AM3448
(Amendments to Standing Committee amendments, AM3434)

1. Strike sections 1 to 5 and 7 and insert the following new sections:

"Section 1. The Nebraska Health Infrastructure Trust Fund is created. The fund shall include the first sixty-five million dollars of (1) revenue received on or after January 1, 1998, from governmental nursing facilities participating under the requirements for payments for nursing facility services under the medical assistance program established pursuant to section 68-1018 and (2) revenue received from a settlement or judgment awarded to the State of Nebraska as a result of tobacco-related litigation for compensation for the costs of treating smoking-related illnesses. The Department of Health and Human Services Finance and Support shall remit such revenue to the State Treasurer for credit to the fund. The department shall remit any revenue received in excess of the first sixty-five million dollars from the sources listed in subdivisions (1) and (2) of this section to the State Treasurer for credit to the General Fund. The department shall administer the fund and shall adopt and promulgate rules and regulations to establish the procedures for participation by governmental nursing facilities. Any money in the fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act.

Sec. 2. (1) The Department of Health and Human Services Finance and Support shall distribute the money in the Nebraska Health Infrastructure Trust Fund as provided in this section.

(2) The department shall:

(a) Make available for distribution the first forty million dollars placed in the fund pursuant to section 1 of this act, plus interest accruing prior to distribution, in the form of grants as provided in section 3 of this act, after deducting expenses incurred in the administration of the grants; and

(b) Allocate the next twenty-five million dollars placed in the fund pursuant to section 1 of this act, plus interest accruing prior to distribution, for the state's matching share for children's health insurance under Title XXI of the federal Social Security Act.

(3) Nothing in this section requires the department to distribute all money in the fund in any one year. The department may hold over any money in the fund to subsequent years.

Sec. 3. (1) For purposes of this section:

(a) Alternatives to nursing facility care means those services included in the program of home and community-based waiver services for aged persons or adults or children with disabilities under the medical assistance program established pursuant to section 68-1018;

(b) Conversion means (i) the remodeling of existing space and, if necessary, the construction of additional space required to accommodate assisted-living facility services or any other

alternatives to nursing facility care or (ii) new construction of an assisted-living facility or other alternative to nursing facility care if existing nursing facility beds are no longer licensed and the Department of Health and Human Services Finance and Support determines that new construction is more cost effective than the conversion of existing space; and

(c) Nursing facility means a facility licensed as a nursing facility, a skilled nursing facility, or an intermediate care facility as such terms are defined in section 71-2017.01 or a long-term care hospital or a distinct part of a hospital, as such terms are defined in section 71-2017.01, which is primarily devoted to providing the care and services enumerated in subdivision (10), (11), or (20) of section 71-2017.01, but does not include an intermediate care facility for the mentally retarded as defined in section 71-2017.01.

(2) The Department of Health and Human Services Finance and Support, with the advice of the Nursing Home Advisory Council, shall award grants for capital or one-time expenditures, including, but not limited to, startup and training expenses and operating losses for the first year, to any governmental nursing facility which has been approved for at least three years as a provider under the medical assistance program established pursuant to section 68-1018 to convert all or a portion of the facility licensed to provide such care to a licensed assisted-living facility or to any other type of alternatives to nursing facility care.

(3) During each calendar year in which grants are available from the Nebraska Health Infrastructure Trust Fund under this section, the department, with the advice of the Nursing Home Advisory Council, shall award grants to governmental nursing facilities. The department shall annually establish a calendar for receiving and evaluating proposals and awarding grants.

(4) No grant application shall be approved by the department unless the applicant can demonstrate that (a) conversion of the nursing facility or portion of the facility to an assisted-living facility or other alternatives to nursing facility care will offer efficient and economical care to individuals requiring long-term care services in the area, (b) assisted-living services or other alternatives to nursing facility care are unlikely to be available in the area for individuals eligible for services under the medical assistance program established pursuant to section 68-1018, and (c) the resulting reduction in the availability of nursing facility services is not expected to cause undue hardship on those individuals requiring nursing facility services. No grant shall be awarded unless the applicant agrees to maintain a minimum occupancy rate by individuals eligible for services under the medical assistance program established pursuant to section 68-1018.

(5) The department shall adopt and promulgate rules and

regulations which establish (a) an application process for grants, (b) criteria for nursing facilities to receive funding, including, but not limited to, minimum occupancy rates and allowable costs, (c) criteria for the rates and amounts of funding, and (d) other procedures as the department deems necessary for the proper administration of this section.

(6) This section does not create an entitlement to any funds available for grants under this section, and the department may award grants to the extent funds are available and, within its discretion, to the extent such applications are approved.

(7) The department shall provide annual reports to the Governor and the Legislature concerning grants awarded under this section. Each report shall include the number of applicants and approved applicants, an overview of the various grants awarded, and detailed reports of the cost of each project funded by a grant.".

March 3, 1998

Madam President, Mr. Speaker,
and Members of the Legislature

State Capitol
Lincoln, NE 68509

Dear Madam President and Senators:

LB 369 was received in my office on February 25, 1998. The bill was signed by me on March 3, 1998 and delivered to the Secretary of State.

As stated in my message regarding LB 429 in 1993, I do not believe that the legislative process is the best means to address highly technical and complicated scope of practice issues for health care professionals. However, until professionals begin to come together to resolve these issues between themselves, the Legislature will continue to be used as the only means to resolve scope of practice issues that impact the public. It is my hope that the Legislature will also take a strong position of oversight regarding the impact of these decisions.

At my direction, an exhaustive study of Nebraska's professional regulatory system is underway within the Department of Health and Human Services Regulation and Licensure. The Credentialing Reform 2000 Project will explore ways to ensure that policy questions such as appropriate scopes of practice for health professionals are addressed primarily from the perspective of public protection and access to health care services. This study will also recommend methods by which existing regulatory processes and scope of practice incongruities can be addressed in a systematic manner.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

(2) Develop a current detailed description of the number, characteristics, and needs of juvenile offenders and at-risk youth;

(3) Inventory current placement and service resources, including resources for drug treatment, treatment of sexual offenders, and secure confinement of serious offenders and make recommendations in regard to needed expansion of service capacity;

(4) Examine current statutes and make recommendations in regard to updating and streamlining laws pertaining to adjudication and disposition of juvenile offenders;

(5) Review promising programs and recommend strategies for implementing community-based diversion and early intervention programs designed to minimize depth and duration of juvenile offenders' penetration into the juvenile justice system;

(6) Review and make recommendations concerning the codification of an approach using graduated sanctions in intervening with juvenile offenders; and

(7) Explore opportunities to eliminate fragmentation within the juvenile justice system and recommend strategies to move toward a unified system of care for juvenile offenders and their families.

Sec. 2. The Governor shall assign the study described in section 1 of this act to a task force consisting of the Commissioner of Education, the superintendent of the Nebraska Correctional Youth Facility, the Director of Policy Research, the executive director of the Nebraska Commission on Law Enforcement and Criminal Justice, the probation administrator of the Office of Probation Administration, and the administrators of the protection and safety division of the Department of Health and Human Services. The Governor shall also appoint six additional persons to serve on the task force from the private and public sectors representing key juvenile justice system stakeholders, county officials, juvenile advocacy groups, service providers, and consumers. The Governor shall appoint the chairperson of the task force from the membership.

Sec. 3. The task force shall complete its work and issue a final report outlining its findings and recommendations to the Governor and Legislature by December 1, 1998. The Department of Health and Human Services will provide administrative support to the task force and shall be responsible for production and distribution of the final report. Cooperation between attorneys and volunteers can enhance the quality of representation for children. The purposes of the Court Appointed Special Advocate Act are to promote the exercise of responsible citizenship by authorizing trained community volunteers to become advocates for children and to enhance the community's response to the needs of children in the legal system.

(2) The judge may appoint a volunteer for any child alleged to be a juvenile as described in section 43-247, but a volunteer shall be appointed primarily for a child alleged to be a juvenile as described in subdivision (3)(a) of section 43-247. At the discretion of the judge, a volunteer may be a party of record to the action. To appoint a volunteer, the juvenile court judge shall sign an order of appointment which grants the volunteer the authority to review all relevant documents and interview all parties involved in the case, including parents and other parties in interest, as well as others having significant information in relation to the child.

(3) A volunteer may be assigned at any stage of the court proceedings. The appointment of a volunteer ends at the discretion of the judge or when the court's jurisdiction over the child terminates.

(4) Each juvenile court may be served by a court appointed special advocate program. One program may serve more than one juvenile court.

Sec. 10. (1) Court appointed special advocate volunteers shall be at least twenty-one years of age, have demonstrated an interest in children and their welfare, and be willing to commit to the juvenile court for a minimum of one year of service to a child. Qualified adults shall not be discriminated against based upon gender, socioeconomic, religious, racial, ethnic, or age factors.

(2) The court appointed special advocate program in each jurisdiction shall enact regulations consistent with the Nebraska Court Appointed Special Advocate Association standards and guidelines governing qualifications of volunteers. Such regulations shall include provisions that all volunteer applicants complete an application, participate in a screening interview, participate in training, and meet other qualifications as determined by the association and the presiding judge of the juvenile court.

Sec. 11. (1) As required background screening, the program director shall obtain the following information regarding a volunteer applicant:

(a) A check of the applicant's criminal history record information maintained by the Identification Division of the Federal Bureau of Investigation through the Nebraska State Patrol;

(b) A check of his or her record with the state Abused or Neglected Child Registry;

(c) A check of his or her driving record; and

(d) At least three references who will attest to the applicant's character, judgment, and suitability for the position of a court appointed special advocate volunteer.

(2) If the applicant has lived in Nebraska for less than twelve months, the program director shall obtain the records required in subdivisions (1)(a) through (1)(c) of this section from

all other jurisdictions in which the applicant has lived during the preceding year.

Sec. 12. All court appointed special advocate volunteers shall participate in preservice training, including instruction on the dynamics of child abuse and neglect, cultural awareness, child development, the juvenile court process, permanency planning, volunteer roles and responsibilities, advocacy, and information gathering and documentation. Volunteers shall participate in observation of juvenile court proceedings prior to appointment. Each volunteer shall have a minimum of ten hours of inservice training per year provided by the court appointed special advocate program.

Sec. 13. (1) A court appointed special advocate volunteer shall conduct an independent investigation regarding the best interests of the child and shall provide factual information to the court regarding the child which he or she is appointed to serve. This investigation shall include interviews with and observations of the child, interviews with other appropriate individuals, and a review of relevant records and reports. The volunteer shall determine if a permanent plan has been created for the child, whether appropriate services are being provided to the child and family, and whether the case plan is progressing in a timely manner.

(2) The court appointed special advocate volunteer shall formulate recommendations consistent with the best interests of the child regarding placement, visitation, and appropriate services for the child and family. The volunteer shall assure that the child's best interests are being represented at every stage of the case and shall prepare written reports of his or her recommendations which shall be distributed pursuant to the court guidelines. The volunteer shall monitor cases to which he or she is appointed to assure that the child's needs are being met and that the terms of the juvenile court's orders are fulfilled in an appropriate and timely manner.

Sec. 14. (1) The court appointed special advocate volunteer shall attend the court hearings and may be called as a witness in the proceedings of a case to which he or she is appointed by any party or by the court.

(2) A volunteer shall have no association which creates a conflict of interest with duties as a court appointed special advocate volunteer. The volunteer shall not (a) be related to any party or attorney involved in a case, (b) be employed in a position or with an agency when such employment might result in a conflict of interest or give rise to the appearance of conflict, or (c) use the position to seek or accept gifts or special privileges for himself or herself or others.

Sec. 15. Any attorney or guardian ad litem and all state and local government and community agencies shall cooperate with the court appointed special advocate volunteer appointed to serve

on a case and shall cooperate with the court appointed special advocate program to facilitate the implementation of the program. In a case utilizing the services of both a volunteer and a guardian ad litem, both the volunteer and the guardian ad litem shall cooperate to represent the best interests of the child. The volunteer shall be notified in a timely manner of hearings, meetings, or other proceedings concerning the case to which he or she is appointed.

Sec. 16. All information pertaining to the case and obtained by the court appointed special advocate volunteer shall be considered confidential. The volunteer shall not disclose to persons other than the court or persons authorized by the court the contents of any document, record, or other case-related information which is discovered in the course of his or her investigation.

Sec. 17. Those program directors, supervisors, staff, and members of boards of directors of the court appointed special advocate programs and court appointed special advocates who are participating in a court appointed special advocate program on a volunteer basis shall not be civilly liable for acts or omissions committed in connection with the duties which are a part of the program except to the extent provided in Public Law 105-19.

Sec. 25. Section 43-272, Reissue Revised Statutes of Nebraska, is amended to read:

43-272. (1) When any juvenile shall be brought without counsel before a juvenile court, the court shall advise such juvenile and his or her parent or guardian of their right to retain counsel and shall inquire of such juvenile and his or her parent or guardian as to whether they desire to retain counsel. The court shall inform such juvenile and his or her parent or guardian of such juvenile's right to counsel at county expense if none of them is able to afford counsel. If the juvenile or his or her parent or guardian desires to have counsel appointed for such juvenile, or the parent or guardian of such juvenile cannot be located, and the court ascertains that none of such persons are able to afford an attorney, the court shall forthwith appoint an attorney to represent such juvenile for all proceedings before the juvenile court, except that if an attorney is appointed to represent such juvenile and the court later determines that a parent of such juvenile is able to afford an attorney, the court shall order such parent or juvenile to pay for services of the attorney to be collected in the same manner as provided by section 43-290. If the parent willfully refuses to pay any such sum, the court may commit him or her for contempt, and execution may issue at the request of the appointed attorney or the county attorney or by the court without a request.

(2) The court, on its own motion or upon application of a party to the proceedings, shall appoint a guardian ad litem for the juvenile: (a) If the juvenile has no parent or guardian of his or her person or if the parent or guardian of the juvenile cannot be

located or cannot be brought before the court; (b) if the parent or guardian of the juvenile is excused from participation in all or any part of the proceedings; (c) if the parent is a juvenile or an incompetent; (d) if the parent is indifferent to the interests of the juvenile; or (e) in any proceeding pursuant to the provisions of subdivision (3)(a) of section 43-247.

A guardian ad litem shall have the duty to protect the interests of the juvenile for whom he or she has been appointed guardian, and shall be deemed a parent of the juvenile as to those proceedings with respect to which his or her guardianship extends.

(3) Except in cases when there are special reasons why a particular layperson would be the most appropriate guardian ad litem for the juvenile, the court shall appoint an attorney as guardian ad litem or a court appointed special advocate volunteer as a guardian ad litem, or both a guardian ad litem and a court appointed special advocate volunteer. A guardian ad litem who is an attorney shall act as his or her own counsel and as counsel for the juvenile, unless there are special reasons in a particular case why the guardian ad litem or the juvenile or both should have counsel in addition to the guardian ad litem. In such cases and in cases when the guardian ad litem or court appointed special advocate volunteer appointed by the court is not an attorney, the guardian ad litem or court appointed special advocate volunteer shall have the right to counsel, except that the guardian ad litem or court appointed special advocate volunteer shall be entitled to appointed counsel without regard to his or her financial ability to retain counsel. Whether such appointed counsel shall be provided at the cost of the county shall be determined as provided in subsection (1) of this section.".

Mr. Wesely offered the following amendment:
AM3607

1. Strike original sections 38 and 69 and insert the following new sections:

"Sec. 37. It is the intent of the Legislature that quality health care services and human services be provided to all

citizens of the state, that basic standards be developed to promote safe and adequate care of individuals in health care services facilities and human services facilities, that categories of facilities be regulated by the state solely for the purpose of protecting the public from unreasonable harm or danger, and that categories of facilities be regulated by the state only when it is demonstrated that regulation is in the best interest of the public.

The purposes of sections 37 to 50 of this act are to establish criteria that provide for the determination of what categories of facilities should be regulated, to develop a quality improvement mechanism which would periodically examine and reexamine the laws, regulations, processes, and results of the facility regulation system, to establish a facility regulation system based on meaningful results, including quality indicators, and to assure that the development, application, and implementation of the facility regulation system is consistent and uniform.

Sec. 38. For purposes of sections 37 to 50 of this act, the definitions found in sections 39 to 43 of this act are used.

Sec. 39. Credentialing means the totality of the licensure processes associated with obtaining a license or changing aspects of an existing license.

Sec. 40. Facility means any organization which provides health care services or human services to members of the general public.

Sec. 41. Health care services means services associated with the diagnosis and treatment of physical, mental, or emotional injury or illness or the prevention, rehabilitation, or continuing care related to health problems.

Sec. 42. Human services means services that assist individuals in the conduct of daily living and includes the provision of food and shelter, a minimum amount of such assistance and personal care, and health-related services for individuals who are in need of a protected environment but who are otherwise able to manage normal activities of daily living.

Sec. 43. Licensure means the permission granted by the state to provide health care services or human services to the public which would otherwise be unlawful without such permission and which is granted to facilities which meet prerequisite qualifications pertinent to public health, safety, and welfare.

Sec. 44. Credentialing of categories of facilities not previously licensed should occur only when:

(1) Credentialing is necessary to prevent harm or endangerment to the public health, safety, or welfare and the potential for the harm or endangerment is easily recognizable and not remote or dependent upon tenuous argument;

(2) Credentialing would not significantly diminish the supply of qualified providers or would not otherwise diminish the public's access to needed services; and

(3) There is no more cost-effective means of protecting

the public from harm than credentialing.

Sec. 45. If the Legislature finds that it is necessary for the protection of the public to regulate categories of facilities not previously regulated by state law after reviewing the criteria in section 44 of this act and considering governmental and societal costs and benefits, it is the intent of the Legislature that the least restrictive regulatory provisions consistent with protecting the public health, safety, and welfare be implemented.

Sec. 46. Changes in the credentialing of categories of currently licensed facilities should occur only when:

(1) Credentialing is not needed to ensure the protection of the public health, safety, or welfare or the then current rules and regulations or statutory provisions are not providing adequate protection of the public health, safety, or welfare;

(2) Credentialing has been more detrimental than beneficial to the public health, safety, or welfare by diminishing the supply of qualified providers or the public's access to needed services; or

(3) There are more cost-effective means of protecting the public from harm than credentialing.

Sec. 47. If the Legislature finds that it is necessary for the protection of the public to make changes in the statutes regulating categories of facilities after reviewing the criteria in section 46 of this act and considering governmental and societal costs and benefits, it is the intent of the Legislature that changes be implemented which are the least restrictive regulatory provisions consistent with protecting the public health, safety, and welfare.

Sec. 48. The Department of Health and Human Services Regulation and Licensure shall periodically examine and reexamine the regulations, processes, and results of the facility regulation system. Changes in the facility regulation system should occur whenever the department finds that:

(1) A program or procedure is not needed to ensure the protection of the public health, safety, or welfare or a program or procedure is not providing adequate protection of the public health, safety, or welfare;

(2) A program or procedure has been more detrimental than beneficial to the fulfillment of the department's regulatory responsibilities as defined by law or has diminished the supply of qualified providers or the public's access to needed services; or

(3) There are alternatives to a program or procedure that would more cost-effectively fulfill the department's duties and responsibilities.

Sec. 49. The Department of Health and Human Services Regulation and Licensure shall review the regulation or proposed regulation of categories of facilities based on the criteria in sections 37 to 50 of this act. On or before November 1 of each

year, the department shall provide the Legislature with recommendations for credentialing of categories of facilities not previously regulated and changes in the statutes governing the credentialing of categories of facilities.

Sec. 50. Nothing in this legislative bill is intended to authorize any certificate of need activities for facilities or to authorize the licensure of private practice health care services offices.

Sec. 51. Section 71-2024, Revised Statutes Supplement, 1997, is amended to read:

71-2024. (1) To protect the health, safety, and welfare of the public and to insure to the greatest extent possible the efficient, adequate, and safe practice of health care in any hospital, health care facility, or human services facility ~~or related institution~~ as defined in sections 71-2017 to 71-2029 and sections 37 to 50 of this act consistent with ~~the Nebraska Nursing Home Act,~~ the Uniform Controlled Substances Act, the Uniform Licensing Law, and sections 28-1437 to 28-1439.05, 71-2017 to 71-2029, 71-20,115 to 71-20,119, 71-6501, 71-6601 to 71-6615, and 71-6701 to 71-6717 and sections 37 to 50 of this act, the department shall adopt, promulgate, and enforce rules, regulations, and standards with respect to the different types of hospitals, health care facilities, and human services facilities, ~~and related institutions~~ except nursing homes, ~~to be licensed hereunder as may be~~ designed to further the accomplishment of the purposes of ~~sections 71-2017 to 71-2029~~ such act, law, and sections. Such rules, regulations, and standards shall be modified, amended, or rescinded from time to time in the public interest by the department. Such rules, regulations, and standards shall be in compliance with the Nebraska Nursing Home Act. (2) The department may accept accreditation by a recognized independent accreditation body, which has standards that are at least as stringent as those of the State of Nebraska, as evidence that the hospital, health care facility, or human services facility complies with the rules, regulations, and standards adopted and promulgated pursuant to subsection (1) of this section.

(3) In addition to the authority to inspect in section 71-2022, the department may adopt and promulgate rules and regulations which allow for recognition of alternative methods for assessing the compliance of the hospital, health care facility, or human services facility with the rules, regulations, and standards adopted and promulgated pursuant to subsection (1) of this section.

AM3519

(Amendments to Standing Committee amendments, AM3434)

1. Insert the following new sections:

"Section 1. Sections 1 to 10 of this act shall be known and may be cited as the Native American Public Health Fund Act.

Sec. 2. The Legislature finds that members of Nebraska's federally recognized Native American tribes are not receiving adequate basic public health services, especially in the areas of education and prevention. The leading causes of death among Native American people are largely preventable. Many Native American people suffer from preventable diseases such as diabetes, cardiovascular disease, and alcohol-related fatalities. An alarming number of tribal members engage in health-threatening activities such as smoking, substance abuse, and poor diet. Births to teenaged Native Americans are higher than any other racial group. Unintentional injuries are costing Native American people years of productivity and potential. As a result, the life expectancy among Native Americans is low while the infant mortality rate is high when compared to Nebraska's general population. The problems and future costs associated with a lack of adequate public health services will continue to escalate as seventy percent of tribal members on reservations and in service areas are children.

To protect a generation of Native American children and to provide for a safe, healthy future for future generations of Native American people, the Legislature declares that public health infrastructure focusing on health education and preventative health measures for Native Americans must be addressed.

Sec. 3. The Native American Public Health Fund is created. The fund may include revenue from appropriations from the Legislature, grants, private contributions, and all other sources. It is the intent of the Legislature that each year beginning with fiscal year 1998-99, five hundred thousand dollars shall be transferred from the Nebraska Health Infrastructure Trust Fund to the Native American Public Health Fund. The fund shall be administered by the Department of Health and Human Services.

Sec. 4. The Department of Health and Human Services shall use the Native American Public Health Fund to contract with the health clinics of Nebraska's federally recognized Native American tribes and Indian health organizations to provide educational and public health services targeted to Native American

populations. The following educational and public health services may be considered by the department for such contracts:

(1) Identification and enrollment of children in state and federal programs providing access to health insurance or health care;

(2) Efforts to educate children and adults about the health risks associated with smoking and tobacco use, alcohol abuse, and other substances that threaten health and well-being and other activities designed to reduce the rate of substance abuse;

(3) Prenatal care education for women and notification of programs that improve prenatal care;

(4) Education focusing on proper diet and the importance of physical activity to good health;

(5) Blood pressure and cholesterol screenings;

(6) Support of efforts to identify children and adults at risk for depression and other mental health conditions and provide mental health counseling to prevent suicide;

(7) Parenting classes and the promotion of such programs;

(8) Efforts to discourage drinking and driving and to encourage the use of seat belts;

(9) Tests and education for acquired immunodeficiency syndrome and other sexually transmitted diseases;

(10) Tests for pregnancy and referrals to prenatal care when directed;

(11) Educational efforts aimed at reducing teen pregnancies and other unintended pregnancies;

(12) Case management for pregnant women, children, or adults with special health care needs;

(13) Efforts to make health care prevention services more affordable or accessible;

(14) Matching funds for state and federal programs designed to address public health needs;

(15) Staffing needs for public health services or education including the recruitment and training of Native American providers;

(16) Cervical and breast cancer detection services and other prevention components of comprehensive women's health services;

(17) Education to prevent and reduce the occurrence of diabetes; and

(18) Other prevention or educational activities or programs that address the health, safety, or self-sufficiency of Native American persons.

Sec. 5. During each fiscal year, the Director of Health and Human Services shall contract with the health clinics of Nebraska's federally recognized Native American tribes as approved by the tribal councils and Indian health organizations to provide educational and public health services pursuant to section 4 of this act. The director shall fund all eligible contracts until the

Native American Public Health Fund is depleted, but shall give priority to contracts which meet the following criteria:

(1) Programs or activities that directly impact the health and well-being of children;

(2) Programs or activities which serve the greater number of people over the longest period of time;

(3) Programs or activities that are part of a larger plan for strategic public health planning and implementation;

(4) Current programs or activities that have demonstrated success in improving public health or new programs or activities modeled on successful programs and activities; and

(5) Programs or activities that focus on primary prevention and show promise in reducing future health care expenditures.

Sec. 6. The Department of Health and Human Services shall provide technical assistance and assessment of needs evaluations upon request to aid tribal councils in the development of contract proposals.

Sec. 7. The Director of Health and Human Services shall equally distribute four hundred thousand dollars of the Native American Public Health Fund to each of the four federally recognized Native American tribes. If no contract proposals fitting the criteria of section 4 of this act are submitted, the tribe's share of the funds may be held by the director until such time that an adequate contract can be negotiated. The director shall distribute the remaining one hundred thousand dollars to any federally recognized tribes or Indian health organizations whose proposed educational and public health services contracts best meet the criteria of section 5 of this act.

Sec. 8. The recipients of the Native American Public Health Fund shall submit a report on the activities funded each fiscal year. The report shall provide information as required by the Director of Health and Human Services to determine the effectiveness of the contract in meeting the goals of the Native American Public Health Fund Act.

Sec. 9. If the Director of Health and Human Services determines that services are not being delivered in accordance with the contract, the director may seek to recapture all or a portion of funds expended.

Sec. 10. The Department of Health and Human Services shall adopt and promulgate rules and regulations to carry out the Native American Public Health Fund Act and shall adhere to already established or adopted and promulgated rules and regulations for contracted services under the act.".

AM3633

1. Insert the following new sections:

"Sec. 83. For purposes of sections 83 to 86 of this act:

(1) Health insurance plan means, notwithstanding section 44-3,131, (a) any individual or group sickness and accident insurance policy or subscriber contract delivered, issued for delivery, or renewed in this state and any hospital, medical, or surgical expense-incurred policy, except for policies that provide coverage for a specified disease or other limited-benefit coverage, and (b) any self-funded employee benefit plan to the extent not preempted by federal law. Health insurance plan includes any policy, contract, or plan offered or administered by the state or its subdivisions;

(2) Mental health condition means any condition or disorder involving mental illness or alcohol or substance abuse that falls under any of the diagnostic categories listed in the Mental Disorders Section of the International Classification of Disease, as periodically revised;

(3) Mental health professional means (a) a practicing physician licensed to practice medicine in this state under the provisions of section 71-102, (b) a practicing psychologist licensed to engage in the practice of psychology in this state as provided in section 71-1,206.14, or (c) a practicing mental health professional licensed or certified in this state as provided in section 71-1,333; and

(4) Rate, term, or condition means any lifetime or annual payment limits, deductibles, copayments, coinsurance, and any other cost-sharing requirements, out-of-pocket limits, visit limits, and any other financial component of a health insurance plan that affects the insured.

Sec. 84. (1) On or after January 1, 1999, any health insurance plan delivered, issued, or renewed in this state shall provide coverage for treatment of a mental health condition and shall not establish any rate, term, or condition that places a greater financial burden on an insured for access to treatment for a mental health condition than for access to treatment for a physical health condition. Any deductible or out-of-pocket limits required under a health insurance plan shall be comprehensive for coverage of both mental health conditions and physical health conditions.

(2) On or after January 1, 1999, any health insurance plan delivered, issued, or renewed in this state that does not

otherwise provide for management of care under the plan, or that does not provide for the same degree of management of care for all health conditions, may provide coverage for treatment of mental health conditions through a managed care organization if the managed care organization is in compliance with the rules and regulations adopted and promulgated by the Department of Insurance that assure that the system for delivery of treatment for mental health conditions does not diminish or negate the purpose of this section. The rules and regulations shall provide that timely and appropriate access to care is available; that the quantity, location, and specialty distribution of health care providers is adequate; and that administrative or clinical protocols do not serve to reduce access to medically necessary treatment for any insured.

(3) A health insurance plan shall be construed to be in compliance with this section if at least one choice for treatment of mental health conditions provided to the insured within the plan has rates, terms, and conditions that place no greater financial burden on the insured than for access to treatment of physical conditions. The Director of Insurance may disapprove any plan that the director determines to be inconsistent with the purposes of this section.

(4) To be eligible for coverage under this section, the health care shall be rendered:

(a) For treatment of mental illness, (i) by a mental health professional, (ii) by a person authorized by the rules and regulations of the Department of Health and Human Services Regulation and Licensure to provide treatment for mental illness, (iii) in a mental health center as defined in section 71-2017.01, or (iv) in any other licensed institution or facility authorized in section 71-2017.01 that provides a program for the treatment of a mental health condition pursuant to a written plan. A nonprofit hospital or a medical service organization may require a health care provider under subdivision (4)(a) of this section to enter into a contract as a condition of providing benefits; and

(b) For treatment of alcohol or substance abuse, (i) by a mental health professional, (ii) by a person authorized by the rules and regulations of the Department of Health and Human Services Regulation and Licensure to provide treatment for alcohol or substance abuse, (iii) in a substance abuse treatment center as defined in section 71-2017.01, or (iv) in any other licensed institution or facility authorized in section 71-2017.01 that provides a program for the treatment of alcohol or substance abuse pursuant to a written plan.

(5) The Department of Insurance and the Department of Health and Human Services Regulation and Licensure shall adopt and promulgate rules and regulations necessary to implement this section.

Sec. 85. On or before December 1, 1999, the Department

of Insurance shall make a written report to the Legislature. The report shall contain the following:

(1) An estimate of the impact of section 84 of this act on health insurance costs;

(2) Actions taken by the department to assure that health insurance plans are in compliance with section 84 of this act and that quality and access to treatment for mental health conditions provided by the plans are not compromised by providing financial parity for such coverage;

(3) When a health insurance plan offers choices for treatment of mental health conditions as provided in subsection (3) of section 84 of this act, an analysis and comparison of those choices in regard to the level of access, choice, and financial burden; and

(4) Identification of any segments of the population of Nebraska that may be excluded from access to treatment for mental health conditions at the level provided in section 84 of this act, including an estimate of the number of Nebraskans excluded from such access under health insurance plans offered or administered by employers who receive the majority of their annual revenue from contract, grants, or other expenditures by state agencies.

Sec. 86. The provisions of section 84 of this act shall not be construed to:

(1) Limit the provision of specialized medicaid covered services for persons with mental health conditions;

(2) Supersede the provisions of federal law, federal or state medicaid policy, or the terms and conditions imposed on any medicaid waiver granted to the state with respect to the provision of services to persons with mental health conditions; or

(3) Affect any annual health insurance plan until its date of renewal or any health insurance plan governed by a collective bargaining agreement or employment contract until the expiration of that contract.".

2. Correct the operative date so that the sections added by this amendment become operative on their effective date.

3. Renumber the remaining sections and correct internal references accordingly.

"Sec.35. AGENCY NO. 26 -- DEPARTMENT OF HEALTH AND HUMAN SERVICES FINANCE AND SUPPORT

Program No. 514 - Health Aid

| | FY1997-98 | FY1998-99 |
|---|---|---|
| GENERAL FUND | -0- | 500,000 |
| PROGRAM TOTAL | -0- | 500,000 |

(1) The Legislature finds that members of Nebraska's federally recognized Native American tribes are not receiving adequate basic public health services, especially in the areas of education and prevention. The leading causes of death among Native American people are largely preventable. Many Native American people suffer from preventable diseases such as diabetes, cardiovascular disease, and alcohol-related fatalities. An alarming number of tribal members engage in health-threatening activities such as smoking, substance abuse, and poor diet. Births to teenaged Native Americans are higher than any other racial group. Unintentional injuries are costing Native American people years of productivity and potential. As a result, the life expectancy among Native Americans is low while the infant mortality rate is high when compared to Nebraska's general population. The problems and future costs associated with a lack of adequate public health services will continue to escalate as seventy percent of tribal members on reservations and in service areas are children. To protect a generation of Native American children and to provide for a safe, healthy future for future generations of Native American people, the Legislature declares that public health infrastructure focusing on health education and preventative health measures for Native Americans must be addressed.

(2) The Native American Public Health Fund is created. The fund may include revenue from appropriations from the Legislature, grants, private contributions, and all other sources. It is the intent of the Legislature that each year beginning with fiscal year 1998-99, five hundred thousand dollars shall be transferred from the General Fund to the Native American Public Health Fund. The fund shall be administered by the Department of Health and Human Services.

(3) The Department of Health and Human Services shall use the Native American Public Health Fund to contract with the health clinics of Nebraska's federally recognized Native American tribes and Indian health organizations to provide educational and public health services targeted to Native American populations. The following educational and public health services may be considered by the department for such contracts:

(a) Identification and enrollment of children in state and federal programs providing access to health insurance or health care;

(b) Efforts to educate children and adults about the health risks associated with smoking and tobacco use, alcohol abuse, and other substances that threaten health and well-being and other activities designed to reduce the rate of substance abuse;

(c) Prenatal care education for women and notification of programs that improve prenatal care;

(d) Education focusing on proper diet and the importance of physical activity to good health;

(e) Blood pressure and cholesterol screenings;

(f) Support of efforts to identify children and adults at risk for depression and other mental health conditions and provide mental health counseling to prevent suicide;

(g) Parenting classes and the promotion of such programs;

(h) Efforts to discourage drinking and driving and to encourage the use of seat belts;

(i) Tests and education for acquired immunodeficiency syndrome and other sexually transmitted diseases;

(j) Tests for pregnancy and referrals to prenatal care when directed;

(k) Educational efforts aimed at reducing teen pregnancies and other unintended pregnancies;

(l) Case management for pregnant women, children, or adults with special health care needs;

(m) Efforts to make health care prevention services more affordable or accessible;

(n) Matching funds for state and federal programs designed to address public health needs;

(o) Staffing needs for public health services or education including the recruitment and training of Native American providers;

(p) Cervical and breast cancer detection services and

other prevention components of comprehensive women's health services;

(q) Education to prevent and reduce the occurrence of diabetes; and

(r) Other prevention or educational activities or programs that address the health, safety, or self-sufficiency of Native American persons.

(4) During each fiscal year, the Director of Health and Human Services shall contract with the health clinics of Nebraska's federally recognized Native American tribes as approved by the tribal councils and Indian health organizations to provide educational and public health services pursuant to subdivision (3) of this section. The director shall fund all eligible contracts until the Native American Public Health Fund is depleted, but shall give priority to contracts which meet the following criteria:

(a) Programs or activities that directly impact the health and well-being of children;

(b) Programs or activities which serve the greater number of people over the longest period of time;

(c) Programs or activities that are part of a larger plan for strategic public health planning and implementation;

(d) Current programs or activities that have demonstrated success in improving public health or new programs or activities modeled on successful programs and activities; and

(e) Programs or activities that focus on primary prevention and show promise in reducing future health care expenditures.

(5) The Department of Health and Human Services shall provide technical assistance and assessment of needs evaluations upon request to aid tribal councils in the development of contract proposals.

(6) The Director of Health and Human Services shall equally distribute four hundred thousand dollars of the Native American Public Health Fund to each of the four federally recognized Native American tribes. If no contract proposals fitting the criteria of subdivision (4) of this section are submitted, the tribe's share of the funds may be held by the director until such time that an adequate contract can be negotiated. The director shall distribute the remaining one hundred thousand dollars to any federally recognized tribes or Indian health organizations whose proposed educational and public health services contracts best meet the criteria of subdivision (4) of this section.

(7) The recipients of the Native American Public Health Fund shall submit a report on the activities funded each fiscal year. The report shall provide information as required by the Director of Health and Human Services to determine the effectiveness of the contract in providing the services described in subdivision (3) of this section.

(8) If the Director of Health and Human Services determines that services are not being delivered in accordance with the contract, the director may seek to recapture all or a portion of funds expended.

(9) The Department of Health and Human Services shall adopt and promulgate rules and regulations to carry out this section and shall adhere to already established or adopted and promulgated rules and regulations for contracted services under this section.

(10) The Legislature intends for the Native American Public Health Fund to supplement federal efforts to provide health care services to the members of Nebraska's federally recognized Native American tribes. Nothing in this section shall be construed as legislative intent to replace or pre-empt the federal government's current or future responsibility for providing health care services to Nebraska's federally recognized Native American tribes.".

29-2264. (1) Whenever any person is placed on probation by a court and satisfactorily completes the conditions of his or her probation for the entire period or is discharged from probation prior to the termination of the period of probation, the sentencing court shall issue an order releasing the offender from probation, and such order shall in all felony cases restore the offender's

civil rights.

(2) Whenever any person is convicted of a misdemeanor or felony and is placed on probation by the court or is sentenced to a fine only, he or she may, after satisfactory fulfillment of the conditions of probation for the entire period or after discharge from probation prior to the termination of the period of probation and after payment of any fine, petition the sentencing court to set aside the conviction and, in the court's discretion, expunge the conviction from such person's record. For purposes of this section, expungement means a court order which seals the records and prohibits either the disclosure of the existence of such records or the opening of such records unless such disclosure or opening is authorized by a court order. Government officials or employees in the course of their official duties may open and examine records expunged under this section without obtaining a court order.

(b) The likelihood that the offender will not engage in further criminal activity; and

(c) Any other information the court considers relevant.

(4) The court may grant the offender's petition and issue an order setting aside the conviction when in the opinion of the court the order will be in the best interest of the offender and consistent with the public welfare. The order shall:

(a) Nullify the conviction; and

(b) Remove all civil disabilities and disqualifications imposed as a result of the conviction.

(5) The setting aside of a conviction in accordance with the Nebraska Probation Administration Act shall not:

(a) Require the reinstatement of any office, employment, or position which was previously held and lost or forfeited as a result of the conviction;

(b) Preclude proof of a plea of guilty whenever such plea is relevant to the determination of an issue involving the rights or liabilities of someone other than the offender;

(c) Preclude proof of the conviction as evidence of the commission of the misdemeanor or felony whenever the fact of its commission is relevant for the purpose of impeaching the offender as a witness, except that the order setting aside the conviction may be introduced in evidence;

(d) Preclude use of the conviction for the purpose of determining sentence on any subsequent conviction of a criminal offense;

(e) Preclude the proof of the conviction as evidence of the commission of the misdemeanor or felony in the event an offender is charged with a subsequent offense and the penalty

provided by law is increased if the prior conviction is proved;

(f) Preclude the proof of the conviction to determine whether an offender is eligible to have a subsequent conviction set aside in accordance with the Nebraska Probation Administration Act; or

(g) Preclude use of the conviction as evidence of commission of the misdemeanor or felony for purposes of determining whether an application filed or a license issued under sections 71-1901 to ~~71-1905~~ 71-1906.02 or 71-1908 to 71-1917 should be denied, suspended, or revoked.

The design of the tax tables shall be determined by the Tax Commissioner. The size of the tax table brackets may change as the level of income changes. The difference in tax between two tax table brackets shall not exceed fifteen dollars. The Tax Commissioner may build the personal exemption credit and standard deduction amounts into the tax tables.

Sec. 2. Section 77-2716.01, Reissue Revised Statutes of Nebraska, is amended to read:

77-2716.01. (1) Every individual shall be allowed to subtract from his or her income tax liability an amount for personal exemptions. The amount allowed to be subtracted shall be the credit amount for the year as provided in this section multiplied by the number of exemptions allowed on the federal return. For tax year 1993, the credit amount shall be sixty-five dollars; for tax year 1994, the credit amount shall be sixty-nine dollars; for tax year 1995, the credit amount shall be sixty-nine dollars; for tax year 1996, the credit amount shall be seventy-two dollars; for tax year 1997, the credit amount shall be eighty-six dollars; for tax year 1998, the credit amount shall be eighty-eight dollars; for tax year 1999, and each year thereafter, the credit amount shall be adjusted for inflation by the method provided in section 151 of the Internal Revenue Code of 1986, as amended. The sixty-five-dollar credit amount shall be adjusted for cumulative inflation since 1993. If any credit amount is not an even dollar amount, the amount shall be rounded to the nearest dollar. The amount allowed for each personal exemption shall be reduced, but not below zero, by five dollars for each five thousand dollars, or portion thereof, that federal adjusted gross income exceeds ninety thousand dollars for married filing joint returns, fifty-four thousand dollars for single returns, seventy-five thousand dollars for head-of-household returns, and for married filing separate returns, one-half the amount stated in this subsection for married filing joint returns. For nonresident individuals and partial-year resident individuals, the personal exemption credit shall be subtracted as specified in subsection (3) of section 77-2715. For tax year 1994 and each tax year thereafter, the income levels stated in this subsection shall be adjusted for inflation by the method provided in section 151 of the Internal Revenue Code of 1986, as amended. If any income level in this subsection is not a multiple of one thousand dollars, the amount shall be rounded to

the next highest multiple of one thousand dollars.

(2) Every individual who did not itemize deductions on his or her federal return shall be allowed to subtract from federal adjusted gross income a standard deduction equal to the federal standard deduction for the filing status used on the federal return except as the amount is adjusted under section 77-2716.03, and for taxable years beginning or deemed to begin on or after January 1, 1999, individuals filing married filing joint returns shall be allowed to subtract a standard deduction equal to the federal standard deduction plus an adjustment for two-earner families. The adjustment for two-earner families shall be equal to the total difference between the federal standard deduction for married filing joint returns and twice the federal standard deduction for single filers multiplied times a fraction, the numerator of which is the total wages and net earnings from self-employment as defined in section 1402 of the Internal Revenue Code of 1986, as amended, of the spouse with the lower total wages and net earnings from self-employment, and the denominator of which is the total wages and net earnings from self-employment of the other spouse.

(3) Every individual who itemized deductions on his or her federal return shall be allowed to subtract from federal adjusted gross income the greater of either the standard deduction allowed in subsection (2) of this section or the amount before the federal disallowance of his or her federal itemized deductions, except for the amount deducted on the federal return for state or local income taxes paid and the amount of any adjustment required under section 77-2716.03.

Sec. 3. Original section 77-2716.01, Reissue Revised Statutes of Nebraska, and section 77-2715.02, Revised Statutes Supplement, 1997, are repealed.".

AM3789

(Amendments to AM3492)

1. Insert the following new sections:

"Sec. 14. The Legislature finds and determines that: (1) There is an urgent need for certain capital improvements on the campuses, facilities, and lands owned or under the control of the Board of Trustees of the Nebraska State Colleges; (2) unacceptable delays and deferral of such capital improvement projects would result if the funding for such projects were provided solely from appropriations by the State of Nebraska because of budgetary constraints on funds of the State of Nebraska; (3) it is necessary, desirable, and advisable to authorize the board of trustees to generate funds for such capital improvement projects and to provide for the accumulation, investment, and expenditure of such funds; and (4) such action is required to permit the board of trustees to adequately fulfill the goals and mission established for the state colleges.

