(b)(i) The local system has shown an intent to merge, consolidate, or unify with at least one specified high school district by June 1, 1999, through a public affirmative vote by the school board of the high school district in the local system with a majority of the members of the school board signing an affidavit acknowledging that the intent of the signing board member is to proceed with a merger, consolidation, or unification involving the district on the board of which they are serving. Affidavits shall be filed with the State Department of Education on or before August 1, 1998. The temporary mitigation funds provided in this section shall be returned if the receiving district does not merge, consolidate, or unify prior to June 30, 2000. The temporary mitigation funds need not be returned if, prior to June 30, 2000, the receiving district is unable as determined by the State Committee for the Reorganization of School Districts to merge, consolidate, or unify despite good faith efforts because all districts with which the receiving district could reasonably be expected to merge, consolidate, or unify declined such merger, consolidation, or unification;

(ii) The local system is within the sparse cost grouping or the very sparse cost grouping pursuant to section 79-1007.02;

(iii) The local system contains more than one hundred seventy-five square miles; or

(iv) The local system is subject to loss of state aid due to clerical error as defined in subsection (4) of section 79-1016.

(2) If the payments due to local systems under this section exceed the amount of funds appropriated by the Legislature, the funds shall be distributed on a pro rata basis to such local systems. Payments shall be made on or before September 15, 1998. Payments to local systems that include Class I districts shall be divided proportionally among the districts in the local system based on the weighted formula students attributed to each district in the local system for the certification of state aid to be paid in school fiscal year 1998-99. The department shall identify local systems which qualify for payments under this section and shall distribute the funds to the districts in qualifying local systems.

(3) For purposes of this section:

(a) Local system has the definition found in section 79-1003;

(b) Property tax and state aid resources for school fiscal year 1997-98 means the sum of state aid distributed pursuant to the Tax Equity and Educational Opportunities Support Act for school fiscal year 1997-98 plus the product of the general fund common levy for school fiscal year 1997-98 multiplied by the local system's assessed valuation for 1997;

(c) Property tax and state aid resources for school fiscal year 1998-99 means the sum of state aid certified pursuant to the Tax Equity and Educational Opportunities Support Act for school fiscal year 1998-99 plus the product of a levy of one dollar and ten cents per one hundred dollars multiplied by the local system's adjusted valuation for 1998 as certified by the Property Tax Administrator on or before July 1, 1998; and

(d) Two-year percentage growth in students means the sum of the growth in students for school fiscal year 1996-97 and school fiscal year 1997-98 to be calculated by applying the methodology in section 79-1025 as it existed on January 1, 1998, except that growth in students is calculated for local systems rather than districts and may be negative for each school fiscal year for the purpose of adding the growth in students together from each school fiscal year but the two-year percentage growth rate shall be zero if the sum is negative.".

(h) Any other measure designed to reduce energy consumption;

(2) Energy financing contract means an agreement between an energy service company and a governmental unit for the implementation of one or more energy conservation measures in an existing facility in exchange for a portion of the energy cost savings produced. Energy financing contract includes, but is not limited to, a performance contract, shared-savings contract, guaranteed contract, and lease-purchase contract;

(3) Energy service company means a person or business experienced in the implementation and installation of energy conservation measures;

(4) Governmental unit means a school district, village, city, county, or department or agency of the State of Nebraska.

Sec. 2. Notwithstanding the procedures for public lettings in sections 73-101 to 73-106 or any other statute of the State of Nebraska relating to the letting of bids by a governmental unit, a governmental unit may enter into an energy financing contract with an energy service company pursuant to sections 1 to 5 of this act.

Sec. 3. (1) Prior to entering into an energy financing contract, a governmental unit shall obtain a written opinion from a professional engineer licensed in the State of Nebraska whose interests are independent from the financial savings outcome of the contract. The opinion shall contain a review of recommendations proposed by an energy service company pertaining to energy conservation measures designed to reduce energy consumption to the governmental unit.

(2) At least fourteen days prior to entering into an energy financing contract, a governmental unit shall furnish public notice of its intention to enter into such contract, the general nature of the proposed work being considered under the contract, and the name and telephone number of a person to be contacted by any energy service company interested in submitting a proposal to contract for such work. The governmental unit shall also directly solicit requests for qualifications from at least three energy service companies relating to the proposed contract.

(3) Upon receiving responses to its request for qualifications pursuant to subsection (2) of this section, the governmental unit may select the most qualified energy service company based on the company's experience, technical expertise, and financial arrangements, the overall benefits to the governmental unit, and other factors determined by the governmental unit to be relevant and appropriate. The governmental unit may thereafter negotiate and enter into an energy financing contract pursuant to section 4 of this act with the company selected based on the

criteria established by the governmental unit.

Sec. 4. (1) Any energy financing contract entered into by a governmental unit shall:

(a) Detail the responsibilities of a Nebraska-licensed professional engineer in the design, installation, and commissioning of the energy conservation measures selected by the governmental unit. Any design shall conform to all statutes of the State of Nebraska pertaining to engineering design and public health, safety, and welfare;

(b) Set forth the calculated energy cost savings during the contract period attributable to the energy conservation measures to be installed by the energy service company. Operational savings may be included in the total savings amount, not guaranteed, but approved by the governmental unit;

(c) Estimate the useful life of each of the selected energy conservation measures;

(d) Provide that, except for obligations on termination of the contract prior to its expiration, payments on the contract are to be made over time, within a period not to exceed fifteen years after the date of the installation of the energy conservation measures provided for under the contract;

(e) Provide that the calculated savings for each year of the contract period will meet or exceed all payments to be made during each year of the contract;

(f) Disclose the effective interest rate being charged by the energy service company; and

(g) In the case of a guaranteed savings contract, set forth the method by which savings will be calculated and a method of resolving any dispute in the amount of the savings. The energy service company shall have total responsibility for the savings guarantee for each guaranteed savings contract.

(2) An energy service company entering into an energy financing contract shall provide a performance bond to the governmental unit in an amount equal to one hundred percent of the total cost of the contract to assure the company's faithful performance. The energy service company shall also supply a guarantee bond equal to one hundred percent of the guaranteed energy savings for the entire term of the contract. For purposes of this section, total cost means all costs associated with the design, installation, modification, commissioning, maintenance, and financing of all energy conservation measures contemplated under the contract.

Sec. 5. An energy financing contract may extend beyond the fiscal year in which it becomes effective and shall allow the governmental unit to cancel the contract for the nonappropriation of funds. An obligation created by an energy financing contract entered into or indebtedness incurred pursuant to this section shall not constitute or give rise to an indebtedness within the meaning of any constitutional, statutory, or board debt limitation.

Sec. 6. Section 79-10,105, Revised Statutes Supplement, 1997, is amended to read:

79-10,105. The school board or board of education of any public school district may enter into a lease or lease-purchase agreement for the exclusive use of its individual jurisdiction for such buildings or equipment as the board determines necessary. Such lease or lease-purchase agreements may not exceed a period of seven years, except that lease-purchase agreements entered into as part of an energy financing contract pursuant to section 4 of this act may not exceed a period of fifteen years. All payments pursuant to such leases shall be made from current building funds or general funds. No school district shall directly or indirectly issue bonds to fund any such lease-purchase plan for a capital construction project exceeding twenty-five thousand dollars in costs unless it first obtains a favorable vote of the legal voters pursuant to Chapter 10, article 7. This section does not prevent the school board or board of education of any public school district from refinancing a lease or lease-purchase agreement without a vote of the legal voters for the purpose of lowering finance costs regardless of whether such agreement was entered into prior to July 9, 1988.".

2. On page 11, line 8, after "sections" insert "79-10,105," and after "81-1108.43" insert a comma.

After completion of the required period of full-time employment in Nebraska, the loan shall be forgiven.

(3) The commission has the administrative responsibility to track loan recipients and to develop repayment tracking and collection mechanisms. The commission may contract for services. When a loan has been forgiven, the amount becomes taxable income and the commission shall provide notification of such to the loan recipient, the Department of Revenue, and the United States Internal Revenue Service.

