportunities for the formation of new companies would be enhanced throughout the State of Nebraska. This study shall include, but is not limited to, examination of the following:

1. The development of a Nebraska Center for Excellence in Electronics in the University of Nebraska Technology Park through partnerships among private business, Southeast Community College, and the University of Nebraska;
2. The establishment of a nonprofit limited liability company under contract with Southeast Community College to operate the Nebraska Center for Excellence in Electronics; and
3. A determination of the costs, advantages, and disadvantages associated with such a project.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 182. Introduced by Will, 8.

PURPOSE: The purpose of this resolution is to study Nebraska's laws regarding the methods used to determine child support payments and the

procedures used to collect those payments. This study shall include, but not be limited to:

(1) An examination of developing a voucher system in which both the custodial and noncustodial parents are responsible and accountable for funds designated for the care of their child or children;

(2) An examination of requiring divorcing parents to utilize a common child advocate to assist in determining the amount of any child support payments and to assist in recommending to the court any future changes to those payments; and

(3) An examination of other states' laws regarding child support payments and collection of those payments. The study should compare the administrative costs and the child support payment compliance level of other states with the administrative costs and compliance level under Nebraska's child support system.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 183. Introduced by Crosby, 29.

PURPOSE:

WHEREAS, providing adequate health surveillance and professional expertise to all students enrolled in Nebraska schools is a challenge; and

WHEREAS, over 330,000 students attend Nebraska's 1,675 school sites; and

WHEREAS, today many students do not have health insurance or are underinsured and the school nurse acts as a crucial link to facilitate care for these students and their families; and

WHEREAS, currently, only 600 nurses (one-third working less than 20 hours per week) serve the majority of Nebraska's schools; and

WHEREAS, state statute currently requires mandatory health screening for vision, hearing, dental, and immunization record review; and

WHEREAS, Nebraska students experience a myriad of significant health conditions and special education needs including required nursing care procedures during the day; and

WHEREAS, students experiencing health problems may be adversely affected when they do not have regular access to qualified professionals who can intervene in a timely manner to ensure their safety and quality of care during the school day; and

WHEREAS, funding of school nursing services is currently tenuous with less than one percent of district budgets allocated for school health services.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Education Committee of the Legislature and the Health and Human Services Committee of the Legislature will study and make recommendations as to how all students can be ensured of access to school nurses delivering quality school health services.

2. That the committees will study and make recommendations as to what can be done to ensure that the minimum mandates (vision, hearing, dental, and immunization record review) are being met and student safety, health promotion, and disease prevention assured.

3. That the committees shall upon the conclusion of their study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 184. Introduced by Hillman, 48; Wehrbein, 2; Brown, 6; Brashear, 4.

PURPOSE: To investigate, in conjunction with the Nebraska Commission on Law Enforcement and Criminal Justice, the Nebraska State Patrol, and other state or local entities with an interest in drug demand reduction programs, potential alternatives to the DARE Program in Nebraska, and potential federal funding for such a program, with the intent that such an alternative program be initiated beginning in FY1998-99.

The DARE program began in Nebraska in September 1989. Anti-Drug Abuse funds (BYRNE funds) have been utilized to operate the DARE program in Nebraska. These federal funds are received by the Nebraska Commission on Law Enforcement and Criminal Justice, are matched with twenty-five percent General Funds, and are administratively transferred to the Nebraska State Patrol. The DARE Program is no longer eligible for continued federal funding after September 30, 1997. However, the federal BYRNE dollars and the twenty-five percent General Fund match dollars are still available in the commission's budget for award to other agencies or entities for crime fighting or prevention, including other demand reduction programs.

The Nebraska State Patrol has received permission from the Nebraska Commission on Law Enforcement and Criminal Justice to utilize carryover federal funds and the General Fund twenty-five percent match for three months between September 30, 1997, and December 31, 1997. The Legislature included one-time General Funds in the amount of \$260,468 and a PSL of \$145,000 for an additional six months' operation of the program in FY1997-98 in Legislative Bill 389, Ninety-fifth Legislature, First Session, 1997, as a Select File amendment to the bill. Funding for the DARE program will cease as of June 30, 1998.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report

of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 185. Introduced by Hillman, 48; Wehrbein, 2; Brashear, 4.

PURPOSE: To review, in conjunction with the Criminal Justice Information System Advisory Committee of the Nebraska Commission on Law Enforcement and Criminal Justice, the progress made by the courts in the installation of the JUSTICE system, and the future plans, progress, and costs of court automation and the potential future integration with law enforcement/criminal justice applications at both the state and local levels.

Laws 1993, LB 832, was introduced by the Appropriations Committee to provide funding for the court-related expenses of installing and operating the JUSTICE system. The bill, as amended and passed, established a court automation fee of three dollars for each case filed in the various courts to be used to offset the cost of installing and operating the system. The bill had a sunset date of June 30, 1997. Legislative Bill 216, Ninety-fifth Legislature, First Session, 1997, as currently amended, eliminates the fee and the statutes authorizing the fee. The Legislature has included General Funds for FY1997-98 and FY1998-99 in Legislative Bill 389, Ninety-fifth Legislature, First Session, 1997, as replacement revenue for this fee.

Computerization of the courts and the statewide implementation of the JUSTICE system have significant implications and potential effects on law enforcement and criminal justice applications and costs at both the state and local levels.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 186. Introduced by Wesely, 26; Beutler, 28.

PURPOSE: The purpose of this resolution is to study health care availability for uninsured children.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 187. Introduced by Wesely, 26.

PURPOSE: To study the eight area agencies on aging in Nebraska. The study shall include:

1. How the area agencies on aging are funded with a review of the intrastate funding formula;
2. What services are provided by the area agencies on aging and the effectiveness of those services;
3. What role the area agencies on aging should have in the health and human services system and in efforts to contain the rising cost of medicaid

in long-term care plan implementation; and

4. How the area agencies on aging are organized and the effectiveness and efficiency of this organizational structure.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 188. Introduced by Wesely, 26; Matzke, 47.

PURPOSE: The purpose of this study resolution is to study the current role and the possible future role of the State of Nebraska and its citizens in the oversight and regulation of hospital and health-care-related mergers, acquisitions, and affiliations. This study will also evaluate the effect of the systems' changes which have occurred in the health care industry and its delivery system and the impact these changes have had and will have on the health care marketplace, on providers of health care services, on health care costs, and on health care consumers in Nebraska and in adjoining states.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 189. Introduced by Schellpeper, 18.

PURPOSE: Insurance fraud has become a major economic issue in Nebraska. The Department of Insurance has the responsibility of monitoring, licensing, and regulating the insurance industry in Nebraska. This study shall include, but is not limited to:

- (1) Examination of the way insurance agents are licensed in Nebraska;
- (2) Review of the definitions of "agent" and "independent contractor" and how they apply to the insurance industry in Nebraska;
- (3) Examination of the liability of insurance companies with respect to fraudulent acts of their agents and independent contractors;
- (4) Examination of the safeguards, if any, required of insurance companies by the state to prevent fraudulent acts by insurance agents; and

(5) Review of the administrative procedures used in cases of violations and a determination of what changes are necessary to prevent future fraudulent acts by agents.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 190. Introduced by Robinson, 16.

PURPOSE: To identify the potential consequences of adopting into the School Employees Retirement System the "Rule of Eighty-five" with a minimum retirement age of fifty-five. An actuarial study would provide the most accurate information as regards the subject of this resolution, but funds for such study are not available at this time. Barring an actuarial study, however, this resolution proposes that the Nebraska Retirement Systems Committee identify potential consequences for system members, employers, and the State of Nebraska, if the School Employees Retirement System adopts the "Rule of Eighty-five" with a minimum retirement age of fifty-five.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Nebraska Retirement Systems Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 191. Introduced by Schimek, 27.

PURPOSE: The purpose of this study is to include additional considerations in the interim study proposed under Legislative Resolution 144, Ninety-fifth Legislature, First Session, 1997. Reliance on property taxes to fund local governments is a concern. Studying the feasibility of allowing a local option income tax is a reasonable course of action. However, the state must also protect its tax base and not slowly chip away at the foundation of this base. Political subdivisions have long had the power to impose a property tax. Thirty years ago the Legislature allowed municipalities the ability to impose a sales tax. Now the Legislature is considering the possibility of permitting a local option income tax. The study should include, to the extent possible:

(1) The impact that a local option income tax would have on the state's

income tax base;

(2) A review of other states which have a local option tax and how this has affected the state's tax base;

(3) The impact of such a tax on the economy of the community; and

(4) The ramifications of adding one more revenue source into the existing tax structure.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 192. Introduced by Schimek, 27; Suttle, 10; Wesely, 26; Stuhr, 24.

PURPOSE: Diabetes is a common disease in Nebraska, with one in fifteen Nebraskans having diabetes and one in three Nebraskans at risk of developing diabetes. Diabetes causes serious complications, such as the majority of cases of adult blindness and end-stage kidney disease, and contributes to nerve damage, to heart disease, and to lower extremity disease and amputation. In Nebraska, diabetes costs \$787 million in medical care, loss of productivity, and premature mortality. Research has demonstrated that by using known prevention measures, the complications of diabetes can be reduced by as much as sixty percent. The study shall include, but not be limited to:

(1) Researching and making recommendations as to what can be done to ensure that persons with diabetes will have third-party reimbursement for diabetes-related equipment, medications, and education to prevent the complications from the disease;

(2) Researching and making recommendations as to the state's responsibility for reducing the complications and burden of diabetes in Nebraska; and

(3) Researching and making recommendations as to the integration of diabetes services for the visually impaired and Native Americans and as to diabetes prevention services within the newly organized health and human services system.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 193. Introduced by Schimek, 27; Suttle, 10; Wesely, 26.

PURPOSE: Osteoporosis prevention strategies center on improving nutrition, increasing weight-bearing exercises, and promoting the appropriate use of supplemental estrogen after menopause. Exercises and good nutrition can reduce the risk of osteoporosis at any age. Preventive lifestyle changes need to be promoted and supported on a broad scale through changes in social and physical environments. In 1995, there were forty-two hip fractures among Nebraskans ages 65-74 and three hundred hip fractures among Nebraskans age 75 and older. These hip fractures, due to osteoporosis, are one of the leading causes of nursing home admissions. The purpose of this study is to review and make recommendations as to what Nebraska's responsibility is to reduce the disabilities due to osteoporosis. The study shall also include recommendations concerning personal and economic burdens to the state and to individuals relating to osteoporosis.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 194. Introduced by Hartnett, 45; Brashear, 4.

PURPOSE: The Nebraska Retirement Systems Committee heard two bills during this session (Legislative Bill 365 and Legislative Bill 650, Ninety-fifth Legislature, First Session, 1997) which would provide for cost-of-living adjustments for Nebraska State Patrol retirees. Public hearings on these bills raised several issues which will require further analysis and investigation, including an actuarial study, before it will be possible to take further action to improve the retirement benefits for former Nebraska State Patrol members.

The purpose of this study is to provide an opportunity to inquire into the status of the Nebraska State Patrol Retirement System, to receive additional information from retirees, and to determine the most appropriate legislation for recommendation to the Legislature in the 1998 legislative session.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Nebraska Retirement Systems Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 195. Introduced by Dierks, 40; Schrock, 38.

PURPOSE: To study whether the Nebraska Livestock Dealer Licensing Act and the Nebraska Livestock Sellers Protective Act can or should be amended to protect sellers of livestock in situations where the buyer's financial creditors foreclose on the buyer before payment is perfected. Certain provisions of the Uniform Commercial Code appear to vest title in the buyer to property upon delivery, thus leaving the seller in the position of an unsecured creditor until payment is perfected. Situations have occurred whereby this provision of the UCC may have been misused to enable buyers' creditors to unfairly gain a security interest in livestock which have not been paid for by the buyer. The study shall also examine statutes regarding agister's liens (Neb. Rev. Stat. section 54-201), the protection afforded to persons who file such a lien, and the difference of treatment between instate and out-of-state parties against whom such liens are applied.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 196. Introduced by Urban Affairs Committee: Hartnett, 45, Chairperson; Abboud, 12; Janssen, 15; Preister, 5; Robak, 22; Schimek, 27; Will, 8.

PURPOSE: During the last two legislative sessions, the Urban Affairs Committee has considered two proposals dealing with law enforcement costs. Both were aimed at reducing the cost of providing law enforcement in Nebraska's municipalities through merger and consolidation with county law enforcement agencies. One bill (Legislative Bill 825, Ninety-fifth Legislature, First Session, 1997) would mandate that municipal and county jails be maintained only through interlocal cooperation agreements. The other bill (Legislative Bill 826, Ninety-fifth Legislature, First Session, 1997) would have eliminated the authority for cities and villages to maintain their own police departments, thereby making all law enforcement on the local

level a county responsibility.

Because of the complexity of the issues involved and the implications for local law enforcement as well as property tax costs, it is important that these bills receive a more careful and detailed study than is possible within the time constraints of a legislative session.

The purpose of this study will be to review these and other proposals for local law enforcement consolidation and cooperation to determine their feasibility, their impact on public safety, and the possible cost savings that could be realized by their implementation.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 197. Introduced by Urban Affairs Committee: Hartnett, 45, Chairperson; Abboud, 12; Janssen, 15; Preister, 5; Robak, 22; Schimek, 27; Will, 8.

PURPOSE: During the past two legislative sessions, the Urban Affairs Committee has considered and advanced to the full legislature the Volunteer Firefighters and Rescue Squad Personnel Recruitment and Retention Incentive Act. This legislation would provide the authority for cities, villages, and fire protection districts to develop and implement programs aimed at recruiting and retaining volunteer firefighters. Testimony provided to the committee during public hearings on the issue has revealed that the greatest challenge to our system of volunteer fire protection is the declining level of recruitment and the difficulty of keeping volunteers after they join.

Discussions at the public hearing have indicated a willingness on the part of the various public bodies involved, as well as the volunteer departments, to work with the committee to further refine the language of the bill to make it more workable and to answer several potential legal impediments to the successful operation of the proposal.

The purpose of this study will be to work with interested parties to review and clarify various provisions of the Volunteer Firefighters and Rescue Squad Personnel Recruitment and Retention Incentive Act, to answer concerns about the legal implications of certain provisions of the act, to further define potential incentive programs, and to solicit public input and comment with regard to the act's adoption.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council

or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 198. Introduced by Urban Affairs Committee: Hartnett, 45, Chairperson; Abboud, 12; Janssen, 15; Preister, 5; Robak, 22; Schimek, 27; Will, 8.

PURPOSE: Over the last ten years, the Urban Affairs Committee has been responsible for recommending numerous changes to the handicapped parking statutes which have been enacted into law. Since many of those changes have been made on a piecemeal basis, the resulting statute has convoluted language and is difficult to understand or interpret without an extensive knowledge of the legislative history.

In addition, as the role of the Department of Motor Vehicles has increased in the process of granting and issuing the permits, numerous questions have arisen as what the appropriate role of the cities and counties should be in the process and how the process should be modified to expedite the issuance of the permits and minimize the inconvenience and delays for applicants.

Several bills regarding these issues (Legislative Bills 298, 299, and 836, Ninety-fifth Legislature, First Session, 1997) were heard by the Urban Affairs Committee in this session and Legislative Bill 299 was declared a committee priority bill. Additional issues were also raised at the public hearing which need further discussion and investigation.

The purpose of this study is to review and recodify the existing handicapped parking statutes and formalize additional changes to address concerns raised by the public, local government officials, the committee, and various individual members of the Legislature during the course of this session. The committee shall provide the opportunity for public input on proposed changes before the start of the 1998 legislative session.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 199. Introduced by Urban Affairs Committee: Hartnett, 45, Chairperson; Abboud, 12; Janssen, 15; Preister, 5; Robak, 22; Schimek, 27; Will, 8.

Purpose: Natural gas regulation has been one of the primary concerns of the Urban Affairs Committee since the creation by the committee of the Municipal Natural Gas Regulation Act in 1987 and its adoption by the Legislature.

Over the course of the past few years, regulatory changes on the national

level (due to both market forces and the Federal Energy Regulatory Commission) have made the existing system increasingly unworkable and unresponsive to market forces and consumer needs.

In an attempt to resolve the many issues involved and to begin to develop a workable system of regulation for natural gas rates that guarantees access by the consumer to competitive sources of natural gas and a level playing field for providers, the Urban Affairs Committee advanced Legislative Bill 318 in 1997 to the full Legislature with the understanding that it would serve as the template for future discussion and analysis as to the best form of a new natural gas regulatory system for Nebraska. It was the desire of the committee to conduct a study on that basis during the 1997 interim period with the goal being the development of a legislation for introduction and consideration early in 1998.

The purpose of this study will be to create a task force under the leadership of the Urban Affairs Committee to review the provisions of Legislative Bill 318, Ninety-fifth Legislature, First Session, 1997, and the proposed committee amendments, using them as the basis for the development of a new, comprehensive natural gas regulation system for Nebraska. Members of the task force shall include representatives from natural gas utilities; municipal natural gas utilities; the Metropolitan Utilities District; natural gas providers; natural gas marketers; natural gas pipeline owners, natural gas demand aggregators; municipalities, rural and urban natural gas consumers; residential, commercial, and industrial consumers; the Energy Office; the Public Service Commission; and such other interested parties as may express an interest in participating.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 200. Introduced by Urban Affairs Committee: Hartnett, 45, Chairperson; Abboud, 12; Janssen, 15; Preister, 5; Robak, 22; Schimek, 27; Will, 8.

PURPOSE: The Urban Affairs Committee sponsored the Nebraska Housing Agency Act, a comprehensive re-write of Nebraska's housing authority statutes in Legislative Bill 876, Ninety-fifth Legislature, First Session, 1997. As a result of major changes in federal legislation and patterns of financing, it will become increasingly difficult for Nebraska to meet the housing needs of its less fortunate citizens without substantial changes in our laws to enable housing authorities to diversify their activities and take advantage of cooperative developments with private businesses and developers.

The Urban Affairs Committee has declared Legislative Bill 876 as one of its committee priority bills for 1997 and has embarked upon a major review of the provisions of the original bill. In order to provide the opportunity for

more careful analysis of the bill and its implications and to afford members of the public and interested parties the opportunity to participate in the process, the committee determined that it would be most appropriate to defer the adoption of committee amendments until an interim study on the bill could be conducted.

The purpose of this study is to continue a committee study and review of the bill and its implications, to draft appropriate committee amendments to the original bill, and to solicit comments, suggestions, and recommendations from the state's current housing authorities, members of the construction and housing industry, and members of the public.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

AMENDMENT - Print in Journal

Mr. Dw. Pedersen filed the following amendment to LB 150:
AM2331

- 1 1. Insert the following new section:
- 2 "Sec. 4. The Board of Parole shall place one hundred
- 3 minimum-security inmates into a community-based intensive
- 4 supervision parole program. Inmates in such program shall have
- 5 full-time employment and be monitored by an electronic device or
- 6 system of which the inmate shall pay the cost of such device or
- 7 system. It is the intent of the Legislature that part of the
- 8 savings realized in inmate per diems from having one hundred
- 9 inmates on parole rather than in an adult correctional facility be
- 10 utilized by the Department of Correctional Services to provide this
- 11 community-based intensive supervision parole program. It is the
- 12 intent of the Legislature that five intensive supervision parole
- 13 officers shall be hired to supervise the one hundred inmates in the
- 14 intensive supervision parole program. The cost of the program
- 15 shall not exceed \$212,250 General Funds for FY1997-98 and \$200,000
- 16 General Funds for FY1998-99.
- 17 Total expenditures for permanent and temporary salaries
- 18 and per diems from funds authorized in this section shall not
- 19 exceed \$138,025 for FY1997-98 or \$138,025 for FY1998-99."
- 20 2. Renumber the remaining section accordingly.

RESOLUTIONS

LEGISLATIVE RESOLUTION 201. Introduced by Withem, 14.

PURPOSE: The purpose of this interim study is to determine how the Legislature can encourage joint cooperative efforts, similar to those noted in the spirit of discussion and passage of Laws 1996, LB 1085, between political subdivisions in order to provide necessary services such as water, sewer, gas, or solid waste disposal systems. The study shall include, but not be limited to, whether such efforts should be mandated, the cost efficiencies of joint efforts, financing options in light of consolidated efforts, and the need to receive public input from citizens receiving such services.

LEGISLATIVE RESOLUTION 203. Introduced by Schmitt, 41.

PURPOSE: In the past five years, the number of counties offering traffic diversion programs (STOP) to minor traffic violators in lieu of a court appearance and fine has more than doubled. The purpose of this resolution is to examine issues addressed by Legislative Bill 565, Ninety-fifth Legislature, First Session, 1997, and to study the general philosophy and policy of traffic diversion programs. The study shall specifically examine the procedures and policies of current traffic diversion programs and determine methods to require accountability on both a state and county level and mechanisms to make the programs accessible to minor traffic violators in all counties.

