

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE  
Transcriber's Office

January 13, 1999

began scheduling them at the end of the day instead of early in the morning. And when I first came into Legislature, I believe Bill Barrett was the Speaker, and the resolutions were always first thing after the messages, and so on, then we would have resolutions. Quite often members used that time either to be late or to run around and get votes maybe for their bill. I'm...you understand what I'm saying, Doug. So that's all, as far as I'm concerned that's all legitimate too. That's the way we operate. But the resolutions, for me, in particular the ones for a person who has done some outstanding thing for the state, or a team that has won the state tournament in football or basketball or whatever, there are other things, I already have two resolutions, one person...someone has asked me to do one and I have another one in mind, and it isn't the limit. I don't do that many resolutions. That is not the point. The point to me is, this is one thing we can do for our constituents. We don't have to have a big party. We don't have to ask the lobby. The lobby doesn't have anything to do with it. It's our constituents. It's the people that vote for us that come to us and ask us to do these resolutions. And I know some of them are pro forma and we do them without thinking, maybe, but a lot of them have real feeling and emotion in them. And even limiting to eight, it seems to me a long time ago they tried to enter...they tried to limit each senator introducing ten bills. So, of course, what they did was someone else would introduce a bill that someone didn't want to. They got around that. Somebody will figure out how to get around this, too, if they really want to work at it. So, as I opened, I'm not disturbed in any way particularly except that I do think you should think about the fact that these resolutions are constituent related, and those are the people that we came here to work with and help and the ones that brought us here and allow us to be here because they voted for us. So you'll understand why I'm going to vote red on both of these resolutions. Thank you.

SENATOR COORDSEN: Thank you, Senator Crosby. Senator Chambers, please.

SENATOR CHAMBERS: Mr. President, members of the Legislature, I was not going to comment on this provision, even though I have objections to it, but mine are contrary to Senator Crosby's. I think eight is too high a number, but I was going to just let