Sec. 9. The commission shall require an annual report on the Quality Work Force Academic Loan Program from each participating institution. On or before December 15 of each year, the commission shall submit a report to the Governor and the Clerk of the Legislature providing, at a minimum, information on an institution-by-institution basis, areas identified as high-priority work force needs, and the full-time or part-time status of loan recipients. (2) Loans shall be awarded only to part-time and full-time resident students who are enrolled in a degree, diploma, or certificate program at a participating institution. Loans shall not be awarded to students enrolled in customized courses and programs for which industry is providing over fifty percent of the financial support, either directly or indirectly, and for which the students are not being charged tuition or mandatory fees by the participating institution.

(3) Loans shall be funded from the Quality Work Force Academic Loan Program Revolving Fund and shall be awarded to students through participating institutions in conjunction with the commission first to students with financial needs with consideration thereafter to academic achievements and career goals in accordance with rules and regulations of the commission. As an additional criterion, when qualified loan applicants exceed the funds available, a participating institution shall give preference to students whose course or program work is identified as a high-priority work force need pursuant to section 5 of this act.

(4) Loan recipients, at or before graduation, with exceptions identified by the commission, must also complete an internship with a participating business. The commission shall define internship requirements based on the internship requirements of participating institutions.

(5) For full-time students enrolled in a degree, diploma, or certificate program, loans shall be awarded on an annual basis in an amount not less than one quarter of the student's tuition and mandatory fees combined. Loans shall not be awarded to individual students for a cumulative period exceeding five consecutive years. The commission shall develop appropriate policies for part-time students which are consistent with policies developed for full-time

students.

(6) Loans shall only be awarded through a participating institution to a qualified student. Participating institutions shall comply with the act and the rules and regulations of the commission. The commission may create an application and audit process for participating institutions.

(7) The amount of funding available shall be divided among all participating institutions annually for loans in compliance with the Quality Work Force Academic Loan Program based on a distribution formula as determined by the commission in accordance with its rules and regulations.

Sec. 7. The Quality Work Force Academic Loan Program Revolving Fund is created. The fund shall consist of appropriations by the Legislature, loan repayments, penalties, interest payments, contributions and fees from participating businesses, and any other funds received in the course of administering the program. The fund shall be administered by the commission. Any balance in the fund may be disbursed to participating institutions for loans under the Quality Work Force Academic Loan Program or for the costs incurred in administering the program. Any money in the fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act.

Sec. 8. (1) To be eligible for a loan under the Quality Work Force Academic Loan Program, a full-time student shall sign a contract with the commission at the time the loan is awarded. The contract shall require that if (a) the loan recipient is not employed full time in Nebraska for a time period equal to the number of years such loans were received, (b) the loan recipient has not completed the internship requirement with a participating business by the date of his or her graduation, (c) the loan recipient is not enrolled as a full-time student in a graduate program within six months after obtaining an undergraduate degree for which a loan from the program was obtained, or (d) the loan recipient does not complete the requirements for graduation within five consecutive years, the amount awarded must be repaid with interest at the rate fixed pursuant to section 45-103 as of the date the loan recipient signed the contract and an appropriate penalty as determined by the commission may be assessed. The commission may by rules and regulations provide for exceptions to the conditions based upon mitigating circumstances. For part-time students, the commission shall develop appropriate policies which are consistent with the policies established for full-time students. A student who is awarded a loan must agree in writing to use the loan for tuition and mandatory fees only.

(2) If the student (a) successfully completes the program of study, (b) completes a qualifying internship program, (c) becomes timely employed full time within the state, and (d)

otherwise meets the requirements of the contract, payments shall be suspended for the number of years that the applicant is required to remain employed in this state under the contract. After completion of the required period of full-time employment in Nebraska, parts of the cumulative loans shall be forgiven in annual increments equal to the amount of the loan received for an annual period beginning with the first loan.

(3) The commission has the administrative responsibility to track loan recipients and to develop repayment tracking and collection mechanisms. The commission may contract for services. When a loan has been forgiven, the amount becomes taxable income and the commission shall provide notification of such to the loan recipient, the Department of Revenue, and the United States Internal Revenue Service.

Sec. 9. The commission shall require an annual report on the Quality Work Force Academic Loan Program from each participating institution. On or before December 15 of each year, the commission shall submit a report to the Governor and the Clerk of the Legislature providing, at a minimum, information on an institution-by-institution basis, areas identified as high-priority work force needs, and the full-time or part-time status of loan recipients. AM4206

(Amendments to AM4189)

1. Insert the following new sections:

"Sec. 20. (1) The Office of Community Justice is established within the Department of Correctional Services.

(2) The Legislature finds that in Nebraska there is a critical lack of community-based sanctions that are alternatives to incarceration. The purpose of the Office of Community Justice is to promote the development of programs, facilities, and services that provide alternative sanctions and structured program options in the community to protect public safety, enhance offender

rehabilitation, and reduce recidivism.

(3) It is the policy of this state to establish and finance on a continuing basis, with appropriations from the General Fund and available federal funds, a statewide community justice program. The purposes of this program are to (a) provide appropriate sentencing alternatives, (b) enhance local services for persons charged with criminal offenses with the goal of reducing repeat criminal offenses, (c) encourage local management of community justice programs, (d) utilize the most effective criminal sanction to protect public safety, punish the offender, rehabilitate the offender, and reduce recidivism, and (e) make eligible offenders accountable to the community for their criminal behavior through a wide range of locally developed sanctions.

Sec. 21. For purposes of sections 20 to 26 of this act:

(1) Day reporting center means a nonresidential program providing intensive supervision to offenders by requiring daily personal contact with the center to verify the location of the offender and to establish the offender's daily itinerary;

(2) Eligible offender means a person who has been convicted of a felony or misdemeanor but does not include a person who has been found to be a habitual criminal under section 29-2221 or a substantial risk to the general public; and

(3) Post-incarceration supervision means release of an offender from a correctional facility under supervision prior to expiration of the offender's sentence.

Sec. 22. (1) The Director of Correctional Services shall appoint an administrator for the Office of Community Justice. The administrator shall be a person who has an appropriate background in community-based correctional programs and adequate training and experience in correctional administrative work.

(2) The office shall:

(a) Organize within the Department of Correctional Services as provided in section 83-933;

(b) Make available financial aid to assist cities, villages, and counties in implementing and operating community justice programs pursuant to section 23 of this act. Uses for the financial aid shall include, but not be limited to, preventive or diversionary correctional programs, standard or intensive probation, parole, work release, day reporting centers, home confinement or house arrest programs including electronic surveillance, restitution, victims' services, community services, mandatory substance abuse testing and treatment, and other community justice centers and programs for the care and treatment of eligible offenders;

evaluating community justice under comprehensive community justice plans and other rules and regulations as deemed necessary for the administration and implementation of sections 20 to 26 of this act. The rules and regulations shall be sufficiently flexible to foster the development of new and improved supervision or rehabilitation practices;

(e) Review, approve, disapprove, or modify all comprehensive community justice plans for participation in the community justice program under sections 20 to 26 of this act;

(f) Review, approve, or disapprove financial aid granted pursuant to sections 20 to 26 of this act to assist counties in implementing and operating community justice;

(g) Review the performance of cities, villages, and counties participating in community justice programs, report such performance to the local community justice boards and the director, and take necessary action when noncompliance with comprehensive community justice plans and operating standards exists. The local community justice board shall substantially comply with the provisions of its comprehensive community justice plan and the operating standards established by the office to remain eligible to participate;

## MESSAGES FROM THE GOVERNOR

April 7, 1998

Madam President, Mr. Speaker

and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Madam President and Senators:

After careful review, I have signed LB 320 and LB 320A, the graduated driver licensing bill, which takes effect January 1, 1999. This legislation will provide a more gradual and rigorous process to enable our youth to master and enjoy the driving privilege. The bill also improves age identification for would-be purchasers of alcoholic beverages. There can be no higher cause than protecting and nurturing those who constitute Nebraska's future.

However, I am gravely concerned that the late night driving curfew imposed by LB 320 will foreclose responsible entertainment and travel options for rural youth who turn 16 after December 31, 1998. In this One Nebraska, we do not all enjoy nearby movie theaters or fast food establishments. I have to agree with Brian Jackson, the student council president from Southern Valley High in Southwest Nebraska, who was on a school visit to the Capitol today: "It's a Big City bill."