Sec. 15. Beginning July 1, 1998, the Board of Trustees of the Nebraska State Colleges may levy and assess a facilities fee upon each student enrolled in any course offered by any institution under the control of the board of trustees. All fees so collected shall be expended for the purpose of paying the costs of capital improvement projects approved by the board of trustees on any of the campuses, facilities, or lands owned or controlled by the board.

Sec. 16. The State College Facility Fee Fund is created. Until any facilities fees collected by the Board of Trustees of the Nebraska State Colleges under section 15 of this act are expended, the board of trustees may accumulate such fees in the fund. All money accruing to the fund is appropriated to the board of trustees and shall be used for capital improvement projects authorized by the board. No expenditure may be made from the fund without prior approval by a resolution of the board of trustees. Any money in the fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act. All revenue, fund balances, and expenditures shall be recorded in the State of Nebraska accounting system.

Sec. 17. The Board of Trustees of the Nebraska State Colleges may enter into contracts with any person, firm, or corporation to accomplish (1) any capital improvement project for which a facility fee is to be assessed by the board of trustees

pursuant to section 15 of this act and (2) any capital improvement project authorized by the Legislature and for which all or any part of the costs are to be paid from appropriations by the Legislature. Each contract shall provide for the payment of the costs of such project from the State College Facility Fee Fund or any fund or appropriations established by the Legislature in connection with such project. No contract shall be for a period in excess of fifteen years. The board of trustees shall not pledge the credit of the State of Nebraska for the payment of any sum owing on account of such contract, except that there may be pledged for the payment of any such contract any appropriations specifically made by the Legislature for such purpose. No contract shall be entered into pursuant to this section without prior approval by a resolution of the board of trustees. For purposes of review by the Coordinating Commission for Postsecondary Education, the facilities fee levied and collected under section 15 of this act shall be considered to be the equivalent of fees collected under the authority of section 85-404 and shall comply with the review procedures established in such section.

Sec. 18. The Board of Trustees of the Nebraska State Colleges may convey or lease and lease back all or any part of any project undertaken pursuant to sections 14 to 17 of this act and the land on which such project is situated to the person, firm, or corporation with which the board of trustees contracts pursuant to such sections to facilitate the long-term payment of the costs of the project. Any such conveyance or lease shall provide that when the cost of the project has been paid, together with interest and other costs thereon, the project and the land on which it is located shall become the property of the board of trustees.".

"Sec. 11. (1) If disclosure is made pursuant to section 10 of this act and the agency having regulatory authority has approved the action taken or the schedule to achieve compliance, as appropriate, which approval shall not be unreasonably withheld, the person is not liable for civil penalties unless (a) the disclosure did not arise out of an environmental audit, (b) the person did not make written disclosure within ten days after discovery of the possible violation to the regulatory agency, (c) the disclosure was not made to the agency having regulatory authority prior to the agency having knowledge of the violation contained in the disclosure, (d) the violation has not been corrected within sixty days after discovery, (e) any harm caused by the violation has not been remedied, including, but not limited to, removal or remedial action, (f) the person has not agreed to appropriate measures and has not implemented such measures to prevent recurrence of the violation, (g) the person making the disclosure did not cooperate with the agency having regulatory authority with regard to the violation disclosed regarding investigation of the issues identified in the disclosure, (h) the violation was knowing and willful, (i) the violation was due to a lack of good faith efforts to understand and comply with the environmental requirements, or (j) the violation would likely result or has resulted in significant adverse impact on the public health or the environment.

When disclosure within ten days is not practical because compliance cannot be determined within that period, the regulatory agency may accept later disclosure if the circumstances do not present a serious threat and the regulated entity meets its burden of showing that the additional time was needed to determine compliance.

(3) For purposes of subdivision (1)(a)(iii) of this section and subdivision (1)(c) of section 11 of this act, if more than sixty days is needed to correct the violation, the regulated entity must notify the regulatory agency in writing before the sixty-day period has passed. **LEGISLATIVE BILL 1154.** Placed on General File as amended.
Standing Committee amendment to LB 1154:

AM3755

1. Strike the original sections and all amendments thereto and insert the following new sections:

"Section 1. Sections 1 to 11 of this act shall be known and may be cited as the Buffer Strip Act.

Sec. 2. The Legislature finds and declares that:

(1) Buffer strips help to reduce the levels of sediment, crop nutrient, pesticides, and other chemicals introduced into surface water resources; and

(2) Both wildlife and people benefit as a result of improved water quality.

Sec. 3. For purposes of the Buffer Strip Act:

(1) Board means the Nebraska Pesticide Board created pursuant to section 4 of this act;

(2) Buffer strip means a strip of vegetation used to intercept or trap field sediment, organics, pesticides, and other potential pollutants before they reach surface water;

(3) Department means the Department of Agriculture;

(4) District means a natural resources district; and

(5) Person means any individual, partnership, firm, corporation, company, society, or association, the state or any department, agency, or subdivision thereof, or any other public or private entity.

Sec. 4. (1) In order to implement the Buffer Strip Act, the Nebraska Pesticide Board is created. It shall be the duty of the board to advise and provide recommendations to the department regarding the administration of the Buffer Strip Act, the use of proceeds from the Buffer Strip Incentive Fund, and the approval or disapproval of the buffer strip plan required in section 5 of this act. The department may ask the board for a review of the existing rules and regulations, administrative procedures, and other components of the Buffer Strip Act. The board shall meet at least once a year.

(2) The Rules and Regulations Advisory Committee created pursuant to section 2-2626 shall appoint members of the Nebraska Pesticide Board. The board shall be composed of, but not limited to, the following members:

(a) Two persons representing the pesticide industry;

(b) Two persons representing agricultural producers;

(c) One person representing the University of Nebraska Institute of Agriculture and Natural Resources;

(d) One person representing environmental interests; and

(e) One person representing municipalities.

(3) The terms of the members of the board shall be three years, except that the terms of the initial members of the board shall be staggered so that one-third of the members are appointed for terms of one year, one-third for terms of two years, and one-third for terms of three years, as determined by the committee. As the terms of the initial members expire, their successors shall

be appointed or elected for three-year terms in the same manner as the initial members. Any vacancy shall be filled by appointment in the same manner as the appointment of initial members.

(4) Members of the board shall be reimbursed for their actual and necessary expenses as provided in sections 81-1174 to 81-1177.

Sec. 5. The department shall devise a statewide buffer strip plan with its priority being the improvement of the quality of the domestic and public water supply. Upon the approval of the board, the department shall submit the plan to the Legislature by December 1, 1998.

Sec. 6. The Buffer Strip Incentive Fund is created. Proceeds raised from fees imposed for the registration of pesticides and earmarked for the fund pursuant to section 2-2634, proceeds raised from federal grants earmarked for the fund, and any proceeds raised from public or private donations made to the fund shall be remitted to the State Treasurer for credit to the fund. The fund shall be administered by the department to maintain the buffer strip program and for expenses directly related to the program, including necessary expenses of the department in carrying out its duties and responsibilities under the Buffer Strip Act. The annual cost of administering the buffer strip program shall not exceed ten percent of the total annual proceeds credited to the Buffer Strip Incentive Fund. Such administrative costs shall include funds allocated by the department to the districts for their administrative costs. Any money in the fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act.

Sec. 7. (1) Any person who desires to create a buffer strip adjacent to surface water on his or her property may submit an application for buffer strip reimbursement to the district. The application shall include the location of the proposed buffer strip and the total number of acres to be included in the proposed buffer strip. If the person will receive any money from any other source for use of the land proposed for the buffer strip, the application shall include the identity of the source or sources, the amount of money to be received, and the length of time the money will be received.

(2) All applications for buffer strip reimbursement under the Buffer Strip Act shall be submitted by a date established by rules and regulations adopted and promulgated pursuant to section 11 of this act.

(3) Upon receipt of an application for buffer strip reimbursement, the district shall review the application for compliance with the requirements set forth in the rules and regulations adopted and promulgated pursuant to section 11 of this act.

(4) If the district determines that the application is

not in compliance with the requirements established by the department, the district shall inform the applicant of the deficiencies in the plan and, if feasible, recommend an alternate plan which complies with the rules and regulations of the department. The applicant may then submit a new application consistent with the recommendation of the district.

(5) If the district determines that the application is in compliance with the standards established by the department, the district shall forward the application to the department. The application shall include a written evaluation of the applicant's compliance with the requirements set forth in rules and regulations adopted and promulgated pursuant to section 11 of this act.

Sec. 8. (1) Upon receipt of the application for buffer strip reimbursement, the department shall review the application for compliance with the rules and regulations adopted and promulgated pursuant to section 11 of this act.

(2) If the department determines that the application is not in compliance with the rules and regulations adopted and promulgated pursuant to section 11 of this act, the department shall inform the district of the deficiencies. The district shall then inform the applicant of the deficiencies and allow the applicant to submit a new application.

(3) The department shall determine which applications are in compliance with the rules and regulations adopted and promulgated under section 11 of this act and shall compile a list of all such applications according to the factors set forth in the rules and regulations. From such prioritized list, and based upon the amount of funds available, the department shall notify the districts which applications are approved. Funds approved by the department for buffer strip reimbursement shall only be for buffer strips created after January 1, 1996. The total amount of funds available for all new and existing agreements shall not exceed the projected available cash balance of the Buffer Strip Incentive Fund for the entire term of the agreements.

Sec. 9. (1) Upon approval of an application by the district and the department, the district shall enter into a contractual agreement with the applicant for the land included in the buffer strip. The agreement shall include a provision that the applicant shall maintain the buffer strip in accordance with the approved plan during the term of the rental agreement. The agreement may also include a provision that the applicant shall not apply specified fertilizers on buffered fields between designated dates. Failure to maintain the buffer strip in accordance with the plan shall be cause for all future payments under the agreement to be forfeited and shall be cause for the recovery by the department of any payments previously made. Upon submission of a copy of the agreement to the department, it shall authorize the State Treasurer to transfer funds to the district from the Buffer Strip Incentive Fund in an amount equal to the total amount of funds due for the

agreement in that district that year. Such transfer shall be made as soon as funds are available.

(2) If the applicant does not receive reimbursement from any other source for the land included in the buffer strip, the district shall pay the applicant annually an amount not to exceed one hundred fifty dollars per acre or fraction thereof included in the buffer strip.

(3) If the applicant receives reimbursement from any other source for the land included in the buffer strip, the district shall pay the applicant annually an amount not to exceed one hundred fifty dollars per acre included in the buffer strip, minus the amount of the other reimbursement.

(4) The actual amount of any payment made to an applicant under subsection (2) or (3) of this section shall be determined by the district using the sliding scale provided in section 11 of this act. Such amount shall be included as part of the application submitted to the department.

(5) Contractual agreements pursuant to this section shall be for a minimum term of five years and a maximum term of ten years.

(6) Following the expiration of any contractual agreement pursuant to this section, the applicant may apply to renew the agreement. Any application for renewal of an agreement shall be made in accordance with sections 7 to 9 of this act and shall be considered with any new applications.

Sec. 10. Each district shall take reasonable steps to ensure that contractual agreements pursuant to section 9 of this act are complied with by the applicant. The department shall adequately reimburse the districts for the costs of such purposes. If the applicant does not comply with the terms of the agreement, the district shall discontinue any payments to the applicant.

Sec. 11. The department shall adopt and promulgate such rules and regulations as are necessary for the enforcement and administration of the Buffer Strip Act. The rules and regulations shall include, but not be limited to, rules and regulations providing for:

(1) Types of vegetation suitable for buffer strips;

(2) Appropriate width of buffer strips;

(3) Types of surface water appropriate for protection by buffer strips;

(4) Soil types and classifications appropriate for protection by buffer strips;

(5) A sliding scale, based on land value and potential environmental benefit, to determine the amount to be paid as payment under the act for the buffer strip;

(6) An index to rank those applications that meet the technical requirements of the act to determine priority of funding. Such index shall, at at minimum, identify the factors that will be considered in scoring an application and assign a numerical value

for each of those factors. In addition to those items listed in subdivisions (1) to (5) of this section, such factors shall also include an evaluation of each application for the water quality benefits from reduced soil erosion and runoff, the on-farm benefits of reduced soil erosion, and the cost per acre of an application. Priority may be given to those applications which create buffer strips at the lowest possible cost, assuming environmental protection benefits are equal in other respects;

(7) The minimum requirements necessary for any contractual agreement entered into between a district and applicant;

(8) A project map of the buffer strip program created by the Buffer Strip Act showing the location of buffer strips in each watershed; and

(9) Any other rule and regulation deemed appropriate for implementation of the Buffer Strip Act.

Sec. 12. Section 2-2634, Reissue Revised Statutes of Nebraska, is amended to read:

2-2634. (1) As a condition to registration or renewal of registration as required by sections 2-2628 to 2-2633, an applicant shall pay to the department a fee of ~~one hundred~~ ninety dollars for each pesticide to be registered, except that the fee may be increased or decreased by the director after a public hearing is held outlining the reason for any proposed change in the fee. In no event shall such fee exceed one hundred fifty dollars for each pesticide to be registered. All fees collected shall be remitted to the State Treasurer for credit as follows:

(a) Thirty dollars of each such fee to the Noxious Weed Cash Fund as provided in section 2-958; ~~and~~

(b) Sixty dollars of each such fee to the Buffer Strip Incentive Fund as provided in section 6 of this act; and

(c) The remainder, if any, to the Pesticide Administrative Cash Fund.

(2) If a person fails to apply for renewal of registration before January 1 of any year, such person, as a condition to renewal, shall pay a late registration fee equal to twenty-five percent of the fee due and owing per month, not to exceed one hundred percent, for each product to be renewed in addition to the renewal fee.

Before any district enters into any contract for the construction, reconstruction, remodeling, building, alteration, maintenance, repair, extension, or improvement of any power plant or system, any ethanol producing or distributing system, any irrigation works, or any part or section thereof for the use of the district or for the purchase of any materials, machinery, or apparatus to be used in such construction, reconstruction, remodeling, building, alteration, maintenance, repair, extension, or improvement, such district shall cause estimates of the cost thereof to be made by some competent engineer or engineers. If such estimated cost exceeds the sum of ~~fifty~~ one hundred thousand dollars, no such contract shall be entered into without advertising for sealed bids, except that (1) the board may negotiate directly with sheltered workshops pursuant to section 48-1503 and (2) with respect to contracts entered into by a district in the exercise of its rights and powers relating to radioactive material or the energy therefrom, ~~or~~ to any maintenance or repair contracts, if the engineer or engineers certify that by reason of the nature of the subject matter of the contract compliance with this section would be impractical and not in the public interest and the engineer's certification is approved by a two-thirds vote of the board, the provisions of sections 70-637 to 70-639 relating to sealed bids shall not apply and the district shall advertise notice of its intention to enter into such contract, the general nature of the proposed work, and the name of the person to be contacted for

Notwithstanding any other provision of sections 70-637 to 70-639, a district may, without advertising or sealed bidding, purchase replacement parts or services relating to such replacement parts for any generating unit, transformer, or other transmission and distribution equipment from the original manufacturer of such equipment upon certification by an engineer or engineers that such manufacturer is the only available source of supply for such replacement parts or services and that such purchase is in compliance with standards established by the board. A written statement containing such certification and a description of the resulting purchase of replacement parts or services from the original manufacturer shall be submitted to the board for its approval at the next scheduled meeting of the board by the engineer or engineers certifying the purchase. After such certification, but not necessarily before the board review, notice of any such purchase shall be published once a week for at least three consecutive weeks in one or more newspapers of general circulation in the district and published in such additional newspapers or trade or technical periodicals as may be selected by the board in order to give proper notice of such purchase. Notwithstanding any other provision of sections 70-637 to 70-639, a district may purchase used equipment and materials on a negotiated basis without advertising or sealed bidding upon certification by an engineer that such equipment is or materials are in compliance with standards established by the board. Mr. Coordsen filed the following amendment to LB 989:
AM3790

(Amendments to AM3370)

1. Insert the following new sections:

"Sec. 6. Section 79-1007.02, Revised Statutes Supplement, 1997, is amended to read:

79-1007.02. For state aid calculated for school fiscal year 1998-99 and each school fiscal year thereafter:

(1) Using data from the annual financial reports, the annual statistical summary reports, fall membership reports, and the school district census as reported under sections 79-524 and 79-578 for the most recently available complete data year, the department shall divide the local systems into three cost groupings based upon the following criteria:

(a) Local systems that have (i) less than one-half student per square mile in the county in which the high school attendance center is located, based on the school district census, (ii) less than one formula student per square mile in the local system, and (iii) more than fifteen miles between the high school attendance center and the next closest high school attendance center on paved roads will be in the very sparse cost grouping;

(b) Local systems that do not qualify for the very sparse cost grouping but which meet the following criteria will be in the sparse cost grouping:

(i)(A) Less than two students per square mile in the county in which the high school is located, based on the school district census;

(B) Less than one formula student per square mile in the local system; and

(C) More than ten miles between the high school attendance center and the next closest high school attendance center on paved roads;

(ii)(A) Less than one and one-half formula students per square mile in the local system; and

(B) More than fifteen miles between the high school attendance center and the next closest high school attendance center on paved roads; or

(iii) The local system includes ninety-five percent or more of a county; and

(c) Local systems that do not qualify for the very sparse or the sparse cost groupings will be in the standard cost grouping.

(2) The department shall calculate the average formula cost per student in each cost grouping by dividing the total estimated general fund operating expenditures for the cost grouping by the total adjusted formula students for all local systems in the cost grouping. The total estimated general fund operating expenditures for the cost grouping is equal to the total adjusted general fund operating expenditures for all local systems in the cost grouping multiplied by a cost growth factor. The cost growth factor for each cost grouping is equal to the sum of: (a) One; plus (b) the product of two times the ratio of the difference between the formula students attributable to the cost grouping without weighting or adjustment pursuant to section 79-1007.01 and the average daily membership attributable to the cost grouping for the most recently available complete data year divided by the average

daily membership attributable to the cost grouping for the most recently available complete data year, except that the ratio shall not be less than zero; plus (c) the basic allowable growth rate pursuant to section 79-1025 for the school fiscal year when the aid is to be distributed; plus (d) the basic allowable growth rate pursuant to section 79-1025 for the school fiscal year immediately preceding the school fiscal year when the aid is to be distributed; plus (e) one-half of any additional growth rate allowed by special action of school boards for the school fiscal year when the aid is to be distributed as determined on or before December 1 of the school fiscal year immediately preceding the school fiscal year when aid is to be distributed; plus (f) one-half of any additional growth rate allowed by special action of the school boards for the school fiscal year immediately preceding the school fiscal year when the aid is to be distributed.

(3) Each local system's formula need will be equal to the local system's transportation allowance plus the local system's special education allowance plus the product of the local system's adjusted formula membership multiplied by the average formula cost per student in the local system's cost grouping.

Sec. 7. Section 79-1008.01, Revised Statutes Supplement, 1997, is amended to read:

79-1008.01. For school fiscal year 1998-99 and each school fiscal year thereafter:

(1) Except as provided in section 79-1011 for reorganized districts which become reorganized districts on or before June 30, 2005, and except as provided in subdivision (2) of this section and sections 79-1008.02 to 79-1010, each local system shall receive equalization aid in the amount that the total formula need of each local system, as determined pursuant to sections 79-1007.01, 79-1007.02, and 79-1014, exceeds its total formula resources as determined pursuant to sections 79-1015.01 to 79-1017.01 and 79-1018.01.

(2) Except as provided in section 79-1008.02, a local system shall not receive state aid for school fiscal year 1998-99 and each school fiscal year thereafter which is less than an amount equal to the difference of eighty-five percent of the amount of aid certified in the preceding school fiscal year minus an amount equal to any increase in the adjusted valuation between the adjusted valuation used for the certification of aid in the preceding school fiscal year and the adjusted valuation used for the aid being calculated multiplied by the maximum levy pursuant to subdivision (2)(a) of section 77-3442 without a vote pursuant to section 77-3444.

(3) Except as provided in subsection (2) of this section, no local system may receive equalization aid such that, when total aid is added to a levy of one dollar for state aid to be distributed in school fiscal years 1998-99 and 1999-2000 or of ninety cents for state aid to be distributed in school fiscal year

2000-01 and each school fiscal year thereafter, multiplied by the local system's adjusted valuation divided by one hundred, would result in total local system revenue from state aid plus property tax receipts which exceeds the total of:

(a) State aid plus property tax receipts received by the local system during the preceding school fiscal year multiplied by the total of (i) 1.01 plus (ii) the applicable allowable growth rate for the system calculated pursuant to section 79-1026 as determined on or before December 1 of the school fiscal year immediately preceding the school fiscal year when aid is to be distributed plus (iii) the percentage growth in formula students from the certification of state aid for the immediately preceding school fiscal year to the formula students for the certification of state aid for the current year, except that the percentage growth shall not be less than zero;

(b) Unused budget authority authorized pursuant to section 79-1030; and

(c) The difference between the other actual receipts included in district formula resources for the certification of state aid in the preceding school fiscal year and other actual receipts included in district formula resources for the certification of state aid for the current school fiscal year, except that such difference shall not be less than zero.

For districts that have reorganized, state aid, property tax receipts, and number of formula students shall be attributed based on valuation. The revenue from property tax receipts shall be calculated by multiplying the reported general fund common levy by the assessed valuation subject to the levy divided by one hundred.

(4) The aid that is not distributed through equalization based on subdivision (3) of this section shall be distributed through this subdivision. Local systems that qualify for distribution shall have nine hundred or less formula students and shall have adjusted general fund operating expenditures per formula student less than the average for all local systems with nine hundred or less formula students. The aid shall be distributed proportionally to qualifying districts based on the dollar amount each local system's calculated state aid plus the product of a levy of one dollar and ten cents for school fiscal years 1998-99 and 1999-00 and of one dollar for school fiscal year 2000-01 and each school fiscal year thereafter multiplied by the assessed valuation divided by one hundred is below ninety percent of state aid plus property tax receipts received by the local system during the preceding school fiscal year. The center shall conduct training in applied electronics technology and evaluation and testing of electronics equipment pursuant to the first, third, and fourth instructional and service priorities of section 85-962.

The grant shall be based on a proposal submitted by the Southeast Community College area to the Nebraska Community College Aid, Grant, and Contract Review Committee. The award of the grant shall be reported by the committee to the Director of Administrative Services. The grant shall not in the aggregate exceed the General Fund amount appropriated in this section.

Sec. 2. It is the intent of the Legislature that the appropriation provided in section 1 of this act be the maximum

amount of state funds applied to this project. All costs of the center greater than such appropriation shall be funded from nonstate sources. The costs of the center greater than such appropriation shall include costs of operation, maintenance, and necessary upgrading of equipment. Nonstate sources for the purpose of this section and sections 6 and 9 of this act means fees, grants, and contributions from individuals, corporations, companies, and associations for the evaluation and testing of electronics equipment.

Sec. 3. The proposal submitted by the Southeast Community College area under section 1 of this act shall include an operating plan for the center. The operating plan shall show financial commitments from nonstate sources and reasonably estimated revenue to provide the operation, maintenance, and necessary upgrading of equipment for a period of at least one year beyond the time that the operating plan shows a positive cash flow. The plan shall include a review by an independent financial analyst on the plan's reasonableness.

Sec. 4. The proposal submitted by the Southeast Community College area under section 1 of this act shall include provisions for cooperative efforts with other community college areas for use of the center for training in applied electronics technology.

The sale shall be subject to rights retained by the owner of the property on which the center is located.

Sec. 7. The Southeast Community College area may sell the center facilities at not less than its audited book value of assets. The sale shall be subject to consent by the owner of the property on which the center is located, which consent shall not be unreasonably withheld. The proceeds of the sale in an amount equal to the grant shall go to the Southeast Community College area, and proceeds in excess of the grant shall go to Agency 83 -- Aid to Community Colleges, for Program 99, for distribution to community college areas. The sale shall be subject to rights retained by the owner of the property on which the center is located.

Sec. 8. Following any year the center shows a net positive cash flow, the center shall annually set aside into a reserve fund an amount equal to sixty-seven percent of its net income less debt repayment for that year. The reserve fund shall

be available to the center for capital investment consistent with the purposes of the center which have a net positive present value. The reserve fund shall go to Agency 83 -- Aid to Community Colleges, for Program 99, at such time as the center facilities are sold.

Sec. 9. The Southeast Community College area shall report to the Legislature by December 31 of each year on the financial condition of the center, funding received from nonstate sources, training conducted, and testing and evaluation services provided.

AM3482

(Amendments to E & R Amendments AM7208)

1. Insert the following new sections:

"Section 1. Section 44-710.01, Reissue Revised Statutes of Nebraska, is amended to read:

44-710.01. No policy of sickness and accident insurance shall be delivered or issued for delivery to any person in this state unless (1) the entire money and other considerations therefor are expressed therein, (2) the time at which the insurance takes effect and terminates is expressed therein, (3) it purports to insure only one person, except that a policy may insure, originally or by subsequent amendment, upon the application of an adult member of a family who shall be deemed the policyholder, any two or more eligible members of that family, including husband, wife, dependent

children, any children enrolled on a full-time basis in any college, university, or trade school, or any children under a specified age which shall not exceed twenty-three years and any other person dependent upon the policyholder; any individual policy hereinafter delivered or issued for delivery in this state which provides that coverage of a dependent child shall terminate upon the attainment of the limiting age for dependent children specified in the policy shall also provide in substance that attainment of such limiting age shall not operate to terminate the coverage of such child during the continuance of such policy and while the child is and continues to be both (a) incapable of self-sustaining employment by reason of mental retardation or physical handicap and (b) chiefly dependent upon the policyholder for support and maintenance, if proof of such incapacity and dependency is furnished to the insurer by the policyholder within thirty-one days of the child's attainment of the limiting age and subsequently as may be required by the insurer but not more frequently than annually after the two-year period following the child's attainment of the limiting age; such insurer may charge an additional premium for and with respect to any such continuation of coverage beyond the limiting age of the policy with respect to such child, which premium shall be determined by the insurer on the basis of the class of risks applicable to such child, (4) it contains a title on the face of the policy correctly describing the policy, (5) the exceptions and reductions of indemnity are set forth in the policy and, except those which are set forth in sections 44-710.03 and 44-710.04, are printed, at the insurer's option, either included with the benefit provision to which they apply or under an appropriate caption such as EXCEPTIONS, or EXCEPTIONS AND REDUCTIONS; if an exception or reduction specifically applies only to a particular benefit of the policy, a statement of such exception or reduction shall be included with the benefit provision to which it applies, (6) each such form, including riders and endorsements, shall be identified by a form number in the lower left-hand corner of the first page thereof, ~~and~~ (7) it contains no provision purporting to make any portion of the charter, rules, constitution, or bylaws of the insurer a part of the policy unless such portion is set forth in full in the policy, except in the case of the incorporation of, or reference to, a statement of rates or classification of risks, or short-rate table filed with the Director of Insurance, and (8) on or after January 1, 1999, any restrictive rider contains a notice of the existence of the Comprehensive Health Insurance Pool if the policy provides health insurance as defined in section 44-4209.

Sec. 2. Section 44-4221, Revised Statutes Supplement, 1997, is amended to read:

44-4221. (1) To be eligible to purchase health insurance from the pool, a person shall:

(a) Be a resident of the state for a period of at least

six months and shall:

(i) Have received, within six months prior to application to the pool, a rejection in writing, for reasons of health, from an insurer;

(ii) Currently have, or have been offered within six months prior to application to the pool, health insurance coverage by an insurer which includes a restrictive rider which limits insurance coverage for a preexisting medical condition; ~~for a period of time exceeding twelve months;~~ or

(iii) Have been refused health insurance coverage comparable to the pool, or have been offered such coverage at a rate exceeding the premium rate for pool coverage, within six months prior to application to the pool; or

(b) Be a resident of the state for any length of time and be an individual:

(i) For whom, as of the date the individual seeks coverage under this section, the aggregate of the periods of creditable coverage is eighteen or more months and whose most recent prior creditable coverage was under a group health plan, governmental plan, or church plan;

(ii) Who is not eligible for coverage under a group health plan, Part A or Part B of Title XVIII of the Social Security Act, or a state plan under Title XIX of the Social Security Act, or any successor program, and who does not have any other health insurance coverage;

(iii) With respect to whom the most recent coverage was not terminated for factors relating to nonpayment of premiums or fraud; and

(iv) Who had been offered the option of continuation coverage under COBRA or under a similar program, who elected such continuation coverage, and who has exhausted such continuation coverage or who had been offered the option of continuation coverage under COBRA or under a similar program at a premium rate higher than that available from the pool.

(2) The board may adopt and promulgate a list of medical or health conditions for which a person would be eligible for pool coverage without applying for health insurance pursuant to this section. Persons who can demonstrate the existence or history of any medical or health conditions on the list adopted and promulgated by the board shall be eligible to apply directly to the pool for insurance coverage.

Sec. 3. Section 44-4227, Reissue Revised Statutes of Nebraska, is amended to read:

44-4227. Premium rates charged for pool coverage may not be unreasonable in relation to the benefits provided, the risk experience, and the reasonable expenses of providing the coverage. Rates shall directly relate to the coverage provided, risk experience, and expenses of providing the coverage. Rates and rate schedules may be adjusted for appropriate risk factors such as age,

sex, and area variation in claim costs in accordance with established actuarial and underwriting practices. Special rates shall be provided for children under eighteen years of age.

The pool shall determine the standard risk rate by calculating the average individual rate charged by the five insurers writing the largest amount of individual health insurance coverage in the state actuarially adjusted to be comparable with the pool coverage. In the event five insurers do not offer comparable coverage, the standard risk rate shall be established using reasonable actuarial techniques and shall reflect anticipated risk experience and expenses for such coverage. The annual premium rate established for pool coverage shall be one hundred thirty-five percent of rates established as applicable for individual standard risks, except that the annual premium rate established for pool coverage for children under eighteen years of age shall be sixty-seven and five-tenths percent of rates established as applicable for individual standard risks. The board shall not adjust or increase pool rates more than one time during any calendar year. All rates and rate schedules shall be submitted to the director for approval. The director shall hold a public hearing pursuant to the Administrative Procedure Act prior to approving an adjustment to or increase in pool rates.

Sec. 4. Section 44-4235, Reissue Revised Statutes of Nebraska, is amended to read:

44-4235. Every insurer shall include a notice of the existence of the pool in (1) any rejection of an application for health insurance coverage for reasons of the health of the applicant and (2) any restrictive health insurance rider issued on or after January 1, 1999.".

2. Correct the operative date repealer sections so that the sections added by this amendment become operative three calendar months after the adjournment of this legislative session.

3. Renumber the remaining sections and correct internal references accordingly.

## ATTORNEY GENERAL'S OPINION

Opinion No. 98019

| | |
|---|---|
| DATE: | March 16, 1998 |
| SUBJECT: | LB 953; Constitutionality of a bill which would redefine "funeral establishment" |
| REQUESTED BY: | Merton L. Dierks, Senator<br>Nebraska State Legislature |
| WRITTEN BY: | Don Stenberg, Attorney General<br>Lynn A. Melson, Assistant Attorney General |

You have requested an opinion from this office regarding the constitutionality of LB 953. This proposed legislation would redefine the term "funeral establishment" to mean "a place of business devoted to the care and preparation for burial, disposition, or cremation of dead human bodies, and for the purpose of conducting and arranging funeral services therefrom." The current definition, found at Neb. Rev. Stat. § 71-1301(9), provides instead that a "funeral establishment" is "a place of business . . . devoted to the care and preparation of dead human bodies for burial, disposition, or cremation or to conducting or arranging funeral services for dead human bodies." (Emphasis added). You state that the current statute has been interpreted by the Department of Health and Human Services Regulation and Licensure to mean that a funeral establishment need not have a preparation or embalming room. You also state that LB 953 would replace the current definition with the statutory definition of funeral establishment which existed prior to 1993.

You have asked whether the State has authority under the state and federal constitutions to enact LB 953 if the proposed change would restrict the creation of new businesses or expansion of existing businesses legally operating under the current statute. As you have asked our general opinion as to the constitutionality of the proposed legislation, our response to your request must necessarily also be general in nature.

The answer to your question depends on whether LB 953 is found to be a valid exercise of the State's police power. The Nebraska Supreme Court has held that the right to conduct a lawful business is a constitutionally protected right. ***State v. Copple***, 224 Neb. 672, 401 N.W.2d 141 (1987); ***Gillette Dairy, Inc. v. Nebraska Dairy Products Board***, 192 Neb. 89, 219 N.W.2d 214 (1974); ***Lincoln Dairy Co. v. Finigan***, 170 Neb. 777, 104 N.W.2d 227 (1960). However, that right is not absolute and may be curtailed by a proper exercise of the police power of the State to protect the public

health. ***State v. Hinze***, 232 Neb. 550, 441 N.W.2d 593 (1989). Generally, when a fundamental right or suspect classification is not involved in the legislation, a legislative act is a valid exercise of the police power if the act is "rationally related to a legitimate state interest." ***State v. Champoux***, 252 Neb. 769, 772, 566 N.W.2d 763, 765 (1997). ***Accord State ex rel. Dept. of Health v. Jeffrey***, 247 Neb. 100, 525 N.W.2d 193 (1994).

The extent of the State's power to regulate a business or occupation was explained by the Nebraska Supreme Court in ***Gillette Dairy, Inc.***, as follows:

> Whether a business is charged with such a public interest as to warrant its regulation is a legislative question in which the courts ordinarily will not interfere. The Legislature may not, however, under the guise of regulation, impose conditions which are unreasonable, arbitrary, discriminatory, or confiscatory. Such regulations must be reasonable considering the nature of the business and not such as would prevent the carrying on of the business.

192 Neb. at 96-97, 219 N.W.2d at 219-20.

In ***Gillette Dairy, Inc.***, the Nebraska Supreme Court found unconstitutional statutes which regulated the price of dairy products because the State failed to demonstrate that price controls were needed to insure a wholesome product for the public. As stated by the court, "[M]easures adopted by the Legislature to protect the public health and secure the public safety and welfare must have some reasonable relation to those proposed ends . . . " ***Id.*** at 97, 219 N.W.2d at 220.

State regulation of funeral establishments has generally been upheld. As stated by one authority, "[T]he business of operating a mortuary, funeral home or parlor, or undertaking establishment, or of embalming, is one of a public or quasi-public nature, closely related to the health, safety, and general welfare of a community, and is, therefore, a business which, under the police power, may be subjected to reasonable regulation and control by statutes or municipal regulations." 38 Am. Jur. 2d ***Funeral Directors and Embalmers***, § 3 at 75-76 (1968).

You have stated in your request letter that the proposed amendment to the definition of "funeral establishment" is intended to make clear that funeral establishments are places of business at which both the preparation of dead human bodies for burial or other disposition and the conducting and arranging of funeral services occur. We assume, for purposes of this discussion, that the amended statute would be so interpreted. The issue raised then with regard to LB 953 is whether there is a rational and reasonable relationship between the requirement that each funeral establishment have an embalming or preparation room and the public welfare.

The purpose of the requirement is not set out in the statute itself and we

have not been provided with any information concerning its purpose. We presume the bill's proponents believe the requirement is needed to preserve the public's health and safety, but are unaware of their specific concerns. It may be somewhat helpful to add a statement of public purpose to the bill and to articulate the specific concerns at issue in the committee records and floor debate. However, mere statements as to public purpose would not sustain the statute against constitutional challenge if there cannot be demonstrated "a clear, real, and substantial connection between the assumed purpose of the enactment and its actual provisions." ***Eckstein v. City of Lincoln***, 202 Neb. 741 at 744, 277 N.W.2d 91 (1979).

We are unable to predict with any certainty whether the legislation would be upheld by our courts. Unless a rational relationship between the amendment and the public health can be established, LB 953 is constitutionally suspect. We do note, in this regard, that a "branch establishment," as currently defined at Neb. Rev. Stat. § 71-1301(4), is not required to have an embalming room on its premises and LB 953 does not amend that definition. It appears to us that a successful defense of LB 953 would depend not only upon the articulation of a rational relationship between the embalming room requirement for funeral establishments and the public health, but also upon a valid explanation as to why the same health concerns are not applicable to branch establishments. At this time, we have insufficient information to address that issue.

Sincerely,
DON STENBERG
Attorney General

Mrs. Brown offered the following amendment:
AM3815

(Amendments to E & R amendments, AM7208)

1. Strike section 6 and insert the following sections:

"Section 1. It is the intent of the Legislature that sections 1 to 6 of this act provide for the exchange of immunization information between professionals, facilities, and departments for the purpose of protecting the public health by facilitating age-appropriate immunizations which will minimize the risk of outbreak of childhood diseases.

Sec. 2. A patient or, if the patient is a minor, the patient's parent or legal guardian may deny access under sections 1 to 6 of this act to the patient's immunization information by signing a nondisclosure form with the professional or entity which provided the immunization. The nondisclosure form shall be kept with the immunization information of the patient and such immunization information is considered restricted immunization information.

Sec. 3. A physician, a nurse practitioner, a physician assistant, a pharmacist, a licensed health care facility, a public immunization clinic, a local or district health department, the Department of Health and Human Services, the Department of Health and Human Services Regulation and Licensure, and the Department of Health and Human Services Finance and Support may share immunization information which is not restricted under section 2 of this act. The unrestricted immunization information shared may include, but is not limited to, the patient's name, date of birth, dates and vaccine types administered, and any immunization information obtained from other sources.

Sec. 4. (1) Immunization information which is not restricted under section 2 of this act concerning children enrolled in a child care program licensed pursuant to sections 71-1908 to 71-1917, a school, or a postsecondary educational institution may be accessed by the licensed child care program, school, or institution of higher education from any of the persons or entities described in section 3 of this act, subject to security provisions to be set by rule and regulation as provided in section 5 of this act. Such immunization information is limited to the child's name, date of birth, immunization provider, and all dates of immunization by vaccine type documented in the immunization information. The access to immunization information by a licensed child care program, school, or a postsecondary educational institution under this section does not change a parent's or legal guardian's right to access medical information about his or her child or ward.

(2) Immunization information received under this section is confidential, except that a child's immunization information

received under this section may be disclosed to the child's parents or legal guardian. Unauthorized public disclosure of such confidential information by an individual or an officer or employee of a child care program licensed pursuant to sections 71-1908 to 71-1917, a school, or an institution of higher education is a Class III misdemeanor.

(3) The person or entity described in section 3 of this act which provides immunization information to a licensed child care program, a school, or a postsecondary educational institution in accordance with this section may charge a reasonable fee to recover the cost of providing such immunization information.

Sec. 5. The Department of Health and Human Services, the Department of Health and Human Services Regulation and Licensure, and the Department of Health and Human Services Finance and Support may adopt and promulgate rules and regulations to implement sections 1 to 6 of this act, including procedures and methods for access to and security of the immunization information.

Sec. 6. Any person who receives or releases immunization information in the form and manner prescribed in sections 1 to 6 of this act and any rules and regulations which may be adopted and promulgated pursuant to sections 1 to 6 of this act is not civilly or criminally liable for such receipt or release.

Sec. 12. Section 71-529, Reissue Revised Statutes of Nebraska, is amended to read:

71-529. The Nebraska Department of Health and Human Services may participate in the national efforts described in sections 71-527 and 71-528 and may develop a statewide immunization action plan which is comprehensive in scope and reflects contributions from a broad base of providers and consumers. In order to implement the statewide immunization action plan, the department may:

(1) Actively seek the participation and commitment of the public, health care professionals and facilities, the educational community, and community organizations in a comprehensive program to ensure that the state's children are appropriately immunized;

(2) Apply for and receive public and private awards to purchase vaccines and to administer a statewide comprehensive program;

(3) Provide immunization information and education to the public, parents, health care providers, and educators to establish and maintain a high level of awareness and demand for immunization by parents;

(4) Assist parents, health care providers, and communities in developing systems, including demonstration and pilot projects, which emphasize well-child care and the use of private practitioners and which improve the availability of immunization and improve management of immunization delivery so as to ensure the adequacy of the vaccine delivery system;

(5) Evaluate the effectiveness of these statewide

efforts, conduct ongoing measurement of children's immunization status, identify children at special risk for deficiencies in immunization, and report on the activities of the statewide immunization program annually to the Legislature and the citizens of Nebraska;

(3) During each calendar year in which grants are available from the Nebraska Health Infrastructure Trust Fund under this section, the department, with the advice of the Nursing Home Advisory Council, shall award grants to governmental nursing facilities. The department shall annually establish a calendar for receiving and evaluating proposals and awarding grants.

(4) No grant application shall be approved by the department unless the applicant can demonstrate that (a) conversion of the nursing facility or portion of the facility to an assisted-living facility or other alternatives to nursing facility care will offer efficient and economical care to individuals requiring long-term care services in the area, (b) assisted-living services or other alternatives to nursing facility care are unlikely to be available in the area for individuals eligible for services under the medical assistance program established pursuant to section 68-1018, and (c) the resulting reduction in the availability of nursing facility services is not expected to cause undue hardship on those individuals requiring nursing facility services. No grant shall be awarded unless the applicant agrees to maintain a minimum occupancy rate by individuals eligible for services under the medical assistance program established pursuant to section 68-1018.

(5) The department shall adopt and promulgate rules and regulations which establish (a) an application process for grants, (b) criteria for nursing facilities to receive funding, including, but not limited to, minimum occupancy rates and allowable costs, (c) criteria for the rates and amounts of funding, and (d) other procedures as the department deems necessary for the proper administration of this section.

AM3957

(Amendments to Standing Committee amendments, AM3466)

1. Strike sections 1 to 4 and all amendments thereto and insert the following new sections:

"Section 1. It is the intent of the Legislature to ensure that the level of care provided at the regional centers is maintained at a sufficient level to effectively serve persons with mental illness or addiction to alcohol or a controlled substance in need of services as long as the demand for such services exist. It is the further intent of the Legislature to ensure existing regional center services are maintained until such services have been developed and are available at the community level to provide needed care and support to all persons with mental illness or addiction to alcohol or a controlled substance who are appropriate for care in a community-based, less restrictive setting. This will allow the regional centers to transition current psychosocial rehabilitation levels of care to the community and assume the appropriate role of providing inpatient hospital care and secure residential services within a full continuum of behavioral health services.

Sec. 2. The Governor shall appoint a task force to examine the delivery of services to persons with mental illness or addiction to alcohol or a controlled substance, including, but not

limited to, the appropriate setting, financing, and delivery of such services. The task force shall include one member each representing the Department of Health and Human Services, a private mental health provider, consumers of services or their family members, a mental health advocacy organization, and regional center employees; two members from the mental health regions; and four at-large members. The Department of Health and Human Services shall provide necessary staff support to the task force. The task force shall issue a report of its findings and recommendations to the Governor, the Clerk of the Legislature, and the Chairperson of the Health and Human Services Committee of the Legislature after November 15, 1998, and no later than December 15, 1998.

Sec. 3. Any person who does not meet criteria for inpatient or secure residential level of care or any person who is discharge-ready from a regional center shall be referred to and have priority status for receiving immediate appropriate public behavioral health community-based services.