LEGISLATIVE RESOLUTION 216. Introduced by Hartnett, 45; Elmer, 44.

PURPOSE: Actions taken by the Legislature in the 1996 legislative session to reduce and limit property tax levies have led to increasing interest on the part of some villages to investigate the possibility of disincorporation or dissolution. Such activity has only rarely been contemplated, much less implemented in the past. This new interest, plus the financial implications for the residents and the county in which the dissolved village resides, makes it important that the Legislature review the current statutes governing the dissolution of villages and determine whether changes may be necessary.

This study will investigate the level of interest in village dissolution, the recent experience by villages which considered that course of action and

implemented it, the statutes governing the process, and the implications for other political subdivisions of such dissolutions.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 217. Introduced by Hartnett, 45.

PURPOSE: While significant progress has been made in dealing with the problems of financing rural and suburban fire protection districts, key issues remain to be resolved. The unique nature of such districts in terms of the diversity of the services they provide, the impact of those services not only upon property tax levies but upon insurance costs, the multicounty and cross-county nature of many districts, the variety of legal arrangements between such districts and neighboring municipalities, the role of volunteers in the provision of services, and the impact of interlocal and mutual aid agreements in the cost of providing emergency response services makes it necessary for the Legislature to (1) review existing property tax limits as they relate to such districts and (2) determine what changes, if any, should be made either to their structure or to the property tax statutes to enable them to continue to operate at their current level of effectiveness, and to permit them to retain their local character and the unique savings flowing from their reliance on volunteer service providers.

This study will review the current structure of such districts and the statutes governing their operation, the impact of current levy restrictions and the manner in which their budgets and levies are set, the role of mutual aid associations and interlocal agreements in reducing costs, the synergistic nature of fire protection district and municipal fire protection arrangements, and the range of possible solutions to perceived problems in guaranteeing a stable and predictable stream of property tax revenue. The study shall encourage the participation of volunteer fire fighters, emergency response personnel, fire protection district board members, and municipal and county officials.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 218. Introduced by Hartnett, 45.

PURPOSE: One of the key elements in the 1996 package of property tax reduction bills crafted by the Revenue Committee and adopted by the Legislature was the encouragement of merger and consolidation. It was believed that substantial savings in property tax costs could be realized through mergers of public bodies and through structural or functional consolidations in the provision of services. One of the principal tools available in Nebraska statutes to accomplish this is the Interlocal Cooperation Act. It is important to the success of legislative efforts to reduce property taxes that activity with regard to merger and consolidation through the operation of the Interlocal Cooperation Act be monitored and evaluated.

The purpose of this study is to review current merger and consolidation activity, determine the effectiveness of such efforts in reducing property taxes and bringing about new efficiency in local government, identify barriers to such activity whether by reason of current statutory restrictions or practical concerns, and recommend changes in the statutes to facilitate and expedite merger and consolidation initiatives.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 232. Introduced by Judiciary Committee: Brashear, 4, Chairperson; Hilgert, 7; Hudkins, 21; Jones, 43; Robak, 22.

PURPOSE: The Administrative Procedure Act (APA) requires that certain agency standards, criteria, guidelines, rules, regulations, policies, and procedures of government be promulgated pursuant to the APA. The Department of Correctional Services is currently permitted to implement certain administrative regulations beyond the purview of the APA. However, some administrative regulations adopted by the department affect the rights, privileges, and opportunities of inmates incarcerated in state penal facilities. Therefore, the purpose of this interim study is to study the public policy considerations that are the basis for the promulgation requirements of the APA to determine whether such considerations are also applicable to those administrative regulations adopted by the department. The study will include, but will not be limited to, the following:

- (1) The content and objective of the department's administrative regulations;
- (2) The applicability, or absence thereof, of the APA to such administrative regulations; and
- (3) The desirability or feasibility of promulgating pursuant to the APA some or all administrative regulations adopted by the department beyond the purview of the APA.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall conduct the interim study in conjunction with the staff of the Public Counsel and the Legislative Research Division and that the committee shall seek input from outside sources, including input from representatives of the Department of Correctional Services and affected inmates.
3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 233. Introduced by Bohlke, 33; Wickersham, 49.

PURPOSE: During this and past legislative sessions, the Legislature has spent a great deal of time discussing school finance. It is evident that a method is needed to evaluate how effective schools utilize funding provided by state and local sources. A study will be conducted during the interim to

design and implement statewide assessment of school spending. The study will survey methods used by other states to determine what techniques and evaluations are available and effective. After review and analysis of data obtained nationally and locally, a determination of an appropriate mechanism to assess school spending in Nebraska would be instituted.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 234. Introduced by Bohlke, 33.

PURPOSE: In cooperation with the Coordinating Commission for Postsecondary Education, the Education Committee will study the implementation of section 85-9,139.02. This study would consider the effects of this section on particular types of institutions and the appropriateness of an excess default rate fee. Included would be the procedures that institutions may follow to reduce cohort default rates for the Federal Family Education Loan Program and the Federal Direct Student Loan Program in Nebraska. Public input shall be solicited in the study process.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 235. Introduced by Bohlke, 33.

PURPOSE: A number of bills passed and pending make major changes in the budgeting process for schools. It is evident that we need to study how these changes impact school systems. This study should include, but not be limited to, evaluation of time lines established by past and present legislation and reinstatement of budget growth provisions.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council

or Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 236. Introduced by Hartnett, 45; Dw. Pedersen, 39; Abboud, 12.

PURPOSE: Several cities and villages in Nebraska still follow the practice of sounding sirens in their communities for the purpose of summoning volunteer firefighters and rescue squad personnel to respond to emergency calls. Arguments have been posed in favor of the practice by cities that have concerns about the reliability of various other forms of electronic notification and the need to be able to summon volunteers to emergencies when other pager or cellular phone systems may be down or inoperable for some reason. Citizens have interposed objections based upon the noise and interference to peace and quiet that results from their use, the presence of less intrusive alternatives, and the special hardships suffered by those living in close proximity to the sirens (including the effect on property values).

The Urban Affairs Committee advanced legislation to the floor which prohibited the use of such sirens in a restricted class of communities and the prohibition was adopted as a part of Legislative Bill 589, Ninety-fifth Legislature, First Session, 1997. Since its passage, the legislation has been the subject of considerable public controversy, discussion, and debate.

The purpose of this study will be to enable the committee to give more thorough consideration to the use by municipalities of sirens to summon volunteer personnel to respond to emergencies. The study will include consideration of expanding the prohibition to a wider variety of communities, the extent to which such sirens are currently in use, the restriction of such sirens to specified locations in communities, the restriction of sirens to only certain hours of use, the placements of volume restrictions on sirens, and any other issue regarding their use which may be brought to the attention of the committee during the course of this study. The study will provide the opportunity for public comment and input from cities and villages, fire protection districts, volunteer departments and personnel, and the general public.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 237. Introduced by Hartnett, 45.

PURPOSE: This study, following a decade-long tradition, would provide the opportunity for the committee to investigate and review matters and issues arising during the interim which are within the jurisdiction of the Urban Affairs Committee and which may be the subject of legislative bills to be

introduced during the next legislative session. This would provide the opportunity for a careful review of proposed legislation and the drafting of such legislation before time constraints and the pace of legislative activity makes studied review more problematic. This process has also served to facilitate a review of legislative bills during the session and has helped the committee avoid the need for committee amendments which slow down the consideration of legislative bills by the full legislature.

The study will involve:

(1) A review of legislation considered by the Urban Affairs Committee during the 1997 regular session which was either killed by the committee or held in committee to determine what other further action by the committee might be warranted with regard to the particular subjects of the individual bills;

(2) A review of problems, concerns, or legislation proposed for introduction by senators or other parties for study, technical discussion, or conceptual refinement within the committee's jurisdiction before the start of the next legislative session; and

(3) The conduct of at least one public hearing to provide an opportunity for public comment and discussion with members of the committee and the public on issues involving matters within the committee's jurisdiction.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

LEGISLATIVE RESOLUTION 248. Introduced by Wesely, 26.

PURPOSE:

WHEREAS, screening of newborn infants for metabolic and other disorders prevents infant death, disability, and mental retardation, and reduces the effects of chronic illness; and

WHEREAS, screening of newborn infants is a cost-effective Department of Health and Human Services program; and

WHEREAS, screening of newborn infants for metabolic disorders is mandated under Neb. Rev. Stat. sections 71-519 to 71-524; and

WHEREAS, the system of screening of newborn infants in Nebraska has greatly improved with the adoption of rules and regulations in 1996, and the voluntary reduction from twenty-one laboratories to three laboratories; and

WHEREAS, Nebraska remains the only state in the United States to not adopt the best practice standard, recommended by a federal Department of Health and Human Service select panel, which is to utilize a single/centralized newborn infant screening laboratory system; and

WHEREAS, the present system of screening of newborn infants includes several questionable practices and the agency responsible for oversight of the program, the Department of Health and Human Services Regulation and Licensure, lacks the legislative authority to ensure quality such as accurate analyses and timely communication of both normal and abnormal results, which are expectations of newborn infant screening programs nationwide; and

WHEREAS, the cost to consumers for laboratory testing in Nebraska has decreased in the last year, yet it remains higher in Nebraska than that paid by consumers in every other state; and

WHEREAS, centralization of a newborn infant screening system can enhance the program's quality to ensure no affected infants are missed and reduce the costs to the consumer, and a fee-based system could reduce reliance on federal dollars and the need for state appropriations.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Legislature will study and make recommendations as to Nebraska's existing system of screening of newborn infants and options for a centralized newborn infant screening laboratory system.

2. That the Legislature will study and make recommendations as to what can be done to ensure quality metabolic screening in Nebraska.

3. That the Legislature will study funding methods and make recommendations as to the most stable strategies to ensure cost-effective quality newborn infant screening services from the testing to follow-up and treatment.

4. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

5. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 249. Introduced by Stuhr, 24; Dierks, 40.

PURPOSE: The purpose of this resolution is to study incentive programs for encouraging the use of vegetative filter strips to enhance water quality. The study shall include, but not be limited to, a review of National Resource Conservation Service and United States Department of Agriculture programs and studies related to vegetative filter strips.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 250. Introduced by Hilgert, 7; Preister, 5.

PURPOSE: The purpose of this study is to review: How territorial ratings are currently determined, with specific attention to innercity areas; how rates are determined within territories; how the Department of Insurance currently

monitors such territorial ratings by insurance companies; and how the Legislature may address, through future legislation, if needed, any changes that may be required to more effectively ensure that homeowners, particularly in innercity areas, are treated fairly and to ensure that homeowners' insurance remains available and affordable in relation to legitimate market forces.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 251. Introduced by Robinson, 16; Bromm, 23.

PURPOSE: Article III, section 5 of the Constitution of Nebraska sets forth a general framework for establishing legislative district boundaries. The drawing of congressional and legislative district boundaries is a difficult but necessary task of the Legislature. The process has historically had little further basis to consider in determining those boundaries.

Various ideas have been introduced as legislation, including those contained in Legislative Bill 607, Ninety-fifth Legislature, First Session, 1997, the purposes of which are to make the redistricting process more scientific and efficient. It is important that the Legislature study this issue in an expeditious manner in order to be as prepared as possible for the next redistricting which must occur in the year 2001. Such study should include, but not be limited to:

(1) An examination of the redistricting process used previously in Nebraska;

(2) An examination of the redistricting process used in other states;

(3) An examination of any problems encountered in past redistricting in Nebraska and what steps were taken to deal with those problems;

(4) The effectiveness of an advisory commission being formed to assist the Legislature in the redistricting process; and

FA370

(Amendments to Standing Committee amendments, AM1359)

25 Sec. 71. Section 43-512.12, Revised Statutes Supplement,
 26 1996, is amended to read:
 27 43-512.12. Child support orders in cases in which a
 1 party has applied for services under Title IV-D of the federal

 15 established by Supreme Court rule, and the variation is due to
 16 financial circumstances which have lasted at least three months and
 17 can reasonably be expected to last for an additional six months; or

18 (2) Health insurance is available to the obligor as
 19 provided in subsection (2) of section 42-369 and the children are

 1 determination after the previous review was not to refer to the
 2 county attorney or authorized attorney for filing of an application
 3 for modification because financial circumstances had not lasted or
 4 were not expected to last for the time periods established by

5 subdivision (1) of this section.

Messrs. Wesely, Tyson, Dw. Pedersen, Will, Lynch, Withem, and Mrs. McKenzie asked unanimous consent to be excused until they return. No objections. So ordered.

RESOLUTIONS

LEGISLATIVE RESOLUTION 252. Introduced by Wesely, 26.

PURPOSE: Local governments are being asked to deliver services with fewer resources, especially property taxes. Local governments must find efficiencies and develop cooperative arrangements. Since local schools are often the center of a community, the resources of a school district may be utilized to the benefit of both the school district and other units of local government.

This study proposes to examine how local schools can be better utilized for governmental and community services. The study shall examine:

- (1) Whether school buses can be utilized for human service transportation needs;
- (2) Whether school buildings can house or provide some governmental services without disrupting educational opportunities; and
- (3) The feasibility of joint school-local government projects such as libraries, parking, or the sharing of equipment.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 253. Introduced by Wesely, 26.

PURPOSE: The city of Lincoln, in cooperation with the Lower Platte South Natural Resources District and the University of Nebraska, is examining Lincoln's future planning, development, and infrastructure needs in the Antelope Creek Valley study. The study may have a dramatic impact on the economic development of Nebraska's second largest city and thus the economic development of the State of Nebraska.

This study shall examine the potential state impacts of proposals in the Antelope Creek Valley study such as the state and the university budgets,

increased or decreased state tax revenue, and efficiencies developed from the sharing of resources between entities.

Further, this study shall also examine whether the community organizational effort in the Antelope Creek Valley study can help other Nebraska communities determine their future.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 254. Introduced by Wesely, 26.

PURPOSE: City planning for roadways can have a dramatic impact on the state's economic development and tax revenue. Increased traffic can allow for greater commerce and transportation ease. New roadways can also have negative impacts such as the removal of land from the tax rolls and environmental impacts.

This study proposes to examine the city of Lincoln's plans for a south and east beltway from a state perspective. Areas to be examined include:

(1) The timeline and prioritization of the Lincoln Beltway Project with the State Roads Plan;

(2) The potential for increased economic development opportunities as a result of construction in Lincoln and the surrounding communities;

(3) How much land will be removed from the property tax rolls, its effect on the revenue-generating abilities of local governments, and its environmental impact; and

(4) The ability of local governments to provide services to any future development which will likely occur as a result of the beltway, especially in face of state-imposed property tax lids.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 255. Introduced by Wesely, 26.

PURPOSE: Efforts to create economic development opportunities are shared by various entities. Cities and counties use tax increment financing; the state

grants various tax incentives; and community colleges and the University of Nebraska provide support through customized education, applied technology, and the preparation of skilled workers.

This study proposes to examine how economic development links can be better established between these entities. The study shall examine:

- (1) The success of previous joint economic development projects;
- (2) Academic resources which could be better utilized in economic development functions;
- (3) Whether formal structures exist to coordinate these efforts;
- (4) The coordination efforts of other peer states and their success; and
- (5) Whether state statutes restrict or hinder this type of cooperation.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 256. Introduced by Wesely, 26.

PURPOSE: Law enforcement is one of the most important functions of local governments. Communities may not be able to adequately fulfill this most fundamental mission of local government because of budget and levy limitations imposed by the Legislature. Therefore, the Legislature should examine alternatives to providing for the safety of local communities.

This study shall examine how cooperative arrangements between the State Patrol, the county sheriff, and local police departments could operate and whether such cooperation could be effective in responding to crime.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 257. Introduced by McKenzie, 34.

PURPOSE: The purpose of this study resolution is to examine the issues surrounding delinquent payment of property taxes. The study shall include, but not be limited to, the issues brought to the Legislature through Legislative Bill 187, Ninety-fifth Legislature, First Session, 1997, to review the rate of interest assessed on certificates for unpaid property taxes. The study shall also explore the process by which out-of-state investors

determine tax certificate availability.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 258. Introduced by Kristensen, 37.

PURPOSE: The purpose of this resolution is to study the impact and implementation of Legislative Bill 271, Ninety-fifth Legislature, First Session, 1997. LB 271 provides motor vehicle tax and fee schedules to create greater consistency in the manner in which motor vehicles are taxed throughout the state. Among other issues, this study should specifically examine:

- (1) How best to implement the provisions of LB 271; and
- (2) The level of progressivity or regressivity of the respective tax and fee schedules contained in LB 271.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 259. Introduced by Kristensen, 37.

PURPOSE: The purpose of this resolution is to conduct a study to examine the effects of changes in telecommunications technologies and in services which are provided through the use of such technologies, as such changes relate to state and local tax policy.

Issues subject to study shall include:

1. The revenue impact on state and local government of the taxation of telecommunications technologies and the services provided through such technologies;
2. The revenue impact to state and local government of state and federal regulatory changes related to telecommunications technologies and the services provided through such technologies;
3. The impact of current state and local government tax policy on the availability and affordability of telecommunications technology and the services which are provided through such technologies; and
4. The extent to which current state tax policy impacting

telecommunications technology and services provided through such technologies may be avoided by businesses without an instate presence.

In conducting this study all forms of telecommunications technology and the services provided through such technology shall be considered including, but not limited to, voice, data, text, audio, and video.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

(1) Monitoring and reviewing the implementation of legislation enacted by the Ninety-fifth Legislature, First Session, 1997;

(2) Monitoring and evaluating actions proposed or taken by the Federal Communications Commission, the Nebraska Universal Service Task Force, and the Public Service Commission in the establishment and implementation of state universal service support mechanisms to ensure the delivery of affordable telecommunications services to all Nebraskans, including low-income consumers, eligible schools and libraries, and rural health care providers;

(3) Examining and considering issues relating to the reform of intrastate access charges; and

(4) Examining and considering issues relating to the certification and entry of political subdivisions of the state into the business of providing for-hire common carrier telecommunications services.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 261. Introduced by Kristensen, 37.

PURPOSE: To study the provision of 911 telephone service in Nebraska, which may include an examination of:

(1) The current funding of 911 telephone service in Nebraska, and whether expenditures for such service comply with the language and intent of subsection (5) of section 86-1003;

(2) The advisability of funding 911 and Enhanced 911 telephone service through the provisions of the Nebraska Telecommunications Universal Service Fund Act contained in Legislative Bill 686, Ninety-fifth Legislature, First Session, 1997;

(3) The Federal Communications Commission rule issued on June 12, 1996, (CC Docket No. 94-102) to implement Enhanced 911 service for wireless telecommunications services; and

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 262. Introduced by Kristensen, 37.

PURPOSE: The purpose of this resolution is to provide for a study of issues surrounding the enactment of legislation which would authorize and recognize the use of digital signatures.

The study shall specifically consider the policy options presented by LB 42 and LB 286 pending in the Transportation Committee of the Legislature at the conclusion of the Ninety-fifth Legislature, First Session, 1997.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

PURPOSE: The purpose of this study is to consider issues relevant to the authorization, manufacture, issuance, and administration of requirements

related to motor vehicle license plates. The study shall include, but not be limited to, the examination of the following areas:

(1) The study of specialty license plates, including LB 231 (the authorization of "generic" specialty license plates), LB 74 (the authorization of personalized Cornhusker Spirit License Plates), LB 494 (the authorization of Environmental Heritage License Plates), and LB 640 (the authorization of brand license plates). NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

LEGISLATIVE RESOLUTION 264. Introduced by Bohlke, 33; Wickersham, 49; Suttle, 10; McKenzie, 34; Bromm, 23; Stuhr, 24; Beutler, 28.

PURPOSE: A task force shall be appointed by the Chair of the Education Committee to study quality education and core curriculum issues. The chair of the Education Committee shall serve as its chairperson and the membership of the task force should include the members of the Education Committee, the Commissioner of Education, the Dean of the Teacher's College--UNL, and one representative from each of the following, recommended by the Governor: The Nebraska Council of School Administrators; the Nebraska Association of School Boards; the Nebraska State Education Association; the Greater Nebraska Schools Association; the Nebraska Rural Community Schools Association; and the Nebraska Congress of Parents and Teachers.