Accordingly, I urge the Legislature to review the issue over the interim and take expeditious corrective action in January. The responsible thing to do is to lift the excessive burden on rural youngsters almost as soon as it takes effect.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

April 7, 1998

Madame President, Mr. Speaker,
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Madame President, Mr. Speaker,
and Members of the Legislature:

With this letter, I am returning LB 695 and LB 695A with my veto.

LB 695, as amended, also includes the provisions of LB 1136. The original provisions of LB 695 will require up to $6.8 million for each of two years beginning FY 1999-00. The LB 1136 language provides for annual allocations of $5.5 million, beginning in FY 1998-99. I will address both aspects of the final bill in this letter. The purpose of state aid to counties and local governments is to provide property tax relief for Nebraskans, within the reasonable limits of the state budget and measured against the various priorities advanced by the Legislature.

The Legislature seems to recognize that objective in words, if not in deeds,

with this bill. Section 7 of the LB 695 Final Reading copy creates a "County Property Tax Relief Program." Unfortunately, the bill does not deliver on this promise and the result is just one more attempt to portray legislation as property tax relief when it is merely increased state spending. Had the Legislature included a provision which would have required counties to pass savings on to property taxpayers, this bill may have measured up to its stated intent. As it stands now, this legislation requires further refinement in the next session.

Last year, the Legislature approved LB 180, setting aside $20 million for each of three years in a trust fund to be used for property tax relief. Already this year, I have signed legislation which will provide $9.7 million from that fund in aid to Educational Service Units.

Additional proposals for property tax relief appear to be moving toward passage, and LB 695 must be considered within this context. County and local governments will receive substantial relief as a result of LB 1108 provisions. These expenditures include $400,000 in increased state funding to benefit local libraries; $740,800 in care and treatment costs for the incompetent scheduled to stand trial; and $1,331,384 for the state to take over property tax assessment functions from five counties.

The passage of LB 695 would simply shift county jail costs to the state. Such a shift takes funds out from under the spending cap requirement that counties pass these savings on to Nebraskans in the form of property tax relief. As I suggested earlier in this letter, I am convinced the Legislature can address this issue next year, without any harm to the counties, since this bill does not propose to reimburse counties for prisoners until FY 1999-00.

I am also concerned that the complicated formula amended from LB 1136 may not reward counties where county boards make tough decisions to tighten budgets and lower property tax burdens. This language does not consider valuation per capita. In fact, 13 counties which are home to more than 67 percent of Nebraska's taxpayers receive absolutely no aid under the provisions of LB 1136 - not a single dollar - while more than $489,000 of the $5.4 million in the LB 1136 formula flows to just two counties, with a combined population of 24,301.

The formula for this calculation includes road miles, but these funds can be used for any purpose and not specifically for aid to county road budgets. This is general state aid to the counties.

Simply stated, LB 695 does not deliver true property tax relief to Nebraskans with respect to the underlying bill, nor in a manner which is fair and equitable with respect to the amendment. I urge you to sustain my veto.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

### MOTION - Return LB 512 to Select File

Mr. Will moved to return LB 512 to Select File for the following specific amendment:
AM4506

(Amendments to Final Reading copy)

1. Strike sections 1 to 6 and insert the following sections:

"Section 1. Section 23-3403, Reissue Revised Statutes of Nebraska, is amended to read:

23-3403. The public defender may appoint for such periods and at such salaries or compensation, with the approval of the county board, as many assistant public defenders, who shall be attorneys licensed to practice law in this state, secretaries, law clerks, investigators, and other employees as are reasonably necessary to permit him or her to effectively and competently represent the clients of the office. The public defender, with the approval of the county board, ~~subject to the approval and consent of the county board which~~ shall fix the ~~compensation of all such persons as well as the~~ budget for office space, furniture, furnishings, fixtures, supplies, law books, court costs, and brief-printing, investigative, expert, travel, and other miscellaneous expenses reasonably necessary to enable the public defender to effectively and competently represent the clients of the office.

Sec. 2. Section 43-284, Revised Statutes Supplement, 1997, is amended to read:

43-284. When any juvenile is adjudged to be under subdivision (3) or (4) of section 43-247, the court may permit such juvenile to remain in his or her own home subject to supervision or may make an order ~~committing the juvenile to (1) the care of some~~ placing the care and custody of the juvenile with (1) a suitable institution, (2) ~~inpatient or outpatient treatment at~~ a mental health facility or mental health program for inpatient or outpatient treatment, (3) ~~the care of some~~ a reputable citizen of good moral character, (4) ~~the care of some~~ an association willing to receive the juvenile embracing in its objects the purpose of caring for or obtaining homes for such juveniles, which association is ~~shall have been~~ accredited as provided in section 43-296, (5) ~~the care of~~ a suitable family, or (6) ~~the care and custody of~~ the Department of Health and Human Services.

Under subdivision (1), (2), (3), (4), or (5) of this section, upon a determination by the court that there are no parental, private, or other public funds available for the care, custody, education, and maintenance of a juvenile, the court may order a reasonable sum for the care, custody, education, and maintenance of the juvenile to be paid out of a fund which shall be appropriated annually by the county where the petition is filed until suitable provisions may be made for the juvenile without such payment. The Department of Health and Human Services Finance and Support shall reimburse the county on a monthly basis for fifty percent of the expenditures from such fund.

The amount to be paid by a county for education pursuant to this section shall not exceed the average cost for education of a public school student in the county in which the juvenile is placed and shall be paid only for education in kindergarten through grade twelve.

The court may enter a dispositional order removing a juvenile from his or her home only upon a written determination

that continuation in the home would be contrary to the welfare of such juvenile and that reasonable efforts have been made to prevent or eliminate the need for removal of the juvenile from his or her home and to make it possible for the juvenile to return.

Sec. 3. Section 43-286, Revised Statutes Supplement, 1996, is amended to read:

43-286. Notwithstanding the provisions of sections 43-251 and 43-253 to 43-257, no juvenile shall be confined in any jail as a disposition of the court. When any juvenile is adjudicated to be a juvenile described in subdivision (1), (2), (3)(b), or (4) of section 43-247:

(1) The court may continue the dispositional portion of the hearing, from time to time upon such terms and conditions as the court may prescribe, including an order of restitution of any property stolen or damaged when the same is in the interest of the juvenile's reformation or rehabilitation, and, subject to the further order of the court, may:

(a) Place the juvenile on probation subject to the supervision of a probation officer;

(b) Permit the juvenile to remain in his or her own home, subject to the supervision of the probation officer; or

(c) Cause the juvenile to be placed in a suitable family home or institution, subject to the supervision of the probation officer. If the court has committed the juvenile to the care and custody of the Department of Health and Human Services, the department shall pay the costs of the suitable family home or institution which are not otherwise paid by the juvenile's parents.

Under subdivision (1)(a), (1)(b), or (1)(c) of this section, upon a determination by the court that there are no parental, private, or other public funds available for the care, custody, and maintenance of a juvenile, the court may order a reasonable sum for the care, custody, and maintenance of the juvenile to be paid out of a fund which shall be appropriated annually by the county where the petition is filed until a suitable provision may be made for the juvenile without such payment. The Department of Health and Human Services Finance and Support shall reimburse the county on a monthly basis for fifty percent of the expenditures from such fund;

(2) Except as provided in section 43-287, the court may commit such juvenile to the Office of Juvenile Services, but a juvenile under the age of twelve years shall not be committed to the Youth Rehabilitation and Treatment Center-Geneva or to the Youth Rehabilitation and Treatment Center-Kearney unless he or she has violated the terms of probation or has committed an additional offense and the court finds that the interests of the juvenile and the welfare of the community demand his or her commitment. This minimum age provision shall not apply if the act in question is murder or manslaughter;

(3) When a juvenile is placed on probation or under the

supervision of the court and it is alleged that the juvenile is again a juvenile as defined by subdivision (1), (2), (3)(b), or (4) of section 43-247, a petition may be filed and the same procedure followed and rights given at a hearing on the original petition. If an adjudication is made that the allegations of the petition are true, the court may make any disposition authorized by this section for such adjudications; or

