

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

March 1, 1999

Landis was going to bring to us, and these might have almost slipped by me, so I'm going to turn to page 724 of the Journal and see what we have on the line for the lizard this morning. On page 724, there is a motion to withdraw LB 724. Oh, but we're talking about the Transportation Committee. I'd like to ask Senator Bromm a question or two.

PRESIDENT MAURSTAD: Senator Bromm, would you be willing to respond to a question from Senator Chambers?

SENATOR BROMM: Yes.

SENATOR CHAMBERS: Senator Bromm, what is the gender of the majority of citizens in this country?

SENATOR BROMM: I do not...I am not sure that I know that, Senator Chambers.

SENATOR CHAMBERS: Well, it's like guessing the number of stars, odd or even.

SENATOR BROMM: Yeah.

SENATOR CHAMBERS: Take a guess because you're going to be...there's a 50-50 chance...

SENATOR BROMM: I got a 50 percent chance. (Laughing)

SENATOR CHAMBERS: ...you'll be right.

SENATOR BROMM: I would say it would be the female gender.

SENATOR CHAMBERS: And you're absolutely right.

SENATOR BROMM: Because they, one reason is, I suppose, they live longer normally than the male gender, is that accurate?

SENATOR CHAMBERS: Well, yes, but it's not for the reason that most people would give. There are a lot of wars and other things...

SENATOR BROMM: Sure.