The study shall consider issues including, but not limited to, the following:

(1) The development of a definition of Quality Core Curriculum, which includes specific course offerings high school graduates must complete and which, at a minimum, will provide each high school graduate with the opportunity to acquire the same or similar skills to meet the entry requirements of the University of Nebraska, and with a reasonable chance to successfully complete a college education, be enrolled in a community college, or enter the job market on an equal footing with other Nebraska high school graduates;

(2) Having defined Quality Core Curriculum, the task force shall estimate

the cost of providing Quality Core Curriculum in representative school systems across the state, taking into consideration the varying costs influenced by legitimate factors which impact cost;

(3) The task force shall investigate, examine, and evaluate assessments to measure individual student performance and progress. This study shall include the ability of parents, community members, and state funding entities to assess effectiveness of a school's academic program; and

(4) The task force shall provide to the Education Committee a series of recommendations designed to ensure equitable access to the defined Quality Core Curriculum, and recommendations on assessment policies designed to measure student progress in areas included in the Quality Core Curriculum.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 265. Introduced by Hartnett, 45; Preister, 5; Lynch, 13; Withem, 14.

PURPOSE: A continuing matter of statewide controversy and debate is the lack of representation on municipal decision-making bodies by the citizens who reside in areas subject to municipal control and regulation which are located outside of the boundaries of the municipalities. Under Nebraska law, cities exercise jurisdiction for a number of purposes over areas outside of their boundaries. The citizens who live in such an area are subject to the decisions of a municipality, often paying higher fees or taxes as a result of the municipality's action, but they lack representation on the governing board of the municipality or any real influence over the course of debate or the final decision.

This is a matter of particular concern with regard to municipal decisions involving expansions of facilities that provide water, sewer, gas, or solid waste disposal services. Such activities can have a significant influence on the cost and quality of life of persons both inside and outside municipality limits, but nonresidents of a municipality have little or no voice in the process and often find themselves paying higher fees for the same service than do residents.

The purpose of this study will be to investigate how widespread the differential fee system is being implemented for the financing of utility facility expansions and to determine what is the appropriate public policy with regard to such developments. The study will involve an investigation of possible mechanisms for granting nonresidents of a municipality a greater voice or better representation in the decisionmaking process to insure that their legitimate concerns are heard and addressed in the planning and implementation of utility expansion plans. The study should focus on how

to encourage, if not mandate, intercommunity cooperation in utility developments to insure a more efficient and economic utilization of system capacity and local financial resources. Opportunities should be provided for input by citizens who have been impacted by such developments or who are facing such situations.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 266. Introduced by Hudkins, 21; Hartnett, 45; Lynch, 13; Withem, 14.

PURPOSE: During this session, the Urban Affairs Committee considered Legislative Bill 763, the Plumbing License Law. This legislation would license plumbers on a statewide basis through the Department of Health and Human Services, as opposed to the current system of licensure on a city-by-city basis according to local standards.

Because of the implications of the changes proposed in the legislation, it was deemed most appropriate by the committee to defer action on the bill pending a more thorough review that would be afforded by an interim study on the issues raised by the proposal.

The purpose of this study will be to review the provisions of Legislative Bill 763 and determine whether it would be feasible or advisable to adopt it as an alternative to current Nebraska law and practice.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 267. Introduced by McKenzie, 34; Schimek, 27; Bruning, 3; Bohlke, 33; Bromm, 23; Suttle, 10; Beutler, 28; Brown, 6.

PURPOSE: The purpose of this study resolution is to provide information to the Legislature on the development and need for services and programs in our public schools for learners with high ability. This study shall include, but not be limited to, possible funding sources and distribution mechanisms to support services and programs for learners with high ability as required

under Neb. Rev. Stat. sections 79-1105 to 79-1109. Also included in the study shall be changes to the certification requirements for an entry-level teacher or administrator.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 270. Introduced by Beutler, 28; Preister, 5.

PURPOSE: The purpose of this study is to examine the public health and environmental effects of hydrogen sulfide gas and other airborne sulfur compounds to determine the appropriate legislative and regulatory responses to incidents of exposure to these chemicals. The study will include consideration of the appropriate levels of sulfur compounds to include in health-based air quality standards. In addition, the study will review cooperative efforts between industrial and commercial operations and persons impacted by those operations to mitigate adverse health effects and adverse living conditions near the operations.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 271. Introduced by Preister, 5; Jensen, 20.

PURPOSE: Tobacco use in Nebraska results in the death of over 2,400 Nebraskans each year and thus presents a major health issue. Nebraska youth who smoke report that the primary way they obtain cigarettes is to buy them. Nebraska's current system of licensing and enforcement of the sale of tobacco products too often is uneven and weak. Currently, state statutes do not allow for administrative hearings or license suspension for illegal tobacco sales. As a result, no sanctions are imposed on the stores that sell tobacco to minors. Because tobacco permits are issued locally and not at the state level, Nebraska does not have a statewide registry of tobacco retail licenses. This lack of a central registry results in obstacles to enforcement and tracking. This study shall:

- (1) Review the current tobacco licensing system and examine alternatives, including, but not limited to, a state registry of tobacco retail licenses;
- (2) Review funding mechanisms that would cover the costs of administration, prevention, and compliance activities; and
- (3) Review enforcement alternatives, including, but not limited to, sanction or suspension of a retail tobacco license.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee and the Judiciary Committee of the Legislature shall be designated to conduct a joint interim study to carry out the purposes of this resolution.

2. That the committees shall upon the conclusion of their study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 272. Introduced by Judiciary Committee: Brashear, 4, Chairperson; Hilgert, 7; Hudkins, 21; Jones, 43; Robak, 22.

PURPOSE: During the 1997 legislative session, Legislative Bills 390 and 462 were introduced for the purpose of limiting the number of post-conviction petitions a prisoner can file to one petition in the three-year period following sentencing. The purpose of this interim study is to study the current law on post-conviction petitions; the present results thereunder indicating the desirability of limiting such petitions, if so indicated; and the consequences and implications of limiting such petitions to only one.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 273. Introduced by Judiciary Committee: Brashear, 4, Chairperson; Hilgert, 7; Hudkins, 21; Jones, 43; Robak, 22.

PURPOSE: Sections 69-201 to 69-211, Nebraska Revised Statutes, make provision for pawnbrokers and junk dealers. During the 1997 legislative session, Legislative Bills 283 and 728 were introduced to amend such sections. Based on the intent of such bills and the testimony presented, there exist issues requiring consideration with regard to pawnbrokers and junk dealers, including inconsistencies that exist within and among the statutory sections that regulate such. Testimony during the public hearing on LB 283 and LB 728 demonstrated that businesses which deal in secondhand goods should work together in the community to deter the criminal activity prevalent with regard to secondhand goods. Further testimony was received that statutory changes are needed to aid law enforcement agencies in ensuring that such businesses do not encourage criminal activity involving secondhand goods and to alleviate the frustration experienced by property owners in attempting to reclaim stolen property from dealers in secondhand goods. Therefore, the purpose of this interim study is to consider the inconsistencies within the statute sections and the necessity for the adoption of Legislative Bills 283 and 728, Ninety-fifth Legislature, First Session, 1997.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 274. Introduced by Judiciary Committee: Brashear, 4, Chairperson; Hilgert, 7; Hudkins, 21; Jones, 43; Robak, 22.

PURPOSE: Public concern over the high recidivism rate of sexual offenders prompted the introduction of Legislative Bill 323, the Sexual Predator Act (Act), during the 1997 legislative session. The intent of the Act is to establish procedures for the incarceration and treatment of sexual offenders. The Act establishes a sentence enhancement point system which may result in increased mandatory sentences, including a possible life sentence, for habitual sexual offenders. At the public hearing there was significant support for the Act. However, a number of issues with regard to the Act need further study. The purpose of this interim study is to consider those issues involved with the enactment of the Act and shall include, but not be limited to, the following issues:

- (1) The relationship between the Act and the habitual criminal statutes;
- (2) The relationship between the Act and the Convicted Sex Offender Act;
- (3) The sexual offenses and the point system provided for by the Act;
- (4) The inclusion of "attempt, solicitation, or conspiracy" to commit one

of the sexual offenses provided for in the Act;

(5) The evaluation of an individual charged with the offense of being a habitual sexual offender; and

(6) The eligibility for parole for an individual sentenced as a habitual sexual offender.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 275. Introduced by Judiciary Committee: Brashear, 4, Chairperson; Hilgert, 7; Hudkins, 21; Jones, 43; Robak, 22.

PURPOSE: During the 1997 legislative session, Legislative Bill 331 was introduced, which would repeal the death penalty. The testimony received during the public hearing on LB 331 evidenced significant policy considerations and questions of fact that are worthy of additional study and review by the Legislature. The purpose of this interim study is to gather additional information as to such policy considerations and factual issues, including, but not limited to, the following: (1) Provision of competent defense counsel in capital cases; (2) assurance of due process in capital cases; (3) discrimination, racial, economic, or otherwise, if any, inherent in the imposition of capital punishment; and (4) issues involved with the possible execution of juveniles and mentally retarded individuals.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 276. Introduced by Beutler, 28; Preister, 5; Hartnett, 45; McKenzie, 34.

PURPOSE: The purpose of this resolution is to study renewable energy, including an examination of the role of renewable energy in a restructured electric utility industry, development of Nebraska's wind and biomass resources for generating electricity, the status of technology development for wind and biomass energy conversion systems, environmental costs and benefits of renewable energy, and the economic development potential of renewable energy, particularly in rural areas of Nebraska. The study shall

also consider the implications of allowing different rates, charges, or contributions from ratepayers for electricity generated from renewable energy sources, which is sometimes referred to as "green pricing" and which is the subject of LB 571, Ninety-fifth Legislature, First Session, 1997.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 277. Introduced by Wesely, 26.

PURPOSE: Nebraska's victim notification laws were enacted to protect victims from potential harm after the release from prison or jail of crime perpetrators. Victims of domestic violence and sexual assault are many times placed in jeopardy by these releases. Automated victim notification can speed the process of notifying victims and potentially save people from further victimization by immediately informing victims by telephone.

This study proposes to examine:

(1) Whether a statewide automated victim notification system can be developed;

(2) The costs associated with the implementation of an automated victim notification system and its continued maintenance;

(3) The success of other states in protecting victims as a result of their automated victim notification systems; and

(4) Whether an automated victim notification system can be part of a larger criminal justice information system in Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 278. Introduced by Wesely, 26.

PURPOSE: Current landlord-tenant law provides for an eviction process that restricts the landlord's ability to immediately evict tenants who commit violent acts against other tenants or the landlord, who sell drugs on the premises, or who are convicted of violent felonies. As a result, landlords do not have adequate means of protecting the health and safety of their tenants.

This study proposes to examine:

- (1) How landlords currently handle evictions of tenants whose behavior threatens the health and safety of others;
- (2) How other states and Nebraska's housing authorities manage tenant threats to the health and safety of others;
- (3) Whether tenants have recourse in situations where their personal health and safety has been threatened by other tenants; and
- (4) Whether changes in landlord-tenant law are necessary to protect the health and safety of landlords and tenants.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 279. Introduced by Wesely, 26.

PURPOSE: Sex crimes are the most intrusive and personal of crimes committed against victims. The high recidivism rate of the perpetrators of these crimes indicate that a relatively small group of offenders commit a large majority of the crimes. This study proposes to examine whether the State of Nebraska is actively reducing the recidivism rates of sex offenders. Specifically, the study shall address, but is not limited to:

- (1) The number of sex offenders in our correctional facilities, their average sentences, and the number of repeat offenders;
- (2) The average number of people victimized by sex offenders;
- (3) The number of sex offenders paroled by the State of Nebraska and the recidivism rate of those parolees who have not participated in sex offender treatment;
- (4) The number of sex offenders who have participated in sex offender treatment in both the Department of Correctional Services and the Department of Health and Human Services and the recidivism rate of such offenders;
- (5) A comparison of the recidivism rates of those offenders sentenced to more than five years in prison to the rates of those offenders sentenced to less than five years; and
- (6) The effectiveness of mandatory minimum sentences given to offenders convicted of multiple first degree sexual assaults in reducing recidivism.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 280. Introduced by Wesely, 26.

PURPOSE: The increases in juvenile crime are outpacing the ability of the juvenile justice system to adequately deal with juvenile offenders. The increased county court costs and workload for the county attorneys are paid with county property taxes, and the resulting increase in property taxes is difficult for many taxpayers to absorb. This study will examine whether county attorneys should be given the dispositional option of victim-offender mediation to protect the public in a cost-effective manner while providing guidance and discipline to juvenile offenders.

Specifically, the study shall examine, but not be limited to:

- (1) The statutory and informal dispositional options used by county attorneys;
- (2) Whether the juvenile justice community members, including court officials, county attorneys, police departments, and social workers, need a juvenile offender-victim mediation dispositional option to reduce the number of juvenile offenders who face court hearings;
- (3) Whether victim-offender mediation is a cost-effective means of dealing with nonviolent juvenile crime;
- (4) The record of the state's Office of Dispute Resolution in dealing with mediation cases; and
- (5) The success of juvenile offender-victim mediation in other states in reducing their juvenile recidivism rates.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 281. Introduced by Wesely, 26.

PURPOSE: According to the "Development Report Card on the States", Nebraska ranks 45th nationally in wages earned by its full-time workers. In some cases, low-wage earners have difficulty affording basic provisions for living, such as food, shelter, and clothing.

This study proposes to study the reasons behind Nebraska's low wages. The study shall examine:

- (1) The number of low-wage earners in Nebraska and their ability to maintain a minimum standard of living;
- (2) The amount of state government aid currently required to maintain a minimum standard of living for low-wage, full-time workers;
- (3) How state policy affects the earnings of low-wage earners, including minimum wage laws and tax policy;

(4) Steps that can be taken to raise wages for low-income Nebraska workers; and

(5) The feasibility of establishing a state commission on wages to recommend strategies to improve wages and benefits for low-wage earners.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Business and Labor Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 282. Introduced by Wesely, 26; Schimek, 27; Brown, 6; Hillman, 48; McKenzie, 34; Beutler, 28; Stuhr, 24; Wehrbein, 2; Bohlke, 33; Suttle, 10; Raikes, 25; Crosby, 29; Robak, 22; Landis, 46; Janssen, 15; Chambers, 11; Dw. Pedersen, 39.

PURPOSE: There is growing concern that Nebraska needs to address a number of issues regarding women in Nebraska. Among these issues are:

1. The diversity of faculty and administrators at the University of Nebraska;

2. The appointment of women and minorities to judgeships and state agency leadership positions;

3. Nebraska's high percentage of working women with children, but low percentage of women in management and professional positions;

4. The prevalence of sexual harassment, domestic violence, and abuse;

5. The impact of wages and working conditions on women and children;

6. The affect of Welfare Reform on women and children; and

7. The availability and affordability of child care.

To address these issues, a special committee of the Legislature shall be established by the Executive Board of the Legislative Council. The committee is authorized to utilize legislative staff and other resources necessary to carry out this study. The committee may also establish an advisory group to assist the committee in identifying issues, securing information, and developing recommendations to address concerns and issues raised.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a special committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 283. Introduced by Chambers, 11.

PURPOSE: To develop more accurate cost projections for the creation of a supplemental or hybrid retirement plan for employees of the Legislature and other constitutional offices, and to study specific needs that such a plan should address.

The Benefit Adequacy Report issued to the Nebraska Retirement Systems Committee in 1993 by Buck Consultants proposed providing retirement benefits through a combination of a defined benefit plan acting in conjunction with a defined contribution plan, similar to the operation of many private-sector retirement programs. Preliminary estimates by the Nebraska Retirement Systems Committee actuary of the cost of a supplemental defined benefit plan have ranged from four to five percent of pay (Legislative Bill 844, Ninety-fourth Legislature, First Session, 1995) to seven to ten percent (Legislative Bill 459, Ninety-fifth Legislature, First Session, 1997). Given this discrepancy, the actual cost of creating a supplemental plan requires a more thorough actuarial study. The subsequent Buck study issued in 1994 proposed a floor plan, which could be implemented at an increased total cost of one and one-half percent of salary, with the potential for allowing prior service to be included at an additional total cost of two percent of salary. As a result, further analysis is required to create a plan that serves the unique needs of employees of elected constitutional offices. Specific issues to be studied include the following:

1. Whether the current vesting requirement of six years (one year employment plus five years membership) in the current state plan should be lowered, and if doing so for legislative and constitutional offices only will result in an IRS plan discrimination issue, and, whether the one-year waiting period requirement to be admitted to the plan is excessive for employees of elected constitutional offices;

2. What should be considered an appropriate career length for employees of elected constitutional offices to enable them to receive an adequate retirement benefit, as established by the Buck Consultants study and the Nebraska Retirement Systems Committee's General Principles of Sound Retirement Planning. Consideration should be given to a normal retirement service requirement after six and one-half terms (of four years duration) for an elected officeholder;

3. Whether a supplemental defined benefit plan or a floor plan, rather than a defined contribution plan, would better serve employees of elected constitutional offices, particularly those employees who have served long careers with the Legislature and were penalized by restrictive admission requirements that existed at the time they started employment with the Legislature;

4. Whether other options than retirement should be available to at-will employees whose employment terminates when they are over age fifty-five and have five years of service. Currently the statutes assume every member over age fifty-five is retiring; and

5. What would be an appropriate level to establish employee contribution rates.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE

NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

AMENDMENTS - Print in Journal

Mr. Dw. Pedersen filed the following amendment to LB 752:
AM2373

(Amendments to Standing Committee amendments, AM1359)

1 1. Strike sections 1 to 26, and 78 and insert the
2 following new sections:
3 "Section 1. It is the intent of the Legislature to
4 encourage the enforcement of support orders. The Legislature finds
5 that the potential suspension of a professional, occupational, or
6 recreational license or a motor vehicle operator's license for
7 failure to pay child, spousal, and medical support is an effective
8 technique for the enforcement of support orders, particularly for
9 non-wage-earning and self-employed license holders who are not in
10 compliance with support orders. It is the intent of the
11 Legislature to encourage license holders to comply with their legal
12 obligations and to add to the tools available for the enforcement
13 of support orders. Therefor, courts of competent jurisdiction are
14 authorized to suspend licenses of individuals who are not in
15 compliance with support orders.

16 Sec. 2. For purposes of sections 1 to 20 of this act,
17 the definitions found in sections 3 to 12 of this act apply.

18 Sec. 3. Authorized attorney has the same meaning as
19 found in section 43-1704.

20 Sec. 4. Child support has the same meaning as found in
21 section 43-1705.

22 Sec. 5. Medical support has the same meaning as found in
23 section 43-512.

1 Sec. 6. Operator's license has the same meaning as found
2 in section 60-474 and includes a commercial driver's license as
3 defined in section 60-464 and a restricted commercial driver's
4 license as defined in section 60-476.03 except as specifically
5 provided otherwise in section 15 of this act.

6 Sec. 7. Professional or occupational license means a
7 license, certificate, registration, permit, or other similar
8 document evidencing admission to or granting authority to engage in
9 a profession or occupation in the State of Nebraska.

10 Sec. 8. Recreational license means a license,
11 certificate, registration, permit, tag, sticker, or other similar
12 document or identifier evidencing permission to hunt, fish, or trap

13 for furs in the State of Nebraska.

14 Sec. 9. Relevant licensing authority means a board,
15 bureau, commission, committee, department, political subdivision,
16 or other public or private entity that is authorized under the laws
17 of the State of Nebraska to grant, issue, or renew a professional,
18 occupational, or recreational license.

19 Sec. 10. Spousal support has the same meaning as found
20 in section 43-1715.

21 Sec. 11. Support order has the same meaning as found in
22 section 43-1717.

23 Sec. 12. Support in the definitions of child support,
24 medical support, and spousal support means providing necessary
25 shelter, food, clothing, care, medical support, medical attention,
26 education expenses, or funeral expenses or any other reasonable and
27 necessary expense and includes interest as provided by law.

1 Sec. 13. (1) When a county attorney or authorized
2 attorney has made reasonable efforts to verify and has reason to
3 believe that a license holder in a case receiving services under
4 Title IV-D of the Social Security Act, as amended, (a) is
5 delinquent on a support order in an amount equal to the support due
6 and payable for more than a three-month period of time, (b) is not
7 in compliance with a payment plan for amounts due as determined by
8 a county attorney, an authorized attorney, or the Department of
9 Health and Human Services for such past-due support, or (c) is not
10 in compliance with a payment plan for amounts due under a support
11 order pursuant to a court order for such past-due support, and
12 therefor determines to refer the license holder to the court of
13 competent jurisdiction, the county attorney or authorized attorney
14 shall file a petition to enforce child support with the court and
15 serve a summons with a copy of the petition to the license holder
16 by certified mail to the last-known address of the license holder
17 or to the last-known address of the license holder available to the
18 court pursuant to section 42-364.13. For purposes of this section,
19 reasonable efforts to verify means reviewing the case file and
20 having written or oral communication with the clerk of the court of
21 competent jurisdiction and with the license holder. Reasonable
22 efforts to verify may also include written or oral communication
23 with custodial parents.