Sec. 4. On or after July 1, 1998, and at such time as the utilization of available community-based services, including the development and use of state-operated, community-level services by the Department of Health and Human Services where such services would not otherwise be provided, has sufficiently reduced the demand for regional center services to the point that the services may be offered at a reduced level, the Department of Health and Human Services, before reducing such services, shall issue a report to the Governor, the Clerk of the Legislature, and the Chairperson of the Health and Human Services Committee of the Legislature. The report shall identify the community services involved and certify that such services possess sufficient capacity and capability to effectively replace the service needs which otherwise would have been provided at a regional center. The report will be issued no later than thirty days prior to any action taken to reduce any regional center service.

Sec. 5. As behavioral health services are transitioned from regional centers to community services and new institutional services, state regional center employees shall have the opportunity to continue as state employees to deliver replacement services in the state behavioral health system. The Department of Health and Human Services shall provide to these employees the training and support necessary to transition into new state positions in the state behavioral health system.".

2. Amend the operative date section so that the sections added by this amendment become operative on their effective date with the emergency clause.

3. Renumber the remaining sections and correct internal references accordingly.

(Amendments to E & R amendments, AM7232)

1. Insert the following new sections:

"Sec. 69. Sections 69 to 74 of this act shall be known and may be cited as the Nebraska Plane Coordinate System Act.

Sec. 70. (1) For purposes of the Nebraska Plane Coordinate System Act, Nebraska Plane Coordinate System means the system of plane coordinates for designating the geographic position of points on the surface of the earth, within the State of Nebraska, which have been established by the National Ocean Service/National Geodetic Survey, or its successors, for defining and stating the geographic positions or locations of points on the surface of the earth, within the State of Nebraska; and

(2) For purposes of more precisely defining the Nebraska Plane Coordinate System, the following definition by the National Ocean Service/National Geodetic Survey is also adopted:

The Nebraska Plane Coordinate System is a Lambert conformal conic projection of the North American Datum of 1983, having standard parallels at north latitudes 40 degrees 00 minutes and 43 degrees 00 minutes along which parallels the scale shall be exact. The origin of coordinates is at the intersection of the meridian 100 degrees 00 minutes west of Greenwich and the parallel 39 degrees 50 minutes north latitude. This origin is given the coordinates. N = 0 meters and E = 500,000 meters.

Sec. 71. The plane coordinate values for a point on the earth's surface used to express the geographic position or location of such point of this system shall consist of two distances expressed in meters and decimals of a meter when using the Nebraska Plane Coordinate System. One of the distances, to be known as the 'northing' or 'N', shall give the position in a north-and-south direction. The other, to be known as the 'easting' or 'E', shall

give the position in an east-and-west direction. These coordinates shall be made to depend upon and conform to plane rectangular coordinate values for the monumented horizontal control stations of the North American National Geodetic Horizontal Network as published by the National Ocean Service/National Geodetic Survey, or its successors, and whose plane coordinates have been computed based on the system described in the Nebraska Plane Coordinate System Act. Any such station may be used for establishing a survey connection to the Nebraska Plane Coordinate System.

Sec. 72. No coordinates based on the Nebraska Plane Coordinate System purporting to define the position of a point on a land boundary shall be presented to be recorded in any public land records or deed records unless such point is within one kilometer of a monumented horizontal control station established in conformity with the standards of accuracy and specifications for first-order or second-order geodetic surveying, as prepared and published by the Federal Geodetic Control Subcommittee of the United States Department of Commerce. Standards and specifications of the Federal Geodetic Control Subcommittee, or its successor, in force on the date of the survey shall apply. Sec. 73. The use of the term 'Nebraska Plane Coordinate System' on any map, report, survey, or other document shall be limited to coordinates based upon the Nebraska Plane Coordinate System.

Sec. 74. Descriptions of tracts of land by reference to subdivisions, lines or corners of the United States public land survey, or other original pertinent surveys, are hereby recognized as the basic and prevailing method for describing tracts of land. Whenever coordinates of the Nebraska Plane Coordinate System are used in descriptions of tracts of land, they shall be construed as being supplementary to descriptions of such subdivisions, lines or corners of the United States public land survey, or such other original pertinent surveys contained in official plats and field notes of record. In the event of any conflict, coordinates of the Nebraska Plane Coordinate System shall not determine the issue, but may be used as collateral facts to show additional evidence.".

Patrick O'Donnell

Room 2018
State Capitol Building
Lincoln, Nebraska 68509

Dear Mr. O'Donnell:

Pursuant to the Provisions of Section 85-408, R.R.S. of Nebraska, 1943, Legislative approval is requested for the following project to be funded from the Replacement Fund of the University of Nebraska Student Fees and Facilities Revenue Bonds.

University of Nebraska Student Union Asbestos Abatement The University of Nebraska-Lincoln proposes to remove concealed asbestos identified during the construction phase. Total abatement removal is

estimated to cost $1,300,000.

**Request**. The University requests approval for concealed asbestos abatement totaling $800,000 to be financed from the Replacement Fund of the Student Fees and Facilities Revenue Bonds.

The Board of Regents authorized this expenditure at its February 28, 1998 meeting. The Coordinating Commission for Postsecondary Education is reviewing the request and we anticipate approval at their April 2, 1998 meeting. Typically we would be sending this later after securing approval from CCPE. Because of the limited number of days left in the session and the need to complete this project in a timely fashion, we are initiating legislative action prior to, but in anticipation of, CCPE approval. We will forward their recommendation upon receipt.

Respectfully submitted,

AM3975

(Amendments to E & R amendments, AM7219)

1. Insert the following new sections:

"Sec. 10. Section 43-250, Revised Statutes Supplement, 1997, is amended to read:

43-250. An officer who takes a juvenile into temporary custody under section 43-248 shall immediately take reasonable measures to notify the juvenile's parent, guardian, custodian, or relative and shall proceed as follows:

(1) The officer shall release such juvenile;

(2) The officer shall prepare in triplicate a written notice requiring the juvenile to appear before the juvenile court or probation officer of the county in which such juvenile was taken

into custody at a time and place specified in the notice or at the call of the court. The notice shall also contain a concise statement of the reasons such juvenile was taken into custody. The officer shall deliver one copy of the notice to such juvenile and require such juvenile or his or her parent, guardian, other custodian, or relative, or both, to sign a written promise that such signer will appear at the time and place designated in the notice. Upon the execution of the promise to appear, the officer shall immediately release such juvenile. The officer shall, as soon as practicable, file one copy of the notice with the county attorney and, when required by the juvenile court, also file a copy of the notice with the juvenile court, the officer appointed by the court for such purpose, or the probation officer;

(3) The officer shall take such juvenile without unnecessary delay before the juvenile court or probation officer of the county in which such juvenile was taken into custody and deliver the custody of such juvenile to the juvenile court or probation officer. When secure custody of a juvenile is necessary, such custody shall occur within a juvenile detention facility except:

(a) When a juvenile described in subdivision (1) or (2) of section 43-247, except for a status offender, is taken into temporary custody within a metropolitan statistical area and where no juvenile detention facility is reasonably available, the juvenile may be delivered, for temporary custody not to exceed six hours, to a secure area of a jail or other facility intended or used for the detention of adults solely for the purposes of identifying the juvenile and ascertaining his or her health and well-being and for safekeeping while awaiting transport to an appropriate juvenile placement or release to a responsible party;

(b) When a juvenile described in subdivision (1) or (2) of section 43-247, except for a status offender, is taken into temporary custody outside of a metropolitan statistical area and where no juvenile detention facility is reasonably available, the juvenile may be delivered, for temporary custody not to exceed twenty-four hours excluding nonjudicial days and while awaiting an initial court appearance, to a secure area of a jail or other facility intended or used for the detention of adults solely for the purposes of identifying the juvenile and ascertaining his or her health and well-being and for safekeeping while awaiting transport to an appropriate juvenile placement or release to a responsible party;

(c) Whenever a juvenile is held in a secure area of any jail or other facility intended or used for the detention of adults, there shall be no verbal, visual, or physical contact between the juvenile and any incarcerated adult and there shall be adequate staff to supervise and monitor the juvenile's activities at all times. This subdivision shall not apply to a juvenile charged with a felony as an adult in county or district court if he

or she is sixteen years of age or older;

(d) If a juvenile is under sixteen years of age or is a juvenile as described in subdivision (3) of section 43-247, he or she shall not be placed within a secure area of a jail or other facility intended or used for the detention of adults;

(e) If, within the time limits specified in subdivision (3)(a) or (3)(b) of this section, a felony charge is filed against the juvenile as an adult in county or district court, he or she may be securely held in a jail or other facility intended or used for the detention of adults beyond the specified time limits;

(f) A status offender or nonoffender taken into temporary custody shall not be held in a secure area of a jail or other facility intended or used for the detention of adults. A status offender accused of violating a valid court order may be securely detained in a juvenile detention facility longer than twenty-four hours if he or she is afforded a detention hearing before a court within twenty-four hours, excluding nonjudicial days, and if, prior to a dispositional commitment to secure placement, a public agency, other than a court or law enforcement agency, is afforded an opportunity to review the juvenile's behavior and possible alternatives to secure placement and has submitted a written report to the court; and

(g) A juvenile described in subdivision (1) or (2) of section 43-247, except for a status offender, may be held in a secure area of a jail or other facility intended or used for the detention of adults for up to six hours before and six hours after any court appearance;

(4) When a juvenile is taken into temporary custody pursuant to subdivision (3) or (4) of section 43-248, the officer may deliver the custody of such juvenile to the Department of Health and Human Services which shall make a temporary placement of the juvenile in the least restrictive environment consistent with the best interests of the juvenile as determined by the department. The department shall supervise such placement and, if necessary, consent to any necessary emergency medical, psychological, or psychiatric treatment for such juvenile. The department shall have no other authority with regard to such temporary custody until or unless there is an order by the court placing the juvenile in the custody of the department. If the officer delivers temporary custody of the juvenile pursuant to this subdivision, the officer shall make a full written report to the county attorney within twenty-four hours of taking such juvenile into temporary custody. If a court order of temporary custody is not issued within forty-eight hours of taking the juvenile into custody, the temporary custody by the department shall terminate and the child shall be returned to the custody of his or her parent, guardian, custodian, or relative; or

(5) If the officer takes the juvenile into custody pursuant to subdivision (4) of section 43-248, the officer may

place the child at a mental health facility for evaluation and emergency treatment or may deliver the juvenile to the Department of Health and Human Services pursuant to subdivision (4) of this section. At the time of the admission or turning the child over to the department, the peace officer responsible for taking the juvenile into custody shall execute a written certificate as prescribed by the Department of Health and Human Services which will indicate that the officer believes the juvenile to be mentally ill and dangerous, a summary of the subject's behavior supporting such allegations, and that the harm described in section 83-1009 is likely to occur before proceedings before a juvenile court may be invoked to obtain custody of the juvenile. A copy of the certificate shall be forwarded to the county attorney. The peace officer shall notify the juvenile's parents, guardian, custodian, or relative of the juvenile's placement.

In determining the appropriate temporary placement of a juvenile under this section, the officer shall select the placement which is least restrictive of the juvenile's freedom so long as such placement is compatible with the best interests of the juvenile and the safety of the community.

Sec. 11. Section 43-251, Revised Statutes Supplement, 1997, is amended to read:

43-251. (1) When a juvenile is taken into custody pursuant to sections 43-248 and 43-250, the court or magistrate may take any action for preadjudication placement or detention prescribed in the Nebraska Juvenile Code. ~~and, if such juvenile is age thirteen years or under and if the court or magistrate shall place such juvenile in the care of the sheriff, police officer, probation officer, or other suitable person, such person shall keep the juvenile in a suitable place outside the enclosure of any jail or police station.~~

~~(2) When a juvenile under the age of sixteen years shall be detained in any institution to which adults are sentenced, it shall be unlawful to permit such juvenile to have verbal, visual, or physical contact with such adults at any time.~~

~~(3)~~ (2) Any juvenile taken into custody under the Nebraska Juvenile Code for allegedly being mentally ill and dangerous shall not be placed in a jail or detention facility designed for juveniles who are accused of criminal acts or for juveniles as described in subdivision (1), (2), or (4) of section 43-247 either as a temporary placement by a peace officer, as a temporary placement by a court, or as an adjudication placement by the court.

Sec. 12. Section 43-253, Revised Statutes Supplement, 1996, is amended to read:

43-253. (1) Upon delivery to the juvenile court or probation officer of a juvenile who has been taken into temporary custody under sections 43-248 and 43-250, the court or probation officer shall immediately investigate the situation of the juvenile

and the nature and circumstances of the events surrounding his or her being taken into custody. Such investigation may be by hearing on the record before the court or by informal means when appropriate.

(2) No juvenile who has been taken into temporary custody under subdivision (3) of section 43-250 shall be detained in any locked facility for longer than twenty-four hours, excluding nonjudicial days, after having been taken into custody unless such juvenile has appeared personally before a court of competent jurisdiction for a hearing to determine if continued detention is necessary. If continued detention in a locked facility is ordered, such detention shall be in a juvenile detention facility, except that a juvenile charged with a felony as an adult in county or district court may be held in an adult jail as set forth in subdivision (3)(e) of section 43-250.

(3) When the court or probation officer deems it to be in the best interests of the juvenile, the court or probation officer shall immediately release such juvenile to the custody of his or her parent. If the juvenile has both a custodial and a noncustodial parent and the court or probation officer deems that release of the juvenile to the custodial parent is not in the best interests of the juvenile, the court or probation officer shall, if it is deemed to be in the best interests of the juvenile, attempt to contact the noncustodial parent, if any, of the juvenile and to release the juvenile to such noncustodial parent. If such release is not possible or not deemed to be in the best interests of the juvenile, the court or probation officer may release the juvenile to the custody of a legal guardian, a responsible relative, or another responsible person. The court may admit such juvenile to bail by bond in such amount and on such conditions and security as the court, in its sole discretion, shall determine, or the court may proceed as provided in section 43-254. In no case shall the court or probation officer release such juvenile if it appears that further detention or placement of such juvenile is a matter of immediate and urgent necessity for the protection of such juvenile or the person or property of another or if it appears that such juvenile is likely to flee the jurisdiction of the court.

Sec. 13. Section 43-255, Reissue Revised Statutes of Nebraska, is amended to read:

43-255. ~~Whenever a juvenile is detained or placed under the provisions of section 43-253 or 43-254, such juvenile shall not be detained in a locked facility for longer than twenty-four hours after having been taken into custody, excluding nonjudicial days, unless, pursuant to section 43-253, the juvenile court enters an order continuing detention or placement until the adjudication hearing after a reasonable showing that the need for detention or placement still exists. The court may authorize the release of such juvenile on such conditions and security as the court in its sole discretion shall determine.~~ The Whenever a juvenile is

detained or placed under section 43-250 or 43-253, the juvenile shall be released unconditionally within forty-eight hours after the detention or placement order or the setting of bond, excluding nonjudicial days, unless within such period of time (1) a petition has been filed alleging that such juvenile has violated an order of the juvenile court, (2) a petition has been filed pursuant to section 43-274, or (3) a criminal complaint has been filed in a court of competent jurisdiction.

Sec. 14. Section 43-256, Reissue Revised Statutes of Nebraska, is amended to read:

43-256. When the court enters an order continuing placement or detention pursuant to section ~~43-255~~ 43-253, upon request of the juvenile, or his or her parent, guardian, or attorney, the court shall hold a hearing within a reasonable time, at which hearing the burden of proof shall be upon the state to show probable cause that such juvenile is within the jurisdiction of the court. Strict rules of evidence shall not apply at the probable cause hearing. The juvenile shall be released if probable cause is not shown. At the option of the court, it may hold the adjudication hearing provided in section 43-279 as soon as possible instead of the probable cause hearing if held within a reasonable period of time. ~~Sections~~ This section and section 43-255 ~~and 43-256~~ shall not apply to a juvenile (1) who has escaped from a commitment or (2) who has been taken into custody for his or her own protection as provided in subdivision (3) of section 43-248 in which case the juvenile shall be held on order of the court with jurisdiction for a reasonable period of time.

Sec. 15. The Nebraska Commission on Law Enforcement and Criminal Justice shall adopt, promulgate, and implement rules and regulations to harmonize state and federal law on the temporary detention of juveniles.".

(7)"; in line 15 strike "(7)" and insert "(8)"; in line 18 strike "(8)" and insert "(9) Nonoffender means a juvenile who is subject to the jurisdiction of the juvenile court for reasons other than legally prohibited conduct, including, but not limited to, juveniles charged under subdivision (3)(a) of section 43-247;

"Section 1. Sections 1 to 9 of this act shall be known and may be cited as the Quality Work Force Academic Loan Program Act.

Sec. 2. In response to findings of the Legislature, the purposes of the Quality Work Force Academic Loan Program Act are to:

(1) Retain resident students and graduates in the Nebraska work force who have attended a Nebraska postsecondary educational institution and demonstrated academic merit, achievements, and career goals in either applied technology or academic programs or courses;

(2) Encourage students to seek education and training in fields which are essential to the economic development of the state;

(3) Promote work force development, attraction, and retention in Nebraska by establishing the Governor's Quality Work Force Honor Roll which consists of businesses in Nebraska supporting Nebraska's postsecondary students by providing internship experiences;

(4) Establish an agreement with the recipient of a loan from the program that he or she will work full time in Nebraska after graduation and complete a designated number of hours of internship experience with a business participating on the Governor's Quality Work Force Honor Roll;

(5) Provide for the administration of the program and distribution of appropriated state funds by the Coordinating Commission for Postsecondary Education, with the individual loans determined and directly disbursed by regionally or nationally accredited participating Nebraska public, nonprofit, or private postsecondary educational institutions according to rules and regulations adopted and promulgated by the commission; and

(6) Provide financial support for the program by the Legislature in such amounts as may be appropriated.

Sec. 3. The Coordinating Commission for Postsecondary Education shall establish and maintain an information data base which details (a) current efforts by Nebraska public, nonprofit, or private postsecondary educational institutions to recruit students from Nebraska and other states and to place graduates in Nebraska businesses and (b) the number of graduates involved in the Quality

Work Force Academic Loan Program from such postsecondary educational institutions by areas of specialty and their employment decisions regarding location of residence, type of employer, title of position, and compensation packages accepted.

Sec. 4. (1) The Department of Economic Development shall develop a plan to increase the number of Nebraska students and graduates who remain in the work force of Nebraska. The plan shall include a process to identify the state's high-priority work force needs.

(2) The department shall establish the Governor's Quality Work Force Honor Roll which roll shall consist of businesses in Nebraska supporting Nebraska's postsecondary students by providing internship experience and paying a fee as determined by a formula developed by the Coordinating Commission for Postsecondary Education to participate on the Governor's Quality Work Force Honor Roll. The business fees shall be placed in the Quality Work Force Academic Loan Program Revolving Fund. Participating businesses shall offer paid or for college credit internships as negotiated between the student and the business. The businesses shall report to the commission once the student internship is completed. The report shall include whether the former intern was offered permanent employment once the student internship or graduation requirements were completed, reasons given for declining the offer if it was not accepted, and pertinent information as determined by the commission to help evaluate the program. The businesses shall also meet exemplary criteria as determined by the department in rules and regulations. The department in cooperation with the commission shall also recruit businesses to participate in the Governor's Quality Work Force Honor Roll that will provide internships in fields which are identified as high-priority work force needs.

(3) The department shall, in cooperation with the commission, develop a program for matching recipients of loans under the Quality Work Force Academic Loan Program Act with appropriate internships at honor roll businesses. Postsecondary educational institutions participating in the Quality Work Force Academic Loan Program shall be notified concerning internships that are available but have not been filled by loan recipients.

(4) The department shall adopt and promulgate rules and regulations to implement this section.

Sec. 5. (1) The Quality Work Force Academic Loan Program is created. The Coordinating Commission for Postsecondary Education shall administer the program and shall adopt and promulgate rules and regulations to implement the Quality Work Force Academic Loan Program Act.

(2) Loans pursuant to the program shall be limited to part-time and full-time Nebraska resident students who are enrolled at one of the participating postsecondary educational institutions. Priority shall be given to students who have completed at least

one-half of the credit hours necessary to receive a baccalaureate degree or are enrolled in a graduate program. Loans shall be limited to students enrolled in a degree, diploma, or certificate program and shall not be made to students enrolled in customized courses and programs for which industry is providing over fifty percent of the financial support, either directly or indirectly, and for which the students are not being charged tuition or mandatory fees by the postsecondary educational institution.

(3) Loans pursuant to the program shall be funded from the Quality Work Force Academic Loan Program Revolving Fund and shall be made to students through postsecondary educational institutions in conjunction with the commission on the basis of academic excellence, achievements, career goals, and the students' potential for successful course or program completion in accordance with rules and regulations adopted and promulgated by the commission. As a secondary criterion, when qualified loan applicants exceed the funds available, the institution shall give preference to students who have enrolled in fields identified as high-priority work force needs as identified by the Department of Economic Development pursuant to section 4 of this act and who have roots in Nebraska.

(4) Loan applicants must also complete an internship experience with a business participating on the Governor's Quality Work Force Honor Roll at or before graduation, with exceptions identified by the commission. The commission shall create procedures for setting internship requirements.

(5) For full-time students enrolled in a degree, diploma, or certificate program, loans shall be made on an annual basis in an amount equal to full tuition and mandatory fees per year not to exceed three thousand dollars for a full-time student at each participating postsecondary educational institution. The loans shall also not be less than one quarter of the student's tuition and mandatory fees. The commission may adjust loan limits based on average tuition increases. Loans shall not be made to individual students for a cumulative period exceeding five years. For part-time and nontraditional students, the commission shall develop appropriate policies which are consistent with policies developed for full-time students.

(6) Loans shall only be made through a participating postsecondary educational institution to the student. Participating postsecondary educational institutions shall be regionally or nationally accredited public, nonprofit, or private postsecondary educational institutions headquartered in Nebraska which comply with the act and the rules and regulations adopted by the commission. The commission may create an application, audit, and approval process for participating postsecondary educational institutions and shall require such institutions to provide information necessary to establish and maintain an information data base described in section 3 of this act.

(7) The amount of funding available for each type of loan shall be divided among all participating postsecondary educational institutions annually for utilization by students attending the institutions, based on a distribution formula as determined by the commission.

(8) The commission shall define internship experience based on the requirements of participating institutions.

Sec. 6. The Quality Work Force Academic Loan Program Revolving Fund is created. The fund shall consist of appropriations by the Legislature, loan repayments, penalties, interest payments, contributions and fees from businesses, and any other funds received in the process of administering the program. When appropriated by the Legislature, any balance in the fund may be disbursed to participating postsecondary educational institutions for loans under the Quality Work Force Academic Loan Program or for the costs incurred in administering the program. Any money in the fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act. The fund shall be administered by the Coordinating Commission for Postsecondary Education. In annual funding requests, the commission shall not assume there will be an increase in appropriations. To sustain the program, the appropriated amounts each year shall fund the program for four years.

Sec. 7. (1) To be eligible for a loan under the Quality Work Force Academic Loan Program, a full-time student shall sign a contractual agreement with the Coordinating Commission for Postsecondary Education at the time the loan is awarded. The agreement shall establish the requirement that if the student is not employed full-time in Nebraska following the completion of his or her chosen program for a time period equal to the number of years the student received loans, if the student has not completed the requisite hours of internship experience with a participating business on the Governor's Quality Work Force Honor Roll with exceptions as identified by the commission, or if the student does not complete the requirements for graduation within five consecutive years, the amount awarded must be repaid with interest at the rate fixed pursuant to section 45-103 as of the date the student signed the contract and an appropriate penalty as determined by the commission. The commission may by rules and regulations make exceptions to the condition for mitigating circumstances. For part-time and nontraditional students, the commission shall develop appropriate policies which are consistent with the policies established for full-time students. A student receiving a loan shall agree in writing to use the loan for tuition and mandatory fees only. Proof of internship or work experience must be submitted to the commission by the loan recipient at or before graduation, with exceptions identified by the commission. The employment obligations shall begin within six months after the

student has completed the course of study for which the loan or loans were received. If the student successfully completes the program of study, completes the internship program, becomes employed within the state, and otherwise meets the requirements of the contract for the loan program payments are suspended for the number of years that the applicant is required to remain employed in Nebraska under the contract. After completion of the required period of full-time employment in Nebraska, the loan is forgiven.

(2) The commission has the administrative responsibility of tracking students who participate in the loan program and developing repayment tracking and collection mechanisms, including the authority to contract for services. The commission shall also notify the student, the Department of Revenue, and the United States Internal Revenue Service when the student completes all of the requirements for forgiveness of the loan and the loan amount becomes taxable income.

Sec. 8. (1) If the recipient of a loan under the Quality Work Force Academic Loan Program Act discontinues attendance at the postsecondary educational institution before the end of the loan period, the granting institution may redistribute to other eligible students any loan balance returned, in accordance with its policy. Loan funds not distributed or redistributed within the year in which the funds were allocated shall be returned to the commission by the postsecondary educational institution.

(2) The Coordinating Commission for Postsecondary Education shall establish a reasonable and fair appeal procedure for students and institutions which have been adversely affected by the actions of the commission or of participating institutions in the distribution of loans pursuant to the act.

Sec. 9. The Coordinating Commission for Postsecondary Education shall require an annual report on the Quality Work Force Academic Loan Program from each participating institution. On or before December 15 of each year, the commission shall present a report to the Governor and the Clerk of the Legislature providing, at a minimum, detail by institution, high-priority work force needs areas, and the full-time or part-time status of the students receiving the loans. The report shall include a financial statement and a description of the activity in the Quality Work Force Academic Loan Program Revolving Fund.

Sec. 10. The Work Nebraska Program is created and shall be administered by the Department of Economic Development. The purposes of the program are to (1) identify and recruit potential employees for current and future Nebraska employers, (2) establish, supplement, and promote training programs to enhance the skills of current and future employees, and (3) establish and maintain business or education programs which enhance the training of youth for Nebraska career opportunities.

Sec. 11. Since an emergency exists, this act takes effect when passed and approved according to law.".

Mr. Maurstad filed the following amendment to LB 1070:
AM4063

1. Insert the following new sections:

"Section 1. Sections 1 to 9 of this act shall be known and may be cited as the Native American Public Health Fund Act.

Sec. 2. The Legislature finds that members of Nebraska's federally recognized Native American tribes are not receiving adequate basic public health services, especially in the areas of education and prevention. The leading causes of death among Native American people are largely preventable. Many Native American people suffer from preventable diseases such as diabetes, cardiovascular disease, and alcohol-related fatalities. An alarming number of tribal members engage in health-threatening activities such as smoking, substance abuse, and poor diet. Births to teenaged Native Americans are higher than any other racial group. Unintentional injuries are costing Native American people years of productivity and potential. As a result, the life expectancy among Native Americans is low while the infant mortality rate is high when compared to Nebraska's general population. The problems and future costs associated with a lack of adequate public health services will continue to escalate as seventy percent of tribal members on reservations and in service areas are children.

To protect a generation of Native American children and to provide for a safe, healthy future for future generations of Native American people, the Legislature declares that public health infrastructure focusing on health education and preventative health measures for Native Americans must be addressed.

Sec. 3. The Native American Public Health Fund is created. The fund may include revenue from appropriations from the Legislature, grants, private contributions, and all other sources. It is the intent of the Legislature that each year beginning with fiscal year 1998-99, five hundred thousand dollars shall be transferred from the General Fund to the Native American Public Health Fund. The fund shall be administered by the Department of Health and Human Services.

Sec. 4. The Department of Health and Human Services shall use the Native American Public Health Fund to contract with the health clinics of Nebraska's federally recognized Native American tribes and Indian health organizations to provide educational and public health services targeted to Native American populations. The following educational and public health services may be considered by the department for such contracts:

(1) Identification and enrollment of children in state and federal programs providing access to health insurance or health care;

(2) Efforts to educate children and adults about the health risks associated with smoking and tobacco use, alcohol abuse, and other substances that threaten health and well-being and other activities designed to reduce the rate of substance abuse;

(3) Prenatal care education for women and notification of programs that improve prenatal care;

(4) Education focusing on proper diet and the importance of physical activity to good health;

(5) Blood pressure and cholesterol screenings;

(6) Support of efforts to identify children and adults at risk for depression and other mental health conditions and provide mental health counseling to prevent suicide;

(7) Parenting classes and the promotion of such programs;

(8) Efforts to discourage drinking and driving and to encourage the use of seat belts;

(9) Tests and education for acquired immunodeficiency syndrome and other sexually transmitted diseases;

(10) Tests for pregnancy and referrals to prenatal care when directed;

(11) Educational efforts aimed at reducing teen pregnancies and other unintended pregnancies;

(12) Case management for pregnant women, children, or adults with special health care needs;

(13) Efforts to make health care prevention services more affordable or accessible;

(14) Matching funds for state and federal programs designed to address public health needs;

(15) Staffing needs for public health services or education including the recruitment and training of Native American providers;

(16) Cervical and breast cancer detection services and other prevention components of comprehensive women's health services;

(17) Education to prevent and reduce the occurrence of diabetes; and

(18) Other prevention or educational activities or programs that address the health, safety, or self-sufficiency of Native American persons.

Sec. 5. During each fiscal year, the Director of Health and Human Services shall contract with the health clinics of Nebraska's federally recognized Native American tribes as approved by the tribal councils and Indian health organizations to provide educational and public health services pursuant to section 4 of this act. The director shall fund all eligible contracts until the Native American Public Health Fund is depleted, but shall give priority to contracts which meet the following criteria:

(1) Programs or activities that directly impact the health and well-being of children;

(2) Programs or activities which serve the greater number of people over the longest period of time;

(3) Programs or activities that are part of a larger plan for strategic public health planning and implementation;

(4) Current programs or activities that have demonstrated

success in improving public health or new programs or activities modeled on successful programs and activities; and

(5) Programs or activities that focus on primary prevention and show promise in reducing future health care expenditures.

Sec. 6. The Department of Health and Human Services shall provide technical assistance and assessment of needs evaluations upon request to aid tribal councils in the development of contract proposals.

Sec. 7. The recipients of the Native American Public Health Fund shall submit a report on the activities funded each fiscal year. The report shall provide information as required by the Director of Health and Human Services to determine the effectiveness of the contract in meeting the goals of the Native American Public Health Fund Act.

Sec. 8. If the Director of Health and Human Services determines that services are not being delivered in accordance with the contract, the director may seek to recapture all or a portion of funds expended.

Sec. 9. The Department of Health and Human Services shall adopt and promulgate rules and regulations to carry out the Native American Public Health Fund Act and shall adhere to already established or adopted and promulgated rules and regulations for contracted services under the act.".

Such waiver shall be in writing and filed with the secretary of the corporation and the Nebraska Workers' Compensation Court. Such waiver, as prescribed by the compensation court, shall include a statement in substantially the following form: Notice. Such waiver shall become effective from the date of receipt by the compensation court and shall remain in effect until the waiver is terminated by the officer in writing and filed with the secretary of the corporation and the compensation court. The termination of the corporate executive officer's waiver shall be effective upon receipt of the termination by the compensation court. It shall not be permissible to terminate a waiver prior to one year after the waiver has become effective.

(5) An individual lessor of a commercial motor vehicle leased to a motor carrier and driven by such individual lessor, may elect to bring himself or herself within the provisions of the Nebraska Workers' Compensation Act if he or she agrees in writing with the motor carrier to have the same rights as an employee only for purposes of workers' compensation coverage maintained by the motor carrier. For an election under this subdivision, the motor carrier's principal place of business must be in this state and the motor carrier must be authorized to self-insure liability under the Nebraska Workers' Compensation Act. Such an election shall (a) be effective from the date of such written agreement until such agreement is terminated, (b) be enforceable against such self-insured motor carrier in the same manner and to the same extent as claims arising under the Nebraska Workers' Compensation Act by employees of such self-insured motor carrier, and (c) not be deemed to be a contract of insurance for purposes of Chapter 44. 29-2264. (1) Whenever any person is placed on probation by a court and satisfactorily completes the conditions of his or her probation for the entire period or is discharged from probation prior to the termination of the period of probation, the sentencing court shall issue an order releasing the offender from probation, and such order shall in all felony cases restore the offender's civil rights.

(2) Whenever any person is convicted of a misdemeanor or felony and is placed on probation by the court or is sentenced to a fine only, he or she may, after satisfactory fulfillment of the conditions of probation for the entire period or after discharge from probation prior to the termination of the period of probation and after payment of any fine, petition the sentencing court to set aside the conviction and, in the court's discretion, expunge the conviction from such person's record. For purposes of this section, expungement means a court order which seals the records and prohibits either the disclosure of the existence of such records or the opening of such records unless such disclosure or

opening is authorized by a court order. Government officials or employees examining records to determine criminal charges or sentences and law enforcement officials examining records for purposes of issuing firearm permits or processing applications for law enforcement positions may open and examine records expunged under this section without obtaining a court order.

(b) The likelihood that the offender will not engage in further criminal activity; and

(c) Any other information the court considers relevant.

(b) Remove all civil disabilities and disqualifications imposed as a result of the conviction.

(5) The setting aside of a conviction in accordance with the Nebraska Probation Administration Act shall not:

(a) Require the reinstatement of any office, employment, or position which was previously held and lost or forfeited as a result of the conviction;

(b) Preclude proof of a plea of guilty whenever such plea is relevant to the determination of an issue involving the rights or liabilities of someone other than the offender;

(c) Preclude proof of the conviction as evidence of the commission of the misdemeanor or felony whenever the fact of its commission is relevant for the purpose of impeaching the offender as a witness, except that the order setting aside the conviction may be introduced in evidence;

(d) Preclude use of the conviction for the purpose of determining sentence on any subsequent conviction of a criminal offense;

(e) Preclude the proof of the conviction as evidence of the commission of the misdemeanor or felony in the event an offender is charged with a subsequent offense and the penalty provided by law is increased if the prior conviction is proved;

(f) Preclude the proof of the conviction to determine whether an offender is eligible to have a subsequent conviction set aside in accordance with the Nebraska Probation Administration Act; or

## BILLS ON FIRST READING

The following bills were read for the first time by title:

**LEGISLATIVE BILL 309A.** Introduced by Bromm, 23.

A BILL FOR AN ACT relating to appropriations; to appropriate funds to aid in carrying out the provisions of Legislative Bill 309, Ninety-fifth Legislature, Second Session, 1998.

**LEGISLATIVE BILL 1228A.** Introduced by Bohlke, 33.

A BILL FOR AN ACT relating to appropriations; to appropriate funds to aid in carrying out the provisions of Legislative Bill 1228, Ninety-fifth Legislature, Second Session, 1998.

## RESOLUTIONS

**LEGISLATIVE RESOLUTION 347.** Introduced by Beutler, 28.

PURPOSE: The legal relationship between coaching and teaching assignments in Nebraska's public schools remains confused at best. Teachers with Masters degrees and demonstrated professional excellence in academic areas are being reduced in force, while teachers with considerably less experience and academic training are being retained solely because they can coach. First-year teachers, who should be concentrating on perfecting their teaching skills, are frequently involuntarily assigned coaching duties which interfere with time needed to perfect teaching skills. Individuals who entered the teaching profession primarily to coach are arbitrarily removed from their coaching positions without any semblance of due process. Parental interference in the act of coaching, including physical assault, is on the increase. In the absence of any due process, unfounded and unsubstantiated student allegations frequently result in loss of coaching assignments. Due to the confusion surrounding this subject, the Legislature shall conduct an interim study of the employment relations and the legal and contractual requirements governing the relationship between coaching and teaching in

the public school of Nebraska, including the legal requirements governing reductions-in-force.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 348.** Introduced by C. Peterson, 35; Hartnett, 45.

PURPOSE: The purpose of this resolution is to systematically examine the duties of the public defender. Focus shall be given to the practical budget impacts of the constitutional and statutory mandate for public defenders to provide an adequate defense for their charges and the related consequences to counties and the criminal justice process if insufficient funds are provided to any public defender and a defendant is provided with an inadequate defense as a consequence. The study shall include, but is not limited to:

1. A review and evaluation of current law to determine whether or not a public defender's office once established by the county board may be required to represent indigent parties in juvenile proceedings, including the providing of services to certain indigent litigants in state-initiated paternity and contempt of court cases that have a due process right to court-appointed counsel under the 14th Amendment to the United States Constitution. Additionally, do indigent parents and minor children have a right to court-appointed counsel in cases brought under the Nebraska Juvenile Code;

2. An assessment of whether Nebraska law effectively defines the powers and duties of the public defender;

3. A determination as to whether a conflict exists between two statutes bearing on the same subject matter, specifically sections 23-1111 and 23-3403, and calibrate the public defender's budget statute with the general county official's budget statute;

4. Weighing the possibility of imposing overall caseload limits on public defenders throughout the state;

5. How the Legislature may address, through future legislation, if needed, any changes that may be required to more effectively ensure uniformity of services throughout the state;

6. At least one public hearing to provide an opportunity for public comment and discussion with members of the Judiciary Committee of the Legislature and the public on issues involving matters within the committee's jurisdiction; and

7. Any other matters necessary or proper for a complete examination of this issue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to

conduct an interim study to carry out the purposes of this resolution.

2. That the Judiciary Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 349.** Introduced by C. Peterson, 35; Hartnett, 45; Robinson, 16; Lynch, 13; Preister, 5; Janssen, 15; Schmitt, 41; Dw. Pedersen, 39; Robak, 22; Tyson, 19; Witek, 31.

PURPOSE: The purpose of this resolution is to conduct an interim study of the lop-off provision enacted in Legislative Bill 806, during the 1997 Legislative Session. LB 806 contained several major changes affecting school district reorganization and school finance.

As a result of the lop-off provision, a total of $14 million was lopped from nineteen school systems. $1.7 million was awarded to a total of thirty-nine school systems, and the remaining $12.3 million was distributed through equalization, representing two and one-half percent of the total equalization aid.

The interim study will include, but is not limited to:

(1) An overview of the lop-off provision;

(2) The effect of the lop-off provision on school district spending patterns;

(3) Analysis of how the lop-off provision penalizes district which are low-spending, low-taxing, and efficient;

(4) Determination of whether the existing minimum levy penalty already addresses equity in local support of school districts;

(5) Determination of whether the lop-off provision reduced the equalization aid generated to meet the needs of special populations; and

(6) Any other matters necessary or proper for complete examination of this issue.

The interim study will solicit comments, suggestions, and recommendations from educational and school officials, including board members and superintendents. A public hearing will be held to receive input from all interested parties.

The interim study will review current statutes, identify barriers, whether by reason of current statutory restrictions or practical concerns, and recommend changes in the statutes to provide, facilitate, and equalize educational opportunities and funding for schools across the State of Nebraska. If upon careful analysis the committee determines statutory changes should be made, appropriate legislation will be drafted.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 350.** Introduced by Revenue Committee: Wickersham, 49, Chairperson; Coordsen, 32; Hartnett, 45; Landis, 46; C. Peterson, 35; Raikes, 25; Schellpeper, 18; Will, 8.

PURPOSE: The purpose of this study is to examine the application of Nebraska's tax programs to participants in the rapidly changing fields of telecommunications and electronic commerce. The study is to examine issues surrounding the sales taxation of telecommunications and electronic commerce and the goods and services provided through such technologies, the apportionment of income to Nebraska of businesses involved in such technologies, the assessment of property of such businesses for purposes of taxation, the imposition and equitable allocation of franchise or other excise taxes to such businesses, and the proper reach of nexus rules to fairly impose all tax regimes on such entities. The study shall also monitor federal proposals to preempt state action in these areas.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 351.** Introduced by Revenue Committee: Wickersham, 49, Chairperson; Coordsen, 32; Hartnett, 45; Landis, 46; C. Peterson, 35; Raikes, 25; Schellpeper, 18; Will, 8; and Brashear, 4.

PURPOSE: The Nebraska state sales tax has been a subject of increasing discussion in recent years. Proposals to exempt transactions involving certain goods or services, transactions of certain organizations, certain transactions involving third parties, and other transactions involving unique circumstances have proliferated. As commercial activity in the state becomes more and more complicated, involving more and more transactions with regard to a single act of consumption, traditional rules have become harder to apply. This study is to examine the state sales tax base rate and administration with particular emphasis on its horizontal and vertical equity, economic neutrality, stability and elasticity, simplicity and ease of administration, and accountability.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 352.** Introduced by Revenue Committee: Wickersham, 49, Chairperson; Coordsen, 32; Hartnett, 45; Landis, 46; C. Peterson, 35; Raikes, 25; Schellpeper, 18; Will, 8.

PURPOSE: The Nebraska income tax, both individual and corporate, has been a subject of increasing debate in recent years. There has not been a comprehensive review of the structure of the income tax since the individual income tax was decoupled from federal tax liability and coupled to federal adjusted gross income in 1987. Corporate income tax has seen many proposals for change in recent years with regard to apportionment rules. The purpose of this study is to examine the corporate and individual income tax in Nebraska particularly with regard to horizontal and vertical equity, economic neutrality, elasticity and stability, simplicity and ease of administration, and accountability.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 353.** Introduced by Wickersham, 49.

PURPOSE: This study is to examine the tax challenges presented by the proliferation of opportunities to purchase liquor and tobacco through mail order. The study shall examine the state's ability to assure the proper collection of excise and sales or use tax on such purchases and make recommendations regarding the collection of such taxes.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 354.** Introduced by Wickersham, 49; Brashear, 4.

PURPOSE: The purpose of this resolution is to examine the possibility of providing new classifications of municipal law enforcement personnel. LB 1117, Ninety-fifth Legislature, Second Session, 1998, would have provided for the creation of a new class of officers called constables, which could have had limited citation power and no arrest power, while at the same

time removing some routine responsibilities from more qualified police officers. This study is to examine the possibility of allowing such a classification of municipal law enforcement officer and determining the proper match between jurisdiction and required training.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 355.** Introduced by Preister, 5.

PURPOSE: (1) With the trend toward greater competition in the natural gas industry and the emergence of customer choice programs, many concerns have arisen in the past year. The following questions are intended to focus on issues that a legislative study must address and report:

(a) Does the Municipal Natural Gas Regulation Act provide for sufficient regulatory authority and process to reflect the changes in the natural gas industry?;

(b) Should a municipality as the natural gas regulatory body have the authority to regulate natural gas services, including intrastate transportation, meter charges, hook-up fees, later payment charges, classification of customers, discounts to certain customers, and other fees charged by the gas distribution system?;

(c) Should the regulatory body regulate gas suppliers to ensure reliability?;

(d) How should natural gas services to areas outside city limits be regulated?; and

(e) Should all natural gas customers be allowed to have a choice in determining their supplier of natural gas?

(2) Because choice of natural gas suppliers is currently being offered to some customers, a study is necessary to determine a legislative answer to these and other questions. The public interest must be protected by investigating:

(a) The modification of the natural gas regulatory process to encourage, protect, and promote effective competition in the natural gas market;

(b) The monitoring and mitigation of the exercise of market power by suppliers, and, if necessary, their regulation;

(c) Methods to ensure continued reliable gas service; and

(d) The education of customers so that they shall make informed purchasing choices.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report

of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

## RESOLUTIONS

**LEGISLATIVE RESOLUTION 357.** Introduced by Wickersham, 49.

PURPOSE: 1. Nebraska law contains many statutory provisions dealing with the transfer of surface water which may be affected by federal law and the law of other states, as well as Nebraska case law.

