lines. They are going to stand up and do all this...

SPEAKER KRISTENSEN: One minute.

SENATOR CHAMBERS: ...talking about this is a principle and I believe this and I believe that, and none of that is true. They are taking certain positions because their party has taken that position, and the head of their party happens to be Governor. There will be some deviations from what their head person wants. There were initiatives in this Legislature that "Gentle Ben" wanted, and you could count on the demagogues supporting it generally and the "Repelicans" opposing it generally, if it was one of those that would hurt or hinder one of the political parties, and that is what is going to happen now that they've got a "Repelican" as Governor. That's why I'm glad I am free of all of that. I don't have a religious agenda. I don't have a political agenda. Nobody has to say, well, last year he was over here and this year, without an explanation, he is over there. When you know...

SPEAKER KRISTENSEN: Time.

SENATOR CHAMBERS: ...what party people belong to, you understand their agenda.

SPEAKER KRISTENSEN: Senator Quandahl.

SENATOR QUANDAHL: Yes, Mr. Speaker, I am going to make this short because that's the way that Congressional terms are supposed to be. In the constitution, they are two years. That's what Senator Wehrbein and Senator Chambers enlightened us as to some of the history behind that. I voted no against this in the committee because I feel that they should be short, and it makes the...it makes the representatives more accountable to the voters. Cost is not an issue. They have two-year terms because it gives us the opportunity, it gives the voters the opportunity every two years to throw the bums out of office if we don't like what they're doing. And so that's why I think it should remain as it is.

SPEAKER KRISTENSEN: Senator Schimek.