24 (2) The petition shall specify:

25 (a) That the court intends to certify the license holder
26 to the Department of Motor Vehicles and to relevant licensing
27 authorities pursuant to subsection (2) of section 15 of this act as
1 a license holder described in subsection (1) of this section;

2 (b) The court or agency of competent jurisdiction which
3 issued the support order or in which the support order is
4 registered;

5 (c) That an enforcement action for a support order will
6 incorporate any amount delinquent under the support order which may
7 accrue in the future;

8 (d) That a license holder who is in violation of a
9 support order can come into compliance by:

10 (i) Paying current support; and

11 (ii) Paying all past-due support or, if unable to pay all
12 past-due support and if a payment plan for such past-due support
13 has not been determined, by making payments in accordance with a
14 payment plan determined by the county attorney, the authorized
15 attorney, or the Department of Health and Human Services for such
16 past-due support; and

17 (e) That within thirty days after filing of the petition
18 to enforce child support, the license holder shall respond by
19 filing an answer in the court of competent jurisdiction of the
20 county where the support order was issued or registered or, in the
21 case of a foreign support order not registered in Nebraska, the
22 court of competent jurisdiction of the county where the child
23 resides if the child resides in Nebraska or the court of competent
24 jurisdiction of the county where the license holder resides if the
25 child does not reside in Nebraska.

26 Sec. 14. If the license holder files a timely answer
27 under section 13 of this act, the court of competent jurisdiction
1 shall hear the petition to enforce child support.

2 Sec. 15. (1) The court of competent jurisdiction may
3 certify a license holder to the Department of Motor Vehicles and
4 relevant licensing authorities if a license holder is found to be
5 in contempt of court by failing to comply with subpoenas or
6 warrants relating to paternity or child support proceedings or
7 found guilty of contempt of court for failure to pay temporary or
8 permanent child support payments.

9 (2) If the court of competent jurisdiction determines to
10 certify a license holder to the appropriate licensing authority,
11 then the court shall certify a license holder in the following
12 order and in compliance with the following restrictions:

13 (a) To the Department of Motor Vehicles to suspend the
14 license holder's operator's license, except the Department of Motor
15 Vehicles shall not suspend the license holder's commercial driver's
16 license or restricted commercial driver's license. If a license
17 holder possesses a commercial driver's license or restricted
18 commercial driver's license, the court shall certify such license
19 holder pursuant to subdivision (b) of this subsection. If the
20 license holder fails to come into compliance with the support order
21 as provided in section 13 of this act or subpoenas and warrants
22 relating to paternity or child support proceedings within ten
23 working days after the date on which the license holder's
24 operator's license suspension becomes effective, then the court may
25 certify the license holder pursuant to subdivision (b) of this
26 subsection without further notice;

27 (b) To the relevant licensing authority to suspend the
1 license holder's recreational license once the Game and Parks
2 Commission has operative the electronic or other automated

3 retrieval system necessary to suspend recreational licenses. If
4 the license holder does not have a recreational license, the court
5 may certify the license holder pursuant to subdivision (c) of this
6 subsection. If the license holder fails to come into compliance
7 with the support order as provided in section 13 of this act or
8 subpoenas and warrants relating to paternity or child support
9 proceedings within ten working days after the date on which the
10 license holder's recreational license suspension becomes effective,
11 the court may certify the license holder pursuant to subdivision
12 (c) of this subsection without further notice; and

13 (c) To the relevant licensing authority to suspend the
14 license holder's professional license, occupational license,
15 commercial driver's license, or restricted commercial driver's
16 license.

17 (3) If the court certifies the license holder to the
18 Department of Motor Vehicles, the Department of Motor Vehicles
19 shall suspend the operator's license of the license holder ten
20 working days after the date of certification. The Department of
21 Motor Vehicles shall without undue delay notify the license holder
22 by certified mail that the license holder's operator's license will
23 be suspended and the date the suspension becomes effective. No
24 person shall be issued an operator's license by the State of
25 Nebraska if at the time of application for a license the person's
26 operator's license is suspended under this section. Any person
27 whose operator's license has been suspended shall return his or her
1 license to the Department of Motor Vehicles within five working
2 days after receiving the notice of the suspension. If any person
3 fails to return the license, the Department of Motor Vehicles shall
4 direct any peace officer to secure possession of the operator's
5 license and to return it to the Department of Motor Vehicles. The
6 peace officer who is directed to secure possession of the license
7 shall make every reasonable effort to secure the license and return
8 it to the Department of Motor Vehicles or shall show good cause why
9 the license cannot be returned. A license holder whose operator's
10 license has been suspended under this section may apply for an
11 employment driving permit as provided by sections 60-4.129 and
12 60-4.130, except that the license holder is not required to fulfill
13 the driver improvement or driver education and training course
14 requirements of subsection (2) of section 60-4.130.

15 (4) If the court of competent jurisdiction certifies the
16 license holder to a relevant licensing authority, the relevant
17 licensing authority, notwithstanding any other provision of law,
18 shall suspend the license holder's professional, occupational, or
19 recreational license and the license holder's right to renew the
20 professional, occupational, or recreational license ten working

12 1996, is amended to read:

13 43-290. It is the purpose of this section to promote
14 parental responsibility and to provide for the most equitable use
15 and availability of public money.

16 Pursuant to the petition filed by the county attorney or
17 any reputable person in accordance with section 43-274, whenever
18 the care or custody of a juvenile is given by the court to someone
19 other than his or her parent, which shall include placement with a
20 state agency, or when a juvenile is given medical, psychological,
21 or psychiatric study or treatment under order of the court, the
22 court shall make a determination of support to be paid by a parent
23 for the juvenile at the same proceeding at which placement, study,
24 or treatment is determined or at a separate proceeding. Such
25 proceeding, which may occur prior to, at the same time as, or
26 subsequent to adjudication, shall be in the nature of a disposition
27 hearing.

1 At such proceeding, after summons to the parent of the
2 time and place of hearing served as provided in sections 43-262 to
3 43-267, the court may order and decree that the parent shall pay,
4 in such manner as the court may direct, a reasonable sum that will
5 cover in whole or part the support, study, and treatment of the

6 juvenile, which amount ordered paid shall be the extent of the
7 liability of the parent. The court in making such order shall give
8 due regard to the cost of study, treatment, and maintenance of the
9 juvenile, the ability of the parent to pay, and the availability of
10 money for the support of the juvenile from previous judicial
11 decrees, social security benefits, veterans benefits, or other
12 sources. Support thus received by the court shall be transmitted
13 to the person, agency, or institution having financial

17 for credit to the proper fund.

20 placed with someone other than his or her parent, or if such study
21 or treatment is otherwise provided as determined necessary by the
22 custodian of the juvenile, the court shall inquire as to the
23 availability of insured or uninsured health care coverage or
24 service plans which include the juvenile. The court may order the
25 parent to pay over any plan benefit sums received on coverage for
26 the juvenile. The payment of any deductible under the health care
27 benefit plan covering the juvenile shall be the responsibility of
1 the parent. If the parent willfully fails or refuses to pay the
2 sum ordered or to pay over any health care plan benefit sums
3 received, the court may proceed against him or her as for contempt,
4 either on the court's own motion or on the motion of the county
5 attorney or authorized attorney as provided in section 43-512, or
6 execution shall issue at the request of any person, agency, or
7 institution treating or maintaining such juvenile. The court may
8 afterwards, because of a change in the circumstances of the
9 parties, revise or alter the order of payment for support, study,
10 or treatment.

11 If the juvenile has been committed to the care and
12 custody of the Department of Health and Human Services, the
13 department shall pay the costs for the support, study, or treatment
14 of the juvenile which are not otherwise paid by the juvenile's
15 parent.

16 If no provision is otherwise made by law for the support
17 or payment for the study or treatment of the juvenile, compensation
18 for the study or treatment shall be paid, when approved by an order
19 of the court, by the Office of Juvenile Services. The county shall

7 subrogated to the right of the employee or to the dependents
8 against such third person, and the recovery by such employer shall
9 not be limited to the amount payable as compensation to such
10 employee or dependents, but such employer may recover any amount
11 which such employee or his or her dependents should have been
12 entitled to recover. Any recovery by the employer against such
13 third person, in excess of the compensation paid by the employer
14 after deducting the expenses of making such recovery, shall be paid
15 forthwith to the employee or to the dependents, and shall be
16 treated as an advance payment by the employer, on account of any
17 future installments of compensation. Nothing ; ~~PROVIDED, that~~
18 ~~nothing~~ in the Nebraska Workers' Compensation Act shall be
19 construed to deny the right of an injured employee or of his or her

20 personal representative to bring suit against such third person in
21 his or her own name or in the name of the personal representative
22 based upon such liability, but in such event an employer having
23 paid or paying compensation to such employee or his or her
24 dependents shall be made a party to the suit for the purpose of
1 reimbursement, under the above provided right of subrogation, of
2 any compensation paid. Before the making of a claim or the
3 bringing of suit against such third person by the employee or his
4 or her personal representative or by the employer or his or her
5 insurer, each shall give to all others, unless waived in writing,
6 notice of not less than thirty days, by certified or registered
7 mail, an opportunity to join in the making of such claim or the
8 instituting of an action and to be represented by counsel. If a
9 party entitled to notice cannot be found, the clerk of the Nebraska
10 Workers' Compensation Court shall become the agent of such party
11 for the giving of such notice as required in this section, and the
12 notice when given to the clerk of the Nebraska Workers'
13 Compensation Court shall include an affidavit setting forth the
14 facts, including the steps taken to locate such party. After the
15 expiration of thirty days, for failure to receive notice or other
16 good cause shown, the district court before which the action is
17 pending shall allow either party to intervene in such action, and
18 if no action is pending then the district court in which it could
19 be brought shall allow either party to commence such action. Each
20 shall have an equal voice in the claim and the prosecution of such
21 suit and any dispute arising shall be passed upon by the court
22 before which the case is pending and if no action is pending then
23 by the district court in which such action could be brought. If
24 either party after the giving of such notice fails, by and through
25 his or her attorney, to join in the making of such claim and the
26 prosecuting of the suit, such party shall waive any and all claims
27 or causes of action for improper prosecution of such suit or
1 inadequacy of a settlement made in accordance herewith, and the
2 party bringing the claim or prosecuting the suit shall be entitled
3 to deduct from any amount recovered the reasonable expenses of
4 making such recovery, including a reasonable sum for attorney's
5 fees, which expenses and attorney's fees shall be prorated to the
6 amounts payable to the employer or his or her insurer under the
7 above right of subrogation and to the amount in excess of such
8 amount payable to the employer or his or her insurer under his or
9 her right of subrogation, and which expenses and attorney's fees
10 shall be apportioned by the court between the parties as their
11 interests appear at the time of such recovery. If either party
12 makes the claim or prosecutes such action without the giving of a
13 notice to the other party, the party bringing the claim and
14 prosecuting such action shall not deduct expenses or attorney's
15 fees from the amount payable to the other party.

16 If the employee or his or her personal representative or
17 the employer or his or her compensation insurer join in the

18 prosecuting of such claim and are represented by counsel, the
19 reasonable expenses and the attorney's fees shall be, unless
20 otherwise agreed upon, divided between such attorneys as directed
21 by the court before which the case is pending and if no action is
22 pending then by the district court in which such action could be
23 brought. A settlement of any lawsuit commenced under this section
24 shall be void unless (1) such settlement is agreed upon in writing
25 by the employee or his or her personal representative and the
26 insurer of the employer if there is one, and if there is no
27 insurer, then by the employer, or (2) in the absence of such
1 agreement, the court before which the action is pending determines
2 that the settlement offer is fair and reasonable considering
3 liability, damages, and the ability of the third person and his or
4 her liability insurance carrier to satisfy any judgment.

5 If the employee or his or her personal representative and
6 the insurer of the employer if there is one, and if there is no
7 insurer, then the employer, do not agree in writing upon
8 distribution of the proceeds of any judgment or settlement, the
9 court upon application shall order a fair and equitable
10 distribution of the proceeds of any judgment or settlement.

11 In any case in which an injured employee is entitled to
12 benefits from the Second Injury Fund for injuries occurring before
13 December 1, 1997, as provided in section 48-128 and recovery is had
14 against the third party liable to the employee for the injury, the
15 Second Injury Fund shall be subrogated to the rights of the
16 employee against such third party to the extent of the benefits due
17 to him or her or which shall become due to him or her from such
18 fund, subject to the rights of the employer and his or her insurer.

19 Sec. 2. Section 48-128, Reissue Revised Statutes of
20 Nebraska, is amended to read:

21 48-128. (1) For injuries occurring before December 1,
22 1997:

23 (a) If an employee who has a preexisting permanent
24 partial disability whether from compensable injury or otherwise,
25 which is or is likely to be a hindrance or obstacle to his or her
26 obtaining employment or obtaining reemployment if the employee
27 should become unemployed and which was known to the employer prior
1 to the occurrence of a subsequent compensable injury, receives a
2 subsequent compensable injury resulting in additional permanent
3 partial or in permanent total disability so that the degree or
4 percentage of disability caused by the combined disabilities is
5 substantially greater than that which would have resulted from the
6 last injury, considered alone and of itself, and if the employee is
7 entitled to receive compensation on the basis of the combined
8 disabilities, the employer at the time of the last injury shall be
9 liable only for the degree or percentage of disability which would
10 have resulted from the last injury had there been no preexisting
11 disability. For the additional disability, the employee shall be
12 compensated out of a special trust fund created for that purpose

13 which shall be known as the Second Injury Fund which is hereby
14 created. If the subsequent compensable injury of such an employee
15 shall result in the death of the employee and it shall be
16 determined that the death would not have occurred except for such
17 preexisting permanent partial disability, the employer shall pay
18 the compensation benefits prescribed by this ~~section~~ subsection for
19 a period not exceeding three hundred twenty-five weeks, and for any
20 compensation benefits payable after such period of three hundred
21 twenty-five weeks, the dependents shall be compensated out of the
22 fund.

23 ~~(2)~~ (b) In order to qualify under this ~~section~~
24 subsection, the employer must establish by written records that the
25 employer had knowledge of the preexisting permanent partial
26 disability at the time that the employee was hired or at the time
27 the employee was retained in employment after the employer acquired
1 such knowledge.

2 ~~(3)~~ (c) As used in this ~~section~~ subsection, preexisting
3 permanent partial disability shall mean any preexisting permanent
4 condition, whether congenital or the result of injury or disease,
5 of such seriousness as to constitute a hindrance or obstacle to
6 obtaining employment or to obtaining reemployment if the employee
7 should become unemployed. No condition shall be considered a
8 preexisting permanent partial disability under this ~~section~~
9 subsection unless it would support a rating of twenty-five percent
10 loss of earning power or more or support a rating which would
11 result in compensation payable for a period of ninety weeks or more
12 for disability for permanent injury as computed under subdivision
13 (3) of section 48-121.

14 ~~(4)~~ (2)(a) The Second Injury Fund shall be for the
15 purpose of making payments in accordance with subsection (1) of
16 this section and for paying administrative expenses relating to
17 such fund. The State Treasurer shall be the custodian of the fund,
18 and all money and securities in the fund shall be held in trust by
19 the State Treasurer and shall not be money or property of the
20 state. The fund shall be raised and derived as follows: Every
21 insurance company which is transacting business in this state shall
22 on or before March 1 of each year pay to the Director of Insurance
23 an amount equal to two percent of the workers' compensation
24 benefits paid by it during the preceding calendar year in this
25 state. Every risk management pool providing workers' compensation
26 group self-insurance coverage to any of its members shall on or
27 before March 1 of each year pay to the Director of Insurance an
1 amount equal to two percent of the workers' compensation benefits
2 paid by it during the preceding calendar year in this state but in
3 no event less than twenty-five dollars.

4 ~~(5)~~ (b) The computation of the amounts as provided in
5 this ~~section~~ subsection shall be made on forms furnished by the
6 Department of Insurance and shall be forwarded to the department
7 together with a sworn statement by an appropriate fiscal officer of

8 the company attesting the accuracy of the computation. The
9 department shall furnish such forms to the companies and risk
10 management pools prior to the end of the year for which the amounts
11 are payable together with any information relative to the amounts
12 as may be needed or desirable. Upon receipt of the payment, the
13 director shall audit and examine the computations and satisfy
14 himself or herself that the amounts have been properly paid in
15 conformity with this ~~section~~ subsection.

16 (6) (c) The Director of Insurance, after notice and
17 hearing pursuant to sections 44-2301 and 44-2312, may rescind or
18 refuse to reissue the license of any company which fails to remit
19 the amounts due in conformity with this ~~section~~ subsection.

20 (7) (d) The Director of Insurance shall remit the amounts
21 paid, in conformity with this ~~section~~ subsection, to the State
22 Treasurer for credit to the Second Injury Fund promptly upon
23 completion of his or her audit and examination, and in no event
24 later than May 1 of the year in which the amounts have been
25 received, except that when there is a dispute as to the amount
26 payable, the proceeds may not be deposited by the director with the
27 State Treasurer until disposition of the controversy. One percent
1 of the amount received shall be credited to the Department of
2 Insurance to cover the costs of administration.

3 (8) (e) Every employer in the occupations described in
4 section 48-106 who qualifies as a self-insurer and who is issued a
5 permit to self-insure shall furnish to the State Treasurer for the
6 benefit of the fund an annual amount equal to two percent of the
7 workers' compensation benefits paid by it during the preceding
8 calendar year in this state but in no event less than twenty-five
9 dollars.

10 (9) (f) The amounts required to be paid by the insurance
11 companies, risk management pools, and self-insurers under this
12 ~~section~~ subsection shall be in addition to any other amounts,
13 either in taxes, assessments, or otherwise, as required under any
14 other law of this state.

15 (10) (3)(a) The presiding judge of the Nebraska Workers'
16 Compensation Court shall be charged with the conservation of the
17 assets of the Second Injury Fund. In furtherance of this purpose
18 the Attorney General shall appoint a member of his or her staff to
19 represent the Second Injury Fund in all proceedings brought to
20 enforce claims for or against such fund.

21 (11) (b) The Department of Administrative Services shall
22 furnish monthly to the Nebraska Workers' Compensation Court a
23 statement of the Second Injury Fund setting forth the balance of
24 the fund as of the beginning of each month while such fund is in
25 existence, the income and its sources, the payments from such fund
26 in itemized form, and the balance of the fund on hand as of the
27 last day of the preceding month. The State Treasurer may receive
1 and credit to the fund any sum or sums which may at any time be
2 contributed to the state or the fund by the United States of

3 America or any agency thereof to which the state may be or become
4 entitled under any act of Congress or otherwise, by reason of any
5 payment made from the fund.

6 ~~(H2)~~ (c) When the fund equals or exceeds eight hundred
7 thousand dollars, no further contributions thereto shall be
8 required by employers, risk management pools, or insurance
9 carriers. Thereafter whenever the amount of the fund is reduced
10 below four hundred thousand dollars by reason of payments made
11 pursuant to this section or otherwise or whenever the presiding
12 judge of the Nebraska Workers' Compensation Court determines that
13 payments likely to be made from the fund in the next succeeding
14 year will probably cause the fund to be reduced below four hundred
15 thousand dollars, the presiding judge of the compensation court
16 shall notify all self-insurers and the Director of Insurance, who
17 shall notify all workers' compensation insurance carriers and risk
18 management pools, that such contributions are to be resumed as of
19 the date set in such notice and such contributions shall continue
20 as provided in this section after the effective date of such
21 notice. Such contributions shall continue until the fund again
22 equals eight hundred thousand dollars. Out of the Second Injury
23 Fund, the additional compensation payments shall be made to such
24 employee or dependent by the compensation court once each month in
25 the same manner as the salaries of the employees of the
26 compensation court are paid. In all cases when a claim is asserted
27 by the state on behalf of the Second Injury Fund against an
1 employer, employer's insurer, or risk management pool under this
2 section or when a claim is made against such fund, the State of
3 Nebraska shall be impleaded as a party plaintiff or defendant, as
4 the case may require, and when so impleaded as a defendant, service
5 of summons shall be had upon the Attorney General. It shall be the
6 duty of the Attorney General to act as attorney for the state.

7 ~~(H3)~~ (d) Any expenses necessarily incurred by the Second
8 Injury Fund or by the Attorney General on behalf of such fund in
9 any case when a claim is asserted by the state on behalf of the
10 Second Injury Fund against an employer, employer's insurer, or risk
11 management pool under this section or when a claim is made against
12 the Second Injury Fund may be paid out of such fund. Such expenses
13 may be taxed as costs and recovered by the Second Injury Fund in
14 any such case in which the Second Injury Fund prevails.

