April 26, 1999 LB 271

take our time and do it right. And so I'm going to support Senator Kristensen on this. Thank you.

PRESIDENT MAURSTAD: Thank you, Senator Jones. Senator Bromm on the Kristensen amendment to the Wickersham amendment to LB 271.

SENATOR BROMM: Thank you, Mr. Lieutenant Governor. And if I sound different, it's because Senator Wickersham is monopolizing the podium, so I have to speak on this microphone. (Laugh) Seriously, colleagues, I appreciate the discussion on the bill so far, and I think it deserves a good deal of discussion. I...some of the questions I had I think would be answered by the adoption of the Kristensen amendment. Even though I want to put this in place as soon as we can in a reasonable manner, I don't want there to be mistakes or confusion or lack of education. I don't want to see...this is a big enough policy change considering the years and years that taxes have not been applied to this class of property that I think it behooves us well to do this in a deliberate manner, and I think the Kristensen amendment allows for that. I would like...I would really like to see something else happen during the interim period of time, and maybe this will happen and maybe Senator Wickersham or someone from the Revenue Committee can respond to this, but while we're waiting on the implementation of this, I would really like to see hard...as hard of numbers as possible gathered by the Revenue Department or the appropriate entity from local political subdivisions as to what the impact of this is going to be upon them. I would like to know the impact, not only in my town or my county but statewide. And the implementation date being changed, as Senator Kristensen is suggesting, would allow for that. Now I don't think there's any language in here that requires that but we're not done with the bill yet either, and I...I would like to...I would like to have Senator Wickersham or someone give me their...their thoughts and I'm not going to use...ask a specific question I don't think right this minute...their thoughts about how we could gather the information or whether there's going to be an effort to do that, to know just exactly what the impact of this law is going to be. Some...some nitpicky questions pop into my head when I think about this bill and, Senator Wickersham, I would like to ask you a question if you would grant the privilege.
