

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

March 8, 1999

LB 149

have...we have admitted that was a problem in our system, a problem of not being able to, within the time periods that we had set for ourselves, be...process the annual financial reports that came in. When Senator Bohlke said next year we will have a full year to process those, we will not have the actual data from the school districts any...at any different time next year than we did this year, which is at the end of November. So that nothing is going to change from this year to next in terms of the...of them having any more time to process, unless we adopt my amendment, and then we will have an extra month to work this data through. It will not be any bit different than the data that we are dealing with right now that we just received in our hands. We will have from November until either the 1st of February, which we've already missed the date, or, under my amendment, until the 1st of March, which is the date that I think that we actually could aspire to, to have the data that we received this morning. Thank you.

PRESIDENT MAURSTAD: Thank you, Senator. Senator Kristensen, on the Brown amendment.

SPEAKER KRISTENSEN: Thank you, Mr. President, members of the Legislature. Senator Wehrbein, I don't know whether you have your light on or not, but I just wanted to visit with you a little bit about the last exchange or time I had of speaking.

PRESIDENT MAURSTAD: Senator Wehrbein.

SENATOR WEHRBEIN: Yes.

SPEAKER KRISTENSEN: Senator, I...were you following my...my trail through there a little bit about what actually, in terms of what we're increasing expenditures here, this bill doesn't have an A bill because we're talking about actually changing a figure in the mainline budget as to what we pay out in state aid, so at some point in time we're going to have to suspend the rules here...

SENATOR WEHRBEIN: Yes.

SPEAKER KRISTENSEN: ...to consider this prior to running the mainline budget across.