(4) When a juvenile is placed on probation or under the supervision of the court for conduct under subdivision (1), (2), (3)(b), or (4) of section 43-247 and it is alleged that the juvenile has violated a term of probation or supervision or that the juvenile has violated an order of the court, a motion to revoke probation or supervision or to change the disposition may be filed and proceedings held as follows:

(a) The motion shall set forth specific factual allegations of the alleged violations and a copy of such motion shall be served on all persons required to be served by sections 43-262 to 43-267;

(b) The juvenile shall be entitled to a hearing before the court to determine the validity of the allegations set forth pursuant to subdivision (4)(a) of this section. At such hearing the juvenile shall be entitled to those rights relating to counsel provided by section 43-272 and those rights relating to detention provided by sections 43-254 to 43-256. The juvenile shall also be entitled to speak and present documents, witnesses, or other evidence on his or her own behalf. He or she may confront persons who have given adverse information concerning the alleged violations, may cross-examine such persons, and may show that he or she did not violate the conditions of his or her probation or, if he or she did, that mitigating circumstances suggest that the violation does not warrant revocation. The revocation hearing shall be held within a reasonable time after the juvenile is taken into custody;

(c) The hearing shall be conducted in an informal manner and shall be flexible enough to consider evidence, including letters, affidavits, and other material, that would not be admissible in an adversary criminal trial;

(d) The juvenile shall be given a preliminary hearing in all cases when the juvenile is confined, detained, or otherwise significantly deprived of his or her liberty as a result of his or her alleged violation of probation. Such preliminary hearing shall be held before an impartial person other than his or her probation officer or any person directly involved with the case. If as a result of such preliminary hearing probable cause is found to exist, the juvenile shall be entitled to a hearing before the court in accordance with subdivisions (4)(b) and (4)(c) of this section;

(e) If the juvenile is found by the court to have violated the terms of his or her probation, the court may modify the terms and conditions of the probation order, extend the period

of probation, or enter any order of disposition that could have been made at the time the original order of probation was entered or, in the case of the juvenile adjudicated to be within the definitions of subdivision (3)(b) of section 43-247, the court, after considering the dispositions available, may in addition commit such juvenile to the Office of Juvenile Services under section 43-287; and

(f) In cases when the court revokes probation, it shall enter a written statement as to the evidence relied on and the reasons for revocation.

Sec. 4. Section 43-290, Revised Statutes Supplement, 1996, is amended to read:

43-290. It is the purpose of this section to promote parental responsibility and to provide for the most equitable use and availability of public money.

Pursuant to the petition filed by the county attorney or any reputable person in accordance with section 43-274, whenever the care or custody of a juvenile is given by the court to someone other than his or her parent, which shall include placement with a state agency, or when a juvenile is given medical, psychological, or psychiatric study or treatment under order of the court, the court shall make a determination of support to be paid by a parent for the juvenile at the same proceeding at which placement, study, or treatment is determined or at a separate proceeding. Such proceeding, which may occur prior to, at the same time as, or subsequent to adjudication, shall be in the nature of a disposition hearing.

At such proceeding, after summons to the parent of the time and place of hearing served as provided in sections 43-262 to 43-267, the court may order and decree that the parent shall pay, in such manner as the court may direct, a reasonable sum that will cover in whole or part the support, study, and treatment of the juvenile, which amount ordered paid shall be the extent of the liability of the parent. The court in making such order shall give due regard to the cost of study, treatment, and maintenance of the juvenile, the ability of the parent to pay, and the availability of money for the support of the juvenile from previous judicial decrees, social security benefits, veterans benefits, or other sources. Support thus received by the court shall be transmitted to the person, agency, or institution having financial responsibility for such study, treatment, or maintenance and, if a state agency or institution, remitted by such state agency or institution quarterly to the Director of Administrative Services for credit to the proper fund.

Whenever medical, psychological, or psychiatric study or treatment is ordered by the court, whether or not the juvenile is placed with someone other than his or her parent, or if such study or treatment is otherwise provided as determined necessary by the custodian of the juvenile, the court shall inquire as to the

availability of insured or uninsured health care coverage or service plans which include the juvenile. The court may order the parent to pay over any plan benefit sums received on coverage for the juvenile. The payment of any deductible under the health care benefit plan covering the juvenile shall be the responsibility of the parent. If the parent willfully fails or refuses to pay the sum ordered or to pay over any health care plan benefit sums received, the court may proceed against him or her as for contempt, either on the court's own motion or on the motion of the county attorney or authorized attorney as provided in section 43-512, or execution shall issue at the request of any person, agency, or institution treating or maintaining such juvenile. The court may afterwards, because of a change in the circumstances of the parties, revise or alter the order of payment for support, study, or treatment.

If the juvenile has been committed to the care and custody of the Department of Health and Human Services, the department shall pay the costs for the support, study, or treatment of the juvenile which are not otherwise paid by the juvenile's parent.

If no provision is otherwise made by law for the support or payment for the study or treatment of the juvenile, compensation for the study or treatment shall be paid, when approved by an order of the court, out of a fund which shall be appropriated by the county in which the petition is filed. The Department of Health and Human Services Finance and Support shall reimburse the county on a monthly basis for fifty percent of the expenditures from such fund.

The juvenile court shall retain jurisdiction over a parent ordered to pay support for the purpose of enforcing such support order for so long as such support remains unpaid but not to exceed ten years from the nineteenth birthday of the youngest child for whom support was ordered.

Sec. 5. Section 43-2,101, Revised Statutes Supplement, 1996, is amended to read:

43-2,101. Unless otherwise ordered by the court pursuant to section 43-290, each county shall bear all the expenses incident to the transportation of each juvenile from such county to the Department of Health and Human Services, together with such fees and costs as are allowed by law in similar cases. The fees, costs, and expenses shall be paid from the county treasury upon itemized vouchers certified by the judge of the juvenile court. The Department of Health and Human Services Finance and Support shall reimburse the county on a monthly basis for fifty percent of such expenditures.

Sec. 6. Any county required to appropriate or expend funds pursuant to section 43-284, 43-286, 43-290, or 43-2,101 shall be entitled to reimbursement from the Department of Health and Human Services Finance and Support on a monthly basis for fifty

percent of the expenditures made pursuant to such sections.

Sec. 7. This act becomes operative on July 1, 1998.

Sec. 8. If any section in this act or any part of any section is declared invalid or unconstitutional, the declaration shall not affect the validity or constitutionality of the remaining portions.

Sec. 9. Original section 23-3403, Reissue Revised Statutes of Nebraska, sections 43-286, 43-290, and 43-2,101, Revised Statutes Supplement, 1996, and section 43-284, Revised Statutes Supplement, 1997, are repealed.

Sec. 10. Since an emergency exists, this act takes effect when passed and approved according to law.".

2. On page 1, strike beginning with "juveniles" in line 1 through line 5 and insert "county expenditures; to amend section 23-3403, Reissue Revised Statutes of Nebraska, sections 43-286, 43-290, and 43-2,101, Revised Statutes Supplement, 1996, and section 43-284, Revised Statutes Supplement, 1997; to change provisions relating to public defender appointment and juvenile placement and transportation costs; to provide an operative date; to provide severability; to repeal the original sections; and to declare an emergency.".

## ATTORNEY GENERAL'S OPINIONS

Opinion No. 98022

| | |
|---|---|
| DATE: | April 8, 1998 |
| SUBJECT: | Constitutionality of LB 1126, the Buffer Strip Act; Unconstitutional Delegation of Legislative Authority to the Nebraska Pesticide Board |
| REQUESTED BY: | Senator John A. Hilgert<br>Nebraska State Legislature |
| WRITTEN BY: | Don Stenberg, Attorney General<br>Dale A. Comer, Assistant Attorney General |

You presented your opinion request regarding the constitutionality of LB 1126 to us late in the day on April 7, 1998, and it is our understanding that the bill will be considered by the Legislature on Final Reading sometime during the day on April 8, 1998. Obviously, the short time frame surrounding your opinion request provides us with little opportunity for detailed research regarding the question you presented and little time for consideration of the issues involved. Therefore, while we will accommodate your late request, our opinion must necessarily be brief.