2. Rights to transfer surface water out of a stream to lands within the basin

of origin have been exercised since the adoption of the Raynor Irrigation Act of 1895.

3. Transfer of surface water from one river basin to another has been allowed by Nebraska statutes since 1981.

4. It is a proper and necessary function of state government to provide the statutory framework for the orderly transfer of water to ensure that the rights of individual landowners and the welfare of the citizens of this state are protected.

5. The impact that federal law can have on Nebraska law has previously been demonstrated by court decisions which limit the ability of states to control interstate transfers.

6. Incentives to conserve water and transfer it to alternative uses without diminishing water supplies and adversely affecting basins of origin may be a means to supplement water demands.

7. It is timely to identify and address current legal and physical requirements to the transfer of surface water for differing uses as well as the social, environmental, and economic advantages and disadvantages.

8. Statewide public input should be sought in order to discuss all aspects of the transfer of surface water including potential changes in state law.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study designed to determine whether Nebraska law should be changed to authorize the transfer of surface water rights for the purpose of changing the use of the water. Individuals and representatives of organizations with a demonstrated interest in the use of surface water in this state are encouraged to participate with the committee in its examination of the issues presented by this interim study resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 358.** Introduced by Matzke, 47.

PURPOSE: To provide oversight during the implementation of the federal Adoption and Safe Families Act of 1997 in Nebraska, the Health and Human Services Committee of the Legislature will examine a number of child welfare issues. The study may include, but shall not be limited to, the following areas: The capacity and role of the adoption services division within the Department of Health and Human Services; the adequacy and availability of legal resources for the adjudication and defense of child welfare cases; the training provided to caseworkers, foster parents, Foster Care Review Board members, county attorneys, guardians ad litem, defense attorneys, and service providers in the area of permanency planning, termination of parental rights, and transition to adoption; and the state's capacity to maintain demographic and tracking information on every child and family in the system.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 359.** Introduced by Judiciary Committee: Brashear, 4, Chairperson; Abboud, 12; Hilgert, 7; Hudkins, 21; Jones, 43; and Wehrbein, 2.

PURPOSE: During the 1998 legislative session, Senator Roger R. Wehrbein introduced Legislative Bill 1018. The bill amended the criminal procedure statutes which provide that courts collect obligations owed to the courts for fines and costs resulting from an order or judgment in a criminal or traffic matter. The purpose of this interim study is to consider whether the State Court Administrator should have the authority to enter into contracts on behalf of a requesting court with a licensed collection agency for the purpose of collecting debts owed the court by an offender who fails to pay a fine and costs owed upon the date set forth in a court order.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 360.** Introduced by Judiciary Committee: Brashear, 4, Chairperson; Abboud, 12; Hilgert, 7; Hudkins, 21; Jones, 43.

PURPOSE: The purpose of this interim study is to consider whether Nebraska should enact the Uniform Child Custody Jurisdiction and Enforcement Act.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 361.** Introduced by Judiciary Committee: Brashear, 4, Chairperson; Abboud, 12; Hilgert, 7; Hudkins, 21; Jones, 43; and Wehrbein, 2.

PURPOSE: During the 1998 legislative session, Senator Roger R. Wehrbein introduced Legislative Bill 984. The bill was introduced in response to recent decisions of the Nebraska Supreme Court and Court of Appeals applying the doctrine of res ipsa loquitur to cases involving the collision of motor vehicles with livestock on public highways. The purpose of this interim study is to examine the doctrine of res ipsa loquitur and the desirability of enacting legislation similar to LB 984 in Nebraska. This interim study includes, but is not limited to, an overview of whether other states have such legislation and the effect, if any, of such legislation in those other states.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary and Agriculture Committees of the Legislature be designated to conduct a joint interim study to carry out the purposes of this resolution.

2. That the committees shall, upon the conclusion of their study, make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 362.** Introduced by Judiciary Committee: Brashear, 4, Chairperson; Abboud, 12; Hilgert, 7; Hudkins, 21; Jones, 43.

PURPOSE: During the 1998 legislative session, Legislative Bill 1127 was introduced by Senator Jennie Robak. The bill created a juvenile division within the Attorney General's office for the purpose of assisting in the preparation for trial and in the prosecution of any case involving abuse, neglect, or other issues impacting dependant children. In addition, the bill provided a procedure for the consistent reporting of the deaths of children ten years old and younger. This interim study includes, but is not limited to, the following:

(1) The need for a separate juvenile division within the Attorney General's office;

(2) The current jurisdiction of the State Child Death Review Team in relationship to the requirement that the review of the cause of death of children ten years old and younger be under the jurisdiction of the Attorney General; and

(3) The clarification of current language in LB 1127 establishing procedures for reviewing the death of a child as opposed to the formulations of some general guidelines by another governmental entity to be followed by local agencies.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 363.** Introduced by Judiciary Committee: Brashear, 4, Chairperson; Abboud, 12; Hilgert, 7; Hudkins, 21; Jones, 43.

PURPOSE: The Administrative Procedure Act requires that certain agency standards, criteria, guidelines, rules, regulations, policies, and procedures of government be promulgated pursuant to the act. The Department of Correctional Services is currently permitted to implement certain administrative rules and regulations beyond the purview of the act. However, some of the rules and regulations adopted by the department affect the rights, privileges, and opportunities of inmates incarcerated in state correctional facilities. Therefor, the purpose of this interim study is to study the public policy considerations that are the basis for the promulgation requirements of the act to determine whether such considerations are also applicable to those administrative rules and regulations adopted by the department. The interim study includes, but is not limited to, the following:

(1) The content and objective of the department's administrative rules and regulations;

(2) The applicability or absence thereof of the act to such administrative rules and regulations;

(3) The desirability and feasibility of adopting and promulgating some or all such administrative rules and regulations implemented by the department beyond the purview of the act pursuant to the act.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall conduct the interim study in conjunction with the staff of the Ombudsman's Office and the Legislative Research Division and that the committee shall seek input from outside sources, including input from representatives of the Department of Correctional Services and affected inmates.

3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 364.** Introduced by Judiciary Committee: Brashear, 4, Chairperson; Abboud, 12; Hilgert, 7; Hudkins, 21; Jones, 43.

PURPOSE: During the 1998 legislative session, Legislative Bill 1317 was introduced by Senator Jennie Robak. The bill authorized each separate juvenile court judicial district and each county court judicial district that

does not have a separate juvenile court to establish a teen court program. The purpose of this interim study is to examine the teen court programs already established in Lancaster and Sarpy counties and to determine what enabling legislation would be appropriate for promoting the establishment of teen courts statewide, if the interim study determines such legislation is necessary.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 365.** Introduced by Hartnett, 45; Wickersham, 49.

PURPOSE: The purpose of this study is to examine the issue of tax increment financing as a tool for economic development. The study would examine the impact of projects on the economy of the surrounding area, the cost of the diversion of the tax increment to the local governments, including schools and others having no discretion to deny the granting of the benefit, and possible methods of compensating other local governments, including the sharing of sales tax revenue as proposed by Legislative Bill 415, Ninety-fifth Legislature, Second Session, 1998.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

Mr. Maurstad withdrew his amendment, AM3519, found on page 973.

Mr. Maurstad offered the following substitute amendment:
AM4094

1. Insert the following new sections:

"Section 1. Sections 1 to 8 of this act shall be known and may be cited as the Native American Public Health Fund Act.

Sec. 2. The Legislature finds that members of Nebraska's federally recognized Native American tribes are not receiving adequate basic public health services, especially in the areas of education and prevention. The leading causes of death among Native American people are largely preventable. Many Native American people suffer from preventable diseases such as diabetes, cardiovascular disease, and alcohol-related fatalities. An alarming number of tribal members engage in health-threatening activities such as smoking, substance abuse, and poor diet. Births to teenaged Native Americans are higher than any other racial group. Unintentional injuries are costing Native American people years of productivity and potential. As a result, the life expectancy among Native Americans is low while the infant mortality rate is high when compared to Nebraska's general population. The problems and future costs associated with a lack of adequate public health services will continue to escalate as seventy percent of tribal members on reservations and in service areas are children.

To protect a generation of Native American children and to provide for a safe, healthy future for future generations of Native American people, the Legislature declares that public health infrastructure focusing on health education and preventative health measures for Native Americans must be addressed.

Sec. 3. The Department of Health and Human Services shall use the Native American Public Health Fund to contract with the health clinics of Nebraska's federally recognized Native American tribes and Indian health organizations to provide educational and public health services targeted to Native American populations. The following educational and public health services may be considered by the department for such contracts:

## RESOLUTIONS

**LEGISLATIVE RESOLUTION 366.** Introduced by Coordsen, 32; Dierks, 40.

PURPOSE: The purpose of this study is to examine whether there are adequate revenue streams from all sources to allow all school districts within the standard cost grouping pursuant to section 79-1007.02 to provide necessary educational services. This study shall focus on the creation of another cost grouping in addition to the standard, sparse, and very sparse cost groupings used in calculating the needs component of the equalization formula. The study shall also focus on organization, distance, and quality of education provided.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue and Education Committees of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 367.** Introduced by Wickersham, 49; Landis, 46.

PURPOSE: The enforcement of motor fuel tax collection and reporting has been the subject of legislation and hearings in 1998. Complaints about Department of Revenue enforcement and licensing of motor fuel sales businesses have been received by legislative offices. Alternate collection and information procedures have been addressed by legislation. The purpose of this study is to examine the area of motor fuel sales and tax collection enforcement.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 368.** Introduced by Matzke, 47.

WHEREAS, a seven-member team from Potter-Dix High School has been chosen to represent the United States at the Odyssey of the Mind international conference in the Netherlands during the week of April 20th, 1998; and

WHEREAS, the Potter-Dix team was the only team chosen to represent the United States and will participate with twelve other international teams; and

WHEREAS, Odyssey of the Mind is a nonprofit group that promotes problem-solving through creative thinking and teamwork; and

WHEREAS, the Potter-Dix school district's enrollment is less than two hundred fifty students, but includes eleven Odyssey of the Mind teams made up of fourth through twelfth grade students; and

WHEREAS, the Potter-Dix school consistently is the smallest school to attend the national and international meets held in the United States but the teams have been leaders in competition at the regional and the state level in recent years, winning many first-place and finalist trophies; and

WHEREAS, the accomplishments of the Potter-Dix school Odyssey of the Mind teams reflect the hard work and dedication of these students, successfully demonstrating that small schools can do great things.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Legislature congratulate Potter-Dix High School Odyssey of the Mind team members Ashley Mueller, Stacy Bemis, Megan McKinney, Amber Haack, Marcie Sprenger, Sharon Tincher, and Sarah Stahl and coaches Glynnis and Tom Mueller on being chosen to represent the United States at the Odyssey of the Mind international conference in the Netherlands.

2. That copies of this resolution be presented to the team members, to their coaches, and to Al Combs, the superintendent of Potter-Dix Public Schools.

Laid over.

**LEGISLATIVE RESOLUTION 369.** Introduced by Coordsen, 32.

PURPOSE: In today's society, it is becoming more common for agricultural land to be purchased for residential or recreational purposes. This results in actual or market values in excess of what such properties would have for agricultural purposes. The usual way of dealing with such issues is through greenbelt special assessment. However, because greenbelt requires positive action on the part of the county to implement it, including zoning in those areas, greenbelt cannot address these situations in all instances in which it might be appropriate. Usually, greenbelt does not become available until the problem is critical. This study is to examine the possibility of expanding or simplifying greenbelt or devising an alternative approach.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

## RESOLUTIONS

**LEGISLATIVE RESOLUTION 370.** Introduced by Schrock, 38.

PURPOSE: The Legislature finds that the present grain check-off programs and ethanol programs include excise taxes on grain used as pledge or mortgage security for a loan under federal price support programs. This study shall determine whether these taxes should be eliminated and whether the method used in Legislative Bill 1172, Ninety-fifth Legislature, Second Session, is appropriate or whether another approach is needed.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 371.** Introduced by Schrock, 38.

PURPOSE: During the 1998 legislative session, Legislative Bill 1325 was introduced for the purpose of clarifying Nebraska titling laws. During testimony on LB 1325, the Transportation Committee of the Legislature learned that there is a difference between a reconstructed vehicle and a vehicle constructed from a kit. The committee also learned that Nebraska does not differentiate between these two types of vehicles even though other states do. It was also discovered during the course of discussion on LB 1325 that the Department of Motor Vehicles refuses to issue an historical title as currently authorized by statute without an individual having to first obtain a court order requiring the department to do so. The purpose of this study is to examine the titling practices of the Department of Motor Vehicles and to develop comprehensive titling provisions after careful examination of the practices of other states in dealing with this subject matter.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 372.** Introduced by Wickersham, 49; Wehrbein, 2.

PURPOSE: Local governments and state government have concerns about the complexity, uniformity, and need for multiple financial reports submitted to agencies of state government. Proposed levy limits and expenditure restrictions have some provisions which require specific reporting by spending types in order to be successfully implemented. The Legislature and the public have expressed renewed interest in an examination of total public spending in its overall level and in sufficient detail to have informed discussions on allocation of public resources. Some of those issues have previously been addressed by staff from the Revenue Committee and the Appropriations Committee. Several other issues are being addressed by a working group of state and local officials regarding significant financial reporting information requirements imposed on local governments.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue and Appropriations Committees of the Legislature be designated to do continued analyses of local government financial reports, budgets, levy limits requirements, and financial reporting statutes in order to determine the usefulness and impact of these provisions on local governments. This analysis should include examining what potential may exist for devising practical and useful financial information reporting procedures and electronic filing of budgets. The committees and their staff shall monitor and participate in the efforts of interested local and state government agencies currently involved in examining this issue.

2. That the committees shall upon the conclusion of their study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

## RESOLUTIONS

**LEGISLATIVE RESOLUTION 373.** Introduced by Kiel, 9.

PURPOSE: The purpose of this study is to examine the ways the state may provide penalties and enforcement against so-called "aggressive driving" or "road rage" on Nebraska highways. The study shall include, but not be limited to:

1. Examining existing statutes, regulations, and programs which may be used to effectively combat aggressive driving;
2. Exploring current local, state, and federal programs or grants to fund equipment and manpower for increased enforcement of current law;

1. Examining existing fees and how and when they are accrued;

2. Determining whether current consumer notification of such fees is sufficient;

3. Examining whether electronic notification and consumer acceptance of any imposed fees after a transaction is initiated, but prior to the consumer being irrevocably committed, is feasible; and

4. Surveying other states' or the federal government's existing or proposed statutes, regulations, and legislative action regarding fees associated with the use of an automatic teller machine.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

**LEGISLATIVE RESOLUTION 375.** Introduced by Kiel, 9.

PURPOSE: The purpose of this study is to examine the possibility of creating a magnetic levitation (MAGLEV) train system between Omaha and Lincoln or between any other suitable points. MAGLEV is a magnetic levitation train which can travel up to 300 miles per hour, which completely encircles the track so that it cannot derail, which can transport 100,000 people per hour, and which costs about the same as a new high-speed freeway. It is a new and exciting technology which not only will facilitate transportation, but make Nebraska a leader in new technology. Components of the study may include, but not be limited to:

1. Examining the technology available for establishing such a line;

2. Analyzing the cost and benefits to the State of Nebraska; and

3. Investigating current and proposed future funding from local, state, federal, and private sources.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

2. Exploring ways to more promptly and efficiently transfer students records, including discipline records, from one school district to another; and

3. Defining appropriate corporal punishment while also allowing the use of physical restraint by school employees in appropriate circumstances, for example, for self-defense, for the protection of others, or to quell a disturbance.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 377.** Introduced by Kiel, 9.

PURPOSE: The purpose of this study is to examine the ways in which the State of Nebraska can establish a hate crimes taskforce. Components of the study may include, but not be limited to:

1. Determining who should sit on the task force and in what capacity;

2. Examining the needs of state and local law enforcement agencies in training and educating officers for the investigation and reporting of hate crimes;

3. Examining ways in which the public can be educated about hate crimes; and

4. Surveying other states' or the federal government's existing or proposed hate crimes task forces.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

**LEGISLATIVE RESOLUTION 379.** Introduced by Schellpeper, 18.

PURPOSE: LB 1296 was introduced during the 1998 legislative session as an effort to provide incentives for landowners to rent agricultural assets to beginning farmers. The original bill proposed a tax credit applied against the asset owner's state income tax liability for agricultural land or livestock production facilities rented on a share-rental basis to qualified beginning farmers or livestock producers. The purpose of this study is to look at the feasibility of the Small Farmer Tax Credit and to look at other aspects of providing incentives. Additional considerations could include, but not be limited to:

(1) Allowing for the lease of livestock to be included as agricultural assets;

(2) Looking at alternative incentives such as capital gains credits (credits against gross income from a share-lease); and

(3) Bankruptcy protection for the owner of the assets.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report

of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 380.** Introduced by Schellpeper, 18.

PURPOSE: Those persons involved in production agriculture consistently experience high rates of illness and injury as a result of their chosen profession. Health care costs are often prohibitive for these individuals. The purpose of this study is to consider the creation of a Certified Safe Farms Program which would be designed to reduce the high rate of illness and injury in production agriculture through safety education, occupational health screening, and on-site farm safety assessment and the development of reduced cost insurance programs for those that participate in the program. Topics to be covered in this study may include, but would not be limited to: (1) Potential conflicts with existing Nebraska insurance law; (2) legal ramifications of a farm having been certified as a "safe farm", (3) receptiveness of the consumer to farm safety assessments; (4) potential for the program to become self-sustaining and self-financed; (5) who would conduct and finance the educational part of the project; and (6) the overall role of the state in such a program.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 381.** Introduced by Schellpeper, 18.

PURPOSE: States surrounding Nebraska have developed welcome centers that offer persons traveling through the state information about business and tourism in the region. These welcome centers have been shown to boost economic development, extend stays by tourists, and provide a better awareness of the area by the traveling public. The proposed Corps of Discovery Welcome Center at the scenic overlook on U.S. Highway 81, two miles south of Yankton, South Dakota, will provide an appealing site for visitors to Nebraska by providing information, space, and facilities that will enhance visitors' perceptions of the area while extending their stays. The purpose of this study is to look at the economic development benefits of a welcome center in Nebraska and to look at the potential for state funding in conjunction with other revenue sources for building and maintaining welcome centers in Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 382.** Introduced by Schellpeper, 18.

PURPOSE: Understaffing within the Department of Motor Vehicles and time constraints related to scheduling both testing and required driving components for commercial drivers' license (CDL) applicants has made it difficult for many such applicants to complete the required process prior to employment. Additionally, some businesses, such as custom harvesters, would benefit from a time-limited restrictive license that would not be subject to the standard CDL training and testing requirements. The purpose of this study is to review commercial drivers' license requirements, training, and testing procedures and determine if such a restrictive license classification is feasible.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 383.** Introduced by Bromm, 23.

PURPOSE: To examine the needs, implications, and potential results of enacting the provisions contained in Legislative Bill 508, the Prison Litigation Reform Act, introduced during the Ninety-fifth Legislature, First Session, 1997.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 384.** Introduced by Dierks, 40.

PURPOSE: There are over twelve thousand Nebraskans of Native American

ancestry. The frequency of Native Americans reportedly suffering from preventable ailments, including diabetes and cardiovascular disease, exceeds that of the white population and of the total population by an alarming rate. Poor health habits, such as alcohol abuse, smoking, and poor diet are often attributed to the pressures accompanying poverty and unemployment. These habits contribute to the problems which result in the loss of years of productive life.

The purpose of this study is to investigate the underlying reasons for the higher incidence of preventable diseases among Native Americans and to examine the impact that health education and preventive health care programs can have on the lives of Native Americans.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 385.** Introduced by Dierks, 40.

PURPOSE: Many alternative medical treatments are available for cancer and other diseases to patients opting for alternative treatment. Some alternative medical treatments have undergone rigorous scientific testing for their curative value. Many that have been tested don't show effectiveness. Still, some forms of alternative therapy are recognized as helpful in caring for patients and helping them cope with some illnesses. Recognizing that licensed medical professionals are the best source of information about alternative medicine as a supplement to conventional treatments, it is the intent of this study to generate discussion and develop legislation to respond to the public demand for less invasive, less expensive, and less disruptive medical care than is offered through conventional methods of treatment.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 386.** Introduced by Wickersham, 49; Kristensen, 37; Coordsen, 32; Will, 8.

PURPOSE: To study the committee structure of the Nebraska Legislature, including:

(1) The method of selecting Committee on Committees members, including caucus composition;

(2) The composition, including the number of members assigned, of each of the standing committees;

(3) The distribution of subject matter for committees;

(4) The criteria for referring bills and resolutions to committees; and

(5) The scheduling of hearings for standing committees.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 387.** Introduced by Bohlke, 33.

PURPOSE: The purpose of this resolution is to study the issue of charter schools and recommend legislation, if appropriate.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 388.** Introduced by Transportation Committee: Bromm, 23, Chairperson; Coordsen, 32; Elmer, 44; Matzke, 47; Dw. Pedersen, 39; C. Peterson, 35; Robinson, 16; Thompson, 14.

PURPOSE: The Nebraska Highway-Rail Grade Crossing Safety and Consolidation Act, adopted by the Legislature in Laws 1997, LB 255, directed the Department of Roads to develop a comprehensive public safety program to deal with problems associated with public and private highway-rail grade crossings. In designing such a program, the department is to establish a process for assessing the risk to the public for particular grade crossings and for reducing or eliminating such risk in a cost-effective and timely manner.

The act directs the Department of Roads to actively solicit input from the public and from representatives of county and municipal governments, the Federal Highway Administration, the Federal Railroad Administration, and any other individuals or entities with an interest in grade crossing safety. The

grade crossing safety assessment process shall be established no later than September 1998.

The act also requires the Department of Roads to recommend to the Legislature, no later than March 1999, an equitable formula for funding grade crossing risk abatement.

In compliance with the act, the Department of Roads has contracted with a team of engineering, design, and other professionals to develop the assessment process which will enable the Department of Roads to adopt and promulgate rules and regulations establishing a comprehensive public safety program to deal with problems associated with public and private highway-rail grade crossings.

LB 1157, introduced in 1998, emphasizes the public's concern with grade crossing safety and traffic disruptions resulting from continuing increases in both vehicle and rail traffic.

The purpose of this resolution is to provide for legislative oversight as the Department of Roads carries out the provisions set forth in Laws 1997, LB 255, adopting rules and regulations establishing a comprehensive public safety program to deal with problems associated with public and private highway-rail grade crossings and developing recommendations for an equitable formula for funding grade crossing risk abatement.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 389.** Introduced by Kiel, 9.

PURPOSE: The purpose of this study is to examine the ways that the state may provide financial support to both urban and small communities for neighborhood development projects. Components of the study may include, but need not be limited to:

1. Existing sources of state funding that may be used to provide financial assistance to neighborhood associations and neighborhood development projects;

2. Possible new state funding sources that may be established and earmarked to fund a neighborhood development assistance program and any administrative expenses;

3. Possible sources of nonstate funding that may be available to leverage state and local funding; and

4. An examination of neighborhood development projects that would have a positive impact on the vitality, cohesiveness, and continued visibility of neighborhoods in urban and small communities.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE

NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 390.** Introduced by Kiel, 9; Wesely, 26.

PURPOSE: The purpose of this study is to examine the net effect of the Quality Jobs Act and Employment and Investment Growth Act on employment. Components of the study may include, but need not be limited to:

1. Determining the number of employees who have been laid off, furloughed, or otherwise are no longer employed by agreement partners of the Quality Jobs Act, the Employment and Investment Growth Act, or other similar acts;

2. Exploring whether such employees did the same or substantially the same work as newly hired employees or trainees who allowed agreement partners to qualify for the incentives and benefits of the Quality Jobs Act, the Employment and Investment Growth Act, or other similar acts;

3. Examining whether new employees or trainees under these acts result in a net state tax base loss or other state benefit loss if there is in fact a concomitant loss of employees for new employees or trainees of the agreement partners; and

4. Investigating ways in which the statutes of Nebraska may be changed to more accurately carry out the intent of the Legislature in the Quality Jobs Act, the Employment and Investment Growth Act, or other similar acts.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

2. Survey existing or proposed programs, statutes, and legislative action in other states which are intended to combat aggressive driving and recommend possible future legislation for Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 392.** Introduced by Transportation Committee: Bromm, 23, Chairperson; Coordsen, 32; Elmer, 44; Matzke, 47; Dw. Pedersen, 39; C. Peterson, 35; Robinson, 16; Thompson, 14; and Crosby, 29.

PURPOSE: The purpose of this interim study is to review the provisions of LB 937, introduced during the 1998 session of the Legislature, and other relevant information involving telemarketing fraud and the abuses that arise in the context of telephone solicitations, including abuses involving illegal changes in telephone subscriber carrier selection, commonly called "slamming". The study will:

2. Examine statutes, rules, and regulations from other states and telemarketing industry standards which provide models and solutions for combating telemarketing fraud and abuses; and

3. Propose possible legislation for future adoption by the Legislature which will combat telemarketing fraud and abuses.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 393.** Introduced by Transportation Committee: Bromm, 23, Chairperson; Coordsen, 32; Elmer, 44; Matzke, 47; C. Peterson, 35; Robinson, 16; Thompson, 14; and Schrock, 38.

PURPOSE: During the Ninety-fifth Legislature, Second Session, 1998, the Transportation Committee studied LB 1325, which related to historical vehicles and motor vehicle titles and amended sections 60-117 and 60-311.20, Reissue Revised Statutes of Nebraska. In addition, the

Legislature notes that the general provisions of Article 60, Chapter 1, Reissue Revised Statutes of Nebraska, which govern certificates of title for motor vehicles, have not been completely examined or recodified since 1943. This interim study shall:

1. Examine the provisions of LB 1325 (1998) in the context of a general review of the statutes governing the issuance of certificates of title for motor vehicles; and

2. Suggest changes and improvements, if needed, to the statutes governing the issuance of certificates of title for motor vehicles.

PURPOSE: The Legislature recognizes that the carrier enforcement division of the Nebraska State Patrol is critical in enforcing Nebraska's transportation of hazardous material laws and overseeing the transportation of goods in Nebraska. The Legislature also recognizes that with respect to other regular employees of the Nebraska State Patrol, the carrier enforcement division has a different pay level, different retirement plan, and more specialized enforcement authority under Nebraska laws. The interim study shall examine:

1. The current structure and division of authority between the carrier enforcement division and the other divisions of the Nebraska State Patrol with respect to the enforcement of the Nebraska Rules of the Road and other traffic and transportation related laws in the State of Nebraska; and

2. Any proposals for improvements with respect to the structure and organization of the Nebraska State Patrol.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 395.** Introduced by Transportation Committee: Bromm, 23, Chairperson; Coordsen, 32; Elmer, 44; Matzke, 47; Dw. Pedersen, 39; C. Peterson, 35; Robinson, 16; Thompson, 14.

PURPOSE: The Legislature finds that the continued growth and health of the State of Nebraska depends on the continued safety and maintenance of the highway infrastructure. In particular, the Legislature recognizes that the federal Intermodal Surface Transportation Efficiency Act of 1998 (ISTEA) has been passed by the United States Senate as of March 12, 1998, but that no final resolution to the continuation of the federal highway funds program has been created. Recognizing the importance of ISTEA and Nebraska's Highway Trust Fund, the Legislature intends to monitor and study the continued viability of highways, highway construction, and highway maintenance in the State of Nebraska. This interim study shall:

1. Monitor and report to the Legislature the current and continuing situation with respect to the reauthorization of the federal ISTEA legislation and suggest possible solutions to difficulties raised by the lack of definitive federal legislation; and

2. Study and report to the legislature possible funding, administrative, or safety problems which may arise within the programs which construct and maintain Nebraska's highways, including the Department of Roads, the Federal Highway Administration, or any other agency having responsibility for highways in Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 396.** Introduced by General Affairs Committee: Schellpeper, 18, Chairperson; Cudaback, 36; Hartnett, 45; Hudkins, 21; Robak, 22; Vrtiska, 1; Will, 8.

PURPOSE: In 1993, the Nebraska Supreme Court ruled in Kwik Shop v. City of Lincoln that the laws which provided authority to local governments to issue or deny retail liquor licenses were unconstitutionally vague and therefor constituted an impermissible delegation of legislative authority. Legislation has been introduced in each session since then to respond to this issue. LB 249, introduced in 1997, advanced to Select File but was not advanced due to the attachment of conflicting amendments. This study shall include, but is not limited to, examination of the following:.

1. Appropriate role and function of the Nebraska Liquor Control Commission in the process of issuing, denying, and regulating retail liquor licenses;

2. Appropriate role and function of local governing bodies in relation to licensing, suspension, or revocation of retail liquor licenses;

3. Appropriate procedures to gather public input and conduct hearings and appeals concerning licensing, suspension, or revocation of retail liquor licenses;

4. Whether license fees and occupation taxes are at an appropriate level; and

5. Any other issues necessary or appropriate for a full and complete examination of this matter.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the General Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 397.** Introduced by General Affairs Committee: Schellpeper, 18, Chairperson; Cudaback, 36; Hartnett, 45; Hudkins, 21; Robak, 22; Vrtiska, 1; Will, 8.

PURPOSE: There is documented evidence indicating that use of the Internet for gaming purposes is rapidly increasing. Regulation of gaming activities on the Internet raises a number of issues, including enforcement issues, privacy issues, and jurisdictional issues. LB 1043 was introduced in the 1998 Legislature to address this issue but remains in committee at the present time. This study shall include, but is not limited to, examination of the following:

1. Internet gaming activities being offered to persons in the State of Nebraska;

2. Whether law enforcement is pursuing efforts to prevent Internet gaming activities or enforce current gaming laws against persons offering such activities;

3. Whether legislation should be enacted to prohibit Internet gaming or other illegal activities made available through the Internet;

4. Limitations on legislation prohibiting or regulating Internet gaming or other illegal activities made available through the Internet in order to protect legitimate activities of Nebraskans and the likely impact of such legislation;

5. Enforcement efforts of other states and the federal government concerning Internet gaming;

6. Legislation by other states and the federal government concerning Internet gaming;

7. Whether there is model legislation concerning Internet gaming; and

8. Any other matters necessary or appropriate for a full and complete examination of this issue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE

NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the General Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 398.** Introduced by General Affairs Committee: Schellpeper, 18, Chairperson; Cudaback, 36; Hartnett, 45; Hudkins, 21; Robak, 22; Vrtiska, 1; Will, 8; and C. Peterson, 35.

PURPOSE: Revenue from charitable gaming has declined significantly in the last two years. Many keno games conducted on behalf of county and city lotteries have much lower revenue than they did two or three years ago. Charities which conduct bingo games or sell pickle cards have been forced to find other sources of funding or discontinue some of their charitable activities. There are a number of reasons for the decline, including the proximity of casino gaming in at least three of the states which border Nebraska and the loss of interest in Nebraska gaming activities which have not been changed recently. There has also been anecdotal evidence of a number of illegal gaming activities available to Nebraskans, including video gaming devices. There have been several legislative bills introduced in the last two legislative sessions concerning various issues concerning charitable gaming, but none has advanced beyond General File. This study shall include, but is not limited to, examination of the following:

1. Whether legislation is needed to make charitable gaming activities more interesting or competitive with activities in other states;

2. Whether legislation is needed to combat the use of devices which are of questionable legality, such as increasing fees for their use or changes in definition of illegal devices;

3. Whether changes are needed in the regulation or tax structure of charitable gaming; and

4. Any other issues appropriate for a complete examination of this issue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the General Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 399.** Introduced by General Affairs Committee: Schellpeper, 18, Chairperson; Cudaback, 36; Hartnett, 45;

Hudkins, 21; Robak, 22; Vrtiska, 1; Will, 8.

PURPOSE: Parimutuel wagering on horseracing at licensed racetracks has been conducted in the State of Nebraska since 1935. In recent years horseracing has experienced significant declines in attendance and revenue. This has resulted in a number of major changes in horseracing including the closing of the Aksarben track. The opening of the new Horsemen's Park in Omaha, a facility which runs primarily as a simulcasting facility at the present time with the hope of generating revenue to begin conducting a more extensive live racing schedule in future years, may signal a new direction for horseracing in this state. However, there are a number of legal and policy issues which deserve examination as horseracing adjusts to the current situation. This study shall include, but is not limited to, examination of the following:

1. Whether it is beneficial to have fewer days of live racing with larger purses in order to generate excitement about live racing;

2. Whether there are provisions relating to horseracing which are required by statute which would be better decided as a matter of business practices among interested parties or governed by rule of the State Racing Commission;

3. Whether statutory changes are needed to encourage horsebreeding in Nebraska;

4. Whether statutory changes are needed to respond to new ownership interests, including for-profit ownership, and the possibility of conflicts of interest by the horsemen's organization between its role as representative of the owners and trainers and its role as owner and operator of a racetrack;

5. Whether the State Racing Commission should be granted additional authority to obtain financial information from racetracks in order to maintain the integrity of racing;

6. Whether live racing is conducted on an appropriate schedule in relation to factors of population, weather, and availability of horses;

7. Whether other gaming opportunities at racetracks should be approved to increase revenue for horseracing and attract additional fans to the sport;

8. Whether changes in the Constitution of Nebraska relating to racing or gaming are needed to respond to current economic conditions and legal issues; and

9. Any other issues necessary or appropriate for a full and complete examination of this matter.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the General Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

## RESOLUTIONS

**LEGISLATIVE RESOLUTION 400.** Introduced by General Affairs Committee: Schellpeper, 18, Chairperson; Cudaback, 36; Hartnett, 45; Hudkins, 21; Robak, 22; Vrtiska, 1; Will, 8.

PURPOSE: The policy of the State of Nebraska has consistently discouraged consumption of alcoholic liquor by individuals under the age of twenty-one. However, underage drinking continues to be a matter of concern because of documented evidence of the high percentage of young people who drink, especially those who drink excessively, and the tragedies which can result from this activity. There have been several bills introduced in response to this problem, including bills to increase penalties for minors in possession of alcohol and for minors who obtain alcohol from licensed retailers. Suspension of driver's licenses for minors has been suggested as an effective deterrent. Legislation was also introduced to increase penalties for retailers who sell to minors, based upon statistics which indicated that approximately thirty-six percent of retailers sold to minors in compliance checks by law enforcement. This study shall include, but is not limited to the following:

1. Whether increased penalties, including suspending a minor's driver's license, are effective in deterring underage drinking;

2. Whether compliance checks are a necessary and appropriate method for law enforcement and the Nebraska Liquor Control Commission to enforce the laws related to underage drinking;

3. Whether law enforcement need statutory changes to assist in enforcing laws related to underage drinking and regulation of licensed establishments;

4. Whether the Nebraska Liquor Control Commission needs additional authority over licensed establishments to make retailers more vigilant about underage drinking;

5. Whether policies can be enacted to encourage retail liquor establishments to assist in preventing underage drinking; and

6. Any other matters appropriate for a complete examination of this issue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the General Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 401.** Introduced by General Affairs Committee: Schellpeper, 18, Chairperson; Cudaback, 36; Hartnett, 45; Hudkins, 21; Robak, 22; Vrtiska, 1; Will, 8; and Bohlke, 33.

PURPOSE: The 1998 Legislature has made a number of policy choices to change the method of allocating State Lottery Act revenue. In addition, there are questions about methods of increasing lottery sales, including increasing the amount of payout, providing bonuses to retailers for sales, and permitting the Lottery Division of the Department of Revenue to conduct limited retail sales with using a retail sales agent. This study shall include, but is not limited to, examination of the following:

1. Whether State Lottery Act revenue should be allocated in a different manner from that currently required by statute;

2. Whether an increased percentage of payout to players would increase sales;

3. Whether bonuses or other methods of compensation would provide incentives for retailers to increase sales;

4. Whether there are sales opportunities that are not currently being met under the current system; and

5. Any other matters appropriate for a complete examination of this issue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the General Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 402.** Introduced by Transportation Committee: Bromm, 23, Chairperson; Coordsen, 32; Elmer, 44; Matzke, 47; Dw. Pedersen, 39; C. Peterson, 35; Robinson, 16; Thompson, 14.

PURPOSE: The Legislature finds that the continued growth and health of the rural parts of the State of Nebraska are dependent upon maintaining affordable access to information technology and reasonable telecommunications cost. The proposed Universal Service Fund promulgated by the Federal Communications Commission under its authority granted by the federal Telecommunications Act of 1996, P.L. 104-104 (1996), has drawn the Legislature's attention to the need to plan for the maintenance of affordable access to telecommunications and information technology in rural Nebraska. This interim study will:

1. Study and report to the Legislature issues which affect affordable access under the federal Telecommunications Act of 1996 and the policies, procedures, and regulations promulgated by the Federal Communications Commission or other federal agencies; and

2. Study and report to the Legislature further needs and possible solutions which will assist in maintaining affordable access to telecommunications and information technology in rural Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 403.** Introduced by Transportation Committee: Bromm, 23, Chairperson; Coordsen, 32; Elmer, 44; Matzke, 47; Dw. Pedersen, 39; C. Peterson, 35; Robinson, 16; Thompson, 14.

PURPOSE: The purpose of this study is to examine the current enforcement powers of the Public Service Commission with respect to the enforcement of interconnection agreements and access charges with respect to telecommunications in Nebraska. During the Ninety-fifth Legislature, Second Session, 1998, LB 1297 and LB 1358 were introduced. These legislative bills contained proposals to: Modify the powers of the Public Service Commission; change provisions relating to access charges; provide an eligibility condition for universal service funding; establish standards for interconnection service quality; provide a stated intent; provide powers and duties for the Public Service Commission; and change provisions relating to cost recovery in the context of telecommunications. The interim study shall examine the above-stated proposals, any other proposals related thereto, and the general subject matter contained in LB 1297 (1998) and LB 1358 (1998) in the context of both the public policy of the State of Nebraska and the federal Telecommunications Act of 1996, P.L. 104-104, 110 Stat. 56 (1996) and its rules and regulations.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 404.** Introduced by Transportation Committee: Bromm, 23, Chairperson; Coordsen, 32; Elmer, 44; Matzke, 47; Dw. Pedersen, 39; C. Peterson, 35; Robinson, 16; Thompson, 14.

PURPOSE: The Legislature finds that the continued growth and continuing modification of the telecommunications industry creates an environment in which the Legislature must monitor changes on the federal level in the context of the federal Telecommunications Act of 1996, P.L. 104-104, 110 Stat. 56 (1996), in the rules and regulations issued pursuant to the act, and

in the development of telecommunications technology and the increasing telecommunications industry-wide competition. This interim study will:

1. Monitor and report to the Legislature changes in the federal Telecommunications Act of 1996 and the policies, procedures, and regulations promulgated by the Federal Communications Commission or any other federal agency; and

2. Monitor and report to the Legislature changes in telecommunications technology which have significant implications for the public policy of the State of Nebraska both in public and private arenas.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 405.** Introduced by Preister, 5.

PURPOSE: The purpose of this study is to examine the high cost of automobile insurance in the State of Nebraska and to find alternatives to territorial rating. The study shall include a review of options to reduce insurance costs including, but not limited to, the potential of no-fault insurance. The study shall also include an accurate, objective assessment of Nebraska automobile insurance liability rates and other insurance rates as they compare to the other states in the country.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Banking, Commerce and Insurance Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 406.** Introduced by Jensen, 20; Coordsen, 32.

PURPOSE: The budget and appropriations process of state government is of the utmost importance to the state's taxpayers in that the level of state spending directly effects how much the citizens and families of Nebraska pay in taxes. How much money we spend as a state is determined by a multitude of factors. It is often difficult for the Legislature to exercise responsible oversight in the budget/appropriations process, for legislative

committees to oversee the budgets of the agencies within their subject matter jurisdiction, and for the Legislature to be adequately apprised of the nature and extent of federal funding to the state of Nebraska and the effect of such funding on state general fund expenditures and the state's overall public policy.

Without adequate and reasonable oversight, the Legislature is handicapped in its ability to reduce taxes to the people of Nebraska, reduce government spending, and to implement policies and procedures that are focused on alternatives to larger government and more government spending to provide for the general welfare of Nebraskans.

The purpose of this resolution is to conduct a comprehensive study of the legislative appropriations and budgeting process in the State of Nebraska, including, but not limited to, a survey of the budget/appropriations process in other states, and a general review and assessment of the budget/appropriations process in the State of Nebraska to identify needed changes, if any. The study shall concern itself with, but not be limited to, maximizing oversight and participation by all members of the Legislature in the budget/appropriations process, encouraging committee review of budgets for agencies within their subject matter jurisdiction, and conducting a comprehensive review and assessment of federal funding allocations to the State of Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a six-member committee of the Legislature be designated by the Chairperson of the Executive Board of the Legislative Council to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 407.** Introduced by C. Peterson, 35; Schellpeper, 18; Willhoft, 34; Hartnett, 45; Lynch, 13; Tyson, 19; Kiel, 9; Dierks, 40; Dw. Pedersen, 39; Wehrbein, 2.

PURPOSE: To systematically study the three state grant programs, including the State Scholarship Award Program (SSAP), the Scholarship Assistance Program (SAP), the Postsecondary Education Award Program (PEAP), and the increased funding levels these programs have received. In 1997-98, total state funding for the programs was $3,727,933 and was disbursed to needy students. When federal dollars are included, the total funding was $4,093,577. The study shall include, but not be limited to:

1. A review and evaluation of the current statutes to determine whether or not the original goals and purposes of these programs are being achieved for all students;

2. Assess each program to determine whether or not all students are encouraged to participate in these programs, including students who attend private and not-for-profit institutions, and determine if a conflict exists on

the same subject matter and analyze how the Legislature may address, through future legislation, any changes that may be required to more effectively ensure uniformity for all students throughout the state;

3. Weigh the possibility of outlining specific funding mechanisms for the different programs and different institutions so that all students are receiving the same opportunities with special focus being given to the practical impacts of funding of state dollars and the statutory mandate to provide similar opportunities and the related consequences if sufficient funding is not provided on an equal basis to all institutions;

4. Review and evaluate national and regional accreditation bodies to ensure quality and to establish specific standards. Special emphasis will be placed on how the approval process is achieved and how current statutes restrict some students attending private and not-for-profit colleges the ability to participate in the PEAP program;

5. Conduct at least one public hearing to provide an opportunity for public comment and discussion with members of the education community, the Legislative Fiscal Office, the budget office, and other interested parties; and

6. Any other matters necessary or proper for a complete examination of this issue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Appropriations Committee and the Education Committee of the Legislature be designated to conduct a joint interim study to carry out the purposes of this resolution.

2. That the committees, upon the conclusion of their study, make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 408.** Introduced by Thompson, 14; Brown, 6; Kiel, 9; Tyson, 19; Hartnett, 45; Engel, 17; Dierks, 40; Dw. Pedersen, 39; Landis, 46; Wesely, 26; Robak, 22; Hilgert, 7; Bohlke, 33.

PURPOSE: The purpose of this resolution is to recognize the important part played by cigarette tax revenue and to explore the following issues regarding the impact of the proposed resolution of the nationwide tobacco settlement and the proposed federal cigarette tax increase on current state program funding levels and related efforts:

(1) Since the revenue raised by the cigarette tax depends on cigarettes sales, will the proposed legislation regarding significant increases in federal cigarette taxes affect the Department of Health Cash Fund?

