

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

March 30, 1999 LB 704

to get your license in the county that you live in, but you can also...but you also can take a driver's test in any other county, am I right there? You can get the test in another county.

SENATOR JONES: That's right. You can do everything in any county you want to except get your picture taken and actually get your driver's license. And you got to go back to the county where you reside to get that because that's happened several times in my district,...

SPEAKER KRISTENSEN: One minute.

SENATOR JONES: ...in fact, my own grandson...granddaughter did that. She actually did everything except getting her picture taken and getting the actual driver's license, and then she had to go to the county where she resided in.

SENATOR JANSSEN: Thank you, Senator Jones. These are some of the concerns that I have and I'm going to watch the debate as we move along, especially on this portion because I think we're treading on some new ground here, and I certainly don't want to be...this to be a detriment to some communities, especially in the county seats of the counties where they...this is something that does bring people into their community. With that, I'll close. Thank you.

SPEAKER KRISTENSEN: Time. Senator Vrtiska.

SENATOR VRTISKA: Thank you, Mr. Speaker, members of the body. Senator Jones, I want to follow up on the discussion regarding what Senator Janssen has been talking about. You say you think there'll be an exchange. I...this is the part of the bill that I'm going to have difficulty supporting because these smaller counties are going to end up where a lot of people work in another community, that's where they're going to get their license because that's where they'll probably be at and those counties would be at, I think, a significant loss, particularly some of the very small counties. And I guess that really bothers me because they're still going to have to maintain those offices for the purpose of ones that want them and yet they're not going to get any...they're not going to get much out of it,
