part of this agreement was that we will have a final printout to show the ramifications of what we have done, that is one thing. A second thing was, of course, the 100 million or whatever is no longer in 806, but it is in the A bill. So, we will have that discussion. This discussion doesn't really impact that. But we will have that final printout for you before Final Reading.

SENATOR KRISTENSEN: Senator Bohlke, Senator Crosby had yielded you the remainder of her time. Do you wish to use the rest of the time or do you wish to waive off? Senator Bohlke.

SENATOR BOHLKE: I'm sorry.

SENATOR KRISTENSEN: Senator Crosby had yielded you the rest of her time, if you want to use it you have approximately three minutes.

SENATOR BOHLKE: No, I'll yield it back to the Chair.

SENATOR KRISTENSEN: Thank you. Senator Dierks.

SENATOR DIERKS: Thank you Mr. President and members.   I am reminded again by the exchange there with Senator Crosby that you are asking, you are asking us to take a giant leap in faith when we don't know what this...the bottom line is on this amendment.   When we get this amendment ready to advance, when 806 is ready to advance, we don't know what these figures are and I think we deserve to have that opportunity. I object to us doing something in the blind, and that is what we are doing with this bill.   If we advance it today we need...we are saying, we are taking everything for granted. We don't know what it is doing, but we are going to trust you. I don't think that we can do that.   I don't think we should do it to our constituents and I don't think that we should do it to ourselves. I have got a bracket motion up there that will bracket the bill until Tuesday.   By that time we will have the results from the amendments that have been put up, and as soon as we vote on this amendment, that bracket motion will come up and I would urge your support of that bracket motion.   I think it makes good sense, I think it tells the people involved here that we need to know exactly what we are doing. We can't be doing these things blindly, and I would hope that that message should come across
