The document shall specifically describe the department-approved personalized program plan and the specific goals the department expects the committed offender to achieve. The document shall also contain a realistic schedule for completion of the department-approved personalized program plan. The department-approved personalized program plan shall be fully explained to the committed offender. During incarceration, the

committed offender shall comply with the department-approved personalized program plan and the department shall provide programs to allow compliance by the committed offender with the department-approved personalized program plan.

Programming may include, but is not limited to:

(iii) Mental health and psychiatric treatment, including criminal personality programming;

(iv) Constructive, meaningful work programs; and

(v) Any other program deemed necessary and appropriate by the department.

(b) A modification in the department-approved personalized program plan may be made to account for the increased or decreased abilities of the committed offender or the availability of any program. Any modification shall be made only after notice is given to the committed offender. Intentional failure to comply with the department-approved personalized program plan by any committed offender as scheduled for any year, or pro rata part thereof, shall cause disciplinary action to be taken by the department resulting in the forfeiture of up to a maximum of three months good time for the scheduled year.

(2) The chief executive officer of a facility shall reduce the term of a committed offender by six months for each year of the offender's term and pro rata for any part thereof which is less than a year.

The total reductions shall be credited from the date of sentence, which shall include any term of confinement prior to sentence and commitment as provided pursuant to section 83-1,106, and shall be deducted from the maximum term, to determine the date when discharge from the custody of the state becomes mandatory.

(3) While the offender is in the custody of the department, reductions of terms granted pursuant to subsection (2) of this section may be forfeited, withheld, and restored by the chief executive officer of the facility with the approval of the director after the offender has been consulted regarding the charges of misconduct, except that no reduction of term previously granted may be forfeited or withheld solely on the basis that the offender had brought an action or appeal in a court of this state that was dismissed on the grounds that it was frivolous or malicious or that it failed to state a claim upon which relief may be granted.

(4) While the offender is in the custody of the board, reductions of terms granted pursuant to subsection (2) of this section may be forfeited, withheld, and restored by the administrator with the approval of the director after the offender has been consulted regarding the charges of misconduct or breach of the conditions of parole. In addition, the board may recommend

such forfeitures of good time to the director.

(5) Good time or other reductions of sentence granted under the provisions of any law prior to July 1, 1996, may be forfeited, withheld, or restored in accordance with the terms of the Nebraska Treatment and Corrections Act.

RESOLUTIONS

LEGISLATIVE RESOLUTION 111. Introduced by Dw. Pedersen, 39.

PURPOSE: The purpose of this resolution is to determine the feasibility of the transferability of credits of approved law enforcement training courses from the community colleges, the state colleges, or the University of Nebraska to the Nebraska Law Enforcement Training Center.

It is imperative that Nebraska maintain sufficient numbers of highly trained and certified law enforcement officers and that this training and certification be provided at the most reasonable cost. Currently, the Nebraska Law Enforcement Training Center is the only authorized training center in Nebraska that may train and certify law enforcement officers in the state. All individuals interested in becoming law enforcement officers must attend all academic and physical training classes at the center.

No credit is given for academic courses successfully completed at any public postsecondary educational institution in the state. This presents a hardship for many individuals and the local communities that are paying for the training because the student is forced to retake many academic courses at the training center that had been completed in the process of obtaining an associate or bachelor's degree. If applicable academic courses were allowed to transfer to the training center, significant time and monetary savings could be realized by the individuals, the communities, and the center.

In addition, questions have been asked as to whether or not other courses, including driving, firearms training, and other necessary law enforcement physical training could be offered at community colleges, state colleges, or the University of Nebraska with certification only being provided by the training center.

Because the Legislature is committed to supporting collaborative and cooperative activities that will benefit Nebraska taxpayers and communities and the state, and because the Legislature is dedicated to eliminating as much needless duplication as possible, it is important that a study be conducted to determine the feasibility of the transfer of credits from any of Nebraska's public postsecondary educational institutions to the Nebraska Law Enforcement Training Center.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

RESOLUTIONS

LEGISLATIVE RESOLUTION 121. Introduced by Janssen, 15; Hartnett, 45; Dickey, 18.

PURPOSE: Consumer spending on charitable gaming in Nebraska has declined more than thirty-two percent in the past five years. This has resulted in reductions in funds available for the charities and for cities and counties which are the beneficiaries of charitable gaming. There are a number of reasons cited for this decline, including the proximity of casinos in neighboring states and reports of competition from video gaming devices of questionable legality in this state. Several bills were introduced in the 1999 legislative session for the purpose of responding to this issue. LB 184 would reduce state taxes on charitable gaming. LB 560 would eliminate certain restrictions on the game of keno. LB 659 would authorize the use of devices which electronically simulate the playing of pickle cards. This study shall include, but not be limited to, the following:

1. Whether reductions in state taxes on charitable gaming are appropriate, and, if so, the likely impact of reduced revenue on agencies which receive funds through taxes on charitable gaming, including regulation by the Charitable Gaming Division of the Department of Revenue and programs funded through the Compulsive Gamblers Assistance Fund;

LEGISLATIVE RESOLUTION 122. Introduced by Janssen, 15; Hartnett, 45; Dickey, 18.

PURPOSE: It is illegal for persons under the age of twenty-one years to possess alcoholic liquor. However, documented evidence indicates that a high

percentage of young people in this state possess and consume alcoholic liquor, including documentation of binge drinking, drinking and driving, and the possible tragic consequences of such high-risk activities. LB 126 was introduced in the 1999 legislative session with the intent of reducing the incidence of underage drinking. LB 126 included mandatory penalties for minors in possession, including suspension of driver's licenses. LB 126 was advanced to General File but was not discussed further following the death of Senator Schellpeper. This study shall include, but not be limited to, the following:

1. Whether it is appropriate to increase the penalties for minor in possession, including whether mandatory penalties are appropriate;

2. Whether suspension of a minor's driver's license as a penalty for minor in possession is effective in deterring underage drinking;

3. Whether it is necessary or appropriate to further define terms related to minor in possession;

4. Whether it is necessary or appropriate for law enforcement personnel to conduct compliance checks to determine whether retailers sell alcoholic liquor to minors;

5. Whether it is appropriate to establish standard criteria for compliance checks and whether the Nebraska State Patrol or the Nebraska Liquor Control Commission should have oversight over such compliance checks;

6. The manner in which other states address underage drinking and issues related to compliance checks; and

7. Any other matters appropriate for a complete examination of this issue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the General Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

AMENDMENTS - Print in Journal

Mrs. Thompson filed the following amendment to LB 652:
AM1690

(Amendments to Standing Committee amendments, AM0717)

1. Strike amendments 1 through 3 and insert the following new amendment:

"1. Strike the original sections and all amendments thereto and insert the following new sections:

'Section 1. Section 43-284, Reissue Revised Statutes of Nebraska, is amended to read:

43-284. When any juvenile is adjudged to be under subdivision (3) or (4) of section 43-247, the court may permit such juvenile to remain in his or her own home subject to supervision or may make an order committing the juvenile to (1) ~~the care of some suitable institution, (2) inpatient or outpatient treatment at a mental health facility or mental health program,~~ (3) the care of some reputable citizen of good moral character, ~~(4) the care of some association willing to receive the juvenile embracing in its objects the purpose of caring for or obtaining homes for such juveniles, which association shall have been accredited as provided in section 43-296,~~ (5) (2) the care of a suitable family, or ~~(6)~~ (3) the care and custody of the Department of Health and Human Services.

~~Under subdivision (1), (2), (3), (4), or (5) of this section, upon a determination by the court that there are no parental, private, or other public funds available for the care, custody, education, and maintenance of a juvenile, the court may order a reasonable sum for the care, custody, education, and~~

~~maintenance of the juvenile to be paid out of a fund which shall be appropriated annually by the county where the petition is filed until suitable provisions may be made for the juvenile without such payment.~~

~~The amount to be paid by a county for education pursuant to this section shall not exceed the average cost for education of a public school student in the county in which the juvenile is placed and shall be paid only for education in kindergarten through grade twelve.~~

The court may enter a dispositional order removing a juvenile from his or her home upon a written determination that continuation in the home would be contrary to the health, safety, or welfare of such juvenile and that reasonable efforts to preserve and reunify the family have been made if required under section 43-283.01.

Sec. 2. Section 43-286, Reissue Revised Statutes of Nebraska, is amended to read:

43-286. (1) When any juvenile is adjudicated to be a juvenile described in subdivision (1), (2), or (4) of section 43-247:

(a) The court may continue the dispositional portion of the hearing, from time to time upon such terms and conditions as the court may prescribe, including an order of restitution of any property stolen or damaged or an order requiring the juvenile to participate in community service programs, if such order is in the interest of the juvenile's reformation or rehabilitation, and, subject to the further order of the court, may:

(i) Place the juvenile on probation subject to the supervision of a probation officer; or

(ii) Permit the juvenile to remain in his or her own home, subject to the supervision of the probation officer; or

~~(iii) Cause the juvenile to be placed in a suitable family home or institution, subject to the supervision of the probation officer. If the court has committed the juvenile to the care and custody of the Department of Health and Human Services, the department shall pay the costs of the suitable family home or institution which are not otherwise paid by the juvenile's parents.~~

~~Under subdivision (1)(a) of this section, upon a determination by the court that there are no parental, private, or other public funds available for the care, custody, and maintenance of a juvenile, the court may order a reasonable sum for the care, custody, and maintenance of the juvenile to be paid out of a fund which shall be appropriated annually by the county where the petition is filed until a suitable provision may be made for the juvenile without such payment; or~~

(b) The court may commit such juvenile to the Office of Juvenile Services, but a juvenile under the age of twelve years shall not be placed at the Youth Rehabilitation and Treatment Center-Geneva or the Youth Rehabilitation and Treatment

Center-Kearney unless he or she has violated the terms of probation or has committed an additional offense and the court finds that the interests of the juvenile and the welfare of the community demand his or her commitment. This minimum age provision shall not apply if the act in question is murder or manslaughter.

(2) When any juvenile is found by the court to be a juvenile described in subdivision (3)(b) of section 43-247, the court may enter such order as it is empowered to enter under subdivision (1)(a) of this section or enter an order committing or placing the juvenile to the care and custody of the Department of Health and Human Services.

(3) Beginning July 15, 1998, when any juvenile is adjudicated to be a juvenile described in subdivision (1), (2), (3)(b), or (4) of section 43-247 because of a nonviolent act or acts and the juvenile has not previously been adjudicated to be such a juvenile because of a violent act or acts, the court may, with the agreement of the victim, order the juvenile to attend juvenile offender and victim mediation with a mediator or at an approved center selected from the roster made available pursuant to section 25-2908.

(4)(a) When a juvenile is placed on probation or under the supervision of the court and it is alleged that the juvenile is again a juvenile described in subdivision (1), (2), (3)(b), or (4) of section 43-247, a petition may be filed and the same procedure followed and rights given at a hearing on the original petition. If an adjudication is made that the allegations of the petition are true, the court may make any disposition authorized by this section for such adjudications.

(b) When a juvenile is placed on probation or under the supervision of the court for conduct under subdivision (1), (2), (3)(b), or (4) of section 43-247 and it is alleged that the juvenile has violated a term of probation or supervision or that the juvenile has violated an order of the court, a motion to revoke probation or supervision or to change the disposition may be filed and proceedings held as follows:

(i) The motion shall set forth specific factual allegations of the alleged violations and a copy of such motion shall be served on all persons required to be served by sections 43-262 to 43-267;

(ii) The juvenile shall be entitled to a hearing before the court to determine the validity of the allegations. At such hearing the juvenile shall be entitled to those rights relating to counsel provided by section 43-272 and those rights relating to detention provided by sections 43-254 to 43-256. The juvenile shall also be entitled to speak and present documents, witnesses, or other evidence on his or her own behalf. He or she may confront persons who have given adverse information concerning the alleged violations, may cross-examine such persons, and may show that he or she did not violate the conditions of his or her probation or, if

he or she did, that mitigating circumstances suggest that the violation does not warrant revocation. The revocation hearing shall be held within a reasonable time after the juvenile is taken into custody;

(iii) The hearing shall be conducted in an informal manner and shall be flexible enough to consider evidence, including letters, affidavits, and other material, that would not be admissible in an adversarial criminal trial;

(iv) The juvenile shall be given a preliminary hearing in all cases when the juvenile is confined, detained, or otherwise significantly deprived of his or her liberty as a result of his or her alleged violation of probation. Such preliminary hearing shall be held before an impartial person other than his or her probation officer or any person directly involved with the case. If as a result of such preliminary hearing probable cause is found to exist, the juvenile shall be entitled to a hearing before the court in accordance with this subsection;

(v) If the juvenile is found by the court to have violated the terms of his or her probation, the court may modify the terms and conditions of the probation order, extend the period of probation, or enter any order of disposition that could have been made at the time the original order of probation was entered; and

(vi) In cases when the court revokes probation, it shall enter a written statement as to the evidence relied on and the reasons for revocation.

Sec. 3. Section 43-290, Reissue Revised Statutes of Nebraska, is amended to read:

43-290. It is the purpose of this section to promote parental responsibility and to provide for the most equitable use and availability of public money.

Pursuant to the petition filed by the county attorney or any reputable person in accordance with section 43-274, whenever the care or custody of a juvenile is given by the court to someone other than his or her parent, which shall include placement with a state agency, or when a juvenile is given medical, psychological, or psychiatric study or treatment under order of the court, the court shall make a determination of support to be paid by a parent for the juvenile at the same proceeding at which placement, study, or treatment is determined or at a separate proceeding. Such proceeding, which may occur prior to, at the same time as, or subsequent to adjudication, shall be in the nature of a disposition hearing.

At such proceeding, after summons to the parent of the time and place of hearing served as provided in sections 43-262 to 43-267, the court may order and decree that the parent shall pay, in such manner as the court may direct, a reasonable sum that will cover in whole or part the support, study, and treatment of the juvenile, which amount ordered paid shall be the extent of the

liability of the parent. The court in making such order shall give due regard to the cost of study, treatment, and maintenance of the juvenile, the ability of the parent to pay, and the availability of money for the support of the juvenile from previous judicial decrees, social security benefits, veterans benefits, or other sources. Support thus received by the court shall be transmitted to the person, agency, or institution having financial responsibility for such study, treatment, or maintenance and, if a state agency or institution, remitted by such state agency or institution quarterly to the Director of Administrative Services for credit to the proper fund.

Whenever medical, psychological, or psychiatric study or treatment is ordered by the court, whether or not the juvenile is placed with someone other than his or her parent, or if such study or treatment is otherwise provided as determined necessary by the custodian of the juvenile, the court shall inquire as to the availability of insured or uninsured health care coverage or service plans which include the juvenile. The court may order the parent to pay over any plan benefit sums received on coverage for the juvenile. The payment of any deductible under the health care benefit plan covering the juvenile shall be the responsibility of the parent. If the parent willfully fails or refuses to pay the sum ordered or to pay over any health care plan benefit sums received, the court may proceed against him or her as for contempt, either on the court's own motion or on the motion of the county attorney or authorized attorney as provided in section 43-512, or execution shall issue at the request of any person, agency, or institution treating or maintaining such juvenile. The court may afterwards, because of a change in the circumstances of the parties, revise or alter the order of payment for support, study, or treatment.

If the juvenile has been committed to the care and custody of the Department of Health and Human Services, the department shall pay the costs for the support, study, or treatment of the juvenile which are not otherwise paid by the juvenile's parent.

~~If no provision is otherwise made by law for the support or payment for the study or treatment of the juvenile, compensation for the study or treatment shall be paid, when approved by an order of the court, out of a fund which shall be appropriated by the county in which the petition is filed.~~

The juvenile court shall retain jurisdiction over a parent ordered to pay support for the purpose of enforcing such support order for so long as such support remains unpaid but not to exceed ten years from the nineteenth birthday of the youngest child for whom support was ordered.

Sec. 4. This act becomes operative on July 1, 2001.

Sec. 5. Original sections 43-284, 43-286, and 43-290, Reissue Revised Statutes of Nebraska, are repealed.'.".

LEGISLATIVE RESOLUTION 124. Introduced by Thompson, 14.

Therefore, it is recommended that Nebraska review the possible establishment of sentencing commissions and examine the potential for the use of such a system.

The names of each nonpartisan candidate certified by the Secretary of State and of each nonpartisan candidate filing in the office of the election commissioner or county clerk shall be placed on the primary election ballot headed by the words Nonpartisan Ticket.

(2) If any office is not subject to the upcoming election, the office shall be omitted from the ballot and the remaining offices shall move up so that the same relative order is preserved. If any office is not subject to the upcoming election, the office shall be omitted from the ballot and the remaining offices shall move up so that the same relative order is preserved. The order of any offices may be altered to allow for the best utilization of ballot space in order to avoid printing a second ballot when one ballot would be sufficient if a punch card or optical-scan ballot is used. All proposals on the ballot shall remain separate from the offices, and the proposals shall follow all offices on the ballot.

(2) ~~All proposals submitted by initiative or referendum and proposals for constitutional amendments shall be placed on a separate ballot when a paper ballot is used which requires that the ballot after being voted be folded before being deposited in a ballot box. When a punch card or optical-scan ballot is used which requires a ballot envelope, jacket, or sleeve in which the ballot after being voted is placed before being deposited in a ballot box, initiative or referendum proposals and constitutional amendments may be placed on either side of the ballot and shall be separated from other offices or issues by a bold line. There shall be displayed on the front and rear windows or the rear side windows of such motor vehicle, except a motorcycle, and displayed on the front and rear of each such trailer a decal on which shall be plainly printed in black letters the words In Transit. One In Transit decal shall be displayed on a motorcycle, which decal may be one-half the size required for other motor vehicles. Such decals shall include a registration number, which registration number shall be different for each decal or pair of decals issued, and the form of such decal and the numbering system shall be as prescribed by the Department of Motor Vehicles. Each dealer issuing such decals shall keep a record of the registration number of each decal or pair of decals on the invoice of such sale. Such transit decal shall allow such owner to operate the motor vehicle or pull such trailer for a period of thirty days in order to effect proper registration of the new or used motor vehicle or trailer. When any person, firm, or corporation has had a motor vehicle or trailer previously registered and license plates assigned to such person, firm, or corporation, such owner may operate the motor vehicle or pull such trailer for a period of thirty days in order to effect transfer of plates to the new or used motor vehicle or trailer. Upon demand of proper authorities, there shall be presented by the person in charge of such motor vehicle or trailer, for examination, a duly executed bill of sale therefor, a certificate of title, or other satisfactory evidence of the right of possession by such person of such motor vehicle or trailer.