(2) Will these same federal cigarette tax increases affect the funding levels for cancer and smoking-disease research in Nebraska?

(3) Will these same federal cigarette tax increases affect the funding levels for other state sponsored cancer and smoking-disease related efforts?

(4) Do state cigarette tax levels and tobacco settlement funds need to be adjusted in light of the proposed federal increases to continue adequate levels of funding for state programs?

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

PURPOSE: The purpose of this resolution is to study Nebraska's regulatory authority over various types of managed care arrangements and examine possible changes in the insurance statutes in light of the provisions in LB 1162 of 1998.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Banking, Commerce and Insurance Committee of the Legislature shall be designated to conduct an interim study to carry out the

purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 418.** Introduced by Hillman, 48; Wickersham, 49.

PURPOSE: To conduct a risk assessment of the Medicaid Program to assist with planning for future costs. From 1985 through 1995, annual increases in the Medicaid Program ranged from four to twenty-five percent. The study will generate information to assist the Legislature in determining a level of future annual obligations. The study shall include, but not be limited to, the examination of the following components:

1. Acute health care; and

2. Long-term care.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 419.** Introduced by Urban Affairs Committee: Hartnett, 45, Chairperson; Abboud, 12; Preister, 5; Robak, 22; Schimek, 27; Will, 8.

PURPOSE: This study, following a decade-long tradition, would provide the opportunity for the committee to investigate and review matters and issues arising during the interim which are within the jurisdiction of the Urban Affairs Committee and which may be the subject of bills to be introduced in the next legislative session. This would provide the opportunity for a careful review of proposed legislation and the drafting of such legislation before time constraints and the pace of legislative activity makes studied review more problematic. This process has also served to facilitate review of bills during the session and has helped the committee avoid the need for committee amendments which slow down the consideration of bills by the full Legislature.

The study will involve:

(1) A review of legislation considered by the Urban Affairs Committee during the 1998 regular session which was either killed by the committee or held in committee to determine what other further action by the committee might be warranted with regard to the particular subjects of the individual

bills;

(2) A review of problems, concerns, or legislation proposed for introduction by senators or other parties for study, technical discussion, or conceptual refinement before the start of the next legislative session;

(3) A study of the historical workload of the Urban Affairs Committee and the issues generally referenced to the committee; and

(4) The conducting of at least one public hearing to provide an opportunity for public comment and discussion with members of the committee and the public on issues involving matters within the committee's jurisdiction.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 420.** Introduced by Urban Affairs Committee: Hartnett, 45, Chairperson; Abboud, 12; Preister, 5; Robak, 22; Schimek, 27; Will, 8.

PURPOSE: During the 1997 legislative session, the Urban Affairs Committee considered LB 763, the Plumbing License Law. This legislation would license plumbers on a statewide basis through the Department of Health and Human Services, as opposed to the current system of licensure on a city-by-city basis according to local standards.

Because of the implications of the changes proposed in the legislation, it was deemed most appropriate by the committee to defer action on the bill pending the fuller review and closer scrutiny that would be afforded by an interim study on the issues raised by the proposal.

The study led to the introduction of LB 1340 in the 1998 legislative session which further refined the proposal and led to additional fruitful dialogue at the public hearing on the concepts underlying the legislation.

The purposes of this study will be to review the provisions of LB 1340, based upon the issues raised at the hearing on the bill, and determine whether it would be feasible or advisable to adopt it as an alternative to current Nebraska law and practice and, if so, what form proposed changes should take.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 421.** Introduced by Urban Affairs Committee: Hartnett, 45, Chairperson; Abboud, 12; Preister, 5; Robak, 22; Schimek, 27; Will, 8.

PURPOSE: In this legislative session, the Urban Affairs Committee continued its review of LB 876, the Nebraska Housing Agency Act, a comprehensive rewrite of Nebraska's housing authority statutes. As the result of major changes in federal legislation and patterns of financing, it will become increasingly difficult for Nebraska to meet the housing needs of its less fortunate citizens without substantial changes in its laws to enable housing authorities to diversify their activities and take advantage of cooperative developments with private businesses and developers.

The committee declared LB 876 as one of its committee priority bills for both 1997 and 1998 and has embarked upon a major review of the provisions of the original bill which is more than one hundred pages long. During the 1998 session, the committee is completing the development of an amended version of the bill to serve as a basis for further discussion. In order to provide the opportunity for more careful analysis of this version of the bill and its implications and to afford members of the public and interested parties the opportunity to participate in the process, the committee determined that it would be most appropriate to conduct an interim study on the bill to permit this discussion and analysis.

The purpose of this study will be to continue the committee study and review the original and amended versions of LB 876 and their implications, to discuss further appropriate amendments to the original bill, and to solicit comments, suggestions, and recommendations from the state's current housing authorities, members of the construction and housing industry, and members of the public.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 422.** Introduced by Urban Affairs Committee: Hartnett, 45, Chairperson; Abboud, 12; Preister, 5; Robak, 22; Schimek, 27; Will, 8.

PURPOSE: One of the core elements of the jurisdiction of the Urban Affairs Committee is the planning and zoning authority of cities and villages. Because of the increased development going on in many areas of the state, it is important for the committee to revisit our statutes governing those activities to determine if they are appropriately protecting the public interest.

This study should include the following:

(1) A review of the laws governing the operations of cities of all classes

and villages with regard to planning, zoning, subdivision regulation, development, and annexation;

(2) A study of the operation of the various municipal bodies engaged in the planning and development process, including planning commissions, community redevelopment authorities, boards of adjustment, and building boards of review;

(3) A study of sanitary and improvement districts, the statutes governing their operations, the finances of their operations, and their relationship with municipalities and counties;

(4) A review of the services which sanitary and improvement districts are authorized to provide their residents and the services which such residents receive from neighboring cities and the counties in which they reside;

(5) A review of the finances of annexation and the manner in which financial considerations impact on annexation decisions;

(6) A study of what changes would be appropriate in state law to facilitate annexation or to enable sanitary and improvement districts to exist as "stand alone" bodies with enhanced powers and authority;

(7) A study of impact fee legislation for use in the financing of suburban development and the role it could play in permitting "up-front" annexation by municipalities; and

(8) An examination of the costs involved in financing municipal development and facilitating economic development in cities and their surrounding areas.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

AM3889

(Amendments to Final Reading copy)

On page 9, line 20, after the period insert "If the director is proposing elimination or modification of an existing schedule of copayments and deductibles, a report on the proposed changes shall be provided to the Governor and the Legislature by December 1. ## RESOLUTIONS

**LEGISLATIVE RESOLUTION 423.** Introduced by Bromm, 23; Robinson, 16.

PURPOSE: Article III, section 5, of the Constitution of Nebraska sets forth a general framework for establishing legislative district boundaries. The drawing of congressional and legislative district boundaries is a difficult but necessary task of the Legislature. The process has historically had little further basis to consider in determining those boundaries.

Various ideas have been introduced as legislation, including those contained in Legislative Bill 607, Ninety-fifth Legislature, First Session, 1997, the purpose of which is to make the redistricting process more scientific and efficient. It is important that the Legislature study this issue in an expeditious manner in order to be as prepared as possible for the next redistricting which must occur in the year 2001. Such study should include, but not be limited to:

(1) An examination of the redistricting process used previously in Nebraska;

(2) An examination of the redistricting process used in other states;

(3) An examination of any problems encountered in past redistricting in Nebraska and what steps were taken to deal with those problems;

(4) The effectiveness of an advisory commission being formed to assist the Legislature in the redistricting process; and

(5) Other relevant issues involved in the process of redistricting of congressional and legislative district boundaries.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 424.** Introduced by Dierks, 40; Jones, 43.

PURPOSE: The Nebraska livestock brand law, Chapter 54, article 1, governs the use, application, registration, and inspection of ownership brands on cattle and other livestock. Although the law is comprehensive and widely understood throughout the livestock industry, the existing language is archaic and confusing. It is the intent of this study to review the Nebraska livestock brand law with the input of the Nebraska Brand Committee and other interested parties for purposes of updating, simplifying, and clarifying the law where appropriate and desirable.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 425.** Introduced by Dierks, 40; Jones, 43; Vrtiska, 1; Wehrbein, 2.

PURPOSE: Livestock production is the largest industry in the State of Nebraska, contributing over five billion dollars to the state's economy. Policies enhancing income for livestock producers is critical to the long-term viability of the industry.

Traditionally dominated by independent livestock producers who have marketed their livestock through a system involving open markets and competitive bidding, the industry is rapidly changing. A marketing evolution which includes the practice of formula and contract buying of livestock by packers has resulted in market concentration which is a significant element in the decline of small livestock producers. It is the intent of this study to determine what, if any, state legislation can be developed to enforce fair market competition for all livestock producers. Further, it is the intent of this study to determine what influence the State of Nebraska can have on federal regulatory programs including, but not limited to, an increase in the level of regulatory pressure from the United States Department of Agriculture's Grain Inspection, Packers and Stockyard Administration (GIPSA) in enforcing the provisions of the federal Packers and Stockyards Act.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 426.** Introduced by Business and Labor Committee: Abboud, 12, Chairperson; Chambers, 11; Dierks, 40; Hilgert, 7; Preister, 5; Schimek, 27; Schrock, 38.

PURPOSE: To conduct a general review of the Nebraska Workers' Compensation Act, the Commission of Industrial Relations, the unemployment insurance, and other matters within the subject matter jurisdiction of the Business and Labor Committee.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Business and Labor Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 427.** Introduced by Business and Labor Committee: Abboud, 12, Chairperson; Chambers, 11; Dierks, 40; Hilgert, 7; Preister, 5; Schimek, 27; Schrock, 38.

PURPOSE: In recent years, several large damage awards have been processed through the tort claims procedure, the court system, and Legislative review and have been paid by state appropriation. Some of the latest, larger awards have been against the Department of Health and Human Services for neglecting to warn people who are likely to be affected by a state ward's propensity for erratic behavior or violence. A study should be undertaken to determine why the state is incurring these judgments and what might be a proper remedy. This would include the lack of notice by the department to both foster parents and neighbors near the locations of group homes and child caring agencies. It would also include a study of the case law, the total amount of the awards, and limiting the liability of the state.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Business and Labor Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

## RESOLUTIONS

**LEGISLATIVE RESOLUTION 428.** Introduced by C. Peterson, 35; Bromm, 23.

PURPOSE: The purpose of this interim study is to examine the extent to which those provisions in Chapter 60, articles 3, 4, and 5, are capable of efficient and effective enforcement by the Department of Motor Vehicles and law enforcement agencies, focusing specifically on persons driving without a valid operator's license, without proper registration of their motor vehicles, or without current and effective proof of insurance. The study shall include, but is not limited to:

1. Examining the effectiveness for purposes of enforcement of the following statutes: 60-301, 60-302, 60-484, 60-528, and such other statutes as the committee deems necessary to conduct an exploration of the problem of unlicensed, underinsured, and uninsured drivers and those driving unregistered motor vehicles;

2. Reviewing and analyzing the statutes, rules, and regulations of other states and the federal government for possible further solutions which increase the effectiveness of enforcement and compliance with those sections requiring operator's licenses, motor vehicle registrations, and proof of financial responsibility; and

3. Any other matters necessary or proper for complete examination of this issue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

PURPOSE: The purpose of this study is to examine Nebraska's overall tax system. Recently, the Legislature has been criticized for the overall level of taxation borne by Nebraskans. Various sources rank Nebraska, or Omaha, as compared to other states or cities in those states from as high as tenth to as low as twentieth in overall tax burden. Rankings of the burdens of individual taxes like sales, income, or property show an even broader variety of rankings. This study is to examine Nebraska's sales, income, property, excise, and other taxes as to the burden imposed on taxpayers relative to each other and overall compared to those in other states. The study will seek to determine what level of overall taxation is appropriate and how that burden should be divided among the various tax sources.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 434.** Introduced by Bromm, 23.

PURPOSE: To study the provisions of group health insurance covering public employees, all or a portion of the premiums for which is paid by the public entity employer of the insureds. The study shall include, but not be limited to, the following:

(1) Examining the need for and implications of a statutory requirement that insurance carriers who have issued a group health insurance policy covering public employees annually file with the Department of Insurance a financial summary report of the policy which shall include a description of coverages, premium rates, number of employees covered, and total claims paid; and

(2) Examining the need for and implications of a statutory requirement that insurance carriers who have issued a group health insurance policy covering public employees report quarterly to the respective board a financial summary, by coverage, of expenses incurred since the last report.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Banking, Commerce and Insurance Committee of the

Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 435.** Introduced by Brashear, 4.

PURPOSE: The purpose of this resolution is to consider a major tax change plan. Nebraskans have long sought tax relief, particularly from property taxes. Such relief, together with reduction of income and sales tax rates and tax relief that reflects the unique, capital-intensive nature of agricultural production, must be considered to respond to the people's rightful demand for relief. The state's projected revenue surplus for the near term, a possible willingness on the part of some interest groups to consider broadening the tax base, and a perceived need for major capital improvement projects in the state's two largest urban centers presents a rare opportunity to revisit our entire tax structure with the goal of producing a system that is fairer, more progressive, and more balanced and which has lower rates. This interim study will include, but is not limited to, the following:

(1) Enacting a general homestead exemption on the first $12,500 of value of every home;

(2) Adopting a refundable income tax credit for agricultural land of $2,500;

(3) Reducing the state sales tax rate from 5% to 4.5%;

(4) Adopting changes to the income tax bracket factors as contained in LB 1361, Ninety-fifth Legislature, Second Session, 1998;

(5) Expanding the sales tax base to include sales of all services except health care and certain computer and data processing services; and

(6) Deletion of certain exemptions that narrow the sales tax base except the exemptions on food and prescription drugs.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 436.** Introduced by Schimek, 27; Bromm, 23.

PURPOSE: To study the policy of deputizing railroad employees. Section 84-106 permits the Superintendent of the Nebraska State Patrol to deputize railroad police. The Federal Railroad Administration rules and regulations,

40 C.F.R. Part 207, authorizes railroad police and grants them powers and duties. This study should include, but not be limited to, an examination of the following areas:

(1) The need for the state to deputize railroad police;

(2) The types of citations that are issued and, if not available, a reporting system to document the categories of citations issued across the state;

(3) The need for rules and regulations governing the actions of the railroad police; and

(4) The efficacy of allowing the duplication of private employees to conduct law enforcement activities rightfully granted to the state and political subdivisions.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 437.** Introduced by Hillman, 48; Kiel, 9; Bohlke, 33; Suttle, 10.

PURPOSE: The purpose of this resolution is to study, examine, and determine possible statutory authority for clemency in the State of Nebraska for imprisoned battered women, imprisoned juvenile victims of child abuse, and imprisoned juveniles who protected a battered parent who have been convicted of crimes but whose histories indicate their crimes have been committed in response to or after a pattern of domestic violence.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 438.** Introduced by Hillman, 48; Thompson, 14.

PURPOSE: The purpose of this study is to review the Child Care Rules and Regulations, the Health and Human Services policies for day care services, and to study areas to develop a comprehensive child care system which meets the needs of families in Nebraska by encouraging high-quality, affordable, and accessible child care services. Among other issues, this study

should examine and determine:

(1) The criteria for the status of licensed and approved day care centers;

(2) The reimbursement for day care providers who are accredited and those who are nonaccredited;

(3) The equality of reimbursement rates across the state; and

(4) How parents use the materials provided by the Department of Health and Human Services in determining quality child care.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 439.** Introduced by Dierks, 40.

PURPOSE: The purpose of this study is threefold:

(1) To examine issues generally within the jurisdiction of the Agriculture Committee which may arise or be brought to the committee's attention during the interim;

(2) To examine the role of agriculture in the economy of the state and identify the impact of agricultural land investment practices by individuals not directly engaged in farming or ranching activity; and

(3) To address problems in the agriculture industry relating to the economic disadvantages of handling and shipping commodities produced with certain characteristics which are specifically grown, stored, marketed, and shipped in smaller quantities.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 440.** Introduced by Robak, 22.

PURPOSE: The purpose of this study is to determine the number of behavioral disordered students who do not complete high school in Nebraska and explore alternative educational settings more appropriate to their needs and abilities. The cost of this type of education would be offset by reduced societal costs of incarceration and welfare as these youth often leave school and end up in these programs.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 441.** Introduced by Brashear, 4.

PURPOSE: The procedure for serving and returning summonses, subpoenas, orders, and various other notices are established in statute. Several states and the federal judicial system allow private persons not involved in the matter to serve legal documents. Current statutes authorize a court to appoint private persons to serve such documents in a specific case. Several issues have been raised in past sessions of the Legislature concerning the service of legal documents in the state courts of Nebraska which are not easily resolved and indicate the need for a study into this matter. The study shall include, but not be limited to:

(1) An examination of the potential use of private process servers and the various issues contained in such use; and

(2) Other relevant issues involved in the serving and returning of summonses, subpoenas, orders, and various other notices.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

This study's review shall include:

(1) An examination of the flood hazard that currently threatens state properties, neighborhoods, and businesses in the region;

(2) The potential that the containment of the floodplain within the creek channel will have for property development and for increases in land use for all affected state municipal, and private properties;

(3) The potential that this expanded use of property will result in an increase of tax revenue to the State of Nebraska and the city of Lincoln;

(4) An evaluation of the state's interest in contributing to the project, and the potential of the state's financial commitment to the project to attract additional funding from other federal and private sources; and

(5) An evaluation of the multi-organizational effort that has been employed to create the Antelope Creek development proposal, which has included a significant degree of community participation, in order to determine whether this model of community planning and development can be a useful example of governmental entity cooperation for other communities in Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 456.** Introduced by Transportation Committee: Bromm, 23, Chairperson; Coordsen, 32; Elmer, 44; C. Peterson, 35; Thompson, 14.

PURPOSE: Intelligent Transportation Systems (ITS) utilize integrated technologies in the areas of communications, information processing, electronics, and related emerging technologies and applies them to transportation systems. Over the past few years, the Federal Highway Administration has encouraged the public and private sector to pursue various ITS projects to improve public safety, mobility, and productivity as well as the more efficient use of energy resources. These projects have implications for both highway and rail systems.

The purpose of this interim study is to provide a vehicle for the Transportation Committee to review the various ITS projects already underway in the State of Nebraska to determine whether legislation is needed to accommodate such present and emerging ITS applications.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 457.** Introduced by Stuhr, 24; Cudaback, 36; Hudkins, 21; Vrtiska, 1; Willhoft, 34; Jones, 43; Bromm, 23; Wickersham, 49.

PURPOSE: The goals of the Tax Equity and Educational Opportunities Support Act are to equalize educational opportunities of students, equalize the tax burden in support of schools, effectuate property tax relief, and broaden the tax base of the support of schools. With the passage of LB 806, Ninety-fifth Legislature, First Session, 1997, it is uncertain whether the goals of the act are being realized for rural schools, rural taxpayers, and communities. The purpose of this interim study resolution is to study the impact of the act on small rural schools, rural taxpayers, and communities to see whether the goals of the act are being met and to study changes to the act to be sure the purposes are realized. The study shall examine:

(1) Whether there are justifiable differences in cost and size comparisons among school systems in the state aid formula;

(2) Whether there are additional factors that need to be included in the state aid formula to truly represent the actual costs of very sparse, sparse, and standard groupings and if the groupings could be combined or further broken down by size;

(3) Whether "capacity to pay" could be included as a factor within the present formula which predominantly measures a system's resources by property wealth, and how this factor could be incorporated into the formula;

(4) How do you define "efficiency" as it applies to the state aid formula? Whether small schools in the standard grouping face disincentives in achieving efficiency due to the structure of the state aid formula; and

(5) Any other issues necessary or appropriate for a full and complete examination of this matter.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 458.** Introduced by C. Peterson, 35; Wickersham, 49.

PURPOSE: Homestead exemptions provide property tax relief for qualified claimants who meet certain income and disability criteria. Exemption application forms are currently made available by April 1, and completed applications are accepted through June 30 unless the filing deadline is extended by the county board. Several legislative bills addressing homestead exemption issues were introduced but not adopted during the 1998 legislative session which would have changed the application deadline and expanded the definition of disability for purposes of the exemption.

The interim study includes, but is not limited to, the following:

(1) The need to expand or clarify the definition of disability for veterans and others for purposes of homestead exemption eligibility as proposed by LB 1025 and related amendments;

(2) The timing of exemption applications as related to taxpayer convenience, local and state official workloads, and potential legislative changes;

(3) Recommendations for simplification of the homestead exemption application process;

(4) An examination of homestead exemption procedures in other states; and

(5) Any other matters necessary or proper for the complete examination of this issue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 459.** Introduced by Beutler, 28.

PURPOSE: Meeting the requirements of water quality standards under the federal Clean Water Act shall in the near future require an examination of Total Maximum Daily Loads (TMDL) for various pollutants in segments of rivers and streams that are not in compliance. The purpose of this study is to begin to examine this newly enforced requirement and determine how it can best be approached in Nebraska to meet federal law most efficiently and effectively within the context of our state's unique system of natural resource districts.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 460.** Introduced by Beutler, 28.

PURPOSE: There is within Nebraska a continuing concern with the need to balance a viable livestock industry with protection of the environment, especially the waters of the state. The purpose of this study is to review

livestock waste control regulation, the inspection and permitting program, and the resources needed to support such regulation. The study shall examine if statutes and regulations which have been enacted are sufficient to protect the waters of the state and are not overly burdensome on the livestock industry.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 461.** Introduced by Wesely, 26.

PURPOSE: Roadway development supporting municipal transportation can have a significant impact upon economic growth and tax revenue for the state and for municipalities. City planning for roadway construction enables increased traffic and access to municipal neighborhoods and business communities, sparking new commerce and economic development. New roadway construction also causes a reduction of taxable land and has the potential to damage the surrounding environment.

The purpose of this study is to examine the potential impact that the south and east beltways planned by the city of Lincoln will have for the State of Nebraska and the communities affected. Such a study shall also include:

(1) The potential for increased economic activity due to beltway construction through Lincoln and the surrounding communities and the resulting tax benefit to the state and the city of Lincoln;

(2) The amount of taxable land that will be removed from the property tax rolls, the potential negative impact to the environment, and the degree to which these conditions limit roadway construction;

(3) The planned beltway's potential to improve government services and save service costs in the context of the state-imposed property tax limits; and

(4) The degree to which the state should participate with the city of Lincoln's plans for roadway construction and the proposed timeline for construction.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 462.** Introduced by Hillman, 48; Jensen, 20.

PURPOSE: The purpose of this study is to examine the Uniform Residential Landlord and Tenant Act. The act has not been updated since 1974 and the act needs to be more responsive to the current times.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 463.** Introduced by Wesely, 26.

PURPOSE: The Commission of Industrial Relations was established to preserve a balance and serve as an arbiter in labor disputes between public employees and their employers. This study will review the Commission of Industrial Relations to evaluate the extent to which these objectives are being met and its effectiveness in its role in settling labor disputes.

The study's review will include, but not be limited to:

(1) An examination of the degree to which autonomy and deference for the commission is required for equitable decisions;

(2) A review of the principles that guide the commission, including the legal context for determining comparable municipalities and employee arrays; and

(3) The degree to which the rules and determinations of the commission helps or hinders the labor dispute process.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Business and Labor Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 464.** Introduced by Brashear, 4.

PURPOSE: (1) The purpose of this resolution is to consider a limitation on spending by the state. Recent trends that give rise to the possible need for such a limitation include (a) increases in the overall level of state spending over the last decade, (b) concern that increased spending has prevented genuine tax relief to our citizens, and (c) apprehension that an uncompetitive

tax burden has contributed to increasing labor shortages that have (i) deterred prospective economic initiatives from coming to Nebraska and (ii) inhibited the natural growth of existing economic activity.

(2) This interim study includes, but is not limited to, the following:

(a) Consideration of a limitation on overall spending by the state;

(b) Consideration of limiting the annual growth of state spending to a percentage based upon population growth and inflation;

(c) Consideration of the use of "automatic" spending reductions or other adverse consequences if limitations on overall spending are not satisfied; and

(d) Consideration of the appropriate form of such a limitation.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Appropriations Committee and Revenue Committee of the Legislature shall be designated to jointly conduct an interim study to carry out the purposes of this resolution.

2. That the committees shall upon the conclusion of their study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 465.** Introduced by Maurstad, 30.

PURPOSE: The purpose of this resolution is to conduct a study on prison privatization. The study shall include, but not be limited to, the following issues:

(1) Whether the state has explored all its options for controlling the growth in the prison population;

(2) Whether privatization is the state's only or best option for constructing new facilities;

(3) What options exist for financing new construction;

(4) The role of the Department of Correctional Services in the process of privatization;

(5) The rights, liabilities, and responsibilities of the state relating to out-of-state prisoners housed in a private correctional facility;

(6) The types of facilities to be privatized;

(7) The quality of services and staffing issues relating to privatization;

(8) Legal issues relating to the delegation of authority and liability;

(9) Prisoners' rights as they relate to privatized facilities;

(10) Protection of the public;

(11) Whether there is adequate competition in the private sector; and

(12) Comparative efficiency and cost.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 466.** Introduced by Schimek, 27; Suttle, 10.

PURPOSE: In the last few years there has been growing concern and attention directed toward women's health issues. Breast cancer, osteoporosis, and heart disease are leading causes of death and disability for women. Historically women have been under-represented in medical studies resulting in less focus and attention being given to the medical needs of women. The majority of women are the primary caregivers in the household. If women's health can be maintained and improved, it should translate into less disruption in families. This study should examine the possibility of establishing a Women's Health Office within the Department of Health and Human Services. The study should include, but not be limited to, the role that such an office should play. Options to consider are:

(1) A medical model, which would develop into a comprehensive preventive health program for women. It could assure that women are appropriately tested for major health risks principally associated with women;

(2) A health education model that would utilize data for planning and then develop social marketing campaigns to address prevention issues for women. Focus would also be given to addressing particular barriers in health care for women;

(3) The policy model that would advise the department, the Governor, and the Legislature on issues that affect women's health; or

(4) The possibility of a combination of any or all three options.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 467.** Introduced by Wesely, 26.

PURPOSE: Eligibility requirements resulting from the Employment First reforms, while attempting to reward employment, in some cases remove individuals from the welfare rolls before they are able to achieve full-time employment at minimum wage. In addition, with the time limits applied for those on public assistance, early employment is disproportionately valued in some cases over job training and skill development which is more time-consuming, but may be more beneficial, in the long term.

This study will review the degree to which welfare reforms hinder individuals from achieving self-sufficiency, including time limitations and

standard-of-need limitations. This study will evaluate the job placement of persons on public assistance to determine if their long-term needs are being addressed in a manner that ensures a more permanent and successful transition to self-sufficiency. In addition, this study will examine the methods to encourage savings and job training and other skill development programs to evaluate the opportunities that those on public assistance have to develop their human capital.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 468.** Introduced by Wesely, 26.

PURPOSE: This study recognizes that a large number of Nebraska families and individuals continue to live in poverty, which creates a loss of human resources, is an assault on human dignity, and is a drain on social and fiscal resources of the state. Such families and individuals receive public assistance from programs which focus on income and consumption and are not always successful in promoting and supporting the transition to economic self-sufficiency.

This interim study proposal would review the "asset poor" and those on public assistance in Nebraska. It would also examine the need to complement Nebraska's income-based welfare policy with an asset-based welfare policy.

When conducting the study, the committee shall include:

(1) An examination of the impediments that prevent low-income individuals from saving, acquiring productive assets, and achieving self-sufficiency;

(2) An evaluation of the social, civic, psychological, and economic effects of providing to individuals and families an incentive to accumulate assets by saving a portion of earned income;

(3) An examination of the potential for asset incentive programs to enable persons to acquire access to education and job training, encourage homeownership, and promote microenterprise development;

(4) An evaluation of the federal and state asset development policies that currently exist for the non-asset-poor segments of the Nebraska population and the need for extending these policies and incentives to establish an asset development policy for low-income individuals; and

(5) A review of the use of an individual development account program or a similar asset development policy in conjunction with current state public assistance programs to promote self-sufficiency.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE

NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 469.** Introduced by Bromm, 23.

PURPOSE: LB 986 was introduced in the 1998 session of the Legislature and related to isolated land, amending section 39-1716. The Board of Educational Lands and Funds is offering real estate for sale in response to requirements contained in LB 1205, Ninety-fourth Legislature, Second Session, 1996. Without access to such land, the land is much less valuable to any potential bidder other than the surrounding land owner. This lack of competitive bidding impacts the amount for which the land will be sold. LB 986 would change provisions relating to obtaining access to isolated land. However, the bill did not examine the provisions of Chapter 39, articles 14 to 16 and articles 18 to 21, to determine the fiscal costs to counties with respect to the changes made in Chapter 39, article 17, by LB 986. This study shall:

1. Study the difficulties regarding the sale of isolated land by the State of Nebraska, specifically the Board of Educational lands and Funds, in the context of isolated lands and the solutions to such problems with respect to legislation; and

2. Specifically examine the provisions of LB 986 in the general context of Chapter 39, Reissue Revised Statutes of Nebraska, and address the need for possible legislation in order for the board to more effectively be able to offer isolated land at public auction without undue fiscal costs for the counties.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

(b) Fifty percent of such money shall be distributed to the county treasurer of the county where the facility is located or proposed to be located to be distributed to each political subdivision which levied property taxes on the property where the facility is located or proposed to be located. The money shall be distributed on the basis of the ratio of the total amount of taxes levied by each political subdivision to the total amount of property taxes levied by all such political subdivisions on such property based on the amounts stated in the most recent certificate of taxes levied submitted by each county to the Property Tax Administrator pursuant to section 77-1613.01.

(4) The Natural Resources Committee of the Legislature shall conduct a study to establish a formula for the equitable distribution of the funds specified in subdivision (2)(c) of this section. The committee shall hold public hearings necessary to carry out the purposes of the study.".

(a) To provide for the availability of capacity either within or outside the state for the commercial disposal of low-level radioactive waste generated within the state at commercial low-level radioactive waste disposal facilities as designated by the Central Interstate Low-Level Radioactive Waste Compact Commission, except for waste generated as a result of defense or federal research and development activities; and

(b) ~~To recognize that low-level radioactive waste can be most safely and efficiently managed on a regional basis; and~~

~~(c)~~ To institute and maintain a regulatory program for commercial disposal of low-level radioactive waste. ~~at such facilities.~~

(2) It is also the policy of the State of Nebraska that the cost of disposal of low-level radioactive waste be borne by the generators of such waste. It is the intent of the Legislature that potential host communities be actively and voluntarily involved in the siting process. To the extent possible, consistent with the highest level of protection for the health and safety of the citizens of the state and protection of the environment, the developer shall make every effort to locate the facility where community support is evident.".

## AMENDMENTS - Print in Journal

Mr. Landis filed the following amendment to LB 1142:
AM4070

1. Strike the original sections and insert the following new sections:

"Section 1. (1) By September 30, 1999, and each September 30 thereafter, each county assessor shall provide an assessment plan and current year budget to the Property Tax Administrator. The plan shall include specific detail on the processes that the county assessor will implement for the next assessment year for (a) the accurate capturing and listing of assessment information, (b) the correlation of the assessed valuations of all real property in the county, and (c) the dissemination of information to the public regarding the actions taken by the county assessor. The plan shall also describe the processes that the county assessor will implement over the next three years to keep the assessment and valuation information current and accurate.

(2) If a county assessor fails to provide a plan or the plan provided fails to meet the requirements of this section, the Property Tax Administrator shall investigate the assessment practices of the county and take any actions necessary to secure compliance with this section pursuant to section 77-1330.

(3) The Property Tax Administrator shall monitor the implementation of the plan by the county assessor.

(4) The Property Tax Administrator shall develop a model plan that meets the requirements of this section. The model plan shall be available upon request of a county assessor by September 1 each year.

Sec. 2. (1) Except as provided in subsection (4) of this section, if the ad valorem property taxes paid by an owner of record of a parcel of real property on the parcel for a property tax year increase by more than eight percent over the property taxes paid on the parcel for the prior property tax year by the same owner, other than the increases specified in subsection (3) of this section, the owner may apply to the county assessor of the county where the parcel is located, or to the Property Tax Administrator if the Property Tax Administrator has assumed the assessment functions and other duties of the county assessor in the county where the parcel is located, for a refund of the amount of the increased property taxes which are in excess of the eight-percent amount. The maximum refund under this section shall be one thousand dollars per parcel, and the maximum refund per taxpayer shall be ten thousand dollars per tax year. The application shall be:

(a) Made on a form prescribed and furnished by the Property Tax Administrator;

(b) Filed with the county assessor or the Property Tax

Administrator within two years after the date the property taxes were due and payable;

(c) Accompanied with proof of payment and documentation showing that the conditions of this section have been met, including that all taxes have been paid on the property; and

(d) Accompanied by a twenty-five-dollar filing fee.

(2) The county assessor shall review applications filed with him or her under this section and recommend approval, approval in part, or denial for each application. The county assessor shall complete the review and forward each application and filing fee to the Property Tax Administrator within thirty days after receipt. The Property Tax Administrator shall review applications filed with, and recommendations forwarded to, him or her under this section and approve, approve in part, or deny each application. If the application is approved in whole or in part, the filing fee shall be refunded to the taxpayer with the refund. The Property Tax Administrator shall notify the applicant at the address on the application of his or her decision. Notification of approval may be included with payment of the refund. The decision of the Property Tax Administrator may be appealed by any affected party in accordance with the Tax Equalization and Review Commission Act.

(3) Property tax increases resulting from the following causes shall be subtracted from the total increase in property taxes before the computations of increases under subsection (1) of this section:

(a) Any increase attributable to an addition of new improvements, a material change to existing improvements, or a change in zoning of the property, which are reflected in the assessed value for the first time in the tax year;

(b) Any increase attributable due to termination or reduction of a homestead exemption pursuant to sections 77-3501 to 77-3529;

(c) Any increase attributable to an addition to the assessment roll or tax roll of omitted property;

(d) Any increase attributable to change in exempt status of the real property pursuant to section 77-202;

(e) Any increase attributable to the payment of interest or penalty assessed by the county;

(f) Any increase attributable to an increase authorized by an override vote by the voters to exceed a levy limit under section 77-3444 or a budget limit under section 13-519 or 79-1029;

(g) Any increase attributable to authorization for bonded debt by a political subdivision or the execution of a lease-purchase contract excepted under section 77-3442;

(h) Any increase due to a reduction in carryover of unused budget authority by a political subdivision for the year for which the taxes are levied;

(i) Any increase due to judgments, except judgments or orders of the Commission of Industrial Relations, obtained against

a political subdivision which require or obligate the political subdivision to pay the judgment to the extent not paid by liability insurance coverage of the political subdivision; and

(j) Any increase due to a change in use of the parcel.

(4) A taxpayer shall not be eligible for any refund for a parcel which, during the prior property tax year, has been subjected to (a) tax district changes, such as annexation, merger, consolidation, or reorganization, (b) loss of special valuation under sections 77-1343 to 77-1348, or (c) subdivision of the property for development.

(5) Refunds for approved applications shall be made from the Property Tax Division Cash Fund. The fund shall be reimbursed for refunds from money appropriated for purposes of section 77-27,136 unless the Property Tax Administrator has assumed the assessment functions and other duties of the county assessor in the county in which the parcel is located. The Property Tax Administrator shall certify the amount of such refunds by county to the Tax Commissioner and State Treasurer. The State Treasurer shall transfer the amount of such refunds to the Property Tax Division Cash Fund from money appropriated for purposes of section 77-27,136. If the Property Tax Administrator has assumed the assessment function for the county where the parcel is located, the Property Tax Division Cash Fund shall be reimbursed from the General Fund. If the amount of refunds in a county exceed the amount due the county under section 77-27,136, the State Treasurer shall make the transfer first from documentary stamp tax proceeds due the county then from insurance premium tax proceeds. Any remaining unreimbursed refunds shall be carried over into the next year and be reimbursed from county funds at that time.

(6) This section applies to ad valorem property taxes on a homestead as defined in section 77-3502 commencing with taxes paid for property tax year 1999 and to ad valorem property taxes paid on any parcel of real property commencing with taxes paid for property tax year 2000.

Sec. 3. Section 77-27,137, Revised Statutes Supplement, 1997, is amended to read:

77-27,137. (1) The appropriation provided for in section 77-27,136 for aid to counties shall be distributed to the various county treasurers of the state.

(2) A tentative distribution shall be determined by dividing seventeen million dollars on the basis of the ratio of the total amount of property taxes levied by the particular county for county purposes to the total amount of property taxes levied by all counties for county purposes based on the amounts stated in the most recent certificate of taxes levied submitted by each county to the Property Tax Administrator pursuant to section 77-1613.01.

(3) The tentative distribution to each county computed under subsection (2) of this section shall be reduced by dividing three million five hundred thousand dollars on the basis of the

ratio of the total amount of taxable value of agricultural income-producing machinery and equipment in a particular county to the total amount of taxable value of agricultural income-producing machinery and equipment in all counties based on the amounts certified by the counties to the Property Tax Administrator on the certificate of taxes levied pursuant to section 77-1613.01.

(4) The Tax Commissioner shall determine the amount to be distributed to the various counties and certify such amounts by voucher to the Director of Administrative Services. Before certifying such amounts, the Tax Commissioner shall reduce the amount to be distributed to a county by refunds made in the county. Each amount shall be distributed in seven as nearly as possible equal monthly payments on the last business day of each month beginning in December. The State Treasurer shall, on the business day preceding the last business day of each month, notify the Director of Administrative Services of the amount of funds available in the General Fund for payment purposes. The Director of Administrative Services shall, on the last business day of each month, draw warrants against funds appropriated. The proceeds of the governmental subdivision payments received by the various county treasurers shall be credited to the general fund of the county.

Sec. 4. Original section 77-27,137, Revised Statutes Supplement, 1997, is repealed.".

Ms. Schimek filed the following amendment to LB 1162:
AM4161

(Amendments to Final Reading copy)

1. Insert the following new section:

"Sec. 87. (1) Commencing August 1, 1998, and notwithstanding section 44-3,131, (a) any individual or group sickness and accident insurance policy or subscriber contract delivered, issued for delivery, or renewed in this state and any hospital, medical, or surgical expense-incurred policy, except for policies that provide coverage for a specified disease or other limited-benefit coverage, and (b) any self-funded employee benefit plan to the extent not preempted by federal law shall include coverage for the equipment, supplies, medication, and outpatient self-management training and patient management, including medical nutrition therapy, for the treatment of insulin-dependent, insulin-using diabetes, gestational diabetes, and non-insulin-using diabetes if prescribed by a health care professional legally authorized by law to prescribe such items.

(2) The equipment, supplies, medication, and patient management for the use of the equipment, supplies, and medication listed in this subsection shall be included in the coverage required by this section: Blood glucose monitors; blood glucose monitors for the legally blind; test strips for glucose monitors; urine testing strips; insulin; injection aids; lancet and lancet

devices; syringes; insulin pumps and all supplies for the pump; insulin infusion devices; oral agents for controlling blood sugars; glucose agents and glucagon kits; insulin measurement and administration aids for the visually impaired; patient management materials that provide essential diabetes self-management information; and podiatric appliances for the prevention of complications associated with diabetes.

(3) The benefits under this section shall be provided for the patient upon the diagnosis of diabetes, when a significant change occurs in the patient's symptoms or condition that necessitates changes in a patient's self-management, or when refresher patient management is necessary. The benefits shall cover home visits when medically necessary and prescribed by a health care professional legally authorized by law to prescribe such items. Patient management may be conducted individually or in a group setting as long as there is medical necessity.

(4) Diabetes self-management training and patient management, including medical nutrition therapy, shall be provided by (a) an American Diabetes Association Recognized Diabetes Self-Management Education Program or (b) a health care professional that is a diabetes educator certified by the National Certification Board for Diabetes Educators and who complies with the American Association of Diabetes Education Core Curriculum for diabetes education.

(5) Physician-prescribed diabetes self-management training and patient management shall be covered at diagnosis, when symptoms or conditions change, and when new medications or treatments are prescribed. Coverage shall be for (a) a maximum of twenty-four total hours of classroom education per year or (b) six hours per year of individualized education deemed medically necessary by a physician.

(6) This section does not prevent application of deductible or copayment provisions contained in the policy or health benefit plan or require that coverage under an individual or group policy or health benefit plan be extended to any other procedures. Private third-party payors may not reduce or eliminate coverage due to this section.

(7) For purposes of this section, patient management means educational and training services furnished to an individual with diabetes in an outpatient setting by an individual or entity with experience in diabetes, in consultation with the physician who is managing the patient's condition, who certifies that such services are needed under a comprehensive plan of care related to the individual's condition to ensure therapy or compliance or to provide the individual with necessary skills and knowledge, including skills related to the self-administration of injectable drugs which participate in the management of the individual's condition.

(8) Reimbursement for coverage shall be in amounts

reasonably negotiated by the health care professional and the private third-party payor.".

2. Correct the operative date and repealer sections so that the section added by this amendment becomes operative on its effective date.

3. Renumber the remaining sections accordingly and correct internal references accordingly.

## RESOLUTIONS

**LEGISLATIVE RESOLUTION 470.** Introduced by Wesely, 26.

PURPOSE: This study proposes to examine the intents and purposes of the Child Abuse and Neglect Central Registry. The study shall focus on:

(a) The effectiveness of the registry in stopping child abuse and neglect;

(b) Whether the registry has been effective in stopping the employment of those guilty of abuse and neglect in jobs requiring contact with children;

(c) Requests for expungement from the registry and whether such requests demonstrate a need for changes in the system; and

(d) Whether the systems, such as Missouri's "two-tier" system, would better serve Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 471.** Introduced by Beutler, 28.

PURPOSE: Before the creation of the Court of Appeals in 1991, most county court cases were appealed to the district courts and, if necessary and permissible, to the Supreme Court thereafter. In LB 538 (1995), the Legislature attempted to streamline the appeals process by removing the district court appellate jurisdiction for county court cases filed under the Nebraska Probate Code and in both adoption and inheritance tax proceedings. Those cases are now appealed directly to the Court of Appeals.

A layer of certain county court cases still must be appealed to the district courts before proceeding to the Court of Appeals. An interim study should examine this issue and should determine whether the appellate jurisdiction should be entirely removed from the district courts.

Furthermore, the study should consider whether the number of Court of Appeals judges should be increased, particularly in relation to factors such as the possible elimination of district court appellate jurisdiction from the county courts. Other factors to consider shall include, but not be limited to,

the caseloads of the Court of Appeals and the Supreme Court.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 472.** Introduced by Wesely, 26; Matzke, 47; Brashear, 4.

PURPOSE: Since 1994, forty states have filed lawsuits against the large tobacco companies seeking recovery for Medicaid expenses and monetary damages for violations of antitrust, consumer protection, and fraud statutes. Three states have reached settlements with the largest tobacco companies. A fourth went to trial in January. Many others have reached a settlement with the smaller Liggett Tobacco group. Nebraska has not filed suit, counting on a share of the $368 billion settlement being negotiated on the national level. With the national settlement in doubt, Nebraska may not be able to recover monetary damages from the nation's major tobacco distributors. This study proposes to examine whether the State of Nebraska should proceed with litigation against the tobacco industry.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 473.** Introduced by Bohlke, 33; Wickersham, 49; Beutler, 28; Raikes, 25.