15 Sec. 3. Section 48-144.04, Reissue Revised Statutes of
16 Nebraska, is amended to read:

17 48-144.04. Any employer, risk management pool, or
18 insurance carrier who fails, neglects, or refuses to file any
19 report required of him or her by the Nebraska Workers' Compensation
20 Court shall be guilty of a Class II misdemeanor for each such
21 failure, neglect, or refusal. It shall be the duty of the Attorney
22 General to act as attorney for the state. In addition to the
23 penalty, where an employer, risk management pool, or insurance
24 carrier has been given notice, or the employer, risk management

25 pool, or the insurance carrier has knowledge, of any injury or
 26 death of an employee and fails, neglects, or refuses to file a
 27 report thereof, the limitations in sections 48-128 and section
 1 48-137 and for injuries occurring before December 1, 1997, the
 2 limitations in section 48-128 shall not begin to run against the
 3 claim of the injured employee or his or her dependents entitled to
 4 compensation or against the State of Nebraska on behalf of the
 5 Second Injury Fund, or in favor of either the employer, risk
 6 management pool, or the insurance carrier until such report shall
 7 have been furnished as required by the compensation court.
 8 Sec. 4. Original sections 48-128 and 48-144.04, Reissue
 9 Revised Statutes of Nebraska, and section 48-118, Revised Statutes
 10 Supplement, 1996, are repealed."

- 6 ethanol produced in Nebraska, which credit shall be in the form of
- 7 a nonrefundable transferable motor vehicle fuel tax credit
- 8 certificate. After July 1, 1994, no such credit shall be given for
- 9 ethanol produced at an ethanol facility which was in production on
- 10 or before January 1, 1992, unless on or before July 1, 1994, the

MESSAGES FROM THE GOVERNOR

May 27, 1997

Patrick J. O'Donnell
Clerk of the Legislature
State Capitol, Room 2018
Lincoln, NE 68509

Dear Mr. O'Donnell:

Engrossed Legislative Bills 546, 551, 636, 643, 740, 770, 856, 344, 256, 256A, 70, 372, 255, 853, 53, 273, 310, 310A, and 374 were received in my office on May 21, 1997.

These bills were signed by me on May 27, 1997, and delivered to the Secretary of State.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

May 27, 1997

Madam President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Madam President and Senators:

I am returning LB 255A with line item reductions. LB 255A appropriates \$98,100 for FY 97-98 and \$87,500 for FY 98-99 from the Highway Cash Fund, through the Roads Operations Cash Fund, to increase the railroad engineering staff capacity at the Nebraska Department of Roads. The proposed addition of two Engineer III positions would support implementation of the comprehensive safety program for highway-rail crossings provided in LB 255.

I applaud the Legislature for recognizing the importance of providing for safe and efficient highway travel across Nebraska's busy rail corridors. The livelihood of our communities and the vitality of the state's economy depend on meeting the challenges presented by increased rail and highway traffic. I have been an active partner in that process, beginning with the Nebraska Transportation Efficiency Project and following with the LB 265 Highway-Rail Crossing Safety Task Force study.

My reduction of \$43,750 for each year of the biennium leaves funding for one additional Engineer III position in support of this important new program. Expanding state government must always be the last resort, and the Department of Roads must implement the activities set forth in LB 255 as efficiently as possible.

I urge your support of this line item reduction.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

May 27, 1997

Madam President, Mr. Speaker and

Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Madam President and Senators:

I am returning LB 853A to you without my signature and with my objections. An increase in the salaries of the Nebraska Workers' Compensation Court Judges has not been approved through our budget process. I am reviewing all such salary increases for a potential veto.

The proposed increase to the Nebraska Workers Compensation Court Judges's salaries was not included in the budget, introduced as a bill nor has it had any public hearing. The Nebraska Workers' Compensation Court is subject to the jurisdiction of the state court system and the salaries of the judges are tied to the salaries of the Supreme Court. The Supreme Court has not reviewed nor agreed to this change. Since judicial salaries are changed with the court term there will be no salary increase until a new judge is appointed or until terms expire in January 1999. I will request that the reconvened Governor's Task Force on Workers Compensation Reform study the issue as a part of their review of the LB 757 (1993) changes this summer. Based on their recommendations I will either propose funding the increase in 1998 or changing the statutory provision back to the current language.

Judges currently earn \$80,659 annually and under LB 62A will receive increases of 3% and 4%. The change in LB 362A when added to the percentage increase in LB 853 would mean a salary of \$94,026 when any change in the court judges occurs or a 16.6% salary increase in two years or less.

I urge the members of the Legislature to sustain my veto.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

Sec. 20. For purposes of sections 19 to 24 of this act:

(1) Political subdivision means any city, village, county, metropolitan utilities district, or sanitary and improvement district; and

(2) Project means the purchase, construction, renovation, or expansion of a water supply or distribution facility with an estimated total cost of either five hundred thousand dollars or more or equivalent to ten percent or more of the total general fund expenditures of the city in the most current year available, whichever is greater, which would serve any territory or persons within or outside of the corporate boundaries of the city.

Sec. 21. (1) The governing body of the city shall formally adopt a resolution indicating its intent and authorizing the conduct of such engineering studies and the development of such plans or alternative proposals as are necessary to proceed with the development of the project. Any consultant that is employed to conduct such a study or develop such plans or proposals shall not enter into any other contract or maintain any other contractual relationship related to the project with such city other than with regard to such studies, plans, or proposals. The consultant shall identify potential alternatives to the proposed project with specific emphasis on whether or not it would be more cost efficient to enter into a cooperative effort with another political subdivision and shall review and report to the governing body on the feasibility and costs associated with the proposed project and all reasonable alternative proposals likely to meet the needs identified by the governing body as requiring the undertaking of the project.

(2) The resolution shall specify (a) the particular existing and future needs of the city and any surrounding areas which necessitate the proposed project, (b) the location or locations of the proposed project, (c) the physical boundaries of the area to be served by the project, (d) the proposed nature of the project and any possible alternative courses of action other than the proposed project which would meet the needs set forward, (e) the estimated cost of the project and of any other possible alternative courses of action, and (f) a description of how the project will be financed. The resolution shall also authorize the clerk of the city to advertise for requests for proposals to consultants to conduct the studies on the project.

24 Sec. 22. (1) The governing body of the city shall
25 receive the report of the consultant at a public meeting and copies
26 of the report shall be filed with the clerk of the city and made
27 available for review by the public during normal business hours.
1 At such meeting the governing body shall schedule a public hearing
2 to be held not sooner than twenty-one days following the date of
3 the receipt of the report. The governing body shall cause notice
4 of the public hearing to be published in a newspaper of general
5 circulation in the city at least once a week for two consecutive
6 weeks, the time of the hearing to be at least seven days following
7 the last date of publication. The notice shall describe the time,
8 date, place, and purpose of the hearing and shall specifically
9 identify the project and all reasonable alternatives reviewed in
10 the report. All interested parties shall be afforded at the public
11 hearing a reasonable opportunity to express their views respecting
12 the proposed project and the alternatives.

13 (2) The governing body shall cause copies of the original
14 resolution and the consultant's report to be transmitted to the
15 clerk of each political subdivision exercising jurisdiction over
16 territory or persons to be served by the proposed project or whose
17 residents would be responsible in any fashion to bear any portion
18 of the costs associated with the project. Such transmission shall
19 be accomplished within seven days after the date on which the
20 governing body receives the report.

21 Sec. 23. The city shall not undertake the project if,
22 within thirty days after the date upon which the governing body of
23 the city approves the project, a three-fifths majority of the
24 elected members of the governing body of any political subdivision
25 receiving notice as provided for in subsection (2) of section 22 of
26 this act votes to reject the project.

27 Sec. 24. If any political subdivision votes to reject
1 the project as provided in section 23 of this act, the governing
2 body of the city may call for the approval of the project to be
3 placed on the ballot of the next primary or general election or at
4 a special election to be called for that purpose. All registered
5 voters residing within the city and within all areas outside of the
6 corporate boundaries of the city identified by the governing body
7 as being the area to be served by the project shall be entitled to
8 vote on the matter. If a majority of the voters voting on the
9 matter at the election approve the project, the city may proceed to
10 undertake the project, notwithstanding the objections of the
11 political subdivision. If a majority of the voters voting on the
12 matter reject the project, the city shall not undertake the project
13 for a period of at least twelve calendar months after the date of
14 the election, and if the governing body at that time decides to

9 include within the corporate limits of such city or village any
10 contiguous or adjacent lands, lots, tracts, streets, or highways as
11 are urban or suburban in character, and in such direction as may be
12 deemed proper. Such grant of power shall not be construed as
13 conferring power to extend the limits of any municipality over any
14 agricultural lands which are rural in character.

15 (2) The mayor and city council of any city of the second
16 class or the chairperson and members of the board of trustees of
17 any village may, by ordinance, annex any lands, lots, tracts,
18 streets, or highways which constitute a redevelopment project area
19 so designated by the city or village or its community redevelopment
20 authority in accordance with the provisions of the Community

5 urban or suburban in character. Such annexation shall comply with
6 all other provisions of law relating to annexation generally for
7 cities of the second class and villages. The city or village shall
8 not, in consequence of the annexation under this subsection of any
9 noncontiguous land, exercise the authority granted to it by statute
10 to extend its jurisdiction beyond its corporate boundaries for

12 the agreement of any other city, village, or county currently
13 exercising such jurisdiction over the area surrounding the annexed
14 redemption project area. The annexation of any noncontiguous
15 land undertaken pursuant to this subsection shall not result in any
16 change in the service area of any electric utility without the
17 express agreement of the electric utility serving the annexed
18 noncontiguous area at the time of annexation, except that at such
19 time following the annexation of the noncontiguous area as the city

20 or village lawfully annexes sufficient intervening territory so as
 21 to directly connect the noncontiguous area to the main body of the
 22 city or village, such noncontiguous area shall, solely for the
 23 purposes of section 70-1008, be treated as if it had been annexed
 24 by the city or village on the date upon which the connecting
 25 intervening territory had been formally annexed.

26 (3) For the purposes of subsection (2) of this section,
 27 agricultural processing facility means a plant or establishment
 1 where value is added to agricultural commodities through
 2 processing, fabrication, or other means and where eighty percent or
 3 more of the direct sales from the facility are to other than the
 4 ultimate consumer of the processed commodities. A facility shall

- 2 "Section 1. Section 29-2204, Reissue Revised Statutes of
- 3 Nebraska, is amended to read:
- 4 29-2204. (1) Except when a term of life is required by
- 5 law, in imposing an indeterminate sentence upon an offender the
- 6 court shall:
- 7 (a) Fix the minimum and maximum limits of the sentence to
- 8 be served within the limits provided by law, ~~except that when a~~
- 9 ~~maximum limit of life is imposed by the court for a Class IB~~
- 10 ~~felony, the minimum limit may be any term of years not less than~~
- 11 ~~the statutory mandatory minimum but the minimum limit fixed by the~~
- 12 ~~court shall not be greater than one-third of the statutory maximum~~
- 13 ~~limit;~~
- 14 (b) Advise the offender on the record the time the
- 15 offender will serve on his or her minimum term before attaining
- 16 parole eligibility assuming that no good time for which the
- 17 offender will be eligible is lost; and
- 18 (c) Advise the offender on the record the time the
- 19 offender will serve on his or her maximum term before attaining
- 20 mandatory release assuming that no good time for which the offender

21 will be eligible is lost.

22 If any discrepancy exists between the statement of the
23 minimum limit of the sentence and the statement of parole
24 eligibility or between the statement of the maximum limit of the
1 sentence and the statement of mandatory release, the statements of
2 the minimum limit and the maximum limit shall control the
3 calculation of the offender's term. If the court imposes more than
4 one sentence upon an offender or imposes a sentence upon an
5 offender who is at that time serving another sentence, the court
6 shall state whether the sentences are to be concurrent or
7 consecutive.

8 (2)(a) When the court is of the opinion that imprisonment
9 may be appropriate but desires more detailed information as a basis
10 for determining the sentence to be imposed than has been provided
11 by the presentence report required by section 29-2261, the court
12 shall commit an offender to the Department of Correctional Services
13 for a period not exceeding ninety days. The department shall
14 conduct a complete study of the offender during that time,
15 inquiring into such matters as his or her previous delinquency or
16 criminal experience, social background, capabilities, and mental,
17 emotional, and physical health and the rehabilitative resources or
18 programs which may be available to suit his or her needs. By the
19 expiration of the period of commitment or by the expiration of such
20 additional time as the court shall grant, not exceeding a further
21 period of ninety days, the offender shall be returned to the court
22 for sentencing and the court shall be provided with a written
23 report of the results of the study, including whatever
24 recommendations the department believes will be helpful to a proper
25 resolution of the case. After receiving the report and the
26 recommendations, the court shall proceed to sentence the offender
27 in accordance with subsection (1) of this section. The term of the
1 sentence shall run from the date of original commitment under this
2 subsection.

3 (b) In order to encourage the use of this procedure in
4 appropriate cases, all costs incurred during the period the
5 defendant is held in a state institution under this subsection
6 shall be a responsibility of the state and the county shall be
7 liable only for the cost of delivering the defendant to the
8 institution and the cost of returning him or her to the appropriate
9 court for sentencing or such other disposition as the court may
10 then deem appropriate.

11 (3) Except when a term of life is required by law,
12 whenever the defendant was under eighteen years of age at the time
13 he or she committed the crime for which he or she was convicted,
14 the court may, in its discretion, instead of imposing the penalty
15 provided for the crime, make such disposition of the defendant as
16 the court deems proper under the Nebraska Juvenile Code.

17 Sec. 2. Except when a term of life is required by law,
18 in imposing an indeterminate sentence upon the offender, the court

19 shall:

20 (1) Fix the minimum and maximum limits of the sentence,
 21 but the minimum limit fixed by the court shall not be less than the
 22 minimum provided by law nor more than one-third of the maximum term
 23 and the maximum limit shall not be greater than the maximum
 24 provided by law;

25 (2) Impose a definite term of years, in which event the
 26 maximum term of the sentence shall be the term imposed by the court
 27 and the minimum term shall be the minimum sentence provided by law;

1 or

2 (3) When the court is of the opinion that imprisonment
 3 may be appropriate but desires more detailed information as a basis
 4 for determining the sentence to be imposed than has been provided
 5 by the presentence report, commit an offender to the department for
 6 a period not exceeding ninety days. For purposes of this section,
 7 offender shall mean both juveniles and adults. The department
 8 shall conduct a complete study of the offender during that time,
 9 inquiring into such matters as his or her previous delinquency or
 10 criminal experience, social background, capabilities, and mental,
 11 emotional, and physical health and the rehabilitative resources or
 12 programs which may be available to suit his or her needs. By the
 13 expiration of the period of commitment or by the expiration of such
 14 additional time as the court shall grant, not exceeding a further
 15 period of ninety days, the offender shall be returned to the court
 16 for sentencing and the court shall be provided with a written
 17 report of the results of the study, including whatever
 18 recommendations the department believes will be helpful to a proper
 19 resolution of the case. After receiving the report and the
 20 recommendations, the court shall proceed to sentence the offender
 21 in accordance with any applicable provision of law. The term shall
 22 run from the date of original commitment under this section. In
 23 order to encourage the use of this procedure in appropriate cases,
 24 all costs incurred during the period the defendant is held in a
 25 state institution under this subdivision shall be a responsibility
 26 of the state and the county shall be liable only for the cost of
 27 delivering the defendant to the institution and the cost of
 1 returning him or her to the appropriate court for sentencing or
 2 such other disposition as the court may then deem appropriate.

3 Sec. 3. Section 83-1,135, Revised Statutes Supplement,
 4 1996, is amended to read:

 Clerk of the Legislature's Office

ATTORNEY GENERAL'S OPINION

Opinion No. 97029

DATE: May 21, 1997

SUBJECT: Extent of Legislature's Power, Under Article VII,
 Section 1 of the Nebraska Constitution, to
 Provide for Free Instruction in the Common
 Schools

REQUESTED BY: Senator Floyd P. Vrtiska
Nebraska State Legislature

WRITTEN BY: Don Stenberg, Attorney General
Lauren L. Hill, Assistant Attorney General

You have requested an opinion from this office regarding the extent to which the Legislature is limited in exercising its duties under Article VII, Section 1 of the Nebraska Constitution. Specifically, the question you have posed is whether "Article VII or any other section of the Nebraska Constitution limit[s] the Legislature's power to establish the duties and obligations of local school boards or to restrict their authority to set budgets or levy taxes to provide the financial support for those budgets." As we have not been advised of any legislation prompting your inquiry, our response is necessarily broad and is not directed to specific legislation.¹ See Op. Att'y Gen. No. 96-003 (January 11, 1996); Op. Att'y Gen. No. 95-004 (January 18, 1995); and Op. Att'y Gen. No. 82-214 (March 15, 1982).

Pursuant to the Nebraska Constitution, the "Legislature shall provide for the free instruction in the common schools of this state of all persons between the ages of five and twenty-one years." Neb. Const. art. VII, § 1. Our analysis of this provision is governed by several canons of constitutional construction which have been adopted by the Nebraska Supreme Court. First, we are bound by the cardinal rule that the state Constitution must be applied and enforced as it is written. *State ex rel. Spire v. Conway*, 238 Neb. 766, 472 N.W.2d 403 (1991). Next, the provisions of the Constitution must be read as a whole. *Jaksha v. State*, 222 Neb. 690, 385 N.W.2d 922 (1986). Finally, because the Nebraska Constitution "is not a grant but, rather, a restriction on legislative power, . . . the Legislature is free to act on any subject not inhibited by the Constitution." *State ex rel. Stenberg v. Douglas Racing Corp.*, 246 Neb. 901, 905, 524 N.W.2d 61, 64 (1994); *State ex rel. Creighton University v. Smith*, 217 Neb. 682, 353 N.W.2d 267 (1984); *Cf. Lenstrom v. Thone*, 209 Neb. 783, 311 N.W.2d 884 (1981). In so acting, however, the court has established that "[t]he people of the state, by adopting a constitution, have put it beyond the power of the [L]egislature to pass laws in violation thereof." *State ex rel. Discussion

In accordance with these guidelines, we now address your inquiry. The

¹ In addition, this opinion is limited to a discussion of the Legislature's authority to structure school finance mechanisms. We do not address issues implicating the extent of the State Department of Education's authority to regulate local school districts on other matters. See Neb. Const. art. VII, § 2 - § 4.

supreme court has specifically determined that the Article VII, § 1 provision is not self-executing given that subsequent legislation was clearly necessary to carry the provision into effect. *State ex rel. Shineman v. Bd. of Education*, 152 Neb. 644, 42 N.W.2d 168 (1950). Therefore, the court has concluded that "the method and means to be adopted in order to furnish free instruction to the children of this state have been left by [Article VII, § 1] to the Legislature." *Id.* at 648, 42 N.W.2d at 170; *Affholder v. State*, 51 Neb. 91, 70 N.W. 544 (1897). The Legislature has elected to execute Article VII, § 1 by creating a statewide system of school districts which are governed at the local level.²

With regard to the powers and duties of local school districts, the supreme court has consistently held that "[a] school district in this state is a creature of statute and possesses no other powers than those granted by the Legislature." *School Dist. of Seward Educ. Ass'n v. School Dist. of Seward*, 188 Neb. 773, 779, 199 N.W.2d 752, 757 (1972) (quoting *State ex rel. School Dist. v. Bd. of Equalization*, 166 Neb. 785, 90 N.W.2d 421 (1958); see also *School Dist. of Waterloo v. Hutchinson*, 224 Neb. 665, 508 N.W.2d 832 (1993); *Banks v. Bd. of Educ. of Chase County*, 202 Neb. 717, 277 N.W.2d 76 (1979). Therefore, it is clear that "[t]he Legislature has plenary power and control over school districts, including provision for the appointment or election of governing bodies thereof. Consequently, [the Unicameral] may provide limitations on any authority to be exercised by a school board." *School Dist. of Seward Educ. Ass'n*, 188 Neb. at 779, 199 N.W.2d at 757; *Farrell v. School Dist. No. 54*, 164 Neb. 852, 84 N.W.2d 126 (1957).

"[T]he term 'free instruction' in right to education cases [is] pertinent to the issue of constitutionality of school financing, including collection of fees, tuition, and taxes." *Kolesnick v. Omaha Public School Dist.*, 251 Neb. 575, 581, ___ N.W.2d ___ (1997). The parameters within which the Legislature may act under Article VII, § 1 have been delimited in several supreme court decisions.