(4) Any transporter doing business in this state may, in

lieu of registering each motor vehicle or trailer which such transporter is transporting, upon payment of a fee of ten dollars, make an application to the Department of Motor Vehicles for a transporter's certificate and one transporter number plate. Additional certificates and plates may be procured for a fee of ten dollars each. Such transporter number plates may be the same size as plates issued for motorcycles, shall bear thereon a mark to distinguish them as transporter plates, and shall be serially numbered so as to distinguish them from each other. Such plates may only be displayed upon the front of a driven vehicle of a lawful combination or upon the front of a motor vehicle driven singly or upon the rear of a trailer being pulled. The certificate shall be issued in duplicate. The original thereof shall be kept on file by the transporter, and the duplicate shall be displayed upon demand by the driver of any vehicle or trailer being transported. A transporter plate or certificate may not be displayed upon a work or service vehicle, except that when a properly registered truck or tractor being a work or service vehicle is in the process of towing or drawing a trailer or semitrailer, including a cabin trailer, which itself is being delivered by the transporter, then the registered truck or tractor shall also display a transporter plate upon the front thereof. The applicant for a transporter plate shall keep for three years a record of each vehicle transported by him or her under this section, and such record shall be available to the department for inspection. Each applicant shall file proof of his or her status as a bona fide transporter.

(5) Any boat dealer when transporting a boat which is part of the inventory of the boat dealer on a trailer required to be registered may annually, in lieu of registration of the trailer and upon application to the Department of Motor Vehicles and payment of a fee of ten dollars, obtain a certificate and a number plate. The plate may be displayed on any trailer owned by the boat dealer when the trailer is transporting such a boat. The number plate shall be of a type designed by the department and so numbered as to distinguish one plate from another.

For purposes of this subsection, boat dealer ~~shall mean~~ means a person engaged in the business of buying, selling, or exchanging boats at retail who has a principal place of business for such purposes in this state.

(6) It shall be the duty of all law enforcement officers to arrest and prosecute all violators of the provisions of subsection (1), (2), (3), (4), or (5) of this section and see that they are properly prosecuted according to law. Any person, firm, or corporation, including any motor vehicle, trailer, or boat dealer or manufacturer, who fails to comply with such provisions shall be deemed guilty of a Class V misdemeanor and, in addition thereto, shall pay the county treasurer or designated county official any and all motor vehicle taxes and fees imposed in

sections 60-3002 and 60-3007, registration fees, or certification fees due had the motor vehicle or trailer been properly registered or certified according to law.

When any motor vehicle or trailer dealer's or manufacturer's license has been revoked or otherwise terminated, it shall be the duty of such dealer or manufacturer to immediately surrender to the Department of Motor Vehicles or to the Nebraska Motor Vehicle Industry Licensing Board any dealer number plates issued to him or her for the current year. Failure of such dealer or manufacturer to immediately surrender such dealer number plates to the department upon demand by the department shall be unlawful.

(7) Any motor vehicle or trailer owned by a dealer and bearing other than dealer number plates as provided in this section shall be conclusively presumed not to be a part of the dealer's inventory and not for demonstration or sale and therefor not eligible for any exemption from taxes or fees applicable to vehicles with dealer number plates.

RESOLUTIONS

LEGISLATIVE RESOLUTION 132. Introduced by Dw. Pedersen, 39.

PURPOSE: To require the Department of Correctional Services to provide information regarding its current classification system and to study the effects of that classification system on our current parole statistics.

The study shall include information on crimes committed, what factors lead to an inmate being classified in a certain manner, and statistical information over the past ten-year period indicating crimes, classification at time of entry, average length of time before moving up in classification, classification at time of parole or "jam" date, and the length of sentence served.

The study shall also gather information on the number of inmates currently incarcerated and their classifications to determine if there is a relationship between the classification system and the current practice of requiring more inmates to complete their entire sentences rather than be paroled, as well as the economic effect of such policies on the state budget and the effect on recidivism rates.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 133. Introduced by Dw. Pedersen, 39; Brashear, 4.

PURPOSE: During the 1999 legislative session, two bills were introduced that dealt with the issue of community corrections or community justice programs. They were LB 321 and the original version of LB 865. An agreement was made that the Legislature would take no further action on either bill until a study was conducted to address the issues that were raised, including the following:

(1) Determine the definition of community corrections or community justice programs;

(2) Look at the extent and nature of current community corrections programs in the State of Nebraska and determine what the extent and nature of such programs should be, and once the extent and nature of such programs is established, determine the cost of delivering such programs and what method should be used to finance such programs;

(3) Explore the statutory mandate with regard to community corrections programs to determine what the actual intent of the legislation was, what types of programs were contemplated, and who was to be in charge of such

programs and explore current options for community corrections and community justice programs;

(4) Determine the need to develop and implement standards for a contracting process for community corrections plans, the ability to monitor all programs for compliance, and the need to establish a clearinghouse for information and a reporting system to provide statistical information on whether or not the community corrections and community justice programs are effective in keeping people from incarceration;

(5) Determine whether or not there is a duplication of services within the current delivery system and, if so, how services can be delivered in the most cost-efficient manner;

(6) Determine the proper roles of the Department of Correctional Services, the Office of Probation Administration and the Nebraska Commission on Law Enforcement and Criminal Justice with regard to community corrections and community justice programs;

(7) Provide a mechanism for objectively evaluating comprehensive community corrections plans and grant fund applications from communities to determine whether or not the programs address the goal of keeping people from incarceration;

(8) Determine which state agencies are best equipped to establish, assess, and provide staff support for approved community corrections and community justice programs;

(9) Clarify public policy with regard to pre-incarceration, incarceration, and post-incarceration community corrections and community justice programs in the state;

(10) Determine how taxpayer money can be best utilized when expanding community corrections and community justice programs, whether through existing criminal justice infrastructures such as the Department of Correctional Services, the Office of Probation Administration, or the Office of Parole Administration or by creating and funding autonomous correctional programs within local communities; and

(11) If local communities are given the authority to facilitate development of assorted offender programs through technical assistance grants and supplemental operating funds, determine whether the state is financially supporting local correctional programming and if that is something that can be sustained into the future.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 134. Introduced by Dw. Pedersen, 39.

PURPOSE: The purpose of this resolution is to study the issue of mental

health regions providing direct services to people in need of alcohol and drug abuse treatment.

Direct service providers throughout the state have expressed concerns that, although funding for alcohol and drug treatment has remained relatively flat over the last several years, several regional offices have continued to expand. There is concern that the regions duplicate functions of the state, the managed care provider, and services available in the private sector. There is also concern that the agency responsible for distributing funding and verifying quality programs can also provide direct services.

One of the primary reasons for having regional offices was to promote community input, yet information from throughout the state indicates that those providers who are not currently members of the provider network have a difficult time getting into the network.

Because of the reorganization of the Health and Human Services System, more and more people are being sent to community-based services, and, because it is not possible to get them all into programs run by the regions or by the choice few providers in the network, some people are being forced to go without services.

By allowing regions to provide direct services, we discourage private people from seeking contracts, we eliminate competition, and we give the impression of the "fox watching the chicken coop" mentality.

LB 1354, introduced in the 1998 legislative session, called for a task force to examine the delivery and financing of services for adults with mental illness or addiction to alcohol or controlled substances. One of the legislative recommendations of this task force was that local regions divest themselves of the role of direct provider of services.

This interim study should provide a way to look at the regional delivery system and the layers of bureaucracy that we are forced to go through and pay for to get services to those who need them. The bottom line here should be the best effort to get the maximum percentage of dollars available to those in need of services rather than to continue to let the scarce dollars available be eaten up by administrative costs and bureaucracy.

There are several questions that providers would like to see addressed by the interim study, including:

(1) Whether the present system discourages qualified providers from seeking contracts to be a state provider because they know they will be competing with the very agency that decides who is a provider;

(2) Whether the reimbursement rate is driven up by discouraging competition. If the regions continue to provide the services and pay themselves, it only makes sense that they would try to get as high a rate of reimbursement as possible, especially on the services they directly provide;

(3) The objectivity of the regions in assessing the effectiveness of providers they contract with when they provide similar services or are wanting to provide the services themselves and whether it is threatening existing providers in the system;

(4) Whether, if regions were not allowed to provide direct services, it would be more feasible for local agencies to become providers of treatment services without having to request funds from the competition; and

(5) Whether there is justification for mental health regions to continue to

exist if they are not allowed to provide direct services.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 138. Introduced by Hudkins, 21; Wickersham, 49; Bohlke, 33; Brashear, 4; Robak, 22; Bruning, 3; Crosby, 29; Schrock, 38.

PURPOSE: The goal of this interim study is to closely examine the geographic boundaries of the districts used to select the membership of the Executive Board of the Legislative Council and Committee on Committees of the Legislature, as well as considering the method by which the districts are determined.

Concerns have arisen as to how senators are appointed to serve as members of any of the three districts for the Executive Board and the Committee on Committees. Under the present system, Senators of neighboring legislative districts are often delegated to completely different caucuses, resulting in confusion and inconvenience for many members of the Legislature.

This study should include development of a specific formula to be included in the Rules of the Nebraska Unicameral Legislature and followed by both the Executive Board and the Committee on Committees in making district assignments.

The study shall also examine matters concerning the fourteen standing committees. Specifically, the study should consider the appropriate number of members for each committee, consider how to distribute the workload of the committees more evenly, and determine and identify the optimum number of days upon which each committee should meet.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Rules Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 139. Introduced by Janssen, 15; Bromm, 23.

PURPOSE: A discrepancy has arisen in several counties in Nebraska between acreages directly connected to other agricultural property and acreages used solely for residential purposes. The valuation of acreages connected to agricultural property is being unfairly assessed higher than the surrounding agricultural property. Such property is being assessed as an acreage used for residential purposes, rather than as a part of a working farm. The purpose of this resolution is to study possible solutions to the valuation problems generated from agricultural land being classified as nonagricultural. The study shall include, but not be limited to:

(1) Examination of the methods and guidelines used by county assessors and the Property Tax Administrator in comparable sales involving agricultural land used for agricultural purposes and agricultural land used for nonagricultural purposes;

(2) Examination of new categories of agricultural and horticultural land which would include agricultural land used for nonagricultural purposes;

(3) Examine the relationship between actual agricultural land valuations and land value if put solely to agricultural use;

(4) Examine the methods and guidelines used by county assessors and the Property Tax Administrator in valuation of farmstead sites that are part of a farming operation; and

(5) Examine changes proposed in Legislative Bill 853, Ninety-sixth Legislature, First Session, 1999.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

(2) No residential, commercial, industrial, or agricultural building or enclosed structure or the directly associated land or site of the building or enclosed structure shall be assessed as agricultural land or horticultural land, except that real property currently or formerly in use as a farmstead site and not currently occupied or used for any other nonagricultural purpose shall be valued at the same assessed value as the directly adjoining agricultural land which is associated by ownership and is in use as agricultural land as described in section 2 of this act.

Sec. 4. Original sections 77-1359 and 77-1361, Revised Statutes Supplement, 1998, are repealed.".

LEGISLATIVE BILL 881. Placed on General File as amended.
Standing Committee amendment to LB 881:
AM1744

1. Strike the original sections and insert the following new sections:

"Section 1. Sections 1 to 4 of this act shall be known and may be cited as the Relief to Property Taxpayers Act.

Sec. 2. The purpose of the Relief to Property Taxpayers Act is to provide property tax relief for property taxes levied

against real property. The property tax relief will be made to owners of real property in the form of a property tax credit.

Sec. 3. The Relief to Property Taxpayers Cash Fund is created. The fund shall only be used pursuant to the Relief to Property Taxpayers Act. Any money in the fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act.

Sec. 4. (1) For tax year 2000 the amount of relief granted under the Relief to Property Taxpayers Act shall be thirty-five million dollars. For tax years after 2001, the amount of relief granted under the act shall be equal to the amount appropriated or transferred to the Relief to Property Taxpayers Cash Fund by August 16. It is the intent of the Legislature to fund the Relief to Property Taxpayers Act for tax years after 2001 using available excess revenue. The relief shall be in the form of a property tax credit which appears on the property tax statement.

(2) To determine the amount of the property tax credit, the county treasurer shall multiply the amount disbursed to the county under subsection (4) of this section by the ratio of the real property valuation to the real property valuation in the county. The amount determined shall be the property tax credit for the property.

(3) If the property owner qualifies for a homestead exemption under the provisions of sections 77-3501 to 77-3529, the homestead owner shall also be qualified for the relief provided in the act to the extent of any remaining liability after calculation of the relief provided by the homestead exemption. If the credit results in a property tax liability on the homestead that is less than zero, the amount of the credit which cannot be used by the taxpayer shall be returned to the State Treasurer by July 1 of the year the amount disbursed to the county was disbursed. The State Treasurer shall credit any funds returned under this section to the Tax Equity and Educational Opportunities Support Act Stabilization Fund until July 1, 2001, and to the Relief to Property Taxpayers Cash Fund on and after such date.

(4) The amount disbursed to each county shall be equal to the amount available for disbursement determined under subsection (1) of this section multiplied by the ratio of the real property valuation in the county to the real property valuation in the state. By September 15, the Property Tax Administrator shall determine the amount to be disbursed under this subsection to each county and certify such amounts to the State Treasurer and to each county. The disbursements to the counties shall occur in two equal payments, the first on or before January 31 and the second on or before April 1. After retaining one percent of the receipts for costs, the county treasurer shall allocate the remaining receipts to each taxing unit levying taxes on taxable property in the tax district in which the real property is located in the same

proportion that the levy of such taxing unit bears to the total levy on taxable property of all the taxing units in the tax district in which the real property is located.

Sec. 5. On August 16, 2000, the State Treasurer shall transfer to the Tax Equity and Educational Opportunities Support Act Stabilization Fund any money appropriated for purposes of the Tax Equity and Educational Opportunities Support Act which is in excess of the certification made under section 79-1022. The Tax Equity and Educational Opportunities Support Act Stabilization Fund is created. Any money in the fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act. On July 1, 2001, the fund shall terminate and the State Treasurer shall transfer any money in the fund on such date to the General Fund for purposes of funding the Tax Equity and Educational Opportunities Support Act.

RESOLUTIONS

LEGISLATIVE RESOLUTION 140. Introduced by Dierks, 40; Landis, 46.

PURPOSE: The purpose of this interim study resolution is to authorize a study and review regarding the necessity of legislation to address agricultural input supplier lending and credit extension and the necessity of providing protection for agricultural input suppliers who enhance the value of collateral.

WHEREAS, the legislature has passed legislation to rewrite Article 9 -- Secured Transactions, Uniform Commercial Code, in the form of Legislative Bill 550; and

WHEREAS, Nebraska law currently contains provisions relating to agricultural input suppliers and credit protection in the form liens for artisans, threshers, veterinarians, petroleum products, fertilizer and agricultural chemicals, seed, electricity and energy, service of animals, feed, and agisters; and

WHEREAS, due to the considerable drop in the value of agricultural commodities, Nebraska farmers and ranchers are facing extreme cutbacks in the amount banking, lending, and financial institutions are extending in short and long-term loans to cover agricultural input costs; and

WHEREAS, due to the shortage of credit and loans available from banking, lending, and financial institutions, agricultural input suppliers are faced with extending credit in the form of collateral enhancement to cover agricultural input costs and, in most cases, without the protection provided for banking, lending, and financial institutions; and

WHEREAS, agricultural input suppliers now serve as a source of funding in lieu of the traditional capitol resources provided by banking, lending, and financial institutions; and

WHEREAS, the Legislature can review the current statutory lien statutes and those relating to banking, financial, and lending institutions.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture and Banking, Commerce and Insurance Committees of the Legislature conduct a joint interim study regarding the necessity of legislation to address providing protection of agricultural input suppliers who serve as sources of enhancing collateral such as crop land, livestock, and other agricultural collateral.

2. That the committees shall upon the conclusion of the study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 141. Introduced by Jones, 43; Wickersham, 49; Coordsen, 32; Bromm, 23; Hudkins, 21; Dierks, 40; Kremer, 34.

PURPOSE: The purpose of this resolution is to study issues regarding challenges in the transfer of farms and ranches to younger, unrelated persons.

The study should include an examination of the use of tax incentives.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 142. Introduced by Jones, 43; Dierks, 40; Landis, 46; Kremer, 34.

PURPOSE: The purpose of this resolution is to study issues regarding challenges in the transfer of farms and ranchers to younger, unrelated persons. The study should include an examination of the use of business structures such as limited liability companies and limited liability partnerships.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture and Banking, Commerce and Insurance Committees of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committees shall upon the conclusion of the study make a report of the findings, together with any recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 143. Introduced by Revenue Committee: Wickersham, 49, Chairperson; Coordsen, 32; Dierks, 40; Hartnett, 45; Landis, 46; C. Peterson, 35; Raikes, 25; Redfield, 12.

PURPOSE: This resolution is to study issues related to sales and use tax simplification and uniformity. The modern economy can be defined as one which is more nimble and less tangible than has been the case in the past. All states that impose a sales and use tax, Nebraska included, face great stress on their sales and use tax systems from remote selling over the Internet and from more traditional forms such as mail order. If constitutional prohibitions continue to restrict Nebraska's ability to enforce its sales and use tax with respect to sellers without Commerce Clause nexus to Nebraska, our state will have to negotiate with other states and remote sellers to encourage voluntary collections by remote sellers or tolerate a sales tax that will continue to become more narrow and discriminatory over time.

The key to agreement with other states and remote sellers will undoubtedly be greater uniformity among states with regard to procedures, forms, and definitions and greater simplicity for sellers making collections and remittances from many states simultaneously. This study is to examine

Nebraska's sales and use tax in an effort to discover any possible legislation that could move our state toward better uniformity and simplification in levying and administering the sales and use tax.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee cooperate with and participate in the efforts of the Tax Commissioner to cooperate with nearby states in achieving more regional uniformity.