PURPOSE: (1) The purpose of this resolution is to update the study of student aid and other assistance available to students attending Nebraska institutions of postsecondary education as performed by the Education Committee in 1988 (LR 390). In that report, items for study included: (a) An assessment of student aid currently available from all sources, including direct and indirect state assistance, federal assistance, institutional assistance, and private-sector assistance; (b) an estimation of unmet needs for student assistance with a focus on those groups of students with the greatest unmet needs; and (c) a compilation and analysis of alternative mechanisms to provide student assistance, including state tax-exempt savings accounts,

prepaid tuition plans, and other programs being developed by other states, postsecondary institutions, the federal government, and the student assistance lending industry.

(2) In addition to those items for study in LR 390, other items which this study should include are: (a) The debt burdens for students in each of the postsecondary sectors and an analysis of how the debt burden could impact student decisions relating to type and venue of employment; (b) whether other states have programs designed to induce students to stay in the state following completion of postsecondary programs and an analysis of the effectiveness of those programs; (c) the relationship between state support and tuition in Nebraska public institutions and whether tuition levels are appropriate among the public sectors; (d) the relative balance between state-supported merit-based and need-based financial aid programs and whether adjustments or enhancements in those programs are necessary; and (e) any other issues relating to postsecondary education as determined by the Education Committee.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

(LR 474 and LR 475 were filed with the Clerk's Office Wednesday night, March 25, 1998, but because of adjournment, were not included in that day's Journal.)

**LEGISLATIVE RESOLUTION 474.** Introduced by Wesely, 26.

PURPOSE: Nebraska's original state nickname was the Tree Planter's State because of the commitment of early Nebraska settlers and citizens to planting trees as woodlots, windbreaks, and orchards. The October 1997 snow and ice storm severely damaged and killed a significant number of trees on public and private lands throughout Nebraska. The Nebraska Forest Service estimated that 10,000 trees on public lands will need to be removed and 87,500 will need significant pruning or repair as a result of the storm.

Because of the cost to repair storm-damaged trees, hazards remain that

endanger public safety and could result in extensive civil liabilities due to hanging limbs and branches. The Federal Emergency Management Agency (FEMA) has provided some funding for severely damaged tree repair and tree removal, and private programs have begun to assist with these efforts. However, the cost of tree damage has exceeded the capability of municipalities to finance the need to address this hazard.

This study shall review:

(1) The extent of the damage that sill remains as a result of the October 1997 snow storm;

(2) The costs for removal, repair, and replanting of severely damaged public trees;

(3) The hazards that endanger the public due to existing tree damage, and the danger of this hazard becoming a civil liability for municipalities and local governments;

(4) The federal, state, and private funds that are available to local governments and municipalities for addressing these needs; and

(5) The possibility of appropriating state funds for tree removal, repair, and replanting, and the potential for state-supported tree recovery and replanting programs to encourage private organizations, local governments, and municipalities to support these needs.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

**LEGISLATIVE RESOLUTION 475.** Introduced by Thompson, 14.

PURPOSE: The purpose of this resolution is, with the assistance of the Nebraska Industrial Competitive Alliance (the present governing entity of the School-to-Work Program), to examine future support of the School-to-Work Program in the State of Nebraska. In 1994, Congress passed the School-to-Work Opportunities Act which created the current program. However, federal funding for this program will end in 2001. Nebraska's School-to-Work program currently consists of twenty School-to-Work cooperatives, working with three hundred twenty school districts and more than 8,500 businesses and industries. The interim study would review the twenty school-to-career partnerships covering all ninety-three Nebraska counties. The study would include:

(1) The roles of business/industry, schools, post-secondary institutions, and others;

(2) Integrated academic and vocational curriculum;

(3) Work-site learning experiences available to students, teachers, and others;

(4) Provisions of public information on career preparation opportunities in Nebraska to parents, students, and others;

(5) Recommendations to the Governor and the Legislature pertaining to the roles of community colleges, four-year colleges and universities, and the Departments of Education, Labor, and Economic Development in the career preparation system; and

(6) A two-year statewide plan for continued support of this system with decreasing federal funding.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Business and Labor Committee and the Education Committee of the Legislature shall be designated to conduct a joint interim study to carry out the purposes of this resolution.

2. That the committees shall upon the conclusion of their study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

"Section 1. Section 77-3444, Revised Statutes Supplement, 1997, as amended by section 38, Legislative Bill 306, Ninety-fifth Legislature, Second Session, 1998, is amended to read:

77-3444. (1) A political subdivision~~, other than a Class I school district,~~ may exceed the limits provided in section 77-3442 or a final levy allocation determination as provided in section 77-3443 by an amount not to exceed a maximum levy approved by a majority of registered voters voting in a primary, general, or special election at which the issue is placed before the registered voters. A vote to exceed the limits provided in section 77-3442 or a final levy allocation as provided in section 77-3443 must be approved prior to October 10 of the fiscal year which is to be the first to exceed the limits or final levy allocation. The governing body of the political subdivision may call for the submission of the issue to the voters (a) by passing a resolution calling for exceeding the limits or final levy allocation by a vote of at least two-thirds of the members of the governing body and delivering a copy of the resolution to the county clerk or election commissioner of every county which contains all or part of the political subdivision or (b) upon receipt of a petition by the county clerk or election commissioner of every county containing all or part of the political subdivision requesting an election signed by at least five percent of the registered voters residing in the political subdivision. The resolution or petition shall include the amount of levy which would be imposed in excess of the limits provided in section 77-3442 or the final levy allocation as provided in section 77-3443 and the duration of the excess levy authority. The excess levy authority shall not have a duration greater than five years. Any resolution or petition calling for a special election shall be filed with the county clerk or election commissioner no later than thirty days prior to the date of the election, and the time of publication and providing a copy of the notice of election required in section 32-802 shall be no later than twenty days prior to the election. The county clerk or election commissioner shall place the issue on the ballot at an election as called for in the resolution or petition which is at least thirty days after receipt of the resolution or petition. The election shall be held pursuant to the Election Act. For petitions filed with the county clerk or election commissioner on or after May 1, 1998, the petition shall be in the form as provided in sections 32-628 to 32-631. Any excess levy authority approved under this section shall terminate pursuant to its terms, on a vote of the governing body of the political subdivision to terminate the authority to levy more than the limits, or at the end of the fourth fiscal year following the first year in which the levy exceeded the limit or the final levy allocation, or as provided in subsection (5) of this section, whichever is earliest. A governing body may pass no more than one resolution calling for an election pursuant to this section during any one calendar year. There shall be no limit on the number of

elections held pursuant to this section which are initiated by petition.

(2) The ballot question may include any terms and conditions set forth in the resolution or petition and shall include the following: "Shall (name of political subdivision) be allowed to levy a property tax not to exceed ..... cents per one hundred dollars of taxable valuation in excess of the limits prescribed by law until fiscal year ..... for the purposes of (general operations; building construction, remodeling, or site acquisition; or both general operations and building construction, remodeling, or site acquisition)?". If a majority of the votes cast upon the ballot question are in favor of such tax, the county board shall authorize a tax in excess of the limits in section 77-3442 or the final levy allocation in section 77-3443 but such tax shall not exceed the amount stated in the ballot question. If a majority of those voting on the ballot question are opposed to such tax, the governing body of the political subdivision shall not impose such tax.

(3) The county clerk or election commissioner may set a uniform date for a special election to be held before October 10, 1998, to submit the issue of exceeding the limits provided in section 77-3442 or the final levy allocation as provided in section 77-3443 to the voters of political subdivisions in the county seeking additional levy authority. Any political subdivision may individually or in conjunction with one or more other political subdivisions conduct a special election on a date different from that set by the county clerk or election commissioner, except that a governing body shall pass a resolution calling for a special election for this purpose and deliver a copy of the resolution to the county clerk or election commissioner no later than thirty days prior to the date of the election.

At least ten percent of the registered voters residing in the political subdivision or village shall constitute a quorum for purposes of taking action to exceed the limits or final levy allocation. If a majority of the registered voters present at the meeting vote in favor of exceeding the limits or final levy allocation, a copy of the record of that action shall be forwarded to the county board prior to October 10 and the county board shall authorize a levy as approved by the residents for the year.

(5) A political subdivision~~, other than a Class I school~~

~~district,~~ may rescind or modify a previously approved excess levy authority prior to its expiration by a majority of registered voters voting on the issue in a primary, general, or special election at which the issue is placed before the registered voters. A vote to rescind or modify must be approved prior to October 10 of the fiscal year for which it is to be effective. The governing body of the political subdivision may call for the submission of the issue to the voters (a) by passing a resolution calling for the rescission or modification by a vote of at least two-thirds of the members of the governing body and delivering a copy of the resolution to the county clerk or election commissioner of every county which contains all or part of the political subdivision or (b) upon receipt of a petition by the county clerk or election commissioner of every county containing all or part of the political subdivision requesting an election signed by at least five percent of the registered voters residing in the political subdivision. The resolution or petition shall include the amount and the duration of the previously approved excess levy authority and a statement that either such excess levy authority will be rescinded or such excess levy authority will be modified. If the excess levy authority will be modified, the amount and duration of such modification shall be stated. The modification shall not have a duration greater than five years. The county clerk or election commissioner shall place the issue on the ballot at an election as called for in the resolution or petition which is at least thirty days after receipt of the resolution or petition, and the time of publication and providing a copy of the notice of election required in section 32-802 shall be no later than twenty days prior to the election. The election shall be held pursuant to the Election Act.

(Amendments to Final Reading copy)

43-284. When any juvenile is adjudged to be under subdivision (3) or (4) of section 43-247, the court may permit such juvenile to remain in his or her own home subject to supervision or may make an order ~~committing the juvenile to (1) the care of some~~ placing the care and custody of the juvenile with (1) a suitable institution, (2) ~~inpatient or outpatient treatment at~~ a mental health facility or mental health program for inpatient or outpatient treatment, (3) ~~the care of some~~ a reputable citizen of good moral character, (4) ~~the care of some~~ an association willing to receive the juvenile embracing in its objects the purpose of caring for or obtaining homes for such juveniles, which association is ~~shall have been~~ accredited as provided in section 43-296, (5) ~~the care of~~ a suitable family, or (6) ~~the care and custody of~~ the Department of Health and Human Services. The care and custody ordered under subdivisions (1), (2), or (4) of this section shall be at an institution, a facility or program, or a home located within the State of Nebraska.

Under subdivision (1), (2), (3), (4), or (5) of this section, upon a determination by the court that there are no parental, private, or other public funds available for the care, custody, education, and maintenance of a juvenile, the court may order a reasonable sum for the care, custody, education, and maintenance of the juvenile to be paid out of a fund which shall be appropriated annually by the county where the petition is filed until suitable provisions may be made for the juvenile without such payment. The Department of Health and Human Services Finance and Support shall reimburse the county on a monthly basis for fifty percent of the expenditures from such fund.

The amount to be paid by a county for education pursuant to this section shall not exceed the average cost for education of a public school student in the county in which the juvenile is placed and shall be paid only for education in kindergarten through grade twelve.

The court may enter a dispositional order removing a juvenile from his or her home only upon a written determination that continuation in the home would be contrary to the welfare of such juvenile and that reasonable efforts have been made to prevent or eliminate the need for removal of the juvenile from his or her home and to make it possible for the juvenile to return.

Sec. 2. Section 43-286, Revised Statutes Supplement, 1996, is amended to read:

43-286. Notwithstanding the provisions of sections 43-251 and 43-253 to 43-257, no juvenile shall be confined in any jail as a disposition of the court. When any juvenile is adjudicated to be a juvenile described in subdivision (1), (2), (3)(b), or (4) of section 43-247:

(1) The court may continue the dispositional portion of the hearing, from time to time upon such terms and conditions as the court may prescribe, including an order of restitution of any property stolen or damaged when the same is in the interest of the juvenile's reformation or rehabilitation, and, subject to the further order of the court, may:

(a) Place the juvenile on probation subject to the supervision of a probation officer;

(b) Permit the juvenile to remain in his or her own home, subject to the supervision of the probation officer; or

(c) Cause the juvenile to be placed in a suitable family home or ~~institution~~ to be placed in an institution located within the State of Nebraska, subject to the supervision of the probation officer. If the court has committed the juvenile to the care and custody of the Department of Health and Human Services, the department shall pay the costs of the suitable family home or institution which are not otherwise paid by the juvenile's parents.

Under subdivision (1)(a), (1)(b), or (1)(c) of this section, upon a determination by the court that there are no parental, private, or other public funds available for the care, custody, and maintenance of a juvenile, the court may order a reasonable sum for the care, custody, and maintenance of the juvenile to be paid out of a fund which shall be appropriated annually by the county where the petition is filed until a suitable provision may be made for the juvenile without such payment. The Department of Health and Human Services Finance and Support shall reimburse the county on a monthly basis for fifty percent of the expenditures from such fund;

(2) Except as provided in section 43-287, the court may commit such juvenile to the Office of Juvenile Services, but a juvenile under the age of twelve years shall not be committed to the Youth Rehabilitation and Treatment Center-Geneva or to the Youth Rehabilitation and Treatment Center-Kearney unless he or she has violated the terms of probation or has committed an additional offense and the court finds that the interests of the juvenile and the welfare of the community demand his or her commitment. This

minimum age provision shall not apply if the act in question is murder or manslaughter;

(3) When a juvenile is placed on probation or under the supervision of the court and it is alleged that the juvenile is again a juvenile as defined by subdivision (1), (2), (3)(b), or (4) of section 43-247, a petition may be filed and the same procedure followed and rights given at a hearing on the original petition. If an adjudication is made that the allegations of the petition are true, the court may make any disposition authorized by this section for such adjudications; or

(4) When a juvenile is placed on probation or under the supervision of the court for conduct under subdivision (1), (2), (3)(b), or (4) of section 43-247 and it is alleged that the juvenile has violated a term of probation or supervision or that the juvenile has violated an order of the court, a motion to revoke probation or supervision or to change the disposition may be filed and proceedings held as follows:

(a) The motion shall set forth specific factual allegations of the alleged violations and a copy of such motion shall be served on all persons required to be served by sections 43-262 to 43-267;

(b) The juvenile shall be entitled to a hearing before the court to determine the validity of the allegations set forth pursuant to subdivision (4)(a) of this section. At such hearing the juvenile shall be entitled to those rights relating to counsel provided by section 43-272 and those rights relating to detention provided by sections 43-254 to 43-256. The juvenile shall also be entitled to speak and present documents, witnesses, or other evidence on his or her own behalf. He or she may confront persons who have given adverse information concerning the alleged violations, may cross-examine such persons, and may show that he or she did not violate the conditions of his or her probation or, if he or she did, that mitigating circumstances suggest that the violation does not warrant revocation. The revocation hearing shall be held within a reasonable time after the juvenile is taken into custody;

(c) The hearing shall be conducted in an informal manner and shall be flexible enough to consider evidence, including letters, affidavits, and other material, that would not be admissible in an adversary criminal trial;

(d) The juvenile shall be given a preliminary hearing in all cases when the juvenile is confined, detained, or otherwise significantly deprived of his or her liberty as a result of his or her alleged violation of probation. Such preliminary hearing shall be held before an impartial person other than his or her probation officer or any person directly involved with the case. If as a result of such preliminary hearing probable cause is found to exist, the juvenile shall be entitled to a hearing before the court in accordance with subdivisions (4)(b) and (4)(c) of this section;

(e) If the juvenile is found by the court to have violated the terms of his or her probation, the court may modify the terms and conditions of the probation order, extend the period of probation, or enter any order of disposition that could have been made at the time the original order of probation was entered or, in the case of the juvenile adjudicated to be within the definitions of subdivision (3)(b) of section 43-247, the court, after considering the dispositions available, may in addition commit such juvenile to the Office of Juvenile Services under section 43-287; and

(f) In cases when the court revokes probation, it shall enter a written statement as to the evidence relied on and the reasons for revocation.

Sec. 3. Section 43-290, Revised Statutes Supplement, 1996, is amended to read:

43-290. It is the purpose of this section to promote parental responsibility and to provide for the most equitable use and availability of public money.

Pursuant to the petition filed by the county attorney or any reputable person in accordance with section 43-274, whenever the care or custody of a juvenile is given by the court to someone other than his or her parent, which shall include placement with a state agency, or when a juvenile is given medical, psychological, or psychiatric study or treatment under order of the court, the court shall make a determination of support to be paid by a parent for the juvenile at the same proceeding at which placement, study, or treatment is determined or at a separate proceeding. Such proceeding, which may occur prior to, at the same time as, or subsequent to adjudication, shall be in the nature of a disposition hearing.

At such proceeding, after summons to the parent of the time and place of hearing served as provided in sections 43-262 to 43-267, the court may order and decree that the parent shall pay, in such manner as the court may direct, a reasonable sum that will cover in whole or part the support, study, and treatment of the juvenile, which amount ordered paid shall be the extent of the liability of the parent. The court in making such order shall give due regard to the cost of study, treatment, and maintenance of the juvenile, the ability of the parent to pay, and the availability of money for the support of the juvenile from previous judicial decrees, social security benefits, veterans benefits, or other sources. Support thus received by the court shall be transmitted to the person, agency, or institution having financial responsibility for such study, treatment, or maintenance and, if a state agency or institution, remitted by such state agency or institution quarterly to the Director of Administrative Services for credit to the proper fund.

Whenever medical, psychological, or psychiatric study or treatment is ordered by the court, whether or not the juvenile is

placed with someone other than his or her parent, or if such study or treatment is otherwise provided as determined necessary by the custodian of the juvenile, the court shall inquire as to the availability of insured or uninsured health care coverage or service plans which include the juvenile. The court may order the parent to pay over any plan benefit sums received on coverage for the juvenile. The payment of any deductible under the health care benefit plan covering the juvenile shall be the responsibility of the parent. If the parent willfully fails or refuses to pay the sum ordered or to pay over any health care plan benefit sums received, the court may proceed against him or her as for contempt, either on the court's own motion or on the motion of the county attorney or authorized attorney as provided in section 43-512, or execution shall issue at the request of any person, agency, or institution treating or maintaining such juvenile. The court may afterwards, because of a change in the circumstances of the parties, revise or alter the order of payment for support, study, or treatment.

If the juvenile has been committed to the care and custody of the Department of Health and Human Services, the department shall pay the costs for the support, study, or treatment of the juvenile which are not otherwise paid by the juvenile's parent.

If no provision is otherwise made by law for the support or payment for the study or treatment of the juvenile, compensation for the study or treatment shall be paid, when approved by an order of the court, out of a fund which shall be appropriated by the county in which the petition is filed. The Department of Health and Human Services Finance and Support shall reimburse the county on a monthly basis for fifty percent of the expenditures from such fund.

The juvenile court shall retain jurisdiction over a parent ordered to pay support for the purpose of enforcing such support order for so long as such support remains unpaid but not to exceed ten years from the nineteenth birthday of the youngest child for whom support was ordered.

Sec. 4. Section 43-2,101, Revised Statutes Supplement, 1996, is amended to read:

43-2,101. Unless otherwise ordered by the court pursuant to section 43-290, each county shall bear all the expenses incident to the transportation of each juvenile from such county to the Department of Health and Human Services, together with such fees and costs as are allowed by law in similar cases. The fees, costs, and expenses shall be paid from the county treasury upon itemized vouchers certified by the judge of the juvenile court. The Department of Health and Human Services Finance and Support shall reimburse the county on a monthly basis for fifty percent of such expenditures.

Sec. 5. The Governor shall commission a study of the

state's juvenile justice system for the purposes of determining future legislative and executive actions necessary to address gaps in the organization and delivery of juvenile services. The study shall:

(1) Assess the progress of current juvenile services initiatives and their impact on improving service delivery;

(2) Develop a current detailed description of the number, characteristics, and needs of juvenile offenders and at-risk youth;

(3) Inventory current placement and service resources, including resources for drug treatment, treatment of sexual offenders, and secure confinement of serious offenders, and make recommendations in regard to needed expansion of service capacity;

(4) Examine current statutes and make recommendations in regard to update and streamlining of laws pertaining to adjudication and disposition of juvenile offenders;

(5) Review promising programs and recommend strategies for implementing community-based diversion and early intervention programs designed to minimize depth and duration of juvenile offenders' penetration into the juvenile justice system;

(6) Review and make recommendations concerning the codification of a graduated sanctions approach in intervening with juvenile offenders;

(7) Explore opportunities to eliminate fragmentation within the juvenile justice system and recommend strategies to move toward a unified system of care for juvenile offenders and their families; and

(8) Review and assess the financing responsibilities of the counties and the state in the area of juvenile services, including the counties' role in financing services for the prevention of and early intervention with respect to juvenile delinquency and explore the financing options for services provided to adjudicated juveniles, including the exploration of continued cost-sharing responsibilities by counties and the state and the state's possible assumption of all costs associated with adjudicated juveniles.

Sec. 6. The Governor shall assign the study to a task force consisting of the Commissioner of Education, the superintendent of the Nebraska Correctional Youth Facility, the director of the Governor's Policy Research Office, the executive director of the Nebraska Commission on Law Enforcement and Criminal Justice, the probation administrator of the Office of Probation Administration, and the administrators of the Department of Health and Human Services Protection and Safety Division. The Governor shall also appoint seven additional persons from the private and public sectors including at least three county officials and persons representing key juvenile justice system stakeholders, juvenile advocacy groups, service providers, and consumers to serve on the committee. The Governor shall also appoint two members of the Legislature. The appointments to the task force shall be made

no later than May 15, 1998. The Governor shall appoint the chairperson of the task force from the membership.

Sec. 7. The task force may gather information from interested parties through public hearings and other appropriate means to assure ample opportunities for outside input to be received for consideration. The task force shall complete its work and issue a final report outlining its findings and recommendations to the Governor and Legislature by December 1, 1998. The Department of Health and Human Services will provide administrative support to the task force and shall be responsible for production and distribution of the final report. Members shall be reimbursed for their actual and necessary expenses incurred while serving as a member of the task force as provided in sections 81-1174 to 81-1177.

Sec. 8. It is the intent of the Legislature that any money appropriated by the Legislature for this study shall be appropriated to the Department of Health and Human Services.

Sec. 9. Sections 1 to 4 and 10 of this act become operative on July 1, 1998. The other sections of this act become operative on their effective date.

Sec. 10. Original sections 43-286, 43-290, and 43-2,101, Revised Statutes Supplement, 1996, and section 43-284, Revised Statutes Supplement, 1997, are repealed.

Sec. 11. Since an emergency exists, this act takes effect when passed and approved according to law.".

(2) Both wildlife and people benefit as a result of improved water quality.

Sec. 3. For purposes of the Buffer Strip Act:

The department may ask the board for a review of the existing rules and regulations, administrative procedures, and other components of the Buffer Strip Act. The board shall meet at least once a year.

(2) The Rules and Regulations Advisory Committee created pursuant to section 2-2626 shall appoint members of the Nebraska Pesticide Board. The board shall be composed of, but not limited to, the following members:

As the terms of the initial members expire, their successors shall be appointed or elected for three-year terms in the same manner as the initial members. Any vacancy shall be filled by appointment in the same manner as the appointment of initial members.

(4) Members of the board shall be reimbursed for their

actual and necessary expenses as provided in sections 81-1174 to 81-1177.

Sec. 5. The department shall devise a statewide buffer strip plan with its priority being the improvement of the quality of the domestic and public water supply. Upon the approval of the board, the department shall submit the plan to the Legislature by December 1, 1998.

Sec. 6. The Buffer Strip Incentive Fund is created. Proceeds raised from fees imposed for the registration of pesticides and earmarked for the fund pursuant to section 2-2634, proceeds raised from federal grants earmarked for the fund, and any proceeds raised from public or private donations made to the fund shall be remitted to the State Treasurer for credit to the fund. The annual cost of administering the buffer strip program shall not exceed ten percent of the total annual proceeds credited to the Buffer Strip Incentive Fund. Such administrative costs shall include funds allocated by the department to the districts for their administrative costs. Any money in the fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act.

Sec. 7. (1) Any person who desires to create a buffer strip adjacent to surface water on his or her property may submit an application for buffer strip reimbursement to the district. (4) If the district determines that the application is not in compliance with the requirements established by the department, the district shall inform the applicant of the deficiencies in the plan and, if feasible, recommend an alternate plan which complies with the rules and regulations of the

department. The applicant may then submit a new application consistent with the recommendation of the district.

(5) If the district determines that the application is in compliance with the standards established by the department, the district shall forward the application to the department. The application shall include a written evaluation of the applicant's compliance with the requirements set forth in rules and regulations adopted and promulgated pursuant to section 11 of this act.

Sec. 8. (1) Upon receipt of the application for buffer strip reimbursement, the department shall review the application for compliance with the rules and regulations adopted and promulgated pursuant to section 11 of this act.

(2) If the department determines that the application is not in compliance with the rules and regulations adopted and promulgated pursuant to section 11 of this act, the department shall inform the district of the deficiencies. The district shall then inform the applicant of the deficiencies and allow the applicant to submit a new application.

(3) The department shall determine which applications are in compliance with the rules and regulations adopted and promulgated under section 11 of this act and shall compile a list of all such applications according to the factors set forth in the rules and regulations. From such prioritized list, and based upon the amount of funds available, the department shall notify the districts which applications are approved. Funds approved by the department for buffer strip reimbursement shall only be for buffer strips created after January 1, 1996. The total amount of funds available for all new and existing agreements shall not exceed the projected available cash balance of the Buffer Strip Incentive Fund for the entire term of the agreements.

Sec. 9. (1) Upon approval of an application by the district and the department, the district shall enter into a contractual agreement with the applicant for the land included in the buffer strip. The agreement shall include a provision that the applicant shall maintain the buffer strip in accordance with the approved plan during the term of the rental agreement. The agreement may also include a provision that the applicant shall not apply specified fertilizers on buffered fields between designated dates. Failure to maintain the buffer strip in accordance with the plan shall be cause for all future payments under the agreement to be forfeited and shall be cause for the recovery by the department of any payments previously made. Upon submission of a copy of the agreement to the department, it shall authorize the State Treasurer to transfer funds to the district from the Buffer Strip Incentive Fund in an amount equal to the total amount of funds due for the agreement in that district that year. Such transfer shall be made as soon as funds are available.

(2) If the applicant does not receive reimbursement from any other source for the land included in the buffer strip, the

district shall pay the applicant annually an amount not to exceed one hundred fifty dollars per acre or fraction thereof included in the buffer strip.

(3) If the applicant receives reimbursement from any other source for the land included in the buffer strip, the district shall pay the applicant annually an amount not to exceed one hundred fifty dollars per acre included in the buffer strip, minus the amount of the other reimbursement.

(4) The actual amount of any payment made to an applicant under subsection (2) or (3) of this section shall be determined by the district using the sliding scale provided in section 11 of this act. Such amount shall be included as part of the application submitted to the department.

(5) Contractual agreements pursuant to this section shall be for a minimum term of five years and a maximum term of ten years.

(6) Following the expiration of any contractual agreement pursuant to this section, the applicant may apply to renew the agreement. Any application for renewal of an agreement shall be made in accordance with sections 7 to 9 of this act and shall be considered with any new applications.

Sec. 10. Each district shall take reasonable steps to ensure that contractual agreements pursuant to section 9 of this act are complied with by the applicant. The department shall adequately reimburse the districts for the costs of such purposes. If the applicant does not comply with the terms of the agreement, the district shall discontinue any payments to the applicant.

Sec. 11. The department shall adopt and promulgate such rules and regulations as are necessary for the enforcement and administration of the Buffer Strip Act. The rules and regulations shall include, but not be limited to, rules and regulations providing for:

(1) Types of vegetation suitable for buffer strips;

(2) Appropriate width of buffer strips;

(3) Types of surface water appropriate for protection by buffer strips;

(4) Soil types and classifications appropriate for protection by buffer strips;

(5) A sliding scale, based on land value and potential environmental benefit, to determine the amount to be paid as payment under the act for the buffer strip;

(6) An index to rank those applications that meet the technical requirements of the act to determine priority of funding. Such index shall, at at minimum, identify the factors that will be considered in scoring an application and assign a numerical value for each of those factors. In addition to those items listed in subdivisions (1) to (5) of this section, such factors shall also include an evaluation of each application for the water quality benefits from reduced soil erosion and runoff, the on-farm benefits

of reduced soil erosion, and the cost per acre of an application. Priority may be given to those applications which create buffer strips at the lowest possible cost, assuming environmental protection benefits are equal in other respects;

(7) The minimum requirements necessary for any contractual agreement entered into between a district and applicant;

(8) A project map of the buffer strip program created by the Buffer Strip Act showing the location of buffer strips in each watershed; and

(9) Any other rule and regulation deemed appropriate for implementation of the Buffer Strip Act.

Sec. 12. Section 2-2634, Reissue Revised Statutes of Nebraska, is amended to read:

(1) As a condition to registration or renewal of registration as required by sections 2-2628 to 2-2633, an applicant shall pay to the department a fee of ~~one hundred~~ ninety dollars for each pesticide to be registered, except that the fee may be increased or decreased by the director after a public hearing is held outlining the reason for any proposed change in the fee. In no event shall such fee exceed one hundred fifty dollars for each pesticide to be registered. All fees collected shall be remitted to the State Treasurer for credit as follows:

(a) Thirty dollars of each such fee to the Noxious Weed Cash Fund as provided in section 2-958; ~~and~~

(b) Sixty dollars of each such fee to the Buffer Strip Incentive Fund as provided in section 6 of this act; and

(2) If a person fails to apply for renewal of registration before January 1 of any year, such person, as a condition to renewal, shall pay a late registration fee equal to twenty-five percent of the fee due and owing per month, not to exceed one hundred percent, for each product to be renewed in addition to the renewal fee.

compensation packages accepted. The commission shall submit an annual report of the information obtained pursuant to this section to the Executive Board of the Legislative Council.

Sec. 4. (1) The Department of Economic Development, along with representatives of postsecondary educational institutions eligible to participate in the Quality Work Force Academic Loan Program, shall develop a plan to increase the number of Nebraska students and graduates who remain in the work force of Nebraska. The plan shall include a process to annually identify the state's high-priority work force needs using information compiled by the Nebraska Career Information System, the United States Department of Labor, and the Bureau of Business Research of the University of Nebraska-Lincoln. The recommended high-priority work force needs shall be reviewed by the Executive Board of the Legislative Council.

(2) The department shall establish the Governor's Quality Work Force Honor Roll which shall consist of businesses in Nebraska supporting Nebraska's postsecondary students by providing internship experience and paying a fee as determined by a formula developed by the Coordinating Commission for Postsecondary Education, in cooperation with the department, to participate on the Governor's Quality Work Force Honor Roll. The business fees shall be placed in the Quality Work Force Academic Loan Program Revolving Fund. Participating businesses shall offer paid or for college credit internships as negotiated between the student and the business. The businesses shall report to the commission once the student internship is completed. The report shall include whether the former intern was offered permanent employment once the student internship or graduation requirements were completed, reasons given for declining the offer if it was not accepted, and pertinent information as determined by the commission to help evaluate the program. The businesses shall also meet exemplary criteria as determined by the department in rules and regulations. The department in cooperation with the commission shall also recruit businesses to participate in the Governor's Quality Work Force Honor Roll that will provide internships in fields which are identified as high-priority work force needs.

(3) The department shall, in cooperation with the commission, develop a program for matching recipients of loans under the Quality Work Force Academic Loan Program Act with appropriate internships at honor roll businesses. Whenever possible, these internships shall be administered through existing internship programs at each participating postsecondary educational institution. Postsecondary educational institutions participating in the Quality Work Force Academic Loan Program shall be notified concerning internships that are available but have not been filled by loan recipients.

(4) The department shall adopt and promulgate rules and regulations to implement this section.

Sec. 5. (1) The Quality Work Force Academic Loan Program is created. The Coordinating Commission for Postsecondary Education shall administer the program and shall adopt and promulgate rules and regulations to implement the Quality Work Force Academic Loan Program Act. The commission shall annually report on its rules and regulations for the program and program implementation to the Executive Board of the Legislative Council.

(2) Loans pursuant to the program shall be limited to part-time and full-time Nebraska resident students who are enrolled at one of the participating postsecondary educational institutions. Loans shall be limited to students enrolled in a degree, diploma, or certificate program and shall not be made to students enrolled in customized courses and programs for which industry is providing over fifty percent of the financial support, either directly or indirectly, and for which the students are not being charged tuition or mandatory fees by the postsecondary educational institution.

(3) Loans pursuant to the program shall be funded from the Quality Work Force Academic Loan Program Revolving Fund and shall be made to students through postsecondary educational institutions in conjunction with the commission in consideration of each student's academic excellence, achievements, career goals, financial need, and potential for successful course or program completion in accordance with rules and regulations adopted and promulgated by the commission. As a secondary criterion, when qualified loan applicants exceed the funds available, the institution shall give preference to students who have enrolled in fields identified as high-priority work force needs as identified by the Department of Economic Development pursuant to section 4 of this act and who have roots in Nebraska.

(4) Loan applicants must also complete an internship experience with a business participating on the Governor's Quality Work Force Honor Roll at or before graduation, with exceptions identified by the commission. The commission shall create procedures for setting internship requirements.

(5) For full-time students enrolled in a degree, diploma, or certificate program, loans shall be made on an annual basis in an amount not less than one quarter of the student's tuition and mandatory fees. Loans shall not be made to individual students for a cumulative period exceeding five years. For part-time and nontraditional students, the commission shall develop appropriate policies which are consistent with policies developed for full-time students.

(6) Loans shall only be made through a participating postsecondary educational institution to the student. Participating postsecondary educational institutions shall be regionally or nationally accredited public, nonprofit, or private postsecondary educational institutions headquartered in Nebraska which comply with the act and the rules and regulations adopted and

promulgated by the commission. The commission may create an application, audit, and approval process for participating postsecondary educational institutions and shall require such institutions to provide information necessary to establish and maintain an information data base described in section 3 of this act.

(7) The amount of funding available shall be divided among all participating postsecondary educational institutions annually for utilization by students attending the institutions based on a distribution formula as determined by the commission in accordance with its rules and regulations.

(8) The commission shall define internship experience based on the requirements of participating institutions.

Sec. 6. The Quality Work Force Academic Loan Program Revolving Fund is created. The fund shall consist of appropriations by the Legislature, loan repayments, penalties, interest payments, contributions and fees from businesses, and any other funds received in the process of administering the program. When appropriated by the Legislature, any balance in the fund may be disbursed to participating postsecondary educational institutions for loans under the Quality Work Force Academic Loan Program or for the costs incurred in administering the program. Any money in the fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act. The fund shall be administered by the Coordinating Commission for Postsecondary Education. In annual funding requests, the commission shall not assume there will be an increase in appropriations. To sustain the program, the appropriated amounts each year shall fund the program for four years.

Sec. 7. (1) To be eligible for a loan under the Quality Work Force Academic Loan Program, a full-time student shall sign a contractual agreement with the Coordinating Commission for Postsecondary Education at the time the loan is awarded. The agreement shall establish the requirement that if the student is not employed full time in Nebraska following the completion of his or her chosen program for a time period equal to the number of years the student received loans, if the student has not completed the requisite hours of internship experience with a participating business on the Governor's Quality Work Force Honor Roll with exceptions as identified by the commission, if the student is not enrolled on a full-time basis in a graduate program within six months of obtaining an undergraduate degree for which a loan from the program was obtained, or if the student does not complete the requirements for graduation within five consecutive years, the amount awarded must be repaid with interest at the rate fixed pursuant to section 45-103 as of the date the student signed the contract and an appropriate penalty as determined by the commission. The commission may by rules and regulations make

exceptions to the condition for mitigating circumstances. For part-time and nontraditional students, the commission shall develop appropriate policies which are consistent with the policies established for full-time students. A student receiving a loan shall agree in writing to use the loan for tuition and mandatory fees only. Proof of internship or work experience must be submitted to the commission by the loan recipient at or before graduation, with exceptions identified by the commission. The employment obligations shall begin within six months after the student has completed the course of study for which the loan or loans were received. If the student successfully completes the program of study, completes the internship program, becomes employed within the state, and otherwise meets the requirements of the contract for the loan program payments are suspended for the number of years that the applicant is required to remain employed in Nebraska under the contract. After completion of the required period of full-time employment in Nebraska, the loan is forgiven.

(2) The commission has the administrative responsibility of tracking students who participate in the loan program and developing repayment tracking and collection mechanisms, including the authority to contract for services. The commission shall also notify the student, the Department of Revenue, and the United States Internal Revenue Service when the student completes all of the requirements for forgiveness of the loan and the loan amount becomes taxable income.

Sec. 8. The Coordinating Commission for Postsecondary Education shall require an annual report on the Quality Work Force Academic Loan Program from each participating institution. On or before December 15 of each year, the commission shall present a report to the Governor and the Clerk of the Legislature providing, at a minimum, detail by institution, high-priority work force needs areas, and the full-time or part-time status of the students receiving the loans. The report shall include a financial statement and a description of the activity in the Quality Work Force Academic Loan Program Revolving Fund.'.".

(Amendments to E & R amendments, AM7219)

1. Insert the following new sections:

"Sec. 153. Section 81-15,102, Revised Statutes Supplement, 1997, is amended to read:

81-15,102. (1) The state shall accept or acquire, by gift, transfer, or purchase, from the licensed facility operator, title to the land and appurtenances used for the disposal of low-level radioactive waste after the expiration of both the operational life and closure period of the facility, if:

(a) Both the Department of Health and Human Services Regulation and Licensure and the Department of Environmental Quality determine that (i) the requirements for site closure, decommissioning, and decontamination adopted pursuant to rules and regulations of the Department of Health and Human Services Regulation and Licensure and the Department of Environmental Quality which are allowed under federal law have been met by the licensed facility operator and (ii) such operator is in compliance with all financial requirements; and

(b) The amendments to the Central Interstate Low-Level Radioactive Waste Compact made by Laws 1991, LB 837, section 4, codified in section 71-3521, are in effect and have been ratified by Congress.

The title to the land and appurtenances shall be transferred without cost to the state. Such transfer of title to the state does not relieve the developer, licensed facility operator, or generators of such waste from liability for their actions that occurred whether known or unknown during the design, construction, operation, and closure of the facility. Sites received by gift or transfer shall be subject to approval and acceptance by the Legislature on behalf of the state.

(2) The applicant shall notify the Governor and the Legislature before beginning any onsite geological activity, such as soil core sampling, to determine the suitability of a site in the State of Nebraska for use as a facility.

(3) Lands and appurtenances which are used for the disposal of low-level radioactive waste shall be acquired and held in fee simple absolute by the licensed facility operator so long as such ownership does not preclude licensure or operation of the facility under federal law and until title to the land and appurtenances is transferred to the state pursuant to subsection (1) of this section. Such lands and appurtenances shall be used exclusively for the disposal of low-level radioactive waste until the department determines that such exclusive use is not required to protect the public health, safety, welfare, or environment. Before such a site is leased for other use, the department shall require and assure that the radioactive waste history of the site be recorded in the permanent land records of the site. Remedial cleanup costs which become necessary during the period of custodial care shall be assessed first to the licensed facility operator, then proportionately against the generators of the radioactive

waste and as set out in the Central Interstate Low-Level Radioactive Waste Compact found in section 71-3521.

(4) The state may contract for the management of a disposal site. The contractor shall be subject to licensing by the department and shall be subject to the surety and custodial care funding provisions of section 81-15,103.

(5) If and until licensing of a facility operator is approved, no further construction contracts shall be let or actual construction begun, other than filling the identified wetland, before the Department of Environmental Quality has conducted a six-month public education program to inform the people of the county and the people of the state of the exact characteristics of the facility to be built, which program shall be undertaken forthwith.

Sec. 154. The Executive Board of the Legislative Council in conjunction with the Natural Resources Committee of the Legislature shall conduct an interim study on the legal consequences of withdrawing from the Central Interstate Low-Level Radioactive Waste Compact. There is hereby appropriated $150,000 from the rebate fund for FY1998-99 to the Executive Board of the Legislative Council to hire legal counsel for advice on such issues.".

2. Correct the operative date and repealer sections so that the sections added by this amendment become operative on their effective date with the emergency clause.

3. Renumber the remaining sections and correct internal references accordingly.

WRITTEN BY: Don Stenberg, Attorney General
Steve Grasz, Deputy Attorney General

This opinion addresses separate but essentially identical requests submitted by Senator Wesely and Senator Jensen concerning the constitutionality of a proposed amendment prohibiting the distribution of certain trust funds to persons or entities which provide abortion-related services. It also addresses a third opinion request from Senator Jensen as to the broader issue of what restrictions a state can constitutionally place on funding to entities that perform or facilitate the performance of abortions.

The proposed amendment would amend AM 3434 to LB 1070 so as to provide that "no funds shall be used under this section to award grants to any person or entity which provides, facilitates, or counsels or refers for abortions."

As indicated in Senator Wesely's request, the issue of the validity of similar provisions has arisen previously in other jurisdictions. Although the issue is complicated and fraught with controversy, a considerable amount of guidance is available from these decisions.

Senator Wesely's opinion request quotes from a federal court's opinion in the case of ***Kivlahan v. Planned Parenthood of Mid-Missouri and Eastern Kansas, Inc.***, Case No. 96-4186-CV-C-2 (W.D. Mo. 1996). Our research reveals that ***Kivlahan*** is an unpublished opinion, and is not even available through normal legal research sources. The decision was not reviewed by an appellate court. Pursuant to the rules of the United States Court of Appeals for the Eighth Circuit, such opinions "are not precedent and parties generally should not cite them." Eighth Cir. R. 28A(k). Consequently, ***Kivlahan*** is of no precedential value in Nebraska.

Notwithstanding the status of the ***Kivlahan*** decision, we have reviewed the opinion to examine its logic and application of precedent. ***Kivlahan*** is lacking in both areas. The court in ***Kivlahan*** acknowledged that Missouri's restrictions on the use of family planning funds need only be rationally related to a legitimate governmental purpose to survive an equal protection challenge. ***Id.*** at 5. The court further acknowledged that Missouri has a stated public policy of not promoting or encouraging abortions, ***id.***, and that "the State of Missouri has no positive obligation to fund or subsidize certain activities, including abortions." ***Id.*** at 6. However, the court then proceeded to engage in emotional rhetoric supported only by a logical non sequitur.

The opinion relies on factually unsupported leaps of logic to reach the conclusion that Missouri's funding restrictions were nothing more than a means to punish a disfavored group. The court then (correctly) stated that, "the government may not punish an entity by refusing to contract with it because that entity's agenda may be politically unpopular." ***Id.*** The court further concluded that it could find "no rational basis for the distinction between Planned Parenthood and the other eligible recipients for the state

appropriated family-planning funds." ***Id.*** The court's inability to identify a rational basis for the distinction contrasts starkly with the United States Supreme Court's clear holding that "the State has an interest in protecting the life of the unborn," and that the States may actively promote natural childbirth over abortion. ***Planned Parenthood of Southeastern Pennsylvania v. Casey***, 505 U.S. 833, 1125 S.Ct. 2791, 2818 (1992).