In *Peterson v. Hancock*, 155 Neb. 801, 54 N.W.2d 85 (1952), the court invalidated a legislative enactment which had sought to establish statutory incentives for consolidation or reorganization of local districts. The statutes at issue imposed a "blanket mill tax levy" on all taxable property located in elementary school districts, which levy was in addition to the regular school levy. *Id.* at 804-805, 54 N.W.2d at 88. Although most of the revenue raised by the blanket mill tax levy came from elementary school districts enrolling fewer than five students, only those districts which enrolled at least five students received revenues from the tax. *Id.* at 805-806, 54 N.W.2d at 89. In its review of that statutory finance formula, the *Peterson* court

² See *Gaddis v. School Dist.*, 92 Neb. 701, 139 N.W. 280 (1912), for an extensive history of the creation and variation of public school districts from 1855 through 1912.

acknowledged the Unicameral's broad authority under Article VII, § 1, but also determined that when enacting legislation under that provision, "the Legislature is of course restrained by other related limitations of the Constitution." *Id.* at 810, 54 N.W.2d at 91. After analyzing the finance formula, the court concluded that application of the formula under review (1) produced a commutation of taxation in some school districts, in violation of Article VIII, § 4 of the Nebraska Constitution; and (2) was not levied uniformly, and, thus, violated Article VIII, § 1 of the Constitution. *Id.* at 812, 814, 54 N.W.2d at 92-93.

In *Gould v. Orr*, 244 Neb. 163, 506 N.W.2d 349 (1993), a family whose children attended the Raymond Central School District, attempted to challenge the state school finance formula which existed prior to the 1990 enactment of LB 1059 on the basis that the formula denied them equal protection of the law, equal educational opportunities, and the right to uniform and proportionate taxation. *Id.* at 164, 506 N.W.2d at 350. While the dispute was ultimately resolved on procedural grounds, the court determined that an unequal method of financing a school district's instruction budget is not a per se violation of Article VII, § 1. *Id.* at 169, 506 N.W.2d at 353.

More recently, in *Swanson v. State*, 249 Neb. 466, 544 N.W.2d 333 (1996), the court assessed a challenge to the "common levy" financing mechanism which resulted from the 1993 enactment of LB 839. At issue were the plaintiff's claims that (1) the common levy constituted a commutation of property tax, in violation of Neb. Const. art. VIII, § 4; (2) that the levy was nonuniform and, thus, in violation of Neb. Const. art. VIII, § 1; (3) that the levy created a state property tax, in violation of Article VIII, § 1A; and (4) that the common levy constituted "special legislation," in violation of Article III, § 18. *Id.* at 468, 544 N.W.2d at 336.

In reviewing the plaintiff's Article VIII, § 4 challenge, the court reaffirmed the principle that an impermissible commutation of taxes occurs "when tax funds raised in one [school] district are diverted entirely to the benefit of another [school] district." *Id.* at 471, 544 N.W.2d at 337 (citing *State ex rel. School Dist. v. Ellis*, 160 Neb. 400, 70 N.W.2d 320 (1955); *State ex rel. Groves v. School Dist.*, 101 Neb. 263, 162 N.W. 640 (1917)). The court, however, did not find the "common levy" financing method to be violative of the Article VIII, § 4 proscription against commutation of taxes. 249 Neb. at 472-474, 544 N.W.2d at 338-339. Specifically, the court determined that "[a] tax levy does not equal a commutation merely because the taxing district is broadened to reflect the actual benefits to the public. So long as all taxpayers receive the benefit of the taxes they remit, the taxing district passes constitutional muster without offending the prohibition against commutation." *Id.* at 474, 544 N.W.2d at 339.

The court also rejected the plaintiff's uniformity clause challenge as being without merit given that, by its very definition, the common levy taxed all Class I school districts at the same rate. *Id.* at 475, 544 N.W.2d at 339.

With regard to the plaintiff's third claim, the court reiterated that "[t]he State cannot . . . avoid or circumvent [the Article VIII, § 1A prohibition against creation of a state property tax] by converting the traditional state functions into local functions supported by property taxes." *Id.* at 476, 544 N.W.2d at 340. Given that nothing in the common levy tax formula granted state control over individual school district budget decisions, the court rejected Swanson's state property tax challenge. The court further rejected the plaintiff's Article III, § 18 challenge and, ultimately, upheld the "common levy" financing formula. *Id.* at 480, 544 N.W.2d at 342.

Based upon the supreme court's interpretation of Article VII, § 1 in these cases, it is clear that the Legislature has full plenary authority over local school districts. In enacting legislation pursuant to Article VII, § 1, the Unicameral must comply with other limits imposed upon it by the Nebraska Constitution.

Sincerely,
DON STENBERG
Attorney General

5 excluding a person from certain premises issued pursuant to section
6 42-357, or a violation of a valid foreign protection order

8 under section 42-924 or 42-925, ~~or~~ an applicant for an order
9 excluding a person from certain premises issued pursuant to section
10 42-357, or a person protected under a valid foreign protection
11 order recognized pursuant to section 13 of this act provides the

20 state.

21 (2) A valid foreign protection order related to domestic
22 or family violence issued by a court of another state, tribe, or
23 territory shall be valid if the issuing court had jurisdiction over
24 the parties and matter under the law of such state, tribe, or
25 territory and the adverse party was given reasonable notice and an
26 opportunity to be heard sufficient to protect the adverse party's
27 right to due process before the order was issued. There is a
1 presumption in favor of the validity of the foreign protection
2 order when the order appears authentic on its face.

3 (3) A peace officer may rely upon a copy of any putative
4 valid foreign protection order which has been provided to the peace
5 officer by any source and may also rely upon the statement of any
6 person protected by the putative valid foreign protection order
7 that the order is in effect. A peace officer acting in good faith
8 shall be immune from civil and criminal liability in any action
9 arising in connection with a court's finding that the putative

11 Sec. 14. Original sections 42-901, 42-902, 42-918 to
12 42-924, 42-927, and 42-928, Reissue Revised Statutes of Nebraska,

SELECT FILE

LEGISLATIVE BILL 798. The Witek-Crosby-McKenzie pending amendment, AM1437, found on page 1499 and considered in this day's Journal, was renewed.

Mmes. Witek and McKenzie renewed their pending amendment, AM1989, printed separately and referred to on page 1875, to the Witek-Crosby-McKenzie pending amendment.

Mrs. Robak asked unanimous consent to be excused until she returns. No objections. So ordered.

Mr. Withem requested a ruling of the Chair on whether the amendment, AM1989, is properly before us as an amendment to AM1437.

The Chair ruled the Witek-McKenzie amendment, AM1989, is out of order as an amendment to AM1437.

Mrs. Witek offered a modified version of AM1989, which struck the entire contents of AM1437, and inserted the sections of AM1989, to AM1437.

The Chair ruled the modified Witek amendment is out of order as an amendment to AM1437, because the rules preclude a member from doing indirectly that which cannot be done directly.

Mrs. Witek challenged the ruling of the Chair. The question is, "Shall the Chair be overruled?"

Mrs. Witek moved for a call of the house. The motion prevailed with 15 ayes, 0 nays, and 34 not voting.

The Witek motion to overrule the Chair failed with 2 ayes, 27 nays, 14 present and not voting, and 6 excused and not voting.

MESSAGES FROM THE GOVERNOR

May 28, 1997

Patrick J. O'Donnell
Clerk of the Legislature
State Capitol, Room 2018
Lincoln, NE 68509

Dear Mr. O'Donnell:

Engrossed Legislative Bill 385 was received in my office on May 22, 1997.

This bill was signed by me on May 28, 1997, and delivered to the Secretary of State.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

May 28, 1997

Madam President, Mr. Speaker,
and Members of the Legislature
State Capitol Building

Lincoln, NE 68509

Dear Madam President and Senators:

With this letter, I am returning LB 384 with specific line-item reductions. The General Fund veto amounts for the biennium total \$479,676.

By action of the Judicial Resources Commission, decisions were made that a vacant District Court Judge position and a vacant County Court Judge position should not be refilled in existing judicial districts. Lacking a decision to refill or transfer these vacant positions at the current time, there is no need to provide excess appropriations to Programs 6 and 7 of the Supreme Court.

The Legislature has also recently budgeted retired judges' salaries as a separate line item for tracking purposes. Since the use of retired judges is based primarily on providing temporary assistance to those courts with vacancies, no additional funding is required by the Legislature. LB 384, as introduced, would allow vacancy savings from the various judicial constitutional officer salary programs to be transferred for payment of retired judges' salaries without requiring the Legislature to appropriate new funds. This language can be added to Program 5 in next year's deficit bill.

I urge your support in providing only those funds that are necessary and in sustaining these vetoes.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

May 28, 1997

Madam President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, NE 68509

Dear Madam President and Senators:

With this letter, I am returning LB 388 with specific line-item reductions. Veto amounts include \$123,414 General Funds and \$34,957 Federal Funds for a total of \$158,371.

Eighty-five percent of the deficit salary funding requested for court operations and state probation has been left intact. The remaining amounts of \$15,000 General Funds for court operations and \$45,000 General Funds for state probation have been vetoed and should be managed within current year appropriations.

A veto of \$36,748 General Funds for the Enrollment Option Transportation program is included. The Department of Education should be able to manage this cost within existing appropriations and fully pay all projected claims. Consistent with the intent of paying all claims, the program earmark has not been vetoed.

In addition, \$26,666 General Funds and \$34,957 Federal Funds have been vetoed from the Department of Education relative to accrued benefits for retiring and transferred employees. These costs should be absorbed within the context of a relatively large program budget.

I am not reducing the \$350,000 General Funds which were added to the Legislative Council for Phases I and II of LR 455--Public Power Industry Study. This appropriation for FY 1996-97 in part is for expenses already incurred and paid, but is mainly for expenses to be incurred in the next biennium. While I have not vetoed this appropriation, I remain concerned about the manner in which the financing for this study has been approached and continues to be managed. I urge a strict public accounting for the use of these funds.

I urge your support in sustaining these vetoes.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

May 28, 1997

Madam President, Mr. Speaker
and Members of the Legislature
State Capitol Building
Lincoln, NE 68509

Dear Madam President and Senators:

With this letter, I am returning LB 389 with line-item reductions. Vetoes contained in this bill total \$29,208,405 for the 1997-1999 biennium. Consistent with my budget recommendations which were presented to you at the beginning of the session, I continue to emphasize the need to constrain the growth of government, emphasize efficiency, and hold state agencies accountable for the management of the resources with which they have been entrusted. The need for constraint extends beyond just state tax dollars and includes all fund sources. Whether taxpayers are being assessed at the federal or the state level, or through collection of fees for various services, they expect government to respect how hard they have worked to earn those dollars.

A listing of the individual vetoes is attached, including a total General Fund reduction of \$6,934,554 in FY 1997-98 and \$9,671,311 in FY 1998-99. Other reductions total \$1,309,626 Cash Fund, \$3,124,436 Federal Fund, and \$244,500 Revolving Fund in FY 1997-98 and \$2,224,122 Cash Fund, \$5,336,452 Federal Fund, and \$363,404 Revolving Fund in FY 1998-99.

A total of \$24.7 million was included in the budget above my recommendation to increase reimbursement rates for services for the developmentally disabled. I have reduced the General Fund amount by \$3.3 million over the biennium and the federal commitment by \$2.9 million. The \$17.6 million increase which remains will enable providers to reflect the state's salary policy in their agreements with their employees and will

continue a consistent advancement in the level at which services are reimbursed.

The \$5 million increase for mental health services has been reduced by \$2.5 million in the second year of the biennium. The \$236,000 in General Funds which was added for mental health services for Native Americans is not reduced. By making additional funds available in the first year of the biennium, I expect mental health service providers and the Health and Human Services agencies to move forward in a collaborative manner with the mental health redesign effort in a carefully articulated manner. These funds should be used over the biennium to assist with transition and start-up costs for the development of additional wrap-around services which will allow people to receive the least restrictive level of care necessary and go on to lead productive lives in their own communities. By fiscal year 1998-99, I will reexamine the progress in this area, with the expectation that funds can be redirected from services which may be more acute than necessary to the type and level of support most appropriate for mental health clients.

Of the \$1.8 million which was added for services for the aging, I have reduced \$1.1 million from the aging services budget program, leaving in place an increase of \$763,225 for care management for the frail elderly in our state. By recognizing the increased level of support needed for care management, we will allow Area Agencies on Aging the flexibility needed to redirect discretionary funds back to the provision of community services. This action provides the support necessary to continue programs and address waiting lists until an interim study can be completed which reexamines the distribution of funding statewide for community aging services.

Vetoes at the Department of Correctional Services include the striking of \$759,136 General Funds over the biennium for security staffing to match projected staffing needs with the increasing inmate population. After vetoes, there still remains increased security funding of \$1,631,539 General Funds in FY 1997-98 and \$2,364,491 General Funds in FY 1998-99.

You have recognized and built on our goal of building strong University, State College, and Community College Systems. In LB 389, the Community Colleges are funded at my recommended level, which provides over \$3.3 million in additional General Funds for the coming Biennium. For the State Colleges, you have provided almost \$1.3 million added General Funds above my recommendation, while at the University over \$8.2 million in General Funds are added over the level in my original budget. Some of these additions are necessary, based on more recent information which became available during your deliberations. Health insurance premium increases, retirement plan contribution adjustments, and additional operating costs approved by the Coordinating Commission for Postsecondary Education (CCPE) are some examples.

The full magnitude of your upward adjustments, however, cannot be funded. I have, therefore, reduced nearly \$2.8 million of the General Fund addition at the University and over \$400,000 of the additional General Funds at the State Colleges for the biennium.

You added over \$433,000 in General Funds above my recommendation for the Nebraska Educational Telecommunications Commission budget for the biennium. Included in this amount were two employee positions above

my recommendation. I have reduced the proposed General Fund appropriation by the equivalent of these two positions, which totals \$105,162 for the biennium.

I have reduced the state funding for the Historical Society's Gerald R. Ford Conservation Center by \$150,000 over the biennium. The remaining \$250,000 in General Funds should encourage the Society to seek enhanced private support to uphold the public/private partnership envisioned at the facility's inception.

In the Department of Education, the increased funding for vocational rehabilitation has been eliminated. My recommendation called for continued funding in this program. An additional \$125,000 each year is maintained for aid to early childhood education projects.

You included increases of \$300,000 for Aid to the Arts and \$80,250 for Aid to the Humanities over the biennium. I have reduced the Arts aid to \$150,000 and the Humanities aid to \$40,126. These additional funds will help to further cultivate appreciation for the arts and humanities in the state.

Additional funding of \$500,000 each year at the Nebraska Library Commission for public library aid has been reduced to my recommended level. The large increase is more than I can support at this time.

My veto eliminates the special salary funding request for state probation, to be consistent with how other state agencies have been treated. State Probation needs to exercise financial oversight and manage its personnel resources within the approved budget.

Finally, \$3,903,573 in smaller General Fund reductions were made, along with \$3,533,748 Cash Fund, \$4,047,731 Federal Fund, and \$607,904 Revolving Fund adjustments for the biennium. These reductions are consistent with my emphasis on containing the growth of government.

My vetoes in LB 389 make it possible to hold the line on spending measures contained in the mainline budget and allow for some of the spending you have yet to forward to my desk. I urge you to sustain these vetoes in LB 389 to permit consideration of your additional priority measures.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

17 obligations or securities described in this subsection or the

2 dividends received or deemed to be received from corporations which
1 are not subject to the Internal Revenue Code.

 4 a portion of the income earned by a corporation subject to the
 5 Internal Revenue Code of 1986 that is actually taxed by a foreign
 6 country or one of its political subdivisions at a rate in excess of
 7 the maximum federal tax rate for corporations. The taxpayer may
 8 make the computation for each foreign country or for groups of
 9 foreign countries. The portion of the taxes that may be deducted
 10 shall be computed in the following manner:

11 (a) The amount of federal taxable income from operations
 12 within a foreign taxing jurisdiction shall be reduced by the amount
 13 of taxes actually paid to the foreign jurisdiction that are not
 14 deductible solely because the foreign tax credit was elected on the
 15 federal income tax return;

16 (b) The amount of after-tax income shall be divided by
 17 one minus the maximum tax rate for corporations in the Internal
 18 Revenue Code; and

19 (c) The result of the calculation in subdivision (b) of
 20 this subsection shall be subtracted from the amount of federal
 21 taxable income used in subdivision (a) of this subsection. The
 22 result of such calculation, if greater than zero, shall be
 23 subtracted from federal taxable income.

24 (7) Federal adjusted gross income shall be modified to
 25 exclude any amount repaid by the taxpayer for which a reduction in
 26 federal tax is allowed under section 1341(a)(5) of the Internal

 2 subtracted from federal adjusted gross income an amount equal to
 3 the difference between the amount qualified for calculation of a

 5 Code and the amount actually allowed pursuant to section 162(l)(1)
 6 of the Internal Revenue Code.

7 (b) For an individual who itemized deductions on his or
 8 her federal return, the maximum amount subtracted under subdivision
 9 (8)(a) of this section shall be seven and one-half percent of

 18 return. For tax year 1993, the credit amount shall be sixty-five
 19 dollars; for tax year 1994, the credit amount shall be sixty-nine
 20 dollars; for tax year 1995, the credit amount shall be sixty-nine
 21 dollars; for tax year 1996, the credit amount shall be seventy-two
 22 dollars; for tax year 1997, the credit amount shall be ~~seventy-six~~
 23 eighty-six dollars; for tax year 1998, the credit amount shall be

26 by the method provided in section 151 of the Internal Revenue Code
27 of 1986, as amended. The sixty-five-dollar credit amount shall be
1 adjusted for cumulative inflation since 1993. If any credit amount
2 is not an even dollar amount, the amount shall be rounded to the
3 nearest dollar. The amount allowed for each personal exemption
4 shall be reduced, but not below zero, by five dollars for each five
5 thousand dollars, or portion thereof, that federal adjusted gross
6 income exceeds ninety thousand dollars for married filing joint
7 returns, fifty-four thousand dollars for single returns,
8 seventy-five thousand dollars for head-of-household returns, and
9 for married filing separate returns, one-half the amount stated in
10 this subsection for married filing joint returns. For nonresident
11 individuals and partial-year resident individuals, the personal
12 exemption credit shall be subtracted as specified in subsection (3)
13 of section 77-2715. For tax year 1994 and each tax year
14 thereafter, the income levels stated in this subsection shall be
15 adjusted for inflation by the method provided in section 151 of the
16 Internal Revenue Code of 1986, as amended. If any income level in
17 this subsection is not a multiple of one thousand dollars, the
18 amount shall be rounded to the next highest multiple of one
19 thousand dollars.

20 (2) Every individual who did not itemize deductions on
21 his or her federal return shall be allowed to subtract from federal
22 adjusted gross income a standard deduction equal to the federal
23 standard deduction for the filing status used on the federal return
24 except as the amount is adjusted under section 77-2716.03.

25 (3) Every individual who itemized deductions on his or
26 her federal return shall be allowed to subtract from federal
27 adjusted gross income the greater of either the standard deduction
1 allowed in subsection (2) of this section or the amount before the
2 federal disallowance of his or her federal itemized deductions,
3 except for the amount deducted on the federal return for state or
4 local income taxes paid and the amount of any adjustment required
5 under section 77-2716.03.

LEGISLATIVE BILL 729A. Placed on Select File.

(Signed) Jon C. Bruning, Chairperson

ATTORNEY GENERAL'S OPINION

Opinion No. 97031

DATE: May 28, 1997

SUBJECT: Whether § 253(a) of the Telecommunications Act of 1996, Which Prohibits State or Local Statutes or Regulations Prohibiting Entities from Providing Interstate or Intrastate "Telecommunications Service", Prevents the Legislature from Barring Public Power Districts from Providing Community Antenna Television Service.

REQUESTED BY: Senator Jennie Robak
Nebraska State Legislature

WRITTEN BY: Don Stenberg, Attorney General
L. Jay Bartel, Assistant Attorney General

You have requested our opinion on a question pertaining to the interpretation of the Telecommunications Act of 1996, Pub. L. No. 104-104, 110 Stat. 56 (1996) (to be codified in pertinent part at 15 U.S.C. § 792-5c and 47 U.S.C. §§ 151 to 614 [the "Act"]). Your specific question concerns §

253(a) of the Act, which provides that "[n]o State or local statute or regulation, or other local legal requirement, may prohibit or have the effect of prohibiting the ability of any entity to provide any interstate or intrastate telecommunications service." Presently, public power districts in Nebraska are prevented from providing community antenna television [i.e. "cable" television] service in areas where cable television service is available from entities holding franchises issued pursuant to Neb. Rev. Stat. §§ 18-2201 to 18-2206 (1991) or permits issued under Neb. Rev. Stat. § 23-283 to 23-388 (1991) on April 24, 1987. Neb. Rev. Stat. § 70-625 (1996). You note that you submitted an amendment to LB 660, an act pending before the Legislature "relating to telecommunications", proposing to amend the bill to delete the present statutory restriction which precludes public power districts from engaging in the business of providing cable television service. (AM1650). Your question is whether the preemptory provision contained in § 253(a) of the Act is applicable to providers of cable television service.