3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 144. Introduced by Revenue Committee: Wickersham, 49, Chairperson; Coordsen, 32; Dierks, 40; Hartnett, 45; Landis, 46; C. Peterson, 35; Raikes, 25; Redfield, 12.

PURPOSE: Continued public pressure to reduce the reliance of local governments on the property tax has increased the need for state officials to be aware of the state-local financial relationships that exist in Nebraska. The purpose of this study is to examine the various programs that are in place which provide financial aid to local governments. Particular attention should be paid to the consistency between the use of sales and income tax revenue collected from the entire state and the needs relative to the property tax capacity of local governments.

Aid to natural resources districts is an area that has not received attention since the personal property tax replacement aid was first provided in the 1970s. Analysis of the needs of natural resources districts as compared to both the property tax levy capacity and the possibility of other own-source revenue should be undertaken pursuant to this study.

Another aspect of this study is the utility and effectiveness of the state aid notification required to be provided to the taxpayer with the property tax statement. The study should examine the contents of the notification and whether or not the information provided could be made more useful and informative to the taxpayer.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 145. Introduced by Revenue Committee: Wickersham, 49, Chairperson; Coordsen, 32; Dierks, 40; Hartnett, 45; Landis, 46; C. Peterson, 35; Raikes, 25; Redfield, 12.

PURPOSE: The purpose of this resolution is to study the issues surrounding the implementation of Legislative Bill 271, Ninety-sixth Legislature, First Session, 1999, to tax property owned by governmental entities which is not used for a public purpose. Specifically, the study should examine the appropriate concepts used to determine what is and what is not being used for a public purpose. Guidelines such as the amount of income relative to the size of the operation, the size and level of integration of the discrete area being considered, and the applicability of Unrelated Business Income Tax to the activity should be considered.

The study should also consider the procedures for disputing the assessment of taxes and the burden of proof to be applied in such disputes. Finally, the study should examine the procedures to be undertaken to assure a proper level of value is placed on public property held under a lease for a nonpublic purpose.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 146. Introduced by Wickersham, 49; Dierks, 40; Hartnett, 45; Landis, 46; C. Peterson, 35; Raikes, 25.

PURPOSE: The Employment Expansion and Investment Incentive Act was enacted in 1986 and the Employment and Investment Growth Act was enacted in 1987. Since that time, inflation has driven the cost of most things higher and these two acts have been supplemented if not replaced with incentives offering more benefits for higher levels of investment.

The time has come to examine the role each of these incentives play in the overall scheme of incentives available to new or expanding businesses. Particular attention should be paid to the required levels of new employment and investment in light of the amount of inflation that has occurred in the intervening years.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 147. Introduced by Raikes, 25; Wickersham, 49; C. Peterson, 35; Landis, 46.

PURPOSE: The purpose of this study is to examine the possibility of income tax reform with the goal of achieving greater simplification and eliminating the so-called marriage penalty. While limiting or eliminating deductions, exclusions, or special considerations from state income tax laws will cause some to pay more while others pay less, recent public demand for greater simplification cannot be ignored. The study will attempt to analyze shifts between income groups and find approaches designed to minimize such shifts while still making the income tax more simple.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Natural Resources Committee and the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

LEGISLATIVE RESOLUTION 155. Introduced by Kiel, 9.

PURPOSE: Children count on adults to keep them safe, to teach them, and to help them grow, and each of us must work to ensure the safety and welfare of every child. The Legislature finds that recent incidents of violence in schools confirm the necessity of reviewing Nebraska statutes to ensure that teachers, school administrators, law enforcement officials, and parents have the tools they need to maintain discipline and order in the classroom and to ensure our schools are safe for Nebraska children and teachers.

A recent study by The Public Agenda Foundation on what American teenagers think about their schools reveals that large numbers of teens say there are too many disruptive students in their classes, classes are too large, and they are concerned with the lack of discipline in the schools they attend. Students complain of a lack of respect and civility in their schools. Teenagers describe a rough-and-tumble teen culture that they themselves see as destructive, and minority youngsters, particularly African-American teens, are more likely to consider a lack of order and discipline as a serious problem in their schools.

A nationwide public survey conducted in January 1997 by The Feldman Group, Inc., reveals that fifty-eight percent of all respondents ranked lack of discipline among students as the second most serious problem facing public schools. The only issue to rank higher as a serious problem was parents not being involved in their children's schooling. That same public survey found that ninety percent of all respondents believe the most important goals for improving education should be establishing discipline in the classroom and ensuring school safety. Citizens, including students, clearly believe that elected officials must assist in providing teachers the tools and help they need to maintain an orderly classroom.

A review of safe school legislation in other states, particularly Texas' safe schools statutes, would be beneficial in crafting a plan that will help ensure a safe learning environment for all students and teachers. Consideration should be given to enacting state and federal laws mandating the immediate removal of any regular or special education student from school who commits any violent act against a student or a school employee. Consideration should also be given to enacting laws that would require a student be excluded from school until he or she has received psychological counseling at the parents' expense and has been certified by the appropriate counselor as psychologically ready to return to the classroom.

Lawmakers should also examine the benefits of:

(1) Increasing penalties for assaulting a teacher or any other school employee;

(2) Cutting off driving privileges for students who have been suspended or expelled from school;

(3) Providing prompt and efficient transfer of student records, including discipline records, from one school district to another and ensuring teachers have access to such records;

(4) Providing specific statutory authority allowing school districts at their discretion to adopt dress codes or school uniforms;

(5) Allowing school districts to prohibit possession of cellular phones or pagers by students in school unless specifically approved by school administrators;

(6) Modifying existing law imposing parental responsibility or liability for certain student conduct by repealing the current one-thousand-dollar liability cap on personal injury damages;

(7) Providing specific statutory authority allowing teachers to remove students from their classroom for up to five days for violent or seriously disruptive behavior;

(8) Modifying current legislation adopted pursuant to the federal Gun-Free Schools Act of 1994 to include all deadly weapons, not just firearms; and

(9) Providing for mandatory expulsion of students who bring firearms to school.

Additional actions that would help ensure the safety of our children should be studied, such as implementing effective mediation and conflict resolution programs, so that children are taught to settle differences in nonviolent ways, providing training to every school employee, including teachers, bus drivers, and administrators, to identify and report warning signs of violence and mental health problems, and making sure that guidance counselors and school psychologists are brought back into the school at a ratio per student that allows them to provide personal attention to every child.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 156. Introduced by Kiel, 9.

PURPOSE: This study recognizes that Nebraska ranks second in the nation for the percentage of women in the work place. Unfortunately, a woman earns only seventy-two cents for every dollar a man makes for the same work. When benefits and retirement funds are added, the disparity in pay is much greater.

The purpose of this study is to determine the amount of disparity between

men's and women's wages and benefits and to examine solutions to this problem.

Components of the study may include, but not be limited to:

1. Examining classification systems to determine fair pay levels for equal and equivalent worth;

2. Determining methods to solve gender pay and benefit inequity; and

3. Examining ways to further encourage public and private sector gender pay and benefit equity.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 157. Introduced by Kiel, 9.

PURPOSE: This study recognizes that a large number of Nebraska families and individuals continue to receive public assistance from programs which focus on income and consumption and are not always successful in promoting and supporting the transition to economic self-sufficient.

This interim study would review the asset poor and those on public assistance in Nebraska. It would also examine the need to complement Nebraska's income-based welfare policy with an asset-based welfare policy.

Components of the study may include, but not be limited to:

1. An examination of the impediments that prevent low income individuals from saving, acquiring productive assets, and achieving self-sufficiency;

2. An evaluation of the incentives to accumulate assets by saving a portion of earned income;

3. A determination of the potential for asset incentive programs to enable persons to acquire education and job training and encourage home ownership and microenterprise development; and

4. A review of the use of an individual development account program or a similar asset development policy in conjunction with current state public assistance programs to promote self-sufficiency.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 158. Introduced by Kiel, 9.

PURPOSE: The purpose of this study is to examine the ways in which the State of Nebraska can promote gun safety within the state in order to create a safer and less violent environment for its citizens. Components of the study may include, but need not be limited to:

1. Examining ways to implement child access prevention (CAP) laws that would restrict gun access to children.

2. Studying the feasibility of permitting an adult to be held civilly liable for allowing a minor access to a gun subsequently used in a crime.

3. Determining if laws requiring trigger locks and other new technologies that can keep a gun from being used by anyone but the owner are practicable.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 159. Introduced by Kiel, 9.

PURPOSE: The purpose of this study is to examine fees associated with the use of Automatic Teller Machines (ATMs). Components of the study may include, but need not be limited to:

1. Examining existing and permitted fees and how and when they are accrued.

2. Determining whether current consumer notification of such fees is sufficient.

3. Examining whether electronic notification and consumer acceptance of any imposed fees after the transaction is initiated but prior to the consumer being irrevocably committed is feasible.

4. Studying the feasibility of limiting or prohibiting such fees.

5. Surveying other states' or the federal government's existing or proposed statutes, regulations, and legislative action about fees associated with the use of ATMs.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 160. Introduced by Wickersham, 49; Wehrbein, 2; Bohlke, 33.

PURPOSE: To study the process of filing school financial information with the State Department of Education, Property Tax Administrator, and Auditor of Public Accounts to determine how this process may be better coordinated and more useful to the public, school districts, and Legislature. A specific emphasis of the study shall be the development of a standard method of grouping schools into systems for analysis and the development of standardized information to be made available for modeling and estimating state aid by interested public agencies, including the Legislature.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue, Appropriations, and Education Committees of the Legislature shall be designated to conduct a joint interim study to carry out the purposes of this resolution.

2. That the committees shall upon the conclusion of the study make a report of the findings, together with any recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 161. Introduced by Bromm, 23; Bruning, 3.

PURPOSE: In 1999, Legislative Bill 80 was introduced, a bill which dealt with extending the period during which Nebraska license plates are used from three to five years. The study will:

1. Examine the fiscal impact to the State of Nebraska, paying special attention to the Highway Trust Fund, of extending the license plate use period to five years;

2. Examine how extending the license plate use period to five years will affect production costs of the license plates and the overall changes to the Department of Correctional Services caused by such a change; and

3. Examine any other implications of the change to a five-year license plate use period that the committee deems relevant.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

To examine the status of the Twenty-Year Highway Plan, adopted in 1989, relative to the completion of its three main goals: (1) Interstate reconstruction in Omaha; (2) 600-mile expressway system; and (3) elimination of geometric deficiencies.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 163. Introduced by Transportation Committee: Bromm, 23, Chairperson; Jones, 43; Dw. Pedersen, 39; C. Peterson, 35; Thompson, 14.

PURPOSE: In 1999, Legislative Bill 707 was introduced. The bill would have enumerated the regulatory and enforcement powers of the Public Service Commission and drew the attention of the Transportation Committee to the current state of those statutes enumerated in the bill. The purpose of this interim study is to review those provisions of the Nebraska statutes that deal with the Public Service Commission and suggest the means by which those sections may be recodified and updated. The study will:

(1) Examine with special attention the provisions of Chapters 75 and 86 which deal with the regulation of telecommunications in Nebraska to assure consistency of terminology and statutory mandates, taking into account all recent developments of telecommunication regulation on the state and federal level;

(2) Assure that the statutes remain in compliance with the federal Telecommunications Act of 1996; and

(3) Propose to the Legislature a recodified version of those statutes

mentioned in LB 707 and examined in the interim study.

PURPOSE: In 1999, Legislative Bill 641 was introduced, a bill which dealt with the issuance of historic motor vehicle titles. In addition, in Congress S.655 was introduced by U.S. Senator Trent Lott, which is a bill to establish nationally uniform requirements regarding the titling and registration of salvage, nonrepairable, and rebuilt vehicles. The purpose of this study is to examine Chapter 60, articles 1 and 3, of the Nebraska Revised Statutes that deal with motor vehicle titles and registration. The study will:

1. Examine with special attention the current administration of these sections by the Department of Motor Vehicles and the internal consistency of the Nebraska statutory provisions;

2. Examine those areas in which Nebraska statutes do not currently provide for certain titling and registration provisions dealing with historic motor vehicles and assembled motor vehicles; and

3. Monitor and take into account the actions of the U.S. Congress with respect to nationally uniform requirements for the titling and registration of motor vehicles.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

"Section 1. For purposes of sections 1 to 4 of this act:

(1) Business day means a day on which state offices are open for regular business;

(2) Department means the Department of Health and Human Services;

(3) Obligee means a person to whom a duty of support is owed pursuant to a support order;

(4) Obligor means a person who owes a duty of support pursuant to a support order;

(5) State Disbursement Unit means the office established in section 2 of this act;

(6) Support has the same meaning as found in section 43-3313;

RESOLUTIONS

LEGISLATIVE RESOLUTION 173. Introduced by Thompson, 14; Hartnett, 45; Bruning, 3.

PURPOSE: In 1988, the Department of Roads published the Nebraska Highway Needs Study. This was the result of the passage of legislation that called for a study and a continuing procedure for reporting annually to the Legislature on the state's highway needs and the department's planning and programming. The 1988 Nebraska Highway Needs Study considered the current and future highway needs in Nebraska.

Since 1988, Nebraska has seen considerable changes in population, traffic, and state and federal funding policies and priorities. It is beneficial to implement a study to review these changes and examine how they have affected the current and future needs of Nebraska's transportation system and to determine if a full review and comprehensive revision of the previous study is necessary. If a revision of the 1988 study is determined to be necessary, the criteria and data on which that study was based should also be reviewed in order to determine if there are any additional criteria or data that should be considered for determining and funding future highway projects.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 174. Introduced by Coordsen, 32; Bromm, 23; Schimek, 27; Kristensen, 37.

PURPOSE: The purpose of this resolution is to direct that a study be conducted to:

(1) Draft guidelines for the Legislature's 2001 redistricting process. The redistricting guidelines shall be developed for Congressional, Legislative, Supreme Court, Board of Regents, Public Service Commission, and State

Board of Education districts. The guidelines shall be drafted with the intent of (a) ensuring that plans developed are constitutionally acceptable and (b) making the process as efficient, fair, and open as possible; and

(2) Make recommendations for statutory changes for reapportionment and redistricting that may be necessary for consideration by the Legislature in 2000.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Executive Board of the Legislative Council appoint a special committee to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 175. Introduced by Raikes, 25; Dierks, 40; Dickey, 18.

PURPOSE: The Legislature finds that the methods, institutions, and procedures by which agricultural commodities are exchanged and priced are of major importance to producers, processors, and consumers. Exchange arrangements determine the distribution of economic rewards, signal producers about quantity and quality of products produced, and ultimately have an impact on the structure of production and processing sectors.

The purpose of this interim study is:

(1) To identify trends underway in agricultural commodities pricing and other exchange arrangements used in Nebraska, the reasons for these trends, and the problems that may need to be addressed as a result of these trends;

(2) To identify alternative pricing and exchange arrangements that may be applicable to agricultural commodity marketing in Nebraska, including arrangements involving the use of available electronic information technology; and

(3) To propose actions needed by the Legislature to enable pilot or permanent programs.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 176. Introduced by Dierks, 40; Bromm, 23.

PURPOSE: To study the provisions of group health insurance covering public employees, all or a portion of the premiums for which is paid by the public entity employer of the insureds. The study shall include, but not be limited to, the following:

(1) Examining the need for and implications of a statutory requirement that insurance carriers who have issued a group health insurance policy covering public employees annually file with the Department of Insurance a financial summary report of the policy which shall include a description of coverages, premium rates, number of employees covered, and total claims paid; and

(2) Examining the need for and implications of a statutory requirement that insurance carriers who have issued a group health insurance policy covering public employees report quarterly to the respective board a financial summary, by coverage, of expenses incurred since the last report.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Banking, Commerce and Insurance Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 177. Introduced by Wickersham, 49; Schimek, 27.

PURPOSE: In November 1998, the voters approved an amendment to the Constitution of Nebraska to allow cities and counties, as well as other political subdivisions, to consolidate. LB 803 was introduced in 1999 in an effort to deal with the procedural, political, and pragmatic issues that would surround any merger. This study is to further the research into ways to eliminate or reduce the obstacles to greater efficiency and effectiveness that may be possible through consolidation.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs and Revenue Committees of the Legislature shall be designated to conduct a joint interim study to carry out the purposes of this resolution.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 188. Introduced by Schimek, 27.

PURPOSE: The purpose of this study is to examine the compensation levels for public officials who are elected on a state level. This would include the constitutional officers, the members of the Legislature, and the members of the Public Service Commission.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 189. Introduced by Schimek, 27.

PURPOSE: The purpose of this study is to address drafting style changes to

the Nebraska Political Accountability and Disclosure Act which was adopted in 1976. The style of the original act included long paragraphs with multiple dependent clauses and can be difficult to read and understand. Since 1976 the act has been amended numerous times in order to address changing conditions and expectations. These numerous amendments have tended to make long paragraphs and long sentences even longer resulting in an act which can be even more difficult to read and understand.

Those subject to the Nebraska Political Accountability and Disclosure Act and members of the public interested in activities regulated by the act would benefit if the act were redrafted so that it clearly states what is required and what is prohibited. The purpose of a redraft would be to state clearly, simply, and in logical order what is required and what is prohibited by the act. No change in the substance of the act is intended but various items of public interest may be addressed.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 190. Introduced by Schimek, 27.

PURPOSE: The purpose of this resolution is to examine issues within the jurisdiction of the Government, Military and Veterans Affairs Committee. Among the issues identified that may need study are recall, initiative, and referendum processes; the authorization and design of municipal counties; emergency planning; zoning; the State of Nebraska contracting processes; the costs of public records; issues associated with Buckley v. American Constitutional Law Foundation, decided January 12, 1999, by the United States Supreme Court; and other related issues..

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 191. Introduced by Wickersham, 49; Raikes, 25.

PURPOSE: During the twenty-year time period from FY1979-80 through FY1997-98, General Fund spending on the medicaid program increased in all but one year. The decrease in FY1989-90 was two percent. The increases during this twenty-year period ranged from a low of one percent to a high of forty-one percent.