Most striking of all, however, was the absence from the ***Kivlahan*** decision of any citation, reference or discussion of the leading case in this area of law, ***Rust v. Sullivan***, 500 U.S. 173, 111 S.Ct. 1759 (1991).[1] In ***Rust***, the U.S. Supreme Court upheld federal funding restrictions which prohibited Title X fund recipients from engaging in abortion counseling, referral, and activities advocating abortion as a method of family planning. The funding restrictions in ***Rust*** provided that "'[n]one of the funds appropriated under this subchapter shall be used in programs where abortion is a method of family planning.'" ***Rust***, 111 S.Ct. at 1764 (quoting Section 1008 of the Public Health Service Act).

Federal regulations promulgated to implement the law prohibited Title X fund recipients "from engaging in activities that 'encourage, promote or advocate abortion as a method of family planning.' " ***Id.*** at 1765 (quoting § 59.10(a)). Under the regulations, "forbidden activities include lobbying for legislation that would increase the availability of abortion as a method of family planning, developing or disseminating materials advocating abortion as a method of family planning, providing speakers to promote abortion..., using legal action to make abortion available...and paying dues to any group that advocates abortion as a method of family planning..." ***Id.***

Most significantly, the regulations also required that Title X projects "be organized so that they are physically and financially separate from prohibited abortion activities.' " ***Id.*** at 1766 (quoting § 59.9) (emphasis added). Title X funding recipients were required to "have an objective integrity and independence from prohibited activities." ***Id.*** "Mere bookkeeping separation of Title X funds from other monies is not sufficient." ***Id.*** Among factors in determining objective integrity and independence were separate personnel and degree of physical separation of the project from facilities for prohibited activities." ***Id.*** (emphasis added).

In contrast to the federal judge's opinion in ***Kivlahan***, the Supreme Court in ***Rust*** concluded, "There is no question but that the statutory prohibition .

[1]Interestingly, ten Missouri state legislators attempted to intervene in the case to defend the funding restrictions, but were denied standing. ***Planned Parenthood of Mid-Missouri and Eastern Kansas, Inc. v. Ehlman***, ___ F.3d ___, 1998 WL 75547 (8th Cir. 1998). The legislators contended "the Missouri Attorney General colluded with Planned Parenthood by not arguing the constitutionality of [the law] under ***Rust v. Sullivan***. . . ." ***Id.*** n.4 (emphasis added).

. . is constitutional. In ***Maher v. Roe***, . . . [w]e held that the government may 'make a value judgment favoring childbirth over abortion, and . . . implement that judgment by the allocation of public funds.' " ***Rust v. Sullivan***, 111 S.Ct. at 1772 (quoting ***Maher v. Roe***, 97 S.Ct. at 2382)) (emphasis added). The Supreme Court also discussed the ability of States to make funding decisions consistent with legislative policy and stated, "There is a basic difference between direct state interference with a protected activity and state encouragement of an alternative activity consonant with legislative policy." ***Id.*** at 1772 (quoting ***Maher***, 97 S.Ct. at 2383)).

We note that the plaintiff in ***Kivlahan***, Planned Parenthood, also claimed that the state's funding restrictions violated its First Amendment speech rights. ***Kivlahan*** at 2. Although the ***Kivlahan*** court ruled only on the Fourteenth Amendment equal protection challenge, it did so using language sounding in First Amendment terms: "[T]he State of Missouri may not deny a benefit to an entity on a basis of its politically unpopular beliefs." ***Id.*** at 6. While true in a general sense, in this context the court's statement represents a mischaracterization of funding judgments by state legislatures. In ***Rust v. Sullivan***, the petitioners also contended that the federal regulations violated the First Amendment by impermissibly discriminating based on viewpoint. ***Rust***, 111 S.Ct. at 1771-1772. However, the Supreme Court flatly rejected this argument, stating, "The Government can, without violating the Constitution, selectively fund a program to encourage certain activities it believes to be in the public interest, without at the same time, funding an alternative program which seeks to deal with the problem in another way. In so doing, the Government has not discriminated on the basis of viewpoint, it has merely chosen to fund one activity to the exclusion of the other." ***Id.*** at 1772.

Although the unpublished ***Kivlahan*** decision is fraught with error, and although the U.S. Supreme Court's decision in ***Rust v. Sullivan*** upheld the ability of the government to require separation between eligible program activities and abortion-related services, it must be made clear that the States are not free to ban grant applications from persons or entities based on their viewpoint or their exercise of constitutionally protected activity. Funding bans must be based on the legitimate interests of the state in separating state funding of legislatively approved programs from the direct or indirect funding of other activities such as abortion.

As to the particular amendment in question here, we note that some pre-***Rust v. Sullivan*** cases would seem to call the particular wording of the proposed amendment into question. ***See Planned Parenthood Central and Northern Arizona v. State of Arizona***, 789 F.2d 1348 (9th Cir. 1986), ***aff'd without opinion sub nom. Babbitt v. Planned Parenthood***, 479 U.S. 925, 107 S.Ct. 391 (1986). ***See also*** Op. Att'y Gen. No. 90025 (March 28, 1990). However, the proposed amendment would appear to be in a much stronger position in light of the ***Rust*** decision. For example, in contrast to the ***Arizona*** decision, the Court in ***Rust*** did not seem to utilize a least restrictive means test in analyzing the funding restrictions, and even the ***Kivlahan*** court

applied only a rational basis analysis.

Although the proposed amendment differs in form from the federal restriction considered in ***Rust***, it seems to have the same purpose and effect. As in ***Rust***, "we have here not the case of a general law singling out a disfavored group on the basis of speech content, but a case of Government refusing to fund activities, including speech, which are specifically excluded from the scope of the project funded." ***Id.*** at 1773. As in ***Rust***, the proposed amendment seeks to prevent indirect funding of programs that are outside of, and contrary to, official state policy.

The refusal of the government to provide funding to groups that are engaging in activities contrary to government policy was discussed at some length in ***Rust***:

> The regulations govern the scope of the Title X project's activities, and leave the grantee unfettered in its other activities. The Title X grantee can continue to perform abortions, provide abortion-related services, and engage in abortion advocacy; it simply is required to conduct those activities through programs that are separate and independent from the project that receives Title X funds.

***Id.*** at 1774. Under the proposed amendment, the funding restrictions would still permit an abortion proponent to create an affiliate which would be eligible to receive funds. ***See Rust***, 111 S.Ct. at 1775 ("a charitable organization could create . . . an affiliate to conduct its nonlobbying activities using tax deductible contributions, and at the same time establish . . . a separate affiliate to pursue its lobbying efforts without such contributions."). As the Supreme Court stated in ***Rust***,

> By requiring that the Title X grantee engage in abortion-related activity separately from activity receiving federal funding, Congress has . . . not denied it the right to engage in abortion-related activities. Congress has merely refused to fund such activities out of the public fisc, and the Secretary has simply required a certain degree of separation from the Title X project in order to ensure the integrity of the federally funded program.

***Id.***

In sum, in our opinion, the proposed amendment prohibiting grants "to any person or entity which provides, facilitates, or counsels or refers for abortions" is constitutional. A State may enact funding restrictions which ensure that public funds are not directly or indirectly subsidizing abortion. A state may require strict separation of the activities of an ineligible entity from those of an eligible affiliate. For example, in ***Rust*** the federal government required separation of finances and facilities so as to ensure no federal funds indirectly subsidized abortion. The State can require that eligible recipients have facilities and finances that are completely and

objectively separate and independent from abortion-related services so as to avoid indirect subsidization, and also to avoid the appearance of government support for abortion related activity which would be counterproductive to the State's judicially recognized legitimate interest in promoting childbirth over abortion. The State need not allow trust fund recipients to use public funds to channel new clients into facilities where abortions, abortion counseling, abortion referrals or abortion promotion take place. As the Supreme Court stated in ***Webster v. Reproductive Health Services***, "the State need not commit any resources to facilitating abortions." 492 U.S. 490, 509 (1989).

DON STENBERG

The deferred pension benefit shall be paid in the optional benefit forms specified at subsection (1) of section 16-1027 as elected by the firefighter. Notwithstanding anything in sections 16-1020 to 16-1042 to the contrary, if the firefighter's vested retirement value at the date of his or her termination of employment is less than three thousand five hundred dollars, such firefighter shall, upon request within one year of such termination, be paid his or her vested retirement value in the form of a single lump-sum payment.

Effective January 1, 1997, a firefighter may elect, upon his or her termination of employment, to receive his or her vested retirement value in the form of a single lump-sum payment. For a firefighter whose termination of employment is prior to January 1, 1997, this election shall be available only if the city has adopted a lump-sum distribution option for terminating firefighters in the funding medium established for the retirement system.

Upon any lump-sum payment of a terminating firefighter's retirement

value under this section, such firefighter will not be entitled to any deferred pension benefit and the city and the retirement system shall have no further obligation to pay such firefighter or his or her beneficiaries any benefits under sections 16-1020 to 16-1042.

In the event that the terminating firefighter is not credited with one hundred percent of his or her employer account, the remaining nonvested portion of the account shall be forfeited and shall be deposited in the unallocated employer account. If the actuarial ~~evaluation~~ analysis required by section ~~16-1026~~ 16-1037 shows that the assets of the unallocated employer account are sufficient to provide for the projected plan liabilities, such forfeitures shall instead be used to meet the expenses incurred by the city in connection with administering the retirement system, and the remainder shall then be used to reduce the city contribution which would otherwise be required to fund pension benefits.".

(b)(i) The local system has shown an intent to merge,

consolidate, or unify with at least one specified high school district by June 1, 1999, through a public affirmative vote by the school board of the high school district with a majority of the members of the school board signing an affidavit acknowledging that the intent of the signing board member is to proceed with a merger, consolidation, or unification involving the district on which board they are serving and that signing such affidavit without the requisite intent is official misconduct pursuant to section 28-924;

Payments shall be made between September 1, 1998, and September 15, 1998. Payments to local systems that include Class I districts shall be divided proportionally among the districts in the local system based on the weighted formula membership attributed to each district in the local system for the certification of state aid to be paid in the 1998-99 school fiscal year. March 31, 1998

Mądame President, Mr. Speaker,
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Madame President and Senators:

With this letter, I am returning LB 1108 with line-item reductions. The General Fund veto amounts in LB 1108 total $5.2 million. A list of the individual vetoes is attached.

There are measures before you that appear to be moving toward passage, which, taken in total, will result in spending beyond the capacity or the desire of the Nebraska taxpayers to fund. I have maintained that we should spend only what we need to spend, save what we can, and return the rest to the taxpayers. My line-item reductions in LB 1108 begin the first step in that process, limiting expenditures only to that which is necessary. I will carefully weigh the additional measures which are sent to me in the remaining days of the session to ensure that we return to the taxpayers of Nebraska any amount not absolutely necessary for running the government of the state.

During the 1997 legislative session, a total of $23.6 million new funding was added to increase the rates for service providers for the developmentally disabled. Through LB 1108, another $5 million in General and Federal dollars are now added for this purpose. In this biennium, another $8.9 million was also added to ensure services for new students transitioning from high school, along with $2.1 million to provide for other persons who have qualified for services since the Blueprint program was initiated last biennium. A great deal of support has been given in recent years to be sure that the developmentally disabled in our state receive the quality care that they need and deserve. In total, over the past eight years, General Fund appropriations for the developmentally disabled have increased by 88%, from $35 million to over $65.8 million.

I am allowing the added appropriation for new persons needing services to remain in place, except that I am vetoing the amount for additional staff. Sufficient staffing capacity exists within the Health and Human Services system to serve these new clients. By my actions on LB 1108, however, I am reducing the General Fund increase for provider rates by $862,600. With the remaining $1,418,680 General Fund and accompanying federal increase for provider rates, the Department of Health and Human Services will be able to make an adjustment consistent with a 2.75% salary increase and maintain rates at 85% of methodology. I believe this funding is adequate to ensure quality services for disabled persons, as well as more equitable treatment for those providing care.

General Funds of $125,825 for the Foster Grandparent Program have been eliminated. Up to now, this program has been 100% funded through the Corporation for National and Community Service. While the Foster Grandparents do an excellent job of helping special needs children, I do not believe we should begin providing funding at this time for a new state program which will require ongoing General Fund support.

You have included in your recommended funding for FY 1998-99, $12,000 General Funds for the mid-year health insurance rate increase for the Nebraska Educational Television Commission. I have stricken this amount since it can be funded from projected vacancy savings, as it is in the current year. This is consistent with how other state agencies have handled the increase.

The $527,416 General Funds included for Fire/Life Safety/ADA Projects at the State Colleges in FY 1997-98 has been stricken. Other appropriations; namely, $400,000 per year of General Funds appropriated in LB 1100; funding previously appropriated to the Building Renewal Task Force for the benefit of all state agencies; and the funding appropriated in LB 1138 for the Peru State College campus, will help address Fire and Life Safety and ADA concerns at the State Colleges.

In your recommended funding for FY 1998-99, you have included $1,255,580 General Funds for additional state funding of Cooperative Extension salaries. This issue can be dealt with through the normal biennial budget request process. The additional funding has been stricken.

In the Nebraska State Historical Society's budget, I have line item vetoed $40,000 Cash Funds in FY 1998-99, appropriated for the purpose of providing flexibility to the Historical Society to raise admission fees at the

Museum of Nebraska History and historical sites. The Historical Society has sufficient cash fund authority should the Board of Trustees choose to raise admission charges for the general public visiting these sites.

I have also vetoed $100,000 General Funds from the Nebraska Library Commission in FY 1998-99. Notwithstanding this line-item reduction, the Library Commission appropriation will be increased by $400,000 General Funds in FY 1998-99 to allow the Commission to contract for statewide access by local libraries to online databases, including full-text downloads of articles from hundreds of journals and periodicals.

I have consistently advocated for stimulation of economic activity through tourism industry enhancements, including the Tourism Development Initiative, expanded tourism marketing and stable funding for the Nebraska Film Office. My veto of $150,000 General Funds for FY 1997-98 reflects my ongoing restraint on spending, while still providing for a state investment in the Bailey Yard Visitors' Center in North Platte, which will yield positive economic returns for the community, region and state.

The Legislature has provided $12.0 million for the collocation of the Nebraska State Patrol Training Academy and the Nebraska Law Enforcement Training Center in Grand Island. I concur with this efficiency measure and have left intact the total project cost estimate of $12.0 million for this initiative. My recommendation leaves first-year funding of $10,000,000 for FY 1998-99 and demonstrates my commitment to this project. This will ensure that no delays occur in this important capital construction project.

Additional funding was added to the Nebraska State Patrol budget by the Legislature for health insurance co-payments. All state agencies were asked to absorb this relatively small insurance adjustment. To provide consistent budgetary treatment to all state agencies, I have vetoed these excess amounts.

I have vetoed $47,580 from the Department of Education in FY 1997-98 which was to be used for paying accrued vacation and sick leave for five retiring employees. The Department of Education can use vacancy savings for this expense.

I appreciate the hard work you have invested in the budget thus far. I urge your continued vigilance in the remaining days, as we fashion a sensible spending plan to accomplish the work of the state while continuing to safeguard the resources of the taxpayers of Nebraska. I encourage you to sustain my vetoes.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

March 31, 1998

Madame President, Mr. Speaker,
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Madame President and Senators:

I am returning LB 1110 without my signature, but I am signing

LB 1110A. LB 1110A will provide $9.7 million to Nebraska's Educational Service Units to ensure that they are able to support school districts in the core service areas: staff development in curriculum and instruction, staff development in the use of technology, and instructional materials. I cannot, however, sign into law LB 1110 due to section five, which repeals the Property Tax Reduction Incentive Fund created by LB 180 (1997). I have chosen this approach, as LB 1110 is unnecessary to provide funding to the Education Service Units for core services.

As you know, there was a clear understanding with the enactment of the levy limits in LB 1114 (1996) that local political subdivisions needed to explore ways in which to become more efficient. I recognized last year by signing LB 180 that as local governing bodies looked internally at alternatives for reducing spending, it would be appropriate for the state to set aside $20 million in the Property Tax Reduction Incentive Fund to assist with selected local governmental services. My position on this matter has not changed. I remain committed to providing property tax relief and believe that the Property Tax Reduction Incentive Fund provided the appropriate mechanism to ensure property tax relief for Nebraska taxpayers. I cannot and will not sign a bill that repeals the Property Tax Reduction Incentive Fund regardless of the merits of other provisions within the bill.

I urge you to sustain my veto of LB 1110.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

AM4310

(Amendments to Final Reading copy)

1. Strike sections 1 to 6 and insert the following sections:

"Section 1. Section 43-284, Revised Statutes Supplement, 1997, is amended to read:

43-284. When any juvenile is adjudged to be under subdivision (3) or (4) of section 43-247, the court may permit such juvenile to remain in his or her own home subject to supervision or may make an order ~~committing the juvenile to (1) the care of some~~ placing the care and custody of the juvenile with (1) a suitable institution, (2) ~~inpatient or outpatient treatment at~~ a mental

health facility or mental health program for inpatient or outpatient treatment, (3) ~~the care of some~~ a reputable citizen of good moral character, (4) ~~the care of some~~ an association willing to receive the juvenile embracing in its objects the purpose of caring for or obtaining homes for such juveniles, which association is ~~shall have been~~ accredited as provided in section 43-296, (5) ~~the care of~~ a suitable family, or (6) ~~the care and custody of~~ the Department of Health and Human Services. The care and custody ordered under subdivisions (1), (2), or (4) of this section shall be at an institution, a facility or program, or a home located within the State of Nebraska.

Under subdivision (1), (2), (3), (4), or (5) of this section, upon a determination by the court that there are no parental, private, or other public funds available for the care, custody, education, and maintenance of a juvenile, the court may order a reasonable sum for the care, custody, education, and maintenance of the juvenile to be paid out of a fund which shall be appropriated annually by the county where the petition is filed until suitable provisions may be made for the juvenile without such payment. The Department of Health and Human Services Finance and Support shall reimburse the county on a monthly basis for fifty percent of the expenditures from such fund.

The amount to be paid by a county for education pursuant to this section shall not exceed the average cost for education of a public school student in the county in which the juvenile is placed and shall be paid only for education in kindergarten through grade twelve.

The court may enter a dispositional order removing a juvenile from his or her home only upon a written determination that continuation in the home would be contrary to the welfare of such juvenile and that reasonable efforts have been made to prevent or eliminate the need for removal of the juvenile from his or her home and to make it possible for the juvenile to return.

Sec. 2. Section 43-286, Revised Statutes Supplement, 1996, is amended to read:

43-286. Notwithstanding the provisions of sections 43-251 and 43-253 to 43-257, no juvenile shall be confined in any jail as a disposition of the court. When any juvenile is adjudicated to be a juvenile described in subdivision (1), (2), (3)(b), or (4) of section 43-247:

(1) The court may continue the dispositional portion of the hearing, from time to time upon such terms and conditions as the court may prescribe, including an order of restitution of any property stolen or damaged when the same is in the interest of the juvenile's reformation or rehabilitation, and, subject to the further order of the court, may:

(a) Place the juvenile on probation subject to the supervision of a probation officer;

(b) Permit the juvenile to remain in his or her own home,

subject to the supervision of the probation officer; or

(c) Cause the juvenile to be placed in a suitable family home or ~~institution~~ to be placed in an institution located within the State of Nebraska, subject to the supervision of the probation officer. If the court has committed the juvenile to the care and custody of the Department of Health and Human Services, the department shall pay the costs of the suitable family home or institution which are not otherwise paid by the juvenile's parents.

Under subdivision (1)(a), (1)(b), or (1)(c) of this section, upon a determination by the court that there are no parental, private, or other public funds available for the care, custody, and maintenance of a juvenile, the court may order a reasonable sum for the care, custody, and maintenance of the juvenile to be paid out of a fund which shall be appropriated annually by the county where the petition is filed until a suitable provision may be made for the juvenile without such payment. The Department of Health and Human Services Finance and Support shall reimburse the county on a monthly basis for fifty percent of the expenditures from such fund;

(2) Except as provided in section 43-287, the court may commit such juvenile to the Office of Juvenile Services, but a juvenile under the age of twelve years shall not be committed to the Youth Rehabilitation and Treatment Center-Geneva or to the Youth Rehabilitation and Treatment Center-Kearney unless he or she has violated the terms of probation or has committed an additional offense and the court finds that the interests of the juvenile and the welfare of the community demand his or her commitment. This minimum age provision shall not apply if the act in question is murder or manslaughter;

(3) When a juvenile is placed on probation or under the supervision of the court and it is alleged that the juvenile is again a juvenile as defined by subdivision (1), (2), (3)(b), or (4) of section 43-247, a petition may be filed and the same procedure followed and rights given at a hearing on the original petition. If an adjudication is made that the allegations of the petition are true, the court may make any disposition authorized by this section for such adjudications; or

(4) When a juvenile is placed on probation or under the supervision of the court for conduct under subdivision (1), (2), (3)(b), or (4) of section 43-247 and it is alleged that the juvenile has violated a term of probation or supervision or that the juvenile has violated an order of the court, a motion to revoke probation or supervision or to change the disposition may be filed and proceedings held as follows:

(a) The motion shall set forth specific factual allegations of the alleged violations and a copy of such motion shall be served on all persons required to be served by sections 43-262 to 43-267;

(b) The juvenile shall be entitled to a hearing before

the court to determine the validity of the allegations set forth pursuant to subdivision (4)(a) of this section. At such hearing the juvenile shall be entitled to those rights relating to counsel provided by section 43-272 and those rights relating to detention provided by sections 43-254 to 43-256. The juvenile shall also be entitled to speak and present documents, witnesses, or other evidence on his or her own behalf. He or she may confront persons who have given adverse information concerning the alleged violations, may cross-examine such persons, and may show that he or she did not violate the conditions of his or her probation or, if he or she did, that mitigating circumstances suggest that the violation does not warrant revocation. The revocation hearing shall be held within a reasonable time after the juvenile is taken into custody;

(c) The hearing shall be conducted in an informal manner and shall be flexible enough to consider evidence, including letters, affidavits, and other material, that would not be admissible in an adversary criminal trial;

(d) The juvenile shall be given a preliminary hearing in all cases when the juvenile is confined, detained, or otherwise significantly deprived of his or her liberty as a result of his or her alleged violation of probation. Such preliminary hearing shall be held before an impartial person other than his or her probation officer or any person directly involved with the case. If as a result of such preliminary hearing probable cause is found to exist, the juvenile shall be entitled to a hearing before the court in accordance with subdivisions (4)(b) and (4)(c) of this section;

(e) If the juvenile is found by the court to have violated the terms of his or her probation, the court may modify the terms and conditions of the probation order, extend the period of probation, or enter any order of disposition that could have been made at the time the original order of probation was entered or, in the case of the juvenile adjudicated to be within the definitions of subdivision (3)(b) of section 43-247, the court, after considering the dispositions available, may in addition commit such juvenile to the Office of Juvenile Services under section 43-287; and

(f) In cases when the court revokes probation, it shall enter a written statement as to the evidence relied on and the reasons for revocation.

Sec. 3. Section 43-290, Revised Statutes Supplement, 1996, is amended to read:

43-290. It is the purpose of this section to promote parental responsibility and to provide for the most equitable use and availability of public money.

Pursuant to the petition filed by the county attorney or any reputable person in accordance with section 43-274, whenever the care or custody of a juvenile is given by the court to someone other than his or her parent, which shall include placement with a

state agency, or when a juvenile is given medical, psychological, or psychiatric study or treatment under order of the court, the court shall make a determination of support to be paid by a parent for the juvenile at the same proceeding at which placement, study, or treatment is determined or at a separate proceeding. Such proceeding, which may occur prior to, at the same time as, or subsequent to adjudication, shall be in the nature of a disposition hearing.

At such proceeding, after summons to the parent of the time and place of hearing served as provided in sections 43-262 to 43-267, the court may order and decree that the parent shall pay, in such manner as the court may direct, a reasonable sum that will cover in whole or part the support, study, and treatment of the juvenile, which amount ordered paid shall be the extent of the liability of the parent. The court in making such order shall give due regard to the cost of study, treatment, and maintenance of the juvenile, the ability of the parent to pay, and the availability of money for the support of the juvenile from previous judicial decrees, social security benefits, veterans benefits, or other sources. Support thus received by the court shall be transmitted to the person, agency, or institution having financial responsibility for such study, treatment, or maintenance and, if a state agency or institution, remitted by such state agency or institution quarterly to the Director of Administrative Services for credit to the proper fund.

Whenever medical, psychological, or psychiatric study or treatment is ordered by the court, whether or not the juvenile is placed with someone other than his or her parent, or if such study or treatment is otherwise provided as determined necessary by the custodian of the juvenile, the court shall inquire as to the availability of insured or uninsured health care coverage or service plans which include the juvenile. The court may order the parent to pay over any plan benefit sums received on coverage for the juvenile. The payment of any deductible under the health care benefit plan covering the juvenile shall be the responsibility of the parent. If the parent willfully fails or refuses to pay the sum ordered or to pay over any health care plan benefit sums received, the court may proceed against him or her as for contempt, either on the court's own motion or on the motion of the county attorney or authorized attorney as provided in section 43-512, or execution shall issue at the request of any person, agency, or institution treating or maintaining such juvenile. The court may afterwards, because of a change in the circumstances of the parties, revise or alter the order of payment for support, study, or treatment.

If the juvenile has been committed to the care and custody of the Department of Health and Human Services, the department shall pay the costs for the support, study, or treatment of the juvenile which are not otherwise paid by the juvenile's

parent.

If no provision is otherwise made by law for the support or payment for the study or treatment of the juvenile, compensation for the study or treatment shall be paid, when approved by an order of the court, out of a fund which shall be appropriated by the county in which the petition is filed. The Department of Health and Human Services Finance and Support shall reimburse the county on a monthly basis for fifty percent of the expenditures from such fund.

The juvenile court shall retain jurisdiction over a parent ordered to pay support for the purpose of enforcing such support order for so long as such support remains unpaid but not to exceed ten years from the nineteenth birthday of the youngest child for whom support was ordered.

Sec. 4. Section 43-2,101, Revised Statutes Supplement, 1996, is amended to read:

43-2,101. Unless otherwise ordered by the court pursuant to section 43-290, each county shall bear all the expenses incident to the transportation of each juvenile from such county to the Department of Health and Human Services, together with such fees and costs as are allowed by law in similar cases. The fees, costs, and expenses shall be paid from the county treasury upon itemized vouchers certified by the judge of the juvenile court. The Department of Health and Human Services Finance and Support shall reimburse the county on a monthly basis for fifty percent of such expenditures.

Sec. 5. Any county required to appropriate or expend funds pursuant to section 43-284, 43-286, 43-290, or 43-2,101 shall be entitled to reimbursement from the Department of Health and Human Services Finance and Support on a monthly basis for fifty percent of the expenditures made pursuant to such sections.

Sec. 6. If any section in this act or any part of any section is declared invalid or unconstitutional, the declaration shall not affect the validity or constitutionality of the remaining portions.

Sec. 7. Original sections 43-286, 43-290, and 43-2,101, Revised Statutes Supplement, 1996, and section 43-284, Revised Statutes Supplement, 1997, are repealed.

(Amendments to E & R amendments, AM7238)
1. Insert the following new sections:
"Sec. 3. Section 77-2715.08, Reissue Revised Statutes of Nebraska, is amended to read:
77-2715.08. For purposes of this section and section 77-2715.09, unless the context otherwise requires:
(1) Capital stock shall mean common or preferred stock,

either voting or nonvoting. Capital stock shall not include stock rights, stock warrants, stock options, or debt securities;

(2)(a) Corporation shall mean any publicly traded corporation which, at the time of the ~~first~~ sale or exchange for which the election is made, has been in existence and actively doing business in this state for at least three years.

(b) Corporation shall also include:

(i) Any corporation which is a member of a unitary group of corporations, as defined in section 77-2734.04, which includes a corporation defined in subdivision (2)(a) of this section; and

(ii) Any predecessor or successor corporation of a corporation defined in subdivision (2)(a) of this section.

(c) All corporations which are not publicly traded issuing capital stock for which an election under section 77-2715.09 is made shall, at the time of the ~~first~~ sale or exchange for which the election is made, have (i) at least five shareholders and (ii) at least two shareholders or groups of shareholders who are not related to each other and each of which owns at least ten percent of the ~~capital stock~~ voting control of the corporation.

For purposes of this subdivision, two persons shall be considered to be related when, under section 318 of the Internal Revenue Code of 1986, one is a person who owns, directly or indirectly, capital stock that if directly owned would be attributed to the other person or is the brother, sister, aunt, uncle, cousin, niece, or nephew of the other person who owns capital stock either directly or indirectly; and

(3) Predecessor or successor corporation shall mean a corporation that was a party to a reorganization that was entirely or substantially tax free and that occurred during or after the employment of the individual making an election under section 77-2715.09.

Sec. 4. Section 77-2715.09, Reissue Revised Statutes of Nebraska, is amended to read:

77-2715.09. (1)(a) Every resident individual may elect under this section to subtract from federal adjusted gross income or, for trusts qualifying under subdivision (2)(c) of this section, from taxable income the capital gain from the sale or exchange of capital stock of a corporation acquired by the individual (i) on account of employment by such corporation or (ii) while employed by such corporation.

(b) The election may be made for ~~all taxable years~~ any taxable year beginning or deemed to begin on or after January 1, 1999. ~~1989, except that such election may be made with respect to one-half of such gain included in federal adjusted gross income for taxable years beginning or deemed to begin on or after January 1, 1988.~~

(2)~~(a)~~ Each individual shall be entitled to one election under subsection (1) of this section during his or her lifetime for the capital stock of one corporation, and the election shall apply

only to the capital gain from sales or exchanges during the year of the election.

~~(b) The election shall apply to subsequent sales and exchanges in any taxable year if the sale or exchange is of capital stock in the same corporation and such capital stock was acquired as provided in subsection (1) of this section.~~

~~(c) After the individual makes an election, such election shall apply to the sale or exchange of capital stock of the corporation transferred by inter vivos gift from the individual to his or her spouse or issue or a trust for the benefit of the individual's spouse or issue if such capital stock was acquired as provided in subsection (1) of this section. This subdivision shall apply, in the case of the spouse, only if the spouse was married to such individual on the date of sale or exchange or the date of death of the individual.~~

~~(d) If the individual dies without making an election, the surviving spouse or, if there is no surviving spouse, the oldest surviving issue may make the election for capital stock that would have qualified under subdivision (c) of this subsection.~~

(3) In order to make an election under the section, the individual shall have filed as a resident individual taxpayer for at least the three years immediately prior to the tax year in which the election is made and shall remain a resident individual taxpayer for at least the three years immediately after the election is made. Failure to file as a resident individual taxpayer for the succeeding three taxable years will void the election and result in the recapture of the taxes that would have been due on the capital gain for which the election is made had the election been denied.

(4) An election under subsection (1) of this section shall be made by including a written statement with the taxpayer's Nebraska income tax return or an amended return for the taxable year for which the election is made. The written statement shall identify the corporation that issued the stock and the grounds for the election under this section and shall state that the taxpayer elects to have this section apply.

The local system shall receive a lump-sum payment in an amount equal to ninety percent of the 1997-98

property tax and state aid resources minus the 1998-99 property tax and state aid resources if the following criteria are met:

(a) The local system's 1997-98 general fund budget of expenditures minus the special education budget of expenditures did not exceed the 1995-96 general fund budget of expenditures minus the special education budget of expenditures by more than two percent plus the percentage growth in students for the local system; and

(d) Property tax and state aid resources for school

fiscal year 1998-99 means the sum of state aid certified pursuant to the Tax Equity and Educational Opportunities Support Act for school fiscal years 1998-99 plus the product of a levy of one dollar and ten cents per one hundred dollars multiplied by the local system's adjusted valuation for 1998 as certified by the Property Tax Administrator on or before July 1, 1998.

**AMENDMENTS - Print in Journal**

Mr. Jensen filed the following amendment to LB 1129:
AM4212

(Amendments to Standing Committee amendments, AM2895)

1. Insert the following new sections:

"Section 1. For purposes of sections 1 to 5 of this act:

(1) Energy conservation measure means a training, service, or operations program or facility alteration designed to reduce energy consumption. Energy conservation measure includes:

(a) Repair or renovation of heating, ventilation, and air conditioning systems;

(b) Installation or repair of automated or computerized energy control systems;

(c) Replacement or modification of lighting fixtures;

(d) Insulation of a building structure or systems within that structure;

(e) Installation of energy recovery systems;

(f) Installation of cogeneration systems that produce steam or forms of energy such as heat, as well as electricity, for use primarily within a building or complex of buildings;

(g) Replacement, weatherstripping, caulking, or other insulation of windows or doors; or

(h) Any other measure designed to reduce energy consumption;

(2) Energy financing contract means an agreement between an energy service company and a governmental unit for the implementation of one or more energy conservation measures in an existing facility in exchange for a portion of the energy cost savings produced. Energy financing contract includes, but is not limited to, a performance contract, shared-savings contract, guaranteed contract, and lease-purchase contract;

(3) Energy service company means a person or business experienced in the implementation and installation of energy conservation measures and fully accredited by the National Association of Energy Service Companies; and

(4) Governmental unit means a school district, village, city, county, or department or agency of the State of Nebraska.

Sec. 2. Notwithstanding the procedures for public lettings in sections 73-101 to 73-106 or any other statute of the State of Nebraska relating to the letting of bids by a governmental unit, a governmental unit may enter into an energy financing contract with an energy service company pursuant to sections 1 to 5 of this act.

Sec. 3. (1) Prior to entering into an energy financing contract, a governmental unit shall obtain a written opinion from a professional engineer licensed in the State of Nebraska whose

interests are independent from the financial savings outcome of the contract. The opinion shall contain a review of recommendations proposed by an energy service company pertaining to energy conservation measures designed to reduce energy consumption to the governmental unit.

(2) At least fourteen days prior to entering into an energy financing contract, a governmental unit shall furnish public notice of its intention to enter into such contract, the general nature of the proposed work being considered under the contract, and the name and telephone number of a person to be contacted by any energy service company interested in submitting a proposal to contract for such work. The governmental unit shall also directly solicit requests for qualifications from at least three energy service companies relating to the proposed contract.

(3) Upon receiving responses to its request for qualifications pursuant to subsection (2) of this section, the governmental unit may select the most qualified energy service company based on the company's experience, technical expertise, and financial arrangements, the overall benefits to the governmental unit, and other factors determined by the governmental unit to be relevant and appropriate. The governmental unit may thereafter negotiate and enter into an energy financing contract pursuant to section 4 of this act with the company selected based on the criteria established by the governmental unit.

Sec. 4. (1) Any energy financing contract entered into by a governmental unit shall:

(a) Detail the responsibilities of a Nebraska-licensed professional engineer in the design, installation, and commissioning of the energy conservation measures selected by the governmental unit. Any design shall conform to all statutes of the State of Nebraska pertaining to engineering design and public health, safety, and welfare;

(b) Set forth the calculated energy cost savings during the contract period attributable to the energy conservation measures to be installed by the energy service company. Operational savings may be included in the total savings amount, not guaranteed, but approved by the governmental unit;

(c) Estimate the useful life of each of the selected energy conservation measures;

(d) Provide that, except for obligations on termination of the contract prior to its expiration, payments on the contract are to be made over time, within a period not to exceed fifteen years after the date of the installation of the energy conservation measures provided for under the contract;

(e) Provide that the calculated savings for each year of the contract period will meet or exceed all payments to be made during each year of the contract;

(f) Disclose the effective interest rate being charged by the energy service company; and

(g) In the case of a guaranteed savings contract, set forth the method by which savings will be calculated and a method of resolving any dispute in the amount of the savings. The energy service company shall have total responsibility for the savings guarantee for each guaranteed savings contract.

(2) An energy service company entering into an energy financing contract shall provide a performance bond to the governmental unit in an amount equal to one hundred percent of the total cost of the contract to assure the company's faithful performance. The energy service company shall also supply a guarantee bond equal to one hundred percent of the guaranteed energy savings for the entire term of the contract. For purposes of this section, total cost means all costs associated with the design, installation, modification, commissioning, maintenance, and financing of all energy conservation measures contemplated under the contract.

Sec. 5. An energy financing contract may extend beyond the fiscal year in which it becomes effective and shall allow the governmental unit to cancel the contract for the nonappropriation of funds. An obligation created by an energy financing contract entered into or indebtedness incurred pursuant to this section shall not constitute or give rise to an indebtedness within the meaning of any constitutional, statutory, or board debt limitation.

Sec. 6. Section 79-10,105, Revised Statutes Supplement, 1997, is amended to read:

79-10,105. The school board or board of education of any public school district may enter into a lease or lease-purchase agreement for the exclusive use of its individual jurisdiction for such buildings or equipment as the board determines necessary. Such lease or lease-purchase agreements may not exceed a period of seven years, except that lease-purchase agreements entered into as part of an energy financing contract pursuant to section 4 of this act may not exceed a period of fifteen years. All payments pursuant to such leases shall be made from current building funds or general funds. No school district shall directly or indirectly issue bonds to fund any such lease-purchase plan for a capital construction project exceeding twenty-five thousand dollars in costs unless it first obtains a favorable vote of the legal voters pursuant to Chapter 10, article 7. This section does not prevent the school board or board of education of any public school district from refinancing a lease or lease-purchase agreement without a vote of the legal voters for the purpose of lowering finance costs regardless of whether such agreement was entered into prior to July 9, 1988.".

2. On page 11, line 8, after "sections" insert "79-10,105," and after "81-1108.43" insert a comma.

3. Renumber the remaining sections accordingly.

Mr. Beutler filed the following amendment to LB 1174:
AM4299

1. Strike the original sections and all amendments thereto and insert the following new sections:

"Section 1. Section 81-15,102, Revised Statutes Supplement, 1997, is amended to read:

81-15,102. (1) The state shall accept or acquire, by gift, transfer, or purchase, from the licensed facility operator, title to the land and appurtenances used for the disposal of low-level radioactive waste after the expiration of both the operational life and closure period of the facility, if:

(a) Both the Department of Health and Human Services Regulation and Licensure and the Department of Environmental Quality determine that (i) the requirements for site closure, decommissioning, and decontamination adopted pursuant to rules and regulations of the Department of Health and Human Services Regulation and Licensure and the Department of Environmental Quality which are allowed under federal law have been met by the licensed facility operator and (ii) such operator is in compliance with all financial requirements; and

(b) The amendments to the Central Interstate Low-Level Radioactive Waste Compact made by Laws 1991, LB 837, section 4, codified in section 71-3521, are in effect and have been ratified by Congress.

The title to the land and appurtenances shall be transferred without cost to the state. Such transfer of title to the state does not relieve the developer, licensed facility operator, or generators of such waste from liability for their actions that occurred whether known or unknown during the design, construction, operation, and closure of the facility. Sites received by gift or transfer shall be subject to approval and acceptance by the Legislature on behalf of the state.

(2) The applicant shall notify the Governor and the Legislature before beginning any onsite geological activity, such as soil core sampling, to determine the suitability of a site in the State of Nebraska for use as a facility.

(3) Lands and appurtenances which are used for the disposal of low-level radioactive waste shall be acquired and held in fee simple absolute by the licensed facility operator so long as such ownership does not preclude licensure or operation of the facility under federal law and until title to the land and appurtenances is transferred to the state pursuant to subsection (1) of this section. Such lands and appurtenances shall be used exclusively for the disposal of low-level radioactive waste until the department determines that such exclusive use is not required to protect the public health, safety, welfare, or environment. Before such a site is leased for other use, the department shall require and assure that the radioactive waste history of the site be recorded in the permanent land records of the site. Remedial

cleanup costs which become necessary during the period of custodial care shall be assessed first to the licensed facility operator, then proportionately against the generators of the radioactive waste and as set out in the Central Interstate Low-Level Radioactive Waste Compact found in section 71-3521.

(4) The state may contract for the management of a disposal site. The contractor shall be subject to licensing by the department and shall be subject to the surety and custodial care funding provisions of section 81-15,103.

(5) If and until licensing of a facility operator is approved, no further construction contracts shall be let or actual construction begun, other than filling the identified wetland, before the Department of Environmental Quality has conducted a six-month public education program to inform the people of the county and the people of the state of the exact characteristics of the facility to be built, which program shall be undertaken forthwith.

Sec. 2. The Executive Board of the Legislative Council in conjunction with the Natural Resources Committee of the Legislature shall conduct an interim study on the legal consequences of withdrawing from the Central Interstate Low-Level Radioactive Waste Compact. It is the intent of the Legislature that $150,000 of federal rebate funds appropriated to the Department of Environmental Quality for FY1998-99 shall be transferred to the Executive Board of the Legislative Council to hire legal counsel for advice on such issues.

Sec. 3. Section 81-15,113.01, Revised Statutes Supplement, 1997, is amended to read:

81-15,113.01. (1) There is hereby created the Community Improvements Cash Fund which shall be under the direction of the department. The Central Interstate Low-Level Radioactive Waste Compact Commission shall annually through ~~1997~~ 1998 remit to the department the funds received from the states belonging to the Central Interstate Low-Level Radioactive Waste Compact as compensation paid to the host state. When the facility begins operation, the developer shall levy, collect, and remit to the department a surcharge on the rates charged to the users of the facility which is sufficient to raise two million dollars per year together with any adjustments made by the department pursuant to this section. The department shall remit such surcharge to the State Treasurer who shall credit it to the Community Improvements Cash Fund. On October 1, 1990, and each October 1 thereafter, the department shall adjust the amount to be remitted by the developer by an amount equal to the percentage increase in the Consumer Price Index or, if publication of the Consumer Price Index is discontinued, a comparable index selected by the director. There is hereby appropriated three hundred thousand dollars from the Community Improvements Cash Fund for the period July 1, 1988, to June 30, 1989, to carry out the purposes of this section. Any

money in the fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act.

(2) The department shall distribute money from the fund as follows:

(a) Prior to final site selection, three hundred thousand dollars per year shall be allocated for public purposes to be divided among the communities that are under active consideration to host the facility as provided in subsection (3) of this section;

(b) After the final site has been selected and until the facility is operational, three hundred thousand dollars per year shall be allocated for public purposes as provided in subsection (3) of this section. Acceptance of the funds distributed pursuant to this subdivision or subdivision (a) of this subsection shall in no way affect the siting process; and

(c) Once the facility is operational and during the operational life of the facility, the total amount in the fund shall be allocated each year for public purposes as provided in subsection (3) of this section.

(3) Money distributed pursuant to subdivisions (2)(a), (b), and (c) of this section shall be allocated as follows:

(a) Fifty percent of such money shall be distributed to incorporated municipalities which lie totally or partially within ten kilometers of the facility or the proposed facility based on the ratio of the population of the particular incorporated municipality to the total population of all such incorporated municipalities as determined by the latest federal census; and

(b) Fifty percent of such money shall be distributed to the county treasurer of the county where the facility is located or proposed to be located to be distributed to each political subdivision which levied property taxes on the property where the facility is located or proposed to be located. The money shall be distributed on the basis of the ratio of the total amount of taxes levied by each political subdivision to the total amount of property taxes levied by all such political subdivisions on such property based on the amounts stated in the most recent certificate of taxes levied submitted by each county to the Property Tax Administrator pursuant to section 77-1613.01.

(4) The Natural Resources Committee of the Legislature shall conduct a study to establish a formula for the equitable distribution of the funds specified in subdivision (2)(c) of this section. The committee shall hold public hearings necessary to carry out the purposes of the study.