LB 1126 creates the Buffer Strip Act. The bill pertains to the creation of buffer strips around cultivated land for the purpose of reducing the levels of pesticides and other materials introduced into surface water resources so as to improve water quality. The bill provides for the establishment of a Buffer Strip Incentive Fund and for various procedures whereby persons who wish to create a buffer strip around their property may apply to a natural resources district and the Department of Agriculture (the"Department") to do so. Persons establishing buffer strips under this procedure can be eligible for payments from the Buffer Strip Incentive Fund. The Department is specifically required to promulgate rules and regulations for the "enforcement and administration" of the Buffer Strip Act by Section 11 of the bill.

Section 4 of LB 1126 also creates the Nebraska Pesticide Board "to advise and provide recommendations to the department [of Agriculture] regarding the administration of the Buffer Strip Act, the use of proceeds from the Buffer Strip Incentive Fund, and the approval or disapproval of the buffer strip plan required in section 5 of this act." Section 5 of the bill then provides, in its entirety:

> The department shall devise a statewide buffer strip plan with its priority being the improvement of the quality of the domestic and public water supply. Upon the approval of the board, the department shall submit the plan to the Legislature by December 1, 1998.

Apart from a definition of the Nebraska Pesticide Board in Section 3 of LB 1126, there is no mention of that Board other than the provisions pertaining to the Board found in Sections 4 and 5 of the bill.

In your opinion request letter, you state that LB 1126 appears to delegate authority to the Nebraska Pesticide Board to adopt the statewide buffer strip plan without limitations and standards reasonably adequate, sufficient, and definite to guide the Board in exercising its authority. You then ask, "[p]lease advise at your earliest convenience whether such delegation to the board runs afoul of Nebraska's separation of powers provision, or any other provision which may be applicable due to a study of this topic being done." For the reasons discussed below, we do not believe that the provisions of LB 1126 unconstitutionally delegate legislative authority to the Nebraska Pesticide Board.

The Legislature may not delegate its legislative authority, power, or functions to an administrative or executive authority or to private individuals. ***Bosselman, Inc. v. State***, 230 Neb. 471, 432 N.W.2d 226 (1988); Neb. Const. art. III, § 1 (the Legislative authority of the state shall be vested in the Legislature). However, the Legislature may authorize an administrative or executive department to make rules and regulations to carry out an express legislative purpose, or to completely operate and enforce a law within designated limitations. ***Bosselman, Inc. v. State, supra***. Those designated limitations and the standards by which the powers

granted are to be administered must be clearly and definitely stated in the authorizing act. ***Id.*** Those standards must be reasonably adequate, sufficient, and definite to guide the agency in exercising the power conferred upon it and must enable those affected to know their rights and obligations. ***Id.*** If the Legislature provides reasonable limitations and standards for carrying out delegated duties, there is not an unconstitutional delegation of legislative authority. ***Id.*** The Nebraska Supreme Court has also indicated that the modern tendency is to be more liberal in permitting grants of discretion to an administrative agency in order to facilitate the administration of laws as the complexity of administration and governmental conditions increases. ***State ex rel. Douglas v. Nebraska Mortgage Finance Fund***, 204 Neb. 445, 283 N.W.2d 12 (1979).

Under the standards set out above, we cannot say that the provisions of LB 1126 unconstitutionally delegate legislative authority to the Nebraska Pesticide Board. For one thing, Section 11 of the bill provides directions as to the nature of the rules and regulations which must be promulgated by the Department for administration of the Buffer Strip Act, and presumably those considerations would govern the nature of the statewide buffer strip plan which must be devised by the Department and approved by the Nebraska Pesticide Board. More importantly, however, it is not clear that any act of the Pesticide Board in approving a statewide buffer strip plan under Section 5 of the bill will have any ultimate independent effect. Section 5 of the bill requires that the Nebraska Pesticide Board must approve a buffer strip plan devised by the Department, and upon such approval, "the department shall submit the plan to the Legislature by December 1, 1998." While Section 5 does not state the purpose of that submission, the Legislature is presumably free to take further action with respect to the plan, and the remaining provisions of LB 1126 are silent as to any effect of the statewide plan on the other administrative provisions of the bill. Therefore, we do not believe that LB 1126 involves an unconstitutional delegation of legislative authority in this area since it is not clear that there has even been any delegation of authority to the Nebraska Pesticide Board with respect to the statewide buffer strip plan at issue.

Opinion No. 98023

DATE: April 7, 1998

SUBJECT: Legality of Prospective Appointments Submitted

to the Legislature by the Governor

REQUESTED BY: Senator Jim Jones
Nebraska State Legislature

WRITTEN BY: Don Stenberg, Attorney General
Dale A. Comer, Assistant Attorney General

Your opinion request has to do with the Governor's ability to make "prospective appointments" to public office which are appointments made in anticipation of a vacancy which will occur in the future. You ask:

> I am requesting an opinion on gubernatorial appointments. The Legislature is confirming re-appointments before a term expires and is filing vacancies with new individuals months in advance of any vacancy, allowing two individuals to be appointed to the same position. Is it legally permissible for the Governor to fill a vacancy before one exists?

For the reasons discussed below, we believe that the Governor can make prospective appointments, so long as those appointments are made for offices where the term of office for the incumbent ends before the conclusion of the Governor's term of office.

Article IV, § 10 of the Nebraska Constitution provides, in pertinent part:

> The Governor shall appoint with the approval of a majority of the Legislature, all persons whose offices are established by the Constitution, or which may be created by law, and whose appointment or election is not otherwise by law or herein provided for; and no such person shall be appointed or elected by the Legislature.

We assume that the gubernatorial appointments referenced in your opinion request are appointments made under authority of this constitutional provision and the numerous Nebraska statutes consistent with it. We also assume, for purposes of this opinion, that the appointments at issue involve appointments necessary as a result of the end of a particular officer's term, and not appointments made necessary by a vacancy in office which has arisen as a result of resignation, death, or otherwise.

Our research has disclosed no Nebraska cases which deal specifically with the legality of prospective appointments. Nor have we found previous opinions from this office which specifically deal with that issue. However, the general rule in other jurisdictions is set out at 67 C.J.S. ***Officers*** § 39:

> The general rule is that a prospective appointment to fill a vacancy sure to occur in a public office, made by an officer who . . . is empowered to fill the vacancy when it arises, is a valid appointment, and vests title to the office in the appointee. . . . An appointment to

> office in anticipation of a vacancy therein is proper only where the officer or body making the appointment is still in office when the vacancy occurs, an officer clothed with the power of appointment to a public office has no right to forestall the rights and prerogatives of his successor by making a prospective appointment to fill an office, the term of which is not to begin until his own term and power to appoint have expired.

The rule is similarly described in 63C Am. Jur. 2d ***Public Officers and Employees*** § 88:

> As a general rule, an appointment cannot be made where no vacancy of office exists. However, this rule does not prevent appointments made in anticipation of a vacancy that ultimately occurs. In this regard, appointments which fill a prospective vacancy in office before the actual vacancy occurs are generally valid; a prospective appointment to fill an anticipated vacancy or one sure to occur in a public office, made by a person or body which, as then constituted, is empowered to fill the vacancy when it arises, is, in the absence of express law forbidding it, a valid appointment, which vests title to the office in the appointee. Or, as otherwise stated, the fact that the incumbent's term has not expired at the time an appointment is made to fill a vacancy in the office does not render the appointment invalid if it is to take effect at the expiration of the incumbent's term and the vacancy will occur during the appointing officer's term of office. . . .
>
> However, an appointment to office in anticipation of a vacancy is good only when the officer making the appointment is still in office when the vacancy occurs. If the term of the appointing body or officer will expire prior to, or the same time as, the vacancy will occur, then no power of prospective appointment exists; in this regard, a public officer or public body having a power of appointment cannot forestall the rights and prerogatives of a successor by making a prospective appointment to fill an office where the appointee's term is not to begin until the appointing power's own term has expired.