Due to the wide range of increases and the premise that medicaid utilization rises during periods of economic downturns, the Legislature would benefit from having an additional tool to project future costs. This study shall apply statistical methods to project future General Fund medicaid costs. The results of the statistical analysis shall provide the Legislature with a method to plan for the future level of annual obligations for the medicaid program.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 192. Introduced by Wehrbein, 2.

PURPOSE: In 1972, the Legislature enacted the Air and Water Pollution Control Tax Refund Act which provides an incentive for businesses and industry to control wastes that pollute air and water. In the early 1990s, policymakers have shifted their focus from controlling wastes to reducing wastes. This shift in policy is evidenced in the federal Pollution Prevention Act of 1990 which establishes a national policy that "pollution should be prevented or reduced at the source whenever possible" and in Nebraska's enactment of the Integrated Solid Waste Management Act which recognizes a hierarchy for the management of solid wastes. This study shall focus on whether the tax incentive created in the Air and Water Pollution Control Tax Refund Act should be restructured to encourage waste reduction and prevention instead of waste control.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Natural Resources and Revenue Committees of the Legislature shall be designated to conduct a joint interim study to carry out the purposes of this resolution.

2. That the committees shall upon the conclusion of their study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 193. Introduced by Lynch, 13.

PURPOSE: The pickle card industry in Nebraska has decreased greatly over the last five years. While competition from casinos in neighboring states and illegal machine gaming account for most of the decline, another area that is damaging to the industry is the decline in the number of operators. The purpose of this study is to examine the reason for the decline in operators and to attempt to find solutions for increasing their numbers. Information from industry operators shows that since 1995 more than 164 operators have quit due to low profits.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the General Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 194. Introduced by Lynch, 13.

PURPOSE: The purpose of this interim study is to study the fiscal impact of the Medicaid Buy-In option on Medicaid and other programs effected by the change.

The fiscal note on LB 518 (amended into LB 594) predicted one hundred individuals, not currently on Medicaid, would option to buy-in, creating an increase in program costs. Increased income levels will reduce the individual's need for other assistance programs: Food stamps; energy assistance programs; subsidized housing; and subsidized income payments. Increased income will also result in an increase in state income tax revenue (additional taxable income) and an increase in sales tax revenue (more disposable income). It is the intent of this study to see if the savings in income sensitive programs will offset any increases in Medicaid costs.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 195. Introduced by Lynch, 13.

PURPOSE: Even though most insurance companies give some type of discount for the successful completion of a driver's education course, Nebraska does not have a law that requires such a discount. The purpose of this interim study is to study the impact that a state law would have requiring insurance companies to give a discount for the successful completion of a driver's education course.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Banking, Commerce and Insurance Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 196. Introduced by Lynch, 13.

PURPOSE: The purpose of this study is to explore the concept of changing the annual license plate renewal tab from a three-letter designation to a two-digit designation.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 197. Introduced by Lynch, 13.

PURPOSE: The purpose of this study is to fashion a remedy for noncustodial parents to utilize when their visitation rights are violated. Most county courts provide assistance in collecting court-ordered child support, but do not provide assistance for those who are experiencing trouble in enforcing court-ordered visitation.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 198. Introduced by Lynch, 13.

PURPOSE: The purpose of this interim study is to study judicial cases involving child custody to determine if the welfare of the child is considered paramount in all cases, regardless of the biological relationship among the interested parties. The study shall also determine if a law is needed to direct that custody of a minor child shall not be awarded by the courts solely on the basis of a biological relationship.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 199. Introduced by Lynch, 13.

PURPOSE: The purpose of this study is to examine the impact of operating airboats on the Platte River. The amount of pollution (noise and trash) has increased in direct proportion to the number of airboats being operated on the river thereby eroding the natural beauty of the river.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 200. Introduced by Lynch, 13.

PURPOSE: The purpose of this interim study is to determine the cost and administrative effectiveness of the establishment of the Douglas County Clerk as a County Comptroller and whether such cost savings lead to the consideration of statewide application of a county comptroller system.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 201. Introduced by Brashear, 4; Chambers, 11.

PURPOSE: Article VII, section 5, of the Constitution of Nebraska provides that all fines, penalties, and license money, with certain exceptions, be used for support of the common schools. One such exception provides that money, property, or proceeds of property forfeited or seized under state law pursuant to the enforcement of the drug laws shall be equally divided between support of the common schools and for drug enforcement purposes. Federal law and regulations, however, permit the federal government to return to a local law enforcement agency eighty percent of money, property, or proceeds of property forfeited to the United States. As money and property used in the trafficking of drugs is often used to violate both federal and state law, it is possible to bring a forfeiture action in either state or federal court. The financial and procedural benefits of bringing such an action in federal court has led to widespread use of the federal forfeiture system by Nebraska law enforcement agencies, to the exclusion of procedures and requirements provided under Nebraska law.

The purpose of this resolution is to study the state and federal forfeiture systems and related fines and penalties, the use of money and proceeds generated by forfeitures, the accountability for the money and proceeds, and the need for legislation to address the use of the forfeiture systems by Nebraska and its political subdivisions.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 202. Introduced by Brashear, 4; Schimek, 27.

PURPOSE: Legislative Bill 108 would permit an individual to petition a court to request that certain personal information remain confidential on all public records in the event that life-threatening circumstances exist in relation to the individual or a member of his or her household. Current law does not permit such a petition and order. The purpose of this resolution is to examine the need for such a law and the appropriate provisions of such.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report

of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 203. Introduced by Brashear, 4.

PURPOSE: Legislative Bill 700 sought to address the issue of the ability of local political subdivisions to recover from responsible persons the cost of providing emergency response services in a hazardous substance emergency. No state law currently provides for recovery of such costs. The purpose of this resolution is to examine the need for such a law and the appropriate provisions of such.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 204. Introduced by Brashear, 4.

PURPOSE: Legislative Bill 591 included a change to the State Tort Claims Act that would provide immunity for claims arising out of the closure, regulation, modification, improvement, or installation of any railroad crossing or railroad sign or signal or the failure to close, regulate, modify, improve, or install any of such. The responsibilities of the Department of Roads with regard to railroad crossings have increased due to the adoption of the Nebraska Highway-Rail Grade Crossing Safety and Consolidation Act in 1997, which has given rise to concerns about the appropriate standard of tort liability. The purpose of this resolution is to examine the need for a change to the State Tort Claims Act and the appropriate provisions of such.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 205. Introduced by Brashear, 4.

PURPOSE: The purpose of this resolution is to study whether Nebraska should consider revising Chapter 64, dealing with notaries public.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 206. Introduced by Brashear, 4.

PURPOSE: LB 617 was introduced in the 1999 legislative session and on March 19, 1999, the Judiciary Committee conducted a public hearing. LB 617 would have created the office of state district attorney consisting of twelve districts within the state. The primary function of the office of state district attorney would be criminal and juvenile prosecution, with civil matters being handled by the county attorney. The primary funding would be through annual appropriations by the Legislature, and any additional necessary funding would be provided by the counties.

The purpose of this study is to examine the feasibility of the state district attorney concept, with special emphasis on cost.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 207. Introduced by Brashear, 4.

PURPOSE: LB 852, introduced and heard by the Judiciary Committee of the Legislature during the 1999 legislative session, dealt with mentally ill dangerous juveniles. The primary purpose of the bill was to insure that proceedings against a juvenile alleged to be mentally ill and dangerous were closed to the public. Further, all records of such proceedings are to remain confidential.

The committee's interim study will focus on the procedures involved and the recordkeeping utilized with respect to juveniles alleged to be mentally ill dangerous persons.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 208. Introduced by Brashear, 4.

PURPOSE: To study the operating structure and legal authority of diversion programs for traffic offenses, including, but not limited to, a detailed examination of the statutes under which traffic diversion programs are established, the allocation of fees paid by diversion program participants in lieu of traffic fines, the feasibility of a statewide computerized registration system for diversion program participants, and assessment of the need for state oversight and development of a standardized curriculum, course length, and fee schedule for traffic diversion programs.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 209. Introduced by Schrock, 38; Coordsen, 32; Dierks, 40; Raikes, 25.

PURPOSE: To study the feasibility of merging the functions and staff of the Corn Development, Utilization, and Marketing Board, the Grain Sorghum Development, Utilization, and Marketing Board, and the Nebraska Ethanol Board and efficiencies that could be achieved by merger of the boards.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 210. Introduced by Bromm, 23; Kiel, 9; Coordsen, 32; Thompson, 14; Bruning, 3.

PURPOSE: To initiate a study of the feasibility of telecommuting in Nebraska, whereby state agencies would be granted the authority to implement telecommuting programs allowing eligible employees to work away from their traditional places of work. Legislation to adopt the Nebraska Telecommuting Act, LB 869, was introduced and heard by the Transportation Committee in 1999, and was held for interim study.

This study shall consider, but not be limited to, the following issues:

(1) The telecommuting programs implemented by other states, including analysis of their legislation, policies, and program review data;

(2) The conditions under which other public and private entities have had

success with telecommuting and compare such conditions to Nebraska's state government;

(3) Assessment of need and desirability of a telecommuting program;

(4) Assessment of the potential for reducing employee absenteeism, promoting employee health and wellness, improving employee recruitment and retention, enhancing the working life and opportunities of persons with disabilities, improving employee productivity, and facilitating the optimum utilization of office and parking facilities; and

(5) The use of telecommuting to address the labor shortage problem that has been predicted to occur in Nebraska within the next several years, as well as the use of telecommuting to utilize workers from all areas of the state.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 211. Introduced by Schrock, 38; Wickersham, 49; Beutler, 28; Tyson, 19; Hartnett, 45.

PURPOSE: The purpose of this resolution is to study recent solid waste management issues that have developed since implementing the Integrated Solid Waste Management Act enacted in 1992 with the passage of Legislative Bill 1257, Ninety-second Legislature, Second Session. LB 1257 was passed by the Legislature in response to a federal mandate on the states. LB 1257 mandated that, effective October 1, 1993, municipalities and counties shall provide for or contract for facilities and systems as necessary for the safe and sanitary disposal of solid waste generated within their solid waste jurisdiction areas, in compliance with federal and state rules and regulations. This study shall include, but not be limited to, examination of the following:

(1) The necessity for solid waste agencies to maintain required revenue to pay off bonds issued to finance the construction and operation of public solid waste disposal facilities developed by political subdivisions which join together pursuant to LB 1257 and the Interlocal Cooperation Act; and

(2) The compelling state interest to protect the public health, safety, and welfare, as well as the environment, and the public investment in solid waste disposal facilities developed by public agencies as a result of LB 1257.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 212. Introduced by Dierks, 40.

PURPOSE: Organic farming and sustainable agriculture represent perhaps the fastest growing sectors of the agricultural market, and organic farming and sustainable agriculture methods have proven valuable in helping family farmers prosper, strengthening rural communities, and improving our environment. The purpose of this study is to help the Legislature compile information that would help its members better understand organic farming and sustainable agriculture in Nebraska, and specifically to better understand:

(1) The extent to which organic farming and sustainable agriculture have become an important and growing part of Nebraska's economy;

(2) The economic benefits of organic farming and sustainable agriculture for farmers who use these practices and for the communities where organic farming and sustainable agriculture is practiced;

(3) The benefits for Nebraska consumers in providing additional access to organic and sustainably produced food grown in Nebraska;

(4) The potential environmental benefits to our land and surface and ground water that would result from a broader use of organic and sustainable farming methods; and

(5) The potential for new programs and changes in existing policies and programs to encourage more rapid adoption of organic and sustainable methods by Nebraska farmers, including an analysis of LB 402 (1999) and LB 463 (1999).

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 213. Introduced by Brown, 6; Jensen, 20.

PURPOSE: In 1996, the Nebraska Legislature passed LB 1213. This legislation effectively banned the over-the-counter sale of any product containing ephedrine or ephedra. The purpose for this legislation was to remove these products from the market because they were being used as precursor drugs in the production of methamphetamine. Since the passage of this legislation, it has been suggested that dietary supplements containing ephedra cannot be made into methamphetamines using street methods and should not be subject to the ban in Nebraska. Recently, other states and the Council of State Governments have adopted or suggested regulations of ephedrine that exempt natural ephedra products which comply with specific requirements. These requirements include a prohibition against the sale of these products to minors, recommended serving limitations, and a prohibition

against marketing these drugs for specific purposes. It is the intent of this study to generate discussion and determine whether legislation which permits the sale of ephedra products for legitimate purposes, and at the same time more effectively addresses any abuse problems in Nebraska, should be introduced.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 214. Introduced by Bruning, 3; Smith, 48.

PURPOSE: Nebraska's economic growth depends on the ability to supply the state's labor market with an abundant qualified workforce. Therefor it is necessary to review the current situation regarding the reasons why Nebraska's students choose to leave the state to pursue educational or other opportunities. A study shall examine and gather information from state universities, colleges, the Department of Economic Development, and various other sources in order to determine the reasons why Nebraska's students choose to leave the state.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 215. Introduced by Bruning, 3.

PURPOSE: In the 1960's, white perch were introduced to Nebraska by the Game and Parks Commission and have established a large presence in the eastern half of the state. After unintentional stocking of the white perch in the Wagon Train and Stagecoach reservoirs near Lincoln, both bodies of water were chemically renovated in order to kill all fish, eliminate the white perch, and then restocked with other desirable species. However, white perch have expanded their range in the Salt Valley and Platte River drainages as a result of flooding and high runoff. Currently, Branched Oak Lake and many private lakes such as Villa Springs and Chris Lake are facing numerous problems as a result of white perch infestations that negatively impact other species of fish. The Game and Parks Commission has spent hundreds of thousands of

dollars on public lake renovations and many private lake associations are now facing a financial decision on the renovation of their lakes. Therefore, it is necessary to review the current situation with regards to the white perch infestation and the possible future consequences to public and private bodies of water.

This study shall examine:

(1) How the white perch were introduced to Nebraska;

(2) What attempts have been made to control the white perch population;

(3) The impact on our state's fisheries resources;

(4) The options available to private lake associations to deal with the infestation; and

(5) Future consequences to Nebraska's lakes and rivers if the white perch populations continue to increase and expand their range.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 216. Introduced by Robak, 22; Kiel, 9; Beutler, 28; Suttle, 10.

PURPOSE: The purpose of this interim study resolution is to investigate the incarceration of individuals with mental illness. The study should include, but not be limited to, input from representatives of the Department of Health and Human Services, the Department of Correctional Services, county officials, mental health regions, the judiciary, and the Nebraska Commission on Law Enforcement and Criminal Justice.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 217. Introduced by Bromm, 23; Hudkins, 21; Vrtiska, 1; Jones, 43; C. Peterson, 35.

PURPOSE: Several bills were introduced during the 1999 session of the Legislature which proposed many different solutions to problems associated with uninsured, underinsured, and nonregistered motor vehicles in Nebraska. The purpose of this study is as follows:

(1) Examine proposals for changes in Nebraska's statutes designed to diminish the instances of uninsured, underinsured, and nonregistered motor vehicles on Nebraska highways;

(2) Examine the safety and fiscal impact of those changes that are being studied, with particular attention paid to costs to the State of Nebraska and the general public created by changes to the Nebraska statutes; and

(3) Consult with those having a special knowledge of the insurance industry and highway safety to determine appropriate courses of action.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Transportation Committee and the Banking, Commerce and Insurance Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committees shall upon the conclusion of the study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 218. Introduced by Hartnett, 45.

PURPOSE: A continuing matter of statewide controversy and debate is the lack of representation on municipal decisionmaking bodies by the citizens who reside in areas subject to municipal control and regulation which are located outside of the boundaries of the municipalities. Under Nebraska law, cities and villages exercise jurisdiction for a number of purposes over areas outside their boundaries. In addition to planning and zoning regulations, subdivision regulations, and building codes, citizens who live in these areas are also subject to some police power regulations, including nuisance laws. The citizens who live in these areas often pay higher fees or taxes as the result of the municipal action on the construction, improvement, or expansion of some utility facilities, but they lack any representation on the governing body of the municipality or any real influence over the course of debate or the final decision on these matters of vital importance to them.

Municipal decisions involving expansions of facilities that provide water, sewer, gas, or solid waste disposal services can have a significant influence on the cost and quality of life of the residents both inside and outside city limits, but the nonresidents have little or no voice in the process and often find themselves paying higher fees for the same service than do residents.

The purpose of this study will be to investigate the full range of powers granted to municipalities, both cities and villages, which involve jurisdiction over residents in areas outside of municipal boundaries, to determine how widespread is the exercise of these powers and the extent of their reach, to determine if these powers are necessary or appropriate, and to determine how best to provide for more involvement of the citizens residing in these areas in the exercise of these powers.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 219. Introduced by Hartnett, 45.

PURPOSE: This study, following a fifteen-year tradition, will provide the opportunity for the committee to investigate and review matters and issues arising during the interim which are within the jurisdiction of the Urban Affairs Committee and which may be the subject of bills to be introduced in the 2000 legislative session. This would provide the opportunity for a careful review of proposed legislation and the drafting of such legislation before time constraints and the pace of legislative activity makes studied review more problematic. This process has also served to facilitate review of bills during the session and has helped the committee avoid the need for committee amendments which slow down the consideration of bills by the full legislature.

The study will involve:

(1) A review of legislation considered by the Urban Affairs Committee during the 1999 legislative session which was either killed by the committee or held in committee to determine what other further action by the committee might be warranted with regard to the particular subjects of the individual bills;

(2) A review of problems, concerns, or legislation proposed for introduction by senators or other parties for study, technical discussion, or conceptual refinement before the start of the next legislative session; and

(3) The conducting of at least one public hearing to provide an opportunity for public comment and discussion with members of the committee and the public on issues involving matters within the committee's jurisdiction.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 220. Introduced by Transportation Committee: Bromm, 23, Chairperson; Baker, 44; Hudkins, 21; Jones, 43; Dw. Pedersen, 39; C. Peterson, 35; Robak, 22; Thompson, 14; and Byars, 30.

PURPOSE: Beginning in 1994 and continuing through the present, the number of traffic fatalities on Nebraska highways has risen consistently, and other accident rates also remain a concern. The purpose of this study is to examine the accident and fatality statistics in Nebraska. The study will:

1. Gather information from the Office of Highway Safety, the National Highway Traffic Safety Administration, and any other sources as deemed relevant, on both long-term trends in traffic accidents, and the trends in contributing factors that caused such fatalities and accidents; and

2. Examine how the Nebraska Rules of the Road may be changed to minimize or limit causes of highway accidents and fatalities.

