

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

April 19, 1999 LB 637

from across the other...the country, we could get that waiver. This bracket motion would allow us to do that. I think we could have a viable study, get people involved with it, it's an educational process. They saw what happened to the study that was flawed. They'd be involved with it, and we'd have a legitimate study put together here real quickly that would grant us our waiver. It's been brought to my attention that some of our federal legislators have been contacted on this. And so that is not set in stone. As we well know in this body, things change, and that's a possibility, too. I don't subscribe to the theory Senator Chambers espoused, and that was subject ourselves to a bad law and punish ourselves, and then admit we made a mistake. We have in place various means to judge, from what we've done in the past, what works and what doesn't. I was corrected, there are 43 counties in Nebraska not on the Justice System. There's one county that's trying to get on the CHARTS System, apparently. Other than that, nobody is on any of these systems, and they were...that's what we're being mandated for now some federal funds, a few dollars taken away from us on that. And these things have been supposedly were in place some time ago. In fact I have a question of Senator Wehrbein, if he'd respond, please.

PRESIDENT MAURSTAD: Senator Wehrbein, would you yield?

SENATOR WEHRBEIN: Yes.

SENATOR BAKER: I had understood that HHS had come back in the Appropriations Committee and asked for more money to correct some of these computer programs, or trying to get them up and running. Is that correct?

SENATOR WEHRBEIN: Over time they have. I do not recall a specific one this year, but over time there has been additional requests for money, yes.

SENATOR BAKER: Thank you. I guess, out west we try and learn from our mistakes, and not subject ourselves to the same ones time and again. And as the only member on the Judiciary Committee from so called out west, I continually hear this from people saying these programs aren't working, that we...HHS is supposed to be putting in, Justice and CHARTS and so on. We