Sec. 4. Original sections 81-15,102 and 81-15,113.01, Revised Statutes Supplement, 1997, are repealed.

Sec. 5. Since an emergency exists, this act takes effect when passed and approved according to law.".

Mr. Bromm filed the following amendment to LB 309:
AM4334

(Amendments to Final Reading copy)

1. On page 51, line 25, strike "hearing" and insert "arresting peace".

## APPROPRIATIONS COMMITTEE REPORT ON LB 1108

Pursuant to Rule 6, Section 14, the Appropriations Committee has examined the Governor's line item vetoes contained in LB 1108 as outlined in the attached schedule, "LB 1108 Veto Amounts by Agency and Program."

Total vetoes contained in the bill are as follows:

| Fund | FY1997-98 | FY1998-99 |
|---|---|---|
| General | $ 749,546 | $2,455,366 |
| Cash | 5,028 | 51,520 |
| Federal | | 1,099,574 |
| Building (Source is General) | | $2,000,000 |
| Total, All Fund Types | $ 754,574 | $5,606,460 |
| Personal Services Limit | | 50,000 |

The proposed vetoes may adversely affect state government operations in several areas.

The Appropriations Committee will make a formal recommendation on veto overrides at a later time.

(Signed) Roger R. Wehrbein, Chairperson
Appropriations Committee

## APPROPRIATIONS COMMITTEE REPORT ON LB 1110

Pursuant to Rule 6, Section 14, the Appropriations Committee has examined the Governor's veto of LB 1110, and its impact to the General Fund Financial Status. LB 1110 and its companion A bill were part of the Appropriations Committee recommendation during the 1998 session.

The Governor's veto of LB 1110 reverses the Appropriations Committee recommendation to cancel annual transfers of $20 million in each of the next three years, beginning in FY1998-99, from the General Fund to the Property Tax Reduction Incentive Fund. The Committee recommendation results in the appropriation and expenditure transactions coming directly from the General Fund; no transfers would be made out of the fund, and, as contained

in LB 1110A, the amount of $9.7 million of aid to Educational Service Units would be distributed in a manner as set forth in LB 1110, from the General Fund.

The General Fund Financial Status as of Wednesday, April 1, is distorted by the veto of LB 1110 combined with the Governor's signing of LB 1110A, resulting in a duplicative financial obligation of a $20 million transfer out of the General Fund (a reduction to estimated receipts/funds available) and a valid $9.7 million General Fund appropriation in the A bill for FY1998-99. No appropriation authority exists to expend from the Property Tax Reduction Incentive Fund, the recipient of the $20 million transfer, however, because of the veto the State Treasurer will still be obligated to make a transfer to the Property Tax Reduction Incentive Fund.

LB 1110 was intended simply to properly recognize General Fund costs as coming directly from the General Fund and to complete the process set in motion during the 1997 session--the securing of future resources for the general objective of redistribution to political subdivisions as authorized by the 1998 legislature.

The Appropriations Committee recommends by unanimous vote, the override of the Governor's veto of LB 1110.

(Signed) Roger R. Wehrbein, Chairperson
Appropriations Committee

**AMENDMENT - Print in Journal**

Mr. Will filed the following amendment to LB 512:
AM4329

(Amendments to Final Reading copy)

1. Strike sections 1 to 6 and insert the following sections:

"Section 1. Section 43-284, Revised Statutes Supplement, 1997, is amended to read:

43-284. When any juvenile is adjudged to be under subdivision (3) or (4) of section 43-247, the court may permit such juvenile to remain in his or her own home subject to supervision or may make an order ~~committing the juvenile to (1) the care of some~~

placing the care and custody of the juvenile with (1) a suitable institution, (2) ~~inpatient or outpatient treatment at~~ a mental health facility or mental health program for inpatient or outpatient treatment, (3) ~~the care of some~~ a reputable citizen of good moral character, (4) ~~the care of some~~ an association willing to receive the juvenile embracing in its objects the purpose of caring for or obtaining homes for such juveniles, which association is ~~shall have been~~ accredited as provided in section 43-296, (5) ~~the care of~~ a suitable family, or (6) ~~the care and custody of~~ the Department of Health and Human Services. The care and custody ordered under subdivisions (1), (2), or (4) of this section shall be at an institution, a facility or program, or a home located within the State of Nebraska.

Under subdivision (1), (2), (3), (4), or (5) of this section, upon a determination by the court that there are no parental, private, or other public funds available for the care, custody, education, and maintenance of a juvenile, the court may order a reasonable sum for the care, custody, education, and maintenance of the juvenile to be paid out of a fund which shall be appropriated annually by the county where the petition is filed until suitable provisions may be made for the juvenile without such payment. The Department of Health and Human Services Finance and Support shall reimburse the county on a monthly basis for fifty percent of the expenditures from such fund.

The amount to be paid by a county for education pursuant to this section shall not exceed the average cost for education of a public school student in the county in which the juvenile is placed and shall be paid only for education in kindergarten through grade twelve.

The court may enter a dispositional order removing a juvenile from his or her home only upon a written determination that continuation in the home would be contrary to the welfare of such juvenile and that reasonable efforts have been made to prevent or eliminate the need for removal of the juvenile from his or her home and to make it possible for the juvenile to return.

Sec. 2. Section 43-286, Revised Statutes Supplement, 1996, is amended to read:

43-286. Notwithstanding the provisions of sections 43-251 and 43-253 to 43-257, no juvenile shall be confined in any jail as a disposition of the court. When any juvenile is adjudicated to be a juvenile described in subdivision (1), (2), (3)(b), or (4) of section 43-247:

(1) The court may continue the dispositional portion of the hearing, from time to time upon such terms and conditions as the court may prescribe, including an order of restitution of any property stolen or damaged when the same is in the interest of the juvenile's reformation or rehabilitation, and, subject to the further order of the court, may:

(a) Place the juvenile on probation subject to the

supervision of a probation officer;

(b) Permit the juvenile to remain in his or her own home, subject to the supervision of the probation officer; or

(c) Cause the juvenile to be placed in a suitable family home or ~~institution~~ to be placed in an institution located within the State of Nebraska, subject to the supervision of the probation officer. If the court has committed the juvenile to the care and custody of the Department of Health and Human Services, the department shall pay the costs of the suitable family home or institution which are not otherwise paid by the juvenile's parents.

Under subdivision (1)(a), (1)(b), or (1)(c) of this section, upon a determination by the court that there are no parental, private, or other public funds available for the care, custody, and maintenance of a juvenile, the court may order a reasonable sum for the care, custody, and maintenance of the juvenile to be paid out of a fund which shall be appropriated annually by the county where the petition is filed until a suitable provision may be made for the juvenile without such payment. The Department of Health and Human Services Finance and Support shall reimburse the county on a monthly basis for fifty percent of the expenditures from such fund;

(2) Except as provided in section 43-287, the court may commit such juvenile to the Office of Juvenile Services, but a juvenile under the age of twelve years shall not be committed to the Youth Rehabilitation and Treatment Center-Geneva or to the Youth Rehabilitation and Treatment Center-Kearney unless he or she has violated the terms of probation or has committed an additional offense and the court finds that the interests of the juvenile and the welfare of the community demand his or her commitment. This minimum age provision shall not apply if the act in question is murder or manslaughter;

(3) When a juvenile is placed on probation or under the supervision of the court and it is alleged that the juvenile is again a juvenile as defined by subdivision (1), (2), (3)(b), or (4) of section 43-247, a petition may be filed and the same procedure followed and rights given at a hearing on the original petition. If an adjudication is made that the allegations of the petition are true, the court may make any disposition authorized by this section for such adjudications; or

(4) When a juvenile is placed on probation or under the supervision of the court for conduct under subdivision (1), (2), (3)(b), or (4) of section 43-247 and it is alleged that the juvenile has violated a term of probation or supervision or that the juvenile has violated an order of the court, a motion to revoke probation or supervision or to change the disposition may be filed and proceedings held as follows:

(a) The motion shall set forth specific factual allegations of the alleged violations and a copy of such motion shall be served on all persons required to be served by sections

43-262 to 43-267;

(b) The juvenile shall be entitled to a hearing before the court to determine the validity of the allegations set forth pursuant to subdivision (4)(a) of this section. At such hearing the juvenile shall be entitled to those rights relating to counsel provided by section 43-272 and those rights relating to detention provided by sections 43-254 to 43-256. The juvenile shall also be entitled to speak and present documents, witnesses, or other evidence on his or her own behalf. He or she may confront persons who have given adverse information concerning the alleged violations, may cross-examine such persons, and may show that he or she did not violate the conditions of his or her probation or, if he or she did, that mitigating circumstances suggest that the violation does not warrant revocation. The revocation hearing shall be held within a reasonable time after the juvenile is taken into custody;

(c) The hearing shall be conducted in an informal manner and shall be flexible enough to consider evidence, including letters, affidavits, and other material, that would not be admissible in an adversary criminal trial;

(d) The juvenile shall be given a preliminary hearing in all cases when the juvenile is confined, detained, or otherwise significantly deprived of his or her liberty as a result of his or her alleged violation of probation. Such preliminary hearing shall be held before an impartial person other than his or her probation officer or any person directly involved with the case. If as a result of such preliminary hearing probable cause is found to exist, the juvenile shall be entitled to a hearing before the court in accordance with subdivisions (4)(b) and (4)(c) of this section;

(e) If the juvenile is found by the court to have violated the terms of his or her probation, the court may modify the terms and conditions of the probation order, extend the period of probation, or enter any order of disposition that could have been made at the time the original order of probation was entered or, in the case of the juvenile adjudicated to be within the definitions of subdivision (3)(b) of section 43-247, the court, after considering the dispositions available, may in addition commit such juvenile to the Office of Juvenile Services under section 43-287; and

(f) In cases when the court revokes probation, it shall enter a written statement as to the evidence relied on and the reasons for revocation.

Sec. 3. Section 43-290, Revised Statutes Supplement, 1996, is amended to read:

43-290. It is the purpose of this section to promote parental responsibility and to provide for the most equitable use and availability of public money.

Pursuant to the petition filed by the county attorney or any reputable person in accordance with section 43-274, whenever

the care or custody of a juvenile is given by the court to someone other than his or her parent, which shall include placement with a state agency, or when a juvenile is given medical, psychological, or psychiatric study or treatment under order of the court, the court shall make a determination of support to be paid by a parent for the juvenile at the same proceeding at which placement, study, or treatment is determined or at a separate proceeding. Such proceeding, which may occur prior to, at the same time as, or subsequent to adjudication, shall be in the nature of a disposition hearing.

At such proceeding, after summons to the parent of the time and place of hearing served as provided in sections 43-262 to 43-267, the court may order and decree that the parent shall pay, in such manner as the court may direct, a reasonable sum that will cover in whole or part the support, study, and treatment of the juvenile, which amount ordered paid shall be the extent of the liability of the parent. The court in making such order shall give due regard to the cost of study, treatment, and maintenance of the juvenile, the ability of the parent to pay, and the availability of money for the support of the juvenile from previous judicial decrees, social security benefits, veterans benefits, or other sources. Support thus received by the court shall be transmitted to the person, agency, or institution having financial responsibility for such study, treatment, or maintenance and, if a state agency or institution, remitted by such state agency or institution quarterly to the Director of Administrative Services for credit to the proper fund.

Whenever medical, psychological, or psychiatric study or treatment is ordered by the court, whether or not the juvenile is placed with someone other than his or her parent, or if such study or treatment is otherwise provided as determined necessary by the custodian of the juvenile, the court shall inquire as to the availability of insured or uninsured health care coverage or service plans which include the juvenile. The court may order the parent to pay over any plan benefit sums received on coverage for the juvenile. The payment of any deductible under the health care benefit plan covering the juvenile shall be the responsibility of the parent. If the parent willfully fails or refuses to pay the sum ordered or to pay over any health care plan benefit sums received, the court may proceed against him or her as for contempt, either on the court's own motion or on the motion of the county attorney or authorized attorney as provided in section 43-512, or execution shall issue at the request of any person, agency, or institution treating or maintaining such juvenile. The court may afterwards, because of a change in the circumstances of the parties, revise or alter the order of payment for support, study, or treatment.

If the juvenile has been committed to the care and custody of the Department of Health and Human Services, the

department shall pay the costs for the support, study, or treatment of the juvenile which are not otherwise paid by the juvenile's parent.

If no provision is otherwise made by law for the support or payment for the study or treatment of the juvenile, compensation for the study or treatment shall be paid, when approved by an order of the court, out of a fund which shall be appropriated by the county in which the petition is filed. The Department of Health and Human Services Finance and Support shall reimburse the county on a monthly basis for fifty percent of the expenditures from such fund.

The juvenile court shall retain jurisdiction over a parent ordered to pay support for the purpose of enforcing such support order for so long as such support remains unpaid but not to exceed ten years from the nineteenth birthday of the youngest child for whom support was ordered.

Sec. 4. Section 43-2,101, Revised Statutes Supplement, 1996, is amended to read:

43-2,101. Unless otherwise ordered by the court pursuant to section 43-290, each county shall bear all the expenses incident to the transportation of each juvenile from such county to the Department of Health and Human Services, together with such fees and costs as are allowed by law in similar cases. The fees, costs, and expenses shall be paid from the county treasury upon itemized vouchers certified by the judge of the juvenile court. The Department of Health and Human Services Finance and Support shall reimburse the county on a monthly basis for fifty percent of such expenditures.

Sec. 5. Any county required to appropriate or expend funds pursuant to section 43-284, 43-286, 43-290, or 43-2,101 shall be entitled to reimbursement from the Department of Health and Human Services Finance and Support on a monthly basis for fifty percent of the expenditures made pursuant to such sections.

Sec. 6. This act becomes operative on July 1, 1998.

Sec. 7. If any section in this act or any part of any section is declared invalid or unconstitutional, the declaration shall not affect the validity or constitutionality of the remaining portions.

Sec. 8. Original sections 43-286, 43-290, and 43-2,101, Revised Statutes Supplement, 1996, and section 43-284, Revised Statutes Supplement, 1997, are repealed.

Sec. 9. Since an emergency exists, this act takes effect when passed and approved according to law.".

2. On page 1, line 1, strike "43-284,"; in line 2 after "1996" insert ", and section 43-284, Revised Statutes Supplement, 1997"; and strike lines 4 and 5 and insert "to provide an operative date; to provide severability; to repeal the original sections; and to declare an emergency.".

## GENERAL FILE

**LEGISLATIVE BILL 1174.** Title read. Considered.

The Standing Committee amendment, AM3115, found on page 619, lost with 2 ayes, 18 nays, 26 present and not voting, and 3 excused and not voting.

Mr. Beutler withdrew his amendment, AM4299, found on page 1644.

Mr. Beutler offered the following amendment:
FA732

1. Strike the original sections and all amendments thereto and insert the following new sections:

"Section 1. Section 81-15,102, Revised Statutes Supplement, 1997, is amended to read:

81-15,102. (1) The state shall accept or acquire, by gift, transfer, or purchase, from the licensed facility operator, title to the land and appurtenances used for the disposal of low-level radioactive waste after the expiration of both the operational life and closure period of the facility, if:

(a) Both the Department of Health and Human Services Regulation and Licensure and the Department of Environmental Quality determine that (i) the requirements for site closure, decommissioning, and decontamination adopted pursuant to rules and regulations of the Department of Health and Human Services Regulation and Licensure and the Department of Environmental Quality which are allowed under federal law have been met by the licensed facility operator and (ii) such operator is in compliance with all financial requirements; and

(b) The amendments to the Central Interstate Low-Level Radioactive Waste Compact made by Laws 1991, LB 837, section 4, codified in section 71-3521, are in effect and have been ratified by Congress.

The title to the land and appurtenances shall be transferred without cost to the state. Such transfer of title to the state does not relieve the developer, licensed facility operator, or generators of such waste from liability for their actions that occurred whether known or unknown during the design,

construction, operation, and closure of the facility. Sites received by gift or transfer shall be subject to approval and acceptance by the Legislature on behalf of the state.

(2) The applicant shall notify the Governor and the Legislature before beginning any onsite geological activity, such as soil core sampling, to determine the suitability of a site in the State of Nebraska for use as a facility.

(3) Lands and appurtenances which are used for the disposal of low-level radioactive waste shall be acquired and held in fee simple absolute by the licensed facility operator so long as such ownership does not preclude licensure or operation of the facility under federal law and until title to the land and appurtenances is transferred to the state pursuant to subsection (1) of this section. Such lands and appurtenances shall be used exclusively for the disposal of low-level radioactive waste until the department determines that such exclusive use is not required to protect the public health, safety, welfare, or environment. Before such a site is leased for other use, the department shall require and assure that the radioactive waste history of the site be recorded in the permanent land records of the site. Remedial cleanup costs which become necessary during the period of custodial care shall be assessed first to the licensed facility operator, then proportionately against the generators of the radioactive waste and as set out in the Central Interstate Low-Level Radioactive Waste Compact found in section 71-3521.

(4) The state may contract for the management of a disposal site. The contractor shall be subject to licensing by the department and shall be subject to the surety and custodial care funding provisions of section 81-15,103.

(5) If and until licensing of a facility is approved, no further construction contracts shall be let or actual construction begun, other than filling the identified wetland, before the Department of Environmental Quality has conducted a six-month public education program to inform the people of the county and the people of the state of the exact characteristics of the facility to be built, which program shall be undertaken forthwith.

Sec. 2. The Executive Board of the Legislative Council in conjunction with the Natural Resources Committee of the Legislature shall conduct an interim study on the legal consequences of withdrawing from the Central Interstate Low-Level Radioactive Waste Compact. It is the intent of the Legislature that $150,000 of federal rebate funds appropriated to the Department of Environmental Quality for FY1998-99 shall be transferred to the Executive Board of the Legislative Council to hire legal counsel for advice on such issues.

Sec. 3. Section 81-15,113.01, Revised Statutes Supplement, 1997, is amended to read:

81-15,113.01. (1) There is hereby created the Community

Improvements Cash Fund which shall be under the direction of the department. The Central Interstate Low-Level Radioactive Waste Compact Commission shall annually through ~~1997~~ 1998 remit to the department the funds received from the states belonging to the Central Interstate Low-Level Radioactive Waste Compact as compensation paid to the host state. When the facility begins operation, the developer shall levy, collect, and remit to the department a surcharge on the rates charged to the users of the facility which is sufficient to raise two million dollars per year together with any adjustments made by the department pursuant to this section. The department shall remit such surcharge to the State Treasurer who shall credit it to the Community Improvements Cash Fund. On October 1, 1990, and each October 1 thereafter, the department shall adjust the amount to be remitted by the developer by an amount equal to the percentage increase in the Consumer Price Index or, if publication of the Consumer Price Index is discontinued, a comparable index selected by the director. There is hereby appropriated three hundred thousand dollars from the Community Improvements Cash Fund for the period July 1, 1988, to June 30, 1989, to carry out the purposes of this section. Any money in the fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act.

(2) The department shall distribute money from the fund as follows:

(a) Prior to final site selection, three hundred thousand dollars per year shall be allocated for public purposes to be divided among the communities that are under active consideration to host the facility as provided in subsection (3) of this section;

(b) After the final site has been selected and until the facility is operational, three hundred thousand dollars per year shall be allocated for public purposes as provided in subsection (3) of this section. Acceptance of the funds distributed pursuant to this subdivision or subdivision (a) of this subsection shall in no way affect the siting process; and

(c) Once the facility is operational and during the operational life of the facility, the total amount in the fund shall be allocated each year for public purposes as provided in subsection (3) of this section.

(3) Money distributed pursuant to subdivisions (2)(a), (b), and (c) of this section shall be allocated as follows:

(a) Fifty percent of such money shall be distributed to incorporated municipalities which lie totally or partially within ten kilometers of the facility or the proposed facility based on the ratio of the population of the particular incorporated municipality to the total population of all such incorporated municipalities as determined by the latest federal census; and

(b) Fifty percent of such money shall be distributed to the county treasurer of the county where the facility is located or

proposed to be located to be distributed to each political subdivision which levied property taxes on the property where the facility is located or proposed to be located. The money shall be distributed on the basis of the ratio of the total amount of taxes levied by each political subdivision to the total amount of property taxes levied by all such political subdivisions on such property based on the amounts stated in the most recent certificate of taxes levied submitted by each county to the Property Tax Administrator pursuant to section 77-1613.01.

(4) The Natural Resources Committee of the Legislature shall conduct a study to establish a formula for the equitable distribution of the funds specified in subdivision (2)(c) of this section. The committee shall hold public hearings necessary to carry out the purposes of the study.

Sec. 4. Original sections 81-15,102 and 81-15,113.01, Revised Statutes Supplement, 1997, are repealed.

"Section 1. Sections 1 to 8 of this act shall be known and may be cited as the Quality Work Force Academic Loan Program Act.

Sec. 2. The purposes of the Quality Work Force Academic Loan Program Act are to:

(1) Retain resident students and graduates in the Nebraska work force who have attended a Nebraska postsecondary educational institution and demonstrated academic achievement in either applied technology or academic programs or courses;

(2) Encourage students to seek education and training in fields which are essential to the economic development of the state;

(3) Promote development, attraction, and retention of workers in Nebraska by establishing the Governor's Quality Work Force Honor Roll which shall consist of businesses in this state that support this state's postsecondary students by providing internship experiences;

(4) Establish a loan contract that requires a recipient to work full time in this state after graduation and complete a designated number of hours of internship experience with a business participating as a member of the Governor's Quality Work Force Honor Roll;

(5) Provide for the administration of the program and distribution of appropriated state funds by the Coordinating Commission for Postsecondary Education, with the individual loans determined and directly disbursed by regionally or nationally accredited participating Nebraska public, nonprofit, or private postsecondary educational institutions according to rules and regulations adopted and promulgated by the commission; and

(6) Provide funds for the program in such amounts as may be appropriated by the Legislature.

Sec. 3. (1) The Coordinating Commission for Postsecondary Education shall establish and maintain an information data base which (a) details current efforts by Nebraska public, nonprofit, or private postsecondary educational institutions to recruit students within this state and to place graduates of such institutions in Nebraska businesses and (b) provides the number of graduates participating in the Quality Work Force Academic Loan Program from such postsecondary educational institutions.

(2) The information shall include (a) areas of specialty of such graduates, (b) their employment decisions regarding location of residence, (c) type of employer, (d) title of position, and (e) compensation packages accepted.

(3) The commission shall submit to the Executive Board of the Legislative Council an annual report containing pertinent information obtained pursuant to this section.

Sec. 4. (1) The Department of Economic Development and representatives of postsecondary educational institutions eligible to participate in the Quality Work Force Academic Loan Program shall develop a plan to increase the number of Nebraska students and graduates who remain in the work force of this state. The plan shall include a process to annually identify the state's high-priority work force needs using information compiled by the Nebraska Career Information System, the United States Department of Labor, and the Bureau of Business Research of the University of Nebraska-Lincoln. The recommended high-priority work force needs shall be reviewed by the Executive Board of the Legislative Council.

(2) The department shall establish the Governor's Quality Work Force Honor Roll which shall consist of businesses in this state that support this state's postsecondary students by providing internship experience and paying a fee as determined by a formula developed by the Coordinating Commission for Postsecondary Education, in cooperation with the department, to participate on the Governor's Quality Work Force Honor Roll. The business fees shall be placed in the Quality Work Force Academic Loan Program Revolving Fund. Participating businesses shall offer paid or for-college-credit internships which shall be negotiated between the student and the business. The businesses shall report to the commission when the student internship has been completed. The report shall include (a) whether the former intern was offered permanent employment when the student internship or graduation requirements were completed, (b) reasons given for declining the offer if it was not accepted, and (c) pertinent information as determined by the commission to help evaluate the program. (3) The department shall, in cooperation with the commission, develop a program to pair recipients of loans under the Quality Work Force Academic Loan Program Act with appropriate internships at honor roll businesses. Whenever feasible, such internships shall be administered through existing internship programs at each participating postsecondary educational institution. Such participating institutions shall be notified concerning internships that are available but have not been filled by loan recipients.

(4) The department shall adopt and promulgate rules and regulations to implement this section.

Sec. 5. (1) The Quality Work Force Academic Loan Program is created. The Coordinating Commission for Postsecondary Education shall administer the program and shall adopt and promulgate rules and regulations to implement the Quality Work Force Academic Loan Program Act. The commission shall annually submit a report to the Executive Board of the Legislative Council regarding the rules and regulations governing the program and its implementation.

(2) Loans shall be awarded only to part-time and full-time Nebraska resident students who are enrolled at one of the participating postsecondary educational institutions. Loans shall be awarded only to students enrolled in a degree, diploma, or certificate program and shall not be awarded to students enrolled in customized courses and programs for which industry is providing over fifty percent of the financial support, either directly or indirectly, and for which the students are not being charged tuition or mandatory fees by the postsecondary educational institution.

(3) Loans shall be funded from the Quality Work Force Academic Loan Program Revolving Fund and shall be awarded to students through postsecondary educational institutions in conjunction with the commission in consideration of each student's academic achievements, career goals, financial need, and potential for successful completion of course or program requirements in accordance with rules and regulations adopted and promulgated by the commission. As a secondary criterion, when qualified loan applicants exceed the funds available, a participating institution shall give preference to students who have roots in Nebraska and whose course or program work is in a field or fields identified by the Department of Economic Development as high-priority work force needs pursuant to section 4 of this act.

(4) Loan applicants, at or before graduation, with exceptions identified by the commission, must also complete an internship experience with a business participating as a member of the Governor's Quality Work Force Honor Roll. The commission shall create procedures for setting internship requirements.

(5) For full-time students enrolled in a degree, diploma, or certificate program, loans shall be awarded on an annual basis in an amount not less than one quarter of the student's tuition and mandatory fees combined. Loans shall not be awarded to individual students for a cumulative period exceeding five consecutive years. For part-time and nontraditional students, the commission shall develop appropriate policies which are consistent with policies developed for full-time students.

(6) Loans shall only be awarded through a participating postsecondary educational institution to a qualified student. Participating postsecondary educational institutions shall be regionally or nationally accredited public, nonprofit, or private postsecondary educational institutions headquartered in Nebraska

which comply with the act and the rules and regulations adopted and promulgated by the commission. The commission may create an application, audit, and approval process for participating postsecondary educational institutions and shall require such institutions to provide information necessary to establish and maintain the information data base described in section 3 of this act.

(7) The amount of funding available shall be divided among all participating postsecondary educational institutions annually for utilization by students attending such institutions based on a distribution formula as determined by the commission in accordance with its rules and regulations.

(8) The commission shall define internship experience based on the requirements of participating institutions.

Sec. 6. The Quality Work Force Academic Loan Program Revolving Fund is created. The fund shall consist of appropriations by the Legislature for FY1998-99, loan repayments, penalties, interest payments, contributions and fees from businesses, and any other funds received in the course of administering the program. When appropriated by the Legislature, any balance in the fund may be disbursed to participating postsecondary educational institutions for loans under the Quality Work Force Academic Loan Program or for the costs incurred in administering the program. Any money in the fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act. The fund shall be administered by the Coordinating Commission for Postsecondary Education. The Legislature shall appropriate funds to the Quality Work Force Academic Loan Program Revolving Fund for FY1998-99 only. After FY1998-99, the only sources of funding shall be loan repayments, penalties, interest payments, contributions, fees from businesses, and any other funds received in the process of administering the program. To sustain the program, amounts available in the fund for each year shall fund the program for four years.

Sec. 7. (1) To be eligible for a loan under the Quality Work Force Academic Loan Program, a full-time student shall sign a contract with the Coordinating Commission for Postsecondary Education at the time the loan is awarded. The contract shall require that if (a) the student is not employed full time in Nebraska following the completion of his or her chosen program for a time period equal to the number of years the student received loans, (b) the student has not completed the requisite hours of internship experience with a participating business on the Governor's Quality Work Force Honor Roll with exceptions as identified by the commission, (c) the student is not enrolled on a full-time basis in a graduate program within six months of obtaining an undergraduate degree for which a loan from the program was obtained, or (d) the student does not complete the requirements

for graduation within five consecutive years, the amount awarded must be repaid with interest at the rate fixed pursuant to section 45-103 as of the date the student signed the contract and an appropriate penalty as determined by the commission. The commission may by rules and regulations provide for exceptions to the conditions based upon mitigating circumstances. For part-time and nontraditional students, the commission shall develop appropriate policies which are consistent with the policies established for full-time students. A student who is awarded a loan must agree in writing to use the loan for tuition and mandatory fees only. Proof of internship or work experience must be submitted to the commission by the loan recipient at or before graduation, with exceptions identified by the commission. The employment obligations shall begin within six months after the student has completed the course of study for which the loan or loans were awarded.

(2) If the student (a) successfully completes the program of study, (b) completes the internship program, (c) becomes timely employed within the state, and (d) otherwise meets the requirements of the contract, payments shall be suspended for the number of years that the applicant is required to remain employed in this state under the contract. After completion of the required period of full-time employment in Nebraska, the loan shall be forgiven.

(3) The commission has the administrative responsibility to track students who participate in the loan program and to develop repayment tracking and collection mechanisms. The commission may contract for services. When a loan has been forgiven, the amount becomes taxable income and the commission shall provide notification of such to the person who was awarded such loan, the Department of Revenue, and the United States Internal Revenue Service.

Sec. 8. The Coordinating Commission for Postsecondary Education shall require an annual report on the Quality Work Force Academic Loan Program from each participating institution. On or before December 15 of each year, the commission shall submit a report to the Governor and to the Clerk of the Legislature providing, at a minimum, information on an institution-by-institution basis, high-priority work force needs areas, and the full-time or part-time status of the students awarded the loans. The report shall include a financial statement and a description of the activity of the Quality Work Force Academic Loan Program Revolving Fund.".

(1) Quality education incentive payments shall be provided to local systems, as defined in section 79-1003, each year the local system meets the qualifications described in this section. The first two years a local system qualifies for quality education incentives, the system shall meet all of the primary quality factors in subsection (2) of this section. The third and fourth years a local system qualifies for quality education incentives, the system shall meet all of the primary quality factors in subsection (2) of this section and at least two of the premier quality factors in subsection (3) of this section. The fifth and sixth years a local system qualifies for quality education incentives, the system shall meet all of the primary quality factors in subsection (2) of this section and at least three of the premier quality factors in subsection (3) of this section. The seventh year and each year thereafter a local system qualifies for quality education incentives, the system shall meet all of the primary quality factors in subsection (2) of this section and at least four of the premier quality factors in subsection (3) of this section except as provided in subsection (4) of this section.

(2) The primary quality factors are:

(a) Each district in the local system has adopted academic standards adopted and promulgated by the State Board of Education or academic standards approved by the state board as generally more rigorous than the academic standards adopted and promulgated by the state board;

(b) Each district in the local system has an alternative school, class, or educational program available or in operation for all expelled students pursuant to subsection (1) of section 79-266 or, for districts that do not have any expelled students, an adopted school board policy to have an alternative school, class, or educational program available or in operation for all expelled students pursuant to subsection (1) of section 79-266 if any expulsions occur; and

(c) At least sixty percent of the graduating seniors in the local system have taken a standard college admissions test and those students have an aggregate average score, using the most recent test score on each test taken for each student who has taken at least one of the tests, above the statewide average score on any of the standard college admissions tests which at least twenty-five percent of the graduating seniors have taken.

(3) The premier quality factors are:

(a) The local system has at least one teacher who has received credentials from a national nonprofit organization the purpose of which is to establish high and rigorous standards in a broad range of educational areas for what accomplished teachers should know and be able to do and which issues credentials to teachers who demonstrate that they meet those standards;

(b) At least thirty-six percent of the certificated teachers in the local system have advanced degrees or at least thirty graduate-level hours;

(4) If a local system in which at least forty percent of the formula students qualify for the poverty factor pursuant to section 79-1007.01 meets all of the qualifications for quality education incentive payments except that the aggregate average college admissions test scores pursuant to subdivision (2)(c) of this section are not above the statewide average, the local system

shall receive quality education incentive payments equal to fifty dollars per formula student multiplied by two times the percentage resulting when the number of local system graduating seniors who scored above the statewide average on any standard college admissions test, using the most recent test score on each test taken for each student who has taken at least one of the tests, is divided by the number of all local system graduating seniors who have taken a standard college admissions test.

(5) Local systems meeting the criteria in subsections (1) through (4) of this section may apply to the Excellence in Education Council for quality education incentive payments on or before October 1, 1998, for the 1998-99 school fiscal year and on or before July 1 ~~of~~ each fiscal year thereafter, using the most recent information and data available. Upon review by the Excellence in Education Council, if the information and data in the application indicate that the local system meets the criteria in such subsections, the local system shall qualify for quality education incentive payments.

(6) Quality education incentive payments shall be made from the Education Innovation Fund on or before December 1, 1998, for the 1998-99 school fiscal year and on or before September 1 of each school fiscal year thereafter beginning with the 1999-00 school fiscal year. The payments shall equal fifty dollars per adjusted formula student or one hundred dollars per adjusted formula student for local systems in the very sparse cost grouping based on the most recent certification of state aid pursuant to the Tax Equity and Educational Opportunities Support Act. If the unobligated balance in the fund is less than the amount calculated for quality education incentive payments due to qualified local systems, each qualified local system shall receive a pro rata amount such that the amount of payments equals the unobligated balance in the fund.

(7) Quality education incentive payments shall only be used for pilot projects or model programs for the purposes set forth in section 9-812 for major competitive grants. Incentive payments may not be used to supplant federal, state, or local funds. The payments shall be made to the high school district, and the high school district prior to the application shall determine how the payments shall be used after consultation with all Class I school districts in the local system. Quality education incentive payments, or portions of such payments, may be transferred to the Class I school districts. Quality education incentive payments shall not be included as local system formula resources pursuant to section 79-1018.01. ## SELECT COMMITTEE REPORTS
### Enrollment and Review

**LEGISLATIVE BILL 1174.** Placed on Select File as amended.
E & R amendment to LB 1174:
AM7253

1. Strike the original sections and all amendments thereto and insert the following new sections:

"Section 1. Section 81-15,102, Revised Statutes Supplement, 1997, is amended to read:

81-15,102. (1) The state shall accept or acquire, by gift, transfer, or purchase, from the licensed facility operator, title to the land and appurtenances used for the disposal of low-level radioactive waste after the expiration of both the operational life and closure period of the facility, if:

(a) Both the Department of Health and Human Services Regulation and Licensure and the Department of Environmental Quality determine that (i) the requirements for site closure, decommissioning, and decontamination adopted pursuant to rules and regulations of the Department of Health and Human Services Regulation and Licensure and the Department of Environmental Quality which are allowed under federal law have been met by the licensed facility operator and (ii) such operator is in compliance with all financial requirements; and

(b) The amendments to the Central Interstate Low-Level Radioactive Waste Compact made by Laws 1991, LB 837, section 4,

codified in section 71-3521, are in effect and have been ratified by Congress.

The title to the land and appurtenances shall be transferred without cost to the state. Such transfer of title to the state does not relieve the developer, licensed facility operator, or generators of such waste from liability for their actions that occurred whether known or unknown during the design, construction, operation, and closure of the facility. Sites received by gift or transfer shall be subject to approval and acceptance by the Legislature on behalf of the state.

(2) The applicant shall notify the Governor and the Legislature before beginning any onsite geological activity, such as soil core sampling, to determine the suitability of a site in the State of Nebraska for use as a facility.

(3) Lands and appurtenances which are used for the disposal of low-level radioactive waste shall be acquired and held in fee simple absolute by the licensed facility operator so long as such ownership does not preclude licensure or operation of the facility under federal law and until title to the land and appurtenances is transferred to the state pursuant to subsection (1) of this section. Such lands and appurtenances shall be used exclusively for the disposal of low-level radioactive waste until the department determines that such exclusive use is not required to protect the public health, safety, welfare, or environment. Before such a site is leased for other use, the department shall require and assure that the radioactive waste history of the site be recorded in the permanent land records of the site. Remedial cleanup costs which become necessary during the period of custodial care shall be assessed first to the licensed facility operator, then proportionately against the generators of the radioactive waste and as set out in the Central Interstate Low-Level Radioactive Waste Compact found in section 71-3521.

(4) The state may contract for the management of a disposal site. The contractor shall be subject to licensing by the department and shall be subject to the surety and custodial care funding provisions of section 81-15,103.

(5) If and until licensing of a facility is approved, no further construction contracts shall be let or actual construction begun, other than filling the identified wetland, before the Department of Environmental Quality has conducted a six-month public education program to inform the people of the county and the people of the state of the exact characteristics of the facility to be built, which program shall be undertaken forthwith.

Sec. 2. Section 81-15,113.01, Revised Statutes Supplement, 1997, is amended to read:

81-15,113.01. (1) There is hereby created the Community Improvements Cash Fund which shall be under the direction of the department. The Central Interstate Low-Level Radioactive Waste Compact Commission shall annually through ~~1997~~ 1998 remit to the

department the funds received from the states belonging to the Central Interstate Low-Level Radioactive Waste Compact as compensation paid to the host state. When the facility begins operation, the developer shall levy, collect, and remit to the department a surcharge on the rates charged to the users of the facility which is sufficient to raise two million dollars per year together with any adjustments made by the department pursuant to this section. The department shall remit such surcharge to the State Treasurer who shall credit it to the Community Improvements Cash Fund. On October 1, 1990, and each October 1 thereafter, the department shall adjust the amount to be remitted by the developer by an amount equal to the percentage increase in the Consumer Price Index or, if publication of the Consumer Price Index is discontinued, a comparable index selected by the director. There is hereby appropriated three hundred thousand dollars from the Community Improvements Cash Fund for the period July 1, 1988, to June 30, 1989, to carry out the purposes of this section. Any money in the fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act.

(2) The department shall distribute money from the fund as follows:

(a) Prior to final site selection, three hundred thousand dollars per year shall be allocated for public purposes to be divided among the communities that are under active consideration to host the facility as provided in subsection (3) of this section;

(b) After the final site has been selected and until the facility is operational, three hundred thousand dollars per year shall be allocated for public purposes as provided in subsection (3) of this section. Acceptance of the funds distributed pursuant to this subdivision or subdivision (a) of this subsection shall in no way affect the siting process; and

(c) Once the facility is operational and during the operational life of the facility, the total amount in the fund shall be allocated each year for public purposes as provided in subsection (3) of this section.

(3) Money distributed pursuant to subdivisions (2)(a), (b), and (c) of this section shall be allocated as follows:

(a) Fifty percent of such money shall be distributed to incorporated municipalities which lie totally or partially within ten kilometers of the facility or the proposed facility based on the ratio of the population of the particular incorporated municipality to the total population of all such incorporated municipalities as determined by the latest federal census; and

(b) Fifty percent of such money shall be distributed to the county treasurer of the county where the facility is located or proposed to be located to be distributed to each political subdivision which levied property taxes on the property where the facility is located or proposed to be located. The money shall be

distributed on the basis of the ratio of the total amount of taxes levied by each political subdivision to the total amount of property taxes levied by all such political subdivisions on such property based on the amounts stated in the most recent certificate of taxes levied submitted by each county to the Property Tax Administrator pursuant to section 77-1613.01.

(4) The Natural Resources Committee of the Legislature shall conduct a study to establish a formula for the equitable distribution of the funds specified in subdivision (2)(c) of this section. The committee shall hold public hearings necessary to carry out the purposes of the study.

Sec. 3. The Executive Board of the Legislative Council in conjunction with the Natural Resources Committee of the Legislature shall conduct an interim study on the legal consequences of withdrawing from the Central Interstate Low-Level Radioactive Waste Compact. It is the intent of the Legislature that $150,000 of federal rebate funds appropriated to the Department of Environmental Quality for FY1998-99 shall be transferred to the Executive Board of the Legislative Council to hire legal counsel for advice on such issues.

Sec. 4. Original sections 81-15,102 and 81-15,113.01, Revised Statutes Supplement, 1997, are repealed.

Sec. 29. By September 1, 1998, the Education Committee and the Revenue Committee of the Legislature, in conjunction with the School Finance Review Committee, shall determine the target state aid percentage. Such target state aid percentage shall be dedicated for state aid to school districts. It is the intent of the Legislature that receipts derived from the target state aid percentage shall be used for biennial appropriations for state aid to school districts for the purposes of stabilizing state support for public schools and for maintaining property tax reductions implemented through property tax limitations pursuant to Laws 1996, LB 1114.

Sec. 30. For each biennium beginning with the 1999-01 biennium, the Legislative Fiscal Analyst shall determine:

(1) The amount of appropriations necessary to fund the state aid formula at the level of appropriations described in section 79-1031.01 for school fiscal years 1999-00 and 2000-01;

(2) The annual percentage change in the Consumer Price Index for Urban Wage Earners and Clerical Workers, as reported by the United States Department of Labor, Bureau of Labor Statistics;

(3) The projected amount of revenue which would be generated by the target state aid percentage; and

(4) The historic average annual growth rate of the state sales tax and income tax revenue over the prior fifteen-year period, adjusted for changes in base and rate and for court decisions.

Sec. 31. (1) It is the intent of the Legislature to appropriate for state aid to school districts each biennium, to the Tax Equity and Educational Opportunities Fund, an amount equal to the greater of: (a) The amount necessary to fund state aid to schools at the level of appropriations described in section 79-1031.01 or (b) the amount generated by application of the annual percentage change in the Consumer Price Index for Urban Wage Earners and Clerical Workers, as described in section 30 of this

act, to the preceding year's appropriation level.

(2) It is the intent of the Legislature that (a) any revenue generated from state revenue growth, based on the target state aid percentage, beyond that needed for the biennial appropriation to the Tax Equity and Educational Opportunities Fund and (b) an amount equal to the revenue generated from one-half percent of the sales tax rate levied under section 77-2703 shall be paid into the State Aid to Schools and Property Tax Stabilization Fund, which fund is hereby created. It is further the intent of the Legislature that no growth in state revenue which would be derived from the target state aid percentage shall be appropriated to the State Aid to Schools and Property Tax Stabilization Fund beyond the amount which would be produced by application of a percentage figure which equates to the historical average growth rate of the sales tax and income tax, as described in section 30 of this act. Any money in the State Aid to Schools and Property Tax Stabilization Fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act. It is the intent of the Legislature to utilize the State Aid to Schools and Property Tax Stabilization Fund to make appropriations to the Tax Equity and Educational Opportunities Fund in those biennia when the revenue derived from the target state aid percentage would be insufficient to fund the state aid formula at the level described in subsection (1) of this section.

Sec. 32. Section 79-1031.01, Revised Statutes Supplement, 1997, is amended to read:

79-1031.01. It is the intent of the Legislature to ensure sufficient appropriations to the School District Income Tax Fund and to the Tax Equity and Educational Opportunities Fund to result in a statewide tax levy for each year's state aid calculation that would be less than the maximum tax levy specified in section 77-3442. To carry out the intent of this provision, the Legislative Fiscal Analyst shall calculate an amount which most accurately accounts for the growth in school district budgets, using the criteria established in section 30 of this act. The Appropriations Committee of the Legislature shall annually include ~~such~~ the amounts required by sections 29 to 31 of this act in its recommendations to the Legislature to carry out the requirements of this section.".

2. Correct the operative date section and repealer so that the sections added by this amendment become operative three calendar months after adjournment of this legislative session.

3. Renumber the remaining sections and correct internal references accordingly.