The committee may also consider any other factors and proposals involving increasing highway safety, as deemed appropriate.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Transportation Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 221. Introduced by Bromm, 23; Matzke, 47; Wehrbein, 2; Jones, 43; C. Peterson, 35; Baker, 44; Thompson, 14; Robak, 22; Dw. Pedersen, 39.

PURPOSE: In May 1999 the Legislature received the full report on Phases II and III of the study of railroad crossing issues which was required by Laws 1997, LB 255. The purposes of this study are the following:

(1) Examine ways in which the recommendations made in the LB 255 study may be best implemented by legislation;

(2) Examine permissible and appropriate ways of funding the improvements and changes suggested by the LB 255 study; and

(3) Examine the safety and fiscal impact of the changes suggested by the LB 255 study.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Transportation Committee and Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committees shall upon the conclusion of the study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 222. Introduced by Bohlke, 33.

PURPOSE: The goal of the interim study is to examine ways through tax credits to encourage Nebraska businesses to participate in the accessibility and affordability of quality child care for working families.

The need for quality child care that is accessible and affordable is a daily concern for thousands of Nebraska working parents. In Nebraska, the percentage of families with children headed by a single parent continues to grow. The percentage of mothers in the labor force with children under age six is greater in Nebraska at seventy-one percent than the percentage of the United States as a whole at sixty percent. Parents are struggling to balance work and parenthood, and the business community is being affected by the conflicts. In a state where the unemployment rate is historically one of the nation's lowest and the marketplace is highly competitive, businesses need a workforce that has high performance rates and high productivity levels.

Child care is an issue of parents and businesses alike. With the reality of the increasing amount of time children spend in child care, a quality child care environment plays a crucial role in the learning and development of Nebraska's children. Quality child care for working families that is affordable and accessible:

(1) Helps working women and single parents remain in the labor force;

(2) Improves employee performance and productivity;

(3) Provides a developmental environment for all children who are the state's future workforce; and

(4) Aids in the economic health and sustainability of Nebraska businesses.

This interim study shall attempt to produce a workable proposal to encourage the involvement of Nebraska businesses in the development of quality child care centers, in sharing the cost burden of child care expenses for employees, and in providing quality learning, parenting, and development programs within child care programs.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 223. Introduced by Bohlke, 33.

PURPOSE: This study will address how early childhood programs can help assure the school success of all children. Recently publicized findings on early brain development document the critical importance of a stimulating and positive environment and secure attachments to caring parents and other adults during the earliest years on children's later performance in school and as adults. Well-designed, comprehensive early childhood or parent education programs provide lasting benefits to children and a later considerable saving of public resources for special education, delinquency, and welfare. The Early Childhood Education Pilot Project Program first funded by the Legislature in 1992 documents similar results for Nebraska children and demonstrates how such projects can be efficiently operated on a broader scale in communities across the state.

As the state tied for the highest number of women with young children below age six in the workforce in the nation, many young Nebraska children are enrolled in home-based and center-based child care settings. Child care settings are the de facto early childhood learning settings for thousands of preschool children. National research demonstrates that the vast majority of these settings are poor to mediocre in quality and compromise children's long-term development. Nebraska has made some progress in linking child care providers to training and education to enhance their skills in working with young children; however, high staff turnover resulting from low wages and poor working conditions compromise children's secure attachment to parents or caregivers and ultimately their learning opportunities.

This study will address funding strategies to support early childhood or parent education programs in schools and communities, with special emphasis on providing state resources to support models of service which combine existing programs and funding streams (e.g., early childhood special education, Head Start, Early Head Start, Even Start, other federal sources, and parent pay). The study shall also explore how such programs serving families with children from birth to kindergarten entrance may connect with and support the providers of child care services and link with health, mental health, and other community support services necessary to assuring that all

areas of children's development can be enhanced.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Education and Health and Human Services Committees of the Legislature shall be designated to conduct a joint interim study to carry out the purposes of this resolution.

2. That the committees shall upon the conclusion of their study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 224. Introduced by Beutler, 28.

PURPOSE: The purpose of this resolution is to study the existing commercial fertilizer fee, with the question posed of whether to extend it and if so, for how long, at what rate, and with what method of calculation. The study shall consider whether and to what extent the cost of cleaning up nonpoint source pollution should be borne by manufacturers or users of commercial fertilizers or pesticides, by the general public, or by some combination thereof.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 225. Introduced by Schmitt, 41; Dierks, 40.

PURPOSE: The purpose of this interim study resolution is to authorize a study and review regarding the use of a freeze brand for livestock identification and proof of ownership.

The Nebraska Brand Committee is charged by law to inspect brands on livestock to determine the true and correct ownership of the livestock prior to sale or slaughter and to investigate all problems associated with brands, brand inspection, and theft and recovery problems, and the committee is charged with the recording of all ownership brands for livestock within the State of Nebraska. Livestock producers are authorized to utilize the technique of freeze branding for individual animal identification purposes.

LB 213, Ninety-sixth Legislature, First Session, 1999, would recognize a properly recorded Nebraska brand applied by the freeze-branding method on livestock as evidence of ownership. Allowing producers to use the technique of freeze branding for ownership purposes without placing limitations on in-herd identification would create confusion when branded animals are presented for sale or shipment, when brand inspectors are attempting to

determine true and correct ownership.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

SELECT FILE

LEGISLATIVE BILL 637. The Brown pending amendment, AM1775, on file and referred to in this day's Journal, was renewed.

Messrs. Kristensen, Janssen, Baker, Jensen, and Mrs. Bohlke offered the following amendment to the Brown amendment:
AM1786

(Amendments to AM1775)

1. Strike the original sections and all amendments thereto and insert the following new sections:

"Section 1. For purposes of this act:

(1) Business day means a day on which state offices are open for regular business;

(2) Department means the Department of Health and Human Services;

(3) Obligee means a person to whom a duty of support is owed pursuant to a support order;

(4) Obligor means a person who owes a duty of support pursuant to a support order;

(5) State Disbursement Unit means the office established in section 2 of this act;

(6) Support has the same meaning as found in section 43-3313;

(7) Support order has the same meaning as found in section 43-1717; and

(8) Title IV-D Division means the Title IV-D Division of the department.

Sec. 2. There is hereby created a State Disbursement Unit, pursuant to 42 U.S.C. 654b, for the statewide collection and disbursement of support order payments. The State Disbursement Unit shall be administered and operated directly by a public or private entity or state officer as designated by the Legislature upon the recommendations of the Title IV-D Division. The entity or officer as designated shall be directly responsible to the Title IV-D Division.

Sec. 3. The Executive Board of the Legislative Council shall oversee a study to determine a method by which the State of

Nebraska can comply with the federal requirements regarding the collection and disbursement of support order payments. The Executive Board shall select the person or group to conduct the study and shall determine the date upon which the study shall be completed. The study shall determine a method which complies with federal law most effectively and efficiently while retaining the high enforcement rates and superior customer service which characterize the present Nebraska support collection and disbursement system.

Sec. 4. (1) By enacting this act, the Legislature recognizes the importance of establishing a centralized disbursement unit at the state level in accordance with 42 U.S.C. 654b. Despite the good faith efforts spanning several years by the State of Nebraska to comply with 42 U.S.C. 654b it seems apparent that the State Disbursement Unit will not be operative prior to October 1, 1999.

(2) On and after October 1, 1999, and until the State Disbursement Unit established in section 2 of this act becomes operative, the Title IV-D Division shall reimburse counties for unrecovered costs associated with the processing and disbursement of support order payments based upon insufficient funds checks received from obligors.

(3) Support order payments shall be disbursed within two business days after receipt.

Sec. 5. For purposes of the establishment, modification, or enforcement of a support order, all district courts shall utilize the Title IV-D Division's statewide automated data processing and information retrieval system. The Title IV-D Division may withhold IV-D funds to counties within the jurisdiction of a district court which are not in compliance with this section.

Sec. 6. The Title IV-D Support Payment Cash Fund is created. The fund shall be used for the collection and disbursement of support payments as provided in this act.

Sec. 7. The Title IV-D Division shall adopt and promulgate rules and regulations to carry out this act.".

Mrs. Thompson asked unanimous consent to be excused until she returns. No objections. So ordered.

PRESIDENT MAURSTAD PRESIDING

Mr. Dickey asked unanimous consent to be excused until he returns. No objections. So ordered.

Pending.

RESOLUTIONS

LEGISLATIVE RESOLUTION 226. Introduced by Raikes, 25; Bohlke, 33.

PURPOSE: To review the status of and propose alternatives to early childhood education in Nebraska. During the years from birth to age three, children experience the fastest brain development within the human lifetime. Research shows that poverty, stress, poor nutrition, and lack of appropriate stimulation during this period can have lifelong negative effects. Early childhood programs can address these problems and reduce their impact by stimulating cognitive and social development. Studies show that good health care and nutrition, positive and attentive parenting, quality child care when child care is necessary, and therapeutic intervention when necessary can have positive educational and social effects extending through childhood and into adulthood. Many states have recognized the positive effects of early childhood programs and have passed legislation to create programs, supplement the quality of child care, or extend services for low-income or all children before they attend schools. Nebraska has not initiated such efforts, except pilot programs. This study will examine and determine:

(1) The percentage of children within the state by income and age who have access to early childhood programs and services, including preschool education programs, child care programs, home visiting programs, and public health programs;

(2) The percentage of children within the state who are lacking needed services;

(3) The expenditures of state funds and the utilization of federal funds for early childhood health services, early childhood education services, and early childhood child care services;

(4) How Nebraska compares in overall expenditures for early childhood health and education to the top ten states, to midwestern states, and its ranking within the country;

(5) How Nebraska compares in terms of services provided for early childhood health and education to the top ten states, to midwestern states, and its ranking within the country, to the extent that is possible;

(6) An estimate of the quality of child care and other early childhood services that state and federal funds are currently supporting, and a proposal for addressing these. Available evaluations shall be reviewed in this study; and

(7) Views of parents, educators, and health professionals regarding the needs of the state in the areas of early childhood education and health-related services.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 227. Introduced by Hartnett, 45; Schimek, 27.

PURPOSE: Over the years a substantial body of statutory and case law has developed regarding planning and zoning matters involving cities and counties in Nebraska. However, the development of the law has occurred along parallel tracks, with little attention given to the interrelationship of the statutes regarding cities and villages and those regarding counties.

With (1) increasing concerns about development outside of city or village zoning authority and increasing urban sprawl, (2) greater emphasis being placed upon the role of counties in managing growth and the conduct of certain enterprises, and (3) the need for cities and counties to operate more cooperatively in the planning process to avoid conflict and save tax revenue, it is important for the legislative committees involved with the oversight of planning and zoning issues to conduct a joint study to review the planning and zoning statutes and determine what problems need to be addressed.

The study should involve a comprehensive review of the Nebraska's current planning and zoning statutes of municipalities and counties, a study of interrelationships between municipal and county zoning statutes, a survey of current problems involving planning and zoning, and recommendations on appropriate statutory changes.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs Committee and the Urban Affairs Committee of the Legislature shall be designated to conduct a joint interim study to carry out the purposes of this resolution.

2. That the committees shall upon the conclusion of the study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

on January 8, 1999, and Dorothy provided valuable service to the Legislature during her years of employment with the Legislature; and

WHEREAS, the Legislature acknowledges the dedication of these individuals and their colleagues as the moving force that makes the work of legislators easier and more successful.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Legislature extends its condolences and sympathy to the families, friends, and colleagues of the late Anne Stovall, Jackie Schizas, Anne Buntain, Pat Higgins, and Dorothy David.

Laid over.

LEGISLATIVE RESOLUTION 229. Introduced by Crosby, 29.

PURPOSE: To study the placement of state wards and determine when children and youth are placed in foster care. This study may include, but shall not be limited to:

1. Inappropriate placement of children in nonsecure facilities;

2. The effect of privatization as it relates to the ability to effectively monitor these facilities and to ensure the safety and security of children and youth;

3. The effect of managed care on placement alternatives, specifically the impact of OPTIONS;

4. Whether there are adequate resources in the Office of Juvenile Services;

5. Whether there are adequate and proper investigations and adequately defined roles by child protective services and law enforcement to intervene before children become violent offenders;

6. Whether there is adequate accountability and oversight by the Department of Health and Human Services - Child Welfare and the Office of Juvenile Services;

7. Whether other types of placements are being considered and made available in Nebraska;

8. The effect of N-Focus as well as the specific effect on the absence of documentation of child and youth histories;

9. Whether children are being allowed to remain in unsafe foster homes or day care homes with individuals who have a history of offenses against children;

10. The effect of the Health and Human Services System partnership and structural issues such as whether children are experiencing inappropriate placements, case delays, or nonquality care due to overburdened casemanagers or casemanager turnover; and

11. Any other issues involved regarding children whose behavior is violent or dangerous who are state wards and are placed in foster care homes and other community-based programs rather than placed in institutions.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services and Appropriations Committees of the Legislature shall be designated to conduct a joint interim study to carry

out the purposes of this resolution.

2. That the committees shall upon the conclusion of their study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 230. Introduced by Jensen, 20.

PURPOSE: The purpose of this study is to review issues relating to the tax exemption granted to the state and political subdivisions for real property used for public purposes. The state and its political subdivisions provide services to the residents of the state, and many of the services necessitate ownership of real property. However, this ownership can result in substantial reductions in the taxable valuation of affected governmental units. This study should examine the following issues: (1) Eliminating the tax exemption for real property used for public purposes; (2) sale of real property of the state and political subdivisions which is not used for public purposes; (3) enacting time limits on public ownership of real property for future growth; (4) comparison of leases of public property and private property; and (5) the impact of taxing the real property of the state and political subdivisions on other property taxpayers.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 231. Introduced by Wickersham, 49.

PURPOSE: The hunting industry is an important segment of Nebraska's recreation and tourism industry. Elk hunting is a highly visible part of Nebraska hunting opportunities, and the enhancement of elk hunting will benefit the hunting and recreation economy. Cooperation between private landowners and the state in wildlife habitat management, specifically elk habitat, would contribute to increased populations of elk in the state and would increase opportunities for successful elk hunting. Cooperation between the State of Nebraska and individuals or groups of landowners owning or controlling large contiguous parcels of elk habitat could enhance public access. Allowing limited transfers of landowner elk hunting permits could provide an incentive to landowners to form cooperative ventures and to coordinate elk habitat management with the state.

The purpose of this study is to determine whether cooperative habitat management between the State of Nebraska and landowners or groups of landowners who own or control 12,000 or more acres of elk habitat would

enhance public access and would contribute to elk hunting success. The study shall also focus on whether it would further such goals by allowing groups of landowners to form a cooperative venture and allowing the limited sale of landowner elk hunting permits issued to cooperative members with the proceeds of that sale to be distributed among the cooperative members.

RESOLUTIONS

LEGISLATIVE RESOLUTION 236. Introduced by Hartnett, 45.

PURPOSE: The purpose of this study is to examine the taxation of mobile homes and improvements to leased land. Mobile homes are currently treated as real property and subject to the tax sale certificate process for delinquent taxes. This study shall include, but not be limited to, examination of the following options:

(1) Use of a lien method of taxation;

(2) Acceleration of taxes for earlier collection of delinquencies;

(3) Earlier removal of unpaid mobile home taxes from tax rolls; and

(4) Any other issues appropriate to conduct a complete examination of issues to improve the system of taxation of mobile homes and improvements to leased land.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 237. Introduced by Hartnett, 45.

PURPOSE: A bill relating to the county inheritance tax, LB 770, was introduced in the 1999 legislative session and would raise the exemption to lineal descendents from $10,000 to $100,000. The purpose of this study is to examine the inheritance tax and the amount of revenue collected by counties from this tax for a three-year period dating from October 1, 1996, to October 1, 1999. The study will also research the loss of revenue to counties if LB 770 was enacted for the time period mentioned or if the exemption were raised to the federal estate tax exemption levels for the same time period. The study shall include, but not be limited to:

(1) Collecting inheritance tax worksheets from the clerk of the county courts of the ten largest and ten smallest counties in the state for each estate for the years mentioned;

(2) Determining the loss of revenue to these counties if LB 770 was enacted for the three years mentioned or if the exemption were raised to the federal estate tax exemption levels for the same time period; and

(3) Examining the role of the state's estate tax in conjunction with federal exemption amounts and the impact inheritance tax plays in the mix.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 238. Introduced by Kiel, 9.

PURPOSE: The purpose of this study is to examine the ways in which the State of Nebraska can more effectively provide correctional strategies and adequate facilities for women prisoners. Components of the study may include, but not be limited to:

1. Examining ways to implement and improve services such as mental health counseling, substance abuse, educational opportunities, and work training; and

2. Studying current facilities and possible ways to improve them.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 239. Introduced by Dierks, 40; Hilgert, 7.

PURPOSE: Bison have been here for hundreds of thousands of years and have had a big impact on humans. The bison industry is an industry experiencing rapid growth, with demand exceeding supply for both meat and breeding stock. Bison are not considered domestic animals and require different handling that other stock. The purpose of this study is to determine the necessity or desirability of enacting state legislation to regulate the bison industry with special emphasis on:

(1) Disease control and prevention;

(2) Managing fencing and handling facilities for capturing, sorting, treating, testing, and confining bison;

(3) Importation rules and regulations; and

(4) Industry promotion and product marketing.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 240. Introduced by Dierks, 40.

PURPOSE: The success of the grain and feed industry is directly dependent on the general health of our agricultural producers. Unfortunately, the sagging export market and ensuing buildup to our domestic stockpile of agricultural commodities continue to add to the costs associated with the storage and transportation of these commodities, which are often borne by producers.

The Nebraska Agricultural Statistics Service (NASS) has determined that corn production in 1998 exceeded 1,239,750,000 bushels, 90 million bushels more than 1997. Soybean production exceeded last year's by an estimated 25 million bushels, for a record total of 165,750,000 bushels. With a better-than-expected wheat harvest, Nebraska grain elevators grappled with one of the most challenging fall harvest seasons in recent memory. According to NASS, Nebraska's storage needs were 200 million bushels higher than they were last year, or the highest since 1986-88. Additionally, NASS has estimated that over the last ten years Nebraska has lost over 400 million

bushels of licensed commercial and on-farm storage.

