

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE  
Transcriber's Office

February 16, 1999 LB 297

Commission is the commission that's generally responsible for those four streets that form spokes out from the capitol, north, west, south, and east. And so they would be meeting with them at least once a year while this capitol project is going on, this restoration project. I should also mention to you that the Capitol Environs Commission is working on a landscaping plan for those environs at the present time. One additional thing that this bill does is it establishes a...establishes a means by which we could...well, it doesn't establish it. There is a means by which the Capitol Commission could do...have a plan for fund-raising, much as was done with the Governor's mansion. There actually is a revolving fund or a fund in the Department of Administrative Services that we could do this through, and that, frankly, is my vision, that we would ask individuals and companies to participate in this landscaping plan and to ask school children all across the state to be involved. It's really a very beautiful plan and it really needs to be part of the capitol and in the completion of the capitol. Without going into any more detail, I am going to stop and see if there are any questions. I also have a committee amendment to introduce before that discussion can occur.

SENATOR CROSBY: Thank you, Senator Schimek. You may open on the committee amendments. (See AMO221 on page 499 of the Legislative Journal.)

SENATOR SCHIMEK: Yes, Madam President, members of the body, the amendment is very simple. It simply gives the authority for the landscaping plan and makes it permissive rather than mandatory, and also makes it permissive that the Department of Administrative Services actually contract for the fountains in the courtyards. These fountains are not going to be inexpensive. It's estimated that they are about \$150,000 a piece. So what I would like to do is have this Capitol Commission begin meeting and begin devising a plan by which we could accomplish the landscaping plan for the capitol. I might mention to you that some of the shrubs and trees were planted in 1934 and have far outgrown themselves, and there really does need to be some update here. So with that, I am sure Senator Wehrbein has questions. He has his light on, and I will try to answer them.
