systems is right. I haven't...I haven't come to grips with either of those, those ways of providing fertilizer for our plants. I know that without the use of the commercial fertilizer, we wouldn't have the problems we have in north-central Nebraska with the nitrates in our water, and if we can do something to alleviate that problem or keep it from happening, I think we should do that. So, with that, I'm going to support the amendment. I think it makes good ecological sense. Thank you.

SENATOR SCHIMEK: Thank you, Senator Dierks. Senator Schellpeper, you are recognized to speak.

SENATOR SCHELLPEPER: Yes, thank you, Madam President and members. Senator Beutler, if I could ask you a couple of questions, please.

SENATOR SCHIMEK: Senator Beutler.

SENATOR BEUTLER: Yes.

SENATOR SCHELLPEPER: Senator, if I have an existing operation inside or outside or even inside, does this affect me hauling waste in this watershed?

SENATOR BEUTLER: Senator, let me ask you a couple of questions so as to be clear as to...

SENATOR SCHELLPEPER: Okay.

SENATOR BEUTLER: ...your hypothetical. When you say inside or outside, are you talking about the cold water class I (sic--A) stream watershed...

SENATOR SCHELLPEPER: Yes.

SENATOR BEUTLER: ...as defined?

SENATOR SCHELLPEPER: Yes. Yes.

SENATOR BEUTLER: Okay, and if you have...if you're an existing operator inside then it would...