The challenges that go along with feeding an ever-growing world include the reality that larger crops will result in the need for additional storage capacity, both on-farm and commercial, and in improved transportation capabilities. This is particularly true in light of the direction the 1996 federal farm bill has set our producers in: increased planting flexibility based on reliable market signals and more reliance on strategic marketing decisions.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study on current and future commercial and on-farm storage needs, including essential rail components necessary for the efficient and timely transportation of agricultural commodities.

2. That the committee analyze possible state or federal incentives needed to adequately address the storage and rail transportation infrastructural needs that could, in turn, contribute to a more stable state agricultural economy.

3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 241. Introduced by Dierks, 40.

PURPOSE: The purpose of this interim study resolution is to authorize a study on the status of Nebraska soybean research and promotion programs in anticipation of a referendum on the National Soybean Checkoff.

7 U.S.C. 6301-6311, created through the 1990 federal farm bill, provides for the establishment of a coordinated checkoff program of promotion and research designed to strengthen the soybean industry's position in the marketplace and to maintain and expand domestic and foreign markets and uses for soybeans and soybean products. Each soybean farmer participates in the checkoff, at a rate of one-half of one cent per bushel market price, at the time the crop is first sold. Half of all checkoff funds remain in the states where they are collected, and their use is directed by state boards of soybean producers. The other half of the checkoff funds is forwarded to the United Soybean Board (USB), where it is invested in national and international programs by fifty-nine soybean producers representing all major U.S. production areas.

The Nebraska Soybean Board is a private, nonprofit checkoff board that is responsible for the research and promotion of soybeans in an effort to increase the profitability of the state's 22,000 soybean producers. The research and promotion projects of the Nebraska Soybean Board concentrate on the areas of improved soybean varieties, consumer information projects, increased use of soy as a food ingredient for food product manufacturers, new product development, and producer communications.

A mandated five-year poll of producers that determines the need for a referendum on the checkoff will be conducted before the Ninety-sixth Legislature begins its second session in 2000. In such polling, if the United

States Secretary of Agriculture determines that at least ten percent of U.S. producers engaged in growing soybeans (not in excess of one-fifth of which may be producers in any one state) support the conduct of a referendum, the secretary must conduct a referendum within one year after that determination. If these requirements are not met, a referendum would not be conducted. If a referendum is conducted and U.S. soybean producers vote to eliminate the National Soybean Checkoff, the State of Nebraska will no longer have a state-coordinated soybean research and promotion program.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study on the status of Nebraska soybean research and promotion programs in anticipation of a referendum on the National Soybean Checkoff.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 242. Introduced by Landis, 46.

PURPOSE: The purpose of this resolution is to determine the methods by which Nebraska's citizens could make partial payments of their property taxes. This study should include methods for the payment of taxes in arrears or taxes currently owed.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 243. Introduced by Hartnett, 45.

PURPOSE: In past years, the Urban Affairs Committee has reviewed several pieces of legislation which have sought to use neighborhood or homeowner associations as basic mechanisms for providing citizen input to governing bodies of political subdivisions, for funneling basic information back to their members, and as potential recipients of governmental assistance. At the current time, there is no general definition in statutes of what is required to constitute a neighborhood or homeowner association.

The purpose of this study will be to investigate neighborhood associations and homeowner associations, to determine how widespread their usage is, what areas of the state they exist in, what forms they generally take, how they are constituted, what missions and roles they generally serve for their members and communities, and what function they could serve in mediating between citizens and governmental bodies. If possible, the study will endeavor to generate a statutory profile and definition of such associations.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 244. Introduced by Hartnett, 45.

PURPOSE: The Nebraska Retirement Systems Committee heard two bills during the 1999 legislative session, LB 773 and LB 673, which would provide for cost-of-living adjustments for Nebraska State Patrol retirees. Ultimately, in LB 674, provisions were adopted to insure that the value of retirees' benefits would be equivalent to sixty percent of the original annuity as adjusted for consumer price index changes since the commencement date of the annuity.

The purpose of this study will be to determine the impact of the changes made by LB 674 and to provide an opportunity to inquire into the status of the benefits to be provided to long-term retirees and if additional adjustments should be made. The study will seek to receive additional information from retirees and to determine the most appropriate legislation for recommendation to the Legislature in the 2000 legislative session to insure adequate retirement benefits for such retirees.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Nebraska Retirement Systems Committee of the Legislature

shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 245. Introduced by Hartnett, 45.

PURPOSE: The purpose of this study will be to review Nebraska's current use tax statutes, rules, and regulations. The study shall involve a review of the scope of the use tax, including the amount of revenue raised, the subjects of its application, a comparison of the reach of Nebraska's use tax as it compares to the application of the use tax in neighboring states, and the fairness and uniformity of its application to different subjects that may be comparable in nature.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 246. Introduced by Hartnett, 45.

PURPOSE: With the imposition of budget lids and property tax levy limits on political subdivisions, it is becoming increasingly important for such entities to monitor expenditures and minimize costs whenever possible. This is particularly important for school districts that will see their property tax levy limit ratcheted down from $1.10 to $1.00 in coming years.

One source of particular concern to school districts has been the collection fee charged against property tax receipts by the county treasurer. The question has often been raised as to whether the collection fee reflects the actual costs of the treasurer in collecting the tax.

The purpose of this study will be to determine the actual costs involved in the collection of the property tax by the county treasurer and whether the statutory amount of the charge should be adjusted to more accurately reflect the real costs involved.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 247. Introduced by Hartnett, 45.

PURPOSE: During the 1999 legislative session the Urban Affairs Committee considered LB 804 which would adopt the Limited Purpose Sanitary and Improvement District Act. The act would authorize the creation of special purpose sanitary and improvement districts that would continue to exist within the boundaries of an annexing municipality following annexation for the purpose of maintaining nondedicated streets and roadways that were not constructed in accordance with municipal standards and other green areas and outlots that the municipality does not intend to maintain.

The legislation dealt broadly with the issue of municipal annexation and the financial responsibilities that a municipality must assume for development that occurred prior to that date. But it also raised the larger policy question of the appropriate mechanism for financing that development at the time of development in the light of the future assumption of financial responsibility for that development following annexation.

The purpose of this study will be to focus more closely upon the policy issues and practical problems raised by the Limited Purpose Sanitary and Improvement District Act and to investigate other possible mechanisms for financing new development beyond municipal boundaries. Among the mechanisms to be investigated will be the use of impact fees and other similar strategies that the committee may find from reviewing such activities in other states. The study shall also review current annexation statutes to determine if changes should be made in light of the issues raised by this study.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 248. Introduced by Hartnett, 45.

PURPOSE: In consequence of the amendment to Article VIII, section 1, of the Constitution of Nebraska, enacted in 1998, and the proposed changes to be made in LB 142, both of which mandate that motor vehicle taxes go solely to municipalities, counties, and school districts, sanitary and improvement districts have lost a significant portion of the property tax revenue that they have relied upon in the past. The result will be significantly higher property tax levies for residents and property owners in those districts.

The purpose of this study will be to determine the magnitude and impact of the lost revenue for sanitary and improvement districts and investigate other potential sources of revenue or other strategies aimed at minimizing the amount of lost revenue and preventing property tax increases in these

subdivisions.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 249. Introduced by Hartnett, 45; Thompson, 14; Bruning, 3.

PURPOSE: Since 1980, with the adoption of the Nebraska Visitors Development Act, counties in the state have been authorized to collect a lodging tax of two percent on hotel and motel occupancy charges to create funding for promotional activities to encourage tourism in the area. Since 1989, Douglas County has been authorized to collect up to an additional two percent and can use the funds collected to improve visitor attractions and facilities in the county.

LB 847 was introduced in the 1999 legislative session to authorize additional counties to exercise the authority granted to Douglas County.

This study would investigate the current status of the lodging tax, the amount of revenue it generates, and the manner in which that revenue is used. It would endeavor to determine the appropriate rationale, if such can be done, for permitting these funds to be devoted to capital improvement purposes and would seek to establish if, in the interests of good public policy and in accomplishing the stated goals of the act, additional changes should be made.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 250. Introduced by Hartnett, 45; Stuhr, 24.

PURPOSE: During the 1999 legislative session the Urban Affairs Committee considered LB 462, an act dealing with solid waste collection services, intended to provide for a right to compensation for private solid waste collectors when they are displaced by municipal action to assume control of such activities. The intent of this legislation was to insure that a private solid waste hauler or collector that is forced to go out of business or forced to curtail his or her business due to the action of a municipality would be compensated by the municipality for his or her loss. The basic issues

involved with this legislation were the subject of a recent court decision, Tracy v. City of Deshler, 253 Neb. 170, 568 N.W.2d 903, (1997), in which the Nebraska Supreme Court specifically held that the permit to haul garbage by a solid waste collection business did not constitute a vested property right and that municipal action which damaged the business of an individual collector would not constitute a "taking" which would entitle the company to compensation for its losses. LB 462 would have overturned that decision and created a property right in the municipal permit.

The purpose of this study will be to review the issues raised by LB 462 and determine the most appropriate way to deal with the underlying issues consistent with the protection of the interests of the private solid waste haulers and good public policy. The study shall review the current authority granted to municipalities with regard to solid waste management in the light of current legal developments and the evolving law with regard to these matters.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

PURPOSE: The purpose of this study is to increase safety along Nebraska's highways. Areas of study include:

1. The feasibility of increasing the usage of rumble bars along highways in order to reduce sleep and fatigue-related crashes. The study shall also examine the different kinds of rumble bars available to the Department of Roads for this purpose, and to determine which kinds of rumble bars would be best suited to Nebraska's weather and road conditions. There are sites along Nebraska's highway system that are more dangerous than others, and these sites should be considered when determining where the rumble bars may be constructed; and

2. The possibility of increasing the use of appropriate signs that would reinforce compliance with Nebraska's seatbelt laws. The study should look at sites along Nebraska highways that would be priority sites for such signs.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

LEGISLATIVE RESOLUTION 261. Introduced by Coordsen, 32.

PURPOSE: Agricultural land is often sold to buyers whose primary interest in the land is not for farming or ranching, but for recreation, development, speculation, or aesthetics. The prices paid by these buyers are considerably higher than the value of the land for agricultural or horticultural purposes. These sales subsequently drive up the values of the neighboring agricultural land and result in higher property taxes. The purpose of this resolution is to study possible solutions to the valuation problems generated from agricultural land used for nonagricultural purposes.

The study shall include, but not be limited to:

(1) Examination of the methods and guidelines used by county assessors and the Property Tax Administrator in comparable sales involving agricultural land used for agricultural purposes and agricultural land used for nonagricultural purposes;

(2) Examination of new categories of agricultural and horticultural land which would include agricultural land used for nonagricultural purposes;

(3) Examine the relationship between actual agricultural land valuations and land value if put solely to agricultural use;

(4) Examine the methods and guidelines used by county assessors and the Property Tax Administrator in valuation of farmstead sites that are part of a farming operation;

(5) Examine current use of greenbelting in Nebraska and new ways to expand its use; and

(6) Examine changes proposed in Legislative Bill 853, Ninety-sixth Legislature, First Session, 1999.

A task force shall be appointed by the Executive Board of the Legislative Council with members who are county and state officials and employees with expertise and interest in the subject matter of this resolution. Task force members shall be reimbursed for their expenses pursuant to sections 81-1174 to 81-1177.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SIXTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature and the Executive Board of the Legislative Council shall be designated to conduct an interim study to carry out the purposes of this resolution.

"Sec. 3. Section 77-123, Revised Statutes Supplement, 1998, as amended by section 6, Legislative Bill 194, Ninety-sixth Legislature, First Session, 1999, is amended to read:

77-123. Omitted property means, for the current tax year, any taxable real property that was not assessed on March 20 and any taxable tangible personal property that was not assessed on May 1. Omitted property also means any taxable real or tangible personal property that was not assessed for any prior tax year. Omitted property does not include property exempt under subdivisions (1)(a) through ~~(c)~~ (d) of section 77-202, listing errors of an item of property on the assessment roll of the county assessor, or clerical errors as defined in section 7 of this act.

Sec. 5. Section 77-202.01, Revised Statutes Supplement, 1998, as amended by section 10, Legislative Bill 194, Ninety-sixth Legislature, First Session, 1999, is amended to read:

77-202.01. (1) Any organization or society seeking a tax exemption provided in subdivisions ~~(1)(b) and~~ (1)(c) and (d) of section 77-202 for any real or tangible personal property, except real property used for cemetery purposes, shall apply for exemption to the county assessor on or before December 31 of the year preceding the year for which the exemption is sought on forms prescribed by the Property Tax Administrator. The county assessor shall examine the application and recommend either taxable or exempt for the real property or tangible personal property to the county board of equalization on or before February 1 following.

(2) Any organization or society which fails to file an exemption application on or before December 31 may apply on or before June 30 to the county assessor. The organization or society shall also file in writing a request with the county board of equalization for a waiver so that the county assessor may consider the application for exemption. The county board of equalization shall grant the waiver upon a finding that good cause exists for the failure to make application on or before December 31. When the waiver is granted, the county assessor shall examine the application and recommend either taxable or exempt for the real property or tangible personal property to the county board of equalization and shall assess a penalty against the property of ten percent of the tax that would have been assessed had the waiver been denied or one hundred dollars, whichever is less, for each calendar month or fraction thereof for which the filing of the exemption application missed the December 31 deadline. The penalty shall be collected and distributed in the same manner as a tax on the property and interest shall be assessed at the rate specified in section 45-104.01, as such rate may from time to time be adjusted by the Legislature, from the date the tax would have been delinquent until paid. The penalty shall also become a lien in the same manner as a tax pursuant to

section 77-203.

Sec. 6. Section 77-202.03, Revised Statutes Supplement, 1998, as amended by section 11, Legislative Bill 194, Ninety-sixth Legislature, First Session, 1999, is amended to read:

77-202.03. (1) A properly granted exemption of real or tangible personal property, except real property used for cemetery purposes, provided for in subdivisions ~~(1)(b) and~~ (1)(c) and (d) of section 77-202 shall continue for a period of four years if the affidavit required by subsection (2) of this section is filed when due. The four-year period shall begin with years evenly divisible by four.

(2) In each intervening year occurring between application years, the organization or society which filed the granted exemption application for the real or tangible personal property, except real property used for cemetery purposes, shall file an affidavit with the county assessor on or before December 31 of the year preceding the year for which the exemption is sought, on forms prescribed by the Property Tax Administrator, certifying that the ownership and use of the exempted property has not changed during the year. Any organization or society which misses the December 31 deadline for filing the affidavit may file the affidavit by June 30. Such filing shall maintain the tax-exempt status of the property without further action by the county and regardless of any previous action by the county board to deny the exemption due to late filing of the affidavit. Upon any such late filing, the county board shall assess a penalty against the property of ten percent of the tax that would have been assessed had the affidavit not been filed or one hundred dollars, whichever is less, for each calendar month or fraction thereof for which the filing of the affidavit is late. The penalty shall be collected and distributed in the same manner as a tax on the property and interest shall be assessed at the rate specified in section 45-104.01, as such rate may from time to time be adjusted by the Legislature, from the date the tax would have been delinquent until paid. The penalty shall also become a lien in the same manner as a tax pursuant to section 77-203.

(3)(a) If any organization or society seeks a tax exemption for any real or tangible personal property acquired on or after January 1 of any year or converted to exempt use on or after January 1 of any year, the organization or society shall make application for exemption on or before August 1 of that year as provided in section 77-202.01. The procedure for reviewing the application shall be as in sections 77-202.01 to 77-202.07, except that the exempt use shall be determined as of the date of application and the review by the county board of equalization shall be completed by August 15.

(b) If an organization as described in subdivision ~~(1)(b) or~~ (1)(c) or (d) of section 77-202 purchases, between August 1 and the levy date, property that has been granted tax exemption and the property continues to be qualified for a property tax exemption, the purchaser shall on or before December 1 make application for exemption as provided in section 77-202.01. The procedure for reviewing the application shall be as in sections 77-202.01 to 77-202.07, and the review by the county board of equalization shall be completed by December 15.

(4) In any year, the county assessor or the county board of equalization may cause a review of any exemption to determine whether the exemption is proper. Such a review may be taken even if the ownership or use of the property has not changed from the date of the allowance of the exemption. The review shall follow the procedure set out in section 77-202.02. If it is determined that a change in an exemption is warranted, the procedure for hearing set out in section 77-202.02 shall be followed. If an exemption is denied, the county board of equalization shall place the property on the tax rolls retroactive to January 1 of that year if on the date of the decision of the county board of equalization the property no longer qualifies for an exemption.

The county board of equalization shall give notice of the assessed value of the real property in the same manner as outlined in section 77-1507, and the procedures for filing a protest shall be the same as those in section 77-1502.

When personal property which was exempt becomes taxable because of lost exemption status, the owner or his or her agent has thirty days after the date of denial to file a personal property return with the county assessor. Upon the expiration of the thirty days for filing a personal property return pursuant to this subsection, the county assessor shall proceed to list and value the personal property and apply the penalty pursuant to section 77-1233.04.

(5) During the month of September of each year, the county board of equalization shall cause to be published in a paper of general circulation in the county a list of all real estate in the county exempt from taxation for that year pursuant to subdivisions ~~(1)(b)~~ ~~and~~ (1)(c) and (d) of section 77-202. Such list shall be grouped into categories as provided by the Property Tax Administrator. A copy of the list and proof of publication shall be forwarded to the Property Tax Administrator.

Sec. 11. Original sections 21-1927 and 60-3002, Reissue Revised Statutes of Nebraska, sections 77-202 and 77-202.09, Revised Statutes Supplement, 1998, and sections 77-123, 77-202.01, and 77-202.03, Revised Statutes Supplement, 1998, as amended by sections 6, 10, and 11, respectively, Legislative Bill 194, Ninety-sixth Legislature, First Session, 1999, are repealed.".