"Interpretation of a statute must begin with the statute's language." **Mallard v. U.S. Dist. Court for the Southern Dist. of Iowa**, 490 U.S. 296, 300 (1989); accord **Pennsylvania Dept. of Public Welfare v. Davenport**, 495 U.S. 552 (1990). In construing statutes, the U.S. Supreme Court has stated that it will "begin with the language of the statute and ask whether Congress has spoken on the subject before [it]; 'if the intent of Congress is clear, that is the end of the matter, for the court. . . must give effect to the unambiguously expressed intent of Congress.'" **Norfolk and Western Ry. Co. v. American Train Dispatchers Ass'n**, 499 U.S. 117, 128, (1991) (quoting **Chevron U.S.A., Inc. v. Natural Resources Defense Council, Inc.**, 467 U.S. 837, 842-43 (1984)).

The Act made substantial changes to Title 47, Chapter 5 of the United States Code, pertaining to "Wire or Radio Communications." One author summarizing the impact of the Act has stated:

The passage of the bill officially launched a new era of telecommunications in the United States. The Telecommunications Act of 1996 proposes to increase competition and advance technology within the communications industry, and to lower prices and provide more choices for consumers. This Act, encompassing the first major change in the telecommunications industry since the Communications Act of 1934, addresses the new world of information of technology and industry advancements.

Cook, Catherine, **Legislative Summary: The Telecommunications Act of 1996**, 6 DePaul LCA J. Art & Ent. L. 237 (Spring 1996).

Among the changes was the enactment of § 253, entitled "Removal of barriers to entry." Subsection (a) of § 253 provides:

No State or local statute or regulation, or other State or local legal requirement, may prohibit or have the effect of prohibiting the ability

of any entity to provide any interstate or intrastate telecommunications service. (emphasis added).

The Act defines "telecommunications service" as "the offering of telecommunications for a fee directly to the public, or to such classes of users as to be effectively available directly to the public, regardless of the facilities used." 47 U.S.C. § 153(46). (emphasis added). The term "telecommunications" is defined to mean "the transmission between or among points specified by the user, of information of the user's choosing, without change in the form or content of the information as sent and received." 47 U.S.C. § 153(43).

By its plain terms, § 253(a) of the Act applies only to prohibit state or local statutes or regulations which prohibit entities from providing interstate or intrastate "telecommunications service." The Act specifically defines "telecommunications," and "telecommunications service," to relate to the transmission of information by the user of the service between or among points specified by the user. These definitions simply are not applicable to the provision of "cable" television service, as that term is commonly understood.

Indeed, the distinction between "cable" television service, and "telecommunications service," as used in § 253(a), was recognized by Congress. Federal statutes governing "Cable Communications" are contained in a separate subchapter of Chapter 5 of Title 47, "subchapter V-A." Subparagraph (6) of the definitional provision of this Subchapter, 47 U.S.C. § 522, provides that

the term "cable service" means--

(A) the one-way transmission to subscribers of (i) video programming, or (ii) other programming service, and

(B) subscriber interaction, if any, which is required for the selection or use of such video programming or other programming service; . .

The general definitional section of the Act provides the term " 'cable service' has the meaning given such term in section 522 of this title." 47 U.S.C. § 153(7).

Thus, we believe it is clear that Congress understood, and intended to make, a distinction between "telecommunications service" and "cable service" in enacting § 253(a), which preempts state or local statutes or regulations barring the ability of entities to provide interstate or intrastate "telecommunications service." Had Congress intended to broaden the scope of the prohibition in § 253(a), or to otherwise add to the Act a separate provision including similar language governing cable television service providers, it could have done so. It did not.

In sum, it is our opinion that the prohibition in § 253(a) of the Act, barring state or local statutes or regulations which prohibit entities from providing "interstate or intrastate telecommunications service", has no application to state or local regulations governing the provision of "community antenna" [i.e. "cable"] television service. We therefore conclude that § 253(a) does not, by its plain terms, have any application to that portion of § 70-625 which generally prohibits public power districts from engaging in business as providers of cable television service.

Very truly yours,
DON STENBERG

Messrs. Wickersham and Bromm filed the following amendment to LB 710:
 AM2488

- 1 1. Insert the following new section:
 2 "Sec. 3. Section 38, Legislative Bill 806, Ninety-fifth
 3 Legislature, First Session, 1997, is amended to read:
 4 For school fiscal year 1998-99 and each school fiscal
 5 year thereafter:
 6 (1) Except as provided in section 79-1011 for reorganized
 7 districts which become reorganized districts on or before June 30,
 8 2005, and except as provided in subdivision (2) of this section,
 9 sections 79-1009 and 79-1010, and section 39 of this act, each
 10 local system shall receive equalization aid in the amount that the
 11 total formula need of each local system, as determined pursuant to
 12 section 79-1014 and sections 35 and 36 of this act, exceeds its
 13 total formula resources as determined pursuant to sections 79-1016
 14 and 79-1017 and sections 45, 48, and 50 of this act.
 15 (2) Except as provided in section 39 of this act, a local
 16 system shall not receive state aid for school fiscal year 1998-99
 17 and each school fiscal year thereafter which is less than an amount
 18 equal to the difference of eighty-five percent of the amount of aid
 19 certified in the preceding school fiscal year minus an amount equal
 20 to any increase in the adjusted valuation between the adjusted
 21 valuation used for the certification of aid in the preceding school
 22 fiscal year and the adjusted valuation used for the aid being
 23 calculated multiplied by the maximum levy pursuant to subdivision
 24 (2)(a) of section 77-3442 without a vote pursuant to section
 1 77-3444.
 2 (3) Except as provided in subsection (2) of this section,
 3 no local system may receive equalization aid such that, when total
 4 aid is added to a levy of one dollar for state aid to be
 5 distributed in school fiscal years 1998-99 and 1999-2000 or of
 6 ninety cents for state aid to be distributed in school fiscal year
 7 2000-01 and each school fiscal year thereafter, multiplied by the
 8 local system's adjusted valuation divided by one hundred, would
 9 result in total local system revenue from state aid plus property
 10 tax receipts which exceeds the total of:
 11 (a) State aid plus property tax receipts received by the
 12 local system during the preceding school fiscal year multiplied by
 13 the total of (i) 1.01 plus (ii) the applicable allowable growth
 14 rate for the system calculated pursuant to section 79-1026 plus
 15 (iii) the percentage growth in formula students from the

24 state aid in the preceding school fiscal year and other actual
25 receipts included in district formula resources for the
26 certification of state aid for the current school fiscal year,
27 except that such difference shall not be less than zero.

1 For districts that have reorganized, state aid, property
2 tax receipts, and number of formula students shall be attributed
3 based on valuation. The revenue from property tax receipts shall
4 be calculated by multiplying the reported general fund common levy
5 by the assessed valuation subject to the levy divided by one
6 hundred.

7 (4) The aid that is not distributed through equalization
8 based on subdivision (3) of this section shall be distributed
9 through this subdivision. Local systems that qualify for
10 distribution shall have nine hundred or less formula students and
11 shall have adjusted general fund operating expenditures per formula
12 student less than the average for all local systems with nine
13 hundred or less formula students. The aid shall be distributed
14 proportionally to qualifying districts based on the dollar amount
15 each local system's calculated state aid plus the product of a levy
16 of one dollar and ten cents multiplied by the ~~adjusted~~ assessed
17 valuation divided by one hundred is below ninety percent of state
18 aid plus property tax receipts received by the local system during
19 the preceding school fiscal year multiplied by the total of 1.01
20 plus the applicable allowable growth rate for the system calculated
21 pursuant to section 79-1026 plus the percentage growth in formula
22 students from the certification of state aid for the immediately
23 preceding school fiscal year to the formula students for the

26 between the other actual receipts included in district formula
27 resources for the certification of state aid in the preceding
1 school fiscal year and other actual receipts included in district
2 formula resources for the certification of state aid for the
3 current school fiscal year, except that such difference shall not
4 be less than zero. No system shall receive aid pursuant to this
5 subdivision such that the calculated state aid plus the product of
6 a levy of one dollar and ten cents multiplied by the ~~adjusted~~
7 assessed valuation divided by one hundred is ninety percent or more
8 of state aid plus property tax receipts received by the local
9 system during the preceding school fiscal year multiplied by the
10 total of 1.01 plus the applicable allowable growth rate for the

11 system calculated pursuant to section 79-1026 plus the percentage
 12 growth in formula students from the certification of state aid for
 13 the immediately preceding school fiscal year to the formula
 14 students for the certification of state aid for the current year,
 15 except that the percentage growth shall not be less than zero, and

MOTION - Return LB 476 to Select File

Mr. Kristensen moved to return LB 476 to Select File for the following specific amendment:
AM2600

(Amendments to Final Reading copy)

1 1. Strike the original sections and insert the following
2 new sections:
3 "Section 1. Section 85-1,125, Reissue Revised Statutes
4 of Nebraska, is amended to read:
5 85-1,125. The Legislature finds that the State of
6 Nebraska should have a commitment to providing access to the
7 University of Nebraska for Black, American Indian, and Hispanic
8 minority students and that the financial requirements of
9 postsecondary education usually represent major obstacles to such
10 students because of the lack of financial resources available to
11 them.
12 This commitment was evidenced by the adoption of
13 Legislative Resolution 97, Ninety-first Legislature, First Session,
14 1989, and the appropriation of funds by Laws 1989, LB 813, section
15 53, for the Board of Regents of the University of Nebraska, to
16 establish an endowed scholarship program in accordance with such

17 resolution.

18 Funds appropriated by the Legislature for such
19 scholarship program shall be held, managed, and invested as an
20 endowed scholarship fund in such manner as the board shall
21 determine and as authorized by section 72-1246. The income from
22 the endowed scholarship fund shall be expended for such
23 scholarships.

1 The purpose of such endowed scholarship fund shall be to
2 provide total or partial undergraduate scholarships of tuition,
3 fees, board, room, and books at all campuses of the University of
4 Nebraska to full-time undergraduate students from Black, American
5 Indian, and Hispanic minority groups which are underrepresented in
6 the student population at the University of Nebraska and who cannot
7 afford such educational expenses due to lack of financial resources
8 available to them.

9 Such scholarship program shall be implemented as a
10 temporary measure for the purpose of eliminating the statistical
11 disparity between the representation of full-time Black, American
12 Indian, and Hispanic minority students in the undergraduate student
13 population of the University of Nebraska and the representation of
14 such minority students in the student population of the primary and
15 secondary schools of this state and for the purpose of developing a
16 more racially diverse student body at the University of Nebraska.

17 It is the intent of the Legislature that funds
18 appropriated to the board for such scholarship program be used in
19 coordination with private donations for scholarships and federal
20 grant funds available to minority students at the University of
21 Nebraska.

22 Sec. 2. Section 85-9,145, Reissue Revised Statutes of
23 Nebraska, is amended to read:

24 85-9,145. Eligible postsecondary educational institution
25 shall mean a not-for-profit institution not controlled or
26 administered by any state agency or any political subdivision of
27 the state which is:

- 1 (1) Located in Nebraska;
- 2 (2) Primarily engaged in instruction of students;
- 3 (3) Accredited by ~~an~~ a regional accrediting organization
- 4 recognized by the United States Department of Education; and
- 5 (4) Offering courses and programs of instruction leading
- 6 to an associate or baccalaureate degree to regularly enrolled
- 7 undergraduate students who reside in Nebraska and have received
- 8 high school diplomas or their equivalent.

9 Sec. 3. Original sections 85-1,125 and 85-9,145, Reissue
10 Revised Statutes of Nebraska, are repealed.

11 Sec. 4. Since an emergency exists, this act takes effect
12 when passed and approved according to law."

13 2. On page 1, strike beginning with "the" in line 1
14 through line 5 and insert "postsecondary educational institutions;
15 to amend sections 85-1,125 and 85-9,145, Reissue Revised Statutes

16 of Nebraska; to change a provision relating to minority group
17 scholarships; to redefine a term; to repeal the original sections;
18 and to declare an emergency."

MESSAGE FROM THE GOVERNOR

June 3, 1997

Madam President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, NE 68509

Dear Madam President and Senators:

LB 806 and LB 806A were received in my office on May 28, 1997.

Nebraska has always been a leader in education. Our state can pride itself on providing a world class education system which is the essential component for preparing Nebraska's youth to compete on a statewide, national, and global scale. Nebraska is a leader in teaching quality with 75 percent of Nebraska's secondary teachers with degrees in the subjects they teach. Nebraska students performed among the top five of the states with more than 70 percent of our high school seniors taking the ACT exam. And, Nebraska 4th graders performed with the top 10 states on the National Assessment of Educational Progress reading exams in 1994. It is clear Nebraska is a national leader in educational excellence.

The underlying premise set out last year in LB 1114 was to provide property tax relief through efficiencies, not through dismantling our educational system. When it comes to our schools, these efficiencies must be about performing in a more cost-effective manner, and not about reducing quality. LB 806 and LB 806A are intended to help accomplish this goal. Providing our students with a quality education must be the top priority for our state, and we must emphasize that quality education can be delivered through efficient measures.

Coupled with LB 1114, LB 806A will mean lower reliance on property taxes without compromising quality education. I commend the proponents of these bills for their willingness to work in addressing specific concerns when solutions were brought forward. At my request, provisions were added which provided additional considerations for isolated schools and more state aid dollars for small rural schools.

It is clear that implementation of LB 806 will have a very diverse impact on schools across Nebraska. Some have suggested that I should veto this bill and return to the LB 1059 formula for distribution of state aid in the future. However, the consequences of not allowing LB 806 to be enacted could be drastic in some circumstances. Class I district's were not recognized with any levying authority and received no designation for state aid distribution under LB 1114. Without LB 806, the Class I schools would not survive. In addition, school districts would not be able to devise a budget for 1998-1999 school year upon certification this December. Schools with a very low valuation per student would be facing severe budget cuts. And, those schools in sparsely populated areas would not receive any special designation to account for the higher costs they incur in educating their students. LB 806 does address these unique situations and ensures that quality education will not suffer.

One aspect of LB 806 which I continue to have concerns about is the penalty provision, which reduces aid for systems that are 10 percent below the levy limit. Unfortunately, there was a lack of support in the Legislature to remove this provision. Senator Bohlke, who has put forth a tremendous effort with respect to LB 806, has agreed to continue to look at this provision in the future, as well as provide a close and detailed monitoring of the implementation and impact of LB 806 as it comes into effect. I will work with the Legislature's Education Committee and the School Finance Review

Committee to formally establish a group to monitor the impact of these changes to the school finance formula.

As pointed out before the final vote on this bill, senators will receive criticism whether they voted yes or no on this bill. Likewise, I will undoubtedly have critics too. There are some legislators who criticized the bill, then voted for it. There will be others that wouldn't vote for it no matter how it is changed. I do not have the luxury to play politics with this bill, nor will I. As Governor, I must take the needs of the entire state into consideration when making my decisions on legislative issues and cannot just hope that others will ensure that the needs of our schools are met.

In conclusion, my decision to sign this legislation has been difficult knowing that some schools will not receive the level of funding they desire. I have brought these concerns forward and offered solutions. I was successful with some, unsuccessful with others. As with any compromise, there are areas that remain open for review and discussion and I will accept the offer by legislators to work on solutions that improve areas of concern. Too often there is a tendency to let our desire for perfection get in the way of progress. We can make progress today. And while perfection will always escape us, we do have the opportunity in the future to improve upon what we do today. Through this process, I have come to believe that LB 806 and LB 806A are needed at this time and have been signed by me on this date and delivered to the Secretary of State.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

ATTORNEY GENERAL'S OPINIONOpinion No. 97032

DATE: June 2, 1997

SUBJECT: Constitutionality of the Method for Distribution of Motor Vehicle Taxes Under LB 271, as amended.

REQUESTED BY: Senator Jim Jones
Nebraska Legislature

WRITTEN BY: Don Stenberg, Attorney General
L. Jay Bartel, Assistant Attorney General

You have requested our opinion on the constitutionality of the provision in LB 271, as recently amended by AM2313, setting out the manner in which motor vehicle taxes imposed under the bill are to be distributed to government subdivisions. LB 271, as amended, would amend the manner in which motor vehicles are taxed. The tax would be calculated by multiplying the "base tax" (based on the value of the vehicle when new) by a fraction based on the age of the vehicle. LB 271, as amended, § 4. Your question concerns the recent amendment to Section 3 of the bill, which contains the manner of distribution of the tax. Prior to amendment, subsection (2) of Section 3 provided, in pertinent part:

After retaining one percent of the motor vehicle tax proceeds collected

for costs, the remaining motor vehicle tax proceeds shall be allocated to each taxing unit levying taxes on taxable property in the county in which the motor vehicle has situs in the same proportion that the levy of such taxing unit bears to the total levy on taxable of all taxing units in which the motor vehicle has situs. (emphasis added).

This provision was amended by AM2313 to provide:

After retaining one percent of the motor vehicle tax proceeds collected for costs, the remaining motor vehicle tax proceeds shall be allocated to each taxing unit levying taxes on taxable property in the tax district in which the motor vehicle has situs in the same proportion that the levy of such taxing unit bears to the total levy on taxable property of all the taxing units in the tax district in which the motor vehicle has situs. (emphasis added).

Your question is whether the substitution of "tax district" for "county" in the amended version of LB 271 is consistent with the language of Neb. Const. art. VIII, § 1(3), which, in addition to providing that "the Legislature may provide for a different method of taxing motor vehicles. . . , states:

Provided, that such tax proceeds from motor vehicles in each county shall be allocated to the counties, townships, cities, villages, school districts, and other governmental subdivisions of such county in the same proportion that the levy of each bears to the total levy of the county on taxable property; . . .(emphasis added).

In *State ex rel. School Dist. of Scottsbluff v. Ellis*, 168 Neb. 166, 95 N.W.2d 538 (1959) ["*Ellis*"], the Nebraska Supreme Court addressed the proper construction of virtually identical language in a prior version of art. VIII, § 1 of the Constitution providing for the allocation of motor vehicle tax proceeds. In 1952, the Nebraska Constitution was amended to allow the Legislature "to provide for a different method of taxing motor vehicles; Provided, that such tax proceeds from motor vehicles taxed in each county shall be allocated to the state, counties, townships, cities, villages, and school districts of such county in the same proportion that the levy of each bears to the total levy of said county on personal tangible property." *Id.* at 168, 95 N.W.2d at 540. The Legislature, in 1953, enacted a statute (Neb. Rev. Stat. § 77-1240.01 (Supp. 1955)) providing for distribution of motor vehicle taxes as follows:

The proceeds from such motor vehicle tax in each county shall be allocated to each taxing unit levying taxes on tangible personal property in the county in which the motor vehicle is located in the same proportion that the levy on tangible personal property of such taxing unit bears to the total levy on tangible personal property of all the taxing units in which the motor vehicle is located.

The Scotts Bluff County Treasurer asserted that the distribution provided for under this statute was contrary to the language in art. VIII, § 1. The Plaintiffs, political subdivisions within Scotts Bluff County, asserted the distribution of motor vehicle taxes under the statute was consistent with the language in art. VIII, § 1, and that the statutory distribution method had been uniformly followed in all counties since the statute's enactment. *Id.* at 169-70, 95 N.W.2d at 540.

Addressing the construction of the distribution language contained in the amendment to art. VIII, § 1, the Court in *Ellis* stated:

The defendant's interpretation of the constitutional provision would require us to say in effect that the levy of a motor vehicle tax was for a county-wide purpose. The allocation of the proceeds of the motor vehicle tax proportionately to the state, counties, townships, cities, villages, and school districts is conclusive that a part of the proceeds were for a county-wide purpose and a part were not. Such a construction would violate the sound principle of taxation which prescribes that the benefits of taxation should be directly received by those directly concerned in bearing the burdens of taxation, so that a Legislature cannot divert taxes raised by one taxing district to the sole use and benefit of another district.

Id. at 172, 95 N.W.2d at 542.

With regard to whether the statutory distribution method complied with the constitutional provision, the Court stated:

The announced purpose of the legislation providing for the submission of the constitutional amendment to the people was not to change existing allocations of motor vehicle taxes but to provide a different method of taxing them. Motor vehicles had previously been taxed as personal property the same as other tangible personal property was taxed, the taxing units where the motor vehicle was located getting the sole benefit of the revenue therefrom. We interpret the words "the total levy of said county on personal tangible personal property" contained in the constitutional provision to mean the total levy made by the county for all political subdivisions in which a motor vehicle has its taxable situs. We find nothing to indicate an intention to depart from such a distribution. . . . The Legislature by enacting section 77-1240.01, R.S. Supp., 1955, confirmed the generally accepted meaning of the constitutional provision and clarified its meaning by legislative action in a manner not inconsistent with the Constitution and in accord with the fundamental rules of taxation.

Id. at 173, 95 N.W.2d at 542 (emphasis added).