The general rule is amply supported by cases from other jurisdictions. ***Mullinax v. Garrison***, 296 S.C. 370, 373 S.E.2d 471 (1988); ***Georgia v. Suruda***, 154 N.J. Super. 439, 381 A.2d 821 (N.J. Super. Ct. Law Div. 1977); ***Tappy v. State of Florida***, 82 S.2d 161 (Fla. 1955); ***State ex rel. La Nasa v. Hickey***, 222 La. 17, 62 S.2d 86 (1952); ***State ex rel. Childs v. O'Leary***, 64 Minn. 207, 66 N.W. 264 (1896). The general rule also appears to have been applied in numerous cases where an appointment was necessitated by the end of an incumbent's term of office rather than by a vacancy in office by death, resignation, or otherwise. ***State ex rel. Norman v. Viebranz***, 19 Ohio St. 3d 146, 483 N.E.2d 1176 (1985); ***State ex rel. Oklahoma Tax Commission v. Mourer***, 596 P.2d 882 (Okla. 1979); ***Board of Education of McCreary County v. Nevels***, 551 S.W.2d 15 (Ky. Ct. App. 1977); ***Faciane v. Bosco***, 236 So.2d 601 (La. Ct. App. 1970).

We believe it likely that our courts would adopt the general rule set out in the authorities discussed above. This is particularly true since the prospective appointment process has apparently been used before in Nebraska. For example, in ***State ex rel. Johnson v. Hagemeister***, 161 Neb. 475, 478, 73 N.W.2d 625, 628 (1955), the Nebraska Supreme Court indicated that then-Governor Robert Crosby had reappointed a member of the Board of Education of the State Normal Schools to that board in October, 1954, for a term of office commencing in January, 1955. In ***Hagemeister***, the Court did not discuss the propriety of that prospective appointment, but it is apparent from the case that the process was used.

Consequently, we believe that the Governor can make prospective appointments for offices where the incumbent's term of office ends at some point in the future, so long as the incumbent's term of office ends before the Governor's term of office.[1] For example, if the term of office for an incumbent member of a state board ends in August, 1998, then Governor Nelson may make a prospective appointment for that office now. On the other hand, if the term of office for that same incumbent member of a state board ends in February, 1999, after the end of Governor Nelson's term of office, then that appointment may not be made prospectively at this time.

Since appointments by the Governor under art. IV, § 10 of the Nebraska Constitution must also be approved by the Legislature, we assume that your opinion request pertaining to the legality of prospective appointments by the Governor also involves the issue of how and when the Legislature is constitutionally required to deal with such appointments. We believe that question is governed by the Legislature's own rules.

We have previously indicated that, in our view, temporary gubernatorial appointments to fill vacancies made under art. IV, § 12 of the Nebraska Constitution must be acted upon by the Legislature at its next session, or the Legislature loses its right to disapprove those appointments. Op. Att'y Gen.

[1] In addition to the provisions of art. IV, § 10 of the Nebraska Constitution, there are numerous Nebraska statutes which deal with the appointment of specific officers by the Governor. We would note that our conclusion with respect to your question regarding the propriety of prospective appointments pertains to the appointment process in general, and might be different to the extent that a particular statute establishes specific appointment procedures and time frames for an appointment to a particular office.

No. 90010 (February 20, 1990); 1973-74 Rep. Att'y Gen. 75 (Opinion No. 56, dated May 21, 1973). On the other hand, we have also indicated that appointments made under art. IV, § 10 of the Nebraska Constitution are not subject to any constitutional provisions which require legislative action at the next session of the legislature. Op. Att'y Gen. No. 90010 (February 20, 1990). Instead, the time frame for approval of appointments under art. IV, § 10 is governed by the Legislature's own rules, since art. III, § 10 of the Nebraska Constitution allows the Legislature to determine the rules of its own proceedings, and this power extends to the transaction of any legislative business and to the performance of any duty conferred upon the Legislature by the Constitution. ***State ex rel. Johnson v. Hagemeister, supra***; Op. Att'y Gen. No. 90010 (February 20, 1990). Therefore, because the appointments at issue are appointments at the end of a term under art. IV, § 10, we believe that the time frames for the legislative appointment approval process, including when and how the appointments are considered, are governed by the rules of the Legislature.

Sincerely yours,
DON STENBERG

## MESSAGES FROM THE GOVERNOR

April 8, 1998

Patrick J. O'Donnell
Clerk of the Legislature
State Capitol, Room 2018
Lincoln, NE 68509

Dear Mr. O'Donnell:

Engrossed Legislative Bills 1010, 1134, 1134A, 1228, 1229, 1333, and 1333A were received in my office on April 2, 1998.

These bills were signed by me on April 8, 1998, and delivered to the Secretary of State.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

April 8, 1998

Madame President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Madame President, Mr. Speaker
and Members of the Legislature:

With this letter, I am returning LB 1228A with a line-item veto. This legislation also provides for the implementation of an annual statewide assessment beginning in the school year 2000-2001. I am vetoing $1,728,000 General Funds provided by the Legislature for Fiscal Year 1999-00 for carrying out the provisions of the assessment program in LB 1228.

My decision allows the Department of Education time to prepare a Request For Proposal (RFP) and receive bids from national testing services on the cost of potential testing instruments. The department can return to the Legislature with this information and a more precise estimate of the costs for the implementation of this testing program.

I believe the state will benefit from taking more time to collect and review data on the implementation of a statewide assessment before committing the funding for this program.

I encourage you to sustain my line-item reduction of LB 1228A.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

Madame President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Madame President and Senators:

With this letter, I am returning LB 1229A with line-item reductions. I believe LB 1229 is important in increasing quality educational opportunities; however, in lieu of recent increases in funding for education, I recommend appropriating $3,025,500 for FY 1998-99 and $3,092,850 for FY 1999-00 of the funds provided by the Legislature for accelerated and differentiated curriculum programs funded under LB 1229.

I believe that reducing the recommended appropriation of $6,025,500 by $3 million will leave intact adequate funding for local gifted education programs, taking into consideration that additional funding sources exist for these programs. Since FY 1996-97, state aid to schools has increased by $145,445,902, and new spending for education I have supported this year equals $11,725,000.

Under LB 1110A, local school districts and systems may receive assistance from Educational Service Units which received $9.7 million for funding core services including instructional materials. New funding opportunities are also created under LB 1228 funded by the Education Innovation Fund, which allows schools to receive quality incentive payments

which may be spent on programs for high ability learners. Schools may also apply for Education Innovation Fund competitive grants to receive funding to create accelerated and differentiated curriculum programs. Approximately $9.4 million will be available for schools from the Education Innovation Fund for FY 1998-99.

I believe increased educational funding from these sources and my recommendation for funding under LB 1229A will enable schools to provide quality educational opportunities for our state's best and brightest.

I encourage you to sustain my line-item reduction of LB 1229A.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

April 8, 1998

Madame President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Madame President, Mr. Speaker
and Members of the Legislature:

With this letter, I am returning LB 1120 and LB 1120A with my veto.

The original version of LB 1120 included many worthy provisions to update and improve the statutes governing the operation of fire protection districts. However, that measure was amended by the Government, Military and Veteran Affairs Committee to include a funding mechanism originally introduced as LB 1119. The primary legislation was amended further on the floor of the Legislature to include LB 947, which creates the Task Force for the Nebraska State Radio Communication System.

My objections to LB 1120 are similar to those I have expressed on other legislation. First, the State General Fund is compromised by the redirection of the insurance premium tax receipts for state aid to local fire protection districts. Second, LB 1120 represents a shift of financial responsibility from local governments to the State which will require additional amounts in the future without provisions necessary to deliver on promises of property tax relief.

I urge the members of the Legislature to sustain these vetoes.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

## PROPOSED RULES CHANGE

Messrs. Wehrbein and Wickersham offered the following proposed rules change:

1) New Rule to Section 8, Rules of the Nebraska Unicameral Legislature (1998):

Beginning with the Legislative day following the reporting of Appropriations bills to General File, there shall be attached to the daily

agenda of the Legislature a General Fund Financial Status, prepared by the Legislative Fiscal Analyst under the supervision of the chair of the Appropriations Committee. The Financial Status shall include current estimates of beginning funds available, plus estimated revenue, less the Appropriations Committee recommended budget and express obligations for the biennial period under consideration, to arrive at a calculated variance from the minimum reserve for the General Fund as specified in law. The Financial Status shall also include a listing of other legislation on Select File and Final Reading, and Speaker's Major Proposals on General File that would deduct from or add to General Funds available above the minimum reserve requirement, should the bills pass.