4. On page 1, the matter beginning with "section" in line 1 through line 7 has been struck and "sections 21-1927 and 60-3002, Reissue Revised Statutes of Nebraska, sections 77-202 and 77-202.09, Revised Statutes Supplement, 1998, and sections 77-123, 77-202.01, and 77-202.03, Revised Statutes Supplement, 1998, as amended by sections 6, 10, and 11, respectively, Legislative Bill 194, Ninety-sixth Legislature, First Session, 1999; to change a provision relating to rights of nonprofit corporations; to change provisions relating to property tax exemptions; to provide for tax treatment of leased and unleased public property as prescribed; to harmonize provisions; to provide an operative date; and to repeal the original sections." inserted.

Enrollment and Review Change to LB 585

The following changes, required to be reported for publication in the Journal, have been made:
ER9088

1. In the Bromm-Beutler amendment, AM1489:

a. Section 2 has been struck and the following new section inserted:

"Sec. 2. Section 60-4,118, Reissue Revised Statutes of Nebraska, as amended by section 18, Legislative Bill 704, Ninety-sixth Legislature, First Session, 1999, is amended to read:

60-4,118. (1) No operator's license shall be granted to any applicant until such applicant satisfies the examiner that he or she possesses sufficient powers of eyesight to enable him or her to obtain a Class O license and to operate a motor vehicle on the highways of this state with a reasonable degree of safety. The Department of Motor Vehicles, with the advice of the Health Advisory Board, shall adopt and promulgate rules and regulations:

(a) Requiring a minimum acuity level of vision. Such level may be obtained through the use of standard eyeglasses, contact lenses, or bioptic or telescopic lenses which are specially constructed vision correction devices which include a lens system attached to or used in conjunction with a carrier lens; and

(b) Requiring a minimum field of vision. Such field of vision may be obtained through standard eyeglasses, contact lenses, or the carrier lens of the bioptic or telescopic lenses.

(2) If a vision aid is used by the applicant to meet the vision requirements of this section, the operator's license of the applicant shall be restricted to the use of such vision aid when operating the motor vehicle. If the applicant fails to meet the vision requirements, the examiner shall require the applicant to present an optometrist's or ophthalmologist's statement certifying the vision reading obtained when testing the applicant within ninety days of the applicant's license examination. If the vision reading meets the vision requirements prescribed by the department, the vision requirements of this section shall have been met.

(3) If the applicant for an operator's license discloses that he or she has any other physical impairment which may affect the safety of operation by such applicant of a motor vehicle, the examiner shall require the applicant to show cause why such license should be granted and, through such personal examination and demonstration as may be prescribed by the director with the advice of the Health Advisory Board, to show the necessary ability to safely operate a motor vehicle on the highways. The director may also require the person to appear before the board or a designee of the board. If the examiner, board, or designee is then satisfied that such applicant has the ability to safely operate a motor vehicle, an operator's license may be issued to the applicant subject, at the discretion of the director, to a limitation to operate only such motor vehicles at such time, for such purpose, and within such area as the license shall designate.

(4)(a) The director may, when requested by a law enforcement officer,

when the director has reason to believe that a person may be physically or mentally incompetent to operate a motor vehicle, or when a person's driving record appears to the department to justify an examination, request the advice of the Health Advisory Board and may give notice to the person to appear before an examiner, the board, or a designee of the director for examination concerning the person's ability to operate a motor vehicle safely. Any such request by a law enforcement officer shall be accompanied by written justification for such request and shall be approved by a supervisory law enforcement officer, police chief, or county sheriff.

(b) A refusal to appear before an examiner, the board, or a designee of the director for an examination after notice to do so shall be unlawful and shall result in the immediate cancellation of the person's operator's license by the director.

(c) If the person cannot qualify at the examination by an examiner, his or her operator's license shall be immediately surrendered to the examiner and forwarded to the director who shall cancel the person's operator's license.

(d) If in the opinion of the board the person cannot qualify at the examination by the board, the board shall advise the director. If the director determines after consideration of the advice of the board that the person lacks the physical or mental ability to operate a motor vehicle, the director shall notify the person in writing of the decision. Upon receipt of the notice, the person shall immediately surrender his or her operator's license to the director who shall cancel the person's operator's license.

(e) Refusal to surrender an operator's license on demand shall be unlawful, and any person failing to surrender his or her operator's license as required by this subsection shall be guilty of a Class III misdemeanor.

(5) No operator's license referred to in this section shall, under any circumstances, be issued to any person who has not attained the age of seventeen years.

(6) No operator's license shall be issued to a person under eighteen years of age applying for an operator's license under this section unless such person:

(a) Has possessed a valid provisional operator's permit for at least a twelve-month period beginning on the date of issuance of such person's provisional operator's permit;

(b) Has not accumulated three or more points pursuant to section 60-4,182 during the twelve-month period immediately preceding the date of the application for the operator's license; and

(c) Has surrendered the provisional operator's permit to the examiner.

(7) The department shall waive the written examination and the driving test required under this section for any person seventeen to twenty-one years of age applying for his or her initial operator's license, except a commercial driver's license or permit, if he or she has been issued a provisional operator's permit.

May 18, 1999

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Mr. President, Mr. Speaker, and Members of the Legislature:

With this letter, I am returning LB 880 with certain line-item reductions. The General Fund vetoes in LB 880 amount to a total of $14.9 million over the next two year. A list of the individual vetoes is attached, showing a total General Fund reduction of $6.3 million in FY1999-00 and $8.6 million in FY2000-01.

I commend the Appropriations Committee and your entire Body for the hard work you have done on the budget bills. You have held the line and focused your attention on matters of crucial importance to the people of this state: education, public safety, essential services for those with special needs, and maintenance of the state's facilities infrastructure, while reserving flexibility to provide relief to the taxpayer. We are in agreement on the vast majority of budget decisions.

I have reduced the funding increase for a staff attorney within the Supreme Court by $50,000 General Funds in FY1999-00 and $54,976 General Funds in FY2000-01 as these amounts were not included in my original budget recommendations. I have left intact money to provide salary equity improvements within the court system and funding for additional probation officers.

I support the continued appropriation of state funding for core services delivered by Educational Service Units; however, I have vetoed the 2.5% automatic annual growth increases of $242,500 in FY1999-00 and $491,062 in FY2000-01. I continue to believe that automatic increases establish a dangerous precedent and are an unwise abdication of budgetary discretion.

Higher than anticipated insurance premium tax receipts have produced an opportunity to reduce the General Fund appropriation for state aid to schools in FY1999-00 by $2,950,055 and in FY2000-01 by $3,023,807. The increase in insurance premium tax funds available for distribution allows for this General Fund savings while maintaining the $594,042,250 total state aid amount certified to schools pursuant to the passage of LB 149 earlier this session.

The recent expressions of concern and an apparent lack of consensus have revealed a need to reassess the original objectives for a statewide assessment of academic achievement. Consistent with the Legislature's action, I have adjusted funding for the statewide assessment and accountability initiative in the Department of Education to reflect the level currently approved by the Legislature in LB 144.

The General Fund appropriation to Health and Human Services for Regional Center operations for FY2000-01 is reduced by $1,875,761. Providing mental health services in communities close to home for persons who do not need inpatient hospital care is an important initiative for the state. It reinforces the idea that mental illness need not remove people from society, and that proper treatment and outpatient care can enable people to function effectively in their communities. Community-based services also allow the state to access federal matching funds for the care provided. My veto restores the General Fund savings which were part of my original recommendation in transferring resources from the Regional Center budget to the community-based mental health aid budget. With the addition of federal matching funds, there is no reduction in the base amount provided for care for the mentally ill as the result of this transfer. I am leaving in place the additional federal funds which the Legislature added to maintain the current level of community-based aid in the areas of alcohol and drug abuse treatment and mental health.

The General Fund appropriation for Public Assistance is reduced by just over $2 million for the biennium. The remaining allocation includes the full amount requested for utilization and cost increases, along with half the amount requested for additional child welfare services. It is my belief that the Health and Human Services System can administer the program adequately within the remaining appropriation.

Significant increases of over $860,000 each year for coordination and services for the elderly were included in my original budget recommendation. The Legislature's budget added another $640,000 each year above the level requested by the Health and Human Services System and included in my recommendation. My veto reduces $320,000 of that additional General Fund appropriation each year of the biennium, leaving a total of $1.18 million per year in new funding.

I have vetoed $150,000 of the $300,000 General Fund increase for aid to libraries for each year of the biennium. The additional new funding that remains will create new opportunities for public library patrons statewide in such areas as interlibrary loans, on-line full text periodicals, and the expansion of materials to be offered to the public.

The Natural Resources Commission provides assistance to landowners to decommission water wells that are no longer in use. The program currently receives $99,000 each year from the General Fund. With the passage and implementation of LB 92, funding from well registration fees will increase program funding by an estimated $178,000 a year. I have vetoed the General Fund portion of the water well decommissioning funding, with the exception of $20,000 in FY1999-00. The $20,000 will provide funding until LB 92 becomes effective 90 days after the end of the legislative session. Even without the General Fund support, total program funding is estimated to increase by about 80% over current appropriations.

I have vetoed $48,086 General Funds in FY1999-00 and $37,486 General Funds in FY2000-01 that would have added an accountant position within the DAS Building Renewal Task Force. I am not convinced that this position is needed at this time. Also, as the division's maintenance funding sources increase during the next biennium, through the implementation of building depreciation assessment charges, I believe it is appropriate to begin financing the division's increasing administrative costs from the Building Renewal Allocation Fund rather than the General Fund.

Pursuant to the Legislative intent language contained in LB 605, I have reduced the FY2000-01 General Fund transfer to the Ethanol Production Incentive Cash Fund by $1,000,000. This action serves to align the amount of the transfer contained in LB 880 with the Legislature's intended $5,000,000 General Fund transfer for FY2000-01.

I urge you to sustain these reductions.

Sincerely,
(Signed) Mike Johanns
Governor

May 18, 1999

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Mr. President, Mr. Speaker, and Members of the Legislature:

With this letter, I am returning LB 805A with line-item reductions.

Section 2 of LB 805A would make a direct appropriation from the Severance Tax Fund to the State Energy Office. The only allowable uses of the Severance Tax Fund are transfers of up to $300,000 per year to the State Energy Office Cash Fund, transfers of up to $30,000 per year to the Governor's Policy Research Office for administration of the Municipal Natural Gas Regulation Revolving Loan Fund, and any remaining balance must be credited to the permanent school fund. There is no provision for a direct appropriation to the State Energy Office. Therefore, I am reducing the $50,000 appropriation for both FY1999-00 and FY2000-01.

Section 3 of LB 805A would made a transfer of $50,000 for each of FY1999-00 and FY2000-01 from the State Energy Office Cash Fund into a new administratively created cash fund for the Legislative Council. The Energy Office Cash Fund is utilized to administer the Energy Office and its programs and a significant portion of the Fund is used to obtain Federal matching dollars for those programs. A transfer of $50,000 per year from this Fund would be multiplied by the loss of Federal monies and would severely impair the operation and programs of the State Energy Office. Therefore, I am reducing the transfer of $50,000 in each of FY1999-00 and FY2000-01.

The remaining appropriations in Sections 1 and 4 of LB 805A will allow for the study proposed in LB 805 to proceed.

Because of the adverse implications of the proposed cash transfer and the statutory issues involved, I urge you to sustain my veto.

Sincerely,
(Signed) Mike Johanns

Dear Mr. President, Mr. Speaker, and Members of the Legislature:

I am returning LB 877 with my signature and with line-item reductions.

I am reducing the General Fund appropriation in Section 19 by $10,070 in FY1999-00 and $5,454 in FY2000-01, to bring the appropriation into conformity with the needed amount.

I urge you to sustain this reduction.

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Mr. President, Mr. Speaker, and Members of the Legislature:

I am returning LB 878 with my signature and with certain line-item reductions.

For the appropriations relating to juvenile services facilities in the Department of Health and Human Services, I am leaving in $1,150,555 of the $2.5 million appropriated for fiscal year 1999-00 to address specific concerns at the Youth Rehabilitation and Training Centers (YRTC's) at Kearney and Geneva. I am also leaving in $2.2 million in the second year of the biennium which is appropriated to the Department of Administrative Services to provide for necessary improvements at the Kearney and Geneva facilities.

I strongly concur that the Department of Health and Human Services needs to develop a facilities master plan for the juvenile services system. Therefore, I am leaving in an appropriation of $150,000 of State Building Funds for a master plan. Should the plan dictate the need for capital construction projects, I am leaving in an additional $50,000 for the department to complete program statements for those projects deemed to be of the highest priority. In this way, it will be possible for us to move ahead in this area in subsequent years in a responsible, coordinated fashion, based on solid planning and prioritization of needs.

I understand the Legislature's concern about conditions on both campuses of the YRTC's, especially those which have centered around the Dunbar Cottage at Geneva. I want to assure the Legislature that needed renovations will receive high priority within my administration. Contracts have already been signed to accomplish $625,000 worth of repair on Dunbar Cottage. The Building Renewal Task Force is providing for removal and replacement of exterior windows and main entry doors and insulation of the attic. The Department of Health and Human Services is replacing the existing steam heating system, including radiators, piping, and asbestos and installing a new mechanical system, new fire sprinklers and alarm system, and fire-rated sheet rock attic joists to meet codes. In addition, new electrical outlets are being installed in each room. Existing bath and shower areas are being remodeled, as well as the kitchenette. New drop ceilings and soffits are being installed in the corridors, along with new light fixtures. Waterproofing, sidewalk, and grade improvements are being accomplished around the outside of the building.

The concerns rightly expressed about this facility have been heard and heeded. These improvements are needed immediately, and the work is underway. In addition, you need to know that $696,800 of fire and life safety projects, window projects relating to security, and air conditioning improvements have been requested for the YRTC campuses. Building Renewal allocations in the amount of $238,725 have already been approved, with projects underway at the Food Service Building and Sacajawea Cottage at Geneva, and at Dickson Cottage and Morton Cottage at Kearney. My

recommendation leaves in an additional $458,075 to speed the accomplishment of the remaining projects.

An improvement which has not been requested, but which I feel deserves priority attention, involves installation of remote door locking systems where needed throughout the living units at the YRTC's. The work would include addition of electric strikes, door modifications, wiring and central control panels. A similar project is being completed currently at the Nebraska Center for Women. Based on estimates for that project, I am leaving in $492,480 to accomplish this needed renovation at Dunbar, Sandoz, Burroughs, and Sacajawea Cottages on the Geneva campus, and at Dickson Cottage on the Kearney campus. Other cottages at Kearney have either unlocked doors or open bay dormitories, so there are no individual room locks.

I believe that these improvements are necessary so that these facilities will be adequate in terms of safety and security until such time as the facilities plan can be completed.

Since our current statutes require submission of an acceptable program statement and completion of a comprehensive capital facilities plan before capital construction funding can be requested, I am not endorsing the second year funding for any specific project(s). Decisions on which projects move forward must be an outgrowth of the capital facilities plan and the program statements. The funds will remain in reserve until the required preliminary steps have been accomplished.

I urge you to endorse this phased solution and sustain my veto reductions.

Sincerely,
(Signed) Mike Johanns
Governor

LEGISLATIVE BILL 881. Placed on Select File as amended.
E & R amendment to LB 881:
AM7154

1. Strike the original sections and all amendments thereto and insert the following new sections:

"Section 1. Sections 1 to 4 of this act shall be known and may be cited as the Relief to Property Taxpayers Act.

Sec. 2. The purpose of the Relief to Property Taxpayers Act is to provide property tax relief for property taxes levied against real property. The property tax relief will be made to owners of real property in the form of a property tax credit.

Sec. 3. The Relief to Property Taxpayers Cash Fund is created. The fund shall only be used pursuant to the Relief to

Property Taxpayers Act. Any money in the fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act.

Sec. 4. (1) For tax year 2000, the amount of relief granted under the Relief to Property Taxpayers Act shall be thirty-five million dollars. For tax years after 2001, the amount of relief granted under the act shall be equal to the amount appropriated or transferred to the Relief to Property Taxpayers Cash Fund by August 16. It is the intent of the Legislature to fund the Relief to Property Taxpayers Act for tax years 2001, 2002, and 2003 using available excess revenue. The relief shall be in the form of a property tax credit which appears on the property tax statement.

(2) To determine the amount of the property tax credit, the county treasurer shall multiply the amount disbursed to the county under subsection (4) of this section by the ratio of the real property valuation to the real property valuation in the county. The amount determined shall be the property tax credit for the property.

(3) If the property owner qualifies for a homestead exemption under sections 77-3501 to 77-3529, the homestead owner shall also be qualified for the relief provided in the act to the extent of any remaining liability after calculation of the relief provided by the homestead exemption. If the credit results in a property tax liability on the homestead that is less than zero, the amount of the credit which cannot be used by the taxpayer shall be returned to the State Treasurer by July 1 of the year the amount disbursed to the county was disbursed. The State Treasurer shall credit any funds returned under this section to the Tax Equity and Educational Opportunities Support Act Stabilization Fund until July 1, 2001, and to the Relief to Property Taxpayers Cash Fund on and after such date.

(4) The amount disbursed to each county shall be equal to the amount available for disbursement determined under subsection (1) of this section multiplied by the ratio of the real property valuation in the county to the real property valuation in the state. By September 15, the Property Tax Administrator shall determine the amount to be disbursed under this subsection to each county and certify such amounts to the State Treasurer and to each county. The disbursements to the counties shall occur in two equal payments, the first on or before January 31 and the second on or before April 1. After retaining one percent of the receipts for costs, the county treasurer shall allocate the remaining receipts to each taxing unit levying taxes on taxable property in the tax district in which the real property is located in the same proportion that the levy of such taxing unit bears to the total levy on taxable property of all the taxing units in the tax district in which the real property is located.

Sec. 5. On August 16, 2000, the State Treasurer shall transfer to the Tax Equity and Educational Opportunities Support Act Stabilization Fund any money appropriated for purposes of the Tax Equity and Educational Opportunities Support Act which is in excess of the certification made under section 79-1022. The Tax Equity and Educational Opportunities Support Act Stabilization Fund is created. Any money in the fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act. On July 1, 2001, the fund shall terminate and the State Treasurer shall transfer any money in the fund on such date to the General Fund for purposes of funding the Tax Equity and Educational Opportunities Support Act.

