venomous beast. We do not waste venom. We do not use venom on that which is dead. We do not even use it to capture food, if unnecessary. It may be used to fight off predators and foes. Now were I to have made a comment like Senator Cudaback just made, that would have been a waste of venom on my part, but because of Senator Cudaback's disposition and personality, it just naturally flows from him and it did catch me somewhat off guard, but I'm back to my old viperous self. I'd like to ask Senator Schimek a question, if I have enough time.

PRESIDENT MAURSTAD: Senator Schimek.

SENATOR SCHIMEK: Yes.

SENATOR CHAMBERS: Senator Schimek, are you in favor of the underlying purpose of the bill, which is to let the state issue these cards?

SENATOR SCHIMEK: Thank you for asking that question and, yes.

SENATOR CHAMBERS: Everybody is so nice. Senator Schimek, would...

PRESIDENT MAURSTAD: One minute.

SENATOR CHAMBERS: ...it bother you if there were no restrictions placed on the use of the cards?

SENATOR SCHIMEK: Yes, it would bother me.

SENATOR CHAMBERS: Thank you. So we do have not unanimity on that particular issue, and I will see how that is worked out before I determine ultimately what I'm going to do. Since I'm not thoroughly familiar with everything in the bill, I simply am not going to vote at this time, either yea or nay.

PRESIDENT MAURSTAD: Thank you, Senator Chambers. The Chair recognizes Senator Schimek. Senator Schimek waives off. The Chair recognizes Senator Landis.

SENATOR LANDIS: Question.