In addition to data for the budget period under consideration, the Financial Status shall include data for the ensuing two years following the biennial budget period. Such data shall consist of projections of available balances, annual net receipts and annual expenditures, based on the assessment of the Legislative Fiscal Analyst of the provisions of current law as it may relate to projected revenues and expenditures. Prior to attaching the first Financial Status to the agenda, the data and assumptions for the ensuing years beyond the budget biennium and methods for arriving at estimates shall be reviewed and agreed to by the Chair and Vice Chair of the Appropriations and Revenue committees, and one committee member from Appropriations and Revenue committees designated by their respective committee chair.

Referred to the Rules Committee.

## PRESIDENT SIGNED

While the Legislature was in session and capable of transacting business, the President signed the following bills: LBs 1321, 1321A, 1346, 1354, 1354A, 1362, 1104, 1104A, and 1028.

## RESOLUTION

**LEGISLATIVE RESOLUTION 483.** Introduced by Judiciary Committee: Brashear, 4, Chairperson; Abboud, 12; Chambers, 11; Hudkins, 21; Dw. Pedersen, 39; Robak, 22.

PURPOSE: To initiate a comprehensive study of the court structure in Nebraska. During the last two sessions of the Legislature, numerous bills have come before the Judiciary Committee seeking to change the structure of the court system in various ways. Although some individual proposals merited advancement to General File, the committee has generally taken the position that (1) such restructuring ought not to take place in a "piecemeal" fashion without a comprehensive examination of the entire system and (2) such restructuring ought to primarily advance the effective administration of justice rather than merely seek property tax reduction.

This study shall consider issues presented by the following proposals and related issues:

(a) Consideration of the proper role of each of the courts: With respect to the county courts, the proper jurisdiction thereof and continued making of procedures parallel to district courts; with respect to district courts, the potential for elimination of appellate jurisdiction; with respect to both courts, continued implementation of concurrent jurisdiction in domestic relations matters; with respect to the Court of Appeals, the appropriate role and size thereof, including LR 24CA, LB 573, LB 1021, LB 1283;

(b) Consideration of the proper status and funding of administrative costs and ancillary personnel, including the possibility of merging clerks of the court and creating district attorney and district public defender offices, including LB 216, LB 507, LB 817, LB 818, LB 1218; and

(c) Consideration of the distribution of judicial resources, the appropriate size of judicial districts, and the appropriate electorate for judicial retention elections, including LB 404, LB 1069, LR 310CA.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIFTH LEGISLATURE OF NEBRASKA, SECOND SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

Resolutions specified in Section 2 shall be considered and adopted in the same manner as bills.

## MESSAGES FROM THE GOVERNOR

April 14, 1998

Madam President, Mr. Speaker,
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Madam President, Mr. Speaker,
and Members of the Legislature:

I am returning LB 1161 and LB 1161A to you without my signature and with my objections.

LB 1161 is a conglomeration of many bills-what has become known as a "Christmas Tree." This ability that the Legislature has for joining many diverse ideas into one bill has both good and bad aspects. The good part for the Legislature is it enables many bills to reach my desk that would otherwise not make it, the bad part for a Governor is that each bill cannot be judged on its own merits but rather on the merits of the entire package.

There are aspects to this LB 1161 that are acceptable. Improving the Leaky Underground Storage Tank fund and providing for third-party claims is a good idea, however, the method chosen for funding this idea is unacceptable. Motor vehicle fuel tax streamlining, placing monitoring wells along the Republican River and scrap tire provisions included in the bill are also laudable goals and if they reached my desk as single bills they probably would have been signed.

However, LB 1161 and 1161A increases spending and taxes by almost $4,000,000 per year. Rather than a one-time infusion of money into the

LUST Fund, a continuous "tax" or "fee" increase is made on all petroleum products.

LB 1161 also needlessly expands state government by retaining the LUST task force and creating a new Geologist Board. There is no showing that the existence of either board is necessary at this time. Further, there appears to be a complete failure of proof that Geologists in some way need regulating.

The bill also needlessly promotes more regulation and bureaucracy. Even if one was to exclude the Geologist portion of the bill, which is nothing but regulation and bureaucracy, aspects of the well-head protection portions and the LUST portions of the bill seemingly take us in the wrong direction. The Department of Environmental Quality (DEQ) should not have to approve areas and controls developed by local well-head protection districts if the goal is to have local control of this issue. Likewise, the requirement to provide briefings on risk-based corrective actions by DEQ is a needless time consuming and bureaucratic exercise.

There was renewed interest during part of the legislative session in the Constitutional provisions in Nebraska prohibiting a bill from containing more than one subject. There appears to be no relation to the motor vehicle fuel tax provisions and the rest of the bill. The bill would, therefore, appear to violate Article III, Section 14 of the Nebraska Constitution.

As I have done for the last eight years, I will continue to fight needless taxation and spending. I will continue to fight needless expansion of state government, more regulation, and more bureaucracy.

I urge members of the Legislature to sustain my veto.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

April 14, 1998

Madam President, Mr. Speaker,
and Members of the Legislature
State Capitol Building
Lincoln, NE 68509

Dear Madam President and Senators:

I am returning LB 1063A with my signature and a line item reduction. LB 1063 puts in place the new Children's Health Insurance Program, established in conjunction with the new federal Title XXI program. The bill also provides some relief to families who must access the Comprehensive Health Insurance Program in order to purchase insurance for their children with pre-existing health conditions; and it enables expedited sharing of immunization information with schools and day-care providers.

I am pleased and excited about our ability to assist low income working families to obtain health care coverage for their children. By allowing children to access a medical home where they receive consistent, preventative health care, we are giving them protection against more serious

conditions which can lead to expensive treatment and unnecessary suffering. Plans are underway to make the program as visible as possible, so that those families who need this coverage will learn about it and be quickly and efficiently enrolled.

LB 1063A contains federal funding for the Children's Health Insurance program and Nebraska's match for those dollars, provided through the LB 1070 Health Care Trust Fund. It also contains funds for administering the new program and additional aid money to give the children already on Medicaid the same continuous coverage that new youngsters coming into the program will have. My line-item veto reduces the General Fund appropriation to Program 348 by $1,310,663 in FY 1998-99 and $2, 062,249 in FY 1999-00. Adequate appropriations exist within Health and Human Services-Finance and Support to handle these new obligations without additional General Funds.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

April 14, 1998

Madam President, Mr. Speaker,
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Madam President, Mr. Speaker and Members of the Legislature:

I am returning LB 656A to you without my signature and with my objections.

LB 656 contains some good provisions and I support the concept of local control over land use decisions. The formation of the Niobrara Scenic River Local Management Council, as provided in the General Management Plan prepared by the National Park Service, is a significant step by the federal government in recognizing local interests in federal designations.

However, it is inappropriate for the State of Nebraska to fund what is a federally designated component of the Wild and Scenic Rivers System where the ultimate management decisions lie solely in the purview of the National Park Service. I also take issue with the idea of having the State funding decrease to zero over the next three years presumably to allow the federal government time to get their funding mechanism in place. This amounts to a bail out of the federal government's responsibility over the next three years.

I will continue to support local control over land use decisions, but I cannot reconcile the use of State Funds for a federal responsibility.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

April 14, 1998

Madame President, Mr. Speaker,
and Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Madame President, Mr. Speaker,
and Members of the Legislature:

With this letter, I am returning LB 1193A with line-item reductions. These vetoes amount to a total of $75,825 in General Funds for FY1998-99 and FY1999-2000.

There is no clear indication in LB 1193 that the legal work necessary to satisfy the provision of the bill warrants an additional Assistant Attorney General. I believe that the additional costs incurred in carrying out the Legislature's directive can be absorbed by the existing budget.

The Secretary of State's funding to carry out the provisions of LB 1193 has been appropriated from the Corporation Cash Fund, a measure of which I approve. If in the future, the Attorney General determines that additional costs are indeed warranted, then the regular budget process should be followed. At that time, the Legislature may consider an appropriate funding mechanism to carry out this directive.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

Dear Mr. O'Donnell:

April 18, 1998

Madam President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Madam President and Senators:

I am delivering LB 341 and LB 341A to the Secretary of State without my signature and with my objections.

