it, but establish factually that what I'm saying is not true, cannot happen, and is not likely to happen. If there's a shortfall...oh, where...is Senator Wickersham here? Because he'll answer a question on a reconsideration motion without violating a principle. And now he's gone. (Laugh) Okay, Senator Landis.

PRESIDENT MAURSTAD: Senator Landis.

SENATOR LANDIS: I regard myself as the stunt Revenue Committee Chairman in this case.

SENATOR CHAMBERS: Thank you. Senator Landis, this project has to be sold to the public in Omaha, do you agree?

SENATOR LANDIS: Yes, there has to be a vote of the people and bonds. That's part of the application process for the use of this bill so, yes.

SENATOR CHAMBERS: And they would probably have to acknowledge that they're going to have to use revenue, I meant, general obligation bonds.

SENATOR LANDIS: Likely.

SENATOR CHAMBERS: Would you support this bill if we struck general obligation bond authorization from here and said that for this project we prohibit the issuing of general obligation bonds?

SENATOR LANDIS: I would still support the bill if you were successful with that amendment. I wouldn't support the amendment itself.

SENATOR CHAMBERS: Why not?

SENATOR LANDIS: I think a general obligation bond is a legitimate tool to use in the creation of a public asset.

SENATOR CHAMBERS: But you think it's going to be necessary for this project which is being sold to the public in Omaha on the basis of its generating enough revenue.
