

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

February 3, 1999 LB 149

except that if the one aspect of it is going to lock us in without having discussions as to the amount of aid that we would be obligated to. And I...I...once again, I will say I don't think we can have it both ways. I don't think you can argue for the "respin" as a...where it's going to drive it below a dollar, and then argue for but henceforth we want it at a dollar. And I really would like somebody to explain to me why we are on...at February 3rd and we still have no better idea, from an aggregate standpoint, what the impact is of this. And I'm not even talking about on an individual school district basis.

PRESIDENT MAURSTAD: Time. Chair recognizes Senator Stuhr.

SENATOR STUHR: Thank you, Mr. President and members of the Legislature. I stand in support of LB 149, even though I, too, were among some of those that did not support LB 806. I feel that we have had some unintended consequences; these need to be addressed. It was pointed out that 65 percent of the schools have been impacted. From one of the testimonies, I just gathered some information that, for instance, it says Kenesaw schools stand to lose 68 percent of their aid; Silverlake stands to lose 73 percent; Bertrand, 74 percent. None of these are actually in my district. But I think that many of us, that have many schools in our district, we are seeing some negative impact. As was stated before, we do need some stability, we do need some predictability. I do have a school in my district that went from \$1.64 to \$1.10. They have been impacted negatively by about \$160,000. There simply is no further way for them to cut and not affect the quality of education. I think that the Legislature has taken a track. I believe that we need to stay on that track. We all support quality education, we think it's the most important thing, I do, to the future of this state. And I will turn my time over to Senator Bohlke, if she wants to answer any questions or make any comments. Thank you.

PRESIDENT MAURSTAD: Chair recognizes Senator Bohlke.

SENATOR BOHLKE: Senator Stuhr, thank you very much. Senator Brown, I understand that you say that you're confused. And I don't know if I can erase all of that for you here on the floor, but I'm certainly willing to have myself and legal counsel sit