AM1904
1. Strike the original sections and all amendments

thereto and insert the following new sections:

"Section 1. Section 13-2042, Reissue Revised Statutes of Nebraska, is amended to read:

13-2042. (1) A disposal fee of one dollar and twenty-five cents is imposed for each six cubic yards of uncompacted solid waste, one dollar and twenty-five cents for each three cubic yards of compacted solid waste, or one dollar and twenty-five cents per ton of solid waste disposed of at landfills regulated by the department. Each operator of a landfill disposal facility shall make the fee payment quarterly. The fee shall be paid quarterly to the department on or before the forty-fifth day following the end of each quarter. For purposes of this section, landfill has the same definition as municipal solid waste landfill unit in 40 C.F.R. part 258, subpart A, section 258.2.

(2) ~~The department shall exempt a landfill operator from the disposal fee imposed by this section for solid waste that is disposed pursuant to a contract shown to have been in effect on or before December 15, 1991, if such contract requires the landfill operator to dispose of solid waste without a mechanism for a price increase for a period of not less than one year. Such exemption shall terminate at the earlier of the following dates: (a) The date such contract allows for a price increase; (b) the expiration of such contract; or (c) July 1, 1994.~~

~~(3)~~ Each fee payment shall be accompanied by a form prepared and furnished by the department and completed by the permitholder. The form shall state the total volume of solid waste disposed of at that facility during the payment period and shall provide any other information deemed necessary by the department. The form shall be signed by the permitholder.

~~(4)~~ (3) If a permitholder fails to make a timely payment of the fee, he or she shall pay interest on the unpaid amount at the rate specified in section 45-104.02, as such rate may from time to time be adjusted.

~~(5)~~ (4) This section shall not apply to a site used solely for the reclamation of land through the introduction of landscaping rubble or inert material.

~~(6)~~ (5) Fifty percent of the total of such fees collected in each quarter shall be remitted to the State Treasurer for credit to the Integrated Solid Waste Management Cash Fund and shall be used by the department to cover the direct and indirect costs of regulating and monitoring facilities during and after operation of facilities or performance of regulated activities under the Integrated Solid Waste Management Act. Of the amount credited to the Integrated Solid Waste Management Cash Fund, the department may disburse amounts to political subdivisions for costs incurred in response to and remediation of any solid waste disposed of or abandoned at dump sites or discrete locations along public roadways or ditches and on any contiguous area affected by such disposal or abandonment. Such reimbursement shall be by application to the

department on forms prescribed by the department. The department shall prepare and make available a schedule of eligible costs and application procedures which may include a requirement of a demonstration of preventive measures to be taken to discourage future dumping. The department may not disburse to political subdivisions an amount which in the aggregate exceeds five percent of total revenue from the disposal fees collected pursuant to this section in the preceding fiscal year. These disbursements shall be made on a fiscal-year basis, and applications received after funds for this purpose have been exhausted may be eligible during the next fiscal year but are not an obligation of the state. Any eligible costs incurred by a political subdivision which are not funded due to a lack of funds shall not be considered an obligation of the state. In disbursing funds under this section, the director shall make efforts to ensure equal geographic distribution throughout the state and may deny reimbursements in order to accomplish this goal.

~~(7)~~ (6) The remaining fifty percent of the total of such fees collected per quarter shall be remitted to the State Treasurer for credit to the Waste Reduction and Recycling Incentive Fund. For purposes of determining the total fees collected, any amount of fees rebated pursuant to section 13-2042.01 shall be included as if the fees had not been rebated, and the amount of the fees rebated pursuant to such section shall be deducted from the amount to be credited to the Waste Reduction and Recycling Incentive Fund.

~~(8)~~ (7) The council shall adopt and promulgate rules and regulations for the distribution of grants under subsection ~~(7)~~ (6) of this section from the proceeds of the fees imposed by this section to counties, municipalities, and agencies for the purposes of planning and implementing facilities and systems to further the goals of the Integrated Solid Waste Management Act. The fees collected pursuant to this section shall not be used as grant proceeds to fund landfill closure site assessments, closure, monitoring, or investigative or corrective action costs for existing landfills or landfills already closed prior to July 15, 1992. The rules and regulations shall base the awarding of grants on a project's reflection of the integrated solid waste management policy and hierarchy established in section 13-2018, the proposed amount of local matching funds, and community need.

Sec. 2. Section 81-1558, Reissue Revised Statutes of Nebraska, is amended to read:

81-1558. There is hereby created within the state treasury a fund to be known as the Nebraska Litter Reduction and Recycling Fund. The proceeds of the fee imposed by sections 81-1559 to 81-1560.02, money received by the department as gifts, donations, or contributions toward the goals stated in section 81-1535, and money received by the department for nonprofit activities concerning litter reduction and recycling, including, but not limited to, honoraria, literature furnished by the

department, and funds realized as reimbursement for expenses in conducting educational forums, shall be remitted to the State Treasurer for credit to such fund to be used for the administration and enforcement of the Nebraska Litter Reduction and Recycling Act. Any money in the fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act. ~~On or before December 1, 1994, and each year thereafter, the director shall direct the State Treasurer to transfer all amounts remitted to the department pursuant to section 81-1561, raised in the previous fiscal year from the Nebraska Litter Reduction and Recycling Act, which are in excess of eight hundred thousand dollars to the Waste Reduction and Recycling Incentive Fund. (2) The members shall serve staggered terms of four years. The appointment of the initial members may be for less than four years to ensure members serve staggered terms. The Governor shall appoint the initial members of the board not later than ninety days after the operative date of this act. Members appointed under this section shall have knowledge regarding the production, handling, processing, and retailing of organic agricultural products. Except for the initial appointments under subdivisions (2)(a) through (2)(c) of this section, members appointed under such subdivisions shall be certified under the Organic Agriculture Act. The members of the board shall be appointed as follows:

(a) Five individuals who operate farms producing organic agricultural products, at least one of whom is a producer of livestock, and at least one of whom is a producer of an agricultural commodity other than livestock. To qualify for appointment, an individual must have derived a substantial portion of his or her income, wages, or salary from the production of organic agricultural products for three years prior to appointment;

(b) Two individuals who operate businesses which process organic agricultural products. To qualify for appointment, an individual must have derived a substantial portion of his or her income, wages, or salary from processing organic agricultural products for three years prior to appointment;

(c) One individual who is either:

(i) An individual who operates a business handling organic agricultural products. To qualify for appointment, an individual must have derived a substantial portion of his or her income, wages, or salary from handling organic agricultural products for three years prior to appointment; or

To qualify for appointment, the individual must be a member of an organization representing the public interest, consumers, or the environment. The individual must not have a financial interest in the production, handling, processing, or selling of organic agricultural products.

(3) A vacancy on the board shall be filled in the same manner as an original appointment. An individual appointed to fill a vacancy shall serve only for the unexpired portion of the term.

A member is eligible for reappointment. The Governor may remove a member based on the member's misfeasance, malfeasance, or willful neglect of duty or other just cause, after notice and hearing unless the notice and hearing is expressly waived in writing.

(4) Six members of the board constitute a quorum and the affirmative vote of a majority of the members present is necessary for any substantive action to be taken by the board. The member who has a conflict of interest shall not participate in any action by the board relating to the conflict, and a statement by a member that the member has a conflict of interest is conclusive for this purpose. The fact that a member is regulated under the act does not constitute a conflict of interest. A vacancy in the membership does not impair the right of a quorum to exercise all rights and perform all duties of the board.

(5) The members shall be reimbursed for all actual expenses incurred in the performance of their duties as members as provided in sections 81-1174 to 81-1177.

(6) If a member has an interest, either direct or indirect, in a contract to which the board is or is to be a party, the member shall disclose the interest to the board in writing. Sec. 4. The Organic Standards Board shall:

(1) Assist the department in the development and interpretation of requirements of the Organic Agriculture Act;

(2) Designate one or more accreditors to monitor and provide oversight of organic certification agencies. Only certification agencies who are accredited by a designated accreditor will be allowed to certify organic agricultural products, producers, handlers, and processors of organic agricultural products; and

(3) Establish procedures pursuant to rules and regulations adopted and promulgated by the department governing the appeals of decisions made by the accredited certification agencies, the board, or the department under the act. Such appeals shall be according to the Administrative Procedure Act.

Sec. 5. The department, upon approval by the board, shall adopt and promulgate all rules and regulations necessary to administer the Organic Agriculture Act. The rules and regulations shall include requirements for disciplinary action and the issuance of stop-sale orders as provided in the act. The department shall also adopt and promulgate rules and regulations regarding the qualifications of departmental personnel responsible for implementing and administering the act. The rules and regulations

adopted under this section shall be consistent with federal regulations adopted pursuant to the federal Organic Foods Production Act of 1990, 7 U.S.C. 6501 et seq.

Sec. 6. (1) Except as provided in subsection (2) of this section, a person shall not sell or advertise an agricultural product as an organic agricultural product unless the agricultural product or the producer, handler, or processor of the agricultural product is certified by a certification agency accredited under the Organic Agriculture Act and the product is produced and handled in accordance with standards established by such accredited certification agency.

(2) Certification prior to the sale or advertising of an agricultural product as an organic agricultural product is not required for:

(a) A retailer who is not also the producer, handler, or processor of the agricultural commodity being sold or advertised as an organic agricultural product; and

(b) A producer, handler, or processor of an organic agricultural commodity who receives five thousand dollars or less in gross income per year from the sale of agricultural products.

(3) If a retailer who is not required to be certified under subsection (2) of this section sells bulk products or products susceptible to contamination, such retailer shall participate in an annual one-day training session for maintaining the integrity of the organic agricultural product. For purposes of this subsection, the sale of bulk products means the sale of agricultural commodities that are open to selection by the consumer, and products susceptible to contamination means organic agricultural products which are packaged in permeable or semipermeable membranes.

Sec. 7. (1) A person certified by a certification agency accredited under the Organic Agriculture Act shall label or mark organic agricultural products with the label or seal of the accredited certification agency identifying such products as organic agricultural products if such products are produced and handled in accordance with standards established by such accredited certification agency.

(2) The contents of a label advertising an organic agricultural product and the requirements for the seal shall meet the requirements established by the accredited certification agency.

Sec. 8. The department and the Attorney General shall enforce the Organic Agriculture Act. The Attorney General may commence legal proceedings in the district court of the county where the agricultural product is being produced, handled, processed, or sold at the request of the department or the board or upon the Attorney General's own initiative in order to enforce the act and the rules and regulations adopted and promulgated pursuant to the act. The Attorney General and the department are not

required to institute a proceeding for a minor violation if the Attorney General or department concludes that the public interest will be best served by a suitable notice of warning in writing.

Sec. 9. Any person may file a complaint with the department regarding a violation of the Organic Agriculture Act. The department shall adopt procedures for filing complaints and for processing complaints including requiring minimum information to determine the verifiability of a complaint. During the investigation of a complaint the department may conduct:

(1) An investigation to determine if a person is complying with the requirements of the Organic Agriculture Act and the accredited certification agency;

(2) Inspections at times and places and to an extent that the department determines necessary in order to conclude whether an organic agricultural product is being produced, handled, processed, or sold in accordance with the act and the accredited certification agency requirements. The department may inspect records required to be maintained by the accredited certification agency. The department may enter upon any public or private premises during regular business hours in a manner consistent with the laws of this state and the United States; and

(3) Examinations of organic agricultural products in order to determine if the products are produced, handled, processed, and sold in compliance with the act and the accredited certification agency requirements.

Sec. 10. (1) If a person sells an agricultural product as an organic agricultural product in violation of the Organic Agriculture Act or any rule or regulation adopted and promulgated under the act, the department may issue a written order to stop the sale of the agricultural product by a person in control of the agricultural product. The person named in the order shall not sell the item until the department determines that there is compliance with the act.

(2) The department may require that the agricultural product be held at a designated place until released by the department.

(3) The department or the Attorney General may enforce the order by petitioning the district court of the county where the agricultural product is being sold.

(4) The department shall release the agricultural product when the department issues a release order upon satisfaction that legal requirements compelling the issuance of the order are satisfied. The board must approve a delay in issuing a release order within three months after requiring that the agricultural product be held. If the person is found by the court to have violated the act, the person shall pay all expenses incurred by the department in connection with the agricultural product's removal.

Sec. 11. The Attorney General, the department, a political subdivision, or any other person may bring an action in

district court of the county where the agricultural product is being produced, handled, processed, or sold to restrain a producer, processor, handler, or retailer from selling an agricultural product by false or misleading advertising claiming that the agricultural product is organic. A petitioner is not required to allege facts necessary to show, or tending to show, a lack of adequate remedy at law, or that irreparable damage or loss will result if the action is brought at law or that unique or special circumstances exist.

Sec. 12. A person who violates the Organic Agriculture Act or any rule or regulation adopted and promulgated pursuant to the act is subject to a civil penalty of not more than five thousand dollars. Civil penalties shall be assessed by the district court in an action initiated by the Attorney General. Each day that the offense continues constitutes a separate offense. Civil penalties collected under this section shall be remitted to the State Treasurer for credit to the permanent school fund.

Sec. 13. This act becomes operative on January 1, 2000.

Dear Mr. President, Mr. Speaker, and Members of the Legislature:

I am returning LB 556 and LB 556A without my signature and with my objections.

I disagree with the requirement that Douglas, Lancaster, and Sarpy Counties use an alpha-numeric license plate system. This would be inconsistent with the system used for the rest of the State. Citizens wishing to retain a county designation instead of alpha-numeric license plates would be required to pay a $30.00 per year, personalized message plate fee.

I urge you to sustain my vetoes of LB 556 and LB 556A.

Sincerely,

Dear Mr. President, Mr. Speaker and Members of the Legislature:

I am returning LB 350A with my signature and with a line-item reduction.

I am reducing the General Fund appropriation by $60,000 in FY 1999-00 based on updated cost estimates received from the Supreme Court.

I urge you to sustain this reduction.

State Capitol

Dear Mr. President, Mr. Speaker and Members of the Legislature:

I am returning legislative bills 202 and 202A without my signature and with my objections.

LB 202 would extend the sunset date of the Partnerships for Economic Development Act from June 30, 1999 to June 30, 2003. LB 202A would provide $250,000 General Funds for both FY 2000 and FY 2001 for grants authorized by the act.

The act is a temporary mechanism for stimulating economic development partnerships. Extending the sunset transforms it into a potential ongoing local subsidy. In light of our mutual responsibility to slow spending growth, I ask that you sustain my veto and let the act conclude consistent with existing law.

Sincerely,
(Signed) Mike Johanns

Dear Mr. President, Mr. Speaker, and Members of the Legislature:

I am returning LB 148A with my signature and with line-item reductions.

The General Fund appropriation for fiscal years 1999-2000 and 2000-2001

is reduced by $235,000 each year. It is my belief that the respite program as envisioned by LB 148 can be implemented with the amount of General Fund remaining, as it appears that those funds can be supplemented with federal matching funds. I am asking the Department of Health and Human Services to take any necessary administrative action to secure additional federal funds to enable the respite services program to move forward as planned.

I urge you to sustain these reductions.

Sincerely,

Dear Mr. President, Mr. Speaker, and Members of the Legislature:

With this letter, I am returning LB 144 with my signature and with certain line-item reductions. These reductions serve to harmonize LB 144 with the line-item reductions sustained by the Legislature in the Department of Education appropriations contained within LB 880.

I urge you to sustain these reductions.

Dear Mr. President, Mr. Speaker and Members of the Legislature:

I am returning LB 131A with my signature and with a line-item reduction.

I am reducing the General Fund appropriation by $7,500 for FY 1999-00. The remaining appropriation in LB 131A and appropriations provided for in LB 880 are sufficient to meet the costs associated with implementation of LB 131.

I urge you to sustain this reduction.

Mr. President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Mr. President, Mr. Speaker, and Members of the Legislature:

I am returning LB 76 and LB 76A without my signature and with my objections.

The reasons for my veto of this legislation are two-fold: first, I believe that the two-year moratorium provision contained within the bill is poor public policy and, second, I believe that the legal issues surrounding enactment of this legislation would, at a minimum, be utilized to advance further unnecessary criminal appeals by those currently sentenced to death row in Nebraska.

In reaching my decision, I have given careful consideration to arguments asserted by sponsors of the legislation, ardent supporters and opponents of the death penalty, church leaders, the legal opinions issued by the Attorney General and the Chairman of the Judiciary Committee, and input from Nebraska citizens.

My policy and legal concerns center upon the moratorium provisions of LB 76 which would bar the Nebraska Supreme Court from setting, within the next two years, a date for execution of a death sentence which has already been imposed upon any current inmate. The rationale for this moratorium is that a study of all criminal homicide cases which have occurred within the past 26 years could be completed. In theory, this study would provide some sort of analysis as to whether the death penalty has been fairly imposed. I am not convinced that such a study is warranted. Furthermore, even if a study were to be conducted, there is no necessary coupling of a moratorium requirement to that study.

Questions as to the constitutionality of a moratorium requirement are also significant. While the ultimate resolution of those questions would be made by the courts, I firmly believe that the moratorium provisions of LB 76 would serve to bolster further criminal appeals. Our State allows unlimited post-conviction appeals. Therefore, these cases are reviewed over and over again for years. A moratorium of two years would simply add further delay to a system that is already filled with seemingly endless appeals. Further, I believe

this legislation would create additional legal uncertainty in our criminal justice system.

Finally, I focus on the families of the victims and the victims themselves. The death penalty is the law of our State. I feel strongly that part of my role as Governor is to do all that I can to carry out the law for the benefit of the victims and their families. The moratorium would be just one more roadblock to bringing closure for them.

Sincerely,

Dear Mr. President, Mr. Speaker and Members of the Legislature:

I am returning LB 54A with my signature and with line-item reductions.

Twelve-month funding is not needed in the first year because LB 54 does not contain the emergency clause. In addition, the provisions of the legislation can be successfully implemented at a lower cost than provided for in LB 54A.

Accordingly, I am reducing the General Fund appropriation by $141,793 in FY 1999-00 and $67,241 in FY 2000-01.

I urge you to sustain these reductions.

Sincerely,
(Signed) Mike Johanns
