LB 149

doing a vote today. If you remember, I pulled the bill off on General File in order to allow more time and at that point in time I said when we get to Select you'll be getting the numbers and we're going to try and give you all the analysis we can and have the department do the individual analysis, all the information that is possible, because there is a point then on Select File when we need to make a decision. Because, if you just follow through on how long it takes a bill to lay over after you get it to Final Reading, taking it to the Governor, the five days there, you work backwards on that time line and we need to take a vote, and I had said that on General File. Now, Senator Brown, if you would yield to a question, please.

PRESIDENT MAURSTAD: Senator Brown.

SENATOR BROWN: Yes.

SENATOR BOHLKE: Senator Brown, you said you had received an e-mail that said the data in the books may not be accurate. I wanted to be clear on the record you did not receive that e-mail from anyone in my office or anyone from the Department of Education.

SENATOR BROWN: No, I'll have to check who it was from.

SENATOR BOHLKE: Well, I'm not even asking you who it was from, but I think it's very important, that's a serious statement to be making, and everything that we have had from...this is information that schools turned in to the Department of Education right off of their AFR forms. That...I am not aware of anything that is not correct. So you may...

SENATOR BROWN: Okay.

SENATOR BOHLKE: ...check and we'd be happy to get back to whoever sent you that e-mail, but that certainly didn't come from our office or from the Department of Education. What we handed out in the notebooks last week is straight off the forms that schools fill out and turn in to the Department of Ed, and so I thought it was important to point that out. The other point that I had neglected to point out earlier is we have been talking about 22 million all along. When we plugged in the