Effective July 1, 1998, LB 341 would remove advocacy, services and regulatory functions for the blind and visually impaired from the Health and Human Services (HHS) system and place them in a separate new state agency, the Commission for the Blind and Visually Impaired. Unfortunately, this is virtually guaranteed to undermine, rather than enhance those very important services.

Separating the service function would cut the new agency off from HHS indirect costs currently being used as match for federal funds. In exchange, less than $20,000 in General Funds is made available, which would cause the forfeiture of at least $100,000 in federal funds. This loss could increase to $600,000 annually in federal funds available for services for the blind, based on the updated estimate of the value of support provided through the

HHS system. Proponents of this measure have asserted that a separate agency will be more successful in securing grants, but it is doubtful that such efforts could close this gap. In addition to losing access to these additional federal funds, a separate agency would also have to assume new costs, such as rent, personnel functions, training, accounting, computer, and legal support, thereby further reducing funds available for services.

In short, LB 341 could send existing programs for the blind into a deficit funding situation. That surely is not what the proponents wish to see happen. All Nebraskans should be concerned about a proposed change in organization that promises one or both of two serious results: fewer services for the blind and visually impaired citizens of our state and major increases in state spending.

I recognize that Nebraska's blind and visually impaired community may feel disadvantaged in state government as a result of not having a separate advocacy agency. Also, there is indeed a risk that a comparatively small program can get "lost" within a much larger agency. I am asking that the HHS System make a priority effort to ensure that the advocacy message of the blind and visually impaired is reinforced. Further, I would call upon the blind and visually impaired to work with the other service functions within HHS to ensure that top-quality, highly responsive services for citizens needing assistance are made available in an integrated, cost effective manner. By continuing the focus on quality and access, and by taking advantage of the breadth and depth of resources available within the HHS network, it will be possible to offer the most effective services for Nebraskans with special needs.

Sincerely,
(Signed) E. Benjamin Nelson

Madame President, Mr. Speaker,
and Members of the Legislature
State Capitol

Dear Madame President, Mr. Speaker,
and Members of the Legislature:

With this letter, I am delivering LB 1293 and LB 1293A to the Secretary of State without my signature and with my objections.

Many of our communities and rural areas rely on volunteers for fire and rescue services. The courage and dedication of those committed individuals is noble. Despite those positive aspects, the service benefit created by LB 1293 for volunteer personnel should not be a state financial obligation. In addition, the creation of a new state bureaucracy, the Volunteer Service Award Benefit Review Board, offsets my activities to reduce the size of government.

A retirement benefit designed to encourage the participation of volunteer fire and rescue personnel is an excellent idea. However, such a benefit should be financed by the units of government that receive those services.

Sincerely,
(Signed) E. Benjamin Nelson

and Members of the Legislature
State Capitol

Dear Madam President, Mr. Speaker,
and Members of the Legislature:

I signed and delivered LB 1259 to the Secretary of State with a great deal of reservation.

The concept of Enterprise Zones and their benefit to distressed communities in Nebraska is of importance to me.

The purpose of Enterprise Zones was to encourage the growth of business and other economic development in blighted areas. However, since the legislation was past five years ago, the Enterprise Zone Board has faced obstacles which have prevented the Board from achieving its purpose. In an effort to break the log jam standing in the way of the citizens who could benefit from this legislation, I am signing LB 1259.

It is my hope that efforts will continue in the future to improve this legislation.

Sincerely,
(Signed) E. Benjamin Nelson

Madame President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Madame President, Mr. Speaker
and Members of the Legislature:

I am delivering LB 1175 to the Secretary of State without my signature and with my objections.

I clearly understand LB 1175 is an important piece of legislation for Nebraska's schools, and I fully support the original technical provisions of

this bill and its intentions. However, I cannot support language in LB 1175 which changes the intentions of the State regarding policy to create greater efficiencies in political subdivisions and provide property tax relief for the citizens of Nebraska. I am always concerned with "Christmas tree" bills, and in this case, unfortunately, the last ornament collapsed the whole tree.

LB 1175 changes the formula to calculate state aid to schools and states the Legislature shall "fully fund" the amount certified. This formula alters what I believe Nebraskans expect in encouraging government to explore ways in which to become more efficient. Spending limitations were put into place to provide property tax relief, not to create a tax shift to the State. LB 806 was designed to address the changing financial challenges schools will face, and current statute allows the flexibility the State needs to determine the appropriate spending obligations of the State in the future.

State support for schools has continued to increase, and since 1992, state aid to schools has increased by 86 percent. In FY 1998-99, the State will provide increase of $16,016,250 due to growth in General Fund receipts and $110 million pursuant to LB 806 for a total of over $591 million in state aid to schools. The answer to providing tax relief and creating efficiencies in government cannot be answered by increasing the obligations of the State. The policy decisions regarding the State's obligations to provide additional state aid to schools when the $1 levy limits go into effect in 2001 should be made at that point in time. I believe more consideration is needed before the State should make a policy shift as exists in LB 1175.

Sincerely,
(Signed) E. Benjamin Nelson

Madam President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Madam President and Senators:

I am delivering LB 752A to the Secretary of State without my signature and with my objections.

LB 752A would provide salary increases ranging from 31 percent to 16 percent to Nebraska's elected constitutional officers effective January 7, 1999. Coming at a time when state government needs to show restraint, those levels of increase, along with the $117,500 annual increase in tax-funded expenditures they require, are unacceptable.

Not only was this proposal not prioritized, it lay dormant for the better part of two legislative sessions. Its absence from the legislative agenda did not arouse public debate. It did not figure in campaign speeches or discussions with voters. All the candidates knew before filing that Nebraska offers modest salaries to those who occupy its most privileged state offices.

Ironically, the proposal, originally known as LB 14, was suddenly propelled to Select File by the very critics of the procedure of gutting an unneeded bill and replacing it with one that is stuck at the bottom of the bill order.

Much is made of the "window of opportunity" represented by a year in which an incumbent Governor is not up for reelection. I see it as a window of responsibility. There are good points on both sides of this important issue, but a meaningful public debate did not occur during the legislative session. The responsible step is to engage the public in a lively discussion of the issues. If a strong case for executive salaries that come closer to those in other states emerges from that public discussion, the Legislature can act with confidence. However, absent broad discussion, it is neither responsible nor good public policy to approve major raises simply because the opportunity is there.

Sincerely,
(Signed) E. Benjamin Nelson

Madame President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Madame President and Senators:

I am delivering LB 1266 to the Secretary of State with my signature.

LB 1266 provides that the death penalty shall not be imposed upon any person with mental retardation. The bill also provides, for both those currently on death row and those convicted of a capital offense after the effective date of the bill, procedures to obtain a ruling by the court on the matter. After a careful review of this legislation, I have determined signing LB 1266 is in the best interest of the state.

I continue to support the death penalty, and believe it to be an appropriate penalty in certain cases. However, I recognize that certain statutory limitations on the death penalty are necessary to ensure a just application of the law. Imposition of this most severe penalty must be limited to offenders who are the most culpable. Like eleven other states and the federal government (in two separate pieces of legislation in 1988 and 1994), the Nebraska Legislature has determined that the death penalty should not be imposed upon those with mental retardation. I agree, and therefore, I have signed this bill.

Concerns have been expressed that this bill would result in additional delays in death penalty cases. I share these concerns, but I am satisfied that there will be no significant delays as a result of this legislation. With respect to future cases, this bill does not change the number of appeals available. For those currently on death row, a procedural limitation in the bill requires that any motion seeking to preclude the death penalty based on mental

retardation be brought within one hundred twenty days. Should person currently on death row invoke these provisions, the matter, in all likelihood, will be resolved before any additional delay would occur. Further, I have been informed that the Nebraska County Attorneys Association may, if changes are needed to this law, pursue legislation next session.

I would urge the Legislature to take action to address the issue of delays in all capital punishment cases. The Attorney General has rightly noted that "the biggest problem we have with the death penalty in Nebraska today is that there is literally no limit to the number of 'appeals' (actually post-conviction proceedings) that may be filed." Op. Atty. Gen. 97025. With the Attorney General, I supported a bill last session, LB 390, which would have limited the number of post-conviction proceedings which could be filed. I continue to support such legislation and would encourage its adoption.

Sincerely,
(Signed) E. Benjamin Nelson
Governor