While art. VIII, § 1, has been amended on a number of occasions since the decision in *Ellis*, the language pertaining to distribution of motor vehicle tax

proceeds has remained relatively unchanged. The current language of the constitutional provision, quoted previously, provides for distribution of the tax proceeds from motor vehicle taxes to political subdivisions "in the same proportion that the levy of each bears to the total levy of the county on taxable property; . . ." The only difference between this portion of the provision, construed in *Ellis*, and the present language is the substitution of the word "the" for "said" before "county", and substitution of "taxable property" for "personal tangible property."

By virtue of the similarity between the language in art. VIII, § 1, construed by the Court in *Ellis*, and the current language in art. VIII, § 1, we believe the proper construction of art. VIII, § 1, continues to require proportionate distribution of motor vehicle tax proceeds to all taxing subdivisions "in which a motor vehicle has its taxable situs." 168 Neb. at 173, 95 N.W.2d at 542. This interpretation is consistent with subsequent statutory provisions governing distribution of motor vehicle taxes, and the current statute, Neb. Rev. Stat. § 77-1240.01(4) (1996), which provides: "The proceeds from the motor vehicle tax shall be allocated to each taxing unit levying taxes on property in the county in which the motor vehicle has tax situs in the same proportion that the levy on taxable property of such taxing unit bears to the total levy on taxable property of all the taxing units." We note that it is also our understanding that, as was the case in *Ellis*, it is the practice of all counties to distribute proceeds from the current property tax on motor vehicles to all subdivisions taxing in the tax district where the motor vehicle has situs.

With this background in mind, we turn to your specific question pertaining to the use of the term "tax district" in the distribution language in LB 271. Prior to amendment, the bill required proportionate allocation of motor vehicle tax proceeds "to each taxing unit levying taxes on taxable property in the county in which the motor vehicle has situs. . . ." (emphasis added). The bill, as amended, provides for proportionate allocation of motor vehicle tax proceeds "to each taxing unit levying taxes on taxable property in the tax district in which the motor vehicle has situs. . . ." (emphasis added). Your question is whether this change in terminology is permissible, in view of the language in art. VIII, § 1, referring to proportionate distribution of motor vehicle tax proceeds to political subdivisions based "on the levy of each bears to the total levy of the county on taxable property."

In our opinion, we do not believe the change in terminology contained in LB 271, as amended, necessarily results in an inconsistency with the distribution requirement in art. VIII, § 1. This is based on the definition of "taxing district" in LB 270, also presently pending before the Legislature. "Tax district" is defined as "an area within a county in which all of the taxable property is subject to property taxes at the same consolidated property tax rate." The levy for property taxes for each political subdivision levying property taxes on taxable property in the county is made annually by the county board of equalization. Neb. Rev. Stat. §§ 77-1601, 77-1601.01, and 77-1601.02 (1996). The apparent intent of the use of the term "tax

district" in LB 271, as amended, is to make the language consistent with the definition of that term in LB 270. In effect, however, by defining the term to mean an area in a county in which all taxable property is "subject to the same consolidated property tax rate", the change appears merely to reflect the fact that the county, through the county board of equalization, includes in the levy made annually levies for all political subdivisions in the county which levy property taxes. Defining the term "tax district" in this manner, and employing it in the distribution language in LB 271, as amended, appears to be consistent with art. VIII, § 1, which refers to the "total levy of the county on taxable property"; the "consolidated property tax rate" referred to in LB 270 in defining "tax district" being the equivalent of the "total levy" language employed in the Constitution.

In sum, LB 271, as amended, continues to require distribution of motor vehicle tax proceeds "to each taxing unit levying taxes on taxable property in the tax district in which the motor vehicle has situs", and that the distribution be "in the same proportion that the levy of such taxing unit bears to the total levy on taxable property of all the taxing units in the tax district in which the motor vehicle has situs." This is consistent with the Nebraska Supreme Court's interpretation that art. VIII, § 1 requires proportionate distribution of motor vehicle tax proceeds to all taxing subdivisions "in which a motor vehicle has its taxable situs." *Ellis*, 168 Neb. at 173, 95 N.W.2d at 542. The bill, as amended, continues the situs-based distribution articulated in *Ellis*. The change in terminology from "county" to "tax district" also appears permissible, in light of the manner in which the term "tax district" is defined in LB 270.

Very truly yours,
DON STENBERG
Attorney General

MESSAGES FROM THE GOVERNOR

June 4, 1997

Patrick J. O'Donnell
Clerk of the Legislature
State Capitol, Room 2018

Lincoln, NE 68509

Dear Mr. O'Donnell:

Engrossed Legislative Bills 216, 387, 49, 886, 335, 424, 523, 608, 624, and 727 were received in my office on May 29, 1997; and Engrossed Legislative Bill 890 was received on June 3, 1997.

These bills were signed by me on June 4, 1997, and delivered to the Secretary of State.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

June 4, 1997

Madam President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska 68509

Dear Madam President and Members:

I am signing LB 658, but I have serious concerns regarding a provision of the bill.

Having the emergency response and environmental surveillance program fees effectively "capped" at "the lesser of the actual costs or \$53,000" per nuclear plant, plus an inflationary adjustment that would not exceed five percent per year, will mean that Health and Human Services will continue having to make up the difference of what the program really costs (estimated at \$220,000) and what they will be collecting in fees paid by the Public Power Districts (\$106,000) and contributions by the federal government (\$37,000).

There should be no shortcutting on health and safety programs for areas surrounding nuclear power plants. Those owning the nuclear plants need to pay the actual costs of the emergency response and environmental surveillance programs, not a lesser amount. I will continue to monitor this issue and hope to see progress in fixing this problem.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

Madam President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Madam President and Senators:

I am returning LB 523A to you with a line item reduction and explanation.

The following reduction of \$8,750 Cash Funds for FY1997-98 was made in LB 523A for one-half of the salary and benefit costs of a data entry clerk position not being hired until the act becomes operative on January 1, 1998, instead of July 1, 1997.

I urge members of the Legislature to sustain my veto.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

June 4, 1997

Madam President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, NE 68509

Dear Madam President and Senators:

With this letter, I am returning LB 386 with specific line-item reductions. The General Fund veto amounts total \$12,600,000, which includes \$8,500,000 for the coming biennium.

I have reduced the appropriation contained in Section 56 for Agency 65, Program 940 from \$10 million General Funds per year for FY1997-98 through FY1999-00 to \$5.9 million per year. This funding is intended for the Task Force for Building Renewal,

"...exclusively to accomplish state government-wide deferred maintenance and renewal work under the Deferred building Renewal Act, exclusively to undertake renovation of state-owned facilities on the campuses of the Nebraska State Colleges and the University of Nebraska, or to achieve a combination of such purposes."

According to testimony by the University of Nebraska before the Appropriation Committee on March 11, 1997, concerning the need for deferred maintenance and repair money at the University and the State Colleges;

"The University proposes to use \$5.5 million per year in funds we generate to match state funding for this repair work. The State Colleges would contribute \$400,000 annually. A total of \$5.9 million per year in additional revenues from the state are being sought..."

In order to help balance the state budget, I, therefore, have reduced the annual state appropriation to the amount requested. This provides the funds needed to establish an enhanced program through bond financing that was proposed this year should the Legislature decide to authorize a program next

year.

The \$6.5 million per year of cigarette tax funds permanently dedicated to the Building Renewal Allocation Fund for FY1997-98 through FY2000-01 has been maintained at your recommended level. After my vetoes, we have doubled the current appropriations to the Building Renewal Allocation Fund and provided the highest level of funding ever for the (LB 309) building renewal program which was created in 1977.

Funding for NEB*SAT projects has also been reduced. The \$300,000 General Funds for the Central Nebraska K-12 Pod Activation has been reduced to \$150,000 in FY 1997-98. The \$300,000 General Funds for the Western Nebraska K-12 Pod Activation has been reduced to \$150,000 in FY1998-99. For this biennium, any additional funds for these pods should be sought from alternative sources such as lottery funds, industry contributions, federal funds, or donations from private foundations.

At this time, the state's top priorities have to be the maintenance of the statewide telecommunications infrastructure and network, the planning for satellite transponder replacement or alternatives, the replacement of aging transmitters, and the planning for transition to advanced high definition television. My vetoes allow all these higher priority projects to remain funded at your recommended levels.

I urge your support in providing only those funds that are necessary and in sustaining these vetoes.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

LEGISLATIVE RESOLUTION 295. Introduced by Coordsen, 32; Dierks, 40; Schellpeper, 18; Bromm, 23.

WHEREAS, the state aid to education formula, as modified by Legislative Bills 806 and 710 of the Ninety-fifth Legislature, First Session, 1997, differentiates as between the way school systems subject to the "lop-off" and school systems which receive "lop-off" dollars are treated; and

WHEREAS, school systems subject to the "lop-off" are allowed a growth factor when calculating available resources, and the property tax receipts of school systems subject to the "lop-off" are figured at a tax levy of one dollar per one hundred dollars of taxable valuation of the taxable property in the system through fiscal year 1999-00, and ninety cents per one hundred dollars of taxable valuation of the taxable property in the system for fiscal year

2000-01 and each fiscal year thereafter; and

WHEREAS, school systems receiving or potentially qualifying for additional state aid with "lop-off" dollars through the size adjustment factor are not allowed a growth factor when available resources are calculated, and, the property tax receipts of such systems, when figuring the amount of additional state aid, are calculated with a tax levy of one dollar and ten cents per one hundred dollars of taxable valuation of the taxable property in the system through fiscal year 1999-00 and one dollar per one hundred dollars of taxable valuation of the taxable property in the system for fiscal year 2000-01 and each fiscal year thereafter, resulting in a state-mandated higher property tax burden for some taxpayers on property within the same class in different parts of the state.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Legislature requests the Attorney General of Nebraska to review Legislative Bills 806 and 710, Ninety-fifth Legislature, First Session, 1997, and the applicable constitutional provisions, including Article VII, section 1, and Article VIII, section 1, Constitution of Nebraska, prior to the effective dates of those Legislative Bills to determine whether the state aid to education formula as modified in such bills violates subdivision (1) of Article VIII, section 1, Constitution of Nebraska, which provides: "Taxes shall be levied by valuation uniformly and proportionately upon all real property ..." and to provide the Legislature with an opinion of the constitutionality of Legislative Bills 806 and 710, Ninety-fifth Legislature, First Session, 1997, at his earliest possible convenience.

MESSAGES FROM THE GOVERNOR

June 5, 1997

Patrick J. O'Donnell
Clerk of the Legislature
State Capitol, Room 2018
Lincoln, NE 68509

Dear Mr. O'Donnell:

Engrossed Legislative Bills 180, 588, 269, 269A, and 138 were received in my office on May 30, 1997; and Engrossed Legislative Bill 401 was received on June 4, 1997.

These bills were signed by me on June 5, 1997, and delivered to the Secretary of State.

Sincerely,

June 5, 1997

Madam President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska 68509

Dear Madam President and Senators:

I am returning LB 588A with a specific line item reduction.

LB 588 would require the Attorney General to protect the rights and interests of landowners in the boundary line dispute between Nebraska and Missouri. An agreement has been negotiated between Missouri and Nebraska and ratified by the Missouri Legislature. The Nebraska State Legislature will not have the opportunity to ratify the agreement until LB 59 is debated by the body in 1998.

In the interim, no action will be taken by the State of Missouri against Nebraska landowners until after the 1998 session since the Missouri Legislature has advanced the agreement date. Based on this agreement, there is no need for the additional funds in LB 588A for the Office of the Attorney General in 1997-1998. The funding for 1998-1999 will depend on the actions of the Legislature on LB 59.

I urge you to sustain my veto.

Sincerely,
(Signed) E. Benjamin Nelson

Dear Madam President and Senators:

I am returning LB 485 and LB 485A with my veto.

LB 485 transfers the maintenance costs for persons judged to be mentally

incompetent to stand trial from the counties in which charges are filed to the state General Fund.

In reviewing the totality of actions taken this session to provide property tax relief, it is my opinion that the state should not assume further obligation for expenses which are currently carried by counties. Specifically, I have signed LB 806, providing an additional \$110 million for schools, and I have signed LB 180, which creates a fund of yet another \$20 million for property tax relief. LB 180 states, "The fund shall be used for specific programs for property tax relief. The programs may include increased state aid to political subdivisions or program takeovers by the state of programs funded in whole or in part by property taxes..." If state funding for care of the mentally incompetent to stand trial is judged to be a high enough priority by the Legislature next year, funding should be provided from the Property Tax Reduction Incentive Fund.

I urge you to sustain my veto.

Madam President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Madam President and Senators:

I am returning LB 113 and LB 113A to you without my signature and with my objections. Similar legislation was presented to me in 1995 and vetoed at that time.

Since the 1995 veto, the Nebraska Department of Revenue has attempted to develop an approach to this problem that would be workable and fair to those involved in this industry and those purchasing by way of catalogs. That effort did not yield a solution which placed the Department of Revenue in a sound legal position to require out-of-state catalog sales companies to provide it with the data to carry out the bill's intent in a manner that is both fair and yet cost-effective.

In addition, the hearing on LB 113 did not provide alternatives other than that embodied in this particular piece of legislation, something unworkable. In my opinion, it is not responsible to expend taxpayer funds in this manner without a clear expectation that the efforts will be successful.

The National Governor's Association, at its 1997 winter meeting, called upon the interested parties, and the Congress, to develop Federal legislation which would include authority for the states to collect owed taxes on these types of commercial transactions. The problem is nexus and/or jurisdiction. We need Federal authority to properly collect these taxes.

I urge members of the Legislature to sustain my veto.

Sincerely,

Madam President, Mr. Speaker,
and Members of the Legislature
State Capitol Building

Dear Madam President and Senators:

With this letter, I am returning LB 229A with a specific line item reduction. I have vetoed \$18,000 General Funds to the Supreme Court. The agency has advised that there would be one-time costs relating to materials and training for county judges. However, these costs are due to enactment of the initial legislation (Laws 1996, LB 1296). The fiscal note from the agency in 1996 did not identify any training costs or workload expense due to concurrent jurisdiction. Any costs related to implementing the substantive legislation can be absorbed within the context of a relatively large program budget.

I urge your support in sustaining this veto.

Sincerely,
(Signed) E. Benjamin Nelson

Madam President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, NE 68509

Dear Madam President and Senators:

I am returning LB 875A to you with a line-item reduction and explanation. LB 875 requires the Property Tax Administrator to collect information about tax-increment financing projects and to compile that data along with her recommendation into an annual report to the Legislature. I have been informed that these requirements can be met with existing staffing levels and

do not require the addition of an FTE as suggested by the fiscal note.

I am, therefore, making a reduction of \$36,090 for FY97/98 and \$41,190 for FY98/99. Funds for the creation and distribution of the required reports have been retained.

I urge members of the Legislature to sustain my veto.

Dear Madam President and Senators:

I have returned LB 865 with my signature and LB 865A with my signature, but with line-item reductions.

LB 865A includes funding for a .5 FTE at the State Department of Education to administer an assistive technology device registry. While such a registry represents a cost efficient way for users of assistive technology devices to share the cost of these commonly expensive items, the Department of Education has within their current resources the ability to absorb the cost of administering the registry.

Madam President, Mr. Speaker,
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Madam President and Senators:

Today I signed LB 271 and LB 271A into law. LB 271 eliminates the property tax on motor vehicles and replaces it with a tax and a fee. LB 271A provides funding for the Department of Motor Vehicles to carry out the bill's provisions.

LB 271 is designed to implement a motor vehicle tax system more closely tied to vehicle value and age, and to provide motor vehicle owners with property tax relief. I do not believe it is the intention of the Legislature--nor is it mine--for local subdivisions to use passage of this bill to shift the local tax burden further onto real property taxpayers. If local subdivisions respond to any losses of revenue under LB 271 by attempting to increase real property taxes, rather than by reducing spending, taxpayers will rightly believe they have been betrayed.

I have previously voiced my support for caps on local subdivision spending once the LB 299 spending limits expire. It is my intent to work in developing legislation for consideration next year to impose spending limits and, where appropriate, adjust the current LB 1059 limits. Taxpayers and local officials should understand that the response of local subdivisions to LB 271 will play an important role in what types of limits will be included in that bill.

Owners of real property and motor vehicles deserve tax relief. That was the purpose of LB 299 and LB 1114. Any attempt by political subdivisions to circumvent the spirit of these tax relief measures; and LB 271 becomes unacceptable to me, the Legislature, and the taxpayers.

COMMUNICATION

June 12, 1997

Joanne Pepperl
Revisor of Statutes/Bill Drafter
Room 358, State Capitol
Lincoln, NE 68509

Dear Joanne:

An error has been discovered on a program number in the attachment to the Governor's veto message on LB 389, dated May 28, 1997.

The program number which is incorrect is in Agency 48--The Coordinating Commission for Postsecondary Education. The program number should be Program 640, not Program 650. The accompanying attachment makes this correction.

The line-item reduced bill the Governor returned to you has the correct amounts stricken from Program 640.

Thanks for bringing this to our attention.

Sincerely,

MESSAGE FROM THE GOVERNOR

June 17, 1997

Madam President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska 68509

Dear Madam President and Senators:

I have signed LB 364.

As you know, this bill came about under somewhat unusual circumstances in the waning days of the session. Such a scenario can prevent full and adequate discussion and analysis, create misunderstandings such as assumptions of a quid pro quo, and may foster an imprecise knowledge of how the bill will function once it is implemented. It was for that reason I insisted on a one-year delay of implementation date.

The delayed implementation should be a time to further examine this bill. In that regard, Senator Brashear has agreed to establish a committee of interested parties to conduct a serious and meaningful review of the bill and to make, if necessary, recommendations for legislation to correct any unforeseen consequences. Among the issues that need review are the practical effects on plea bargaining, the impact and cost to local jails, and appropriate classification of certain offenses.

The bill creates a new class of offenders, Class IIIA, who have committed crimes against persons. Class IIIA offenders have been moved from Class IV, a lesser penalty classification, to this new classification where they will not qualify for the earlier parole eligibility being granted to some Class IV offenders. Additionally, this bill makes necessary changes to ensure that offenders "earn" positive time rather than be "awarded" good time as was the case prior to the Safe Streets Act of 1995. This provision implements the "positive" provisions as intended under the 1995 act.

I do not support the early release of inmates for the sole purpose of saving taxpayer money. I recognize the effort put forth by the Legislature to deal with the need for prison construction. And while we must be economical with the taxpayers' money, we must also be sure that this does not result in the release of the wrong people at the expense of public safety.

Dealing with issues involving crime and punishment is unfortunately a never-ending task, but one that we must always stand ready to tackle with the goal of protecting our citizens from criminals, most importantly those who would repeat their criminal activity and who feel they can do violent harm to our citizens with impunity. I believe this bill intends to further move us in that direction. The one-year delayed implementation gives the

Legislature an opportunity to ensure it does.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

COMMUNICATION

June 5, 1997

Patrick J. O'Donnell
Clerk of the Legislature
State Capitol, Room 2018
Lincoln, NE 68509

Dear Mr. O'Donnell:

Engrossed Legislative Bills 269 and 269A were received in my office on May 30, 1997. They were signed by me on June 5, 1997, and delivered to the Secretary of State.

I believe it important to note that these bills were developed by the Legislature's Revenue Committee under the leadership of the late-Senator Jerome Warner and that LB 269 was designated a personal priority bill by Senator Warner.

This bill makes a number of important changes related to property taxes and spending by local governments, including the establishment of the Municipal Equalization Fund. It also reaffirms the commitment to the concepts of LB 1114. This commitment is highlighted by the bill's provisions regarding community colleges.

LB 269 not only sets realistic levy limits for community colleges, but it also specifies that state government will support those community colleges unable to raise 40 percent of their budgets from property taxes, and establishes an equalization formula to ensure adequate funding for all of Nebraska's six community colleges. This bill provides property tax relief, together with the State's commitment to stability and excellence in this important segment of our higher education system.

This bill is only one of many initiatives authored by Senator Warner during his 35 years as a member of the Nebraska Legislature. He was a genuine leader for all Nebraskans, a legislative problem-solver and a man whose fairness, wisdom, honesty and integrity helped to shape the State to which he dedicated his life.

His legacy is one of action, not only in the area of taxation policies, but also in the establishment of a program for state aid to schools; in the growth of educational opportunities in Nebraska's university system; in the development our state's highway planning and construction process; and in providing property tax relief to Nebraskans while maintaining local control.

In building this record, Senator Warner used few words to make his point. Instead, he relied on listening to others, studying the issues, debating the merits and avoiding political games. It is a measure of the greatness of this

quiet, simple farmer that both those who called him friend and those that did not know him well thought him a decent, fine man.

It is with honor and pride that I take this opportunity to sign the final priority bill authored during the distinguished career of our friend and fellow Nebraskan, Jerome Warner. In Senator Warner's own words, "I guess we're done now."

Sincerely,
(Signed) E. Benjamin Nelson
Governor
